Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a closed meeting of the Visual Arts Advisory Panel to the National Endowment for the Arts will be held on September 13-15, September 20, and October 5, 1976 from 9:30 a.m.-6:00 p.m. in Room 1115 of the Columbia Plaza Office Building, 2401 E Street, NW., Washington, D.C.

These meetings are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of June 16, 1975, this meeting, which involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b), (4), (5), and (6)) will not be open to the public.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6377.

ROBERT M. SIMS,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 08/18/76 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

NEW FORMS

SMALL BUSINESS ADMINISTRATION

Employment and Training Administration

COMPREHENSIVE EMPLOYMENT AND TRAINING ACT (CETA) OF 1973

Designation of Fiscal Year 1977 Prime Sponsors

The Comprehensive Employment and Training Act (CETA) authorizes the Secretary of Labor to grant funds to State and local governments, and to other specified parties, to act as prime sponsors of programs to provide training and employment services to persons in need of such assistance. Notice is hereby given for the designation of 445 CETA prime sponsors for Fiscal Year 1977.

The entire list of prime sponsors is published here to inform all interested parties.

NOTE.—Wherever indicated in this material, the * will mean: An independently eligible applicant which has elected to either join a consortium or be served by another prime sponsor.

FEDERAL COMMITTEE ON APPRENTICESHIP

Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) of October 6, 1972, notice is hereby given that the Federal Committee on Apprenticeship will conduct an open meeting on Wednesday, September 8, from 9:00 a.m.-4:30 p.m.; Thursday, September 9, 1976, from 9:00 a.m.-12:00 noon in Room S-5215 (A-B-C), New Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

The agenda for the meeting on September 8 will include:

1. "THE SKY'S THE LIMIT"—(Employment and Training Administration's BAT Film on Women Apprentices).

2. Presentation on: "The Apprenticeship Outreach Program: A Summary Review".

3. Report of NASTAD (National Association of State and Territorial Apprenticeship Directors) Annual Meeting held May 1976, Milwaukee, Wisconsin.

4. Report of FCA Subcommittee on Federal-State Relations.

5. Changing Age and Educational Restrictions on Entry to Apprenticeship; Increasing Women's Participation in Apprenticeship.

The agenda for the meeting on September 9 will include:

1. Presentation on: "Awarding Post-Secondary Educational Credit for Apprenticeship Training".

2. Report of FCA Subcommittee on Goals of the Federal Committee on Apprenticeship.

3. Report of FCA Subcommittee on Equal Apprenticeship Opportunity.

Members of the public are invited to attend the proceedings. Any member of the public who wishes to file written data, views or arguments pertaining to the agenda may do so by furnishing it to the Executive Secretary at any time prior to the meeting. Thirty duplicate copies are needed for the members and for inclusion in the minutes of the meeting.

Any member of the public who wishes to speak at this meeting should so indicate in a written statement, also the nature of intended presentation and amount of time needed. The Chairman will announce at the beginning of the meeting the extent to which time will permit the granting of such requests.

Communications to the Executive Secretary should be addressed as follows:

Mrs. M. M. Winters, Bureau of Apprenticeship and Training, ETA, U.S. Dept. of Labor, 601 D Street, N.W. (Rm. 5434), Washington, D.C. 20213.

Signed at Washington, D.C. this 18th day of August 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training Administration.

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Ending of Federal Supplemental Benefit Period in Delaware

This notice announces the ending of the Federal Supplemental Benefit Period in the State of Delaware effective August 22, 1976.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Public Law 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals is up to 13 weeks or 26 weeks, depending upon the level of the rate of insured unemployment in the State. A Federal Supplemental Benefit Period commenced in the State of Delaware on February 22, 1976.

The Act also provides that a Federal Supplemental Benefit Period in a State will trigger off when the rate of insured unemployment in the State averages less than 5.0 percent over a period of thirteen consecutive calendar weeks. The benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator, if the benefit period will have been in effect for a minimum duration of 26 weeks.

DETERMINATION OF "OFF" INDICATOR

The employment security agency of the State of Delaware has determined under the Act and 20 CFR 618.19(b) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on July 31, 1976, and the immediately preceding twelve weeks, was less than 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19(b), and as authorized by the Secretary of Labor's Order 4-75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "off" indicator in the State of Delaware for the week ending on July 31, 1976, and that the Federal Supplemental Benefit Period in that State terminated on August 22, 1976.

INFORMATION FOR CLAIMANTS

Any individual to whom Federal Supplemental Benefits or Federal-State Extended Benefits were payable in the State (whether or not any payment actually was made), for any portion of the last week of the Federal Supplemental Benefit Period, will have an additional eligibility period beginning immediately following the end of the Federal Supplemental Benefit Period. During the additional eligibility period the individual will be entitled to Federal Supplemental Benefits to the same extent as if the Federal Supplemental Benefit Period continued to be in effect. The additional eligibility period will have a duration of 13 weeks, unless it is terminated sooner by reason of the beginning of a new Federal Supplemental Benefit Period in the State.

Individuals currently filing claims for Federal Supplemental Benefits will receive written notices from the Delaware Department of Labor of the end of the Federal Supplemental Benefit Period in that State and its effect on their entitlement to Federal Supplemental Benefits. The notice to any individual who will have an additional eligibility period following the Federal Supplemental Benefit Period will include information concerning potential entitlement to Federal Supplemental Benefits during the additional eligibility period.

Although the Federal Supplemental Benefit Period has terminated, an Extended Benefit Period will continue in effect in the State due to the National "on" indicator for the Federal-State Extended Benefit Program, as announced in a notice published in the FEDERAL REGISTER on February 21, 1975, at 40 FR 4722. Therefore, Federal-State Extended Benefits will continue to be payable to eligible individuals in the State.

V 41 165
AUG 24 76
UMI

Persons who wish information about their rights to Federal Supplemental Benefits or Federal-State Extended Benefits in the State of Delaware should contact the nearest State Employment Office of the Delaware Department of Labor in their locality.

Signed at Washington, D.C., on August 19, 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

BROWN SHOE CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On August 11, 1976 the Department of Labor received a petition dated August 3, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Shoe Workers of America on behalf of the workers and former workers of the Leachville, Arkansas plant of Brown Group, Inc., St. Louis, Missouri (TA-W-1,016). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with infants and children's shoes produced by Brown Shoe Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 11th day of August 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-1,015]

DETROIT AUTOMOTIVE PRODUCTS

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On August 11, 1976 the Department of Labor received a petition dated July 22, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Detroit Automotive Products, Warren, Michigan, a division of ASPRO, Inc., Westport, Conn. (TA-W-1,015). Accordingly, the Director, Officer of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with "No-Spin" differential and components produced by Detroit Automotive Products, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 11th day of August 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-794]

NORVELT CLOTHING CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-794: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 16, 1976 in response to a worker petition received on April 16, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing rainwear, carcoats, and jackets at Norvelt Clothing Company, Norvelt, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on May 14, 1976 (41 FR 20045). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Norvelt Clothing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 11.1 percent from 1973 to 1974 and declined 34.1 percent from 1974 to 1975. Employment declined in each quarter of 1975 compared to the same quarter of 1974. Average hours worked increased 6.9 percent from 1973 to 1974 and then declined 35.4 percent from 1974 to 1975.

The average number of salaried workers declined 33.3 percent from 1973 to 1974 and declined 50.0 percent from 1974 to 1975. Salaried employment declined in each quarter of 1975 compared to the same quarter of 1974.

All employment at Norvelt was terminated in December 1975 when the plant closed.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales data for 1973 were available only for the fourth quarter. Total sales by Norvelt declined in value 14.2 percent in the fourth quarter of 1974 compared to the fourth quarter of 1973. The value of sales declined 43.8 percent from 1974 to 1975. Sales declined in each quarter of 1975 when compared to the same quarter of 1974.

Production at Norvelt was identical to sales. In the fourth quarter of 1974, Norvelt produced men's raincoats and carcoats. Production was stopped in the first quarter of 1975, due to lack of orders. During the remainder of 1975, Norvelt produced men's carcoats and leisure suit jackets. All production ceased when the plant closed in December 1975.

INCREASED IMPORTS

Imports of men's and boys' outercoats and jackets increased absolutely and relative to domestic production in each year from 1971 through 1973, and then declined absolutely and relatively from 1973 to 1974. Absolute imports declined 6.1 percent from 1974 to 1975. Domestic production of men's and boys' outercoats and jackets declined 8.7 percent from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 29.8 percent and 22.9 percent, respectively in 1974 to 30.6 percent and 23.4 percent in 1975.

Imports of men's and boys' suits increased absolutely and relative to domestic production in each year from 1971 through 1975. Absolute imports increased 26.9 percent from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 12.2 percent and 10.9 percent respectively in 1974 to 17.2 percent and 14.6 percent, respectively, in 1975.

Imports of men's and boys' raincoats declined absolutely and relative to domestic production from 1971 to 1972 and then increased absolutely and relatively from 1972 to 1973. Imports declined absolutely and relatively from 1973 to 1974 and from 1974 to 1975. Domestic production of men's and boys' raincoats declined 5.0 percent from 1974 to 1975. The ratios of imports to domestic production and consumption declined from 11.5 percent and 10.4 percent, respectively, in 1974 to 8.1 percent and 7.5 percent, respectively, in 1975.

CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that customers of the manufacturer who contracted work with Norvelt in 1974 and 1975 decreased purchases of domestically made men's carcoats and leisure suits and increased purchases of imported men's carcoats and leisure suits.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's carcoats and leisure suit jackets produced at the Norvelt, Pennsylvania plant of Norvelt Clothing Company contributed importantly to the total or partial separations of the workers of the plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of men's carcoats and leisure suit jackets at the Norvelt, Pennsylvania plant of Norvelt Clothing Company who became totally or partially separated from employment on or after April 6, 1975 and before December 31, 1975 are eligible for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974. All workers who became totally or partially separated on or after December 31, 1975 are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 17th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[TA-W-1,017]

OAK INDUSTRIES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On August 11, 1976 the Department of Labor received a petition dated August 2, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of the Elkhorn, Wisconsin Division of Oak Industries, Inc., Crystal Lake, Illinois (TA-W-1,017). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the inspection and repairing of TV tuners and CATV units provided by Oak Industries, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 11th day of August 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

Office of the Secretary

[TA-W-919]

PROGRESSIVE UNIFORM MANUFACTURING CORP., PHILADELPHIA, PENNSYLVANIA

Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-919: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 7, 1976 in response to a worker petition received on June 7, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's and women's uniforms, jeans, overalls, shorts, jackets, and women's dresses and skirts at the Progressive Uniform Mfg. Corp. in Philadelphia, Pennsylvania.

The Notice of Investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24797). No public hearing was requested and none was held.

The information upon which the determination was made was obtained prin-

V 41 165 AUG 24 76 UM

cipally from officials of the Progressive Uniform Mfg. Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof, have increased either actually, or relative to domestic production, and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 10.5 percent in the first quarter of 1976 compared to the first quarter of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Progressive Uniform Manufacturing Corporation decreased 38.9 percent in quantity in the first quarter of 1976 compared to the first quarter of 1975.

Sales at the Progressive Uniform Manufacturing Corporation decreased 17.4 percent in value in the first quarter of 1976 compared to the first quarter of 1975.

INCREASED IMPORTS

Imports of women's, misses', and children's woven slacks, jeans and shorts increased in 1972 compared to 1971, decreased in 1973 and 1974, then increased 18.5 percent in 1975 compared to 1974, and 64.4 percent in the first quarter of 1976 compared to the first quarter of 1975. The ratio of imports to domestic production decreased each year from 1972 through 1974, then increased from 23.9 percent in 1974 to 24.8 percent in 1975.

Imports of men's and boys' woven cotton and man-made fiber trousers and shorts, excluding uniforms, increased in 1972 compared to 1971, decreased in 1973, then increased in 1974 through the first quarter of 1976. Imports increased 34.7 percent in 1975 compared to 1974, and 30.7 percent in the first quarter of 1976 compared to the like period of 1975. The ratio of imports to domestic production decreased in 1972 compared to 1971, then increased every year from 1973 through 1975. The ratio of imports to domestic production increased from 9.4 percent in 1974 to 14.8 percent in 1975.

Imports of women's, misses', juniors', girls', children's and infants' coats and jackets increased in 1972 and 1973, decreased in 1974, then increased 2.2 percent in 1975 compared to 1974, and 9.5 percent in the first quarter of 1976 compared to the like period of 1975. The ratio of imports to domestic production decreased each year from 1972 through 1975. The ratio of imports to domestic production decreased from 26.4 percent in 1974 to 21.3 percent in 1975.

Imports of men's and boys' cotton nontailored outer jackets increased in 1972 and 1973, decreased in 1974, then increased 14.6 percent in 1975 compared to 1974. The ratio of imports to domestic production increased in 1972 compared to 1971, decreased in 1973 and 1974, then increased from 14.8 percent in 1974 to 16.6 percent in 1975.

Imports of women's, misses', and juniors' woven skirts decreased in 1972 and 1973, then increased in 1974 through the first quarter of 1976. Imports increased 176 percent in 1975 compared to 1974, and 322 percent in the first quarter of 1976 compared to the first quarter of 1975. The ratio of imports to domestic production decreased in 1972 and 1973, then increased in 1974 and 1975. The ratio of imports to domestic production increased from 4.7 percent in 1974 to 10.3 percent in 1975.

Imports of women's, misses', children's, and infants' knit and woven dresses decreased each year from 1972 through 1974, then increased 1.6 percent in 1975 compared to 1974, and decreased 9.3 percent in the first quarter of 1976 compared to the first quarter of 1975. The ratio of imports to domestic production decreased in 1972 and 1973, then increased in 1974 and 1975. The ratio of imports to domestic production increased from 6.5 percent in 1974 to 7.4 percent in 1975.

CONTRIBUTED IMPORTANTLY

Customers surveyed indicated that they have decreased their purchases of clothing from the Progressive Uniform Manufacturing Corporation relative to their purchases of imported clothing.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imported men's and women's uniforms, jeans, overalls, shorts, jackets, and women's dresses and skirts contributed importantly to the total or partial separation of workers at the Progressive Uniform Manufacturing Corporation, Philadelphia, Pennsylvania. In accordance with the provisions of the Act, I make the following certification:

All workers at the Progressive Uniform Manufacturing Corporation, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after January 3, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of August 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[TA-W-1,018]

UNIVERSAL COMMUNICATIONS SYSTEMS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On August 11, 1976 the Department of Labor received a petition dated August 3, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Universal Communications Systems, Inc., Roanoke, Virginia (TA-W-1,018). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with telephone systems and equipment produced by Universal Communications Systems, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, or such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 3, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 11th day of August 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[Second Revised Exemption No. 128; Rule 19, Ex Parte 241]

EXEMPTION UNDER PROVISION OF THE MANDATORY CAR SERVICE RULES

To:

The Atchison, Topeka and Santa Fe Railroad Company.
Chicago & Eastern Illinois Railroad Company.
Chicago and North Western Transportation Company.
Chicago, Milwaukee, St. Paul and Pacific Railroad Company.
Chicago, Rock Island and Pacific Railroad Company.
Illinois Central Gulf Railroad Company.
Louisville and Nashville Railroad Company.
Missouri-Illinois Railroad Company.
Missouri Pacific Railroad Company.
St. Louis Southwestern Railway Company.
Seaboard Coast Line Railroad Company.
Southern Railway Company.
The Texas and Pacific Railway Company.

It appearing, That the thirteen railroads listed below have mutually agreed to the use of each other's empty plain cars having mechanical designations "XM", "FM"—less than 200,000 lbs., "GA", "GB", "GD", "GH", "GS", and "GT" and bearing reporting marks assigned to such carriers.

It further appearing that these thirteen railroads have mutually agreed to participate in an Expanded Clearinghouse Project in which each road will treat the cars of the other twelve roads as systems, with the Car Service Division of the AAR acting as agent.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, empty plain cars described in the Official Railway Equipment Register I.C.C.–R.E.R. No. 400, issued by W. J. Trezise, or successive issues thereof, as having mechanical designations "XM", "FM"—less than 200,000 lbs., "GA", "GB", "GD", "GH", "GS", and "GT" and bearing the following reporting marks are exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b), while on the lines of any of the above named railroads.

The Atchison, Topeka and Santa Fe Railroad Company, Reporting Marks: ATSF.
Chicago & Eastern Illinois Railroad Company, Reporting Marks: CEI Effective July 15, 1976.
Chicago and North Western Transportation Company, Reporting Marks: CNW-CGW-CMO-FDDM-MSTL.
Chicago, Milwaukee, St, Paul and Pacific Railroad Company, Reporting Marks: MILW Effective July 15, 1976.
Chicago, Rock Island and Pacific Railroad Company, Reporting Marks: RI-ROCK.
Illinois Central Gulf Railroad Company, Reporting Marks: ICG-GM&O-IC.
[1] Louisville and Nashville Railroad Company, Reporting Marks: L&N-GIL-MON-NC Effective August 15, 1976.
Missouri-Illinois Railroad Company, Reporting Marks: MI Effective July 15, 1976.
Missouri Pacific Railroad Company, Reporting Marks: MP Effective July 15, 1976.
St. Louis Southwestern Railway Company Reporting Marks: SSW Effective July 15, 1976.
[1] Seaboard Coast Line Railroad Company Reporting Marks: SCL-ACL-C&WC-SAL Effective August 15, 1976.
Southern Railway Company, Reporting Marks: SOU-AEC-CG-GF-NS-SA Effective July 15, 1976.
The Texas and Pacific Railway Company, Reporting Marks: T&P Effective July 15, 1976.

It is further ordered, That this order will become effective for specific ownerships on dates to be set by the Car Service Division as each road is phased into the Project starting July 15, 1976, the Car Service Division to issue appropriate notification to Project participants, and to advise the undersigned.

Expires February 15, 1977.

Issued at Washington, D.C., August 11, 1976.

INTERSTATE COMMERCE COMMISSION,
LEWIS R. TEEPLE,
Agent.

[FR Doc.76-24804 Filed 8-23-76;8:45 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 19, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43217—*Joint Water-Rail Container Rates—Far Eastern Shipping Company.* Filed by Far Eastern Shipping Company, (No. 5), for itself and interested rail carriers. Rates on general commodities, from ports in Republic of the Philippines, Singapore, Thailand and West Malaysia, to rail carriers terminals on the U.S. Atlantic and Gulf coasts.

Grounds for relief—Water competition.

FSA No. 43218—*Joint Water-Rail Container Rates—Pacific Far East Line, Inc.* Filed by Pacific Far East Line, Inc., (No.

[1] Effective date inserted.

VOL 41 165 AUG 24 76 UM

8), for itself and interested rail carriers. Rates on general commodities, from rail stations on the U.S. Atlantic and Gulf Seaboard, to ports in The Federation of Malaysia and the Republic of Singapore.
Grounds for relief—Water competition.

FSA No. 43219—*Joint Water-Rail Container Rates—Knutsen Line.* Filed by Knutsen Line, (No. 3), for itself and interested rail carriers. Rates on general commodities, between ports in The Federation of Malaysia, Hong Kong, Japan, Korea, The Republic of Singapore and Taiwan, and rail stations on the U.S. Atlantic and Gulf Seaboard.
Grounds for relief—Water competition.

By the Commission,

ROBERT L. OSWALD,
Secretary.

[Notice No. 108]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 19, 1976.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 C.F.R. § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and qouting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 106089 (Sub-No. 13 TA), filed August 11, 1976. Applicant: JOHN G. LANE LINES, INC., 1017 North McDuff Ave., P.O. Box 6854, Jacksonville, Fla. 32205. Applicant's representative: McCarthy Crenshaw, 1205 Universal Marion Bldg., 21 W. Church St., Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products* (not refrigerated and not frozen) *and potato chips*, from Jacksonville, Fla., to points in Alabama (except Montgomery and points in Alabama located within an area bounded by U.S. Highway 80, on the north, U.S. Highway 31, on the west, the Alabama-Florida State Lines on the south, and the Alabama-Georgia State Line on the east, and from the points in the above-described territory to Jacksonville, Fla. (limited to stale bakery products on return movement), for 150 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Dixie Darling Bakers, Inc., 825 Barnett St., Jacksonville, Fla. 32209. Send protests to: G. H. Fauss, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

No. MC 109397 (Sub-No. 336 TA), filed August 11, 1976. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: Max G. Morgan, 223 Ciudad Bldg., Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Special nuclear materials*, from Lynchburg, Va., to Sargents, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Navy Nuclear Fuel Division, Babcock & Wilcox, Box 785, Lynchburg, Va. 24505. Send protests to: John V. Barry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 600 Federal Bldg., 911 Walnut St., Kansas City, Mo. 64106.

No. MC 112288 (Sub-No. 12 TA), filed August 10, 1976. Applicant: YARBROUGH TRANSFER CO., 1500 Doune St., Winston-Salem, N.C. 27107. Applicant's representative: Charles Ephraim, Suite 600, 1250 Connecticut Ave., NW, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, which because of size or weight require the use of special equipment, between points in North Carolina, on the one hand, and, on the other, points in South Carolina, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 10 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Terrell Price, District Supervisor, 800 Briar Creek Road, Mart Office Bldg., Room CC516, Charlotte, N.C. 28205.

No. MC 114533 (Sub-No. 348 TA), filed August 9, 1976. Applicant: BANKERS DISPATCH CORP., 1106 W. 35th St., Chicago, Ill. 60609. Applicant's representative: Paul R. Bergant (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Audit media and other business records*, between Marion, Ind., on the one hand, and, on the other, Indianapolis, Ind., restricted to shipments having a prior or subsequent movement by air, for 180 days. Supporting shipper: Fisher-Body-General Offices, GMC, J. R. Murphy, Director of Traffic, 30001 Vay Dyke, Traffic Activity, Room 162-11, Warren, Mich. 48090. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1386, Chicago, Ill. 60604.

No. MC 115092 (Sub. No. 48 TA), filed August 11, 1976. Applicant: TOMAHAWK TRUCKING, INC., P.O. Box O, Vernal, Utah 84078. Applicant's representative: Walter Kobos, 1016 Kehoe Drive, St. Charles, Ill. 60174. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Escalante, Utah, to Chicago, Rockford, Peoria, Springfield, and Champaign, Ill.; Indianapolis and Fort Wayne, Ind.; Milwaukee, Madison, Green Bay and LaCrosse, Wis.; Minneapolis, Minn.; Des Moines and Davenport, Iowa; Omaha, Nebr., and all of their respective commercial zones, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Teton West Lumber Co., P.O. Box 3656, Casper, Wyo. 82602. Send protests to: Lyle D. Helfer, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5301 Federal Bldg., 125 South State St., Salt Lake City, Utah 84138.

No. MC 136848 (Sub-No. 10 TA), filed August 11, 1976. Applicant: JAMES BRUCE LEE AND STANLEY LEE, doing business as LEE CONTRACT CARRIERS, Old Route 66, P.O. Box 48, Pontiac, Ill. 61768. Applicant's representative: Edward F. Stanula, 837 E. 162nd St., South Holland, Ill. 60473. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Magazines, magazine parts, printed paper and printed inserts; and printing paper* (other than newsprint or carbonized) not printed or imprinted in rolls and sheets, from Pontiac Ill., to Milwaukee, New Berlin and Waukesha, Wis.; New York, N.Y.; Fairview, Vineland and Trenton, N.J.; Bridgeport, New Britain, North Haven and Bristol, Conn.; Indianapolis, Ind.; Des Moines, Meridith and Mt. Pleasant, Iowa; Danton, Ohio; Waseco, Minn.; Hialeah, Fla., Lavonia, Mich.; Effingham, Chicago, Bloomington, Carbondale and Centralia, Ill.; and from Bristol, Conn., to Pontiac, Crystal Lake, Effingham, Bloomington and Chicago, Ill.; Greenville, Ind.; and Printing paper, (other than newsprint or carbonized) not printed or imprinted, in rolls or sheets, between our plant and warehouse facilities at or near Pontiac, Ill., on the one hand, and our plants and warehouse facilities at or near Bristol and New Haven, Conn., on the other, for 180 days. Supporting shipper: City National Printing Co., Merle Shoop, Superintendent, 1600 N. Main St., Pontiac, Ill. 61764. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1386, Chicago, Ill. 60604.

No. MC 138177 (Sub-No. 5 TA), filed August 11, 1976. Applicant: BROWN TRUCKING, INC., 7622 Apple Valley Road, Memphis, Tenn. 38138. Applicant's representative: John Paul Jones, 189 Jefferson Ave., Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, in dump vehicles; (1) from the facilities of St. Bernard Coal Co., and C.O.R.D. Mining Company near Morgantown, Ky., and from the facilties of Alley-Cassity Coal Co., Inc., and St. Bernard Coal Co., near Nashville, Tenn., to the plantsite of Arkansas Lightweight Aggregate Corp., near West Memphis, Ark.; and (2) which has an immediate prior movement by water, from the site of a terminal at President's Island, Memphis, Tenn., to the plantsite of Arkansas Lightweight Aggregate Corp., near West Memphis, Ark., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Arkansas Lightweight Aggregate Corp., P.O. Box 1567, West Memphis, Ark. 72301. Send protests to: Floyd A. Johnson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Suite 2006, 100 North Main St., Memphis, Tenn. 38103.

No. MC 140443 (Sub-No. 2 TA), filed August 12, 1976. Applicant: CENTRAL DELIVERY SERVICE OF WASHINGTON, INC., 1101 Ripley St., Silver Spring, Md. 20910. Applicant's representative: Jeremy Kahn, Suite 733, Investment Bldg., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Checks and related bank papers*, (1) from the Baltimore Branch, Federal Reserve Bank of Richmond, Baltimore, Md., to points in the District of Columbia; points in Arlington, Fairfax, Loudoun and Prince William Counties, Va., and the cities of Alexandria, Fairfax and Falls Church, Va., and points in Berkeley, Grant, Hampshire, Hardy, Jefferson, Mineral and Morgan Counties, W. Va.; (2) from the Baltimore Branch, Federal Reserve Bank of Richmond, Baltimore, Md., to the Friendship International Airport, near Baltimore, Md., restricted to the transportation of shipments having a subsequent movement by air, and (3) from Cumberland, Md., to points in Berkeley, Grant, Hampshire, Hardy, Jefferson, Mineral and Morgan Counties, W. Va., restricted to the transportation of shipments having a prior movement by air, and (4) from points in Arlington, Fairfax, Loudoun and Prince William Counties, Va., and the cities of Alexandria, Fairfax and Falls Church, Va., and the District of Columbia, to the Baltimore Branch, Federal Reserve Bank of Richmond, Baltimore, Md., under a continuing contract with Baltimore Branch, Federal Reserve Bank of Richmond, for 180 days. Supporting shipper: Baltimore Branch, Federal Reserve Bank of Richmond, 7210 Ambassador Road, Baltimore, Md. 21207. Send protests to: Interstate Commerce Commission, 12th & Constitution Ave., NW., Room 1413, W. C. Hersman, District Supervisor, Washington, D.C. 20423.

No. MC 142004 (Sub-No. 1 TA), filed August 9, 1976. Applicant: JAMES M. BATES, doing business as BATES TRUCKING, Box 323, Tolono, Ill. 61880. Applicant's representative: Robert W. Dodd, 201 Springfield, Suite 206, Champaign, Ill. 61820. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Building materials* (except dry cement), between points in Montgomery, Fountain, Warren, Tippicanoe, Marion, Hendricks, Boone, Vigo Parke, Vermillion and Putnam Counties Ind.; points in Vermillion, Champaign and Edgar Counties, Ill., under a continuing contract with The Wiskes Corporation, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Wiskes Corporation, D. A. Kloes, Manager, Traffic & Consolidation, 515 N. Washington Ave., Saginaw, Mich. 48607. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1386, Chicago, Ill. 60604.

No. MC 142264 (Sub-No. 1 TA), filed August 11, 1976. Applicant: RAYMOND E. PATTERSON, doing business as RAY PATTERSON MOTORS, 389 East Main, Greenwood, Ind. 46142. Applicant's representative: Alki E. Scopelitis, 815 Merchants Bank Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used motor vehicles*, in truckaway service, between points in Illinois, Indiana, Kentucky, Ohio, Michigan and Tennessee, for 180 days. Supporting shippers: There are approximately 20 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: William S. Ennis, Transportation Specialist, Interstate Commerce Commission, Federal and U.S. Courthouse, 46 East Ohio St., Room 429, Indianapolis, Ind. 46204.

No. MC 142337 TA, filed August 10, 1976. Applicant: CAN-FAST EXPRESS LTD., 54 Transwell Ave., Toronto, Ontario, Canada. Applicant's representative: Morton Finkelstein (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Parts, material, supplies, and such merchandise* required for the manufacturing and/or installations produced or distributed by Honeywell, Ltd., Canada, between Ports of Entry on the United States-Canadian International Boundary in New York, Michigan and Vermont, on the one hand, and, on the other, Boston, Lawrence, Framingham, Waltham, Mass.; Philadelphia and Leechburg, Pa.; Cleveland and Akron, Ohio; Chicago, Freeport and Arlington Heights, Ill.; Detroit, Mich., restricted to service for Honeywell Limited Canada, and further restricted to transportation by air ride trailers, under a continuing contract with Honeywell Limited. Applicant intends to tack, for 180 days. Supporting shipper: Honeywell Limited, 740 Ellesmere Road, Scarborough, Ontario, Canada M1P 2V9. Send protests to: George M. Parker, District Supervisor, Room 910, 111 West Huron St., Buffalo, N.Y. 14202.

No. MC 142342 TA, filed August 12, 1976. Applicant: AGGREGATE TRANSPORT, INC., P.O. Drawer D, Albany, Ga. 31702. Applicant's representative: J. Michael May, Suite 400, 1447 Peachtree St., N.E., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand*, from Atlanta, Eden and Thomasville, Ga., to Anniston, Birmingham and Motts, Ala.; points in Colbert and Marshall Counties, Ala.; Jacksonville, Panama City, Pensacola, Port St. Joe and West Palm Beach, Fla.; Corbin, Ky.; points in Marshall and Nuhlenberg Counties, Ky.; Pascagoula, Miss.; Charleston and Copper Hill, Tenn.; and points in Anderson, Hamblen, Hardin, Jefferson, Loudon, Polk, Rhea and Warren Counties, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Dawes Mining Company, Inc., 2480 Windy Hill Road, Marietta, Ga. 30062. Send protests to: G. H. Fauss, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

No. MC 142343 TA, filed August 10, 1976. Applicant: JOSEPH MACRI, doing business as J & M TRUCKING, 8237 West Mexico, Lakewood, Colo. 80226. Applicant's representative: Joseph Macri (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Offal and inedible meat and meat by-products*, in shipper owned trailers, from Torrington and Riverton, Wyo., to Denver, Colo., under a continuing contract with Denver Recycling Company, for 180 days. MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 24, 1976.

Application filed for temporary authority under Section 210a(b) in connection with transfer application under Section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC-FC-76700. By application filed August 13, 1976, ASSOCIATED BOAT TRANSPORT, INC., 10008 126th NE., Kirkland, WA 98033, seeks temporary authority to transfer a portion of the operating rights of ASSOCIATED TRANSFER & STORAGE CO., INC., 730 N. Northlake Way, Seattle, WA 98103, under section 210a(b). The transfer to ASSOCIATED BOAT TRANSPORT, INC., of the operating rights of ASSOCIATED TRANSFER & STORAGE CO., INC., is presently pending.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-24802 Filed 8-23-76;8:45 am]

[I.C.C. Order No. 173 Under Revised Service Order No. 994]

REROUTING TRAFFIC

To all Railroads. In the opinion of Lewis R. Teeple, Agent, the Green Mountain Railroad Corporation is unable to transport traffic over its line because of track damage from flooding.

It is ordered, That, (a) The Green Mountain Railroad Corporation, being unable to transport traffic over its line because of track damage from flooding, that carrier is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date. This order shall become effective at 4:30 p.m., August 10, 1976.

(g) Expiration date. This order shall expire at 11:59 p.m., September 10, 1976, unless otherwise modified changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 10, 1976.

INTERSTATE COMMERCE COMMISSION

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

[No. 76-588]

SAVING AND LOAN ASSOCIATIONS

Director Guidelines and Certain Prohibitions and Disclosure

SUMMARY

AUGUST 18, 1976.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

I. NEW INSURANCE REGULATIONS §§ 561.29, 561.30, 561.31, 561.32, 561.33, 561.34, 561.35, 561.36, AND 561.37: DEFINITIONS—

A. *Affiliated person.* An affiliated person of an insured institution is:

1. A director, officer or controlling person of such institution;

2. The spouse of any person in (1); and

3. A member of the immediate family of any person in (1) who has the same home as such person, or who is a director, officer, or controlling person of any subsidiary or of any holding company affiliate of such institution;

4. Any corporation or organization (other than the insured institution or a corporation or organization through which the insured institution operates) of which any person in (1) is an officer or partner or is, directly or indirectly, either alone or with his spouse, the owner of 10 percent or more of any class of equity securities or the owner with other persons in (1) and their spouses of 25 percent or more of any class of equity securities; and

5. Any trust or other estate in which a person in (1) or the spouse of any such person has a substantial beneficial interest or as to which such person or his spouse serves as trustee or in a similar fiduciary capacity.

B. *Immediate family.* A person's immediate family means:

1. Such person's spouse, father, mother, children, brothers, sisters, and grandchildren;

2. The father, mother, brothers and sisters of such person's spouse; and

3. The spouse of a child, brother or sister of such person.

C. *Director.* The term "director" means any director, trustee or other person performing similar functions, but does not include advisory, honorary, or emeritus directors, unless the person is performing functions similar to those of a director.

D. *Officer.* The term "officer" means the president, any vice-president, the secretary, the treasurer, the comptroller, and any other person performing similar functions. The term also includes the chairman of the board if he is involved in operating management.

E. *Financial institution.* The term "financial institution" means any savings and loan association, savings bank, commercial bank, or similar institution, but does not include a Federal Home Loan Bank or the Bank for Savings and Loan Associations, Chicago, Illinois.

F. *Holding company affiliate.* The term "holding company affiliate" of an insured institution means a savings and loan holding company of which the insured institution is a subsidiary and any other subsidiary thereof, other than a subsidiary of the institution. With respect to a bank, the term means a bank holding company of which the bank is a subsidiary and any other subsidiary thereof.

G. *Principal supervisory agent.* The "principal supervisory agent" of the Corporation means the President of the FHLBank of the district in which the principal office of the insured institution is located.

H. *Parent company and subsidiary.* These terms are defined in §§ 583.10 and 583.14 of the Holding Company Regulations.

I. *Audit period.* The "audit period" of an insured institution means the 12-month period covered by the annual audit conducted to satisfy § 563.17-1.

II. REVISED INSURANCE REGULATION § 561.28

The term "controlling person" of an insured institution means any person or entity which, either directly or indirectly, or acting in concert with others, owns, controls or holds with power to vote, or holds proxies representing, ten percent or more of the voting shares of such institution. However, a director of an insured institution will not be deemed a controlling person thereof because he votes proxies of the owners of such institution, if such proxies were: (a) Obtained in connection with an annual proxy solicitation, or (b) obtained from savings accountholders if such proxies are voted in accordance with a majority vote of the institution's entire board of directors, or by a committee of such directors.

III. REVISED INSURANCE REGULATION § 563.17: MANAGEMENT AND FINANCIAL POLICIES

Previously required compensation to officers, directors, and employees of insured institutions and their service corporations to not be in excess of that which is reasonable and commensurate with their duties and responsibilities. Revised to make clear that the term "employees" includes former officers, directors, and employees who regularly perform services for the institution or service corporation pursuant to consulting contracts.

IV. NEW INSURANCE REGULATION § 563.33: DIRECTORS, OFFICERS AND EMPLOYEES

A. Sets forth recommended guidelines concerning composition of boards of directors of insured institutions. Such guidelines will be used in the future as conditions of insurance for newly insured institutions and apply for five years. Limitations concerning directors or officers contained in existing conditions of insurance are eliminated as to all insured institutions agreeing to follow the guidelines. The guidelines are as follows:

1. A majority to live or work in institution's normal lending territory;

2. Not more than ⅓ to be salaried officers or employees of institution or any subsidiary or holding company affiliate thereof;

3. Not more than 2 to be members of same immediate family;

4. Not more than 1 to be attorney with same law firm; and

5. a. None to be directors of another financial institution or holding company affiliate thereof other than a commercial bank or trust company; and

b. Not more than ⅓ to be directors of a commercial bank, trust company, or holding company affiliate thereof; and

c. Not more than 1 to be director of same commercial bank, trust company, or holding company affiliate thereof; and

d. None to be salaried officers or employees of other financial institutions or holding company affiliates thereof.

e. Exception from all guidelines in (5) for directors, officers, and employees of other financial institutions and their holding company affiliates if part of the same S&L holding company as the insured institution, or if neither the financial institution nor any financial institution which is a holding company affiliate thereof has an office in any county or standard metropolitan statistical area in which the insured institution has an office, or within any county or SMSA from which such insured institution receives either more than $5,000,000 in savings or 5 percent of its savings accounts.

B. Precludes salaried officers of insured institutions from becoming, and after 1978 annual meeting from continuing to serve as, salaried officers or employees of other financial institutions or holding company affiliates thereof. All exceptions in (A)(5)(e) are applicable to this prohibition.

C. Prohibits use of employees of insured institution or its subsidiaries to do work during the hours of their employment by the institution or subsidiary for any affiliated person without compensation to the institution or subsidiary.

V. REVISED INSURANCE REGULATION § 563.34: DEPOSIT RELATIONSHIPS

Revised regulation prohibits an insured institution or subsidiary thereof from having a deposit relationship with an affiliated person of the institution, or with any financial institution or holding company affiliate thereof of which an affiliated person of the institution is a director, if maintenance of such deposit relationship has been specifically disapproved by the Principal Supervisory Agent. Also prohibits a new deposit relationship of this type (including a new interlock involving an existing deposit relationship) without the approval of the Principal Supervisory Agent. Factors to be considered by the Principal Supervisory Agent are set forth.

VI. REVISED INSURANCE REGULATION § 563.35: RESTRICTIONS INVOLVING LOAN SERVICES

A. No insured institution or subsidiary thereof may make a loan on condition that the borrower contract with any specific person or organization for the following:

1. Insurance services (as an agent, broker, or underwriter), except insurance or guarantee provided by a government agency or private mortgage insurance;

2. Building materials or construction services;

3. Legal services rendered to the borrower;

4. Services of a real estate agent or broker; or

5. Real estate or property management services.

B. An insured institution or subsidiary thereof must notify home borrowers (home defined in § 541.10-2 as 1-4 family dwelling) at or prior to commitment of their right to select the person or organization rendering insurance services. However, an institution or subsidiary could refuse to make a loan if it believed on reasonable grounds that insurance services provided by the person or organization selected by borrower would afford it insufficient protection.

C. An insured institution or subsidiary thereof may require home borrowers to reimburse it for legal services rendered to it by its attorney, or to directly pay for such services, only if the fee:

1. is limited to legal services attributable to such loan;

2. if in excess of $100, is supported by a statement prepared by or on behalf of the attorney (a) describing the legal services performed, (b) setting forth the time spent and the hourly rate or other basis for determining the fee, (c) stating that such legal services are performed for the institution and not for the borrower, and (d) stating that such services are paid for by the borrower;

3. is reasonable and commensurate with the legal services performed; and

4. is separately itemized on the loan settlement sheet and identified as a fee to the lender's attorney.

VII. NEW INSURANCE REGULATION § 563.40: PAYMENT OF FEES TO AFFILIATED PERSONS

A. Prohibits affiliated persons of an insured institution from receiving, directly or indirectly, loan procurement fees from the institution, any subsidiary thereof, or any other source.

B. Applies the kickback and unearned fee prohibitions in sec. 8 of the Real Estate Settlement Procedures Act of 1974 (RESPA) to all loans by insured institutions and their subsidiaries secured by real property, whether or not covered by RESPA. (RESPA generally covers only 1-4 family loans.)

VIII. NEW INSURANCE REGULATION § 563.41: RESTRICTIONS ON REAL PROPERTY TRANSACTIONS WITH AFFILIATED PERSONS

A. Prohibits insured institutions and their subsidiaries from purchasing from, jointly owning with, selling to, or leasing from an affiliated person of such institution any interest in real property.

B. Exceptions for:

1. Joint ownerships in existence on effective date;

2. Purchases from affiliated persons of their interests in real property jointly owned on effective date;

3. Sales to affiliated persons of interest of institution or subsidiary in real property jointly owned on effective date;

4. Lease of real property on which the institution or subsidiary maintains an office or has applied to maintain an office existing on effective date;

5. Renewal of any lease in (4);

6. Purchase of real property being leased by the institution under (4) or (5); and

7. Lease (including renewals) of real property on which the institution or subsidiary will maintain an office, if the space being leased is not more than 15 percent of the total space available for lease in the office building or shopping center.

C. Exceptions (2), (3), (5), (6) and (7) are subject to the following conditions:

1. Transaction must be approved in advance by Principal Supervisory Agent;

2. Terms of the transaction must be fair to, and in best interests of, institution or subsidiary;

3. Price must be supported by independent appraisal not prepared by affiliated person of institution; and

4. Transaction must be approved in advance by a disinterested majority of the board of directors of the institution or subsidiary, with full disclosure of the terms of such transaction; information to be included in disclosure is set forth.

IX. NEW INSURANCE REGULATION § 563.43: RESTRICTIONS ON LOANS AND OTHER INVESTMENTS INVOLVING AFFILIATED PERSONS

A. Prohibits insured institutions and their subsidiaries from engaging in loan and other transactions with affiliated persons. Exceptions for loans in the ordinary course of business, not involving more than normal risk of collectibility or any other unfavorable features, which are of the following types:

1. Loans secured by a single-family dwelling owned and occupied as the borrower's principal residence;

2. Loans aggregating not more than $10,000 for constructing, adding to, improving, altering, repairing, equipping, or furnishing a single-family dwelling owned and occupied as the borrower's principal residence;

3. Loans secured by a mobile home owned and occupied as the borrower's principal residence;

4. Loans secured by savings accounts maintained by the affiliated person at the institution;

5. Loans aggregating not more than $10,000 for payment of educational expenses; and

6. Consumer loans aggregating not more than $10,000, including loans under (2).

Loans excepted under (1), (2), (3), (5) and (6) must be approved in advance by a disinterested majority of the board of directors of the institution or subsidiary, following full disclosure of the loan terms; information to be included in disclosure is set forth.

B. Prohibits insured institutions and their subsidiaries from engaging in the following types of transactions with third persons:

1. Making to or purchasing from third persons loans secured by property acquired directly from an affiliated person; exception for loans purchased through secondary market, such as FHLMC, and for loans on property which was principal residence of affiliated person prior to its sale;

2. Making or purchasing loans secured by property in which an affiliated person has a security interest;

3. Accepting securities of an affiliated person as loan collateral;

4. Maintaining compensating balances with respect to a loan by a third party to an affiliated person; and

5. Guarantees or take-out commitments with respect to a loan by a third party to an affiliated person.

X. NEW INSURANCE REGULATION § 563.45: DISCLOSURE

A. *Annual reports.* Requires an insured institution to send either an annual report, or notice of meeting stating that such report is available upon request, to members having 2 or more votes at least 20 days (30 days in the case of the notice) before each annual meeting, beginning with annual meeting in 1978. Disclosure in annual report not a defense to supervisory action.

B. *Exceptions.* Exceptions for institutions with assets under $15,000,000 or which are subject to the proxy solicitation requirements of the Securities & Exchange Act of 1934. However, institutions under $15,000,000 in assets still must file annual reports with the Corporation for any year as to which certain conditions are not met, and may be required (on an individual basis) to make their reports available under certain circumstances to persons having at least 2 votes. Also an exception for any institution:

1. Having a board of directors in accordance with the guidelines in § 563.33 (a),

2. Whose affiliated persons have not engaged in material transactions with the institution or any subsidiary thereof since the beginning of the institution's last audit period, and

3. If proxies solicited by such institution from savings accountholders and borrowers in connection with election of directors (other than in connection with an annual proxy solicitation) are voted as directed by a majority vote of its board of directors, or by a committee of such directors.

C. *Content of annual reports.* Annual reports must contain information concerning:

1. Directors and nominees for directorship, including names, ages, immediate family relationships with others in the

V 41 165
AUG 24 76
UM

institution's management, and principal occupations;

2. Similar information as to officers;

3. The voting rights of each class of persons having such rights;

4. Proxies, including the method by which management solicits proxies for election of directors, the names and positions of persons holding these proxies, and whether they are revocable;

5. Changes in controlling persons of the institution;

6. Direct remuneration of management, with total for officers and directors as a group and individual remuneration (if in excess of $40,000) for three highest paid officers and each director;

7. Annuities, pensions, and retirement benefits;

8. Loans to affiliated persons, except for loans permitted under § 563.43 (b) which are on comparable third party terms (including interest rates and collateral), with disclosure for loans at below market interest rates to officers as a group but not individually;

9. Transactions with the institution or subsidiary thereof in which affiliated persons have a material ($40,000 in the aggregate) interest, including (a) loan transactions in which such a person is acting as attorney or appraiser for the institution or subsidiary (and is not a full time salaried officer or employee thereof), builder, escrow agent, or real estate agent/broker, (b) loan transactions in connection with which such a person acts as an insurance agent/broker or underwriter, supplier of title examination or abstract services, or supplier of building materials if such person was selected by or on the basis of a referral from the institution or subsidiary, and (c) loan transactions in connection with which an affiliated person acts as a building materials supplier if the institution or subsidiary thereof knows that such person is acting in such capacity;

10. Options to purchase securities;

11. Transactions between affiliated persons and pension and other similar plans of the institution or any parent company or subsidiary thereof;

12. The business done by such institution, in brief terms; and

13. Financial statements for the institution's last two audit periods.

D. *Financial statements.* Financial statements must include statements of financial condition, income, retained earnings, and changes in financial position. They must be audited and accompanied by the accountant's report. If audited statements are not within 120 days of annual meeting, updated unaudited statements also required.

E. *Filing.* Annual report and notice of meeting to be publicly filed with Board concurrently with mailing, unless Board determines previous material to be materially deficient, in which case prior filing and authorization to use material required before mailing.

By Resolution No. 75-863, dated September 15, 1975, the Federal Home Loan Bank Board proposed to amend Parts 561 and 563 of the rules and regulations for Insurance of Accounts (12 CFR Parts 561 and 563) and Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545) in order to regulate conflicts of interest more effectively and to ensure independence of boards of directors. The proposal sought to accomplish the first objective by restricting various types of conflict of interest practices which the Board believes are unsafe and unsound or inconsistent with economical home financing. It sought to accomplish the second objective by prescribing a number of requirements concerning composition of insured institution boards of directors.

These proposed amendments were published in the FEDERAL REGISTER on September 23, 1975 (40 FR 43832-47), for public comment until November 10, 1975. This 45-day comment period followed extensive public comment in connection with the Board's preceding proposal in these areas (Board Resolution No. 74-1219; November 22, 1974; 39 FR 42382-91) which had a comment period from December 5, 1974 through February 20, 1975. In furtherance of its objectives in proposing amendments in these areas, the Board considers it desirable to adopt final amendments as described below. In conjunction with these amendments, the Board also considers it desirable to propose amendments concerning solicitation of proxies by insured institutions (Board Resolution No. 76-589; August 18, 1976).

The amendments to Parts 561 and 563 (12 CFR Parts 561 and 563) adopted by this resolution add fourteen new sections thereto and revise four existing sections thereof. The amendments to Part 545 (12 CFR Part 545) revise nine sections thereof by revoking certain provisions in these sections to the extent that such provisions are rendered inconsistent or redundant by the amendments to Parts 561 and 563. These conforming amendments to Part 545 are necessary because Federal savings and loan associations are presently circumscribed in their ability to engage in some of the practices to which the amendments to Parts 561 and 563 apply different restrictions with respect to all insured institutions. Because these amendments to Part 545 are conforming in nature and all but two were discussed in considerable detail in the preambles of both proposals, (see 40 FR 43833-43 and 39 FR 4283-88), the discussion in this resolution of the amendments to Part 545 is somewhat abbreviated. The two Federal regulation amendments which were not discussed in the proposal—amendments to §§ 545.23 and 545.6-18—are dicsussed in this preamble.

This resolution does not adopt proposed § 563.42, captioned Independent office facilities, because the Board has concluded that the problem addressed by this provision is adequately dealt with by the existing requirement of independent facilities in its agreements with insured institutions, e.g., standard Conditions of Insurance and Agreement for Operating Policies. The Board notes that nonadoption of proposed § 563.42 is not intended to abrogate any such existing requirement. It is, however, the Board's intention to consider as a separate matter whether it should in the future impose this condition selectively, based on whether a proposed nonindependent facility would or would not be appropriate to the operations of an insured institution, e.g., whether a particular proposed shared facility could be misleading to the public or otherwise inappropriate, and whether it should modify its existing agreements with insured institutions on this matter.

The Board also notes that its decision not to adopt a regulation requiring ground-floor quarters reflects its determination that no such requirement is necessary (See 40 F.R. 43834). It is therefore the Board's intention that, unlike the matter of independent quarters, nonadoption of the ground-floor quarters requirement abrogates this requirement in all its existing agreements with insured institutions.

To facilitate understanding of this complex set of amendments, each new or revised Insurance Regulation will be explained separately. As an additional aid to the reader, related amendments are discussed together under the following four headings: (I) Composition of Boards of Directors and Disclosure; (II) Deposit Relationships; (III) Restrictions Concerning Loan Services; and (IV) Restrictions Concerning Affiliated Persons.

COMPOSITION OF BOARDS OF DIRECTORS AND DISCLOSURE

A. New § 563.33: *Directors, officers and employees.* Section 563.33(a) sets forth guidelines concerning the composition of insured institution boards of directors—in place of the requirements in this area which were contained in the proposal. The Board believes these guidelines—which are generally less stringent than the proposed requirements—together with the revisions of proposed new § 563.45, captioned disclosure, will increase the independence of boards of directors of insured institutions. No insured institution which agrees in writing with the Corporation to comply with all of the guidelines need continue to comply with any present condition of insurance or provision of its agreement for operating policies concerning board composition. However, the Board plans to revise its standard conditions of insurance and agreement for operating policies so as to require institutions which become Federally-chartered or insured after the effective date of § 563.33 to comply with the guidelines for a five-year period.

Before turning to the guidelines themselves, three definitions should be particularly noted. Besides being used in the guidelines, they are used throughout the other amendments adopted by this resolution.

The term "financial institution" was defined in the proposal to mean any savings and loan association, building and loan association, homestead association, cooperative bank, mutual savings bank, commercial bank, or trust company—but not a Federal Home Loan Bank. This term has the same meaning as in the proposal, except that the Bank for Savings and Loan Associations in Chicago, Illinois, is also excluded.

The term "holding company affiliate" is new, and replaces the less explicit term "affiliate." A "holding company affiliate" of an insured institution is a savings and loan holding company of which such institution is a subsidiary (as defined in § 563.14) and any other subsidiary of such holding company other than a subsidiary of the insured institution (e.g. a service corporation). A "holding company affiliate" of a bank is a bank holding company of which the bank is a subsidiary and any other subsidiary of such holding company. The coverage of the term "holding company affiliate" and of the proposed term "affiliate" is essentially the same.

The term "subsidiary" has the same meaning as in § 584.14 of the Holding Company Regulations (12 CFR Part 584.14)—viz., an entity which is at least 25 percent controlled. This term replaces the less general term "service corporation affiliate," which was defined in terms of at least 50 percent control. This percentage test has been changed because the Board believes 25 percent ownership generally involves sufficient control to warrant characterization of the entity so owned as a subsidiary. In this connection, it should be noted that the new term "parent company" (which is used in many of the amendments adopted by this Resolution, but not in the guidelines on board composition) has the same definition as in § 584.10 of the Holding Company Regulations (12 CFR Part 584.10)—viz, a company which has at least 25 percent control of another company.

The guidelines adopted by this resolution address the same five areas as did the proposed requirements. First, § 563.33 (a)(1) suggests that a majority of the directors of an insured institution either live or work in the institution's normal lending territory. This guideline is identical to the corresponding restriction in the proposal.

Second, § 563.33(a)(2) suggests that not more than one-third of the directors of an insured institution be salaried officers or employees of the institution or of any affiliated person thereof. This guideline differs from the corresponding restriction in the proposal in that the proposal would have limited officer/employee service on a board (whether or not salaried as officers or employees) to the lesser of two or one-third, with a limited exception in connection with mergers. The Board believes that the "one-third" guideline will prove more flexible than the proposed restriction.

Third, § 563.33(a)(3) suggests that the board of an insured institution not have more than two directors who are members of the same immediate family. (The definition of the term "immediate family" is discussed in Part IV of this preamble, and is unchanged from the proposal.) This guideline is less restrictive than the corresponding provision in the proposal—which would have limited membership from one immediate family on a board to the lesser of two or one-third of the directors on such board.

Fourth, § 563.33(a)(4) suggests that an insured institution not have more than one director who is an attorney with any one law firm. This guideline is identical to the corresponding restriction in the proposal.

Fifth, § 563.33(a)(5)(i) suggests that no directors of an insured institution be directors of other financial institutions or their holding company affiliates, other than a commercial bank or trust company. Section 563.33(a)(5)(ii) suggests that not more than one-third of the directors of an insured institution be directors of commercial banks, trust companies, or holding company affiliates thereof. This guideline differs from the corresponding restriction in the proposal in that the proposal would have limited service by directors of all other financial institutions and their affiliates to the lesser of two or one-third of an insured institution's board, with an exception for full-time salaried officers and employees of such insured institution. The guideline differs only slightly from the provision on this matter in the Board's standard conditions of insurance for newly insured institutions which presently requires that less than one-third of an insured institution's directorate be also directors of banks and that none be directors of any other savings and loan type institution, including mutual savings banks. Although the Board has decided that no further change is presently required from the policy on this matter reflected in the standard conditions, it may reconsider this decision in the future if such reconsideration appears necessary or appropriate.

Section 563.33(a)(5)(iii) suggests that not more than one director of an insured institution be a director of the same commercial bank, trust company, or holding company affiliate thereof. This guideline is the same as the corresponding restriction in the proposal, except that it does not apply to savings and loan type institutions because the guidelines suggest that there be no interlocks with such institutions, as discussed above.

Section 563.33(a)(5)(iv) suggests that no directors of an insured institution be salaried officers or employees of other financial institutions or their holding company affiliates. This guideline is identical to the corresponding restriction in the proposal, except that it only pertains to "salaried" officers and employees of other financial institutions and their holding company affiliates. As with the instances in § 563.33 where references to officers or employees have been changed to "salaried" officers or employees, this change is based on the premise that a person serving in two potentially conflicting capacities will be more loyal to the entity which pays him a salary.

Section 563.33(a)(5)(v) provides for an exception from the guidelines set forth in §§ 563.33(a)(5)(i)-(iv) for directors, officers and employees of other financial institutions and their holding company affiliates which are part of the same savings and loan holding company as the insured institution. The proposal contained a similar holding company exception. Section 563.33(a)(5)(v) also provides for an exception if neither the financial institution nor any financial institution which is a holding company affiliate thereof has an office in any county or standard metropolitan statistical area in which the insured institution has an office, nor within any county or SMSA from which such insured institution receives more than $5,000,000 or five percent of its savings accounts. The exception concerning savings accounts is new, and is intended to make clear that this type of competition also should be a factor in determining acceptable representation of other financial institutions on the board of an insured institution.

Section 563.33(c) prohibits salaried officers of an insured institution from becoming, or after such institutions' 1978 annual meeting from continuing as, salaried officers or employees of other financial institutions or their holding company affiliates. This prohibition differs from the proposal in that this resolution applies all of the exceptions in § 563.33 (a)(5) to such prohibition, whereas the proposal would have only excepted financial institutions which were affiliates of the insured institution. The Board believes these additional exceptions are appropriate because they address situations in which there presumably is no significant competition. An insured institution operating pursuant to a condition of insurance or a provision of its agreement for operating policies which restricts the employment of its officers need not continue to comply with such condition or provision after the effective date of § 563.33.

Section 563.33(d) prohibits an insured institution and its subsidiaries from permitting their salaried officers or employees from doing work for any affiliated person of such institution or subsidiary during their hours of employment, unless such affiliated person compensates the institution or subsidiary for the time spent in such work. This prohibition was adopted as proposed, except that it has been clarified to refer only to work done for affiliated persons during the hours of employment of the officer or employee.

Proposed § 563.33(f) would have prohibited clearly excessive compensation to directors, officers, and controlling persons of insured institutions and their service corporation affiliates, and would have set forth standards for determining when such compensation was "clearly excessive." Because there is an existing Insurance Regulation in this area (§ 563.17 (b)), the Board has decided not to adopt proposed § 563.33(f). However, the Board does plan to issue an interpretation of said § 563.17(b) to clarify certain portions of that section. In addition, § 563.17 (b) is hereby revised to make clear that former officers, directors, and employees of an insured institution or service corporation thereof who regularly perform services for the institution or service corporation under consulting contracts will be considered employees of the institution or service corporation for purposes of compliance with § 563.17(b), which accords with previous interpretation of § 563.17(b) by the Board's staff.

V 41 165 AUG 24 76 UM

B. New § 563.45 *Disclosure.* As indicated at the beginning of Part IA, the Board believes the combination of guidelines concerning composition of boards of directors of insured institutions and revised § 563.45 on disclosure will produce more independent boards of directors. However, § 563.45 makes clear that disclosure required by this section does not restrict the Board's authority to take appropriate action as to unsafe or unsound practices, or violations of law or regulation, respecting the matters disclosed.

As revised, § 563.45 requires an insured institution (with three exceptions) to either (1) submit to each member having two or more votes an annual report containing the information specified in Form AR at least 20 calendar days prior to its 1978 annual meeting and each annual meeting thereafter, or (2) send a notice to such members at least 30 days prior to any such meeting stating that such a report will be promptly provided on request, and include with the notice a postage prepaid card for making such a request. For purposes of complying with this requirement, an institution may determine its voting members as of a date prior to the actual record date for an annual meeting. The Board does not believe this requirement (with the exceptions) will prove unduly onerous, because neither the annual report nor the notice of meeting need be provided (unless requested) to a person having less than two votes (e.g., borrower-members) and because the report itself need not be mailed out unless requested.
on request, and include with the notice a

The first exception to the annual report requirement is for insured institutions having less than $15,000,000 in assets; however, this is a qualified exception, as discussed in the following paragraph. While voting members of such institutions are no less entitled to annual report information than voting members of larger institutions, the Board believes this right must be balanced against the cost of mailing such reports (or a notice thereof). In the case of institutions with less than $15,000,000 in assets, the Board has concluded not to require incurrence of such cost at this time, in the absence of unusual circumstances.

The exception from the annual report requirement in § 563.45(a) for institutions having less than $15,000,000 in assets is not unqualified. Rather, the requirements applicable to such institutions have been scaled down to achieve a reasonable balance between the advantages to be gained from such requirements and the cost considerations described in the preceding paragraph. Thus, § 653.45(d) merely requires an insured institution which has less than $15,000,000 in assets, and which does not meet the three standards in the third exception (discussed below) to the § 563.45 (a) annual report requirement, to file with the Board an annual report which meets the specifications of Form AR. Such a report need not be sent or made available by the institution to its voting members pursuant to § 563.45(a) unless the Board determines (1) that the annual report for the preceding audit period revealed events or practices which the Board believes should be so disclosed, and (2) such events or practices are continuing.

The second exception to the annual report requirement is for insured stock institutions which are subject to the proxy solicitation requirements of § 563d.1—i.e. institutions registered under the Securities and Exchange Act of 1934. Because such institutions must provide information to stockholders in connection with their annual proxy solicitations which is considerably more elaborate than that required pursuant to § 563.45, requiring such institutions to also comply with the § 563.45 annual report requirement would be superfluous.

The third exception to the annual report requirement applies to any insured institution which has all of the following three characteristics. First, such an institution must have a board of directors which conforms to the composition guidelines set forth in § 563.33(a) at the end of the audit period preceding the institution's annual meeting, beginning with its 1978 annual meeting (or its 1980 meeting if directors are elected for staggered three-year terms). Second, affiliated persons of such institution must not have engaged subsequent to the effective date of this regulation in any transactions which would have to be disclosed under Item 6(e) of the annual report form during the audit period prior to the annual meeting; these transactions are generally those in which the affiliated person has a material interest. Third, proxies solicited by such institution's management from savings account holders and borrowers for the next annual meeting (starting with the 1978 annual meeting), other than in connection with an annual proxy solicitation, must be voted as directed by a majority vote of the entire board of directors, or by a committee of such directors if such committee's composition and authority are controlled by a majority vote of the entire board and its authority is revocable by such a majority. This third requirement generally does not invalidate existing proxies, because a vote by the majority of a board of directors would be within the scope of the type of assigning language used in most proxies—e.g. "to Mr. X or Mr. Y, with full power of substitution in each of them." Requiring a majority vote would simply involve substitution of the entire board for a specific designated person or persons.

The Board views the exception described in the preceding paragraph as the key to its disclosure regulation, because its effect is to make the disclosure regulation optional. Thus, an insured institution which does not desire to prepare annual reports meeting the requirements of Form AR may choose not to do so, provided that such institution conforms to the standards set forth in the third exception. One of the points made most frequently in the public comments on the Board's proposals was that this area is an extremely complex one involving diverse needs and practices, and that Board regulations therefore should be as flexible as possible. The Board believes that the alternatives provided by § 563.45 will produce the desired flexibility, without jeopardizing the Board's goals in this area.

The report which must be prepared under § 563.45 requires that information pertinent to the election of directors of an insured institution be available to persons having voting rights, with somewhat different treatment for institutions having less than $15,000,000 in assets. Proposed § 563.45 would have required an insured institution to make available to persons having voting rights certain information concerning (1) loans to affiliated persons of such institution and certain of their business associates, and (2) loan transactions in which such persons had a material interest by virtue of acting in certain capacities with respect to such transactions—e.g., as the institution's attorney. While information in these areas is necessary for persons having voting rights to be able to make informed decisions concerning the election of directors, other types of information are also relevant in making such decisions—e.g., information concerning voting rights and proxies, present directors and nominees for directorships (such as their recent professional experience), remuneration of directors and officers, changes in controlling persons of the institution, and the present financial condition of the institution. The contents of the annual report required by § 563.45 are very similar to those of the corresponding portions of the proxy statement form used by the Federal Deposit Insurance Corporation (Form F–5; 12 CFR 335.51); the major differences between them involve deletions from the FDIC form of certain material not particularly relevant to the election of directors and addition from the FDIC's annual report form (Form F–2; 12 CFR 335.42) of material which is relevant to director election. The information required by the Board's annual report form is also similar to the content of comparable forms used by the Securities and Exchange Commission, the Federal Reserve Board, and the Comptroller of the Currency.

If an insured institution is required by § 563.45(a) to prepare an annual report, it must file six copies with the Board concurrently with or prior to their being used or transmitted, together with six copies of any notice of meeting transmitted in lieu of such annual report. Three of these copies must be mailed to the Principal Supervisory Agent (PSA) and the other three to the Securities Division of the Board's General Counsel's office in Washington. If the Board determines that the material so filed fails to comply in any material respect with Form AR, it may require such material for three years thereafter to be filed with the Board and authorized for use prior to being transmitted or made available to voting members.

The format of the annual report form prescribed by § 563.45 (Form AR) is also similar to the FDIC forms in this area (as well as the forms of the other agencies mentioned above) in that it is a list of "Items" of information to be disclosed, with each such Item being followed by a number of Instructions as to what should be included or not included. Because this format produces a form relatively easy to read and understand, the Board does not believe it necessary to describe the disclosures in detail in this preamble.

The annual report form specified by § 563.45 is divided into eight items, as follows: (1) Nominees and Directors, (2) Officers, (3) Voting Rights, (4) Proxies and Revocability Thereof, (5) Change in Control, (6) Remuneration and Other Transactions With Management and Others, (7) Brief Description of Business, and (8) Financial Statements. Item (6) is in turn divided into seven paragraphs, as follows: (a) Direct Remuneration, (b) Annuities, Pensions, and Retirement Benefits, (c) Other Remuneration, (d) Loans, (e) Transactions Where Certain Persons Have a Material Interest, (f) Options to Purchase Securities and (g) Transactions Involving Certain Pension, Retirement, Savings, and Other Similar Plans.

In connection with new § 563.45, it should be noted that § 545.23 has been amended to provide that a Federal association need not mail or publish the Statement of Condition required by that section to its depositors and borrowers in connection with any annual meeting with respect to which the association has mailed an annual report meeting the requirements of Form AR to such persons. The Board believes the § 545.23 requirement would be superfluous in such instances.

II. Deposit Relationships

Revised § 563.34 prohibits an insured institution and its subsidiaries from maintaining a deposit relationship with any affiliated person of such institution or with any financial institution or holding company affiliate thereof of which an affiliated person of the institution is a director, if maintenance of such relationship has been specifically disapproved by the Principal Supervisory Agent. This section also prohibits establishment of such a relationship (after September 30, 1976) without prior written approval of the PSA, or maintenance of an existing relationship without such approval (1) if the financial institution becomes an affiliated person or (2) if an affiliated person of the insured institution becomes a director of the financial institution or any holding company affiliated thereof.

This revision produces a regulation similar to existing § 563.34. The only differences are (1) a different effective date for the requirement of PSA approval (the date in existing § 563.34 is July 1, 1972) and (2) a more complete list of standards to be used in PSA approval and disapproval.

Revised § 563.34 differs from the proposed amendments in several respects, as follows. First, maintenance of existing deposit relationships is treated differently from establishment of new relationships. The proposal would have prohibited both maintenance and establishment after specified dates in the absence of PSA approval. Because there are many such relationships presently in existence, the Board believes it more appropriate to continue to authorize PSA's to specifically disapprove those not conforming to certain standards, rather than to require approval.

Second, the revisions adopted by this resolution specify several additional factors to be considered by PSAs in determining whether to disapprove an existing deposit relationship or approve establishment of a new relationship. Although these additional factors were not previously in the regulation, they have been used by the PSAs, and the Board believes it desirable that they be made part of this regulation. These factors are (1) need for the depository relationship and availability of alternative deposit relationships not involving affiliated persons, (2) the extent to which affiliated persons have an interest in the depository, (3) whether the depository relationship has been approved by a disinterested majority of the entire board of directors of the institution or subsidiary, (4) any current supervisory problems involving the institution or subsidiary and affiliated persons having an interest in the depository, and (5) whether the depository relationship was established prior to July 1, 1972 (the effective date of the previous regulatory provision in this area).

Revised § 563.34 also differs from the proposed amendments in this area in two minor respects. First, the restrictions now apply to subsidiaries of insured institutions as well as to the institutions themselves. The Board believes this extension of the restrictions is desirable to preclude their circumvention by having a subsidiary maintain or establish a deposit relationship which would not be permitted for its parent institution. Second, the terminology used in revised § 563.34 differs somewhat from that used in the proposed amendments. These changes result from changes to the definition of the term "affiliated person" (discussed in Part IV, A of this preamble) and do not change the application of § 563.34, except as previously discussed.

III. Restrictions Concerning Loan Services

Revised § 563.35(a), which sets forth certain tie-in provisions applicable to insured institutions, differs in three respects from the amendments to that section which were proposed. First, these prohibitions apply to subsidiaries of insured institutions as well as to the institutions themselves. The Board knows of no reason why subsidiaries should be permitted to impose conditions of this type in connection with making loans. Second, the proposed clarification of the existing tie-in prohibition as to insurance services has been modified to specifically except private mortgage insurance, because this type of insurance does not benefit the borrower in the same way as do other types of insurance, and the borrower does not contract for it with the insurer. This does not constitute a substantive change, because private mortgage insurance has previously been excepted from this prohibition by interpretation. Third, the revisions add a tie-in prohibition as to real estate or property management services.

The revisions to proposed § 563.35(b), which requires insured institutions to notify home borrowers of their right to select the person or organization providing insurance services, apply this requirement to subsidiaries of insured institutions as well as the institutions themselves. The Board believes home borrowers from subsidiaries are entitled to the same treatment in this area as home borrowers from insured institutions.

Several revisions have been made to proposed § 563.35(d) concerning payment of the insured institution's attorney's fee in connection with home loans. This proposed amendment would have permitted insured institutions to require home borrowers to reimburse the institution for such legal services if three conditions were met, and this format is continued except that the restriction is now applicable to subsidiaries of insured institutions as well as the institutions themselves. Two of these conditions are contained in the amendments adopted by this resolution—viz., (1) the attorney's fee must be limited to legal services attributable to the loan (and not to unrelated legal work), and (2) the fee must be supported by a statement prepared or by on behalf of the attorney describing the legal services performed, setting forth the time spent and the hourly rate or other basis for determining the fee.

The first of these conditions was adopted without change. The second condition was changed in four respects. First, fees of $100 or less are excepted. The Board does not believe this type of disclosure is necessary for fees of this size, and is also concerned that such a requirement might result in increase of such fees. Second, the statement provided to home borrowers must also state that the legal services for which the fee is paid are performed for the institution and not for the borrower, and that such services to the institution are being paid for by the home borrower. The Board believes it is not always clear to a home borrower that the institution's attorney is not representing the borrower even through the borrower is paying the fee, and that such attorney's role should be completely clear. Third, the attorney's fee must be separately itemized on the loan settlement sheet and identified as a fee to the lender's attorney, so that the borrower knows the amount of this fee. Fourth, such attorney's fee must be reasonable and commensurate with the legal services performed. The Board believes this requirement is necessary because the third condition referred to above has not been adopted, as discussed in the following paragraph.

The third condition in the proposal was that neither the institution's closing attorney nor any attorney in his law firm be an affiliated person of the institution, unless such attorney acted as sal-

V 41 165 AUG 24 76 UM

aried in-house counsel to the institution. The Board decided not to adopt this third condition now, because the other revisions to this section, together with new § 563.45 on disclosure, may solve existing problems, and because of the strongly held belief of many in the industry that it would cause undue and harmful disruption of existing mortgage closing practices—although the Board is not convinced that such harmful disruption would actually occur. The Board reserves the right to reconsider this decision in the light of future experience in this area.

Proposed § 563.35(e) would have prohibited an insured institution from requiring a home borrower to pay for an appraisal in connection with his loan if the appraisal was performed by an affiliated person of the institution or a member of his firm, unless such person was a salaried in-house appraiser for the institution. This proposed restriction was not adopted for the same reason that the corresponding provision concerning attorneys' fees was not adopted.

IV. RESTRICTIONS CONCERNING AFFILIATED PERSONS

A. *New §§ 561.29, 561.30, 561.31 and 651.32: Definitions.* The substantive restrictions concerning affiliated persons depend on four definitions, discussed below.

The proposal would have defined an "affiliated person" of an insured institution as (1) a director, officer, or controlling person of the institution, (2) a spouse of the persons in (1), and (3) a corporation, partnership, trust, or similar organization in which any person in (1), either directly or indirectly (other than through the insured institution), had an equity or income beneficiary interest of 10 percent or more individually or 15 percent or more collectively with persons in (1). This definition has been revised in four respects. First, the term now includes any immediate family member of directors, officers, and controlling persons who has the same home as such persons or one who is a director or officer of any subsidiary of such institution or any holding company affiliate of the institution. Second, the definition now includes corporations and other organizations (other than the insured institution or a corporation or organization through which the insured institution operates) of which a director, officer, or controlling person of the institution is an officer or partner. Third, the aggregate ownership test by which such persons cause an entity to be an affiliated person has been increased to 25 percent. Fourth, the definition now includes trusts or other estates as to which such persons or their spouses serve as trustees or in a similar fiduciary capacity. These changes were made to conform the definition generally to the SEC and FDIC definition of "associate". It should also be noted that the definition of "controlling person" has been revised to make clear that it includes persons who control an institution by virtue of holding proxies representing 10 percent or more of the voting rights in such institution. However, a director will not be deemed a controlling person based on his voting (either alone or in concert with other directors) proxies obtained from savings account holders and borrowers in connection with an annual solicitation of proxies, or if such proxies are voted as directed by a majority vote of the entire board of such institution. The Board believes these exclusions are appropriate, because a proxy-holding director cannot individually "control" an institution in the intended sense of the controlling person definition in either of these two situations.

Proposed § 561.30 would have defined the "immediate family" of a person as (1) such person's spouse, father, mother, children, brothers, sisters, and grandchildren, (2) the father, mother, brothers, and sisters of such person's spouse, and (3) the spouse of a child, brother, or sister of such person. This definition was adopted without change.

The proposal would have defined a director as any director, trustee, or other person performing similar functions with respect to any organization, whether incorporated or unincorporated. This definition was adopted without change, except that it has been clarified to exclude advisory directors, directors emeritus, and similar persons, unless they perform functions similar to those of a director. This change is intended to provide flexibility with respect to such directors, who often serve in a purely honorary capacity but sometimes serve as true directors.

The proposed definition of "officer" included the chairman of the board of an organization, the president, any vice-president (with certain exceptions), secretary, treasurer, comptroller, and any other person performing similar functions. This definition was adopted without change, except that it now includes a chairman of the board only if he is authorized by the charter or bylaws of the organization to participate in its operating management or in fact participates in such management. As with the definition of director, this change is intended to provide sufficient flexibility to reflect the facts of particular situations.

In connection with the exceptions for certain vice presidents within the definition of officer, it should be noted that the thrust of these exceptions is to exclude vice presidents having little or no policy making authority. Thus, while the list of exceptions does not refer specifically to vice presidents who are branch managers but do not participate in policy making, such persons would not be officers under § 561.32.

B. *New § 563.40: Payment of Fees to Affiliated Persons.* Proposed § 563.40(a) would have prohibited affiliated persons of an insured institution from receiving, directly or indirectly, loan procurement fees from the institution or any other source in connection with a loan by such institution. This section was adopted without change, except that it has been clarified to also prohibit receipt of such fees from a subsidiary of an insured institution and in connection with loans by any such subsidiary. As noted in the introductory portion of this preamble, conforming changes have been made in § 545.6–10.

Proposed § 563.40(b) would have applied the prohibitions against kickbacks and unearned fees in sections 8(a) and 8(b) of the Real Estate Settlement Procedures Act of 1974 (Pub. L. 93–533) to monies or other items of value given to or accepted by an insured institution or service corporation affiliate or affiliated person thereof in connection with any loan on real property made by such institution or service corporation affiliate, without regard to whether the loan was a "federally related mortgage loan" as defined in sec. 3(1) of the Act (i.e. a loan secured by a 1–4 family home). This section was adopted without change, except for the conforming amendments to § 545.8 referred to in the introductory portion of this preamble, and the substitution of "subsidiary" for "service corporation affiliate."

An insured institution need not continue to comply after the effective date of said § 563.40, with any condition of insurance or provision of its agreement for operating policies concerning commissions or fees paid to persons associated with the institution.

C. *New § 563.41: Restrictions on Real Property Transactions with Affiliated Persons.* Proposed § 563.41 would have prohibited an insured institution and its service corporation affiliates from, either directly or indirectly, purchasing from, jointly owning with, selling to, or leasing from an affiliated person of such institution any interest in real property. An exception was provided for existing office building leases and joint ownerships, but no such lease could have been renewed unless certain conditions were met, as determined by a PSA. These conditions were that the terms of the renewal be fair and (if the term of the renewal was to last after January 1, 1980) that there be no other suitable location or that moving would cause undue hardship.

This proposed provision has been changed in two general respects—(1) additional exceptions have been added and (2) several exceptions are now subject to certain revised conditions, including PSA approval. The new exceptions are for (1) a purchase from an affiliated person of his interest in real property jointly owned on September 30, 1976, (2) a sale to an affiliated person of the institution's or subsidiary's interest in such jointly owned property, (3) a lease (including any renewal thereof) from an affiliated person existing on such date with respect to which the institution or subsidiary has applied to maintain an office, (4) the purchase from an affiliated person of property subject to an existing lease on which the institution or subsidiary maintains or has applied to maintain an office, and (5) a new lease (including renewals) of real property, from an affiliated person on which the institution or subsidiary will maintain an office if the space being leased is not more than 15 percent of the total space being leased in the shopping center or office building. The Board believes that these additional exceptions are not likely to be detrimental to insured institutions if the conditions described in the following paragraph are met.

The following conditions must be met with respect to all of the new exceptions as well as with respect to renewal of a lease of property on which the institution or subsidiary maintains an office on September 30, 1976. In other words, these conditions apply to all the exceptions to § 563.41 except existing joint ownerships and leases. The conditions are that (1) the transaction receive prior written approval of the PSA, (2) the terms of the transaction be fair to, and in the best interest of, the insured institution or subsidiary, (3) the transaction be supported by an independent appraisal not prepared by an affiliated person or employee of the institution or subsidiary, and (4) the transaction be approved in advance by a resolution duly adopted with full disclosure by at least a majority (with no director having an interest in the transaction voting) of the entire board of the institution or subsidiary, or by a majority of the total votes eligible to be cast by the voting members of such institution at a meeting called for such purpose, with no votes being cast by proxies not solicited for such purpose. Full disclosure must include the source of financing of the affiliated person, including whether the insured institution or a subsidiary thereof has a deposit relationship with any financial institution or holding company thereof providing such financing. As indicated in the previous paragraph, the Board believes these conditions will substantially mitigate any possible adverse effects of these exceptions on insured institutions.

As noted in the introductory portion of this preamble, conforming amendments have been made in § 545.6–5 and 545.10. In addition, § 545.6–18, captioned "Urban renewal loans and investments," is amended by revoking paragraph (g) thereof. Said § 545.6–18(g) imposed several restrictions concerning real property investments involving affiliated persons which are inconsistent or redundant as a result of the amendments hereby adopted.

D. New § 563.43: *Restrictions on loans and other investments involving affiliated persons.* Section 563.43(b) of the proposal would have prohibited insured institutions and their service corporation affiliates (termed subsidiaries in these final regulations as noted above) from engaging in loan or certain other types of transactions with affiliated persons, with certain exceptions. This proposed prohibition was adopted without change, except for some revision of the exceptions as described in the following paragraph.

The first exception permits an institution and its subsidiaries to make loans to affiliated persons secured by single-family dwellings owned and occupied as the borrower's principal residence. The second exception permits loans to such persons aggregating not more than $10,000 for constructing, adding to, improving, altering, repairing, equipping, or furnishing a single-family dwelling owned and occupied as the borrower's principal residence. The aggregate $10,000 limit is new and is intended to set a reasonable limit on such loans. The third exception permits loans to such persons secured by a mobile home owned and occupied by the borrower as his principal residence. The fourth exception permits loans secured by savings accounts maintained by the affiliated person at the institution. The fifth exception permits loans aggregating not more than $10,000 for payment of educational expenses. The $10,000 aggregate limit is new and was added for the same reason as the $10,000 limit in the second exception. The sixth exception permits consumer loans aggregating not more than $10,000 (including loans made under the second exception). The $10,000 limit here is likewise new.

In addition to these dollar limitations added to three of the above-described exceptions, all loans made pursuant to any of these exceptions, other than that authorizing savings account secured loans, must be approved in advance by a disinterested majority of the board of directors of the institution or subsidiary making the loan, following full disclosure of the loan terms to such board of directors. Full disclosure includes whether the loan (1) is made in the ordinary course of business of the institution or subsidiary, (2) is made on substantially the same terms, including interest rate and collateral, as those prevailing at the time for comparable loans to other than affiliated persons, and (3) involves more than the normal risk of collectibility or presents other unfavorable features. If the interest rate or other terms are more favorable to the affiliated person, the resolution must justify the more favorable terms, particularly as to affiliated persons who are not salaried officers or other employees of the institution or subsidiary. Disclosure of this type of information (other than the justification) is traditionally made to persons having voting rights in connection with annual proxy solicitations. (See Instruction 2 to Item 6(d) of Form AR under § 563.45 of this chapter.) The Board believes the justification is particularly necessary as to borrowers other than salaried officers and employees, because the customary reason for making such loans at below-market interest rates is to provide additional compensation to the borrowers.

The Board believes this approval/disclosure requirement will help to ensure that loans to affiliated persons are not made on terms so favorable to the borrower as to be detrimental to the institution or subsidiary, because boards of directors who will be approving the loans have a legal responsibility to act in the best interests of the entities on whose boards they serve.

Section 563.43(b) of the proposal would also have prohibited insured institutions and their service corporation affiliates (now subsidiaries) from investing, either directly or indirectly, in the stock, bonds, notes, or other securities of affiliated persons. Similarly, the direct or indirect purchase of securities under a repurchase agreement from an affiliated person would also have been prohibited. These two prohibitions are adopted by this resolution as proposed.

Proposed § 563.43(c) would have prohibited insured institutions and their service corporation affiliates (now subsidiaries) from directly or indirectly entering into five types of transactions with third parties from which affiliated persons would derive benefit, or which could place the institution or subsidiary in a position of having to choose between acting in the best interests of itself or the affiliated person. First, institutions and their subsidiaries could not make any loans to, or purchase (other than through a secondary market such as the Federal Home Loan Mortgage Corporation) any such loan made to, any third party on the security of property acquired directly from an affiliated person. This prohibition has been changed to provide an additional exception for loans secured by a single-family dwelling purchased from an affiliated person which was owned and occupied by such person as his principal residence. The Board sees no reason to prohibit such a loan to a third party, which could be made to an affiliated person directly. The exception for secondary market transactions where the loan purchaser does not know the identity of the seller of the security property, such as ordinary Federal Home Loan Mortgage Corporation transactions, has been retained. Second, an institution and its subsidiaries could not make a loan to, or purchase a loan made to, any third party secured by real property with respect to which any affiliated person holds a security interest. Third, no institution or subsidiary thereof could accept the stock, bonds, notes, or other securities of any affiliated person as security for a loan to any third party made or purchased by such institution or subsidiary. Fourth, no institution or subsidiary thereof could maintain a compensating balance with respect to a loan made by a third party to an affiliated person. Fifth, no institution or subsidiary thereof could enter into any guarantee arrangement or make any takeout commitment with respect to a loan made by a third party to any affiliated person. Proposed § 563.43 was adopted without change, except as described above.

As mentioned in the introductory portion of this preamble, conforming amendments have been made in § 545.8, § 545.6–10(a), § 545.6–20(a) and § 545.8–3, and § 545.6–8 has been revoked. It should also be noted that an insured institution need not continue to comply with any condition of insurance or provision of its agreement for operating policies concerning loans made to or purchased from persons associated with the institution after September 30, 1976.

Accordingly, the Federal Home Loan Bank Board hereby amends Part 545 by revoking § 545.6–8 and by revising §§ 545.6–5(a), 545.6–10, 545.6–18, 545.6–20(a), 545.8, 545.8–3, 545.10 and 545.23 thereof as set forth below, effective September 30, 1976. It should be noted that all the above-listed amendments to part

V 41 165 AUG 24 76 UM

545 involve either deletions, exceptions, redesignations of existing provisions, or alteration of references to other sections; no new substantive requirements are added to these sections. The Federal added to these sections. The Federal Home Loan Bank Board also hereby amends Part 561 by revising § 561.28 thereof and by adding §§ 561.29, 561.30, 561.31, 561.32, 561.33, 561.34, 561.35, 561.36 and 561.37 thereto, and amends Part 563 by revising §§ 563.17, 563.34 and 563.35 thereof and by adding §§ 563.33, 563.40, 563.41, 563.43 and 563.45 thereto, as set forth below, effective on September 30, 1976, except as otherwise set forth in said amendments.

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

PART 545—OPERATIONS

1. Section 545.6-5(a) is revised to read as follows:

§ 545.6–5 Purchase of loans.

(a) *General provisions.* A Federal association may purchase any loan that t may make, unless expressly prohibited by other provisions of this part, and may also purchase any insured loan secured by a home or combination of home and business property located outside of the State (including the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States) in which such association's home office is located at an investment not exceeding the sum of (1) $55,000 for each single-family dwelling, or $82,500 with respect to each such dwelling in Alaska, Guam or Hawaii, (2) an amount per dwelling unit within the limits set forth in section 207 (c) (3) of the National Housing Act, with such increases therein as may be made from time to time by the Federal Housing Commissioner in accordance therewith; and (3) the percentage of value acceptable to the insuring agency of such part of the property as is not attributable to dwelling use. If a Federal association increases its savings accounts as part of the purchase of any loan, it shall obtain such approval as is required by the rules and regulations for insurance of accounts.

• • • • •

§ 545.6–8 Loans to directors, officers or employees. [Revoked]

2. Section 545.6–8 is revoked.

3. Section 545.6–10 is revised to read as follows:

§ 545.6–10 Initial loan charges.

Except as provided in §§ 563.35(d) and (e) of this chapter, borrowers may be required to pay the necessary initial charges in connection with the making of a loan, including the actual costs of title examination, appraisal, credit report, survey, drawing of papers, closing of the loan, and other necessary incidental services and costs in such reasonable amounts as may be fixed by the board of directors; such necessary initial charges may be collected by the association from the borrower and paid to the persons rendering such services.

4. Section 545.6–18 is revised by revoking paragraph (g) as follows:

§ 545.6–18 Loans in urban renewal areas.

• • • • •

(g) [Revoked]

5. In § 545.6–20 the introductory text of paragraphs (a) and (a) (3) are revised to read as follows:

§ 545.6–20 Loans guaranteed under the Foreign Assistance Act of 1961.

(a) *General.* Without regard to the provisions of any other section of this part, a Federal association which has a charter in the form of Charter K (rev.) or Charter N may invest in any of the following loans, or any interest therein:

• • • • •

(3) Loans having the benefit of any guaranty under sections 221 or 222 of such Act, as in effect on December 30, 1969, and thereafter.

• • • • •

6. In § 548.8, paragraph (b) is revoked and the introductory text of paragraph (a) is revised to read as follows:

§ 545.8 Loans without requirement of security.

Without regard to any other provision of this part, any Federal association that has amended Charter K by the addition thereto of section 14.1 and any Federal association that has a charter in the form of Charter K (rev.) or Charter N may, upon adoption of such a loan plan by its board of directors, invest in loans of the following types, but no investment shall be made under this section if immediately after such investment the outstanding aggregate of all investments of the association made under this section would exceed 20 percent of the association's assets:

• • • • •

(b) [Revoked]

7. Section 545.8–3 is revised to read as follows:

§ 545.8–3 Insured loans for title purchase.

Without regard to any other provision of this part, a Federal association which has a Charter in the form of Charter K (rev.) or Charter N may invest in loans, or interests therein, made for the purpose of financing the purchase by homeowners of the fee simple title to property on which their homes are located and as to which the association has the benefit of insurance under section 240 of the National Housing Act, as amended, or of a commitment or agreement for such insurance.

8. Section 545.10 is revised to read as follows:

§ 545.10 Real estate for office and related facilities.

(a) A Federal association may invest in real estate (improved or unimproved) to be used for office and related facilities of the association, or for such office and related facilities and for rental or sale, if each such investment is made and maintained pursuant to a prudent program of property acquisition to meet either the association's present needs or its reasonable future needs for office and related facilities. Except with the prior approval of the Board, no such investment may be made before the Board has approved an application for the establishment or maintenance of an office facility at the location of such real estate or the change of an office facility to such location, if, as a result of such investment, the outstanding aggregate book value of all such investments made before such Board approval would exceed 25 percent of the association's net worth. Except with the prior approval of the Board, no such investment may be made before or after the Board has approved an application, if any such application is required, for the establishment or maintenance of an office facility at the location of such real estate or the change of an office facility to such location, if, as a result of such investment, the outstanding aggregate book value of all such investments made before and after such Board approval would exceed the association's net worth.

(b) *Requests for Board approval of exceptions.* Any request by a Federal association for Board approval of an exception to the limitations contained in this section shall be transmitted to the Supervisory Agent, with a copy thereof to the Director, Office of Examinations and Supervision, 320 First Street, NW., Washington, D.C. 20552. As used in this section, the term "Supervisory Agent" means the President of the Federal Home Loan Bank of which the Federal association is a member or any other officer or employee of such bank designated by the Board as its agent pursuant to § 501.11 of this chapter.

9. Section 545.23 is revised to read as follows:

§ 545.23 Statement of condition.

Within the month immediately after the annual closing of a Federal association's books, such Federal association shall either mail to each of its members, or in the case of a Charter S association each of its depositors and borrowers, at his last address appearing on the association's books, or publish in a newspaper printed in the English language and of general circulation in the county in which the association's home office is located, a statement of condition of the association as of such closing of its books, in form prescribed by the Board. (The Board has prescribed a form of "Statement of Conditions," an illustrative copy of which may be obtained from any Federal Home Loan Bank or from the Federal Home Loan Bank Board, Washington, D.C.) Within five days after each such statement of condition has been so mailed or published, a certification to such effect, signed by an executive officer of such Federal association, together with a copy of the statement of condition, shall be transmitted by the association to the Federal Home Loan Bank of which the association is a member. This section shall not apply to a Federal association in any year in which such association transmits an annual report containing the information required by § 563.45(a) of this chapter to its voting members at least 20 calendar days prior to its annual meeting in such year.

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

PART 561—DEFINITION

10. Part 561 is amended by revising § 561.28 to read as follows:

§ 561.28 Controlling person.

A "controlling person" of an insured institution is any person or entity which, either directly or indirectly, or acting in concert with one or more other persons or entities, owns, controls, or holds with power to vote, or holds proxies representing, ten percent or more of the voting shares or rights of such institution; or controls in any manner the election or appointment of a majority of the directors of such institution. However, a director of an insured institution will not be deemed to be a controlling person of such institution based upon his voting, or acting in concert with other directors in voting, proxies (a) obtained in connection with an annual solicitation of proxies or (b) obtained from savings accountholders and borrowers if such proxies are voted as directed by a majority vote of the entire board of directors of such institution, or of a committee of such directors if such committee's composition and authority are controlled by a majority vote of the entire board and if its authority is revocable by such a majority.

11. Part 561 is further amended by adding §§ 561.29 through 561.37 as follows:

§ 561.29 Affiliated person.

The term "affiliated person" of an insured institution means the following:

(a) A director, officer, or controlling person of such institution;

(b) A spouse of a director, officer, or controlling person of such institution;

(c) A member of the immediate family of a director, officer, or controlling person of such institution, who has the same home as such person or who is a director or officer of any subsidiary of such institution or of any holding company affiliate of such institution;

(d) Any corporation or organization (other than the insured institution or a corporation or organization through which the insured institution operates) of which a director, officer or controlling person of such institution is an officer or partner or is, directly or indirectly either alone or with his spouse, the owner of 10 percent or more of any class of equity securities or the owner with other directors, officers, and controlling persons of such institution and their spouses of 25 percent or more of any class of equity securities; and

(e) Any trust or other estate in which a director, officer, or controlling person of such institution or the spouse of such person has a substantial beneficial interest or as to which such person or his spouse serves as trustee or in a similar fiduciary capacity.

§ 561.30 Immediate family.

The term "immediate family" of any natural person means the following (whether by the full or half blood or by adoption):

(a) Such person's spouse, father, mother, children, brothers, sisters, and grandchildren;

(b) The father, mother, brothers, and sisters of such person's spouse; and

(c) The spouse of a child, brother, or sister of such person.

§ 561.31 Director.

The term "director" means any director, trustee, or other person performing similar functions with respect to any organization whether incorporated or unincorporated. Such term does not include an advisory director, honorary director, director emeritus, or similar person, unless the person is otherwise performing functions similar to those of a director.

§ 561.32 Officer.

The term "officer" means the president, any vice-president (but not an assistant vice-president, second vice-president or other vice-president having authority similar to an assistant or second vice-president), the secretary, the treasurer, the comptroller, and any other person performing similar functions with respect to any organization whether incorporated or unincorporated. The term "officer" also includes the chairman of the board of directors if the chairman is authorized by the charter of by-laws of the organization to participate in its operating management or if the chairman in fact participates in such management.

§ 561.33 Financial institution.

The term "financial institution" means any savings and loan association, building and loan association, homestead association, cooperative bank, mutual savings bank, commercial bank or trust company. Such term does not include a Federal Home Loan Bank or the Bank for Savings and Loan Associations, Chicago, Illinois.

§ 561.34 Holding company affiliate.

The term "holding company affiliate" of an insured institution means a savings and loan holding company of which such insured institution is a subsidiary and any other subsidiary of such holding company other than a subsidiary of such insured institution. The term "holding company affiliate" applies to an uninsured institution as if such institution were insured. For purposes of these definitions of "holding company affiliate", see § 583.7 Uninsured institution, § 583.11 Savings and loan holding company, § 583.14 Subsidiary, § 583.15 Affiliate and related definitions in Part 583 of this chapter. The term "holding company affiliate" of a bank means a bank holding company of which hte bank is a subsidiary and any other subsidiary of such holding company. For purposes of this definition, see definitions of "bank holding company of which the bank is a subing company", "bank", "subsidiary" and related definitions in the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841).

§ 561.35 Principal supervisory agent.

The term "Principal Supervisory Agent" means the President of the Federal Home Loan Bank of the district in which the principal office of the insured institution is located.

§ 561.36 Parent company; subsidiary.

The terms "parent company" and "subsidiary" have the meanings given to them by §§ 583.10 and 583.14 of this chapter, respectively.

§ 561.37 Audit period.

The "audit period" of an insured institution means the twelve month period (or other period in the case of a change in audit period) covered by the annual audit conducted to satisfy § 563.17–1.

PART 563—OPERATIONS

12. Part 563 is amended by revising § 563.17(b) thereof to read as follows:

§ 563.17 Management and financial policies.

• • • • •

(b) Compensation to officers, directors, and employees of each insured institution and its service corporations shall not be in excess of that which is reasonable and commensurate with their duties and responsibilities. Former officers, directors, and employees of an insured institution or its service corporation who regularly perform services therefor under consulting contracts are employees thereof for purposes of this paragraph (b).

13. Part 563 is amended by adding § 563.33 to read as follows:

§ 563.33 Directors, officers, and employees.

(a) *Directors.* The following guidelines are recommended for composition of the board of directors of an insured institution:

(1) A majority of the directors of an insured institution should live or work in the normal lending territory of such institutions.

(2) Not more than one-third of the directors of an insured institution should be salaried officers or employees of such institution or of any subsidiary or holding company affiliate thereof.

(3) Not more than two of the directors of an insured institution should be members of the same immediate family.

(4) Not more than one director of an insured institution should be an attorney with the same law firm.

(5) (i) No director of an insured institution should be a director of any other financial institution or holding company affiliate thereof, other than a commercial bank or trust company.

(ii) Not more than one-third of the directors of an insured institution should be directors of a commercial bank, trust

V 41 165 AUG 24 76 UM

company, or holding company affiliate of such a bank or company.

(iii) Not more than one director of an insured institution should be a director of the same commercial bank, trust company, or holding company affiliate of such a bank or company.

(iv) No director of an insured institution should be a salaried officer or employee of any other financial institution or holding company affiliate thereof.

(v) Paragraphs (a)(5) and paragraph (c) of this section do not apply to directors, officers or employees of another financial institution or holding company affiliate thereof (*a*) if such other financial institution and such insured institution are subsidiaries of the same savings and loan holding company or (*b*) if neither such other financial institution nor any holding company affiliate thereof which is a financial institution has an office located within any county (or similar political subdivision) or standard metropolitan statistical area (SMSA) in which such insured institution has an office or within any county or SMSA from which such insured institution receives either more than $5,000,000 or five percent of its savings accounts.

(b) *Inconsistent conditions of insurance or agreements for operating policies.* Any insured institution which agrees in writing with the Corporation to comply with all of the guidelines set forth in paragraph (a) of this section need no longer comply with any present condition of insurance or provision of its agreement for operating policies concerning the composition of its board of directors or the employment of its officers.

(c) *Officers.* Except as provided in paragraph (a)(5)(v) of this section, no salaried officer of an insured institution may become or, after the 1978 annual meeting of such institution, continue to serve as a salaried officer or employee of any other financial institution or holding company affiliate thereof.

(d) *Other employment.* No insured institution or subsidiary thereof shall permit any salaried officer or employee to work during the hours of his employment by such institution or subsidiary for any affiliated person of such institution unless such affiliated person compensates such institution or subsidiary for the time during which such officer or employee is engaged in such work.

14. Section 563.34 is revised to read as follows:

§56.3.34 Deposit relationships involving affiliated persons.

No insured institution or subsidiary thereof shall maintain a deposit relationship with any affiliated person of such institution or with any financial institution or holding company affiliate thereof of which an affiliated person of such insured institution is a director, if the maintenance of such deposit relationship has been specifically disapproved by the Principal Supervisory Agent of the Corporation. No such deposit relationship shall be established (including a new interlock involving an existing deposit relationship) after September 30, 1976, without the prior written approval of the Principal Supervisory Agent. In taking action with respect to the maintenance or establishment of such deposit relationship, factors to be considered by the Principal Supervisory Agent will include:

(a) The size of the depository relative to the deposits maintained or to be maintained by such insured institution or subsidiary;

(b) The amount of the deposits relative to the size of such insured institution or subsidiary;

(c) The need for the deposit relationship by such insured institution or subsidiary and available alternative deposit relationships not involving affiliated persons;

(d) The extent to which affiliated persons have an interest in the depository;

(e) Whether the deposit relationship has been approved by a disinterested majority of the entire board of directors of such insured institution or subsidiary;

(f) Any current supervisory problems involving such insured institution or subsidiary and the affiliated persons having an interest in the depository;

(g) Whether the deposit relationship involves an active demand account;

(h) Whether the deposit relationship was established prior to July 1, 1972; and

(i) Any other factors which may have a detrimental effect on such insured institution or subsidiary.

15. Section 563.35 is revised to read as follows:

§ 563.35 Restrictions involving loan services.

(a) *Tie-in prohibitions.* No insured institution or service corporation affiliate thereof may grant any loan on the prior condition, agreement, or understanding that the borrower contract with any specific person or organization for the following:

(1) Insurance services (as an agent, broker, or underwriter), except insurance or a guarantee provided by a government agency or private mortgage insurance;

(2) Building materials or construction services;

(3) Legal services rendered to the borrower;

(4) Services of a real estate agent or broker; or

(5) Real estate or property management services.

(b) *Notice with respect to insurance on home loans.* An insured institution or subsidiary thereof shall notify the borrower in writing of his right to freely select the person or organization rendering the insurance services referred to in paragraph (a)(1) of this section in connection with a loan on a home (as defined in § 541.10–2 of this chapter) occupied or to be occupied by the borrower at or prior to the time of the written commitment to make such loan.

(c) *Limitation on paragraphs (a) and (b).* Notwithstanding paragraphs (a) and (b) of this section, an insured institution or subsidiary thereof may refuse to make any loan if it believes on reasonable grounds that the insurance services provided by the person or organization selected by the borrower will afford insufficient protection to such institution or subsidiary.

(d) *Payment of attorney's fee by home borrowers.* In connection with a loan on a home (as defined in § 541.10–2 of this chapter) occupied or to be occupied by the borrower, an insured institution or subsidiary thereof may require such borrower to reimburse it for legal services rendered by its attorney, or to directly pay such attorney for such services, only if:

(1) such attorney's fee is limited to legal services attributable to processing and closing such loan (and not unrelated services performed for the institution or subsidiary by the attorney);

(2) Such attorney's fee, if in excess of $100, is supported by a statement provided to the borrower at or prior to settlement which (i) describes the legal services being performed, (ii) sets forth the time being spent by such attorney and the hourly rate or other basis for determining such fee, (iii) states that the legal services are being performed on behalf of the insured institution or subsidiary and not on behalf of the borrower, and (iv) states that such services are being paid for by the borrower;

(3) Such attorney's fee does not exceed that which is reasonable and commensurate with the legal services being performed; and

(4) Such attorney's fee is separately itemized on the loan settlement sheet and identified as a fee to the lender's attorney.

16. Part 563 is amended by adding §§ 563.40, 563.41, 563.43 and 563.45 to read as follows:

§ 563.40 Restrictions on loan procurement fees, kickbacks and unearned fees.

(a) *Loan procurement fees.* No affiliated person of an insured institution may receive, either directly or indirectly, from such institution, any subsidiary thereof, or any other source any fee or other compensation of any kind in connection with the procurement of any loan from such institution or subsidiary thereof.

(b) *Kickbacks and unearned fees.* The prohibitions contained in sections 8(a) and 8(b) of the Real Estate Settlement Procedures Act of 1974 (Pub. L. 93–533) shall apply to any fee, kickback, thing of value, and any portion, split or percentage of any charge, either directly or indirectly, given to or accepted by an insured institution or subsidiary or affiliated person thereof, in connection with any loan on real property made by an insured institution or subsidiary thereof, without regard to whether the loan is within the term "federally related mortgage loan", as defined in section 3(1) of the Act.

§ 563.41 Restrictions on real property transactions with affiliated persons.

(a) *Scope of section.* Section 584.3 of this chapter is controlling with respect to transactions between an insured institution and a holding company.

(b) *Restrictions.* No insured institution or subsidiary thereof may, either directly or indirectly, purchase from, jointly own with, sell to, or lease from an affiliated person of such institution any interest in real property, except as follows:

(1) A joint ownership of real property with an affiliated person existing on September 30, 1976;

(2) A purchase from an affiliated person of his interest in real property jointly owned on September 30, 1976, or a sale to an affiliated person of the interest of such institution or subsidiary in real property jointly owned with the affiliated person on such date;

(3) A lease (including any renewal thereof) from an affiliated person existing on September 30, 1976, with respect to real property on which such institution or subsidiary maintains or has applied to maintain an office, and the purchase from an affiliated person of real property subject to such a lease; and

(4) A lease from an affiliated person of real property on which such institution or subsidiary will maintain an office, if the space being leased by such institution or subsidiary is for not more than 15 percent of the total space being leased in the shopping center or office building, and a renewal of such a lease. The exceptions provided in (2), (3), and (4) of the preceding sentence are subject to the following conditions:

(i) The transaction must receive prior written approval of the Principal Supervisory Agent;

(ii) The terms of the transaction must be fair to, and in the best interests of, the insured institution or subsidiary thereof;

(iii) The transaction must be supported by an independent appraisal not prepared by an affiliated person or employee of such institution or subsidiary; and

(iv) The transaction must be approved in advance by a resolution duly adopted with full disclosure by at least a majority (with no director having an interest in the transaction voting) of the entire board of directors of such institution or subsidiary (or alternatively by a majority of the total votes eligible to be cast by the voting members of such institution at a meeting called for such purpose, with no votes being cast by proxies not solicited for such purpose). Full disclosure must include the source of financing of the affiliated person for the real property involved in the transaction, including whether the insured institution or any subsidiary thereof has a deposit relationship with any financial institution or holding company affiliate thereof providing the financing.

§ 563.43 Restrictions on loans and other investments involving affiliated persons.

(a) *Scope of section.* Section 584.3 of this chapter is controlling with respect to transactions between an insured institution and a holding company.

(b) *Restrictions concerning loan transactions with affiliated persons.* (1) No insured institution or subsidiary thereof may, either directly or indirectly, make a loan to any affiliated person of such institution or purchase such a loan, except for loans in the ordinary course of the business of such institution or subsidiary which do not involve more than normal risk of collectibility or present other unfavorable features, and are of the following types:

(i) A loan secured by a single-family dwelling owned and occupied by the borrower as his principal residence;

(ii) Loans in the aggregate not exceeding $10,000 for constructing, adding to, improving, altering, repairing, equipping, or furnishing a single-family dwelling owned and occupied by the borrower as his principal residence;

(iii) A loan secured by a mobile home owned and occupied by the borrower as his principal residence;

(iv) Loans secured by savings accounts maintained by the affiliated person at the institution;

(v) Loans in the aggregate not exceeding $10,000 for payment of educational expenses; and

(vi) Consumer loans in the aggregate not exceeding $10,000 (including any amounts borrowed under subdivision (ii) of this subparagraph). With respect to loans covered by the exceptions in (i), (ii), (iii), (v) and (vi) of the preceding sentence, each loan must be approved in advance by a resolution duly adopted with full disclosure by at least a majority (with no director having an interest in the transaction voting) of the entire board of directors of such institution or subsidiary. Full disclosure must include whether the loan is made on substantially the same terms, including interest rate and collateral, as those prevailing at the time for comparable loans to other than affiliated persons. If the interest rate or other terms are more favorable to the affiliated person, the resolution should justify the more favorable terms, particularly as to affiliated persons who are not salaried officers or other employees of such institution or subsidiary. (See Instruction 2 to Item 6(d) of Form AR under § 563.45 of this chapter.)

(2) No insured institution or subsidiary thereof may invest, either directly or indirectly, in the stock, bonds, notes, or other securities of any affiliated person of such institution.

(3) No insured institution or subsidiary thereof may, either directly or indirectly, purchase securities under a repurchase agreement from any affiliated person of such institution.

(c) *Prohibitions concerning loan transactions with third persons.* No insured institution or subsidiary thereof may, either directly or indirectly:

(1) Make any loan to, or purchase (other than through a secondary market such as the Federal Home Loan Mortgage Corporation) any loan made to, any third party on the security of real property purchased from any affiliated person of such institution, unless the property was a single-family dwelling owned and occupied by the affiliated person as his principal residence;

(2) Make a loan to, or purchase a loan made to, any third party secured by real property with respect to which any affiliated person of such institution holds a security interest;

(3) Accept the stock, bonds, notes, or other securities of any affiliated person of such institution as security for a loan to any third party made or purchased by such institution or subsidiary thereof;

(4) Maintain a compensating balance with respect to a loan made by any third party to any affiliated person of such institution; or

(5) Enter into any guarantee arrangement or make any takeout commitment with respect to a loan made by any third party to any affiliated person of such institution.

§ 563.45 Disclosure.

(a) *Annual disclosure requirements.* Except as provided in this paragraph and paragraph (b) of this section, an insured institution shall transmit to its voting members at least 20 calendar days prior to its 1978 annual meeting, and every annual meeting thereafter, an annual report meeting the requirements of Form AR. In lieu of transmitting such annual report, an insured institution may, not less than 30 calendar days prior to its annual meeting, transmit a notice of meeting to its voting members clearly stating that such annual report will be promptly furnished to such person upon request, and provide a postage prepaid card for making such request. For purposes of complying with this paragraph, an insured institution may, if necessary, determine its voting members as of a date prior to the actual record date for voting at its annual meeting. An insured institution is not required by this paragraph to transmit such annual report or notice of meeting to any voting member with less than two votes, unless requested by such member.

(b) *Exemptions from paragraph (a).* Paragraph (a) shall not apply to an insured institution:

(1) If such institution has total assets of less than $15,000,000 as of the end of its audit period immediately preceding the annual meeting, except as provided in paragraph (d); or

(2) In the case of a stock-chartered insured institution, if such institution is subject to the proxy solicitation requirements of § 563d.1 of this chapter; or

(3) If (i) the composition of the board of directors of such institution is in accordance with the guidelines set forth in § 563.33(a) as of the end of its audit pe-

V 41 165 AUG 24 76 UMI

riod immediately preceding the annual meeting, except that an institution whose directors are elected for three-year staggered terms need not be in compliance until the audit period immediately preceding its 1980 annual meeting; (ii) the affiliated persons of such institution have not engaged in any transactions since the beginning of such immediately preceding audit period which must be disclosed under Item 6(e) of Form AR; and (iii) proxies solicited by management from savings accountholders and borrowers for the election of directors (other than in connection with an annual proxy solicitation) will be voted as directed by a majority vote of such institution's entire board of directors, or of a committee of such directors if such committee's composition and authority are controlled by a majority vote of its entire board and if its authority is revocable by such a majority.

(c) *Filing requirements.* Six copies of each annual report, prepared pursuant to paragraph (a) of this section, and any notice of meeting transmitted to voting members pursuant thereto, shall be publicly filed with the Board concurrently with or prior to transmission of such report or notice pursuant to paragraph (a). Three of such copies shall be mailed or delivered to the Principal Supervisory Agent and the other three to the Securities Division, Office of the General Counsel, Federal Home Loan Bank Board, 320 First Street, N.W., Washington, D.C. 20552. If the Board determines that the material so filed fails to comply in any material respect with the requirements of Form AR, the Board may require such material for three years thereafter to be filed with the Board and authorized for use prior to being transmitted to voting members.

(d) *Annual disclosure requirements for institutions under $15 million in assets.* An insured institution which is not exempt from paragraph (a) by paragraph (b)(2), and which has less than $15,000,000 in assets as of the end of any audit period (beginning with the audit period immediately preceding its 1978 annual meeting), shall prepare an annual report meeting the requirements of Form AR with respect to each such audit period as to which such institution does not conform with paragraph (b)(3). Six copies of each annual report required by the preceding sentence shall be publicly filed with the Board at least 20 days prior to the annual meeting following the audit period as to which such report was prepared. Three of such copies shall be mailed or delivered to the Principal Supervisory Agent and the other three to the Securities Division, Office of the General Counsel, Federal Home Loan Bank Board, 320 First Street NW., Washington, D.C. 20552. If the Board determines that an annual report prepared by an insured institution pursuant to this paragraph (d) reveals practices or events during the audit period covered by such report which, if continued, the Board believes should be disclosed to persons having voting rights in such institution, then the Board may require such institution to comply with the requirements of paragraph (a) in connection with the annual report for its next audit period if such a report is required by this paragraph (d). If an annual report prepared pursuant to this paragraph (d) reveals information of the type described in the immediately preceding sentence, the Board will notify the institution in writing within 60 days of the filing of such report with the Board that such institution must submit its annual report (if any) for its next audit period to the Board for a determination as to whether such institution must comply with the requirements of paragraph (a) in connection with such report.

(e) *Disclosure not a restriction on Board's general authority.* Disclosure under this section does not restrict the Board's authority to take appropriate action as to unsafe or unsound practices, or violations of law or regulation, respecting the matters disclosed.

(f) *Additional scope of "affiliated person."* As used in § 563.45 and in Form AR, the term "affiliated person" includes any person who has been nominated to be a director of the insured institution as if such person had been a director since the beginning of the institution's last audit period.

FORM AR (ANNUAL REPORT FORM)

GENERAL INSTRUCTIONS

Each annual report required under § 563.45 shall, to the extent applicable, include the information called for under each of the items below. In preparation of the annual report, particular attention should be given to the definitions in Part 561 of this chapter.

This form is not to be used as a blank form to be filled in, nor is it intended to prescribe a form for presentation of material in the statement. Its purpose is solely to prescribe the information required to be set forth in the statement; any additional information that the insured institution deems appropriate may be included.

INFORMATION REQUIRED IN STATEMENT

Item 1—*Nominees and Directors.* (a) Furnish the following information, in tabular form to the extent practicable, with respect to each person nominated for election as a director and each other person whose term of office as a director will continue after the meeting:

(1) State the name and age of each such person, the nature of any immediate family relationship between him and other directors, nominees and officers, when his term of office or the term of office for which he is a nominee will expire, and all other positions and offices with the institution presently held by him, and indicate which persons are nominees for election as directors at the meeting.

(2) State his present principal occupation or employment and give the name and principal business of any corporation or other organization in which such employment is carried on. Furnish similar information as to all of his principal occupations or employments during the last five years, unless he is now a director and was elected to his present term of office at an annual meeting with respect to which an annual report meeting the requirements of Form AR was furnished.

(3) If he is or has previously been a director of the institution, state the period or periods during which he has served as such.

(4) In the case of a stock institution, state, as of the most recent practicable date, the approximate amount of each class of equity securities (other than directors' qualifying shares) of the institution, or any parent company or subsidiary thereof, beneficially owned by him, either directly or indirectly. If he disclaims beneficial ownership of any such securities, make a statement to that effect.

(b) If any nominee for election as a director is proposed to be elected pursuant to any arrangement or understanding between the nominee and any other person or persons, except the directors and officers of the institution acting solely in those capacities, name such other person or persons and describe briefly such arrangement or understanding.

(c) State whether the composition of the institution's board of directors will be in compliance with the guidelines set forth in § 563.33(a), and if not, the extent to which the composition of such board will not comply with such guidelines.

Item 2—*Officers.* List the names and ages of all officers of such institution and all persons chosen to become officers; state the nature of any immediate family relationship between them; indicate all positions and offices with the institution held by each such person; if such person has served as an officer of the institution for less than five years, state the period during which he has served as an officer; and if such person is employed pursuant to an employment contract, states the period of such contract and whether it may be terminated for cause by the institution.

Item 3—*Voting rights.* Describe the voting rights of each class of persons having voting rights (e.g., accountholders, borrowers and/or stockholders) and the approximate number of votes to which each such class of persons is entitled; state the date as of which the record of voting members entitled to vote at the meeting will be determined; and in the case of a stock institution, describe any cumulative voting rights.

Item 4—*Proxies and revocability thereof.* State the method by which proxies are solicited by management for the election of directors (e.g., by annual solicitation or by having savings accountholders sign a proxy of indefinite duration in conjunction with opening their accounts). Also, state the names of the persons, and their positions and offices with the institution, holding these proxies, and whether the persons giving these proxies have the power to revoke them. If the right of revocation before these proxies are exercised is limited or is subject to compliance with any formal procedure, briefly describe such limitation or procedure.

Item 5—*Change in control.* (a) Name each controlling person of the institution and include the number of proxies held by such person and, in the case of a stock institution, the number of voting shares of stock or other voting securities owned, controlled, or held with power to vote by such person.

(b) Describe any change in controlling persons of the institution which has occurred since the beginning of its last audit period.

(c) Describe any contractual arrangements, known to the institution, including any pledge of voting securities of the institution or any parent company thereof, the operation of the terms of which may at a subsequent date result in a change of control of the institution.

Item 6—*Remuneration and other transactions with Management and others.*—(a) *Direct remuneration.* Furnish the following information in substantially the tabular form indicated below as to all direct remuneration paid by the institution and its subsidiaries during the institution's latest

audit period to the following persons for services in all capacities:

(1) Each director of the institution whose aggregate direct remuneration exceeded $40,000, and each of the three highest paid officers of the institution whose aggregate direct remuneration exceeded that amount, naming each director and officer.

(2) All directors and officers of the institution as a group without naming them, but stating the number of persons included.

Name of individual or number of persons in group	Capacities in which remuneration was received	Aggregate direct remuneration
(A)	(B)	(C)

Instructions. 1. This item applies to any person who was a director or officer of the institution at any time during the period specified. However, information need not be given for any portion of the period during which such person was not a director or officer.

2. The information is to be given on an accrual basis, if practicable. The tables required by this paragraph and paragraph (b) may be combined if the institution so desires.

3. Do not include remuneration paid to a partnership in which any director or officer was a partner. But see paragraph (e) below.

(b) *Annuities, pensions, and retirement benefits.* Furnish the following information, in substantially the tabular form indicated, as to all annuity, pension, or retirement benefits proposed to be paid under any existing plan in the event of retirement at normal retirement date, directly or indirectly, by the institution or any subsidiary thereof to each director or officer named in answer to paragraph (a)(1) and to all directors and officers of the institution who are eligible for such benefits, as a group, stating the number of persons in the group without naming them:

Name of individual or number of persons in group	Amount set aside or accrued during institution's last audit period	Estimated annual benefits upon retirement
(A)	(B)	(C)

Instructions. 1. The term "plan" in this paragraph and in paragraph (c) includes all plans, contracts, authorizations, or arrangements, whether or not set forth in any formal document.

2. Column (B) need not be answered with respect to payments computed on an actuarial basis under any plan which provides for fixed benefits in the event of retirement at a specified age or after a specified number of years of service. In such case, Columns (A) and (C) need not be answered with respect to directors and officers as a group.

3. The information called for by Column (C) may be given in a table showing the annual benefits payable upon retirement to persons in specified salary classifications.

4. In the case of any plan (other than those specified in Instruction 2) where the amount set aside each year depends upon the amount of earnings or profits of the institution or its subsidiaries for such period or a prior period (or where otherwise impracticable to state the estimated annual benefits upon retirement) there shall be set forth, in lieu of the information called for by Column (C), the aggregate amount set aside or accrued to date, unless impracticable to do so, in which case the method of computing such benefits shall be stated. In addition, furnish a brief description of the material terms of the plan, including the method used in computing the institution's contribution, and the amount set aside or accrued during the institution's last audit period for all officers and directors as a group, indicating the number of persons in such group without naming them.

(c) *Other remuneration.* Describe briefly all remuneration payments (other than payments reported under paragraph (a) or (b)) proposed to be made in the future, directly or indirectly, by the institution or any subsidiary thereof pursuant to any existing plan or arrangement to (1) each director or officer named in answer to paragraph (a)(1), naming each such person, and (2) all directors and officers of the institution as a group, without naming them.

Instruction. Information need not be included as to payments to be made for, or benefits to be received from, group life or accident insurance, group hospitalization or similar group payments or benefits. If it is impracticable to state the amount of remuneration payments proposed to be made, the aggregate amount set aside or accrued to date in respect of such payments shall be stated, together with an explanation of the basis for future payments.

(d) *Loans.* State as to each affiliated person of the institution who was indebted to the institution or any subsidiary thereof at any time since the beginning of the last audit period of the institution, (1) the largest aggregate amount of indebtedness outstanding at any time during such period, (2) the nature of the indebtedness and of the transaction in which it was incurred, (3) the amount thereof outstanding as of the latest practicable date, and (4) the rate of interest paid or charged thereon.

Instructions. 1. Include the name of each person whose indebtedness is described and the nature of the relationship by reason of which the information is required to be given.

2. Disclosure under this Item 6(d) shall not be required where the transaction consists of a loan by the institution or subsidiary that (i) is of the type covered by an exception in § 563.43(b), and (ii) is made on substantially the same terms, including interest rate and collateral, as those prevailing at the time for comparable transactions with other than affiliated persons. In the case of a loan made to an officer who is not a director or controlling person of the institution, disclosure of the loan transaction need not be made under this Item 6(d) if (i) disclosure would not have been required under the preceding sentence except that the interest rate being paid is less than the rate for comparable loans to other than affiliated persons at the time the loan was made, and (ii) the aggregate principal balance of all loans at less than such comparable interest rates to such officers as a group outstanding at the end of the last audit period of the institution is stated, together with a brief description of the policy of the institution or subsidiary in making such loans.

(e) *Transactions where certain persons have a material interest.* Describe briefly any transactions since the beginning of the last audit period, and any presently proposed transactions, to which the institution or any of its subsidiaries was or is to be a party, in which any affiliated person of the institution had or is to have a direct or indirect material interest, naming such person and stating his relationship to the institution, the nature of his interest in the transaction and, where practicable, the amount of such interest.

Instructions. 1. This item applies to any person who was an affiliated person of the institution at any time during the period specified. However, information need not be given for any portion of the period during which such person was not an affiliated person.

2. In connection with a loan transaction to which the institution or a subsidiary thereof is a party, an affiliated person of the institution acting as attorney or appraiser for the institution or subsidiary, or as escrow agent, builder or real estate agent/broker, will be deemed to have a direct or indirect interest in such loan transaction, unless such person acts in such capacity or capacities as a full time salaried officer or employee of the institution or subsidiary without additional or separate compensation for individual loan transactions. An affiliated person acting as an insurance agent/broker or underwriter, supplier of title examination or abstract services, or building materials supplier will be deemed to have a direct or indirect interest in such loan transaction if the affiliated person was selected by, or on the basis of a referral from, the institution or subsidiary. An affiliated person acting as a building materials supplier will be deemed to have a direct or indirect interest in such loan transaction if the institution or subsidiary had knowledge that such person would act in such capacity at the time the loan commitment was made. In determining whether the interest of the affiliated person in such loan transaction is material, all payments made during an audit period of the institution to the affiliated person for acting in one or more of the foregoing capacities shall be aggregated for purposes of the $40,000 computation under Instruction 4(c).

3. A person will be deemed to have a direct or indirect material interest in a loan transaction to which the institution or a subsidiary thereof was or is to be a party if the loan is to finance the purchase of real property from such person.

4. No information need be given in answer to this item as to any transaction where—

(a) The rates or charges involved in the transaction are determined by competitive bids, or the transaction involves the rendering of services at rates or charges fixed in conformity with law or governmental authority; but information shall be given notwithstanding approval of the transaction by the Board, its Principal Supervisory Agent, or other governmental authority;

(b) The transaction involves services as a transfer agent, registrar, trustee under a corporate trust indenture, or similar services; but information shall be given as to transactions involving services as a bank depository if the amount of the deposits of the institution and its subsidiaries averaged on a monthly basis $40,000 or more during the last audit period of the institution;

(c) The amount involved in the transaction or a series of similar transactions, including all periodic installments in the case of any lease or other agreement providing for periodic payments or installments, does not exceed $40,000;

(d) The interest of the affiliated person arises solely from ownership of securities of the institution and the affiliated person receives no extra or special benefit not shared on a pro rata basis by all holders of securities of the class; or

(e) The transaction consists of indebtedness to the institution or subsidiary disclosed under Item 6(d) or exempt from disclosure under Instruction 2 to Item 6(d).

5. It should be noted that this item calls for disclosure of indirect, as well as direct, material interests in transactions. A person who has a position or relationship with a firm, corporation, or other entity, which engages in a transaction with the institution or a subsidiary thereof may have an indirect interest in such transaction by reason of such position or relationship. However, a person shall be deemed not to have a material in-

V 41 N 165 AUG 24 76 UMI

direct interest in a transaction within the meaning of this Item where—

(a) The interest arises only (i) from such person's position as a director of another corporation or organization (other than a partnership) which is a party to the transaction, or (ii) from direct or indirect ownership by such person and all other persons specified in subparagraphs (1) and (2) above, in the aggregate, of less than a 10 percent equity interest in another person (other than a partnership) which is a party to the transaction, or (iii) from both such position and ownership;

(b) The interest arises only from such person's position as a limited partner in a partnership in which he and all other persons specified in subparagraphs (1) and (2) above had an interest of less than 10 percent; or

(c) The interest of such person arises solely from the holding of an equity interest (including a limited partnership interest, but excluding a general partnership interest) or a creditor interest in another person which is a party to the transaction with the institution or any subsidiary thereof and the transaction is not material to such other person.

6. The amount of the interest of any specified person shall be computed without regard to the amount of profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, the approximate amount involved in the transaction shall be indicated.

7. The foregoing instructions specify certain transactions and interests as to which information may be omitted in answering this Item. There may be situations where, although the foregoing instructions do not expressly authorize nondisclosure, the interest of an affiliated person in the particular transaction or series of transactions is not a material interest. In that case, information regarding such interest and transaction is not required to be disclosed in response to this Item.

8. Information should be included as to any material underwriting discounts and commissions upon the sale of securities by the institution where any of the affiliated persons were or are to be a principal underwriter or is a controlling person or a member of a firm that was or is to be a principal underwriter. Information need not be given concerning ordinary management fees paid by underwriters to a managing underwriter pursuant to an agreement among underwriters the parties to which do not include the institution or any subsidiary thereof.

(f) *Options to purchase securities.* In the case of stock institutions, furnish the following information as to all options to purchase securities, from the institution or any parent company or subsidiary thereof, which were granted to or exercised by the following persons since the beginning of the institution's last audit period and as to all options held by such persons as of the latest practicable date: (i) each director or officer named in answer to paragraph (a)(1) of this Item, naming each such person; and (ii) all directors and officers of the institution as a group, without naming them:

(1) As to options granted, state (i) the title and amount of securities called for; (ii) the prices, expiration dates, and other material provisions; and (iii) the market value of the securities called for on the granting date.

(2) As to options exercised, state (i) the title and amount of securities purchased; (ii) the aggregate purchase price; and (iii) the aggregate market value of the securities purchased on the date of purchase.

(3) As to all unexercised options held as of the latest practicable date, regardless of when such options were granted, state (i) the title and aggregate amount of securities called for; (ii) the average option price per share; and (iii) the per share market price of the securities subject to the option, as of the latest practicable date.

Instructions. 1. The term "options" as used in this paragraph (f) includes all options, warrants, or rights, other than those issued to security holders as such on a pro rata basis. Where the average option price per share is called for, the weighted average price per share shall be given.

2. The extension, regranting, or material amendment of options shall be deemed the granting of options within the meaning of this paragraph.

3. This item need not be answered with respect to options granted, exercised, or outstanding, as may be specified therein, where the total market value (i) on the granting date of the securities called for by all options granted during the period specified; (ii) on the dates of purchase of all securities purchased through the exercise of options during the period specified; or (iii) as of the latest practicable date of the securities called for by all options held at such time, does not exceed $10,000 for any officer or director named in answer to paragraph (a)(1) of this Item, or $40,000 for all officers and directors as a group.

(g) *Transactions involving certain pension, retirement, savings and other similar plans.* Describe briefly any transactions since the beginning of the institution's last audit period or any presently proposed transaction, to which any pension, retirement, savings, or similar plan provided by the institution or any parent company or subsidiary thereof, was or is to be a party, in which any affiliated person of the institution had or is to have a direct or indirect material interest, naming such person and stating his relation to the institution, the nature of his interest in the transaction, and, where practicable, the amount of such interest.

Instructions. 1. Without limiting the general meaning of the term "transaction" there shall be included in answer to this item any remuneration received or any loans received or outstanding during the period, or proposed to be received.

2. No information need be given in answer to paragraph (g) with respect to—

(a) payments to the plan, or payments to beneficiaries, pursuant to the terms of the plan;

(b) payments of remuneration for services not in excess of five percent of the aggregate remuneration received by the affiliated person during the institution's last audit period from the institution and its subsidiaries.

Item 7—*Brief description of business.* Furnish a brief description of the business done by the institution and its subsidiaries during the institution's most recent audit period, including information concerning any material developments during such period.

Item 8—*Financial statements.* Furnish a statement of financial condition of the institution as of the end of its last two audit periods and related statements of income, retained earnings and changes in financial position for such periods. Such financial statements shall be certified by independent public accountants (except as otherwise provided in § 563.17–1), and accompanied by the accountants' report. Such financial statements may be presented on a consolidated basis with subsidiaries of the institution. If the institution's audit period ends more than 120 days before its annual meeting, financial statements of the type described above shall also be furnished on an unaudited basis as of a date and for the related period ending within 120 days of its annual meeting.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 569]

[No. 76–589]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Solicitation of Proxies

SUMMARY

AUGUST 18, 1976.

The following summary of the amendments proposed by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the proposal.

I. *Existing regulations.* None.

II. *Proposed regulations.* A. Would prohibit the management of an insured institution required by § 563.45(a) to prepare an annual report from voting proxies not solicited in connection with providing the report (or a notice of meeting). Section 563.45(a) applies to institutions with assets of $15 million or more which do not choose to meet certain standards, and is not effective until an institution's 1978 annual meeting.

B. Would provide that the Board may prohibit the management of certain insured institutions required by § 563.45(d) to prepare an annual report from voting proxies not solicited in connection with providing the report (or a notice of meeting). Section 563.45(d) applies to institutions with assets less than $15 million which do not choose to meet certain standards, and does not become effective until an institution's 1978 annual meeting.

C. Would expressly authorize the management of an insured institution not required by §§ 563.45 (a) or (d) to prepare an annual report in connection with an annual meeting to vote any proxy held by management which had not been revoked or superseded and was not invalid by its terms.

D. Would make clear that a person who does not respond to a proxy solicitation pursuant to this section shall not be deemed to have thereby revoked an outstanding proxy for purposes of a subsequent annual meeting for which no proxy solicitation is required.

III. *Reason for proposal.* To bring insured institutions into conformity with the general practice of most other types of business corporations, which customarily solicit proxies from their owners on an annual basis and provide such owners with certain information in connection with such annual solicitations.

The Federal Home Loan Bank Board considers it desirable to propose to amend Part 569 of the rules and regulations for Insurance of Accounts (12 CFR Part 569) by adding a new § 569.5 thereto, captioned "Solicitation of proxies." In general, the effect of proposed § 569.5 would be to require an insured institution to solicit proxies in connection with any annual meeting as to which it must (1) prepare an annual report, and (2) furnish either the report or a notice of the annual meeting to persons having voting rights in the institution. Proposed § 569.5 is closely tied to § 563.45, "Disclosure," and this preamble therefore briefly reviews the provisions of § 563.45 in connection with explaining this proposal.

Section 563.45(a), "Annual disclosure requirements," requires insured institutions to send their voting members: (1) a copy of the annual report for the audit period preceding the meeting, or (2) a notice of such meeting which clearly states that a copy of the report is available on request. Section 563.45 does not take effect until an institution's 1978 annual meeting, and no disclosure is required to persons having only one vote in the institution (e.g. borrowers from a Federal association) unless specifically requested.

Section 563.45(b) excepts three types of institutions from the requirements of § 563.45(a). First, § 563.45(b)(1) excepts institutions having less than $15,000,000 in assets. (But see the discussion of § 563.45(d), below.) Second, § 563.45(b)(2) excepts stock institutions already subject to proxy solicitation requirements under § 563d.1 (12 CFR Part 563d)—i.e., institutions which are registered under the Securities and Exchange Act of 1934. Third, § 563.45(b)(3) excepts any institution which meets the following three standards: (1) The composition of its board of directors conforms to the guidelines in § 563.33(a) (12 CFR Part 563), (2) during the institution's most recent audit period, no affiliated persons thereof engaged in transactions which would have to be disclosed under Item 6(e) of the annual report form (Form AR), and (3) management-held proxies not acquired in connection with an annual proxy solicitation are voted as directed by a majority vote of the institution's entire board or by a committee of such directors controlled by such a majority.

Proposed new § 569.5(a), "Solicitation by institutions preparing annual reports under § 563.45(a)," would provide that no proxies held by directors or officers of an institution required to transmit an annual report or notice of meeting to its members pursuant to § 563.45(a) could be voted at the annual meeting in connection with which the report or notice was transmitted unless such proxies were solicited from persons concurrently or previously furnished with the report or notice. Copies of the form of proxy solicited by an insured institution pursuant to § 569.5(a) would have to be filed with the Board in accordance with § 563.45(c). The Board expects that compliance with this requirement would typically take the form of enclosing an unsigned proxy with the annual report or notice of annual meeting. If done in this fashion, the Board does not believe compliance with § 569.5(a) would result in significant additional costs to insured institutions.

Section 563.45(d), "Annual disclosure requirements for institutions under $15 million in assets," requires insured institutions with less than $15 million in assets to file with the Board, shortly in advance of each annual meeting, an annual report for the audit period preceding the meeting which compiles with the requirements of Form AR. However, no institution need prepare such a report for an audit period as to which such institution meets the standards set forth in § 563.45(b)(3)—i.e. the standards on board composition, transactions with affiliated persons, and voting of management-held proxies. As with § 563.45(a), § 563.45(d) does not take effect until an institution's 1978 annual meeting.

As discussed in the preceding paragraph, insured institutions which must prepare an annual report pursuant to § 563.45(d) normally need only file such report with the Board—i.e. neither the report nor a notice of the upcoming annual meeting need be transmitted to persons having voting rights in the institution. However, § 563.45(d) makes clear that the Board will examine all annual reports required by that section. In the course of these examinations, the Board may determine that an institution's annual report reveals information as to practices or events which, if continued, should be disclosed to persons having voting rights in that institution. If such a situation occurs, the Board may require the institution to comply with § 563.45(a) in connection with the annual report for its next audit period—i.e. the institution would have to transmit the annual report for its next audit period to persons having voting rights in the institution, or else send such persons a notice of the meeting clearly stating that the report was available on request. As in § 563.45(a), this information would not have to be sent to persons having only one vote unless specifically requested.

Proposed § 569.5(b), "Solicitation by certain institutions preparing annual reports under § 563.45(d)," would provide that the Board may apply § 569.5(a) to an institution (1) which is required to file an annual report with the Board pursuant to § 563.45(d), and (2) which the Board has directed to comply with the requirements of § 563.45(a) in connection with such report (i.e. transmit the report or notice of annual meeting to persons with voting rights). In other words, the Board may prohibit proxies held by directors and officers of such an institution from being voted at an annual meeting in connection with which the institution must prepare an annual report and transmit the report (or notice of meeting) to persons having voting rights, unless such proxies were solicited in connection with transmitting this material. Hence, § 569.5(b) would be invoked by the Board only on a case-by-case basis.

Proposed § 569.5(c), "Solicitation not required for institutions excepted from annual report requirements in §§ 563.45(a) and (d)," would provide that directors and officers of an institution may vote any proxy held by them at any annual meeting in connection with which the institution is not required to transmit an annual report or notice of meeting to persons having voting rights in such institution. Of course, proposed § 569.5(c) would not authorize

V 41 165 AUG 24 76 UMI

the voting of any proxy which had been revoked or superseded, or which was invalid by its terms. Proposed § 569.5(c) would also make clear that a person who does not respond to a proxy solicitation made pursuant to § 569.5 shall not be deemed to have thereby revoked an outstanding proxy for purposes of an annual meeting as to which no proxy solicitation is required by § 569.5.

The authority for the proposed proxy solicitation is section 407(1)(5) of the National Housing Act, as amended, 12 U.S.C. 1730(1)(5), which provides that the Board, as operating head of the Federal Savings and Loan Insurance Corporation, "may prescribe, such periodic or other reports and disclosures, including proxy statements and the solicitation of proxies thereby, as the * * * (Board) may determine to be necessary or appropriate for the protection of investors or the (Federal Savings and Loan Insurance) Corporation".

The purpose of the proposal is to enhance the ability of persons with voting rights in insured institutions to exercise those rights meaningfully in situations where management has engaged in the types of transactions which must be disclosed in an annual report under § 563.45 or elects not to follow the Board's guidelines respecting composition of the institution's board of directors. Because of the inherent potential of such situations for possible abuse detrimental to insured institutions, the Board believes that where such transactions or nonconforming boards occur or exist, and are required to be disclosed under § 563.45, management should be permitted to vote only proxies given in the light of such disclosure, so that persons giving such proxies may exercise oversight of management in this area and thereby serve as an additional "check" upon such possible abuse.

To place the proposal in proper prospective, the Board believes an additional point should be made. While member and outside stockholder oversight of an insured institution's management, under the circumstances described above, is desirable, and will hopefully prove beneficial, an even better "check" on management is management itself. Thus, the Board believes very strongly that first-line responsibility for safe and proper functioning of an insured institution lies with its officers and directors. In keeping with this philosophy, it should be emphasized that the proxy solicitations provided for by this proposal are optional in the sense that institutions which choose to comply with the standards set forth in § 563.45(b)(3) (and therefore do not have to prepare annual reports) do not have to solicit proxies. The Board believes that an institution which complies with these standards is very likely to be a well-run institution not in need of additional oversight. However, the Board recognizes that not all insured institutions will elect to follow such standards, and the annual report/proxy solicitation alternative provided by §§ 563.45 and 569.5 is intended to provide a reasonable amount of flexibility for insured institutions consistent with the Board's statutory responsibility to adopt regulations and take other actions to ensure safe and sound functioning of such institutions.

Accordingly, the Federal Home Loan Bank Board hereby proposes to amend Part 569 by adding a new § 569.5 thereto, to read as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, NW., Washington, D.C. 20552, by October 8, 1976, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address.

§ 569.5 Solicitation of proxies.

(a) *Solicitation by institutions preparing annual reports under § 563.45(a).* If an insured institution is required by § 563.45(a) to transmit an annual report (or notice of annual meeting in lieu thereof) to persons having at least two votes in such institution, no proxies held by directors or officers of such institution may be voted at the annual meeting in connection with which such report or notice is transmitted unless such proxies were solicited from persons concurrently or previously furnished with such report or notice. Copies of the form of proxy so solicited shall be publicly filed with the Board concurrently with the annual report, as provided in § 563.45(c). This paragraph (a) does not apply to an institution which prepares an annual report pursuant to § 563.45(d), except as provided in paragraph (b) of this section.

(b) *Solicitation by certain institutions preparing annual reports under § 563.45(d).* If an insured institution is required by § 563.45(d) to file an annual report with the Board, and if the Board has determined pursuant thereto that such institution must comply with the requirements of § 563.45(a) in connection with such report, then the Board may also determine to apply paragraph (a) of this section to such institution, and in such event will so notify such institution in the notice provided for in § 563.45(d).

(c) *Solicitation not required for institutions excepted from annual report requirements in §§ 563.45(a) and (d).* In connection with any annual meeting as to which an insured institution is not required by §§ 563.45(a) or (d) to transmit an annual report (or notice of annual meeting in lieu thereof) to persons having at least two votes in such institution, the directors and officers of such institution may vote (in accordance with § 563.45(b)(3)(iii)) any proxy held by them which has not been revoked or superseded and which is not invalid by its terms. A person having voting rights in an insured institution who does not respond to a proxy solicitation made pursuant to paragraphs (a) or (b) of this section shall not be deemed to have thereby revoked an outstanding proxy for purposes of an annual meeting of the type described in the immediately preceding sentence.

(Sec. 407, 48 Stat. 1260, as amended; (12 U.S.C. 1730). Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

FEDERAL ELECTION COMMISSION

[Notice 1976-40, AOR 1976-59 through 1976-70]

ADVISORY OPINION REQUESTS

Availability

Pursuant to 2 U.S.C. § 437f(c) and the procedures reflected in Part 112 of the Commission's notice of proposed rulemaking, published on May 26, 1976 (41 FR 21590), advisory opinion requests 1976-59 through 1976-70 have been made public at the Commission. Copies of AOR 1976-59 and AOR 1976-69 were made available on August 4, 1976; AOR 1976-61 through 1976-64 were made available on August 9, 1976; AOR 1976-65 through 1976-67 were made available on August 10, 1976; AOR 1976-68 and AOR 1976-69 were made available on August 11, 1976; and AOR 1976-70 was made available on August 12, 1976. These copies of advisory opinion requests were made available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, NW, Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests and statutory references should be to the United States Code citations rather than to the Public Law citations.

A descriptive listing of each of the requests recently made public as well as the identification of the requesting party follows hereafter:

AOR 1976-59: What limitations, if any, exist with respect to the amount of an honorarium or of travel or incidental expenses paid to a candidate who is not a Federal officeholder; what limitations, if any, exist with respect to travel and incidental expenses paid to a candidate who is a Federal officeholder. (Requested by Jack P. Jefferies of Lord, Day & Lord for American Hotel & Motel Association Political Action Committee, New York, New York.)

AOR 1976-60: Whether a candidate who makes a loan to his personal primary campaign fund may transfer the unpaid loan balances to his campaign committee organized to run the general election campaign. (Requested by Robert L. Tammaro, Treasurer, Joseph S. Indyk Congressional Campaign Committee, Princeton, New Jersey.)

AOR 1976-61: Whether excess campaign funds may be used by a Member to pay for attorneys fees incurred in defending in a civil action. (Requested by Congressman John G. Fary, U.S. House of Representatives.)

AOR 1976-62: Whether and under what circumstances a concert fundraising effort may utilize a commercial ticket outlet which is not able to record names and addresses of ticket purchasers. (Requested by Casey N. Kaplan, Ramsey Clark/Senate '76, New York, New York.)

AOR 1976-63: Whether the American Hotel & Motel Association Political Action Committee (AHMPAC) may accept the representation of member corporations that the AHMPAC solicitation is the only one made or that the solicitation of employees is either the first or second of the year. (Requested by Gerald M. Tierney, Jr., of Lord, Day & Lord for the American Hotel & Motel Association Political Action Committee, New York, New York.)

AOR 1976-64: Whether the Friends of Hamilton Fish, Jr., Committee may provide Congressman Fish with a vehicle to be used in connection wtih his office duties. (Requested by Peter G. Pellegrini, Treasurer, Friends of Hamilton Fish, Jr., Poughkeepsie, New York.)

AOR 1976-65: Whether a county-level party which publishes a party newspaper may accept corporate advertising; whether reporting obligations exist. (Requested by Joseph G. Schiff, County Chairman, The Republican Party of Louisville and Jefferson County, Louisville, Kentucky.)

AOR 1976-66: Whether an owner of corporate real estate may permit the erection of political yardsigns for one candidate to the exclusion of the opposition; whether an automobile owned or leased by a corporation may display political bumper stickers of one candidate to the exclusion of the opposition. (Requested by Carla Moore, Campaign Coordinator, Martha Keys for Congress, Topeka, Kansas.)

AOR 1976-67: Whether the establishment and proposed program of the Consolidated Edison Political Action Committee complies with the Act. (Requested by Robert O. Lenrman, Chairman, Consolidated Edison Political Action Committee, New York, New York.)

AOR 1976-68: Whether payment of a deceased candidate's debts by the deceased candidate's father is a contribution. (Requested by Robert Thomson, Counsel to Missourians for Litton, Washington, D.C.)

AOR 1976-69: Whether a telephone corporation may include in its bill inserts nonpartisan voter information if requested to do so by the League of Women Voters of Alabama. (Requested by Connie Fortune, Voters Service Chairman, League of Women Voters Education Fund, Washington, D.C.)

AOR 1976-70: Whether a professional corporation may pay an individual who is a candidate personal benefits or a paid leave of absence if the individual is on leave from the firm. (Requested by Jan Baran, Counsel, National Republican Congressional Committee, Washington, D.C.)

Dated: August 17, 1976.

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

STANDARD FLOOD INSURANCE POLICY

(Issued Pursuant to the National Flood Insurance Act of 1968, or Any Acts Amendatory Thereof)

INSURANCE COMPANIES MEMBERS OF
NATIONAL FLOOD INSURERS ASSOCIATION
NEW YORK, N. Y.
(HEREIN CALLED THE COMPANY)

APPENDIX A
(1)
DWELLING BUILDING AND CONTENTS

IN CONSIDERATION OF THE PAYMENT OF THE PREMIUM, IN RELIANCE UPON THE STATEMENTS IN THE APPLICATION AND DECLARATIONS FORM MADE A PART HEREOF AND SUBJECT TO ALL THE TERMS OF THIS POLICY, THE COMPANY DOES INSURE the Insured named and legal representatives, to the extent of the actual cash value of the property at the time of loss, but not exceeding the amount which it would cost to repair or replace the property with material of like kind and quality within a reasonable time after such loss, without allowance for any increased cost of repair or reconstruction by reason of any ordinance or law regulating construction or repair, and without compensation for loss resulting from interruption of business or manufacture, nor in any event for more than the interest of the Insured, against all **DIRECT LOSS BY "FLOOD"** as defined herein, to the property described while located or contained as described in the application and declarations form attached hereto, or pro rata for 30 days at each proper place to which any of the property shall necessarily be removed for preservation from the peril of "Flood", but not elsewhere.

Assignment of this policy shall not be valid except with the written consent of this Company.

DEFINITION OF "FLOOD"

Wherever in this policy the term "flood" occurs, it shall be held to mean

A. A general and temporary condition of partial or complete inundation of normally dry land areas from:

1. The overflow of inland or tidal waters.
2. The unusual and rapid accumulation or runoff of surface waters from any source.
3. Mudslides (i.e., mudflows) which are proximately caused or precipitated by accumulations of water on or under the ground.

B. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding the cyclical levels which result in flooding as defined in A-1 above.

PERILS EXCLUDED

This Company shall not be liable for loss:

A. By (1) rain, snow, sleet, hail or water spray; (2) freezing, thawing or by the pressure or weight of ice or water, except where the property covered has been simultaneously damaged by flood; or (3) water, moisture or mudslide damage of any kind resulting primarily from conditions, causes or occurrences which are solely related to the described premises or are within the control of the Insured (including but not limited to design, structural or mechanical defects, failures, stoppages or breakages of water or sewer lines, drains, pumps, fixtures or equipment, seepage or backup of water, or hydrostatic pressure) or any condition which causes flooding which is substantially confined to the described premises or properties immediately adjacent thereto;

B. Caused directly or indirectly by (1) hostile or warlike action in time of peace or war, including action in hindering, combating or defending against an actual, impending or expected attack, (a) by any government or sovereign power (de jure or de facto), or by any authority maintaining or using military, naval or air forces, or (b) by military, naval or air forces, or (c) by an agent of any such government, power, authority or forces, it being understood that any discharge, explosion or use of any weapon of war employing nuclear fission or fusion shall be conclusively presumed to be such a hostile or warlike action by such a government, power, authority or forces; (2) insurrection, rebellion, revolution, civil war, usurped power, or action taken by governmental authority in hindering, combating or defending against such an occurrence;

C. By nuclear reaction or nuclear radiation or radioactive contamination, all whether controlled or uncontrolled, or due to any act or condition incident to any of the foregoing, whether such loss be direct or indirect, proximate or remote, or be in whole or in part caused by, contributed to, or aggravated by the peril insured against by this policy;

D. By theft or by fire, windstorm, explosion, earthquake, landslide or any other earth movement except such mudslide or erosion as is covered under the peril of flood;

E. Caused by or resulting from power, heating or cooling failure, unless such failure results from physical damage to power, heating or cooling equipment situated on premises where the property covered is located, caused by the peril insured against;

F. Occasioned directly or indirectly by enforcement of any local or state ordinance or law regulating the construction, repair or demolition of building(s) or structure(s);

G. Caused directly or indirectly by neglect of the Insured to use all reasonable means to save and preserve the property at the time of and after an occurrence of the peril insured against by this policy.

PROPERTY COVERED

A. Dwelling: The term "dwelling" shall mean a residential building designed for the occupancy of from 1 to 4 families and occupied principally for dwelling purposes by the number of families stated herein.

When the insurance under this policy covers a dwelling, such insurance shall include additions in contact therewith; also, if the property of the owner of the described dwelling and when not otherwise covered, building equipment, fixtures and outdoor equipment, all pertaining to the service of the described premises and while within an enclosed structure located on the described premises; also, materials and supplies while within an enclosed structure located on the described premises or adjacent thereto, intended for use in construction, alteration or repair of such dwelling or appurtenant private structures on the described premises.

The Insured may apply up to 10% of the amount of insurance applicable to the dwelling covered under this policy, not as an additional amount of insurance, to cover loss to appurtenant private structures (other than the described dwelling and additions in contact therewith) located on the described premises. This extension of coverage shall not apply to structures (other than structures used exclusively for private garage purposes) which are rented or leased in whole or in part, or held for such rental or lease, to other than a tenant of the described dwelling, or which are used in whole or in part for commercial, manufacturing or farming purposes.

B. Contents: When the insurance under this policy covers contents, such insurance shall cover all household and personal property owned or incidental to the occupancy of the premises as a dwelling—except other property not covered under the provisions of this policy, and any property more specifically covered in whole or in part by other insurance including the peril insured against in this policy; belonging to the Insured or members of the Insured's family of the same household, or for which the Insured may be liable, or, at the option of the Insured, belonging to a servant or guest of the Insured; all while within an enclosed structure located on the described premises.

The Insured may apply up to 10% of the amount of insurance applicable to the contents covered under this policy, not as an additional amount of insurance, as follows:

(a) If not the owner of the described premises, to cover loss to improvement, alterations, and additions to the described dwelling and appurtenant enclosed private structures as described above.

(b) If an individual condominium unit owner of the described premises, to cover loss to the interior walls, floors, and ceilings that are not otherwise covered under a condominium association policy on the described dwelling and appurtenant enclosed private structures as described above.

ATTACH APPLICATION AND DECLARATIONS FORM HERE

APPENDIX A
(1) DWELLING BUILDING AND CONTENTS

This Company shall not be liable for loss in any one occurrence for more than:

1. $500.00 in the aggregate on paintings, etchings, pictures, tapestries, art glass windows and other works of art (such as but not limited to statuary, marbles, bronzes, antique furniture, rare books, antique silver, porcelains, rare glass or bric-a-brac);
2. $500.00 in the aggregate on jewelry, watches, necklaces, bracelets, gems, precious and semi-precious stones, articles of gold, silver or platinum and furs or any article containing fur which represents its principal value.

C. Debris Removal: This insurance covers expense incurred in the removal of debris of or on the dwelling, appurtenant enclosed private structures or contents covered hereunder, which may be occasioned by loss caused by the peril insured against in this policy.

The total liability under this policy for both loss to property and debris removal expense shall not exceed the amount of insurance applying under this policy to the property covered.

PROPERTY NOT COVERED

This policy shall not cover:

A. Accounts, bills, currency, deeds, evidences of debt, money, securities, bullion, manuscripts or other valuable papers or records, numismatic or philatelic property.

B. Fences, retaining walls, seawalls, outdoor swimming pools, bulkheads, wharves, piers, bridges, docks; other open structures located on or partially over water; or personal property in the open.

C. Land values; lawn, trees, shrubs or plants, growing crops, or livestock; underground structures or underground equipment, and those portions of walks, driveways and other paved surfaces outside the foundation walls of the structure.

D. Animals, birds, fish, aircraft, motor vehicles (other than motorized equipment pertaining to the service of the premises and not licensed for highway use), trailers on wheels, watercraft including their furnishings and equipment; or business property.

DEDUCTIBLES

A. With respect to loss to the dwelling, appurtenant enclosed private structures or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the dwelling, whichever is the greater.

B. With respect to loss to contents or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the contents, whichever is the greater.

REPLACEMENT COST PROVISIONS

With respect only to a Single Family Dwelling Structure covered hereunder, the term "actual cash value" shall mean replacement cost, subject to following provisions. Outdoor radio and television antennas and aerials, carpeting, awnings, domestic appliances and outdoor equipment, all whether attached to the building structure or not, are excluded from these provisions.

A. If at the time of loss the whole amount of insurance applicable to said building structure is 80% or more of the full replacement cost of such building structure, or is the maximum amount of insurance available under the National Flood Insurance Program, the coverage of this policy applicable to such building structure is extended to include the full cost of repair or replacement (without deduction for depreciation).

B. If at the time of loss the whole amount of insurance applicable to said building structure is less than 80% of the full replacement cost of such building structure and less than the maximum amount of insurance available under the National Flood Insurance Program, this Company's liability for loss under this policy shall not exceed the larger of the following amounts:

1. the actual cash value of that part of the building structure damaged or destroyed; or
2. (a) that proportion of the full cost of repair or replacement without deduction for depreciation of that part of the building structure damaged or destroyed, which the whole amount of insurance applicable to said building structure bears to 80% of the full replacement cost of such building structure; or
   (b) the maximum amount of insurance available under the National Flood Insurance Program,

   whichever is larger.

C. This Company's liability for loss under this policy shall not exceed the smallest of the following amounts:

1. the limit of liability of this policy applicable to the damaged or destroyed building structure;
2. the replacement cost of the building structure of any part thereof identical with such building structure on the same premises and intended for the same occupancy and use; or
3. the amount actually and necessarily expended in repairing or replacing said building structure or any part thereof intended for the same occupancy and use.

D. When the full cost of repair or replacement is more than $1,000 or more than 5% of the whole amount of insurance applicable to said building structure, this Company shall not be liable for any loss under paragraph A or subparagraph 2 of paragraph B of these provisions unless and until actual repair or replacement is completed.

E. In determining if the whole amount of insurance applicable to said building structure is 80% or more of the full replacement cost of such building structure, the cost of excavations, underground flues and pipes, underground wiring and drains, and brick, stone and concrete foundations, piers and other supports which are below the under surface of the lowest basement floor, or where there is no basement, which are below the surface of the ground inside the foundation walls, shall be disregarded.

F. The Named Insured may elect to disregard this condition in making claim hereunder, but such election shall not prejudice the Named Insured's right to make further claim within 180 days after loss for any additional liability brought about by these provisions.

GENERAL CONDITIONS AND PROVISIONS

A. Pair and Set Clause—If there is loss of an article which is part of a pair or set, the measure of loss shall be a reasonable and fair proportion of the total value of the pair or set, giving consideration to the importance of said article, but such loss shall not be construed to mean total loss of the pair or set.

B. Concealment, Fraud—This entire policy shall be void if, whether before or after a loss, the Insured has willfully concealed or misrepresented any material fact or circumstance concerning this insurance or the subject thereof, or the interest of the Insured therein, or in case of any fraud or false swearing by the Insured relating thereto.

C. Other Insurance—This Company shall not be liable for a greater proportion of any loss, less the amount of deductible, from the peril of flood than the amount of insurance under this policy bears to the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property, or which would have covered the property except for the existence of this insurance, whether collectible or not.

In the event that the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property exceeds the maximum amount of insurance permitted under the provisions of the National Flood Insurance Act of 1968, or any acts amendatory thereof, it is hereby understood and agreed that the insurance under this policy shall be limited to a proportionate share of the maximum amount of insurance permitted on such property under said Act, and that a refund of any extra premium paid, computed on a pro rata basis, shall be made by this Company upon request in writing submitted not later than 2 years after the expiration of the policy term during which such extra amount of insurance was in effect.

"Excess Insurance" as used herein shall be held to mean insurance of such part of the actual cash value of the property as is in excess of the maximum amount of insurance permitted under the said Act with respect to such property.

D. Added and Waiver Provisions—The extent of the application of insurance under this policy and of the contribution to be made by this Company in case of loss, and any other provision or agreement not inconsistent with the provisions of this policy, may be provided for in writing added hereto, but no provision may be waived except such as by the terms of this policy is subject to change.

No permission affecting this insurance shall exist, or waiver of any provision be valid, unless granted herein or expressed in writing added hereto. No provision, stipulation or forfeiture shall be held to be waived by any requirement or proceeding on the part of this Company relating to appraisal or to any examination provided for herein.

E. Cancellation of Policy or Reduction in Amount of Insurance—This policy may be cancelled at any time at the request of the Insured, in which case this Company shall, upon demand and surrender of this policy, refund the excess of paid premiums above the customary short rates for the expired time; provided, however, that the premium paid for the then current policy term shall be fully earned if the Insured retains an interest in the property covered at the location described in the application and declarations form.

The amount of insurance under this policy may be reduced at any time at the request of the Insured, in which case this Company shall, upon demand, refund the excess of paid premiums above the customary short rates for the expired time for the amount of the reduction; provided, however, that the premium paid for the then current policy term shall be fully earned to the extent that the Insured retains an interest in the property covered at the location described in the application and declarations form.

This policy may be cancelled by this Company for non-payment of the premium by giving to the Insured a 20-days' written notice of cancellation.

F. Conditions Suspending or Restricting Insurance—Unless otherwise provided in writing added hereto, this Company shall not be liable for loss occurring while the hazard is increased by any means within the control or knowledge of the Insured, provided, however, this insurance shall not be prejudiced by any act or neglect of any person (other than the Insured), when such act or neglect is not within the control of the Insured.

G. Alterations and Repairs—Permission is granted to make alterations, additions and repairs, and to complete structures in course of construction. In the event of loss hereunder, the Insured is permitted to make reasonable repairs, temporary or permanent, provided such repairs are confined solely to the protection of the property from further damage and provided further that the Insured shall keep an accurate record of such repair expenditures. The cost of any such repairs directly attributable to damage by the peril insured against shall be included in determining the amount of loss hereunder. Nothing herein contained is intended to modify the policy requirements applicable in case loss occurs, and in particular the requirement that in case loss occurs the Insured shall protect the property from further damage.

V 41 165 AUG 24 76 UM

APPENDIX A (1) DWELLING BUILDING AND CONTENTS

H. Property of Others—Unless otherwise provided in writing added hereto, loss to any property of others covered under this policy shall be adjusted with the Insured for the account of the owners of said property, except that the right to adjust such loss with said owners is reserved to this Company. Any such insurance under this policy shall not inure directly or indirectly to the benefit of any carrier or other bailee for hire.

I. Liberalization Clause—If during the period that insurance is in force under this policy, or within 45 days prior to the inception date thereof, on behalf of this Company there be adopted under the National Flood Insurance Act of 1968, or any acts amendatory thereof, any forms, endorsements, rules or regulations by which this policy could be extended or broadened, without additional premium charge, by endorsement or substitution of form, then such extended or broadened insurance shall inure to the benefit of the Insured hereunder as though such endorsement or substitution of form had been made.

J. Statutory Provisions—Any terms of this policy which are in conflict with the statutes of the State wherein the property is located are hereby amended to conform to such statutes, except that in cases of conflict with applicable Federal law or regulation, such Federal law or regulation shall control the terms of this policy.

K. Loss Clause—Payment of any loss under this policy shall not reduce the amount of insurance applicable to any other loss during the policy term which arises out of a separate occurrence of the peril insured against hereunder; provided, that all loss arising out of a continuous or protracted occurrence shall be deemed to constitute loss arising out of a single occurrence.

L. Mortgage Clause [Applicable to building items only and effective only when policy is made payable to a mortgagee (or trustee) named in the application and declarations form attached to this policy.]—

Loss, if any, under this policy, shall be payable to the aforesaid as mortgagee (or trustee) as interest may appear under all present or future mortgages upon the property described in which the aforesaid may have an interest as mortgagee (or trustee), in order of precedence of said mortgages, and this insurance, as to the interest of the mortgagee (or trustee) only therein, shall not be invalidated by any act or neglect of the mortgagor or owner of the described property, nor by any foreclosure or other proceedings or notice of sale relating to the property, nor by any change in the title or ownership of the property, nor by the occupation of the premises for purposes more hazardous than are permitted by this policy; provided, that in case the mortgagor or owner shall neglect to pay any premium due under this policy, the mortgagee (or trustee) shall, on demand, pay the same.

Provided, also, that the mortgagee (or trustee) shall notify this Company of any change of ownership or occupancy or increase of hazard which shall come to the knowledge of said mortgagee (or trustee) and, unless permitted by this policy, it shall be noted thereon and the mortgagee (or trustee) shall, on demand, pay the premium for such increased hazard for the term of the use thereof; otherwise this policy shall be null and void.

If this policy is cancelled by this Company, it shall continue in force for the benefit only of the mortgagee (or trustee) for 20 days after written notice to the mortgagee (or trustee) of such cancelation and shall then cease, and this Company shall have the right, on like notice, to cancel this agreement.

Whenever this Company shall pay the mortgagee (or trustee) any sum for loss under this policy and shall claim that, as to the mortgagor or owner, no liability therefor existed, this Company shall, to the extent of such payment, be thereupon legally subrogated to all the rights of the party to whom such payment shall be made, under all securities held as collateral to the mortgage debt, or may, at its option, pay to the mortgagee (or trustee) the whole principal due or to grow due on the mortgage with interest, and shall thereupon receive a full assignment and transfer of the mortgage and of all such other securities; but no subrogation shall impair the right of the mortgagee (or trustee) to recover the full amount of said mortgagee's (or trustee's) claim.

M. Mortgagee Obligations—If the Insured fails to render proof of loss, the named mortgagee (or trustee), upon notice, shall render proof of loss in the form herein specified within 60 days thereafter and shall be subject to the provisions of this policy relating to appraisal and time of payment and of bringing suit.

N. Requirements in Case of Loss—The Insured shall give written notice, as soon as practicable, to this Company of any loss, protect the property from further damage, forthwith separate the damaged and undamaged property and put it in the best possible order. Within 60 days after the loss, unless such time is extended in writing by this Company, the Insured shall render to this Company a proof of loss, signed and sworn to by the Insured, stating the knowledge and belief of the Insured as to the following: the time and origin of the loss, the interest of the Insured and of all others in the property, the actual cash value of each item thereof and the amount of loss thereto, all encumbrances thereon, all other contracts of insurance, whether valid or not, covering any of said property, any changes in the title, use, occupation, location, possession or exposures of said property since the issuing of this policy, by whom and for what purpose any building herein described and the several parts thereof were occupied at the time of loss. The Insured, at the option of this Company, may be required to furnish a complete inventory of the destroyed, damaged and undamaged property, showing in detail quantities, costs, actual cash value and amount of loss claimed, and verified plans and specifications of any building, fixtures or machinery destroyed or damaged.

The Insured, as often as may be reasonably required, shall exhibit to any person designated by this Company all that remains of any property herein described, and submit to examinations under oath by any person named by this Company, and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, bills, invoices and other vouchers, or certified copies thereof if originals be lost, at such reasonable time and place as may be designated by this Company or its representative, and shall permit extracts and copies thereof to be made.

O. Appraisal—In case the Insured and this Company shall fail to agree as to the actual cash value or the amount of loss, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within 20 days of such demand. The appraisers shall first select a competent and disinterested umpire; and failing for 15 days to agree upon such umpire, then, on request of the Insured or this Company, such umpire shall be selected by a judge of a court of record in the State in which the insured property is located. The appraisers shall then appraise the loss, stating separately actual cash value and loss to each item; and, failing to agree, shall submit their differences, only, to the umpire. An award in writing, so itemized, of any two when filed with this Company shall determine the amount of actual cash value and loss. Each appraiser shall be paid by the party selecting him and the expenses of appraisal and umpire shall be paid by the parties equally.

P. Company's Options—It shall be optional with this Company to take all, or any part, of the property at the agreed or appraised value, and also to repair, rebuild or replace the property destroyed or damaged with other of like kind and quality within a reasonable time, on giving notice of its intention so to do within 30 days after the receipt of the proof of loss herein required.

Q. Abandonment—There shall be no abandonment to this Company of any property.

R. When Loss Payable—The amount of loss for which this Company may be liable shall be payable 60 days after proof of loss, as herein provided, is received by this Company and ascertainment of the loss is made either by agreement between the Insured and this Company expressed in writing or by the filing with this Company of an award as herein provided.

S. Action Against the Company—No suit or action on this policy for the recovery of any claim shall be sustainable in any court of law or equity unless all the requirements of this policy shall have been complied with, and unless commenced within 12 months next after the date of mailing of notice of disallowance or partial disallowance of the claim. An action on such claim against the Company may be instituted, without regard to the amount in controversy, in the United States District Court for the district in which the property shall have been situated.

T. Subrogation—In the event of any payment under this policy, this Company shall be subrogated to all of the Insured's right of recovery therefor against any party, and this Company may require from the Insured an assignment of all right of recovery against any party for loss to the extent that payment therefor is made by this Company. The Insured shall do nothing after loss to prejudice such right; however, this insurance shall not be invalidated should the Insured waive in writing prior to a loss any or all right of recovery against any party for loss occurring to the described property.

IN WITNESS WHEREOF, this Company has executed and attested these presents; but this policy shall not be valid unless countersigned by the duly authorized representative of this Company.

W. W. Williams

Attorney-in-Fact for the Insurance Companies
Members of National Flood Insurers Association

SPECIAL PROVISIONS

A. A list of all Insurance Companies members of the National Flood Insurers Association is on file in the office of the State Insurance Department of the State where the property covered is located and a copy may be obtained upon request from the office of the National Flood Insurers Association, 160 Water Street, New York, N. Y. 10038.

B. All notices or other communications required by this policy to be given to the Company shall be given to the Servicing Company designated on the Application and Declarations Form attached to this policy, and such notice shall be considered to constitute notice to the Company.

STANDARD FLOOD INSURANCE POLICY

(Issued Pursuant to the National Flood Insurance Act of 1968, or Any Acts Amendatory Thereof)

INSURANCE COMPANIES MEMBERS OF
NATIONAL FLOOD INSURERS ASSOCIATION
NEW YORK, N. Y.
(HEREIN CALLED THE COMPANY)

APPENDIX A
(2) GENERAL PROPERTY

GENERAL PROPERTY

IN CONSIDERATION OF THE PAYMENT OF THE PREMIUM, IN RELIANCE UPON THE STATEMENTS IN THE APPLICATION AND DECLARATIONS FORM MADE A PART HEREOF AND SUBJECT TO ALL THE TERMS OF THIS POLICY, THE COMPANY DOES INSURE the Insured named and legal representatives, to the extent of the actual cash value of the property at the time of loss, but not exceeding the amount which it would cost to repair or replace the property with material of like kind and quality within a reasonable time after such loss, without allowance for any increased cost of repair or reconstruction by reason of any ordinance or law regulating construction or repair, and without compensation for loss resulting from interruption of business or manufacture, nor in any event for more than the interest of the insured, against all DIRECT LOSS BY "FLOOD" as defined herein, to the property described while located or contained as described in the application and declarations form attached hereto, or pro rata for 30 days at each proper place to which any of the property shall necessarily be removed for preservation from the peril of "Flood", but not elsewhere.

Assignment of this policy shall not be valid except with the written consent of this Company.

DEFINITION OF "FLOOD"

Wherever in this policy the term "flood" occurs, it shall be held to mean

A. A general and temporary condition of partial or complete inundation of normally dry land areas from:

1. The overflow of inland or tidal waters.
2. The unusual and rapid accumulation or runoff of surface waters from any source.
3. Mudslides (i.e., mudflows) which are proximately caused or precipitated by accumulations of water on or under the ground.

B. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding the cyclical levels which result in flooding as defined in A-1 above.

PERILS EXCLUDED

This Company shall not be liable for loss:

A. By (1) rain, snow, sleet, hail or water spray; (2) freezing, thawing or by the pressure or weight of ice or water, except where the property covered has been simultaneously damaged by flood; or (3) water, moisture or mudslide damage of any kind resulting primarily from conditions, causes or occurrences which are solely related to the described premises or are within the control of the Insured (including but not limited to design, structural or mechanical defects, failures, stoppages or breakages of water or sewer lines, drains, pumps, fixtures or equipment, seepage or backup of water, or hydrostatic pressure) or any condition which causes flooding which is substantially confined to the described premises or properties immediately adjacent thereto;

B. Caused directly or indirectly by (1) hostile or warlike action in time of peace or war, including action in hindering, combating or defending against an actual, impending or expected attack, (a) by any government or sovereign power (de jure or de facto), or by any authority maintaining or using military, naval or air forces, or (b) by military, naval or air forces, or (c) by an agent of any such government, power, authority or forces, it being understood that any discharge, explosion or use of any weapon of war employing nuclear fission or fusion shall be conclusively presumed to be such a hostile or warlike action by such a government, power, authority or forces; (2) insurrection, rebellion, revolution, civil war, usurped power, or action taken by governmental authority in hindering, combating or defending against such an occurrence;

C. By nuclear reaction or nuclear radiation or radioactive contamination, all whether controlled or uncontrolled, or due to any act or condition incident to any of the foregoing, whether such loss be direct or indirect, proximate or remote, or be in whole or in part caused by, contributed to, or aggravated by the peril insured against by this policy;

D. By theft or by fire, windstorm, explosion, earthquake, landslide or any other earth movement except such mudslide or erosion as is covered under the peril of flood;

E. Caused by or resulting from power, heating or cooling failure, unless such failure results from physical damage to power, heating or cooling equipment situated on premises where the property covered is located, caused by the peril insured against;

F. Occasioned directly or indirectly by enforcement of any local or state ordinance or law regulating the construction, repair or demolition of building(s) or structure(s);

G. Caused directly or indirectly by neglect of the Insured to use all reasonable means to save and preserve the property at the time of and after an occurrence of the peril insured against by this policy.

PROPERTY COVERED

A. Building: When the insurance under this policy covers a building, such insurance shall include additions and extensions attached thereto; permanent fixtures, machinery and equipment forming a part of and pertaining to the service of the building; personal property of the insured as landlord used for the maintenance or service of the building including fire extinguishing apparatus, floor coverings, refrigerating and ventilating equipment, all while within the described building; also, materials and supplies while within an enclosed structure located on the described premises or adjacent thereto, intended for use in construction, alteration or repair of such building or appurtenant private structures on the described premises.

When the insurance under this policy covers a building used for residential purposes, the insured may apply up to 10% of the amount of insurance, applicable to such building, not as an additional amount of insurance, to cover loss to appurtenant private structures (other than the described building and additions and extensions attached thereto) located on the described premises. This extension of coverage shall not apply to structures (other than structures used exclusively for private garage purposes) which are rented or leased in whole or in part, or held for such rental or lease, to other than a tenant of the described building, or which are used in whole or in part for commercial, manufacturing or farming purposes.

B. Contents: When the insurance under this policy covers contents, coverage shall be for either household contents or other than household contents, but not for both.

1. When the insurance under this policy covers other than household contents, such insurance shall cover merchandise and stock, materials and stock supplies of every description; furniture, fixtures, machinery and equipment of every description all owned by the insured; improvements and betterments (as hereinafter defined) to the building if the insured is not the owner of the building and when not otherwise covered; all while within the described enclosed building.

2. When the insurance under this policy covers household contents, such insurance shall cover all household and personal property usual or incidental to the occupancy of the premises as a residence—except animals, birds, fish, business property, other property not covered under the provisions of this policy, and any property more specifically covered in whole or in part by other insurance including the peril insured against in this policy; belonging to the Insured or members of the Insured's family of the same household, or for which the Insured may be liable, or, at the option of the Insured, belonging to a servant or guest of the Insured; all while within the described building.

The Insured, if not the owner of the described building, may apply up to 10% of the amount of insurance applicable to the household contents covered under this item, not as an additional amount of insurance, to cover loss to improvements and betterments (as hereinafter defined) to the described building.

The Insured, if an individual condominum unit owner in the described building, may apply up to 10% of the amount of insurance on contents covered under this policy, not as an additional amount of insurance, to cover loss to the interior walls, floors, and ceilings that are not otherwise covered under a condominium association policy on the described building.

ATTACH APPLICATION AND DECLARATIONS FORM HERE

APPENDIX A
(2) GENERAL PROPERTY

This Company shall not be liable for loss in any one occurrence for more than:

(a) $500.00 in the aggregate on paintings, etchings, pictures, tapestries, art glass windows and other works of art (such as but not limited to statuary, marbles, bronzes, antique furniture, rare books, antique silver, porcelains, rare glass or bric-a-brac);

(b) $500.00 in the aggregate on jewelry, watches, necklaces, bracelets, gems, precious and semi-precious stones, articles of gold, silver or platinum and furs or any article containing fur which represents its principal value.

3. When the insurance under this policy covers improvements and betterments, such insurance shall cover the Insured's used interest in improvements and betterments to the described building.

(a) The term "improvements and betterments" wherever used in this policy is defined as fixtures, alterations, installations, or additions comprising a part of the described building and made, or acquired, at the expense of the Insured exclusive of rent paid by the Insured, but which are not legally subject to removal by the Insured.

(b) The word "lease" wherever used in this policy shall mean the lease or rental agreement, whether written or oral, in effect as of the time of loss.

(c) In the event improvements and betterments are damaged or destroyed during the term of this policy by the peril insured against, the liability of this Company shall be determined as follows:

(1) If repaired or replaced at the expense of the Insured within a reasonable time after such loss, the actual cash value of the damaged or destroyed improvements and betterments.

(2) If not repaired or replaced within a reasonable time after such loss, that proportion of the original cost at time of installation of the damaged or destroyed improvements and betterments which the unexpired term of the lease at the time of loss bears to the period(s) from the date(s) such improvements and betterments were made to the expiration date of the lease.

(3) If repaired or replaced at the expense of others for the use of the Insured, there shall be no liability hereunder.

C. Debris Removal: This insurance covers expense incurred in the removal of debris of or on the building or contents covered hereunder, which may be occasioned by loss caused by the peril insured against in this policy.

The total liability under this policy for both loss to property and debris removal expense shall not exceed the amount of insurance applying under this policy to the property covered.

PROPERTY NOT COVERED

This policy shall not cover:

A. Accounts, bills, currency, deeds, evidences of debt, money, securities, bullion, manuscripts or other valuable papers or records, numismatic or philatelic property.

B. Fences, retaining walls, seawalls, outdoor swimming pools, bulkheads, wharves, piers, bridges, docks; other open structures located on or partially over water; or personal property in the open.

C. Land values; lawn, trees, shrubs or plants, growing crops, or livestock; underground structures or underground equipment, and those portions of walks, driveways and other paved surfaces outside the foundation walls of the structure.

D. Automobiles; any self-propelled vehicles or machines, except motorized equipment not licensed for use on public thoroughfares and operated principally on the premises of the Insured; watercraft or aircraft.

E. Contents specifically covered by other insurance except for the excess of value of such property above the amount of such insurance.

DEDUCTIBLES

A. With respect to loss to the building or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the building, whichever is the greater.

B. With respect to loss to contents or debris removal covered hereunder, this Company shall be liable for only the amount of loss in any one occurrence which is in excess of (a) $200. or (b) 2% of the amount of loss to the contents, whichever is the greater.

GENERAL CONDITIONS AND PROVISIONS

A. Pair and Set Clause—If there is loss of an article which is part of a pair or set, the measure of loss shall be a reasonable and fair proportion of the total value of the pair or set, giving consideration to the importance of said article, but such loss shall not be construed to mean total loss of the pair or set.

B. Concealment, Fraud—This entire policy shall be void if, whether before or after a loss, the Insured has willfully concealed or misrepresented any material fact or circumstance concerning this insurance or the subject thereof, or the interest of the Insured therein, or in case of any fraud or false swearing by the Insured relating thereto.

C. Other Insurance—This Company shall not be liable for a greater proportion of any loss, less the amount of deductible, from the peril of flood than the amount of insurance under this policy bears to the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property, or which would have covered the property except for the existence of this insurance, whether collectible or not.

In the event that the whole amount of flood insurance (excluding therefrom any amount of "excess insurance" as hereinafter defined) covering the property exceeds the maximum amount of insurance permitted under the provisions of the National Flood Insurance Act of 1968, or any acts amendatory thereof, it is hereby understood and agreed that the insurance under this policy shall be limited to a proportionate share of the maximum amount of insurance permitted on such property under said Act, and that a refund of any extra premium paid, computed on a pro rata basis, shall be made by this Company upon request in writing submitted not later than 2 years after the expiration of the policy term during which such extra amount of insurance was in effect.

"Excess Insurance" as used herein shall be held to mean insurance of such part of the actual cash value of the property as is in excess of the maximum amount of insurance permitted under the said Act with respect to such property.

D. Added and Waiver Provisions—The extent of the application of insurance under this policy and of the contribution to be made by this Company in case of loss, and any other provision or agreement not inconsistent with the provisions of this policy, may be provided for in writing added hereto, but no provision may be waived except such as by the terms of this policy is subject to change.

No permission affecting this insurance shall exist, or waiver of any provision be valid, unless granted herein or expressed in writing added hereto. No provision, stipulation or forfeiture shall be held to be waived by any requirement or proceeding on the part of this Company relating to appraisal or to any examination provided for herein.

E. Cancellation of Policy or Reduction in Amount of Insurance—This policy may be cancelled at any time at the request of the Insured, in which case this Company shall, upon demand and surrender of this policy, refund the excess of paid premiums above the customary short rates for the expired time; provided, however, that the premium paid for the then current policy term shall be fully earned if the Insured retains an interest in the property covered at the location described in the application and declarations form.

The amount of insurance under this policy may be reduced at any time at the request of the Insured, in which case this Company shall, upon demand, refund the excess of paid premiums above the customary short rates for the expired time for the amount of the reduction; provided, however, that the premium paid for the then current policy term shall be fully earned to the extent that the Insured retains an interest in the property covered at the location described in the application and declarations form.

This policy may be cancelled by this Company for non-payment of the premium by giving to the Insured a 20-days' written notice of cancellation.

F. Conditions Suspending or Restricting Insurance—Unless otherwise provided in writing added hereto, this Company shall not be liable for loss occurring while the hazard is increased by any means within the control or knowledge of the Insured, provided, however, this insurance shall not be prejudiced by any act or neglect of any person (other than the Insured), when such act or neglect is not within the control of the Insured.

G. Alterations and Repairs—Permission is granted to make alterations, additions and repairs, and to complete structures in course of construction. In the event of loss hereunder, the Insured is permitted to make reasonable repairs, temporary or permanent, provided such repairs are confined solely to the protection of the property from further damage and provided further that the Insured shall keep an accurate record of such repair expenditures. The cost of any such repairs directly attributable to damage by the peril insured against shall be included in determining the amount of loss hereunder. Nothing herein contained is intended to modify the policy requirements applicable in case loss occurs, and in particular the requirement that in case loss occurs the Insured shall protect the property from further damage.

H. Property of Others—Unless otherwise provided in writing added hereto, loss to any property of others covered under this policy shall be adjusted with the Insured for the account of the owners of said property, except that the right to adjust such loss with said owners is reserved to this Company. Any such insurance under this policy shall not inure directly or indirectly to the benefit of any carrier or other bailee for hire.

I. Liberalization Clause—If during the period that insurance is in force under this policy, or within 45 days prior to the inception date thereof, on behalf of this Company there be adopted under the National Flood Insurance Act of 1968, or any acts amendatory thereof, any forms, endorsements, rules or regulations by which this policy could be extended or broadened, without additional premium charge, by endorsement or substitution of form, then such extended or broadened insurance shall inure to the benefit of the Insured hereunder as though such endorsement or substitution of form had been made.

J. Statutory Provisions—Any terms of this policy which are in conflict with the statutes of the State wherein the property is located are hereby amended to conform to such statutes, except that in cases of conflict with applicable Federal law or regulation, such Federal law or regulation shall control the terms of this policy.

K. Loss Clause—Payment of any loss under this policy shall not reduce the amount of insurance applicable to any other loss during the policy term which arises out of a separate occurrence of the peril insured against hereunder; provided, that all loss arising out of a continuous or protracted occurrence shall be deemed to constitute loss arising out of a single occurrence.

L. Mortgage Clause (Applicable to building items only and effective only when policy is made payable to a mortgagee (or trustee) named in the application and declarations form attached to this policy.)—

Loss, if any, under this policy, shall be payable to the aforesaid as mortgagee (or trustee) as interest may appear under all present or future mortgages upon the property described in which the aforesaid may have an interest as mortgagee (or trustee), in order of precedence of said mortgages, and this insurance, as to the interest of the mortgagee (or trustee) only therein, shall not be invalidated by any act or neglect of the mortgagor or owner of the described property, nor by any foreclosure or other proceedings or notice of sale relating to the property, nor by any change in the title or ownership of the property, nor by the occupation of the premises for purposes more hazardous than are permitted by this policy; provided, that in case the mortgagor or owner shall neglect to pay any premium due under this policy, the mortgagee (or trustee) shall, on demand, pay the same.

Provided, also, that the mortgagee (or trustee) shall notify this Company of any change of ownership or occupancy or increase of hazard which shall come to the knowledge of said mortgagee (or trustee) and, unless permitted by this policy, it shall be noted thereon and the mortgagee (or trustee) shall, on demand, pay the premium for such increased hazard for the term of the use thereof; otherwise this policy shall be null and void.

If this policy is cancelled by this Company, it shall continue in force for the benefit only of the mortgagee (or trustee) for 20 days after written notice to the mortgagee (or trustee) of such cancellation and shall then cease, and this Company shall have the right, on like notice, to cancel this agreement.

Whenever this Company shall pay the mortgagee (or trustee) any sum for loss under this policy and shall claim that, as to the mortgagor or owner, no liability therefor existed, this Company shall, to the extent of such payment, be thereupon legally subrogated to all the rights of the party to whom such payment shall be made, under all securities held as collateral to the mortgage debt, or may, at its option, pay to the mortgagee (or trustee) the whole principal due or to grow due on the mortgage with interest, and shall thereupon receive a full assignment and transfer of the mortgage and of all such other securities; but no subrogation shall impair the right of the mortgagee (or trustee) to recover the full amount of said mortgagee's (or trustee's) claim.

M. Mortgagee Obligations—If the Insured fails to render proof of loss, the named mortgagee (or trustee), upon notice, shall render proof of loss in the form herein specified within 60 days thereafter and shall be subject to the provisions of this policy relating to appraisal and time of payment and of bringing suit.

N. Loss Payable Clause
(Applicable to contents item only and effective only when a loss payee is named in Application and Declarations Form.)

Loss, if any, shall be adjusted with the Insured and shall be payable to the Insured and loss payee as their interests may appear.

O. Requirements in Case of Loss—The Insured shall give written notice, as soon as practicable, to this Company of any loss, protect the property from further damage, forthwith separate the damaged and undamaged property and put it in the best possible order. Within 60 days after the loss, unless such time is extended in writing by this Company, the Insured shall render to this Company a proof of loss, signed and sworn to by the Insured, stating the knowledge and belief of the Insured as to the following: the time and origin of the loss, the interest of the Insured and of all others in the property, the actual cash value of each item thereof and the amount of loss thereto, all encumbrances thereon, all other contracts of insurance, whether valid or not, covering any of said property, any changes in the title, use, occupation, location, possession or exposures of said property since the issuing of this policy, by whom and for what purpose any building herein described and the several parts thereof were occupied at the time of loss. The Insured, at the option of this Company, may be required to furnish a complete inventory of the destroyed, damaged and undamaged property, showing in detail quantities, costs, actual cash value and amount of loss claimed, and verified plans and specifications of any building, fixtures or machinery destroyed or damaged.

The Insured, as often as may be reasonably required, shall exhibit to any person designated by this Company all that remains of any property herein described, and submit to examinations under oath by any person named by this Company, and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, bills, invoices and other vouchers, or certified copies thereof if originals be lost, at such reasonable time and place as may be designated by this Company or its representative, and shall permit extracts and copies thereof to be made.

P. Appraisal—In case the Insured and this Company shall fail to agree as to the actual cash value or the amount of loss, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within 20 days of such demand. The appraisers shall first select a competent and disinterested umpire; and failing for 15 days to agree upon such umpire, then, on request of the Insured or this Company, such umpire shall be selected by a judge of a court of record in the State in which the insured property is located. The appraisers shall then appraise the loss, stating separately actual cash value and loss to each item; and, failing to agree, shall submit their differences, only, to the umpire. An award in writing, so itemized, of any two when filed with this Company shall determine the amount of actual cash value and loss. Each appraiser shall be paid by the party selecting him and the expenses of appraisal and umpire shall be paid by the parties equally.

Q. Company's Options—It shall be optional with this Company to take all, or any part, of the property at the agreed or appraised value, and also to repair, rebuild or replace the property destroyed or damaged with other of like kind and quality within a reasonable time, on giving notice of its intention so to do within 30 days after the receipt of the proof of loss herein required.

R. Abandonment—There shall be no abandonment to this Company of any property.

S. When Loss Payable The amount of loss for which this Company may be liable shall be payable 60 days after proof of loss, as herein provided, is received by this Company and ascertainment of the loss is made either by agreement between the Insured and this Company expressed in writing or by the filing with this Company of an award as herein provided.

T. Action Against the Company No suit or action on this policy for the recovery of any claim shall be sustainable in any court of law or equity unless all the requirements of this policy shall have been complied with, and unless commenced within 12 months next after the date of mailing of notice of disallowance or partial disallowance of the claim. An action on such claim against the Company may be instituted, without regard to the amount in controversy, in the United States District Court for the district in which the property shall have been situated.

U. Subrogation— In the event of any payment under this policy, this Company shall be subrogated to all of the Insured's right of recovery therefor against any party, and this Company may require from the Insured an assignment of all right of recovery against any party for loss to the extent that payment therefor is made by this Company. The Insured shall do nothing after loss to prejudice such right; however, this insurance shall not be invalidated should the Insured waive in writing prior to a loss any or all right of recovery against any party for loss occurring to the described property.

IN WITNESS WHEREOF, this Company has executed and attested these presents; but this policy shall not be valid unless countersigned by the duly authorized representative of this Company.

W. P. Williams

Attorney-in-Fact for the Insurance Companies
Members of National Flood Insurers Association

SPECIAL PROVISIONS

A. A list of all Insurance Companies members of the National Flood Insurers Association is on file in the office of the State Insurance Department of the State where the property covered is located and a copy may be obtained upon request from the office of the National Flood Insurers Association, 160 Water Street, New York, N. Y. 10038.

B. All notices or other communications required by this policy to be given to the Company shall be given to the Servicing Company designated on the Application and Declarations Form attached to this policy, and such notice shall be considered to constitute notice to the Company.

9.1 PREMIUM NOTICE (PAYOR)—NFIA-50—50-A

APPENDIX B

Approximately one and a half months before expiration of a policy for which the NFIA is able to determine rates and calculate renewal premiums, the payor (insured or mortgagee) is sent a premium notice advising him of the approaching expiration and specifying renewal premium amounts. The bottom of the form is a detachable renewal stub to be returned to the NFIA with the premium. Instructions for preparing the form are printed on its back. Samples of the front and back of the form are presented below and on the following page. NFIA-50A, marked "Agent's Copy," is sent to the agent at the same time as the premium notice is sent to payor; it is identical to the payor's copy.

FEDERAL REGISTER, VOL. 41, NO. 165—TUESDAY, AUGUST 24, 1976

V 41 165 AUG 24 76 UMI

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index **$8.00**
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

..... CUMULATIVE LIST OF CFR SECTIONS AFFECTED ($10.00 a year domestic; $12.50 foreign)
..... FEDERAL REGISTER INDEX ($8.00 a year domestic; $10.00 foreign)

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 909—GRAPEFRUIT GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Increase in Rate of Assessment 1975–76 Fiscal Period

On August 2, 1976, notice of proposed rule making was published in the FEDERAL REGISTER (41 FR 32234) regarding a proposed increase in the previously approved rate of assessment, from two and one-half to three cents per carton of grapefruit, for the fiscal period September 1, 1975, through August 31, 1976, pursuant to Order No. 909, as amended (7 CFR Part 909), regulating the handling of Grapefruit grown in Arizona and designated parts of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matters presented, including the proposal set forth in such notice which was submitted by the Grapefruit Administrative Committee (established pursuant to said amended marketing order), it is hereby found and determined that due to a decrease in the projected grapefruit crop, 4 million cartons of assessable grapefruit will be shipped during 1975–76, down from the 5 million cartons estimated at the beginning of the year. Therefore, income from the currently approved rate of assessment is not sufficient to meet the expenses of the committee, thus rendering necessary an increase in assessment rate.

It is, therefore, ordered that paragraph (b) *Rate of assessment* of § 909.214 (40 FR 54236) be amended to read as follows:

§ 909.214 Expenses, rate of assessment, and carryover of unexpended funds.

* * * * *

(b) *Rate of assessment.* The rate of assessment for such period, payable by each handler in accordance with § 909.41, is hereby fixed at three cents ($0.03) per carton, or equivalent quantity of grapefruit.

* * * * *

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the increased rate of assessment is necessary to enable the committee to meet its obligations and carry out its functions, (2) grapefruit shipments are now being made and will be completed for the 1975–76 fiscal period on August 31, 1976, (3) The relevant provisions of said marketing order require that the amended rate of assessment herein fixed shall be applicable to all assessable grapefruit handled during said period, and (4) such period began on September 1, 1975, and said rate of assessment will automatically apply to all such grapefruit beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 20, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–24838 Filed 8–24–76;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 124; Docket No. AO–368–A9]

PART 1124—MILK IN THE OREGON-WASHINGTON MARKETING AREA

Referendum Order; Determination of Representative Period; and Designation of Referendum Agent

It is hereby directed that a referendum be conducted to determine whether the issuance of the order amending the order regulating the handling of milk in the Oregon-Washington marketing area, which was attached to the decision of the Assistant Secretary issued August 6, 1976, is approved or favored by the producers, as defined under the terms of the order, as proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of March, 1976 is hereby determined to be the representative period for the conduct of such referendum.

James A. Burger is hereby designated agent of the Secretary to conduct the referendum for the Oregon-Washington marketing area in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders (7 CFR 900.300 et seq.). Such referendum shall be completed on or before September 24, 1976.

Signed at Washington, D.C., on August 19, 1976.

RICHARD L. FELTNER,
Acting Secretary.

[FR Doc.76–24839 Filed 8–24–76;8:45 am]

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 8761]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

William R. Clark

NOTE.—Codification under 16 CFR Part 13 appears at 34 FR 15348.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

In the Matter of William R. Clark

Order modifying an earlier order dated August 6, 1969, 34 FR 15348, 76 F.T.C. 207, modified September 1, 1970, 35 FR 15807, 77 F.T.C. 1186, by deleting Paragraph 16 of the Order because provisions of the newly promulgated Trade Regulation Rule on the Preservation of Consumers' Claims and Defenses supersedes it.

The modifying order to cease and desist is as follows:

ORDER MODIFYING ORDER TO CEASE AND DESIST

On June 17, 1976, respondent William R. Clark (Clark) by a paper entitled Motion to Modify Order Issued on August 6, 1969, and Modified on September 1, 1970, which will be treated as a petition to reopen this proceeding, has requested that Paragraph 16 be deleted from the Order. The Bureau of Consumer Protection has filed an answer wherein it advises that it does not oppose Clark's request.

The Commission has determined that the request should be granted because the provisions of its newly promulgated Trade Regulation Rule on the Preservation of Consumers' Claims and Defenses have superseded Paragraph 16 of this order.

It is ordered, That the proceeding be, and it hereby is, reopened.

It is further ordered, That the Order to Cease and Desist be, and it hereby is, modified by deleting Paragraph 16.

The Modifying Order was issued by the Commission July 13, 1976.

CHARLES A. TOBIN,
Secretary.

[FR Doc.76–24841 Filed 8–24–76;8:45 am]

V 41 1 166 AUG 25 76 UMI

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 75N-0297]

PART 510—NEW ANIMAL DRUGS

Subpart D—Records and Reports

SUBMISSION OF ADVERTISING AND PROMOTIONAL DATA

The Food and Drug Administration is providing for use of the form entitled "Transmittal of Periodic Reports and Promotional Material for New Animal Drugs" (Form FD-2301) in submitting new animal drug promotional material, effective September 24, 1976.

In the FEDERAL REGISTER of February 27, 1976 (41 FR 8496), the Commissioner of Food and Drugs proposed to amend § 510.302 (21 CFR 510.302) to make it consistent with the other regulations on records and reports and with the format and intended use of Form FD-2301. The Commissioner provided a 60-day period for comment on the proposal, until April 27, 1976, but no comments were received.

Form FD-2301 provides for the submission of new animal drug promotional material to the agency. Previously, submissions under § 510.300(b) (1), (2), and (3) (21 CFR 510.300(b) (1), (2), and (3)) were exempted by § 510.302 from using Form FD-2301. The basis for exempting the reports submitted pursuant to § 510.300(b) (1) and (2) from use of Form FD-2301 is the agency's need to receive and process the information submitted, which includes information concerning product defects and unusual or unexpected side effects, as rapidly as possible because expeditious agency implementing action may be necessary. Exemption under § 510.300(b)(3) from use of this form for the submission of mailing pieces or any other labeling and advertising that are devised for promotion of a new animal drug, on the other hand, is unnecessary because the exigency is absent for this type of information, and the Commissioner concludes that this information is more appropriately and easily processed when submitted on the Form FD-2301. Accordingly, the Commissioner is amending § 510.302 to require that information listed in § 510.300(b)(3) be submitted on Form FD-2301.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 512, 701 (a), 52 Stat. 1055, 82 Stat. 343-351 (21 U.S.C. 360b, 371(a))) and under authority delegated to him (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the Commissioner is amending Part 510 in § 510.302 by revising paragraph (a) to read as follows:

§ 510.302 Reporting forms.

(a) The information described in § 510.300, except that described in paragraph (b) (1) and (2) of that section, shall be submitted appropriately identified with the new animal drug application(s) to which they relate in duplicate on Form FD-2301 "Transmittal of Periodic Reports and Promotional Material for New Animal Drugs."

• • • • •

Effective date: This amendment shall be effective September 24, 1976.

(Secs. 512, 701(a), 52 Stat. 1055, 82 Stat. 343-351 (21 U.S.C. 360b, 371(a)).)

Dated: August 18, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-24847 Filed 8-24-76;8:45 am]

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations Village of Jean Lafitte, Louisiana

On April 5, 1975, at 41 FR 14368, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in Jean Lafitte. Since that date, ninety days have elapsed, and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of March 26, 1976 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 220371A and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Jean Lafitte Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Jean Lafitte map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 29, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: August 11, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[FR Doc.76-24866 Filed 8-24-76;8:45 am]

[Docket No. FI-1042]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations City of Clayton, Missouri

On April 21, 1976, at 41 FR 16655, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in Clayton, Missouri. Since that date, ninety days have elapsed, and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of April 9, 1976 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 290341B and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Clayton Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Clayton map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 29, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 11, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[FR Doc.76-24865 Filed 8-24-76;8:45 am]

[Docket No. FI-1075]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations for City of Smithville, Missouri

On April 27, 1976, at 41 FR 17541, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in Smithville, Missouri. Since that date, ninety days have elapsed; and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of April 23, 1976 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 295271A and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the final flood elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Lavallette Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Lavallette map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 11, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations for Borough of Lavallette, New Jersey

On April 16, 1976, at 41 FR 16147, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in Lavallette, New Jersey. Since that date, ninety days have elapsed; and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of April 16, 1976 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 340379C and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the final flood elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Rumson Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Rumson map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 11, 1976.

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations for City of Rapid City, South Dakota

On August 7, 1975, at 40 FR 33283, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in Rapid City, South Dakota. Ninety days have elapsed since that date, and the Administrator has received an appeal from Rapid City, requesting changes in the proposed flood elevation determinations.

The Federal Insurance Administrator, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base flood elevations proposed on August 7, 1975, as a result of requests for changes in the determination. These modified elevations are in effect as of September 3, 1976, and amend the Flood Insurance Rate Map, which was in effect prior to this date.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 465420C and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Rapid City Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Rapid City map.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for Honolulu County, Hawaii

On June 3, 1970, in 35 FR 8734, the Federal Insurance Administrator published a list of communities with special hazard areas which included Honolulu, Hawaii. Map No. H 150001 45 indicates that Haiku Gardens Townhouse Development, being R–6 Residential District No. R–57, Heela, Koolauporo, Oahu, Hawaii, recorded in Liber 10045, Page 316 in the office of the Bureau of Conveyance, State of Hawaii, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the existing structures on the above property are not within the Special Flood Hazard Area. Accordingly, Map No. H 150001 45 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area identified on June 5, 1970.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 18, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 13, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 233—COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

Need and Amount of Assistance; Correction

In FEDERAL REGISTER Document 76–21627, published at page 30647 in the issue dated Monday, July 26, 1976, the definition of Need Standard appearing near the end of the Notice is corrected to read: "Need standard means the money value assigned by the State to the basic and special needs it recognizes as essential for applicants and recipients;"

Approved: August 13, 1976.

THOMAS S. MCFEE,
Deputy Assistant Secretary for Management Planning and Technology.

[FR Doc.76–24914 Filed 8–24–76;8:45 am]

PART 249—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

Home Health Services

Notice of proposed rule making was published August 21, 1975 (40 FR 36702) revising existing regulations on the provision of home health services under State plans for medical assistance (title XIX, Social Security Act). The purpose of the proposed revisions was to remove certain restrictions and ambiguities which prevented full realization of the benefits of such services. The basis for the proposal was the Department's desire to increase the availability of home health services to Medicaid recipients and to encourage their use in appropriate cases as one alternative to institutionalization.

In summary, the regulations as proposed would have:

Permitted certain types of qualified health service agencies, in addition to those which meet Medicare standards, to provide home health services under Medicaid programs;

Prescribed the standards which those agencies must meet, which paralleled those for Medicare but were appropriately adjusted for differing needs under Medicaid;

Permitted proprietary agencies to participate if they met the standards, subject to any licensing law of the State;

Clarified that States must make available under the State plan the three main types of services needed in home care: nursing, home health, aide, and supplies and equipment, and also permitted them to provide various therapies as home health services;

Clarified the Medicaid recipients to whom home health services must be available, specified the requirements for a physician's determination of medical needs recorded in a plan of care and periodically reviewed, and clarified that Medicare requirements relating to need for certain types of "skilled" care and the prior hospitalization applicable to the Medicare Part A home health benefit do not apply under Medicaid.

Nearly 1300 comments were received from a broad range of interested parties: Members of Congress, private citizens, national health and welfare organizations, consumer and senior citizen groups, public and private providers and provider organizations, State and local agencies, etc. The comments themselves represented a broad range of opinion from approval of the changes to strong objections in whole or in part. Evidence of widespread interest was also presented by the holding of public hearings on Oc-

V 41 166 AUG 25 76 UMI

tober 28, 1975 by subcommittees of the Senate and House Committees on Aging, and by the convening of an all-day session on the major issues to which the Department invited State, congressional, consumer and provider representatives.

The greatest controversy arose over the proposal to drop from Medicaid the restrictions on proprietary agency participation applied by statute under Medicare, thus allowing their participation in the Medicaid program on the same basis and under the same standards as nonprofit agencies. Another major issue was the establishment of standards differing in some respects from Medicare's, including the provision for single service agencies to participate in Medicaid (those offering only nursing or only home health aide services). In addition, however, these were questions and suggestions on virtually every detail of the proposed regulations.

In light of the great public interest and widely varying opinions the Medicaid regulations are being published at this time with only those revisions necessary to clarify the previous ambiguities on persons eligible to receive home health services and types of services State must provide. This should increase understanding of the requirements on the part of States, recipients and home health agencies and facilitate the appropriate provisions of the services. The issues raised by the proposed rule making will be included for discussion in the overall review of home health care on which the Department has announced public hearings (see Notice of Intent, FR Doc. 76–24916 published elsewhere in this issue).

With respect to the eligibility provisions, comments received were affirmative. Comments on the services requirements and the Department's response are summarized below:

(a) Clarify when services may be provided in an intermediate care facility. This has been done by giving an example.

(b) Change the 90-day physician's review to the Medicare requirement of 60 days. This has been done.

(c) With respect to use of a "solo" nurse in the absence of a qualified agency: Drop the requirement, make it optional, clarify when no agency is considered "available", require States to hold public hearings prior to such a finding, clarify "direction" by a physician.

The requirement has been retained since it is necessary for the provision of services in certain areas, primarily rural. Approximately 23 States now make use of this provision and the Department considers it essential for all States to have such arrangements in effect. However, the requirement has been strengthened by restricting its applicability to use of registered nurses.

The non-availability of an agency has been clarified by changing the wording to "no such agency exists in the area". This clarification also makes it unnecessary to provide for public hearings on whether an agency is not "available". The wording on "direction" by a physician has been replaced by more specific language.

(d) Clarify whether the home health agency itself must furnish the medical supplies, equipment and appliances required by § 249.10(b)(7)(i)(C).

It is the State's responsibility to make payment for any such item. The items may be supplied by direct prescription of the physician and not necessarily by the home health agency.

(e) Many respondents suggested that a variety of other services—nutrition, homemaker, social services—should be required and that the therapy services listed as optional should be mandated.

The Department recognizes that many of these services would enhance the benefits gained from home health services. However, some of the suggested services are solely custodial in nature and readily available under other federally-assisted programs and, therefore, do not appear to be appropriate for inclusion under title XIX of the Act, the primary purpose of which is to make medical care and services available to indigent people. The therapy services have been retained as optional since it is felt that in the light of current fiscal restraints, this should be a State decision. Such services are optional in State Medicaid programs for provision to any recipient as well as under home health programs. However, all suggestions on services will be considered in the development of possible legislative proposals as a result of the NOI and public hearings discussed above.

A comment was also received on the definition of a medical rehabilitation facility which may provide therapy services under these regulations. It pointed out an inconsistency between the specification that the major portion of services be provided in the facility and the fact that home health services are provided in the patient's residence. The wording has been clarified.

Accordingly, the proposed regulations, as modified, are hereby adopted.

During the year following the publication of these regulations, the Department will evaluate the utilization and delivery of home health services under both Medicare and Medicaid. Modifications in the legislation and regulations of both programs will be considered on the basis of this evaluation.

Chapter II, Title 45, Code of Federal Regulations, is amended as follows:

1. Section 249.10 is amended by revising paragraphs (a)(4) and (b)(7) to read as set forth below:

§ 249.10 Amount, duration, and scope of medical assistance.

(a) * * *

* * * * * * *

(4) Provide for the inclusion of home health services which, as a minimum, shall include nursing services, home health aide services, and medical supplies, equipment and appliances, as specified in paragraph (b)(7) of this section. Under this requirement, home health services must be provided to all categorically needy individuals 21 years of age or over; to all categorically needy individuals under 21 years of age if the State plan provides for skilled nursing facility services for such individuals; and to all corresponding groups of medically needy individuals to whom skilled nursing facility services are available under the plan. Eligibility of any individual to receive home health services available under the plan shall not depend upon his need for, or discharge from, institutional care.

* * * * * * *

(b) * * *

* * * * * * *

(7) *Home health services.* (i) This term means the following services and items provided to a recipient in his place of residence. Such residence does not include a hospital, skilled nursing facility or intermediate care facility, except that these services and items may be furnished as home health services to a recipient in an intermediate care facility if they are not required to be furnished by the facility as intermediate care services (for example, short-term registered nurse service during an acute illness to avoid transfer to a skilled nursing facility). Any such service or item provided to a recipient of home health services must be ordered by his physician as part of a written plan of care which is reviewed by his physician at least every 60 days. Those services listed in paragraphs (A), (B) and (C) are required to be made available by the State as home health services; those listed in paragraph (D) may be provided as home health services at State option.

(A) Nursing service, as defined in the State Nurse Practice Act, provided on a part-time or intermittent basis by a home health agency or, in the case where no such agency exists in the area by a registered nurse who is currently licensed to practice in the State, who receives written orders from the patient's physician, documents the care and services provided, and has had orientation to acceptable clinical and administrative record-keeping from a health department nurse.

(B) Home health aide services provided by a home health agency.

(C) Medical supplies, equipment and appliances suitable for use in the home.

(D) Physical therapy, occupational therapy or speech pathology and audiology services, provided by a home health agency or by a facility licensed by the State to provide medical rehabilitation services.

(ii) The term "home health agency" means a public or private agency or organization, or a subdivision of such an agency or organization, which is qualified to participate as a home health agency under title XVIII of the Social Security Act, or is determined currently to meet the requirements for such participation.

(iii) A "facility licensed by the State to provide medical rehabilitation services" means one which is operated under competent medical supervision and which provides therapy services for the primary purpose of assisting in the rehabilitation of disabled persons through an integrated program of (I) medical evaluation and services, and (II) psychological, social, or vocational evaluation and services. The facility must be operated either in connection with a hospital or as a facility in which all medical and related health services are prescribed by, or are under the general direction of, persons licensed to practice medicine or surgery in the State.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Alameda and Pocatello, Idaho

Order. In the matter of amendment of § 73.202(b), *table of assignments*, FM Broadcast Stations. (Alameda and Pocatello, Idaho).

1. The FM Table of Assignments indicates that Channel 285A is assigned to Alameda, Idaho. However, since the adoption of the assignment, Alameda has been incorporated into the City of Pocatello, Idaho. Pocatello (pop. 40,036) has two Class C FM assignments (Channels 229 and 235). In order to update and correct the assignment in the FM Table, Channel 285A is redesignated as a Pocatello assignment. There is an application pending for use of the channel (BPH–9877) filed by KSEI Broadcasters, Inc. The application will not be affected since Alameda is now a part of the City of Pocatello.

2. This amendment to the rules is adopted pursuant to the authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules. Since this amendment constitutes a corrective measures, imposes no new requirements, and will not adversely affect the rights of any licensee, prior notice of proposed rulemaking and the usual effective date requirements of the Administrative Procedure Act are unnecessary. 5 U.S.C. 553(d)(B) and 5 U.S.C. 553(d)(3).

3. Accordingly, *it is ordered*, That effective September 3, 1976, the Table of FM Assignments, § 73.202(b) of the rules and regulations, is amended to read as follows:

City:	Channel No.
Alameda, Idaho	—
Pocatello, Idaho	229, 235, 285A

Adopted: August 19, 1976.

Released: August 20, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1–118]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegations Under Executive Order 11912

The purpose of this amendment is to delegate to various Departmental officers functions vested in the Secretary by Executive Order 11912, "Delegation of Authorities Relating to Energy Policy and Conservations" (41 FR 15825; April 15, 1976.)

Since this amendment relates to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of Title 49, Code of Federal Regulations, is amended as follows:

1. In § 1.50, a new paragraph (j) is added, to read as follows:

§ 1.50 Delegations to National Highway Traffic Safety Administrator.

The National Highway Traffic Safety Administrator is delegated authority to—

* * * * * * *

(j) Carry out the functions vested in the Secretary by section 1(a) of Executive Order-11912.

2. In § 1.57, a new paragraph (d) is added, to read as follows:

§ 1.57 Delegations to Assistant Secretary for Policy, Plans, and International Affairs.

The Assistant Secretary for Policy, Plans, and International Affairs is delegated authority to—

* * * * * * *

(d) Carry out the functions vested in the Secretary by section 4(a) of Executive Order 11912.

3. In § 1.59, a new subparagraph (3) is added at the end of paragraph (a), and a new paragraph (m) is added, to read as follows:

§ 1.59 Delegations to Assistant Secretary for Administration.

The Assistant Secretary for Administration is delegated authority for the following—

(a) *Procurement.* * * *

(3) Carry out the functions vested in the Secretary by sections 3 and 4(b) (as appropriate) of Executive Order 11912.

* * * * * * *

(m) *Building management.* Carry out the functions vested in the Secretary by sections 1(b) and 4(b) (as appropriate) of Executive Order 11912.

4. In § 1.63, a new paragraph (c) is added, to read as follows:

§ 1.63 Delegations to Director of Public Affairs.

The Director of Public Affairs is delegated authority to—

* * * * * * *

(c) Carry out the functions vested in the Secretary by section 4(b) (as appropriate) of Executive Order 11912.

(Sec. 9(e), Department of Transportation Act, 49 U.S.C. 1657(e).)

Effective date: This amendment is effective August 25, 1976.

Issued in Washington, D.C., on August 19, 1976.

WILLIAM T. COLEMAN, Jr.,
Secretary of Transportation.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

National Wildlife Refuges in Certain States

The following special regulations are issued and are effective on September 10, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the Wheeler National Wildlife Refuge is permitted only on the area designated by signs and/or on hunt maps as open to hunting. This open area, comprising that part of the Wheeler National Wildlife Refuge located within the boundaries of the Redstone Arsenal Reservation, is delineated on maps available at the Refuge Headquarters, Box 1643, Decatur, Alabama 35601; the Provost Marshal's Office at Redstone Arsenal, and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing hunting of deer, subject to the following conditions:

(1) Hunting shall be by daily permit only.

V 41 166 AUG 25 76 UMI

(2) Hunting will be limited to the periods October 23–24, October 30–31, November 6–7, November 13–14, 1976, archery only, either sex; November 20–21, November 27–28, December 4–5, December 11–12, December 18, 1976, guns only, antlered bucks only; and December 26, 1976, January 2, and January 8, 1977, gun, either sex.

(3) Weapons are limited to shotguns of gauges 20 to 12, loaded with single ball only and longbows with broadhead arrows.

(4) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 8, 1977.

ARKANSAS

HOLLA BEND NATIONAL WILDLIFE REFUGE

Public hunting of deer with longbow and arrow on the Holla Bend National Wildlife Refuge, Arkansas, is permitted. The hunting area, comprising approximately 6,367 acres, is delineated on a map available at Refuge Headquarters, Box 1043, Russellville, Arkansas 72801, and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer subject to the following special conditions:

(1) Open Season: October 1 through November 30, 1976; Archery only.

(2) A special permit is required.

(3) Hunters may not enter the refuge earlier than 2 hours before official sunrise daily.

(4) All deer taken must be reported before leaving the refuge.

(5) Only portable tree stands capable of being quickly removed are permitted. Stands must bear the name and address of the owner and must be removed from the refuge by December 6, 1976.

(6) All hunters must register upon entering the refuge each day.

(7) Hunters are prohibited from driving vehicles across or otherwise damaging standing crops and may not park their vehicle so as to block any road or thoroughfare.

(8) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 30, 1976.

WHITE RIVER NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the White River National Wildlife Refuge, Arkansas, is permitted only on the area designated by signs as open to hunting. This open area is delineated on a map available at the Refuge Headquarters and from the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) Species permitted to be taken: White-tailed deer, beaver, and feral hogs.

(2) Open season: Archery—October 16–30; Muzzleloading rifles—October 22–23; Gun—November 8–9, 1976.

(3) Bag limits: One deer of either sex, no limit on beaver and feral hogs.

(4) Weapons—in accordance with State regulations.

(5) Loaded guns are not permitted in vehicles or in camps. Shooting is not allowed from boats, vehicles, or roadways used by vehicles. Dogs and horses are not allowed and all vehicles must stay on regularly used roads and trails. Shooting hours are 30 minutes before sunrise to 30 minutes after sunset. Camping is permitted in designated areas. Hunters may enter the open hunting area at noon on the date preceding each hunt and must be out of the area by dark of the closing day. Fires may be built only at the campsites.

(6) Deer killed during the gun hunting must be checked at one of the refuge check stations between 7:30 a.m. and 7 p.m.

(7) Hunters may not return to hunt hogs or beaver after they have killed a deer.

(8) Permit required. No person is authorized to enter the hunting area without a permit. Submission of more than one permit application or applications containing false information is prohibited.

(9) Each hunter under 17 years of age must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(10) Each gun deer hunter is required to wear a minimum of 500 square inches of daylight fluorescent orange above the waistline.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 9, 1976.

FLORIDA

LAKE WOODRUFF NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer and feral (wild) hogs is permitted on approximately 1,450 acres of Lake Woodruff National Wildlife Refuge. The area open to hunting includes all Federally owned lands on Dexter and Tick Islands as delineated on a map available at the Refuge Headquarters, P.O. Box 488, DeLeon Springs, Florida 32028, or from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer and hogs, subject to the following special conditions:

(1) Open seasons: (a) Archery—September 10–12 and September 24–26, 1976. (b) Primitive gun—October 8–10 and October 29–31, 1976.

(2) Bag limits: White-tailed deer—same as State regulations. Feral hogs—no bag limit. Deer of either sex, except spotted fawns, may be hunted during the archery and primitive gun seasons.

(3) Permitted methods of hunting:

(a) Archery season: Weapons in accordance with State regulations. Hunters must be on stands from ½ hour before sunrise to 1½ hours after sunrise. No stalking or movement through the hunt area is permitted during the stand hunt hours.

(b) Primitive gun season: Weapons permitted are muzzleloading percussion cap or flintlock rifles with iron sights and rifled bores.

(4) Access and hours of use: No overnight use is permitted on the refuge. No entry will be permitted prior to two hours before sunrise, and all hunters must clear the area by one hour after sunset. All hunters must check in daily at the check station before entering the hunt area and check out daily before leaving.

(5) Permits: A refuge permit is required. Permits are non-transferable; submission of more than one permit application or applications containing false information is prohibited.

(6) Scouting: Participants drawn for the hunts may visit the hunt area on September 3 and 4 and October 1 and 2 from 8:00 a.m. to 5:00 p.m. Weapons, dogs and fires are prohibited.

(7) During the primitive gun season hunters must wear a minimum of 500 square inches of fluorescent orange colored material above the waistline.

(8) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(9) All fires are prohibited.

(10) No dogs are allowed on the refuge.

(11) It is unlawful to drive a nail, spike, or other metal object into any tree, or to hunt from any tree in which a metal object has been driven.

(12) Game must be checked at the refuge check station.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title

50, Code of Federal Regulations, Part 32, and are effective through October 31, 1976.

ST. MARKS NATIONAL WILDLIFE REFUGE

Public hunting of deer and wild hogs on the St. Marks National Wildlife Refuge, Florida, is permitted only in the area designated by signs as open to hunting. This open area, comprising approximately 1,200 acres is delineated on a map available at the Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of deer and wild hogs.

The provisions of this special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1977.

ST. VINCENT NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer, feral (wild) hogs, raccoon, and opossum is permitted on 12,358 acres of St. Vincent National Wildlife Refuge. The area open to hunting includes all of St. Vincent Island. The area open to hunting is delineated on a map available at the Refuge Headquarters. P.O. Box 447, Apalachicola, Florida 32320, or from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, wild hogs, raccoon, and opossum, subject to the following special conditions:

(1) Species permitted to be taken: White-tailed deer—either sex (except spotted fawn) on archery hunts. Antlered bucks only on primitive gun hunt. Hogs (minimum 15 inch shoulder height), raccoon, and opossum.

(2) Bag limits: White-tailed deer—1 per day, 2 per season. Hogs, raccoon, and opossum—no bag limits.

(3) Open seasons: Bow and arrow—October 21–24, 1976, and November 18–21, 1976. Primitive gun—December 9–12, 1976.

(4) Methods of hunting: (a) Bow and arrow seasons—Weapons in accordance with State regulations. Hunters must be on stands from ½ hour before sunrise to 1½ hours after sunrise. No stalking or movement through the woodlands is permitted during the stand hunt hours. (b) Primitive gun season—Weapons permitted are muzzleloading percussion cap or flintlock rifles with rifled barrels.

(5) A special permit is required for all hunts.

(6) Access: Initial entry onto St. Vincent Island is restricted to two check stations throughout the hunts. These are designated Campsite 1 and Campsite 2 on the hunting area map. Each hunter must check in upon initial entry and check out before he leaves the island on his last hunting day. Participants are to have their game inspected by refuge personnel at the check station where they received their permits. The use of boats to gain access at points other than check stations must first be registered at one of the check stations. The use of boats for ingress and egress at unauthorized locations is prohibited.

(7) During the primitive gun hunt, hunters are required to wear outer garments above the waist which contain a minimum total of 500 square inches of daylight, fluorescent orange colored material. Bow hunters are required to wear red, orange, or yellow outer garment (hat, vest, etc.) while hunting.

(8) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(9) Camping and fires are restricted to designated camping areas. Participants may set up camp one day prior to the opening of each hunt season, but are not permitted to leave the campsite area to set up stands, "scout," etc. Campers must remove all equipment from St. Vincent Island by 3:00 p.m. following the last day of each hunt season.

(10) Dogs are not permitted on the island.

(11) No motorized vehicles or equipment will be permitted.

(12) Only dead wood may be cut for campfires.

(13) It is unlawful to drive a nail, spike, or other metal object into any tree or to hunt from any tree in which a nail, spike, or other metal object has been driven.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 12, 1976.

GEORGIA

BLACKBEARD ISLAND NATIONAL WILDLIFE REFUGE

Public hunting for deer on Blackbeard Island National Wildlife Refuge, Georgia, is permitted only on the area designated as Blackbeard Island proper. This open area, comprising 4,535 acres, is delineated on a map available at the Refuge Headquarters, Route 1, Hardeeville, South Carolina 29927, and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer subject to the following conditions:

(1) Deer and raccoon may be taken during the following open periods: October 28–31, 1976 and December 28–30, 1976.

(2) During the periods from daylight to 9:30 a.m. and from 3:30 p.m. to sunset daily all hunters must remain on stands.

(3) The season bag limit is two deer of either sex.

(4) Only archery equipment as prescribed in State regulations may be used.

(5) Dogs are prohibited.

(6) Camping and fires will be permitted only at the designated camping area.

(7) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(8) Participants may not enter the refuge more than 2 days in advance of each opening date and must depart the refuge the day following the last day of the hunt.

(9) The refuge will be closed to all forms of public use except hunting during the periods October 28–31, 1976 and December 28–30, 1976.

(10) *Hunters will be restricted to the camping area until the morning of the first day of each hunt period.*

(11) Blazing, driving spikes in, painting, applying tape to, or damaging trees and shrubbery in any manner is prohibited. Hunting stands which will damage trees are not permitted.

(12) A refuge permit is required to hunt and camp.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 30, 1976.

PIEDMONT NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the Piedmont National Wildlife Refuge, Georgia, is permitted on the refuge except in those areas designated by signs as closed. The open area, comprising approximately 33,000 acres, is delineated on the map available at the Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer, subject to the following special conditions:

(1) Open season and bag limit:

(a) Archery hunt—October 2–10, 1976. Limit two deer of either sex.

(b) Buck hunt—October 28–30, 1976. Limit two bucks with visible antlers.

(c) Either sex hunts—November 5 and 13, 1976. Limit one deer.

(2) Roads cabled off or not shown on the map are closed to all vehicular travel. Parked vehicles must be in sight of the road and must not block entrances to roads.

(3) Buckshot and handguns may not be used or possessed. Target practice during the gun hunts is prohibited.

(4) All deer killed must be field dressed and checked in at Refuge Headquarters on the same day they are killed and before leaving the refuge area.

(5) Dogs are prohibited.

(6) Camping and fires are restricted to the designated camping area in Com-

V 41 166
AUG 25 76
UMI

partment 19 which will be open on the following dates: October 1–11; October 27–31; November 4–6; and November 12–14, 1976.

(7) Each hunter under age 17 must be under the close supervision of an adult. The ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(8) It is unlawful to drive a nail, spike, or metal object into any tree or to hunt from any tree in which a nail, spike, or other metal object has been driven.

(9) All areas open for hunting may be visited for scouting purposes only on October 23, 1976, during daylight hours only. Weapons and dogs are not permitted.

(10) A refuge permit is required. Hunt permits are nontransferable. Submission of more than one permit application or applications containing false information is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 13, 1976.

WASSAW ISLAND NATIONAL WILDLIFE REFUGE

Public hunting for deer and raccoon on Wassaw Island National Wildlife Refuge, Georgia, is permitted on the area designated as Wassaw Island proper excluding that area known as the "Home Parcel." This open area, comprising 1,705 acres, is delineated on a map available at Refuge Headquarters, Route 1, Hardeeville, South Carolina 29927, and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer and raccoon, subject to the following conditions:

(1) Deer and raccoon may be taken December 17–19, 1976.

(2) During the periods from daylight to 9:30 a.m. and from 3:30 p.m. until sunset daily all hunters must remain on stands.

(3) The season bag limit is two deer of either sex.

(4) Only rifles, and shotguns 20 gauge or larger using slugs may be used during the hunt. Handguns and buckshot are prohibited. Target practice during the gun hunt is prohibited. Weapons must be unloaded except during the daily hunting periods.

(5) Dogs are prohibited.

(6) All camping will be at the designated camping area on Pine Island. Fires must be confined to the camping area.

(7) Permit holders must check in at the Wassaw Refuge Headquarters and leave their boats at the refuge dock.

(8) The refuge will be closed to all forms of public use except hunting from December 17–19, 1976.

(9) Hunt participants may not enter the refuge more than 1 day prior to the hunt. Hunters will be restricted to the camping area until the morning of the first day of each hunt period.

(10) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(11) Blazing, driving spikes in, painting, applying tape to, or damaging trees and shrubbery in any manner is prohibited. Hunting stands which will damage trees are not allowed.

(12) A refuge permit is required to hunt and camp. Hunt permits are nontransferable. Submission of more than one permit application, or applications containing false information is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 19, 1976.

LOUISIANA

CATAHOULA NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer is permitted within the fenced portion of Catahoula National Wildlife Refuge designated by signs as open to hunting. This area, comprising 3,000 acres or 55 percent of the total refuge area, is delineated on the map on the reverse side. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) Seasons and sex:

(a) Archery hunt: Either sex—October 30–November 7, 1976.

(b) Gun hunt: Bucks only—December 2–4, 1976.

(2) Weapons:

(a) Archery: Longbows as provided for in State regulations.

(b) Gun: Centerfire rifles.

(3) Hunting hours: One-half hour before sunrise until one-half hour after sunset. Hunters may enter area 30 minutes prior to legal shooting hours and must exit 30 minutes after legal hours.

(4) Permits: A refuge permit is required for all hunts.

(5) Still hunting only. No dogs allowed. No permanent tree stands may be constructed. It is unlawful to drive a nail, spike, or other metal object into any tree or to hunt from any tree in which a metal object has been driven.

(6) Required clothing: Every gun hunter must wear outer garments consisting of at least 500 square-inches of daylight fluorescent orange colored material worn above the waistline.

(7) No vehicles may be parked more than 50 yards from existing roads or trails. No ATV vehicles other than jeep type will be allowed. No vehicles with tires larger than 9.00x16" may be used.

(8) Unmarked feral hogs may be taken by deer hunters.

(9) All deer killed must be checked out at a refuge checking station.

(10) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 4, 1976.

MISSISSIPPI

NOXUBEE NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on Noxubee National Wildlife Refuge, Mississippi, is permitted only on the area designated by signs and delineated on maps available at Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) Open Seasons: Archery hunt—October 2–16, 1976; Gun hunts—November 22–27, 1976 and January 10–15, 1977; Primitive weapons—December 6–11, 1976.

(2) Weapons: Longbow and arrows, shotguns 20 gauge or larger and centerfire rifles, muzzleloading rifles and shotguns.

(3) Sunday hunting prohibited.

(4) Horses and dogs are not permitted.

(5) All deer killed must be checked out at one of the designated refuge checking stations.

(6) Permits are required for all deer hunts.

(7) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(8) Man-drive deer hunting prohibited.

(9) The use of any CB radio devices to aid in the pursuit or taking of any wildlife species is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 15, 1977.

YAZOO NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Yazoo National Wildlife Refuge is permitted only in wooded areas not designated by signs as closed to hunting. This open area, comprising approximately 10,500 acres, is delineated on a map available at Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of deer, subject to the following special conditions:

(1) Open season: Archery—October 30–November 13, 1976, Sundays excluded. Gun—December 27, 1976–January 1, 1977.

(2) Bag limit: One deer of either sex during the archery hunt. One buck with antlers 4 inches or longer during the gun hunt.

(3) Weapons: Archery—Longbows only; Gun—Shotguns, 20 gauge and larger, and centerfire rifles .222 cal. or larger. No handguns permitted.

(4) A refuge deer hunting permit is required. Entry of hunting area without permit is prohibited. Submission of more than one permit application or applications containing false information is prohibited.

(5) Firearms may not be discharged within 250 yards of residences or the Refuge Headquarters. The carrying of loaded firearms in vehicles and shooting from or across county or State roads is prohibited.

(6) All deer killed must be checked out at a refuge checking station.

(7) Hunters may enter the hunting area no earlier than 1 hour before sunrise. Archery hunters must depart the hunting area immediately after sunset and gun hunters must depart the hunting area no later than 1 hour after sunset.

(8) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(9) Gun hunters are required to wear a minimum of 500 square inches of daylight fluorescent orange colored garment above the waist.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 1, 1977.

NORTH CAROLINA

PUNGO NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer on the Pungo National Wildlife Refuge, North Carolina, is permitted on all areas not designated by signs as closed to hunting. This open area, comprising 7,000 acres, is delineated on maps available at the Refuge Headquarters, Plymouth, North Carolina, and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) Seasons and sex:

(a) Bow and arrow only: Either sex—September 20–October 6, 1976.

(b) Shotguns and primitive weapons: Either sex—October 12, 13, 14, 18, 19, 20, 26, and 27, 1976.

(2) Hunting hours; Sunrise to sunset. All guns must be unloaded and bows unstrung at sunset.

(3) Weapons:

(a) Bow and arrow as provided for in State regulations.

(b) Shotguns—20 gauge or larger with rifled slugs or shot no smaller than No. 4 buckshot.

(c) Primitive weapons—muzzleloading percussion cap or flintlock rifles.

(4) Permits: A refuge permit is required for all hunts. Submission of more than one permit application, or applications containing false information is prohibited.

(5) Required clothing: Every gun hunter must wear outer garments consisting of at least 500 square inches of daylight fluorescent orange colored material worn above the waistline.

(6) Age Limits: Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(7) Closed area: Unauthorized entry into any building or designated "CLOSED AREA" is prohibited. No hunting is permitted within 200 yards of the refuge subheadquarters.

(8) Transporting weapons: Weapons must be unloaded while being transported in or on a vehicle.

(9) Prohibited: Modern rifles, pistols, crossbows, dogs, fires, camping, and littering.

(10) Hunters shall not disturb, damage, or destroy unharvested crops.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 27, 1976.

SOUTH CAROLINA

CAPE ROMAIN NATIONAL WILDLIFE REFUGE

Public hunting of big game on the Bulls Island Unit of the Cape Romain National Wildlife Refuge, Awendaw, South Carolina, is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,500 acres, is delineated on maps available at the Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) The open season for hunting of white-tailed deer (either sex) is November 8–13 and December 6–11, 1976.

(2) Only archery equipment in accordance with State regulations is permitted. Firearms & ammunitions, crossbows, poison arrows, dogs, alcoholic beverages, nails, paint or flagging are not allowed on the Island.

(3) On the area north of Beach Road, hunters must remain on their stands from 30 minutes before sunrise until 9 a.m. and from 3 p.m. until 30 minutes after sunset. No hunting within 100 feet of the Walking Trail (interpretative foot trail).

(4) Each hunter must obtain a Refuge permit upon arrival at Bulls Island and must turn in this permit before leaving the Island. All deer taken must be checked by refuge personnel before leaving the Island.

(5) Only hunters with a valid refuge hunting permit may camp. Camping and fires are restricted to the designated camping area which will be open from 9 a.m. on November 7 until 12 noon on November 14 and from 9 a.m. on December 5 to 12 noon on December 12, 1976.

(6) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 12, 1976.

CAROLINA SANDHILLS NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer is permitted on 96 percent of the Carolina Sandhills National Wildlife Refuge. This open area is designated by signs and delineated on a map available from Refuge Headquarters, McBee, South Carolina, and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations and subject to the following special conditions:

(1) Seasons:

(a) Archery only—October 18–23, 1976.

(b) Gun hunts—November 1–3, 8–10, 15, and 22, 1976.

(2) Hunters are allowed on the hunting area from 5:30 a.m. until 6:30 p.m. Hunters must enter the hunting area at designated entrance points and must park their vehicles on the hunting area.

(3) Bag limits:

(a) Archery only—Two (2) of either sex.

(b) Gun hunts—November 1–3 and 8–10—Two (2) bucks with antlers visible above the hairline; November 15 and 22, One (1) of either sex. All deer taken must be checked before leaving the refuge.

(4) Only stalk and still hunting with centerfire rifles and shotguns using slugs permitted during gun hunts.

(5) Stopping, parking, walking, or hunting within 500 feet of the paved auto visitor drive or hunting within 100 feet of any other road or trail open for vehicle travel is prohibited.

(6) A refuge permit is required for all hunts. Permits non-transferable. Submission of more than one permit application or applications containing false information is prohibited.

V 41 1166
AUG 25 76
UMI

(7) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

(8) Each hunter must wear an outer garment containing a minimum of 500 square inches of daylight fluorescent orange colored material above the waistline. Alcoholic beverages are not permitted. The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 22, 1976.

SANTEE NATIONAL WILDLIFE REFUGE

Public hunting of white-tailed deer is permitted only on the Cuddo Unit of Santee National Wildlife Refuge. The open area, comprising some 3,140 acres, is delineated on a map available at refuge headquarter and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(a) Open season: October 4–5, 8–9, and 13–14, 1976.

(b) Daily bag Limit: One (1) white-tailed deer of either sex per hunter.

(c) Method of hunting:

(1) Only shotguns using slugs and centerfire rifles larger than .22 caliber will be permitted. Buckshot, other shotgun shells, and pistols will not be allowed. No military or hard jacketed ammunition may be used.

(2) Only stalk and still hunting will be permitted. No dogs or drives are allowed.

(3) Each hunter must wear an outer garment containing a minimum of 500 square inches of daylight fluorescent orange color above the waistline.

(4) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

(5) A refuge permit is required. Permits non-transferable. Submission of more than one permit application or applications containing false information is prohibited.

(6) All deer taken must be checked at the designated check station prior to leaving the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 14, 1976.

TENNESSEE

TENNESSEE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Tennessee National Wildlife Refuge, Tennessee, is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 2,800 acres for bow hunting only, 1,900 acres for muzzleloading rifle hunting, and 5,075 acres for gun and bow hunting, are delineated on a map available at the Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of deer, subject to the following conditions:

(1) Open seasons: Archery only—October 2 and 3, 1976; Gun—December 26–28, 1976; Muzzleloading rifle only—December 29 and 30, 1976.

(2) The bag limit is one deer of either sex per hunter during the archery hunt, the gun hunt, and the muzzleloader rifle hunt, not to exceed the total season bag set by State regulations.

(3) The use of dogs is not permitted.

(4) Camping on the area is not permitted.

(5) Driving of deer is prohibited.

(6) Hunters may enter the public hunting area at sunrise and must be out of the area one-half hour after sunset.

(7) All hunters must wear protective clothing of daylight fluorescent orange material of at least 500 square inches above the waist.

(8) Each hunter under the age of 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

(9) A refuge permit is required for all hunts. Submission of more than one permit application, or applications containing false information is prohibited.

(10) Hunters must check in and out of the designated checking station.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 30, 1976.

KENNETH E. BLACK,
Regional Director, U.S. Fish and Wildlife Service.

FOREIGN BASE COMPANY SHIPPING INCOME

Proposed Rule Making; Correction

On Monday, August 9, 1976, notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 33285). The following corrections are made to the proposed regulations:

(1) In paragraph (b)(4) of example (4) of § 1.952–3(d) (page 33289), the phrase "foreign base company shipping income" should be "foreign base company income".

(2) In § 1.955A–4(d) (page 33306), the phrase "less developed countries" should be "foreign base company shipping operations" in lines 7 and 8 of example (2), lines 11 and 13 of example (3), and line 32 of example (4).

JAMES F. DRING,
Director, Legislation and Regulations Division.

Eastern Marten; Review of Status

On June 25, 1975, the Department of the Interior received a petition from the North Star Chapter of the Sierra Club (807 Midland Bank Building, Minneapolis, Minnesota 55402) seeking determination of the Eastern Marten (*Martes americana americana*) as Endangered, pursuant to the Endangered Species Act of 1973 (16 U.S.C. 1531–1543).

As required by section 4(c)(2) of the Act, notice is hereby given of the Department's determination that substantial evidence has been presented by the petition to warrant a review of the status of *Martes americana americana* in the United States to determine whether it should be proposed for listing as Endangered or Threatened.

The Department is seeking the views of the Governors of Maine, Michigan, Minnesota, New Hampshire, New York, Vermont, and Wisconsin. All other interested parties are hereby invited to submit any factual information which is germane to this review of the status of this species, or which could assist in determining its Critical Habitat. Such information should be sent to: Director, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240 by November 24, 1976. This information, together with the evidence presented and available to the Secretary, and that provided with the petition of the Sierra Club, will be reviewed to determine whether the Eastern Marten should be listed as Endangered or Threatened.

Dated: August 17, 1976.

KEITH M. SCHREINER,
Acting Director, Fish and Wildlife Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 2]

[Docket No. 76P–0126]

ADMINISTRATIVE PRACTICES AND PROCEDURES

Advance Notice of Proposed Rule Making

The Food and Drug Administration (FDA) is considering amending Part 2 of its regulations to provide for payment of attorneys' fees and the provision of other assistance to participants in its proceedings in appropriate circumstances. This advance notice of proposed rule making is published because the Commissioner of Food and Drugs believes it would be helpful to invite public comment on whether such assistance should be provided and on the identification and selection of appropriate criteria and procedures for providing assistance. All communications received on or before October 26, 1976 will be considered by the Commissioner before any further action is taken on this matter.

Interested persons are invited to participate in developing the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted (preferably in quintuplicate) to: Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. Received comments may be seen in the above office, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays. If it is determined to be in the public interest to proceed further after consideration of the available data and comments received in response to this advance notice of proposed rule making, a proposed rule will be published in the FEDERAL REGISTER.

Increasing attention has been given in recent years to the financial barriers to effective public participation in agency proceedings. The Administrative Conference of the United States has recommended that agencies consider measures to facilitate public participation under 1 CFR 305.71–6. The Food and Drug Administration has already adopted several measures to aid participants in proceedings, including making agency staff available to answer inquiries for factual information, and proposing a regulation under § 2.151 (21 CFR 2.151), published in the FEDERAL REGISTER of September 3, 1975 (40 FR 40682), to relieve participants who are under an unreasonable financial burden from requirements to

V 41 166 AUG 25 76 UMI

submit multiple copies. The Food and Drug Administration has issued comprehensive regulations under Part 4 (21 CFR Part 4) to implement the Freedom of Information Act; the regulations make nearly all agency records available to any member of the public. Any citizen may also petition the agency to take action on any matter within the agency's responsibilities, and have the petition reviewed and ruled upon by the Commissioner, pursuant to proposed § 2.7 (21 CFR 2.7), published in the FEDERAL REGISTER of September 3, 1975.

The measures so far adopted by FDA have not included provision of attorneys' fees to participants. The Comptroller General has stated in a decision issued February 19, 1976 (File No. B–92288) that a regulatory agency may use its appropriations to extend financial assistance to interested parties "who require it" and "whose participation is essential to dispose of the matter" before the agency.

The Commissioner has recently received a petition from the Consumers Union of United States, Inc., 1714 Massachusetts Ave., NW., Washington, DC 20036, requesting an amendment of FDA regulations to provide compensation of attorneys' fees and other costs to certain participants in agency hearings. Because of its importance in evaluating the need for proposed rule making and in identifying the issues that need to be resolved, the Commissioner is setting forth below the proposed regulation, statement of grounds, and appendices (Appendix A and Appendix B) contained in the petition. To conform with certain format requirements, the material in footnotes in the petition has been included in the text in parenthesis, and certain introductory material has been omitted.

A. THE PROPOSED REGULATION.

§ 2.151 ____.

(a) (1) The Commissioner may provide compensation for reasonable attorneys' fees, expert witness fees, and other reasonable costs of participation incurred by eligible participants in any rule making or adjudicatory proceeding conducted pursuant to Subparts B, C, D, and E of these regulations, whenever public participation in such a proceeding promotes or can reasonably be expected to promote a full and fair determination of the issues involved in the proceeding.

(2) Any person is eligible to receive an award under this section ____ for _____ participation (whether or not as a party) in a rule making or adjudicatory proceeding if

(i) The person represents an interest the representation of which contributes or can reasonably be expected to contribute substantially to a fair determination of the proceeding, taking into account the number and complexity of the issues presented, the importance of public participation, and the need for representation of a fair balance of interests; and

(ii) (*a*) The economic interest of the person in the outcome of the proceeding is small in comparison to the costs of effective participation in the proceeding by that person or, in the case of a group or organization, the economic interest of the individual members of such group or organization is small in comparison to the costs of effective participation in the proceedings; or

(*b*) The person demonstrates to the satisfaction of the Commissioner that such person does not have sufficient resources available to adequately participate in the proceeding in the absence of an award under this section.

(3) (i) In order to facilitate public participation, the Commissioner shall make a determination of the eligibility of a person for an award under this section, and the amount of such award, prior to the commencement of any proceeding, unless the Commissioner makes an express written finding that such a determination cannot practically be made at that time.

(ii) Payment of fees and costs under this section shall be made within 90 days of the date on which a final decision or order disposing of the matters involved in the proceeding is made by the Commissioner. If an eligible person establishes, in a manner to be prescribed by the Commissioner, that its ability to participate in the proceeding will be impaired by the failure to receive funds prior to the conclusion of the proceeding, then the Commissioner shall make advance payments to permit the person to participate or to continue to participate in the proceeding.

(iii) Reasonable attorney's fees, expert witness fees, and other reasonable costs of participation awarded under this section shall be based upon prevailing market rates for the kind and quality of service provided, but in no event shall exceed the rate of compensation (including fringe benefits and overhead) paid to Food and Drug Administration attorneys, expert witnesses, and other personnel with comparable experience and expertise.

B. STATEMENT OF THE GROUNDS

Representation of diverse points of view, including the traditionally underrepresented consumer viewpoint, is essential to fair and balanced decisionmaking by FDA. However, the high costs of participation in administrative proceedings precludes effective participation in agency proceedings by nonindustry groups in the absence of financial assistance from FDA. The Food and Drug Administration has inherent authority, even in the absence of explicit statutory sanction, to compensate certain participants for attorneys' fees and other costs of participation, in view of its broad regulatory powers and the statutory requirement that FDA conduct public hearings with respect to certain regulatory actions.

1. *Financial assistance is necessary for effective public participation and advocacy of diverse points of view before FDA.* Public participation is an essential element of a sound, balanced administrative decisionmaking process. (The importance of public participation in administrative proceedings has been acknowledged by the President, by Congress, by the Courts, by the Administrative Conference of the United States, and by various commentators. See, e.g., letter from President Ford to Senator Ribicoff, Rep. Brooks, and Rep. Staggers, April 17, 1975, released to press by White House; Federal Trade Commission Improvements Act, 15 U.S.C. 757(a)(h), compensation for attorneys' fees in rule making proceedings; Hearings on S. 2715 before the Senate Subcommittee on Administrative Practice, 94th Cong., 2d Sess. (Jan. 30, 1976 and Feb. 6, 1976), Kennedy bill providing for reimbursement of costs of participation; *National Welfare Rights Organization* v. *Finch*, 429 F.2d 725 (D.C. Cir. 1970); *Office of Communications of United Church of Christ* v. *F.C.C.*, 359 F.2d 994 F.2d 608 (2d Cir. 1965); Recommendation 28, 2 Recommendations and Reports of the Administrative Conference of the United States 35 (1970–1972), reprinted in 30 Ad. L. 2d 121 (1972), Cramton, "The Why, Where and How of Broadened Public Participation in the Administrative Process," 60 Geo. L. J. 525 (1972); Gellhorn, "Public Participation in Administrative Proceedings," 81 Yale L. J. 359 (1972); Lazarus and Onek, "The Regulators and the People," 57 Va. L. Rev. 1069 (1972); Note, "Federal Agency Assistance of Impecunious Intervenors," 88 Harv. L. Rev. 1815 (1975).) An imbalance in the advocacy of diverse points of view before regulatory agencies is likely to produce an imbalance in the decisions which are ultimately reached by agency officials. As Roger Cramton, a former chairman of the Administrative Conference of the United States, has written, "The cardinal fact that underlies the demand for broadened public participation is that governmental agencies rarely respond to interests that are not represented in their proceedings." (60 Geo. L. J., supra, at 529.)

It is no longer an accepted notion that the agency can itself perform as the advocate for the "consumer interest," as distinct from the interest of the regulated industries. Judge Warren Burger, now Chief Justice of the Supreme Court, cast aside such thoughts with respect to the Federal Communications Commission nearly a decade ago in *Office of United Church of Christ* v. *FCC* when he wrote:

> The Commission of course represents and indeed is the prime arbiter of the public interest, but its duties and jurisdiction are vast, and it acknowledges that it cannot begin to monitor or oversee the performance of every one of thousands of licensees. • • •
>
> The theory that the Commission can always effectively represent the listener interests in a renewal proceeding without the aid and participation of legitimate listener representatives fulfilling the role of private attorneys general is one of those assumptions we collectively try to work with so long as they are reasonably adequate. When it becomes clear, as it does to us now, that it is no longer a valid assumption which stands up under the realities of actual experience, neither we nor the Commission can continue to rely on it. (359 F.2d 994, 1003 (1966).)

His remarks apply with equal logic to representation of diverse interests before FDA. At present advocacy before FDA follows the usual pattern:

(Governmental agencies) are exposed, with rare and somewhat insignificant exceptions, only to the view of those who have a sufficient economic stake in a proceeding or succession of proceedings to warrant the substantial expense of hiring lawyers and expert witnesses to make a case for them. (60 Geo. L. J., supra, at 529.)

Although the interests of the food, drug, cosmetic, and medical device industries are frequently at odds with the interests of consumers of these regulated products, consumer advocacy before FDA is rare, sporadic, and virtually always underfinanced, while the regulated industries maintain continuous and well-financed advocacy directly and through their trade associations. (One measure of this imbalance is FDA's Public Calendar, which indicates constant and routine contacts between members of the regulated industries, and only occasional contacts with nonindustry spokespersons.)

Yet Congress clearly intended that, in exercising its extensive regulatory powers, FDA fully consider the interests of those who consume the products regulated by the agency, as well as the interests of those who produce them. With regard to certain actions of FDA, Congress directed FDA to conduct hearings upon objection by "any person who will be adversely affected" by such orders, and explicitly stated that "any interested person" may be heard at these hearings. Addressing itself to similar language in the Atomic Energy Act, the Nuclear Regulatory Commission recently stated that such language:

> (p)resumably • • • reflects a Congressional emphasis on the importance of hearings and of broad participation in the [licensing] process. (*In the Matter of Consumer Power Co.*, (Big Rock Point Nuclear Plant) Docket 50–155, (Memorandum and Order, November 21, 1974, at 5. The Atomic Energy Act provides that "The Commission shall grant a hearing upon the request of any person whose interest may be affected by the proceeding, and shall admit such person as a party to such proceeding." 42 U.S.C. 2239.)

Consistent with its statutory mandate, FDA has removed formal obstacles to public participation in its proceedings by adopting broad rules of standing for both initiation of and participation in informal agency proceedings. (See §§ 2.2, 2.110, 2.117, 2.130, 2.155, of the proposed Administrative Practices and Procedures.) In the preamble to its Administrative Practices and Procedures, FDA has adopted a broad interpretation of the statutory language of section 701(e) (21 U.S.C. 371(e)) as follows:

> The terms "interested person" and "any person who will be adversely affected" are defined very broadly to mean any person who wishes to participate in any proceeding of the Food and Drug Administration. There is no requirement that such person exhibit any particular interest, or show any specific economic or other harm or other indicia of "standing." Since Food and Drug Administration activities directly affect all members of the public, all members of the public who wish to participate are "interested persons" and "adversely affected" by definition. The courts have ruled that all citizens who wish to challenge agency actions affecting food and drugs are "adversely affected" and thus may properly submit objections and otherwise participate in the administrative proceedings where the statute requires such a showing. (See *Reade* v. *Ewing*, 205 F.2d 630 (2d Cir. 1953).)

While advocates of consumer interests thus enjoy broad rights of participation at FDA, as a practical matter these are hollow rights in the absence of adequate funding for the costs of preparing and presenting effective testimony. (Although the extent of participation varies from proceeding to proceeding, effective participation will usually involve extensive investigatory work, surveying, case regulation and the testimony of experts who serve as consultants and/or witnesses. Public interest representatives "cannot merely rely on legal arguments that certain interests be taken into account but must develop an affirmative case of their own." Cramton, supra, at 539. That is expensive, and well beyond the means of advocates of consumer interests.) As the Administrative Conference has recognized, "(t)he cost of participation in trial-type proceedings can render the opportunity to participate meaningless." (Recommendation 28, supra.) As Simon Lazarus and Joseph Onek have stated:

> Assuring the legal rights of public interest representatives to participate in regulatory proceedings is a vital first step. It is, however, only a first step. Without further affirmative action to assure that public representatives actually appear, the legal right to participate will be largely a symbolic—perhaps merely a cosmetic—advance. (57 Va. L. Rev., supra, at 1096.)

Ernest Gellhorn put it more strongly:

> If public participation is in fact a 'right' which agencies have a mandate to foster, failure to render some assistance amounts to a practical subversion of that mandate. (81 Yale L. J., supra, at 389.)

So-called "public interest" organizations generally operate under strict financial constraints, and have little or no funding available for intervention or participation. (The phrase "public interest" is a term of art, suggesting a group that represents diffuse, noncommercial interests which traditionally have not received direct representation in the courts, agencies, or legislature.) Many such groups operate with volunteer labor and little or no legal assistance. Others possess some legal capability but little or no in-house scientific expertise. Even larger organizations are unable to afford participation in most of the agency proceedings which affect the health and safety of their memberships or constituencies. Despite their limited monetary and manpower resources, however, many of these groups represent memberships or constituencies of substantial size.

The Food and Drug Administration's Administrative Practices and Procedures rules permit a participant who is "indigent" and whose participation has a "strong public interest justification" or one whose participation "can be considered primarily as benefiting the general public" to petition in forma pauperis for an exemption from the filing and service requirements of the rules, § 2.151 of the Administrative Practices and Procedures. While reducing duplicating and mailing expenses associated with participation is desirable, these cost savings represent but a tiny fraction of the actual costs incurred by intervenors in FDA proceedings and will not induce a group to participate fully in a proceeding it cannot otherwise afford.

While the actual costs of participation will of course vary with the nature and length of the proceeding, the complexity of the issues, and the extent of the participation, Cramton has estimated that the "cost of active participation in an FDA rule making proceeding is in the range of $30,000 to $40,000." (60 Geo. L. J., supra, at 538.) This estimate is based upon Administrative Conference staff interviews with "informed persons, including agency staff members, public interest lawyers, and private practitioners." (60 Geo. L. J., supra, at 538, n. 31.) It was made in 1972. The cost of living having increased 35 percent since then, the current figures are closer to $40,000 to $54,000. Costs for participation in a more complex rule making or adjudicatory hearing could entail substantially greater expense.

In summary, while the act sets forth the rights of any aggrieved person to request and receive a public hearing, and for any interested person to be heard at such hearing, virtually no nonindustry persons have been able to invoke these rights. In practical effect, these rights of participation are hollow and the record upon which FDA ultimately bases decisions directly affecting the public is thereby impoverished and untested. As a practical matter, systematic advocacy of diverse points of view is likely to occur only if FDA actively encourages participation by those who are likely to contribute to a fuller, fairer, and more balanced record by reducing the financial barriers to such participation. (The Supreme Court has recognized approvingly the ability of agencies to encourage or discourage certain activities by adjusting the costs attendant to these activities. In *National Cable Television Association* v. *U.S.*, 415 U.S. 336 (1974), the Court stated:

> The lawmaker may, in light of the 'public policy or interest served' make the assessment heavy if the lawmaker wants to discourage the activity; or it may make the levy light if a bounty is to be bestowed • • •. 415 U.S. at 1149.

Although these comments were made in relation to direct assessment of fees by an agency against the regulated industry, they apply with equal logic to the unavoidable "assessment" of costs against those who wish to take part in agency proceedings. Interestingly, the Court further stated that, to the extent the benefits of certain agency actions accrue principally to the public, private parties should not be made to bear the costs of such actions. 415 U.S. at 1150. By analogy, where nonindustry advocates bear the burden of preparing and presenting an effective case, which aids

V 41 166 AUG 25 76 UMI

FDA in reaching a decision which benefits the public health and welfare, it is appropriate that the public bear a portion of the expense.)

2. *Authority to compensate intervenors is inherent in FDA's statutory mandate.* The Food and Drug Administration's broad regulatory powers, and the procedural requirements attendant to the exercise of those powers (supra) are sufficient to permit FDA to compensate intervenors who can be expected to contribute to the fairness and balance of FDA proceedings. (Congress vested in FDA responsibility for protecting consumer health, safety and, to a limited extent, economic wellbeing, in the purchase and use of foods, drugs, cosmetics, and medical devices. 21 U.S.C. 321 et seq.; 15 U.S.C. 1451 et seq. The Food and Drug Administration's extensive regulatory powers include the authority to approve drugs before they can be marketed; to set standards of identity and quality for food products; to require ingredient, warning, or other labeling of products within the agency's jurisdiction; and to remove from the marketplace products which are misbranded, adulterated, or otherwise in violation of the requirements of the act.) Indeed, FDA possesses not only the ability to compensate such intervenors but may well have a duty to do so where compensation is necessary to develop a fair and balanced record. 21 U.S.C. 371(e). As the Court of Appeals for the Second Circuit has stated, an agency (in that case, the Federal Power Commission) "must see to it that the record is complete. [The agency] has an affirmative duty to inquire into and consider all relevant facts." (*Scenic Hudson Preservation Conference* v. *FPC*, 354 F.2d 608, 620 (1965), and cases cited therein.)

In February 1976, the Comptroller General of the United States removed any vestige of doubt that an agency may use funds which Congress appropriates for "necessary expenses" to compensate indigent intervenors, even in the absence of explicit statutory authority for compensation. (Comptroller General's Opinion B–92288, Feb. 19, 1976.) Responding to an inquiry from the General Counsel of the Nuclear Regulatory Commission (NRC) as to the NRC's authority to reimburse for attorneys' fees, expert witness fees, and related expenses of participants in nuclear licensing and rule making proceedings, the Comptroller General concluded that NRC has the legal authority to compensate indigent intervenors with funds generally appropriated for "necessary expenses" if the agency determines, as a matter of discretion, that compensation is "necessary" to meet its statutory obligation to conduct public hearings. (The Comptroller General's opinion was sought by the General Counsel of NRC, following a determination by members of the Commission that they are "tentatively inclined to the conclusion" that the agency does have authority to assist intervenors financially and a published notice seeking comment on the issue. *See In the Matter of Consumer Power Co.* (Big Rock Point *Nuclear Plant*), Docket No. 50–155, Memorandum and Order, Nov. 21, 1974, at 5; and 40 FR 37056, Aug. 25, 1975.)

The Comptroller General's opinion states:

> While 31 U.S.C. § 628 (1970) prohibits agencies from using appropriated funds except for the purposes for which the appropriation was made, we have long held that where an appropriation is made for a particular object, purpose or program, it is available for expenses which are reasonably necessary and proper or incidental to the execution of the object, purpose or program for which the appropriation was made, except as to expenditures in controvention of the law or for some purpose for which other appropriations are made specifically available. • • •
>
> The question, of course, is whether it is necessary to pay the expenses of indigent intervenors in order to carry out [the agency's] statutory functions. • • • We believe only the administering agency can make that determination • • •.

(The Comptroller General's opinion, supra, at 3. In a previous opinion, the Comptroller General made similar statements with respect to FTC's authority to spend its generally appropriated funds to compensate intervenors:

> The appropriations for the Commission are normally available for necessary expenses. While the Commission submits budgets to the Congress prior to the passage of the appropriation acts, the appropriations are enacted in the form of lump sums with no specific limitations as to use. Thus, the determination of what constitutes necessary expenses is left to the reasonable discretion of the Commission.

Comptroller General's opinion B–139703, July 24, 1972, reprinted at Pike & Fischer, Ad. L. 2d at 424 and as addendum to 60 Geo. L. J. 525. With respect to FTC, the Comptroller General was asked to assess the authority of the agency to reimburse for transcript costs, attendance fees, mileage and subsistence expenses of witnesses or respondents, travel and other connected expenses of the intervenor's attorney and traveling and subsistence expenses incident to his own appearance.)

Addressing more directly the question of whether compensation of intervenors might constitute a "necessary expense," the Comptroller General referred to provisions of the Atomic Energy Act which mandate that, in licensing matters, NRC "shall grant a hearing upon the request of any person whose interest may be affected by the proceeding," (Opinion B–92288, supra, at 3, citing 42 U.S.C. 2239(a).) and concluded that:

> • • • if NRC in the exercise of its administrative discretion, determines that it cannot make the required determination unless it extends financial assistance to certain interested parties who require it, and whose participation is essential to dispose of the matter before it, we would not object to the use of appropriated funds for this purpose. This is essentially the same rationale we followed in our decision B–139703, July 24, 1972, in which we held that the Federal Trade Commission (FTC) had authority to pay certain expenses incurred by indigent respondents and intervenors appearing before the Commission in adjudicative proceedings.

(Opinion B–92288, supra, at 4. The Comptroller General's opinion on FTC's authority to compensate indigent intervenors addressed this point as follows:

> Insofar as intervenors are concerned, section 5(b) of the Federal Trade Commission Act, as amended, 15 U.S.C. 45(b), specifically authorizes the Commission to grant intervention "upon good cause shown". Thus, if the Commission determines it is necessary to allow a person to intervene in order to properly dispose of a matter before it, the Commission has the authority to do so. As in the case of an indigent respondent, and for the same reasons, appropriated funds of Commission would be available to assure proper case preparation.)

FDA, like NRC, receives substantial appropriations for "necessary expenses, not otherwise provided for." (Pub. L. 94–122, Title 5, Slip. Op. at 25.) Clearly, under the rationale set forth by the Comptroller General with respect to NRC, the Commissioner has authority to determine whether compensation of certain intervenors is "necessary" for a fair and balanced hearing, and if he so determines, to award compensation to these participants. (Neither *Alyeska Pipeline Service Co.* v. *Wilderness Society*, 421 U.S. 240 (1975), *Turner* v. *FCC*, 514 F. 2d 1354 (D.C. 1975), nor *Greene County Planning Board* v. *FPC* are applicable with respect to the relief sought by this petition. As the Comptroller General stated in his NRC opinion:

> In both the *Alyeska* and *Turner* cases, plaintiffs, the prevailing parties, sought to force their adversaries to pay their costs, including reasonable attorneys' fees. All the court did, in our view, is to uphold the 'American rule,' that in the absence of a statutory provision to the contrary, neither a court nor a regulatory commission may shift the costs from one litigant to the other. In the *Greene County case*, the court said it had no power to order either the opposing litigants or the agency to pay the costs of the intervenors.
>
> In the matter before us, we are not considering whether [the agency] has the authority to determine whether one participant in its proceedings should pay the expenses of the other, nor are we concerned with whether the persons to whom financial assistance is extended prevail. There is also no question of compelling [the agency] to pay the expenses of any of the parties. (Comptroller General's opinion, supra, at 7.)

The courts, too, have long recognized that an agency has inherent authority to take actions which it deems necessary and appropriate to carrying out its explicit statutory responsibilities. As the Court of Appeals for the Seventh Circuit observed in *Northern States Power Co.* v. *FPC.*:

> If [the agency] is intelligently to exercise its extensive regulatory and supervisory power, it must have been intended that it shall have power to do everything essential to the execution of its clearly granted powers and the achievement of the purposes of the legislation.

(118 F.2d 141, 143 (1941), citing *Clarion River Power Co.* v. *Smith*, 61 App. D.C. 186, 59 F.2d 861 (1932). In that case, the Court held that the FPC could require its licensee to adopt a particular accounting procedure, in the absence of explicit statutory authority to do so. The ability to require such procedures was held to be

"the necessary implications of the [Federal Power] act." Id.)

The Second Circuit Court of Appeals has stated,

> It has been the law at least since *McCulloch* v. *Maryland*, 4 Wheat. 316, 4 L. Ed. 579, that the lawful delegation of a power carries with it the authority to do whatever is reasonable and appropriate properly to effectuate the power. (*Gallagher's Steak House* v. *Bowles*, 142 F.2d 530, 534 (1944).)

While *McCulloch* v. *Maryland* dealt with delegation of authority by the states to the federal government, the general reasoning of that decision nonetheless applies to delegation of authority by Congress to the regulatory agencies and to the "implied powers" which petitioner urges FDA to recognize. Justice John Marshall reasoned as follows:

> [I]t may, with great reason be contended that a government entrusted with such ample powers • • • must also be entrusted with ample means for their execution. The power being given, it is in the interest of the nation to facilitate its execution. It can never be their interest, and cannot be presumed to have been their intention, to clog and embarrass its execution by withholding the most appropriate means • • •. (4 Wheat. 316, 4 L. Ed. 579.)

Compensation of intervenors has been deemed by several agencies to be an "appropriate means" for responding to the dilemma of how to widen participation in agency proceedings in the face of exorbitant costs to participants. (The Consumer Product Safety Commission, for example, agreed to reimburse a public interest witness for the cost of travel to a hearing on fireworks when consumer representatives petitioned the agency claiming that such travel expenses were beyond the means of representatives of their point of view.) The Commission ruled that:

> Should the Presiding Officer consider it necessary to a full and complete hearing to have the Commission provide for a representative of those parties in favor of the proposed rule or a stricter rule to appear at the Commission expense in Kansas City and Honolulu, then he may so rule.

In Re Fireworks Devices, CPSC Docket No. 74–3. More recently, CPSC ruled that it had authority to pay for the counsel of an indigent respondent and to reimburse those expenses of respondents "reasonably necessary to make meaningful the representation of counsel." *In the Matter of Esquire Carpet Mills, Inc.* FTC Docket No. 8013, CPSC June 2, 1975, Slip Op. at 3.) In fact, FDA has made some modest strides toward assisting intervenors by reducing costs, apparently on the assumption that such actions are within the agency's inherent authority. First, indigents may apply to participate in formal proceedings in forma pauperis, thereby reducing filing and duplicating costs, which are absorbed by FDA. (See supra.) Secondly, participants in any FDA proceeding, formal or informal, may request that outside independent experts be consulted by the presiding officer, as witnesses, at FDA expense. (Letter from Peter Hutt, then General Counsel of FDA, to Tersh Boasberg, Esq., May 12, 1975. See also § 2.151 of the Administrative Practices and Procedures.) Such mechanisms, while helpful, are not adequate to effectively encourage public participation, as is clearly evidenced by the paucity of such participation in FDA proceedings. Direct reimbursement of costs, including attorneys' fees, would be the appropriate next step, still within FDA's inherent authority, to ensure fair and balanced hearings.

Finally, as the Comptroller General's recent opinion makes clear, the absence of explicit statutory authority to compensate intervenors in no way implies that compensation is inappropriate. Indeed, on at least one occasion, Congress has expressly stated as much. In deleting Senate-approved financial assistance language from the Energy Reorganization Act of 1974, a Conference Committee took pains to explain the limited impact of that action. (This provision, sponsored by Senator Kennedy, would have allowed the Nuclear Regulatory Commission to "reimburse eligible parties for the cost of participation, including reasonable attorneys fees • • •." See Senate debate, 120 *Congressional Record* § 15050–15054, daily ed. August 15, 1974.) The Report of the conference committee states:

> The deletion of [the financial assistance provision] is in no way intended to express an opinion that parties are or are not now entitled to some reimbursement for any or all costs incurred in licensing proceedings. Rather, it was felt that because there are currently several cases on this subject pending before the [Atomic Energy] Commission, it would be best to withhold Congressional action until these issues have been definitively determined. The resolution of these issues will help the Congress determine whether a provision similar to Title V is necessary since it appears that there is nothing in the Atomic Energy Act, as amended, which would preclude the Commission from reimbursing parties where it deems it necessary.

(H. Rep. 93–1445, 93rd Cong., 2d Sess. 37 (1974). In reference to this conference report language, the Comptroller General has stated:

> We do not agree that the deletion of the Senate amendment indicated congressional intent to deny the NRC authority to reimburse intervenors. On the contrary, it appears that the members of the conference committee felt that although they wished to await NRC's final position on the matter, quite possibly specific legislation would not be necessary to authorize such financial assistance since they believe that the Atomic Energy Act as amended already contains the necessary authority. Opinion B–92288, February 19, 1976, at 6.)

Surely if affirmative Congressional action to delete a provision authorizing reimbursement is not to be construed as an expression of Congressional intent that reimbursement is unauthorized, then mere silence cannot be so construed, particularly in light of the inherent authority of the agency to effect such reimbursement.

Conclusion

Thus, it is clear that FDA has ample power to compensate legitimate and prudent expenses of intervenors whose participation is likely to result in fairer, more balanced decisionmaking by FDA. Compensation would further the important regulatory goals of facilitating responsible and productive public participation and providing a broader base upon which to rest crucial decisions affecting the consumers of foods, drugs, and other products regulated by FDA.

Authority to compensate intervenors is inherent in FDA's broad regulatory powers, its Congressionally mandated hearing procedure, and the wide discretion afforded in its appropriations legislation. It is barred neither by FDA's authorizing legislation nor its appropriations authority.

Appendix A—Explanatory Material

The proposed regulation is an adaptation of the proposed Public Participation in Government Proceedings Act (S. 2715, 94th Cong., 1st Sess.) and the compensation provision of the proposed Consumer Food Act of 1976, as reported by the Senate Labor and Public Welfare Committee and the Senate Commerce Committee. (S. 641 and S. Rep. 94–684). The fact that Congress is considering statutory language to authorize agencies, including FDA, to compensate intervenors does not imply that agencies lack authority to so provide by regulation. As the Comptroller General has stated with respect to enactment of the FTC Improvement Act,

> [w]e do not feel that enactment of this provision was intended to overrule or modify the basis of our 1972 decision so as to reflect on its precedent value in dealing with agencies for which Congress has not enacted a similar statutory provision. Comptroller General's Opinion B–92288, at 5.)

Petitioner selected these models as the basis for the proposed regulation because they include improvements which experience under the FTC Improvement Act, 15 U.S.C. 557(a)(h), and the regulations pursuant thereto (16 CFR 1.117) has shown to be warranted.

Under the proposed regulation, applicants for compensation must meet both an "interest" test and an "economic" test before funds may be awarded.

It is petitioner's intention that under the "interest" test (petitioner's proposed § 2.151(a)(2)(i)), compensation will be awarded to applicants who represent interests that can reasonably be expected to contribute to the fairness and balance of a proceeding, but only if the applicant has an ability to adequately represent that interest given appropriate financial assistance. (This test is a modification of the "interest" test adopted by the Federal Trade Commission, 40 FR 33968, August 13, 1975. The FTC test provides (1) that the interest represented must "be necessary for" a fair determination of the proceeding, i.e., the "necessity test" and (2) that such interest would not otherwise be represented in the proceeding, i.e., the "uniqueness test". Although Consumers Union has been awarded compensation from the FTC under this test, it has been the experience of Con-

V 41 166
AUG 25 76
UMI

sumers Union and other nonindustry groups that this formulation is extremely burdensome to applicants and very difficult to administer. First, it requires that an applicant have knowledge of any other advocate who may be considering participation in a particular proceeding and the probable content of that person's presentation. As a practical matter, "public interest" applicants are not likely to have such knowledge, as they have no formal network or body to serve the coordinating function performed by industry trade associations. Furthermore, there may be instances where FDA wants to encourage participation by an outside advocate, although some information that the outsider proposes to present may already be available to FDA staff.)

The "economic" test (petitioner's proposed § 2.151(a)(2)(ii)) is stated in the alternative and is intended to permit compensation—both of applicants who cannot afford the costs of participation, and of applicants who represent interests which would contribute to the fairness and balance of the proceeding but who lack the economic stake in the outcome of the proceeding to justify the substantial costs of participating in it. In assessing the interest, i.e., the economic stake in the outcome of the proceeding, of an applicant that is a group or organization, the size of the economic stake of the organization's members, taken individually, is to be considered. When assessing the resources of an applicant, consideration is to be give to the resources which are available for purposes of advocacy. The consumer interest often can best be represented by organizations which, although not "indigent" in any technical sense, have very limited funds available for advocacy activities. Such organizations, including Consumers Union, differ from industry organizations in this respect and also in that the interest of their members as consumers are diffused among hundreds of proceedings in a multitude of agencies, while industry groups generally need to monitor only one or two agencies and select the few proceedings that directly affect their own or their members' profits. To disqualify these organizations on the basis of nonidigency may in effect remove those advocates who are best equipped to present the consumer point of view at particular proceedings.

KINDS OF PROCEEDINGS

Petitioners have requested that reimbursement be authorized for all proceedings defined in Subpart B (formal evidentiary public hearings), Subpart C (public hearing before a public board of inquiry), Subpart D (public hearing before a public advisory committee), and Subpart E (public hearing before the Commissioner) of the Administrative Practices and Procedures (proposed 21 CFR Part 2). It is the petitioner's intention that reimbursement of costs be authorized for all types of hearings for which public notice is required and an opportunity for public participation is available.

REIMBURSABLE COSTS

The proposed regulation limits reimbursement to reasonable attorneys' fees, expert witness fees, and other reasonable costs of participation incurred by eligible participants (petitioner's proposed § 2.151(a)(1)). These costs are intended to include the costs of preparing oral or written testimony, surveys and other submissions, fees for consultants, travel and administrative costs, and miscellaneous expenses. It is intended that costs incurred in preparing an application for funds would be reimbursable under the proposed regulation, in cases where funds for participation are ultimately awarded.

As a rule, applicants are to be notified before the proceeding in question begins as to whether or not they will be compensated for their costs of participation, although payment is to be made within 90 days after final disposition of the matter involved in the proceeding. However, interim advance payments are to be authorized where the participant has demonstrated that his participation will be impaired unless this manner of payment is adopted.

Petitioners further intend that a participant who has not applied for funds initially but finds during or after the proceeding that unanticipated and burdensome expenses have been incurred, may apply for compensation. At this point, of course, the Commissioner could judge the actual contribution of the applicant to the fair balance of the proceeding. Similarly, the proposal would permit persons to apply after commencement of a proceeding for funding to participate at one of the later stages of the proceeding.

APPENDIX B

May 10, 1976.

The HONORABLE JOHN E. MOSS, *Chairman Oversight and Investigations Subcommittee, Committee on Interstate and Foreign Commerce, House of Representatives*

DEAR MR. CHAIRMAN. This refers to your letter in which you request the advice of this Office, with respect to nine agencies of the Government under study by the Subcommittee on Oversight and Investigations, as to whether public participants in proceedings before those agencies may be assisted in any or all of the following ways:

"(1) the provision of funds directly to participants, (2) modification of procedural rules so as to ease their financial burden on public participants, (3) provision of technical assistance by agency staff, (4) provision of legal assistance by agency staff, (5) creation of an independent public counsel, and (6) creation of a Consumer Assistance Office such as that now employed by the FCC."

The agencies to which you refer are the Federal Communications Commission, the Federal Trade Commission, the Federal Power Commission, the Interstate Commerce Commission, the Consumer Product Safety Commission, the Securities and Exchange Commission, the Food and Drug Administration, the Environmental Protection Agency, and the National Highway Traffic Safety Administration.

Your letter refers to our decision in the Matter of Costs of Intervention, Nuclear Regulatory Commission (NRC), B-92288, February 19, 1976, to the NRC (hereafter referred to as the NRC decision) in which we considered the legality of providing similar types of assistance to participants and intervenors in NRC rule making and licensing proceedings.

Due to the time constraints established by the terms of your request, we have not solicited comments and views of the agencies concerned on the questions your letter poses. However, we have examined, with respect to each agency, some of the statutory and/or regulatory authorities which authorize or direct that public hearings be held for a variety of purposes related to accomplishment of the agency mission. We find that each agency has authority to request participation by members of the general public in its proceedings, either as parties or intervenors, although there are individual differences in the extent to which such participation would be likely to be required.

Finally, we could discover no statutory prohibition against the provision of any of the types of assistance about which you have inquired.

We thus conclude that there is no significant difference in the relevant authorities for the nine agencies you named and in those of the NRC. Accordingly, the rationale of our February 19 decision to NRC is equally applicable to each agency named.

1. Provision of funds directly to participants. With respect to your first question, appropriated funds of each agency may be used to finance the costs of participants in agency hearings whenever the agency finds that it cannot make the required determination unless it extends financial assistance to certain interested parties who require it, and whose representation is necessary to dispose of the matter before it; and (2) the party is indigent or otherwise unable to finance its participation. It should be noted that the Federal Trade Commission (FTC) has specific statutory authority, provided by section 202(a) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act, Pub. L. No. 93-637, 88 Stat. 2183, approved January 4, 1975, to provide compensation for expenses of participation for persons appearing before it. This provision is discussed on pages 4 and 5 of our aforementioned decision.

We would like to emphasize, however, that it is within the discretion of each individual agency to determine whether the participation of the particular party involved is necessary in order for it to properly carry out its functions and whether the party is indigent or otherwise unable to finance its participation. No party has a right to intervene at Federal expense unless the agency so determines.

Finally, for the reasons set forth in the NRC decision, we believe it would be advisable for the parameters of such financial assistance, and the scope and limitations on the use of appropriated funds for this purpose to be fully set forth by the Congress in legislation, as was done in the case of the Federal Trade Commission by the provisions of section 202(a) of the "Magnuson-Moss Warranty—Federal Trade Commission Improvement Act," supra.

2. Modification of procedural rules so as to ease their financial burdens on public participants. For the reasons stated with respect to NRC in the NRC decision, we find nothing in the laws of any of the agencies considered to prevent simplification of procedures and the elimination of unduly burdensome requirements which increase the cost of participation by parties involved.

3. Provision of technical assistance by agency staff. For the same reasons given under "Access to Technical Information and Staff" in the NRC decision with respect to NRC, the same access to technical expertise may be made available by each agency. As we stated with respect to NRC, this would not extend to the assignment of agency staff members to participants in the role of individual technical advisors for the purpose of advancing the position of a particular party.

4. Provision of legal assistance by agency staff. To the extent a participant needs factual information concerning legal aspects of a proceeding, such as explanations of procedures or examples of documents required to be filed, we believe agency staff members can provide this. However, agency staff could not be permitted to act in the capacity of advocates for a participant.

5. Creation of an independent public counsel. We believe nothing precludes an agency from having it staff present information to the agency's decisionmaking bodies concerning the public interest or consumer viewpoints in the course of a proceeding in order to call attention to relevant opinions not expressed by parties representing private interests. However, no agency could use its appropriations to establish an independent entity outside its jurisdiction and control.

6. Creation of a Consumer Assistance Office such as that now employed by the FCC. On March 19, 1976, the Federal Communications Commission (FCC) announced the formation of a new Consumer Assistance office. According to a press release from FCC:

"This office will provide a central location or coordinating point within the Commission for members of the public, citizens groups and FCC licensees who seek information or assistance.

• • • • • •

"The Consumer Assistance Office represents another step in the FCC's efforts to ensure prompt and accurate response to inquiries and to enhance public understanding of the Commission's policies and regulations.

• • • • • •

"Any person or group wishing information about the Commission's rules, matters pending or material explaining FCC policies and regulations may contact one of the full-time staff members of the Office.

"The Office also will provide information assistance to persons who wish to participate in the Commission's processes or file an application with the FCC but who are unfamiliar with the procedures to be followed.

"Finally, the Office will help prepare attractive and easy to understand brochures explaining Commission regulations and how best to comply with them."

We have been informally advised by staff of the FCC that this office is not in any way intended to act as an advocate for consumers. It does not include in its staff attorneys or professional experts in other fields. Its function is, basically, that of providing the public with factual information. We are not aware of anything which would preclude any of the agencies named in your letter from establishing a similar office.

We might also point out that our NRC decision would also be applicable to agencies other than the ones mentioned in your letter, assuming that there was no specific legislative prohibition against it, provided that the particular agency holds hearings at which it has the discretion as to whom to admit as participants or intervenors; has appropriations available to pay for "necessary expenses" to carry out the missions for which the hearings are being held; and makes the determinations mentioned in the immediately preceding paragraph. This is also true of the other types of assistance mentioned herein.

Sincerely yours,

R. F. KELLER,
Comptroller General of the United States.

Comments on the above Consumers Union petition are specifically requested on the following areas of interest:

1. In what type of proceedings, if any, should attorneys' fees and other assistance be provided?

2. Should the standard for providing attorney's fees and other assistance be the standard discussed by the Comptroller General (participation by an interested party is essential to dispose of the matter pending before the agency and the party is indigent or otherwise unable to finance participation); a standard based on the Consumers Union petition (representation of an interest which contributes or can reasonably be expected to contribute substantially to a fair determination of the proceeding, and the economic interest in the outcome of the person or the individual members of a group or organization seeking the assistance is small in comparison to the costs of effective participation); or some other standard?

3. What financial eligibility criteria should be adopted?

4. Should attorneys' fees be available only to those whose participation benefits the general public or has a strong public interest justification or should those with an economic interest in the outcome be eligible, e.g., a small business distributing products subject to the Federal Food, Drug, and Cosmetic Act?

5. What procedures and criteria should the agency adopt for (a) evaluating the quality of a participant's potential contribution to the resolution of a hearing; (b) to determining the importance of the issue(s) on which a participant wants to be heard; (c) assessing the strength of a participant's interest or the uniqueness of a participant's point of view; and (d) distinguishing among equally capable participants all of whom want to receive financial support for participation in the same proceeding?

6. Should the number of participants who may be subsidized in any one proceeding be limited? If so, what should the number be?

7. When should any determination of eligibility for financial assistance be made, i.e., before a hearing or after the hearing has been held?

8. If separation of function requirements apply to the hearing, what effect, if any, should this have on the timing of a determination of eligibility and the designation of an official to determine eligibility.

9. At what rate should participants be subsidized?

10. What criteria should the agency adopt for determining whether the costs of participation incurred by a participant are reasonable or necessary for participation?

11. Should reimbursable costs be limited to certain costs, but not all costs, e.g., the cost of travel, but not the costs of research needed to prepare oral or written testimony?

12. What amount of public funds should be allocated to subsidizing participants, and from what other FDA activities should the funds be taken?

13. What consideration should FDA give to alternative ways of providing advocacy assistance to participants, e.g., establishment of a public counsel within the agency to represent consumer interests in hearings; and what support should FDA give for establishment of an independent agency to advocate consumer interests?

The Commissioner points out that he would make certain editorial changes if he were to propose a regulation like that urged in the petition; so there is no need for the submission of comments to bring these matters to his attention. In lieu of the term "intervenor," he would use the term "participant," a term which has been defined broadly in § 2.3 (21 CFR 2.3) of the agency's proposed regulations on administrative practices and procedures. In addition, to comport with the organizational scheme used for the proposed regulations on administrative practices and procedures, the proposal would be numbered to fall within the general provisions of Subpart A, rather than be numbered as § 2.151, a section which properly relates solely to formal evidentiary public hearings.

Comments are welcome on these questions, as well as on any other matter relevant to the payment of attorneys' fees and provision of other assistance to participants.

This advance notice of proposed rule making is issued under the authority of the Federal Food, Drug, and Cosmetic Act (sec. 201 et seq., 52 Stat. 1040–1059 as amended (21 U.S.C. 321 et seq.)) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 17, 1976.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

Social Security Administration

[20 CFR Part 404]

[Reg. No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Subpart H—Evidence—Death

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendment to the regulation set forth in tentative form below is proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendment relates to a finding of death for a person in missing status by an agency or department of the United States authorized by law to make such a determination. A finding of presumptive death made under section 5 of the Missing Persons Act (56 Stat. 143, 50 U.S.C. App. 1005), as amended, was

V 41 166 AUG 25 76 UMI

acceptable to the Social Security Administration only as evidence of the fact of death but not of the date of death. The Missing Persons Act was repealed by Pub. L. 89–554, section 8(a), 80 Stat. 651. Members of the uniformed services and their dependents in a missing status may now be declared dead under 37 U.S.C. 555 (80 Stat. 628). Federal civilian officers and employees and their dependents in a missing status may now be declared dead under 5 U.S.C. 5565 (80 Stat. 492). The enactment of Pub. L. 89–554 resulted in no substantive change when the source law, i.e. section 5 of the Missing Persons Act, 50 U.S.C. App. 1005, was codified in section 5565 of title 5 and in section 555 of title 37 of the U.S.C. As under section 5 of the Missing Persons Act, when a finding of death is made under either 5 U.S.C. 5565 or 37 U.S.C. 555, the finding must include the date death is presumed to have occurred. Although the Federal agency concerned is legally free, upon review of the case, to continue the missing status if there is a reasonable presumption that the individual is alive, should it make a finding of presumed death the date of that death must be set at a time specified by the respective statutes. The date of presumed death is to be either a year and a day after the disappearance or, if the missing status was continued beyond 12 months from the time of the disappearance, a date determined by the agency concerned. These statutes also specify that the date is "for the purpose of the ending of crediting pay and allowances and settlement of accounts" and, in cases involving a member of a uniformed service, for the payment of death gratuities. Therefore, a determination made under these statutes must be accepted by the Social Security Administration as evidence of the *fact* of death but not of the *date* of death. The latter date is controlling only with respect to the agency making the determination of presumed death and only for the purposes indicated in the statutes. In the absence of evidence establishing a later date, the Social Security Administration will use the missing date (usually cited in the finding) as the date of death for purposes of benefit payments.

Consequently, 20 CFR 404.704(b)(3) is being amended to reflect the repeal of the Missing Persons Act and its replacement by 37 U.S.C. 555, applying to members of the uniformed services and their dependents and 5 U.S.C. 5565, applying to Federal civilian officers and employees and their dependents. The amendment also clarifies that, when a determination of death is made in respect to a missing person under either of these Federal statutes, in absence of evidence establishing a later date, the Social Security Administration shall use the date the person disappeared as the date of death for benefit payments rather than the date of death determined by the other department or agency.

Prior to the final adoption of the amendment to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education and Welfare, P.O. Box, 1585, Baltimore, Maryland 21203, on or before October 12, 1976.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

(Sec. 205 and 1102 of the Social Security Act, as amended; 49 Stat. 624, as amended; 49 Stat. 647, as amended, 53 Stat. 1362, as amended; 42 U.S.C. 405 and 1302.)

(Catalog of Federal Domestic Program No. 13.805, Social Security—Survivors Insurance.)

Dated: July 19, 1976.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: August 11, 1976.

MARJORIE LYNCH,
Acting Secretary of Health, Education, and Welfare.

20 CFR Part 404 is amended by revising paragraph (b)(3) of § 404.704 to read as follows:

§ 404.704 Evidence as to death.

* * * * * * *

(b) * * *

(3) A certified copy of an official report or finding of death made by any agency or department of the United States which is authorized or requested to make such report or finding in the administration of any law of the United States, or a statement of the contents of such report or finding certified by an individual designed in § 404.701(g) (2) or (3), as approviate: *Provided, however,* That a finding of presumptive death made pursuant to the missing persons provisions of 5 U.S.C. 5565 or 37 U.S.C. 555, shall be accepted only as evidence of the fact of death and not of the date of death. In the absence of evidence establishing a later date, the Social Security Administration shall use the missing date as the date of death for purposes of benefit payments.

[Regs. No. 4, 16]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Cancellation of a Request for Withdrawal of an Application

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments provide that the time allowed for the cancellation of an approved request for withdrawal of an application for social security benefits or supplemental security income benefits shall be measured from the date of the notice to the claimant rather than from the date of approval of the request for withdrawal. This would ensure that the claimant knows the point in time from which to measure the period allowed for requesting cancellation of an approved request for withdrawal of an application. Interested parties have until on or before October 12, 1976 in which to submit data, comments or arguments.

Under current provisions of Regulations No. 16, a claimant may cancel his request for withdrawal of his application within 60 days of the approval of the withdrawal request. There may be a delay of several days between the approval of the request and the date the notice of the approval is released. The claimant is not aware of the date of approval and, therefore, could not know the date by which his request for cancellation must be made. Under the proposed regulation the 60 days would run, not from the date of the approval of the withdrawal request, but from the date of the notice to the claimant that the request for withdrawal has been approved. This would ensure that the claimant knows the point in time from which to measure the 60 days and grants more time than currently allowed for the claimant, if he so desires, to reinstate his application. Conforming changes are also being made to Regulations No. 4.

Prior to the final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or argument pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203, on or before October 12, 1976.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments to the regulations are to be issued under the authority contained in sections 205, 1102, 1611, and 1631 of the Social Security Act, as amended, 49 Stat. 624 and 647, as amended, 86 Stat. 1466, 86 Stat. 1475, 42 U.S.C. 405, 1302, 1382, 1383.

(Catalog of Federal Domestic Assistance Program Nos. 13.802, Social Security-Disability Insurance; 13.803, Social Security-Retirement Insurance; 13.807, Supplemental Security Income Program.)

Dated: July 19, 1976.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: August 11, 1976.

MARJORIE LYNCH,
Acting Secretary of Health, Education, and Welfare.

Parts 404 and 416 of Chapter III of Title 20 of the Code of Federal Regulations are amended as follows:

1. Section 404.615a is revised to read as follows:

§ 404.615a Cancellation of request for withdrawal.

Before or after a written request for withdrawal has been approved by the Social Security Administration, the claimant (or a person who is authorized under § 404.603 to execute an application on his behalf) may request that the "request for withdrawal" be canceled and that the withdrawn application or request for revision of earnings be reinstated. Such request for cancellation must be in writing and must be filed, in a case where the requested withdrawal was approved by the Social Security Administration, no later than 60 days after the date of the notice to the individual of such approval. The claimant must be alive at the time the request for cancellation of the "request for withdrawal" is filed with the Social Security Administration. Where the request for cancellation of the withdrawal is approved, notice of approval shall be sent to such individual.

2. Section 416.345 is revised to read as follows:

§ 416.345 Cancellation of request for withdrawal.

Before or after a written request for withdrawal has been approved by the Social Security Administration, the claimant (or a person who is authorized under § 416.310 to execute an application on his behalf) may request that the "request for withdrawal" be canceled and that the withdrawn application be reinstated. Such request for cancellation must be in writing and must be filed, in a case where the requested withdrawal was approved by the Social Security Administration, no later than 60 days after the date of the notice to the individual of such approval. The claimant must be alive at the time the request for cancellation of the "request for withdrawal" is filed with the Social Security Administration. Where the request for cancellation of the withdrawal is approved, notice of approval shall be sent to such individual.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 89, 91, 93, 95]

[Docket No. 20846]

PUBLIC LAND MOBILE RADIO SYSTEMS

Interconnection Policies; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of Parts 89, 91, 93 and 95 (Class A only) of the Commission's rules to prescribe policies and regulations to govern "interconnection" of private land mobile systems with the public switched telephone network, Docket No. 20846.

1. The Chief, Safety and Special Radio Services Bureau, acting under delegated authority, has under consideration a petition filed by the National Association of Business and Educational Radio, Inc. (NABER) for an extension of time for filing comments in the above-captioned proceeding.[1] The prescribed time for filing comments ends September 3, 1976. The petitioner requests that this deadline be extended to December 3, 1976.

2. In support of its petition, NABER points out that while it is certain that many licensees in the Business Radio Service now utilize some form of interconnection, there is a lack of definitive information as to how widespread such interconnection arrangements may be and considerable uncertainty as to the future demand for this capability. Accordingly, in order to insure a responsive and comprehensive filing, NABER wishes to prepare a questionnaire on this subject to canvass all of its members.

3. The Commission, in the Notice of Inquiry phase of this proceeding, solicited information on the various types of interconnection arrangements now in use, the utility of interconnected private land mobile radio systems in the conduct of activities and functions permitted in the private radio services, and the needs and requirements presently met through interconnected facilities which could not be met if the practice was to be limited and restricted as proposed. In addition, we sought information on the degree to which interconnected communications would be compatible with dispatch functions more characteristic of the private services.

4. We feel that the proposed NABER survey would be in accord with the above-stated objectives and would contribute substantially to the information necessary for a proper determination in this matter. We are particularly desirous of obtaining such information on the effect (actual or anticipated) of interconnection in the Commission's largest and most heterogenous commercial radio service. Accordingly, we find that a grant of the NABER petition would be appropriate.

5. Further, in consideration of the large number of anticipated comments in this proceeding and the occurrance of the holiday season near the end of what would normally be the revised reply comment deadline, we propose to extend this deadline an additional two weeks.

6. Accordingly, it is ordered, Pursuant to the authority contained in §§ 0.331 and 1.46 of the Commission's rules, that the time for filing comments in Docket 20846 is extended to December 3, 1976, and that the time for filing reply comments is extended to January 18, 1977.

Adopted: August 17, 1976.

CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

FEDERAL TRADE COMMISSION

[16 CFR Part 423]

CARE LABELING OF TEXTILE PRODUCTS AND LEATHER WEARING APPAREL

Final Notice of Proposed Trade Regulation Rulemaking Proceeding and Public Hearings

On January 26, 1976, the Commission published in the FEDERAL REGISTER (41 FR 3747) an initial notice proposing a revised trade regulation rule relating to Care Labeling of Textile Products and Leather Wearing Apparel (proposed revised rule) under the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., the provisions of Part 1, Subpart B of the Commission's Procedures and rules of practice (Rules of Practice) 16 CFR 1.7–1.20, and section 553 of Subchapter II, Chapter 5, Title 5 of the U.S. Code (Administrative Procedure). The Commission staff has written a report on the proposed revised rule. The report has been placed in the public record and can be studied by interested persons in Room 130, Division of Legal and Public Records, Federal Trade Commission, Washington, D.C.

Now, under the same authority and more specifically under § 1.12 of the rules of practice the duly appointed Presiding Officer gives final notice of this proposed rulemaking proceeding. The contents of the initial notice which includes the proposed revised rule are incorporated in this notice by reference.

NOTICE TO INTERESTED PERSONS

A. WRITTEN COMMENTS

Please send data, views and arguments on any issue of fact, law and policy that may have some bearing on the proposed revised rule. Your comments need not be limited to the designated issues set forth below in Section D. You may comment on any aspect of the proposed revised rule. Any earlier comments you may have sent have been placed in the public record and need not be sent again.

Send your comments to John A. Gray, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580, no later than September 24, 1976. Mark them "Care Labeling Comments" for prompt identification and consideration. If possible, send five copies.

B. PUBLIC HEARINGS: DATES AND PLACES

Public hearings on the proposed revised rule will be held as follows:

1. *Washington, D.C.* Hearing will start on November 8, 1976, at 9:30 a.m. in Room 332, Federal Trade Commission Building, Pennsylvania Avenue at 6th Street NW.

2. *Los Angeles, California.* Hearing will start on January 10, 1977, at 9:30 a.m. in Room 13209, Federal Building, 11000 Wilshire Boulevard.

If more hearings are needed, the dates and places will be published later in another FEDERAL REGISTER notice.

C. INSTRUCTIONS FOR WITNESSES

If you are a member of an interested group you are encouraged to make your

V 41 166 AUG 25 76 UMI

views known through your group representative. If you want to testify at a hearing, in any capacity, you must, by the date specified below, give notice and file a word-for-word statement of your testimony or at least a detailed outline. You can testify in only one location.

If you want to testify at the Washington hearing, contact Cynthia S. Lamb ((202) 724–1566), Division of Special Statutes, Bureau of Consumer Protection, Federal Trade Commmission, Washington, D.C. 20580. You must notify and file with Ms. Lamb your word-for-word statement of testimony or detailed outline no later than October 15, 1976.

If you want to testify at the Los Angeles hearing, contact Helen T. Sierichs ((213) 824–7575 ext. 234), Federal Trade Commission, 13209 Federal Building, 11000 Wilshire Boulevard, Los Angeles, California 90024. You must notify and file with Ms. Sierichs your word-for-word statement of testimony or detailed outline no later than December 20, 1976.

In your statement or outline list each fact, observation, opinion and conclusion you are going to discuss. If possible, give the specific factual basis for each opinion and conclusion. Remember, the proposed revised rule declares certain acts and practices unfair or deceptive. The Commission needs evidence in the record as to the prevalence of such acts and practices.

Your statement or outline must be available for study by other interested persons before the hearing so they can decide whether to examine or cross-examine you or file contradictory statements (rebuttals). This is an additional reason for you to make your statement or outline as detailed and factual as possible.

If you file an outline that is not sufficiently detailed or factual, the Presiding Officer may require you to file a word-for-word statement before you testify. If you fail to furnish a statement or outline of your testimony, the Presiding Officer has the power to refuse to let you testify.

Use of exhibits during oral testimony is encouraged, especially when they clarify technical or complex matters. If you plan to offer documents as exhibits, file them as soon as possible during the general comment period so they can be studied by interested persons. If such documents are unavailable during this period, file them as soon as you can but not later than the deadlines for filing statements or outlines. Mark each document with your name and number it in sequence, e.g., Jones Exhibit 1. The Presiding Officer has the power to refuse to accept for the public record any hearing exhibits which are not furnished by the deadlines.

If you are going to testify as an expert witness, you must attach to your statement or outline a curriculum vitate, biographical sketch, resume or summary of your professional background and a bibliography of your publications. If you are going to testify but not as an expert witness, attach such material if it is available.

If possible, send five copies of your statement or outline and exhibits.

In your testimony you can discuss any questions of fact, law or policy concerning the proposed revised rule. You do not have to limt your testimony to the designated issues. But if it does bear on those issues, you may be examined and cross-examined by the Presiding Officer or other persons and there may be rebuttals. Also, the Presiding Officer may question you directly or let others question you about other issues.

These hearings will be informal and courtroom rules of evidence will not apply. You will not be put under oath unless the Presiding Officer so requires.

Ordinarily, you will have about twenty minutes for your testimony. If you need more than twenty minutes, send your request for extra time when you file your statement of testimony or outline. The Presiding Officer may set other reasonable time limits and may also allow extra time for questioning. If you want to discuss more than can be presented in a limited time, include it in your written statement.

D. DESIGNATED ISSUES

Set forth below are the issues which the Presiding Officer has determined to designate under § 1.13(d)(1) of the rules of practice as issues to be considered in accordance with § 1.13(d) (5) and (6) of the rules of practice. Testimony with respect to these issues may entitle group representatives or other interested persons to conduct or have conducted such cross-examination as the Presiding Officer may determine to be appropriate and required for a full and true disclosure with respect to any issue so designated. In the alternative, the Presiding Officer may determine that full and true disclosure as to any issue may be achieved through rebuttal submissions or the presentation of additional oral or written statements.

The Presiding Officer may at any time on his own motion or pursuant to a written petition by an interested person add to or modify any designated issue. Such petitions will not be considered unless good cause is shown why such issue or modification was not proposed during the time specified in the initial notice.

The Presiding Officer has designated the following disputed issues of fact as material and necessary to resolve:

1. *Piece Goods; Yarn* (*§ 423.2*). Are there methods of distribution available for the purpose of ensuring that permanent care labels are obtained by consumer-purchasers of piece goods and yarn at the point-of-sale without requiring the retailer to be ressponsible for such distribution?

2. *Carpets and Rugs* (*§ 423.3*). Are there methods of distribution available for the purpose of ensuring that care instructions are obtained by consumer-purchasers of carpets and rugs at the point-of-sale without requiring the retailer to be responsible for such distribution?

3. *Intermediate Components* (*§ 423.4*). In the absence of regular care instructions accompanying intermediate components covered by the proposed revised rule, do a substantial number of manufacturers of products covered by § 423.1 or § 423.3 of the proposed revised rule assume that certain regular care procedures can be successfully used without restriction to refurbish the components themselves or products made from such components? If so, does this assumption result in damage or substantial impairment to such products or their components due to inaccurate, incomplete or unclear care instructions on labels provided by manufacturers of such products.

4. *Bleaching Instruction* (*§ 423.5(a)(1)(iii)*). When a product covered by the Rule contains a washing instruction which does not include a bleaching instruction, do a substantial number of consumers of such products assume that any accepted bleaching method can be used on such products without damage or substantial impairment? If so, does the assumption result in damage or substantial impairment to the product due to the application of improper bleaching methods by the user?

5. *Bleaching Instruction* (*§ 423.5(a)(1)(iii)*). Is bleaching information in washing instructions required by the proposed revised rule needed to enable the consumer-purchaser of a product covered by such rule to care for and maintain the product adequately without damage or substantial impairment§

6. *Dry Cleaning Instruction* (*§ 423.5(a)(2)*). If a dry cleaning solvent is specified in a dry cleaning instruction, will the consumer-purchaser of a product containing that specification assume that the solvent is readily available in the vicinity of the consumer's residence?

E. REQUESTS FOR CROSS-EXAMINATION RIGHTS

If you want to examine or cross-examine witnesses on the designated issues, you must give written notification to the Presiding Officer by September 24, 1976. State your particular interest in and your position on each designated issue or, if you have no interest or position as to any issue, merely indicate, "No Interest". Also furnish any explanation as to why you are requesting the right to take part in examination as to why you are requesting the right to take part in examination, cross-examination, or to offer rebuttals. Send your request to John A. Gray, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580 by September 24, 1976, regardless of the hearing you want to take part in. Mark your notice "Care Labeling Notification" so it can be considered promptly.

If new designated issues are added later you must promptly give the Presiding Officer an additional notice of interest and request for cross-examination rights.

You have a right to study statements of testimony and outlines submitted by prospective witnesses and prepare for examination, cross-examination, or rebuttals. To do so, contact Ms. Lamb in Washington, D.C. or Ms. Sierichs in Los Angeles (see Section C).

Before the hearings begin, the Presiding Officer will identify groups of persons with the same or similar interests in the proceeding. Such groups will be required to select a single representative

for the purpose of examination, including cross-examination. If members of any group cannot agree on a representative the Presiding Officer may select one.

If you are a member of such a group, you must make a good faith effort to agree on a representative. If you cannot agree and you wan to present major relevant issues which will not be adequately presented by the group representative, notify the Presiding Officer. He may allow you to conduct or have conducted examination of witnesses, including cross-examination, or to offer rebuttals.

F. SUMMARY OF HEARING DATES

1. Washington, D.C., November 8, 1976.
2. Los Angeles, Calif., January 10, 1977.

G. SUMMARY OF DEADLINES

1. All written comments and requests for cross-examination, September 24, 1976.

2. Witnesses' prepared word-for-word statements or detailed outlines and exhibits for:

(a) Washington hearing, October 15, 1976.
(b) Los Angeles hearing, December 20, 1976.

Issued: August 25, 1976.

JOHN A. GRAY,
Presiding Officer.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Office of the Secretary

[CM-6/84]

SHIPPING COORDINATING COMMITTEE; SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Meeting

The working group on radiocommunications of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 1:30 p.m. on Thursday, September 16, 1976, in Room 8440 of the Department of Transportation, 400 Seventh Street, SW., Washington, D.C.

The purpose of the meeting is to prepare position documents for the 17th Session of the Subcommittee on Radiocommunications of the Intergovernmental Maritime Consultative Organization (IMCO), scheduled to be held in London in February, 1977. In particular, the working group will discuss the following topics:

Promulgation of navigational warnings to shipping,

Training and qualifications of radio officers, radio operators, and radio telephone operators,

Operational standards for shipboard radio equipment,

Operational requirements for emergency position indicating radio beacons and portable radio apparatus for survival craft.

Matters resulting from the World Maritime Administrative Radio Conference, 1974, and the work of the International Radio Consultative Committee.

For further information, contact LT. F. N. Wilder, United States Coast Guard. He may be reached by telephone on (area code 202) 426-1345.

The Chairman will entertain comments from the public as time permits.

CARL TAYLOR, Jr.,
Acting Director,
Office of Maritime Affairs.

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON THEATER NUCLEAR FORCES R&D REQUIREMENTS

Advisory Committee Meeting

The Defense Science Board Task Force on Theater Nuclear Forces R&D Requirements will meet in closed session on September 28, 29, and 30, 1976 in the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an analysis of technology and systems applicable to theater nuclear forces and indicate promising solutions to the problem area for possible implementation within the Department of Defense.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES V. AIR CONDITIONING AND REFRIGERATION WHOLESALERS, ET AL.

Proposed Judgment; Comments and Responses

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16, the following written comments on the proposed judgment filed with the United States District Court for the Northern District of Ohio, Eastern Division, in Civil Action No. C-70-829 WKT, "United States of America v. Air Conditioning and Refrigeration Wholesalers, et al.," were received by the Department of Justice and are published herewith, together with Justice's responses to these comments.

Dated: August 18, 1976.

CHARLES F. B. MCALEER,
Assistant Chief, Judgments and Judgment Enforcement Section.

UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF OHIO EASTERN DIVISION

United States of America, Plaintiff, v. Air Conditioning and Refrigeration Wholesalers, et al., Defendants. (Civil No. C-70-829; Judge William K. Thomas.)

GOVERNMENT'S RESPONSE TO COMMENTS OF INTERNATIONAL PLASTICS, INC.

The United States submits this response to the comments of International Plastics, Inc., (IPI) upon the proposed Final Judgment in "United States v. Air Conditioning and Refrigeration Wholesalers," filed May 3, 1976.

In its comments, IPI urges that additional relief be included in the proposed Judgment to deal with the special problems of independent repackagers of refrigerant gas. IPI seeks provisions requiring timely delivery of adequate supplies of refrigerant gas to repackagers; it seeks a requirement that such gas be sold to repackagers at "reasonable prices" in relationship to the prices at which manufacturers are selling gas in packaged form; and it seeks the right to institute actions to enforce the Judgment.

The Department of Justice in formulating the proposed Judgment has sought to protect the interest of repackagers and all other resellers of refrigerant gas. Thus the Judgment enjoins the type of conspiratorial action which was the gravamen of the complaint, and in addition requires that for five years, each defendant sell refrigerant gas to any reseller on non-discriminatory terms and conditions to the extent the defendant has gas and containers available. But IPI seeks preferred treatment, particularly as to price.

1. ANTICIPATED ECONOMIC IMPACT OF THE PROPOSED JUDGMENT

IPI argues that the inevitable economic impact of the proposed Judgment will be to eliminate and destroy independent repackagers of refrigerant gas and thus to deprive wholesalers and other resellers of refrigerant gas of the benefits of independent repackagers as a source of supply.

A repackager buys refrigerant gas in large quantities (tank car or truck load lots), from a manufacturer and repackages it into smaller containers. These containers may be as small as one pound packages aimed at the ultimate user such as an automobile owner who wishes to add refrigerant gas to the car's air conditioner, or the container may hold 145 pounds of gas, suitable for an air conditioning wholesaler. IPI correctly notes that the manufacturer defendants in this case are in the business of packaging refrigerant gas as well as the business of manufacturing it.

GOVERNMENT'S RESPONSE

The claim that the judgment will inevitably destroy independent repackagers as competitors is wholly without merit. It is plausible only if the repackager has no useful economic function once the conspiracy alleged in the complaint is terminated. That alleged conspiracy kept refrigerant manufacturers from selling to non-ARW wholesalers. Independent repackagers such as IPI were able to take advantage of this conspiracy to sell to such non-ARW wholesalers. But for some time now, manufacturers have also been selling to non-ARW wholesalers. The economic impact of the Judgment will not be to cut off the supplies of independent repackagers or to require manufacturers to sell to them at high prices. In fact, the impact of the Judgment will be just the opposite. It will require sales to them at non-discriminatory prices, and it will assure that if a manufacturer has gas available, it must sell. If a manufacturer sells to one reseller in bulk at a favorable price, he may not discriminate against a repackager buying similar bulk quantities pursuant to Section VI of the Judgment.

IPI will have to continue to face competition from manufacturers which also package and sell their gas to non-ARW wholesalers.

Surely, IPI cannot be urging that the Court order the conspiracy to continue thus freeing IPI of such competition.

2. RECENT DEVELOPMENTS IN THE REFRIGERANT GAS MARKET

IPI notes a number of recent developments in the refrigerant gas market which it contends require the Court to reject the proposed Judgment as not in the public interest.

The developments noted may be summarized as follows:

(1) IPI is now able to purchase refrigerant gas in bulk from a number of the defendant manufacturers, rather than from only one or two of them as in past years.

(2) There is vigorous price competition by the manufacturers in selling refrigerant gas in cylinders and other consumer oriented packages.

(3) The defendant manufacturers are now competing with IPI for sales to non-ARW wholesalers and to other types of customer.

(4) The price spread between refrigerant gas in bulk and in package form has narrowed.

(5) IPI has not been able to purchase all the refrigerant gas it desired in 1973 and 1974.

GOVERNMENT'S RESPONSE

All these developments appear consistent with a competitive market, and do not appear to be a result of the conspiracy alleged in the complaint in this action. In fact, several of these developments would be expected results of an end to that conspiracy.

Refrigerant gas has as its principal raw materials, chemicals derived from petroleum. Thus when the price of petroleum rose from about $3.50 in 1973 to $12.00 per barrel in 1976, the price of refrigerant gas might be expected to follow a similar course. Likewise when there was a shortage of petroleum in 1973 and 1974 because of the Arab boycott, it is not surprising that there was a shortage of refrigerant gas.

In times of shortage it is not surprising that a manufacturer would unilaterally determine to take care of its internal needs for refrigerant gas to be sold in the consumer oriented containers, and to sell gas in bulk only at a price which returned as much total profit. Likewise it is not surprising that once the conspiracy alleged in the complaint was ended, manufacturers of refrigerant gas sought to win new markets from which they had previously been excluded by the conspiracy. As a result, IPI experienced new competition.

In short, the Department of Justice was aware of the "recent developments" noted by IPI. The Judgment was drafted in light of those developments. In particular, this is shown by the provision of Section VI (C) relating to allocation in times of shortage, a provision which did not appear in early drafts of a proposed Judgment.

3. ADDITIONAL PROVISIONS OF THE PROPOSED JUDGMENT

IPI urges that the Court find the proposed Judgment not in the public interest (1) because it does not contain provisions requiring timely delivery of adequate quantities of refrigerant gas in bulk to fill orders of independent repackagers, (2) because it does not require that sales of such gas be at "reasonable prices", and (3) because it does not permit non-parties such as IPI to apply to the Court for enforcement of the Judgment.

GOVERNMENT'S RESPONSE

1. For a period of five years, the Judgment does require each of the defendant manufacturers to sell refrigerant gas to IPI to the extent the defendant has gas and containers available. The defendant may not avoid the thrust of this order by delay or obfuscation. On the other hand, the Court must recognize that gas may not always be available in sufficient quantities to fill all orders. A great deal of thought, argument, and economic research went in to the Government's proposal as to what to do under such circumstances.

At the outset, it should be said that simply because one manufacturer is short of gas, it does not at all follow that all others will be similarly short. In fact, we expect excess capacity if there is a decline in the use of fluorocarbons as propellants in aerosol sprays.

As outlined in greater detail in the Competitive Impact Statement, the timing of demand in this industry and the capital investment of the manufacturers in cylinders and marketing programs dictated that manufacturers be specifically permitted to consider in such allocation program anticipated demand and marketing objectives for container mix.

2. The Court should not undertake to require sales of refrigerant gas at "reasonable prices". It is true that in antitrust cases courts may order licensing of patents at "reasonable royalties" and in a very few other monopoly cases the monopolist has been ordered to provide some other service at "reasonable prices". "United States v. International Boxing Club of New York," 358 U.S. 242 (1959). But absent a monopoly, the Court can and should rely on the pressures of competition to determie price. Here there are six competing manufacturers selling refrigerant gas. The Court would be unwise to put itself in the position of establishing prices in this industry.

3. The Court should not permit enforcement of this Judgment by non-parties. The courts have routinely refused to permit non-parties to enforce Government antitrust judgments, "United States v. American Society of Composers, Authors and Publishers," 341 F. 2d 1003 (1965), except in the unusual circumstance where reasonable royalty patent licensing has been ordered. "United States v. Vehicular Parking," Ltd., DC, D. Del. (1947) 7 FRD 336.

CONCLUSION

IPI is in error in its prediction that the economic impact of the proposed Judgment will be to eliminate and destroy it as a competitor in the market for packaged refrigerant gas. The "recent developments" in the refrigerant gas industry noted by IPI were known to the Government during the period when the Judgment aws being negotiated. These developments point towards a competitive market and an end to the conspiracy alleged in the complaint. The IPI proposals for additional relief are unwise, not warranted by the allegations of the complaint, and would burden the Court with price regulation of the refrigerant gas industry.

UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF OHIO, EASTERN DIVISION

United States of America, Plaintiff, v. Air Conditioning and Refrigeration Wholesalers, et al., Defendants. (Civil No. C-70-829; Judge William K. Thomas.)

GOVERNMENT'S RESPONSE TO COMMENTS OF REFRIGERATION SALES COMPANY

The United States submits this response to the comments of Refrigeration Sales Company, upon the proposed Final Judgment in "United States v. Air Conditioning and Refrigeration Wholesalers," filed May 3, 1976.

First, the definition of "refrigerant gas" in the Consent Decree is limited to use as a refrigerant. This was the area covered by the conspiracy and is the part of the industry to which the Consent Judgment addresses itself. Gas with the chemical characteristics specified in the definition of refrigerant gas is produced in extremely large quantities for such purposes as propellants for aerosol containers.

The terms of the Consent Judgment have no rational relationship to the other areas where the gas is used. As a result, limiting the definition of refrigerant gas to its use as a refrigerant is justified by the facts and logically consistent with the terms of the Consent Judgment.

Second, the comments suggest certain changes in the definition of the term "reseller". The Competitive Impact Statement ("CIS") clearly covers the area of specificity mentioned. Further, the term "reseller" is broadly defined to include all possible business entities without the necessity of a "laundry list", which could, by negative implication, exclude a reseller of a type not contemplated. Therefore, it is believed that a broad, nonspecific definition of "reseller" is most appropriate in this Consent Judgment.

Third, the comments note that the injunctive prohibitions of the Judgment are limited to an injunction against concerted refusals to deal. It is true that the perpetual injunction in Section IV(A) is so limited. It is thus responsive to the allegation of law violation contained in the complaint and the prayer for relief of the complaint. However, the unusual injunctions of Section IV (B) and (C) broadly prohibit for five years even discussions of distribution policies and practices amongst manufacturers or by ARW. These provisions thus provide unusually strong relief to prevent the type of conspiritorial activities which Refrigeration Sales Company fears. The Judgment does not deal with unilateral actions by individual defendants in establishing distribution and pricing policies, as such activities were not the subject of this action. It is appropriate that general statutory and common law apply to such activities.

Fourth, the comments of Refrigeration Sales Company argue that the five year time period for the compulsory sales provision of the proposed Judgment is too short. Compulsory sales provisions in antitrust judgments vary in duration depending on their purpose. Here the aim is to end a pattern of refusals to deal which allegedly resulted from a conspiracy. Once a new pattern of business relationships is established, the Court should end as quickly as possible the absolute requirement that defendants sell refrigerant gas to every business which falls within the very broad definition of "reseller." There are, of course, valid business reasons why a manufacturer might thereafter, wish to limit his sales.

Fifth, the comments oppose the proviso in Section VI (A) of the Judgment that defendants need not sell gas in containers larger than 145 pounds to any person who is not technically qualified to use such gas to fill smaller containers. Sales of refrigerant gas, particularly R-12 and R-22, the most commonly used gases, to wholesalers and other resellers are typically made in 145-pound cylinders. Again, the Consent Judgment cannot hope to deal with every possible

V 41 166
AUG 25 76
UMI

transaction in every form and size. However, the language of paragraph VI(A) covers the overwhelming majority of sales to wholesalers and other resellers and specifically deals with the facts as we know them in this case. The proviso tracks langauge in the prayer for relief of the complaint in this case. We believe it affords appropriate protection to the public as well as to the manufacturers.

Sixth, the question raised in the comments regarding deliveries to other than principal places of business is provided for in the Consent Decree. The Competitive Impact Statement makes the warehouse situation clear. Further, manufacturers may not agree on whether they will ship direct to a customer. This is neither prohibited nor mandated by the Consent Decree. There are arguments for and against "drop shipping." Nothing further by way of specificity is required in the Consent Judgment.

Seventh, concerning the recommended language regarding public warehouses, as pointed out in the comments, this is covered in the CIS. Again, to avoid a "laundry list" situation, it is believed that no useful purpose would be served by adding this language to the Consent Decree.

Finally, we believe that the terms of this Consent Decree, (see paragraphs III and VII) bind the ARW, its members, and subgroups operating under the ARW's auspices. Thus, we believe that the ARW's regional groups are covered by the Consent Decree and would act accordingly should these groups act in ways contrary to the Consent Decree.

Though many points raised in the comments are well-taken, we believe, based on the foregoing, that the changes recommended are either unnecessary or inappropriate and, therefore, would not further the public interest in this matter.

Dated: August 17, 1976.

BERGSON, BORKLAND,
MARGOLIS & ADLER,
Washington, D.C., July 1, 1976.

Re *United States* v. *Air Conditioning and Refrigeration Wholesalers, et al.* Civil No. C-70-829

JOHN WEEDON, Esq.,
Chief, Great Lakes Field Office,
Antitrust Division,
U.S. Department of Justice,
Celebreaze Federal Building,
Cleveland, Ohio.

Dear Mr. WEEDON: This is in connection with the proposed consent judgment in the above case which was published in the FEDERAL REGISTER on May 10, 1976. I am submitting these comments on behalf of Refrigeration Sales Co., Inc. of Long Island City, New York.

There are a number of respects in which the proposed consent judgment should be modified in order to provide adequate relief from the violations alleged in the complaint. The gravamen of the complaint was that the defendant manufacturers of refrigerant gas had agreed with a trade association of air conditioning and refrigeration wholesalers to boycott national wholesalers and others who sought to purchase a gas for resale in competition with trade association members, or agreed to sell such other wholesalers only under certain disadvantageous or restrictive terms. We are concerned that the proposed judgment does not preclude a continuation of such anticompetitive practices, in the changing circumstances of the industry. In addition, there are a number of respects in which the language of the decree could be clarified to more clearly set forth the intention described in the Competitive Impact Statement.

Our proposed changes are as follows:

Paragraph II(A). The proposed judgment defines "Refrigerant gas" or "gas" to mean combinations of carbon, chlorine, fluorine and in some instances hydrogen, "which is sold for use in airconditioning and refrigeration equipment". This is a change from the definition in the complaint, which refers to gas "which is suitable for use in air conditioning and refrigeration equipment" (emphasis added). We see no good reason for the change in this definition. Refrigerant gas sold to wholesalers has always included gas used for purposes other than for installation in air conditioning and refrigeration equipment. While the complaint is directed to violations in the sale of gas for replacement purposes in such installations, the practices also affected sales for other purposes. As pointed out below, in our discussion of VI(A), competition in sales for other purposes has increased, particularly in large volume containers, and the judgment should protect competition in this aspect of the market.

We submit that the definition of "refrigerant gas" or "gas" should maintain the same scope as was set forth in the complaint. It should be changed by deleting the word "sold" and inserting instead the word "suitable".

Paragraph II(D). The proposed judgment defines "Reseller" to mean "any person, other than a manufacturer of refrigerant gas, which is engaged in the United States in the business of purchasing refrigerant gas for resale to contractors, dealers, installers, servicemen, or other resellers." A principal item of relief proposed in the consent judgment is the requirement that defendant manufacturers sell on a nondiscriminatory basis for a period of five years to "any reseller" who meets certain specified requirements. It is clear from the Competitive Impact Statement that this obligation is supposed to include all resellers; and, specifically, that it is intended to require defendants to sell to wholesalers who resell to ultimate users that do their own installing or service work (see Competitive Impact Statement, pp. 9–10). This intention is not fully expressed in the stated definition of the word "reseller", because it could be interpreted as being limited to companies who in turn sell to other resellers (to contractors, servicemen, etc.). We submit that the definition should be amended to clarify this point. This could be accomplished by inserting the words "(including industrial and commercial users who do their own installation or service)," after the word "servicemen".

Paragraph IV(A). This provision enjoins the defendants from combining or conspiring with any manufacturer of refrigerant gas, or any association or group of purchasers, "to refuse to sell refrigerant gas to any customer or class or group of customers". As above stated, the violations stated in the complaint consisted of a combination and conspiracy not to sell, or not to sell except on disadvantageous or restrictive terms. In particular, it is alleged that there was an agreement not to deliver containers of gas to certain destinations (see Competitive Impact Statement, pp. 2–3). There were other discriminatory practices as well to which the decree should be addressed. One of particular significance has been the refusal to accept cylinder returns and to refund cylinder deposits as requested by disfavored wholesalers or their customers. The manufacturers retain ownership of the cylinders, and they are able to use this power for anticompetitive ends; the deposit amounts can be very substantial for individual wholesalers. Refrigeration Sales has had experience with this problem; it offers to customers the service of handling returns of cylinders and has encountered serious difficulties in arranging for refunds. The Competitive Impact Statement (pp. 5, 10) recognizes the manufacturers' interests in the handling of refund of container deposits. There should be equivalent respect for the customers' interests in fair and non-discriminatory treatment. It should be noted that the necessity to prevent discriminatory treatment is recognized elsewhere in the proposed consent judgment, in VI(A), which imposes a duty upon defendant manufacturers to sell to any reseller for a term of years, and includes the requirements that such sales shall be upon "the manufacturer's terms and conditions of sale", i.e., those generally applicable.

In our view, it is essential that paragraph IV(A) should prohibit a conspiracy or agreement to impose discriminatory terms upon any purchaser; and specific reference should be made to the terms governing cylinder returns and refunds. This paragraph should be amended, therefore, by inserting at the end, after the words "or group of customers", the following: ", or to sell refrigerant gas to any customer or group of customers upon discriminatorily unfavorable or unreasonable terms, including terms for return of cylinders and refunds of deposits pursuant to customer request."

Paragraph VI(A). This paragraph contains the critical item of relief which is essential to open up channels of trade that had been blocked by the combination and conspiracy among the manufacturers and the trade association, and to provide some assurance that the alleged practices will not be continued or resumed. It orders each defendant manufacturer to sell refrigerant gas on a nondiscriminatory basis to any reseller who meets cash or credit requirements for a period of five years, and to ship to branches or warehouses of such resellers. Because of the importance of this relief, we are most concerned about the following limitations or inadequancies which should be rectified.

1. The obligation to sell is for five years. We do not believe that this is a sufficient period of time to dissipate the effects of the combination and conspiracy. As the complaint alleges, the conspiracy goes back more than two decades insofar as the leading manufacturers are concerned. This case itself has been pending for six years, a longer period of itme than would be covered by the proposed injunction. In these circumstances, five years is simply too short to assure that long-standing abuses have been ended, not merely suspended temporarily. Furthermore, refrigerant gas goes through periods of fluctuating demand. We are now in an oversupply situation because of a decline in use of fluorocarbons in aerosols, and the obligation imposed by VI(A) should be of sufficient duration to reach beyond the current cycle of oversupply. We recommend that the period should be at least 10 [ten] years.

2. The manufacturers' obligation to sell is subject to the following exception: "*Provided, however,* That a defendant manufacturer shall not be required to sell refrigerant gas in containers larger than 145 pounds to any reseller which is not technically qualified to uses such gas to fill smaller containers."

We submit that the exception proviso must be modified in two respects:

(a) The cutoff point of 145 pound containers is not appropriate as an across-the-board standard. For each refrigerant, there are different sizes of containers which represent those sold for normal installation, as distinguished from possible use for refilling smaller containers. Refrigerant 12 is sold for that purpose in cylinders up to 145 pounds, and it is that to which the proposed consent judgment appears to refer. But this limit is not appropriate for other commercially important refrigerants. Refrigerant 114 is sold in cylinders up to 150 pounds for normal use. In addition, two important types are sold in liquid form—refrigerant 11 in drums up to 650 pounds, and refrigerant 113 in drums up to 690 pounds. Accordingly, the proviso should be changed by substituting for the words "refrigerant gas in containers larger than 145 pounds" the following: "Refrigerant gas in containers larger than 150 pounds, or refrigerant gas in liquid form in containers larger than 690 pounds."

(b) The proviso is based upon the assumption that larger containers are utilized to fill smaller containers, and hence that it is reasonable for the manufacturers to impose a condition that the reseller must be technically qualified to undertake such refilling. However, during the time in which this complaint has been pending, there has been an increasing development of wholesaler business in the resale of larger sizes of containers directly to ultimate users. Thus, Refrigeration Sales Co., Inc. purchases and resells—without refilling—refrigerant gas in ton tanks and in bulk (tank trucks or tank cars) in substantial and growing quantities. These are sales to industrial or commercial users—industrial plants, large refrigerated warehouses or large building complexes. Because of the importance of wholesale competition in this sector of the business, it is essential that the consent judgment provide assurance that restrictive practices not be utilized to impair or limit competitive activities in such sales. Hence, the proviso in paragraph VI(A) should permit the manufacturers to consider a reseller's technical qualifications for refilling *only* when refilling is contemplated. There would be no purpose, other than an anticompetitive purpose, in using the pretext of technical qualification as a basis for refusing to sell large containers to a company like Refrigeration Sales which plans to resell the containers in wholesale competition. This danger could be guarded against by amending the proviso to insert after the initial words "provided, however, that" the following: ", when refilling is contemplated by the reseller,".

As indicated in our comment on paragraph II(A), some of the applications for which bulk volumes of refrigerant gas are sold go beyond refrigeration and air conditioning. These include use in petroleum processing, freeze-drying and as solvents or propellants. While the amount of such activity has increased during the pendency of the case, the wholesaler market has always included purchases and resale for non-refrigerant uses. These were included in the sales data alleged in the complaint. The manufacturers' price lists to wholesalers have regularly included gas in units designed for such use, e.g., in fire extinguishers and for cleaning purposes. Furthermore, as a practical matter, the decree should cover sales of refrigerant gas to wholesalers regardless of the ultimate application. The manufacturer has no right to control the purposes for which a wholesaler resells, and should not be permitted or encouraged to inquire into such resales. In addition, the unlawful practices are or can be employed in all sales to wholesalers, regardless of the ultimate use of the gas. Since the decree establishes a regime for the relations between manufacturers and wholesalers, it should extend to all such relations. It is well established that a decree can properly bar the parties from other means of reaching the same or related violations and can also properly prevent unlawful conduct in implementation of the decree's affirmative provisions. As a result of the redefinition of "refrigerant gas" and "gas", which we have recommended for II(A), the manufacturers' obligation to sell in this paragraph VI(A) will cover, as it should, all uses for which refrigerant gases are sold, and competition in bulk sales should be protected by the above recommended change in the proviso.

3. The final sentence of paragraph VI(A) provides: "Each defendant manufacturer shall accord all resellers a fair opportunity to place orders and shall ship to any bona fide branch or warehouse of a reseller purchasing gas from it." We have two suggested modifications in this provision:

(a) As pointed out in the Competitive Impact Statement (pp. 2–3), an element in the alleged combination and conspiracy was the refusal to ship smaller containers to any location other than the purchaser's principal place of business or qualified branch, and the refusal to ship larger containers (ton tanks) to any location other than the job site of customers. An essential element of relief is the above obligation to ship "to any bona fide branch or warehouse of a reseller." The Competitive Impact Statement (p. 6) makes it clear that this provision is intended to cover space of a reseller in a public warehouse. We believe that it would be helpful to make this point explicit in the consent judgment and also to make it clear that the provision applies without regard to the method of charging applied by the warehouse (rental of space, payment for storage, etc.). This could be done by inserting after the words "of a reseller" the following: "(including use by a reseller of space in a public warehouse)."

(b) With respect to the larger containers, the manufacturers have barred shipment to any location other than the job site of the reseller's customer, and this has been incorporated in their stated conditions of sale. The proposed judgment requires shipment to branches and warehouse locations, if so desired by the reseller. But with such large containers the reseller may need and desire to have delivery made to the job site of the customer. We believe that it would be proper to provide explicitly that it is the reseller who has the option of determining where the larger containers should be shipped. This could be accomplished by inserting at the end of the sentence, after the words "purchasing gas from it," the following: "; *Provided,* That containers of one ton or larger shall be shipped to such branch or warehouse, or to the site of the reseller's customer, at the option of the reseller."

Paragraph VII. This paragraph imposes various obligations upon defendant trade trade association, Air Conditioning and Refrigeration Wholesalers (ARW). As the Department of Justice is aware, members of ARW are constituted in twelve regional groups, which also conduct meetings and other group activities. Such regional groups may readily be used as vehicles for continuation or resumption of the violations stated in the complaint. It is our belief that they were an important part of the conspiracy in the past. It is not clear to us whether the regional groups are, as legal entities, subordinates to or directly related with ARW. In any event, paragraph VII should be amended to require ARW to take steps to see that the regional organizations amend their by-laws, membership rules, etc., to conform to paragraph VII of the decree.

We submit that the above suggested modifications correct inadequacies in the proposed consent judgment, and provide more effective relief in the public interest. If you desire any further information or submissions, please do not hesitate to contact me.

I would appreciate notice of the filing of the Department's response to the comments received.

Sincerely yours,

LIONEL KESTENBAUM.

COMMENT OF INTERNATIONAL PLASTICS, INC. UPON PROPOSED CONSENT JUDGMENT

International Plastics, Inc. ("IPI") hereby comments upon the Stipulation, Final Judgment, and Competitive Impact Statement ("the proposed Consent Judgment") which was filed herein on May 3, 1976. This Comment is filed pursuant to 15 U.S.C. 16 and Section VI, "Procedures Available for Modification of Consent Judgment" of the Competitive Impact Statement.

SUMMARY OF POSITION

The proposed Consent Judgment fails to contain adequate economic and quantitative assurances concerning supplies of bulk refrigerant gas for non-manufacturer ("independent") repackagers, thus jeopardizing the competitive sources of supply which the wholesaler has enjoyed heretofore.

This failure results from a deficient recognition of the role of the independent repackager as a source of packaged refrigerant to wholesalers. In the context of the events and circumstances which gave rise to this litigation, that role has been in the past and must remain in the future one of particular significance and vigor.

Over the last several years, the independent repackager has effectively provided practical market-place solutions (albeit not total ones) for the problems for which this litigation seeks legal solutions. The contributions of the independent repackager have been of crucial benefit to, indeed have become the bulwark of the non-ARW (i.e., the defendant Air Conditioning and Refrigeration Wholesalers) wholesalers market. Legal solutions will be effective only as they embrace the competitive and economic realities of the market place. On the facts of this case, legal solutions must work in conjunction with, rather than destroy, the position of the independent repackager as a competitor of the defendant-manufacturers in supplying packaged refrigerant to the wholesaler.

The proposed Consent Judgment, if approved in its present form, will necessarily produce two results. The independent repackager will be essentially eliminated from the wholesaler market. An industry will be crippled, if not destroyed.

A second result—one even more important from a public interest standpoint—also inevitably will follow. The wholesaler will no longer have the independent repackager and the defendant-manufacturers competing to supply him. Removal of the independent repackager as such a competitor is a result which the defendant-manufacturers have not and cannot achieve within the anti-trust laws and the economics of the market place. Yet the proposed Consent Judgment will deliver the wholesaler as a totally captive market to the defendant-manufacturers.

This litigation was commenced to relieve the wholesaler market from specific anticompetitive conditions which the defendants created and maintained. The proposed Consent Judgment will merely substitute evils for those wholesalers (i.e.: Replace some packaged product distribution restrictions with the defendant-manufacturers as exclusive supply sources); and it will create for the independent repackager anti-trust and economic problems sufficient virtually to toll the knell for that entire segment of the refrigerant industry.

These are results and circumstances which the Department of Justice and this Court, in the administration of the anti-trust laws, should vigorously oppose. If the proposed

V41166 AUG 25 76 UMI

Consent Judgment is approved, those results and circumstances will follow precisely because of the approvals of the Department and of the Court. The position of the defendant-manufacturers as monopolists or virtual monopolists will be further enhanced, indeed assured. The solutions contained in the proposed Consent Judgment lack legal or economic imperatives. That is to say that even if that Consent Judgment were to be approved, it fundamentally is and would remain legally and economically wrong. And the rule would appear to be obvious that one set of anti-competitive problems cannot be solved properly by merely shifting them to other persons or by creating new ones in their stead. The rights of the independent repackager must not be trammeled roughshod in an effort to alleviate the wholesaler's problems. Although the rights of the wholesaler to operate its business profitably, including open access to supply, are as great as the independent repackager's rights, they certainly are not greater.

The public interest is substantially present in this case both in the preservation and maintenance of competitive sources of supply as well as in the continued viability of the independent repackager segment of the refrigerant industry. In neither of these respects is the public interest served by the proposed Consent Judgment.

The specific deficiencies in the proposed Consent Judgment are as follows:

1. Failure to contain assurances that the defendant-manufacturers' sales of bulk refrigerant to the independent repackager and their sales of packaged refrigerant to wholesalers will be at reasonable prices and at levels which will allow competitive manufacturer-vs.-independent pricing to the wholesaler;

2. Failure to contain assurances that the defendant-manufacturers will provide the independent repackager with physical quantities of bulk refrigerant on a timely basis and in amounts adequate to enable the independent to compete with the manufacturer as a supplier to the wholesaler; and

3. Failure to provide that any reseller including an independent repackager may apply to the Court for relief under Section IX of the Final Judgment.

In the "Conclusion and Proposed Solutions" section of this Comment, IPI suggests amendments to the proposed Consent Judgment which will reduce or eliminate these deficiencies.

Prior and Recent Practices and Events In the Wholesaler Market

A. Background Information

Certain background information, most of which was omitted from the Competitive Impact Statement, is essential to a full understanding of the proposed Consent Judgment's "anticipated effects on competition" (15 U.S.C. 16(b)(3)) in the wholesaler packaged refrigerant market.

1. *IPI and the Other Independent Repackagers.* IPI is a repackager of fluorocarbon refrigerant gas, particularly of grades "12" and "22" (but also including certain other grades of gas). IPI is a publicly held corporation, but is neither wholly nor partially owned by nor otherwise aligned (except by supply contracts) with any fluorocarbon manufacturer, including any of the defendants.

IPI's business consists of purchasing fluorocarbon refrigerant gas (grades "12" and "22" together with certain other grades) in bulk directly from one or more of the defendant-manufacturers, repackaging that gas into cans and cylinders of various sizes, and selling the gas as packaged under its proprietary labels to the wholesaler as well as to other markets (i.e., to "resellers" in the terms of the proposed Consent Judgment).

IPI has been engaged in this business since 1961. It currently employs between 70 and 100 persons, and has an annual payroll of approximately $672,000.00. From its former location in Wichita, Kansas, the company moved in 1968 to near Colwich, Kansas, where it presently is located. IPI received two issues of industrial revenue bonds of the City of Colwich totalling $850,000.00. The bonds are being retired on schedule, and approximately $760,000.00 principal amount of those bonds is now outstanding.

In addition to IPI, other principal independent repackagers also serving the reseller market include: Paramount Chemicals, Drew Chemical Corp., Virginia Chemical, R-I-P, Airosol, Inc., Ig-Lo, Technical Chemicals, Surefire, Chem-Spray, Radiator Specialty, U.S. Avlex, and Interdynamics.

2. *The Product and Its Market.* Two types of refrigerant gas are primarily involved, i.e.: grade "12" and grade "22" refrigerant. The principal application of grade "12" refrigerant gas is to the automotive market. This market is and over the years has been served primarily be repackagers, such as IPI. Manufacturers historically have not successfully served this market to any great extent. By contrast, the principal application of grade "22" refrigerant is to the commercial or wholesaler markets for use in virtually all modern, non-automotive types of air conditioning and refrigeration systems. This market is and over the years has been served primarily by the manufacturers. Other grades of refrigerant gas also are involved, but not to the extent that grades "12" and "22" are.

Sales of packaged refrigerant for the current year are estimated at 200,000,000 pounds. The defendant-manufacturers' current share of the market is an estimated 83 percent, and the independent repackager's share is approximately 17 percent. Prior to the entry of IPI into the cylinder market in 1970, the manufacturer absolutely controlled that market.

An understanding of the distinct manufacturer-repackager-reseller functions within the refrigeration production-distribution chain is important. Refrigerant gas is manufactured in bulk from raw chemicals (i.e., carbon tetrachloride, chloroform, and hydrofluoric acid). An estimated 800,000,000 pounds of fluorocarbon was manufactured by the defendant-manufacturers in 1975 for many applications, only some of which include aerosol propellant, blowing agents for plastic foam, and refrigerant products. The total packaged refrigerant market (all applications) uses approximately 25 percent of the fluorocarbon manufactured. The defendant-manufacturers are the sole domestic manufacturers of refrigerant, and none of the independent repackagers has manufacturing facilities. At the other end of the product-distribution chain, the refrigerant "reseller" distributes or sells packaged refrigerant to retailers or to ultimate consumers. In the middle of this chain are the repackagers. They "package" bulk refrigerant gas into cans and cylinders of various sizes and then distribute the gas to the resellers, principally to wholesalers and automotive users.

Although the foregong manufacturer-repackager-reseller references are to separate functions within the production-distribution chain, they are not necessarily references to separate companies or persons. All the defendant-manufacturers are involved in the dual roles of manufacturing as well as of repackaging. Such defendants in effect purchase bulk refrigerant primarily from themselves, package the refrigerant, and compete directly with the independent repackager as a supplier to the wholesaler. The significance of the three distinct functions within the production-distribution chain, and of the duality of roles played by the defendant-manufacturers, is at the crux of IPI's instant Comment. It is the significance which the proposed Consent Judgment totally misses.

3. *Distribution of packaged refrigerant to the wholesaler market.* Preliminarily, the two trade associations which have been particularly significant in the distribution of refrigerant gas to the wholesaler should be discussed.

Historically, the defendant ARW was composed basically of wholesalers who handled parts and accessories for servicing air conditioning and refrigeration systems. ARW members were not normally engaged either in the sale of the basic system hardware, nor at all in the heating business. They sold the parts and accessories for such equipment. The North American Heating and Air Conditioning Wholesalers Association (NHAW) historically sold but did not carry the accessories and parts for air conditioning and refrigeration as well as heating systems. In recent years, however, the foregoing distinctions between the two associations and their memberships have tended to disappear, and now the members of either association might carry air conditioning systems, parts and accessories therefor. Other wholesalers exist, of course, who are not and have never been affiliated with either trade association.

We turn now to the historic channels of distribution of packaged refrigerant to the wholesaler, being the restricted distribution patterns which gave rise to this litigation.

At the time when IPI commenced its business operations, a very strong demand existed in the non-ARW wholesaler market (principally in the NHAW market) for packaged refrigerant products, especially of grade "22". At that time, such products were available primarily through ARW wholesalers, as this litigation has correctly noted. IPI began and has since maintained a nation-wide sales program aimed at supplying packaged refrigerant to all qualified wholesalers, regardless of any trade association affiliation. Over the past several years, IPI has become one of the major, if not indeed the principal, independent supplier of packaged refrigerant to the non-ARW wholesaler market.

When IPI commenced the refrigerant repackaging aspects of its business, in fashion typical of other repackagers, it served only the "12" automotive market. In approximately 1970, IPI also began to serve the "22" cylinder market, primarily the NHAW wholesaler and other non-ARW wholesalers. In response, the majority of the defendant-manufacturers initially refused to deal further with IPI. At no time during the period 1968–1974 did more than two of the defendant-manufacturers sell bulk refrigerant of either grades "12" or "22" to IPI. Further, during a portion of that time (from 1970–1972) only one of the defendant-manufacturers would sell to IPI. The refusal of the remaining manufacturers to sell or even to quote to IPI has continued until recently.

Nonetheless, during the years 1970–1974, IPI became one of the only two principal repackagers to serve successfully both the "12" and the "22" markets. Thus, IPI is a principal independent repackager of "12" and "22" refrigerant gas, and likewise is a principal independent supplier of such packaged product to the non-ARW wholesaler market. In 1974, for instance, more than 25 percent of the NHAW mebership were IPI customers.

In the 1974 season, IPI's principal manufacturer-supplier refused to sell to IPI at volume levels equal to, much less greater than, the prior year. That manufacturer claimed shortage of product. After the 1974 season's contract was executed, the manufacturer refused to make timely deliveries of product to IPI, as it always had done before and as was necessary for IPI to serve its customers during the limited refrigerant season. Because of such product shortages, IPI was unable to confirm customer orders and experienced significant numbers of customer order cancellations. Thereafter, IPI learned that some of its customers were being actively solicited by that manufacturer, that some of IPI's cancelled orders were being served by it, that the manufacturer was seeking new wholesaler accounts, and that the manufacturer was servicing substantial numbers of its regular customers at volume levels greatly increased over previous years' sales. Also, that manufacturer for the first time adopted IPI's method of marketing, which to that point had not been utilized by the defendant-manufacturers.

For these reasons, IPI commenced an anti-trust action in the federal court in Wichita, Kansas. The legal basis for the suit was that an anti-trust violation and an unfair trade practice occur when a sole or principal supplier competes with its customer and at the same time denies him product. From the consumer's standpoint, such conduct constitutes an additional anti-trust violation and unfair trade practice: The customer-wholesaler is denied the competition between the manufacturer and independent sources of supply. Upon a preliminary finding of likelihood of success by IPI on the merits of its case, that Court ordered the manufacturer to fulfill its existing 1974 contract in a proper manner, and to make timely shipments of product to IPI. The action was ultimately settled between the parties and dismissed.

The background is not yet complete. Beginning in the fall and winter of 1974 and continuing through the spring of 1975, all but one of the defendant-manufacturers offered bulk "12" (and in some cases, "22") to IPI. Thus, two additional manufacturers broke their several-year embargo against sales to IPI, albeit only to a modest extent initially; and IPI's previous manufacturer-suppliers continued to offer product to it. Indeed, in the latter portions of 1974 and in the early part of 1975, these manufacturers offered to flood IPI with product. But the product was expensive. The prices were unprecedentedly high. And the products were offered to IPI only at those high prices. The manufacturers explained that the high prices merely reflected increased costs of production.

The latter portion of 1974 through the the spring of 1975 was the period when bulk suppliers and manufacturers alike were seeking to contract wholesaler sales for the 1975 cooling season, striving in competition with one other. During this period, IPI repeatedly saw that the manufacturers' artificially high bulk prices were eliminating the company as a competitor in major segments of the market place. Further, it saw that correspondingly high prices were not being charged directly by the manufacturers to the wholesalers nor by the manufacturers to others with whom IPI competed. As a result of these inflated price structures, IPI lost a substantial number of its national accounts. These were accounts which it had held for many years and which, but for the artificially high cost of its raw supplies and its lack of assured and timely deliveries, it would have continued to hold. Additionally, the company's profit on the sales which it did make were substantially reduced because of this same pricing structure.

As a further indicator that the high bulk price was simply a manipulative market device, the manufacturers rolled their bulk prices to IPI back in approximately May, 1975—but not before the sales period for that refrigerant season was essentially over and not before IPI had been substantially hurt.

Accordingly, the independent repackagers, led by IPI, have served for many years as the life-line of packaged products for the non-ARW wholesaler. Because of the independent repackager, existing wholesalers of other products were allowed to branch out into the packaged refrigerant field, and new ones were enabled to enter the business. Without the independent repackager, the scope and stature of the non-ARW wholesaler today might well have been insufficient to warrant or to sustain the instant litigation.

B. Recent Developments

Certain recent developments also are unnoticed in the Competitive Impact Statement. These developments are significant in that they disclose as to the defendant-manufacturers: A continuing intent to engage in anti-competitive practices in the refrigerant market to the detriment of the wholesaler and the independent repackager alike; an understanding of the appropriate mechanisms to carry out those intentions, particularly the elimination of the independent repackager as a competitor in supplying the wholesaler; and an abundantly adequate power to achieve those ends.

These developments have occurred in the last eighteen months or so, in the very shadow of the proposed Consent Judgment. The defendant-manufacturers presumably have been aware of the essential terms of the proposed Consent Judgment during those months. These recent developments indicate, therefore, the practices, procedures and attitudes which the defendant-manufacturers propose to adopt if the Consent Judgment is approved in its present form.

Those developments are:

1. The pricing of bulk refrigerant gas to IPI and the pricing of packaged refrigerant to the wholesaler all at prices which necessarily result in IPI's having to price packaged refrigerant to the wholesaler at levels which are uneconomical to IPI and non-competitive with the corresponding prices listed by the manufacturer in its publications.

For example, recent manufacturer-published quotes of bulk refrigerant "12" plus only the cost to IPI of the can or cylinder approximate the manufacturer-published list price of packaged product to the wholesaler.

But even based upon IPI's actual costs of bulk refrigerant "12," IPI can meet the manufacturer's published list prices only by absorbing direct and indirect overhead costs, freight and profit. Typically, packaged product is sold to the wholesaler at prices less than the published list prices, various discounts or credits being given for cash and for "competitive conditions." Last year, manufacturers' "competitive discounts" alone at one point reached as much as 20 percent off of published list price, before further reduction for prompt payment. To be competitive with the actual packaged price of the manufacturers, IPI also would have to absorb similar terms, which it cannot do.

Even more startling, recent manufacturer quotes to IPI for certain exotic gas in bulk exceeded the manufacturer's published list price for such packaged gas to the wholesaler. The foregoing are merely some of the examples which could be given.

As a result, competition with the defendant-manufacturers in the wholesaler market is economically disastrous. Profit margins are eroded to the point of elimination. IPI believes that its production and selling costs are at least as favorable as those of the other independent repackagers, and that its position as above set forth is representative of the respective positions of the other independent repackagers as well.

2. The defendant-manufacturers have used and continue to use their control over bulk refrigerant together with their market dominance in the wholesaler market in a constant state of turmoil. The years 1974–1975 were marked by numerous manufacturer-led price changes from manufacturer-published list prices. This contrasts with only a few such price changes per year in each of the preceding several years. In 1974, the prices of bulk and packaged refrigerant were dramatically increased. In 1975, the prices of packaged refrigerant were greatly decreased, but the prices of bulk remained essentially the same. The message implicit in this flex of defendant-manufacturer muscle is clear: Only the manufacturer, not the independent repackager, has certainty of supply; only the manufacturer sets the package price to the wholesaler. The message is not lost upon the trade.

These recent developments have the effect, if not indeed the underlying purpose, of eliminating the independent repackager as a competitor of the defendant-manufacturers in supplying packaged refrigerant to the wholesaler. These developments reflect the continuing intent of the defendant-manufacturers to pursue anti-competitive ends and means in the refrigerant market. They reflect the defendant-manufacturers' awareness of and power to accomplish the things which will remove the independent repackager from the wholesaler market to the exclusive benefit of the manufacturers. And these developments clearly demonstrate the defendant-manufacturer's view of the proposed Consent Judgment.

The Proposed Consent Judgment

The proposed Consent Judgment, viewed through the Competitive Impact Statement, constitutes only a fragmented description of the refrigerant market and the most cursory study of the impact which the decree would have upon competition in that market. Few of the circumstances and events described in the preceding section ("Prior and Recent Practices and Events in the Wholesaler Market") of this Comment are reported in the Competitive Impact Statement. Without considering and addressing those matters, the proposed Consent Judgment cannot be in the public interest nor in any way properly approvable by this Court.

By Section IV(A), the proposed Consent Judgment enjoins the defendant-manufacturers from agreeing to refuse to sell refrigerant gas to any group or class of customers. By Section VI, it requires each of the defendant-manufacturers to sell, for a five-year period, refrigerant gas to any "reseller." (See Competitive Impact Statement, pp. 4–5.)

As analyzed by the Competitive Impact Statement, under the foregoing provisions: "Certain classes of customers such as repackagers and resellers who previously supplied these wholesalers may find their business diminished." (Competitive Impact Statement, p. 8.) Explicit in that analysis is the awareness that under the proposed Consent Judgment the independent repackager will lose significant portions of his wholesaler trade to the manufacturers. The analysis does not project that the proposed Consent Judgment will secure unto that trade the benefits of continued and expanded manufacturer-vs.-independent supplier competition. Rather, it clearly reports that the delivery of this trade exclusively to the defendant-manufacturers is a foregone conclusion.

The parties must have been aware that the proposed Consent Judgment would eliminate the independent from the market and reduce manufacturer-independent competition. Why the independent repackager should be eliminated or its vigor reduced so that the

V 41 166
AUG 25 76
UMI

manufacturers will begin properly to serve the wholesaler is not explained. Why the independent repackager should be ousted from or economically penalized in the wholesale market so that the manufacturers will start obeying the anti-trust laws is nowhere justified either in the proposed Consent Judgment document or by the facts of this case.

That competition between manufacturer and independent suppliers falls within the protection of the anti-trust laws is clear from the cases. "*Industrial Building Materials, Inc. vs. Interchemical Corp.*" (CA 9, 1970) 437 F. 2d 1336 contains an excellent statement of and application of those principles.

We completely fail to see what interest the Department or this Court can have in returning the wholesaler market to the defendant-manufacturers, who have so long so thoroughly abused it, as witnessed by this action. The public interest would be satisfied, indeed would be extraordinarily well served, by a final decree which would preserve and promote competing manufacturer-vs.-independent sources of supply to the wholesaler.

The Competitive Impact Statement's foregoing analysis of Sections IV(A) and VI then continues: "• • • but they [i.e., the repackagers and resellers] may also find that they now have a more reliable source of supply" (at p. 8).

As a reference to a key provision in the proposed settlement of th's anti-trust case, that statement is an absurdity.

"May" is vague and elusive. A provision which "may" do something, equally "may not" do it. By saying "may," the draftsmen of the proposed Consent Judgment are simply saying that they don't know what will happen, and are not even willing to undertake that anything specific should happen. The defendant-manufacturers know what they intend to do under the Consent Judgment about supplying the independent repackager. Those defendants are not willing to represent that their supplies will "probably" or even "likely" be more reliable, quantitatively or economically, under that decree than they have been in the past. And the Department seems to be at a total loss in the matter. Given the circumstances of the refrigerant market, the role of the independent repackager therein, and the need for anti-trust relief, a decree which only "may" assure competitive manufacturer-vs.-independent supplies to the wholesaler has no inherent necessity or imperative to do anything at all.

The "more reliable supply" statement apparently refers to the quantitative rather than to the economic aspects of supply to independent repackagers. Even so, little may be found in the proposed Consent Judgment as interpreted by the Competitive Impact Statement to support that supposition.

No provision assures that a sufficient supply of refrigerant will be made available to maintain or to promote the independent repackager as a meaningful competitor to the defendant-manufacturers in the wholesaler market. A manufacturer need only to sell "to the extent that it has gas and containers available." Although each defendant "shall afford all resellers a fair opportunity to place orders," nothing prescribes how or when the manufacturer is to fill such orders or ship product thereunder. Recognizing that a defendant-manufacturer will not be in a position at all times to supply all resellers who may seek to purchase refrigerant, the proposed Consent Judgment allows "each defendant-manufacturer [to] determine, unilaterally • • • the manner in which demand or anticipated demand shall be met on the basis of any allocation, reasonable and equitable under all the circumstances." Further, in working out its allocation formula, the manufacturer "may take into account its objectives with regard to container mix." A very suspicious set of provisions, indeed!

The decree provides no guidelines for the parties or the Court in determining whether and to what extent refrigerant shall be deemed "available." May the manufacturers refuse to commit product to the independent repackager based upon actual—or hoped for—demand from the wholesalers or other classes of trade; if so, to what extent and for how long? That is to inquire: May the manufacturers now shove all they can to the wholesaler market, leaving little or nothing available for the independent, who seeks to compete with the manufacturers in that market; or can the manufacturers now hold the orders of the independent until the prime of the refrigerant season has passed before the manufacturers either must accept those orders or ship thereunder? May the manufacturer assert the non-availability of refrigerant to the independent repackager based upon the manufacturer's development and promotion of new products, while at the same time filling refrigerant orders from wholesalers? Neither does the proposed Consent Judgment provide any guidelines for working out allocation and container mix issues in terms of continued and adequate supplies to the independent repackager.

Totally overlooked by the proposed Consent Judgment are any provisions requiring promptness in the manufacturers' acceptance of orders or requiring timeliness in the manufacturers' shipment of refrigerant under accepted orders. IPI has had expensive experience with some of the defendant-manufacturers in delaying acceptance of orders, in refusing to set or to abide by shipping schedules, and in failing to ship in a timely fashion. The result has been that IPI has lost substantial sales because it did not have the refrigerant to package; meanwhile, IPI's manufacturer-suppliers were competing with it directly in the wholesaler market, were filling their own orders, and were exploiting IPI's lack of available and reliable supply. Any final decree entered herein should impose upon the defendant-manufacturers affirmative duties requiring the prompt acceptance of orders as well as the timely and seasonable shipment of refrigerant thereunder, particularly concerning orders of their competitors, the independent repackagers.

The deficiencies in the proposed Consent Judgment's provisions concerning the physical or quantitative aspects of assuring bulk supplies to the independent repackager are significant. Nonetheless, those deficiencies are overshadowed by the omission of any terms concerning the prices at which the defendant-manufacturers are to sell bulk refrigerant to the independent repackager or to themselves as "repackagers," or at which they are to sell packaged refrigerant to the wholesaler. That the defendants must sell "on such defendant-manufacturer's regular terms and conditions of sale • • • to any reseller who pays cash or meets its customary credit requirements" misses the point entirely. As earlier noted in this Comment, the defendant-manufacturers occupy the dual positions of manufacturer as well as repackager. Among the recent developments which were discussed above was that the manufacturers were quoting bulk refrigerant to the independent repackager and were quoting packaged refrigerant to the wholesaler all at prices which would not allow the independent to compete with the manufacturers for the wholesaler trade. One explanation is that the manufacturer-repackager is not "selling" bulk to itself at the same prices as it is quoting to the independent. Because other direct packaging costs, freight, etc. tend to be generally standardized, the only remaining alternative explanation is that the manufacturers are selling to the wholesaler at or below the manufacturers' cost.

The drift of the manufacturer's activities during the course of this litigation has been from the original crude refusal to sell to certain wholesalers to the present sophisticated effective refusal to sell by the deft orchestration of pricing mechanisms. Rather than curing the manufacturer-created anti-trust problems in the refrigerant market, this case in the posture of the proposed Consent Judgment has simply matured those problems. If this Court and the Department of Justice are not up to combating these current refinements of the manufacturer's conduct, the wholesalers' situation will be worsened by the judicially-approved elimination of the independent repackager as a source of supply competitive with the manufacturer.

In sum, the proposed Consent Judgment lacks adequate quantitative and price assurances concerning refrigerant sales from the defendant-manufacturers to the independent repackager. That Consent Judgment will foster the total takeover of the wholesalers' supply channels. The independent repackager segment of the refrigerant market will be eliminated. And the wholesaler as well as the ultimate consumer will be deprived of the benefits of the competition between the manufacturer and the independent supplier. Undoubtedly, so long as the manufacturers' present pricing techniques continue, the wholesaler can purchase packaged refrigerant from those defendants cheaper than he can from the independent repackager. In the balance and over the long term, however, preserving manufacturer-independent supplier competition must be viewed as more in the public interest than any short-term price bargains.

CONCLUSION

Three principal deficiencies in the proposed Consent Judgment have been discussed in this Comment: (1) The failure to contain assurances that the defendant-manufacturers will provide the independent repackager on a timely basis with physical quantities of bulk refrigerant adequate to enable the independent repackager to compete with the manufacturer for the wholesaler trade; (2) the failure to contain assurances that the defendant-manufacturers' sale of bulk refrigerant to the independent repackager and their sale of packaged refrigerant to wholesalers will be at reasonable prices and at levels which will allow competitive manufacturer-vs.-independent pricing to the wholesaler; and (3) the failure to provide that any reseller, including an independent repackager, may apply to the Court directly for relief under Section IX of the Final Judgment.

Until these deficiencies are corrected, the proposed Consent Judgment is not in the public interest. This Court should approve that Consent Judgment only if provisions are added covering the following general areas:

A. Prohibiting each defendant-manufacturer from instituting and/or pursuing any practice with regard to pricing, terms of sale, or other types of action in the sale of bulk or packaged refrigerant to IPI or to any other independent repackager or to any wholesaler with the intent or effect of reducing or eliminating competition between such defendant-manufacturer and IPI or any other independent repackager;

B. Providing that it shall be unreasonable for any defendant-manufacturer to institute any plan for the distribution of its refrigerant that gives any less preference to the independent repackager than to any other customer or class of customer of such defendant; and

C. Providing that jurisdiction be retained by the Court for the purpose of enabling IPI or any other independent repackager to apply directly to this Court for relief under Section IX of the Final Judgment.

In Appendix "A" hereto, IPI offers some specific suggestions which might remedy the deficiencies of the proposed Consent Judgment. Being suggestions only and offered solely to be constructive, they do not constitute an essential part of IPI's Comment. Nonetheless, those suggestions do address themselves to the general areas which must be covered if the Consent Judgment is to serve adequately the public interest. And these general areas, as above set out, must serve as reference points to this Court in its determination whether to approve the presently proposed or any future proposed consent decree.

With these deficiencies corrected in the general areas set forth, the proposed Consent Judgment is otherwise generally satisfactory to IPI.

Respectfully submitted,

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA 3839]

CALIFORNIA

Application

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), the Juniper Petroleum Corporation has applied for a 3½" low pressure gas pipeline right-of-way across the following described public lands:

MOUNT DIABLO BASE AND MERIDIAN

CALIFORNIA

T. 30 S., R. 20 E.
Sec. 25, in E½NE¼
T. 30 S., R. 21 E.
Sec. 19, in lot 17

This pipeline will carry gas across 4670.34 feet of national resource lands in Kern County, California.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the State Office, Bureau of Land Management, Room E-2841, 2800 Cottage Way, Sacramento, California 95825.

JOAN B. RUSSELL,
Acting Chief, Branch of Lands and Mineral Operations.

[FR Doc.76-24842 Filed 8-24-76;8:45 am]

MONTANA STATE MULTIPLE USE ADVISORY BOARD

Meeting

Notice is hereby given that the Montana State Multiple Use Advisory Board of the Bureau of Land Management will meet September 8, 9, and 10, 1976. The September 8 session will be held in the meeting room of the First State Bank of Fort Benton, 1502 Main St., Fort Benton, Montana, at 7 p.m. This session will be devoted to briefings and presentations for the Board Members on problems and opportunities associated with managing national resource lands and resources along the Missouri River in Montana.

This meeting is open to the public, and time will be provided for interested persons to make oral presentations to the board on management of national resource lands and resources along the Missouri River.

Written presentations on any subject may be filed for consideration by the board at the meeting or with the State Director, Bureau of Land Management, 222 North 32nd St., P.O. Box 30157, Billings, MT 59107.

Persons wishing to make presentations to the board at the September 8 session should notify the Montana Bureau of Land Management State Director at the above address prior to September 7, 1976.

The September 9-10 sessions will be in the form of a guided field trip on the Missouri River in Montana between Coalbanks Landing and Judith Landing with a campout on the night of September 9 at Hole in the Wall. The field trip is also open to the public. Persons going on the trip will have to provide their own transportation, equipment and meals.

Further information concerning this meeting may be obtained from Gordon W. Flint, Public Affairs Officer, Bureau of Land Management, P.O. Box 30157, Billings, MT 59107. Telephone (406) 245-6711, Ext. 6561.

EDWIN ZAIDLICZ,
State Director.

ROSWELL DISTRICT MULTIPLE USE ADVISORY BOARD

Public Meeting

Notice is hereby given that the Roswell District Multiple Use Advisory Board of the Bureau of Land Management will meet in open session September 20, 1976, at the Roswell Inn, 1815 North Main, Roswell, New Mexico.

The morning session will begin at 8 a.m. and will be devoted to review and recommendation on the Department of the Interior's proposed revised regulations for the management of livestock grazing on lands administered by the Bureau of Land Management. Time will be available for a limited number of brief oral statements by members of the public.

The afternoon session will begin at 1 p.m. and will be for further public comments on antelope fencing and fence modifications. No recommendations will be asked for in this session.

Written statements on either subject should be presented to the official listed below. Further information concerning this meeting may be obtained from James H. O'Connor, District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, New Mexico 88201, telephone number 622-7670.

Dated: August 17, 1976.

JAMES H. O'CONNOR,
District Manager.

National Park Service

CHESAPEAKE AND OHIO CANAL NATIONAL HISTORICAL PARK COMMISSION

Meeting

Notice is hereby given in accordance with Federal Advisory Committee Act that a meeting of the Chesapeake and Ohio Canal National Historical Park Commission will be held on Saturday, September 25, 1976, at 9 a.m., at the Stephen Mather Training Center, Harpers Ferry, West Virginia.

The Commission was established by Pub. L. 91-664 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Chesapeake and Ohio Canal National Historical Park.

The members of the Commission are as follows:

Miss Nancy Long (Chairman), Glen Echo, Maryland.
Mrs. Anthony C. Morella, Bethesda, Maryland.
Mr. Donald Frush, Hagerstown, Maryland.
Honorable Vladimir A. Wahbe, Baltimore, Maryland.
Mr. Anthony Abar, Annapolis, Maryland.
Mrs. John L. Melnick, Arlington, Virginia.
Mrs. Dorothy Grotos, Arlington, Virginia.
Mr. Burton C. English, Berkeley Springs, West Virginia.
Mr. Henry W. Miller, Jr., Paw Paw, West Virginia.
Mr. Lorenzo W. Jacobs, Jr., Washington, D.C.
Mr. Joseph H. Cole, Washington, D.C.
Mr. Ronald A. Clites, LaVale, Maryland.
Mrs. Mary Miltenberger, Cumberland, Maryland.
Dr. James H. Gilford, Frederick, Maryland.
Dr. Kenneth Bromfield, Frederick, Maryland.
Mr. Edwin F. Wesely, Chevy Chase, Maryland.
Mr. John C. Frye, Gapland, Maryland.
Mr. Rome F. Schwagel, Keedysville, Maryland.

The matters to be discussed at this meeting include:

1. Whiting's Neck Farm Community.
2. Western Maryland Railway Abandonment.
3. Interpretive Prospectus.
4. Abner Cloud House.
5. Legislation to Dedicate C&O Canal NHP to Justice Douglas.
6. Cumberland Boundary Legislation.
7. Reaction to General Plan.
8. Canal Construction Projects.
9. Montgomery County AWT.

V41166
AUG 25 76
UMI

10. Land Acquisition.
11. Commission Goals.
12. Park Maintenance: Mowing Policy.
13. Superintendent's and Area Reports.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 30 persons will be able to attend the sessions. Any member of the public may file with the Committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Richard L. Stanton, Associate Director, Cooperative Activities, National Capital Parks, at Area Code 202–426–6715. Minutes of the meeting will be available for public inspection 2 weeks after the meeting, at the Office of National Capital Parks, Room 208, 1100 Ohio Drive, SW., Washington, D.C.

Dated: August 19, 1976.

RICHARD L. STANTON,
Director, National Capital Parks.

[FR Doc.76–24824 Filed 8–24–76;8:45 am]

Office of the Secretary

COLORADO RIVER STORAGE PROJECT

Notice of Proposed Revised Allocation of Peaking Power

Pursuant to Pub. L. 84–485, April 11, 1956 (70 Stat. 105), and by virtue of authority under the Reclamation Project Act of 1939, August 4, 1939 (53 Stat. 1187, 1194, 1198), the Secretary of the Interior proposes to allocate additional power from the Colorado River Storage Project (CRSP) to be marketed by the Bureau of Reclamation.

There will be 108 megawatts of peaking power available without energy for each summer season (April through September) and 227 megawatts without energy for each winter season (October through March) beginning with the 1977–78 winter season and extending through the end of the 1989 summer season.

Twelve public comments were received on the proposed allocation which was published by notice in the FEDERAL REGISTER, Vol. 40, No. 247, Tuesday, December 23, 1975. A detailed review of the comments received was made, and copies of the comments and the review are available for public inspection at either of the offices below:

Chief, Division of Power, Bureau of Reclamation, Room 7612, Department of the Interior, Washington, D.C. 20240, Telephone: (202) 343–5337.

Regional Director, Attention: Code 600, Upper Colorado Region, Bureau of Reclamation, Department of the Interior, P.O. Box 11568, Salt Lake City, Utah 84147, Telephone: (801) 524–5493.

Based on that review, a proposed revised allocation has been made and appears below. The principal changes are that the quantities of peaking power rejected by various allottees have been reallocated among those allottees which requested additional amounts of peaking power.

Northern Division allocations were increased to those allottees which requested additional amounts in proportion to the original allocation since the majority of requests were not for definite amounts but for whatever additional quantities would be available. The Southern Division allocations were increased to those allottees which requested additional amounts of peaking power in proportion to the requests since all such requests were for definite amounts of power.

The proposed revision to the original allocation appears below:

Entities wishing to do so should submit their comments in writing to either of the offices shown above on or before September 24, 1976. After review of any comments received, a final allocation will be prepared and published, after which allottees will have until December 1, 1976, to place their allocations under contract. Any allocations not placed under contract by that date will be automatically rescinded.

Dated: August 17, 1976.

DENNIS N. SACHS,
Deputy Assistant Secretary of the Interior.

NATURAL SCIENCES ADVISORY COMMITTEE FOR FISH AND WILDLIFE AND PARKS

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that meetings of the Natural Sciences Advisory Committee for Fish and Wildlife and Parks will be held on September 10 and 11 in the Superintendent's Conference Room, Mammoth Hot Springs, Yellowstone National Park.

The purpose of the Advisory Committee is to advise the Secretary of the Interior with regard to the planning and execution of the fish and wildlife research and habitat preservation programs and natural history scientific research programs.

The members of the Advisory Committee are as follows:

Dr. Durward L. Allen (Chairman), Lafayette, Indiana
Dr. A. Starker Leopold, Berkeley, California
Dr. Frank C. Bellrose, Havana, Illinois
Dr. Eric G. Bolen, Sinton, Texas
Dr. Clark Hubbs, Austin, Texas
Dr. Laurence R. Jahn, Washington, D.C.
Dr. F. Wayne King, Bronx, New York
Dr. Willard D. Klimstra, Carbondale, Illinois
Dr. Robert T. Lackey, Blacksburg, Virginia
Mr. John L. Spinks, Jr., (Executive Secretary), Washington, D.C.

Meetings will commence at 9 a.m. on September 10 in the Superintendent's Conference Room, Yellowstone Park Headquarters. Agenda items include:

Introductory remarks by Assistant Secretary Reed
Review of Predator Research Program of the U.S. Fish and Wildlife Service
Review of Cooperative Wildlife Research Unit Program, U.S. Fish and Wildlife Service
The meeting will continue, commencing 9:00 a.m. on September 11, in the Superintendent's Conference Room, Yellowstone Park Headquarters. Agenda items include:
National Wildlife Refuge System—Implementation of Recommendations of 1968 Leopold Report, Fish and Wildlife Service
Fisheries Management Program, Yellowstone National Park, National Park Service
Natural Fire Management, Yellowstone National Park, National Park Service
Status, Management, and Possible Reintroductions of *Canis lupus irremotus*
National Park Service, Fish and Wildlife Service
Consideration of Agenda and Confirmation of Dates for next Committee Meeting

The meetings will be open to the public, but facilities and space to accommodate members of the public are limited, and it is expected that not more than 20 people will be able to attend.

Any member of the public may file with the Advisory Committee a statement in writing concerning any of the matters to be discussed. Persons desiring further information concerning this meeting or who wish to file written statements may contact Mr. John L. Spinks, Jr., Office of the Assistant Secretary of Interior for Fish and Wildlife and Parks, Washington, D.C., at 202 343–6767.

Minutes of the meeting will be available for public inspection 10 to 12 weeks after the meeting in Room 3153, Interior Building, Washington, D.C., and in the Superintendent's Office, Yellowstone Park Headquarters.

Dated: August 19, 1976.

JOHN L. SPINKS, JR.,
Special Assistant to the Assistant Secretary for Fish and Wildlife and Parks.

TASK FORCE ON THE AVAILABILITY OF FEDERALLY-OWNED MINERAL LANDS

Change of Location of Public Hearings

Notice is hereby given that the location of the public hearings being held by the Department of the Interior's Task Force on the Availability of Federally-Owned Mineral Lands, September 15 and 16 at 9 a.m., has been changed from the Department of the Interior's South auditorium to the auditorium of the Main Interior Building at 18th and C Streets, NW.

Hearings in Salt Lake City, Utah, September 8 and 9, will be held at the Salt Palace, as originally scheduled.

DENNIS SACHS,
Chairman,
Deputy Assistant Secretary.

AUGUST 18, 1976.

DEPARTMENT OF AGRICULTURE

Forest Service

BOULDER PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Boulder Planning Unit, Forest Service Report Number USDA–FS–R1–04–DES–Adm R1–76–22.

The environmental statement concerns a proposed land use plan for Boulder Planning Unit, Boundary County, Idaho. Approximately 68,000 acres are included in the planning unit of which 55,640 acres are National Forest land. This plan allocates resources and specifies land use prescriptions for National Forest land only. Resource information for lands in other ownership is also included for owners/managers to use as they wish.

With the exception of State or private holdings generally located along the north and west boundaries of the planning unit, most of the National Forest ownership is contiguous. The proposed plan would emphasize timber management for three of the five management units, big game winter range for a fourth, and wildlife and recreation values for a fifth. Critical grizzly bear habitat, which occurs in two management units, would not be developed.

Sizeable undeveloped areas exist within and contiguous to the Boulder unit. Planning processes for this unit included a wilderness evaluation of this total undeveloped acreage. Under the proposed plan for Boulder no portion of the undeveloped areas within this unit would be studied for possible inclusion in the National Wilderness Preservation System. However, much of the unit's currently undeveloped areas, 24,120 acres out of a possible 39,800, would remain in an undeveloped state.

This draft environmental statement was transmitted to CEQ on August 18, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA Forest Service, Northern Region, Federal Building, Missoula, MT 59801.
USDA Forest Service, Idaho Panhandle National Forests, P.O. Box 310, Coeur d' Alene, ID 83814.

V41166
AUG 25 76
UMI

USDA Forest Service, Bonners Ferry Ranger District, Route No. 1, Box 390, Bonners Ferry, ID 83805.

A limited number of single copies are available upon request to Forest Supervisor Ralph Kizer, Idaho Panhandle National Forests, P.O. Box 310, Coeur d' Alene, ID 83814.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Ralph Kizer, Idaho Panhandle National Forests, P.O. Box 310, Coeur d' Alene, ID 83814.

Comments must be received by October 18, 1976 in order to be considered in the preparation of the final environmental statement.

RALPH D. KIZER,
Forest Supervisor.

AUGUST 18, 1976.

[FR Doc.76-24888 Filed 8-24-76;8:45 am]

SOUTH FOURCHE UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2) (C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the South Fourche Planning Unit, Ouachita National Forest, Arkansas, USDA-FS-R8-DES (Adm.)-76-08.

This environmental statement concerns the proposed management direction and resource allocation for the South Fourche Unit, Ouachita National Forest.

This draft environmental statement was transmitted to CEQ on August 16, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, 1720 Peachtree Road, NW., Room 804, Atlanta, Georgia 30309.
USDA, Forest Service, Ouachita National Forest, P.O. Box 1270, Federal Building, Hot Springs, Arkansas 71901.

A limited number of single copies are available upon request to Alvis Z. Owen, Forest Supervisor, Ouachita National Forest, P.O. Box 1270, Federal Building, Hot Springs, Arkansas 71901.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Alvis Z. Owen, Forest Supervisor, Ouachita National Forest, P.O. Box 1270, Federal Building, Hot Springs, Arkansas 71901. Comments must be received by October 16, 1976 in order to be considered in the preparation of the final environmental statement.

ALVIS Z. OWEN,
Forest Supervisor.

AUGUST 16, 1976.

THOMPSON CREEK LAND USE PLAN FOR THE WHITE RIVER NATIONAL FOREST

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Thompson Creek Land Use Plan for the White River National Forest. The Forest Service report number is USDA-FS-R2-FES (Adm) FY-76-12.

The environmental statement concerns a proposal to revise the existing multiple use plan for the Thompson Creek area of the White River National Forest.

This draft environmental statement was transmitted to CEQ on August 18, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA Forest Service, So. Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW, Washington, D.C. 20250.
USDA, Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Denver, Colorado 80225.
USDA, Forest Service, White River National Forest, Old Federal Building, P.O. 948, Glenwood Springs, CO 81601.
USDA, Forest Service, Sopris Ranger District, Main & Weant, P.O. Box 248, Carbondale, CO 81623.

A limited number of single copies are available upon request to Thomas C. Evans, Forest Supervisor, White River National Forest, P.O. Box 948, Glenwood Springs, Colorado 81601.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Thomas C. Evans, Forest Supervisor, White River National Forest, P.O. Box 948, Glenwood Springs, Colorado 81601. Comments must be received by October 18, 1976, in order to be considered in the preparation of the final environmental statement.

JOHN C. SMITH,
Acting Forest Supervisor.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

LICENSING PROCEDURES SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee will be held on Tuesday, September 14, 1976, at 9 a.m. in Room 1096, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App.. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee was initially established on February 4, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this Subcommittee, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer systems, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Licensing Procedures Subcommittee was formed to review the procedural aspects of export license applications within the Office of Export Administration and recommend areas where improvements can be made.

The agenda for the meeting is:

(1) Opening remarks by the Subcommittee Chairman.

(2) Presentation of papers or comments by the public.

(3) Status review of parameters format.

(4) Presentation by Donald Sackman: Administrative information system/industry certification.

The meeting will be open for public observation and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any ime before or after the meeting.

Copies of the minutes of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington D.C. 20230, telephone: A/C 202-377-4196.

Dated: August 20, 1976.

LAWRENCE J. BRADY,
Acting Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

[FR Doc.76-24910 Filed 8-24-76;8:45 am]

PRESIDENT'S EXPORT COUNCIL

Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C., App. I, (Supp IV, 1974), notice is hereby given that a meeting of the President's Export Council Task Force on Export Promotion will be held on September 16, 1976 from 9 a.m. to 4:30 p.m. in Conference Room 3817 of the U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, D.C. 20230.

The Council Task Force was established in accordance with the provisions of Executive Order 11753 of December 20, 1973 (38 FR 34983) and the Federal Advisory Committee Act. The objectives of the Task Force will be that of reviewing export promotion programs and activities of the Department of Commerce and developing recommendations, including proposals for new programs, in this area for Export Council consideration.

The purpose of this meeting will be to receive the recommendations of the Task Force sub-groups on Data Collection, Communicating with Exporters and Communicating with Customers of Exporters and initiate the preparation of the Task Force report to the Export Council.

The meeting is open to the public and approximately 10 seats will be available on a first-come, first-served basis. Inquiries may be addressed to Mr. Frederich R. Crupe, Executive Secretary of the President's Export Council, U.S. Department of Commerce, Domestic and International Business Administration, Bureau of International Commerce, Washington, D.C. 20230 (telephone 202-377-2373).

Copies of minutes of the meeting will be available on request.

Any member of the public who wishes to file a written statement with the Task Force may do so before or after the meeting.

Dated: August 19, 1976.

ROBERT G. SHAW,
Acting Deputy Assistant Secretary for International Commerce.

[FR Doc.76-24853 Filed 8-24-76;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 76N-0303; DESI 8564]

HIGH MOLECULAR WEIGHT DEXTRAN 6 PERCENT

Withdrawal of Approval of New Drug Applications

In a notice (DESI 8564; Docket No. FDC-D-333 (now Docket No. 76N-0303)) published in the FEDERAL REGISTER of May 27, 1971 (36 FR 9670), the Commissioner of Food and Drugs offered an opportunity for hearing on his proposal to issue an order withdrawing approval of the following drug products containing dextran, which is used as a blood volume expander. Approval is now being withdrawn, effective September 7, 1976.

NDA 11-951; 6 Percent Dextran; Cooper Laboratories, Inc., 1259 Route 46, Parsippany, NJ 07054.

NDA 9-310; Plasran 6 Percent; Mead Johnson Laboratories, Division of Mead Johnson & Co., 2404 Pennsylvania St., Evansville, IN 47721.

NDA 8-858; Dextran Injection 6 Percent; Merrell-National Laboratories, Division of Richardson-Merrell, Inc., 110 E. Amity Rd., Cincinnati, OH 45215.

The basis of the proposed action was that here was lack of substantial evidence that the drug products are effective for certain of their labeled claims, and that the applications had not been supplemented to remove the less-than-effective claims from the labeling.

Neither the holders of the new drug applications nor any other person filed a written appearance of election as provided by the notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 5.31), finds that, on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, pursuant to the foregoing finding, approval of new drug applications Nos. 8-858, 9-310, and 11-951 and all amendments and supplements applying thereto, is withdrawn effective September 7, 1976.

Shipment in interstate commerce of the above listed products or of any identical, related, or similar products, not the subject of an approved new drug application, will then be unlawful.

Dated: August 16, 1976.

CARL M. LEVENTHAL,
Acting Director, Bureau of Drugs.

[FR Doc.76-24846 Filed 8-24-76;8:45 am]

MEDICAL DEVICE CLASSIFICATION PANELS

Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), the Food and Drug Administration announces the formal establishment by the Commissioner of Food and Drugs on August 9, 1976, of the following medical device classification panels specifically authorized by the Medical Device Amendments of 1976 (Pub. L. 94-295, 90 Stat. 539-583) which amended the Federal Food, Drug, and Cosmetic Act ("the act"):

Anesthesiology Device Classification Panel.
Cardiovascular Device Classification Panel.
Dental Device Classification Panel.
Ear, Nose, and Throat Device Classification Panel.
Gastroenterological and Urological Device Classification Panel.
General and Plastic Surgery Device Classification Panel.
General Hospital and Personal Use Device Classification Panel.
Neurological Device Classification Panel.
Obstetrical and Gynecological Device Classification Panel.
Ophthalmic Device Classification Panel.
Orthopedic Device Classification Panel.
Physical Medicine Device Classification Panel.
Radiological Device Classification Panel.

The function of these panels is to review and evaluate data concerning the safety and effectiveness of medical devices currently in use and to advise the Commissioner regarding recommended classification of these devices into one of three regulatory categories; recommend the assignment of a priority for the application of regulatory requirements for devices classified in the standards or premarket approval category; advise on any possible risk to health associated with the use of devices; advise on formulation of product development protocols and review premarket approval applications for those devices classified in the premarket approval category; review classification of devices to recommend changes in classification as appropriate; recommend exemption of certain devices from the application of portions of the

V 41 1166
AUG 25 76
UMI

act; advise on the necessity to ban a device; and respond to requests from the agency to review and to make recommendations on specific issues or problems concerning the safety and effectiveness of devices.

These panels are exempt from section 14 of the Federal Advisory Committee Act as stated in section 513(b)(1) of the act (21 U.S.C. 360c(b)(1)), and these charters will remain in effect until amended or terminated by the Commissioner.

These newly established panels supersede the following device review panels listed with their dates of establishment:

Panel on Review of Anesthesiology Devices, established on October 3, 1972;
Panel on Review of Cardiovascular Devices, established on March 22, 1972;
Panel on Review of Dental Devices, established on October 3, 1972;
Panel on Review of Ear, Nose, and Throat Devices, established on October 15, 1973;
Panel on Review of Gastroenterological and Urological Devices, established on April 16, 1973;
Panel on Review of General and Plastic Surgery Devices, established on October 15, 1973;
Panel on Review of General Hospital and Personal Use Devices, established on October 15, 1973;
Panel on Review of Neurological Devices, established on October 15, 1973;
Panel on Review of Obstetrical and Gynecological Devices, established on April 16, 1973;
Panel on Review of Ophthalmic Devices, established on October 15, 1973;
Panel on Review of Orthopedic Devices, established on April 25, 1972;
Panel on Review of Physical Medicine (Physiatry) Devices, established on October 15, 1973;
Panel on Review of Radiological Devices, established on October 15, 1973.

Dated: August 20, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-24850 Filed 8-24-76;8:45 am]

MEDICAL DEVICE CLASSIFICATION PANELS

Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), the Food and Drug Administration announces the formal establishment by the Commissioner of Food and Drugs on August 10, 1976, of the following medical device classification panels specifically authorized by the Medical Device Amendments of 1976 (Pub. L. 94-295, 90 Stat. 539-583) which amended the Federal Food, Drug, and Cosmetic Act ("the act"):

Clinical Chemistry Device Classification Panel.
Clinical Toxicology Device Classification Panel.
Hematology Device Classification Panel.
Immunology Device Classification Panel.
Microbiology Device Classification Panel.
Pathology Device Classification Panel.

The function of these panels is to review and evaluate data concerning the safety and effectiveness of medical devices currently in use and to advise the Commissioner regarding recommended classification of these devices into one of three regulatory categories; recommend the assignment of a priority for the application of regulatory requirements for devices classified in the standards or premarket approval category; advise on any possible risk to health associated with the use of devices; advise on formulation of product development protocols and review premarket approval category; review classification of devices to recommend changes in classification as appropriate; recommend exemption of certain devices from the application of portions of the act; advise on the necessity to ban a device; and respond to requests from the agency to review and to make recommendations on specific issues or problems concerning the safety and effectivenes of devices.

These panels are exempt from section 14 of the Federal Advisory Committee Act as stated in section 513(b)(1) of the act (21 U.S.C. 360c(b)(1)), and these charters will remain in effect until amended or terminated by the Commissioner.

Dated: August 20, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-24849 Filed 8-24-76;8:45 am]

[Docket No. 76N-0246; DESI 11730]

MEPERIDINE HYDROCHLORIDE AND PROMETHAZINE HYDROCHLORIDE INJECTION

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 11730; Docket No. FDC-D-440 (now Docket No. 76N-0246)) published in the FEDERAL REGISTER of July 11, 1972 (37 FR 13563), the Food and Drug Administration (FDA) announced its conclusions that the drug product described below is (1) effective as a preanesthetic medication and as an adjunct to local or general anesthesia; (2) possibly effective for the analgesic claims made for it (because of a lack of evidence that promethazine contributed to the analgesic effectiveness of meperidine) and for use as an antiemetic; and (3) lacking substantial evidence of effectiveness for its amnesic action. The notice also offered an opportunity for a hearing concerning the indication concluded at that time to lack substantial evidence of effectiveness. The FDA has reconsidered the information available with respect to the various analgesic claims for which the product was regarded as possibly effective and it is concluded that the drug is effective as an analgesic (and sedative) in preanesthetic medication. The manufacturer of the drug has deleted from the labeling all of the other possibly effective claims and the indication stated to lack substantial evidence of effectiveness. No person has submitted any data in support of the remaining possibly effective indications and those indications are now reclassified as lacking substantial evidence of effectiveness. This notice offers an opportunity for a hearing concerning those indications and sets forth the conditions for marketing the drug for the indications for which it continues to be regarded as effective. Persons who wish to request a hearing may do so on or before September 24, 1976.

The notice that follows does not pertain to the indication stated in the notice of July 11, 1972, to lack substantial evidence of effectiveness. No person requested a hearing concerning it and it is no longer allowable in labeling. Any such product labeled for that indication is subject to regulatory action.

NDA 11-730; Mepergan Injection containing meperidine hydrochloride and promethazine hydrochloride; Wyeth Laboratories, Inc., P.O. Box 8299, Philadelphia, PA 19101.

Wyeth Laboratories supplemented the new drug application to modify the effective indications, to state that the fixed combination was effective as a preanesthetic medication when both analgesia and sedation were indicated. The supplement was approved on June 11, 1973.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indications listed in the labeling conditions below. The drug now lacks substantial evidence of effectiveness for the indications evaluated as possibly effective in the notice of July 11, 1972.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in sterile aqueous solution form suitable for parenteral administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are as follows:

As a preanesthetic medication when analgesia and sedation are indicated. As an adjunct to local and general anesthesia.

3. *Marketing status.* a. Marketing of such drug product that is now the subject of an approved or effective new drug application may be continued provided that, on or before October 26, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), and 21 CFR 300.50, demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subjects to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before September 24, 1976, a written notice of appearance and request for hearing, and (2) on or before October 26, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 11730, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Neuropharmacological Drug Products (HFD-120), Rm. 10B-34, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Requests for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC-20), Rm. 4-65.

Requests for the report of the National Academy of Sciences—National Research Council: Data Preparation Branch (HFD-614), Division of Drug Information Resources, Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-101), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 16, 1976.

CARL M. LEVENTHAL,
Acting Director, Bureau of Drugs.

ILLINOIS; PROFESSIONAL STANDARDS REVIEW ORGANIZATION

Intention To Enter Into Agreement

Notice is hereby given, in accordance with section 1152(f) of the Social Security Act (42 USC 1320c-1(f)) and 42 CFR 101.104, that the Secretary of the Department of Health, Education, and Welfare proposes, subject to satisfactory completion of the contract negotiation process, and completion of required changes in the organizational structure and formal plan, to enter into an agreement with the Chicago Foundation for Medical Care for PSRO Area III, which area is designated a Professional Standards Review Organization area in 42 CFR 101.17.

The Secretary has determined that the Chicago Foundation for Medical Care is qualified to assume the duties and responsibilities of a Professional Standards Review Organization as specified in Title XI, Part B of the Social Security Act. The aforementioned organization is incorporated, according to the laws of the State of Illinois, as a nonprofit professional organization whose membership is voluntary and comprises at least 25 percentum of the licensed doctors of medicine or osteopathy engaged in active practice in PSRO Area III of the State of Illinois.

As stipulated in its Articles of Incorporation, the principal officers of the Chicago Foundation for Medical Care are:

NAME AND OFFICE HELD

1. Andrew J. Brislin, M.D., President.
2. Maynard I. Shapiro, M.D., Vice President.
3. Audley F. Connor, Jr., M.D., Treasurer.
4. Richard L. Jenson, D.O., Secretary.

The official address of the corporation is 10 South Riverside Plaza, Suite 1558, Chicago, Illinois 60606.

Any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area III of the State of Illinois who objects to the Secretary entering into an agreement with the Chicago Foundation for Medical Care, on the grounds that this organization is not representative of the doctors in such area may, on or before September 24, 1976, mail such objection in writing to the Secretary of the Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022. All such objections must include the physician's address, the location(s) of his office(s), his signature, and a certification that such physician is engaged in the active practice of medicine or osteopathy (i.e., direct patient care and related clinical activities, administrative duties in a medical facility, or other health related institutions, and/or medical or osteopathic teaching or research activity).

Pursuant to 42 CFR 101.103, the Secretary has determined that 11,657 doctors of medicine and/or osteopathy are engaged in active practice in PSRO Area III of the State of Illinois. In the event that more than 10 percentum of the doctors express objections as described in the preceding chapter, the Secretary will, in accordance with 42 CFR 101.106, conduct a poll of all such doctors of medicine or osteopathy in such area to determine whether the Chicago Foundation for Medical Care is representative of such doctors in the area; Provided that pursuant to section 108(b) of Pub. L. 94-182, the provisions of section 1152(f) (42 USC 1320c-1(f)), relating to notification and polling, as described above, shall not apply where: (1) The membership association or organziation representing the largest number of doctors of medicine in such area, or in the State in which such area is located if different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or (2) the organization proposed to be designated by the Secretary under Section 1152 of such Act has been negatively voted upon in accordance with the provisions of subsection (f)(2) thereof.

Office of Education

ADVISORY COUNCIL ON WOMEN'S EDUCATIONAL PROGRAMS

Meeting

Notice of public meeting of the Advisory Council on Women's Educational Programs.

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the Special Committee on Rural Women of the Advisory Council on Women's Educational Programs will be held from 9 a.m. to 5 p.m. September 10 and 11, 1976, at Mabry Hall of the State Department of Education, Don Gaspar Street, Santa Fe, New Mexico.

The Advisory Council on Women's Educational Programs is established pursuant to Pub. L. 93-380, section 408(f)(1). The Council is mandated to (a) advise the Commission with respect to general policy matters relating to the administration of the Women's Educational Equity Act of 1974; (b) advise and make recommendations to the Assistant Secretary concerning the improvement of educational equity for women; (c) make recommendations to the Commissioner with respect to the allocation of any funds pursuant to section 408 of Pub. L. 93-380, including criteria developed to insure an appropriate distribution of approved programs and projects throughout the Nation; and (d) develop criteria for the establishment of program priorities.

The meeting of the Special Committee on Rural Women will be open to the public. The agenda for the meeting will include (1) a public consultation session on educational equity for rural girls and women in the Southwest, from 9 a.m. to 5 p.m. on September 10 and from 9 a.m. to 3 p.m. on September 11; (2) a Committee discussion of the information gathered at the consultation session from 3 p.m. to 5 p.m. on September 11.

Records will be kept of all Council proceedings and will be available at the Council offices at Suite 821, 1832 M Street, NW., Washington, D.C.

Signed at Washington, D.C., on August 18, 1976.

JOY R. SIMONSON,
Executive Director.

[FR Doc.76-24913 Filed 8-24-76;8:45 am]

ASSISTANCE TO STATES FOR STATE EQUALIZATION PLANS

Closing Date for Receipt of State Plans and Applications for the Transition Quarter Appropriation

Notice is hereby given that, pursuant to the authority contained in section 842 of the Education Amendments of 1974 (20 U.S.C. 246), State plans or proposals to develop State plans for a program of financial assistance to local educational agencies to assist such agencies in the provision of free public education and applications for reimbursement for the development or administration of such plans or proposals are being accepted by the U.S. Office of Education, that a closing date has been set for the receipt of such plans or proposals and applications for reimbursement from the funds made available for section 842 by Pub. L. 94-303, approved June 1, 1976. In addition, a table of maximum reimbursement entitlements for States is contained in this Notice at paragraph C. The President, by message of July 28, 1976, has requested Congress to rescind the Transitional Quarter appropriation for this program. The Office of Education reaffirms the reasons stated in the President's rescission message as to why this program should not be funded. However, should these funds be available for obligation at the end of the rescission period, it will be necessary to be able to process applications in a timely manner in order to obligate funds by September 30, 1976.

A. *Submission of plans, proposals and reimbursement applications.* A State plan or proposal and a reimbursement application must be received by the U.S. Office of Education on or before September 24, 1976 in order to be considered for funding under the appropriation available for the period July 1, 1976 to September 30, 1976. A proposal to develop a State plan must be accompanied by a schedule of activities which will provide that the State plan developed pursuant to the proposal will be submitted to the Office of Education before July 1, 1977. States shall submit State plans and proposals under cover of a presentation in conformance with applicable regulations in Part 156, Title 45 of the Code of Federal Regulations.

(1) Plans, proposals and reimbursement applications sent by mail should be addressed as follows: U.S. Office of Education, Grant and Procurement Management Division, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202, Attention: 13.572. An application sent by mail will be considered to be received on time by the Application Control Center if:

(a) The plan, proposal, or reimbursement application was sent by registered or certified mail not later than September 20, 1976, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(b) The plan, proposal, or reimbursement application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail room in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

(2) A plan, proposal, or reimbursement application to be hand delivered must be taken to the Office of Education Application Control Center, Rm. 5673, Regional Office Building Three, 7th & D Streets, S.W., Washington, D.C. Hand delivered plans, proposals, or reimbursement applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m., Washington, D.C. time, except Saturdays, Sundays, or Federal holidays. Plans, proposals and reimbursement applications will not be accepted after 4:00 p.m. on September 24, 1976.

B. *Program information and forms.* Information and application forms may be obtained from the Bureau of Elementary and Secondary Education, U.S. Office of Education, 400 Maryland Avenue, SW., Washington, D.C. 20202.

C. *Table of maximum reimbursement entitlements.* Paragraph (c)(1) of section 842 of the Education Amendments of 1974 establishes a maximum reimbursement schedule for States in the development or administration of State plans meeting the statutory and regulatory requirements under that section. The schedule is based upon the ratio of the population of each State to the population of all the States, with the further limitation that no State shall receive less than $100,000 and no State shall receive more than $1,000,000. The following table sets forth the maximum amount that each State may be reimbursed, based upon appropriations sufficient to pay full entitlements. In the event that the funds appropriated for Section 842 for the period July 1, 1976 to September 30, 1976 are insufficient to satisfy the maximum reimbursement entitlements, as calculated under the provisions of 45 CFR 156.6(a), then the entitlements shall be calculated under the provisions of 45 CFR 156.6 (b), (c), and (d).

State	Amount
Alabama	$241, 739

Office of the Secretary

HOME HEALTH CARE

Public Hearings

This is a Notice to announce the plans of the Department of Health, Education, and Welfare to conduct a series of public hearings on issues in home health, and to encourage widespread participation by interested and knowledgeable individuals, public and private groups and organizations, and Federal, State, and local government agencies.

Date: Monday, September 20 and Tuesday, September 21, 1976.
Time: 9 a.m. to 6 p.m.
Place: Americana Hotel, 801 7th Ave. between 52nd and 53rd Streets, New York, New York.
Person to Contact: Mr. Robert O'Connell (212/264–3620), Department of Health, Education, and Welfare, Room 3835 Federal Building, 26 Federal Plaza, New York, N.Y. 10007.

Date: Tuesday, September 21 and Wednesday, September 22, 1976.
Time: 9 a.m. to 6 p.m.
Place: Cibola Inn, 1601 East Division, Arlington, Texas 76010.
Person to Contact: Mr. Jerry Stephens or Mr. Weldon Grundy (214/655–3338), Department of Health, Education, and Welfare, Room 1135, 1200 Main Tower, Dallas, Texas 75202.

Date: Wednesday, September 22 and Thursday, September 23, 1976.
Time: 9 a.m. to 6 p.m.
Place: Atlanta Hilton, Courtland and Harris Streets, Atlanta, Georgia.
Person to Contact: Mr. Joe Juska (404/526–5001), Department of Health, Education, and Welfare, Room 434, 50 Seventh Street, N.E., Atlanta, Georgia 30323.

Date: Thursday, September 23 and Friday, September 24, 1976.
Time: 9 a.m. to 6 p.m.
Place: Holiday Inn, 300 East Ohio Street, Chicago, Illinois.
Person to Contact: Ms. Arline Bredin (312/853–7801), Department of Health, Education, and Welfare, 35th Floor, 300 South Wacker Drive, Chicago, Illinois 60606.

Date: Thursday, September 30 and Friday, October 1, 1976.
Time: 9 a.m. to 6 p.m.
Place: Convention Center, 1201 South Figueroa, Room 217–A, Los Angeles, California.
Person to Contact: Mr. Allen Marer (415/556–1961), Department of Health, Education, and Welfare, Room 427 Federal Office Building, 50 United Nations Plaza, San Francisco, California 94102.

INSTRUCTIONS TO WITNESSES

Those individuals desiring to comment during a particular hearing should register prior to the meeting either by writing or telephoning the contact person in the city in which they wish to be heard, or they may register in person at the hearing room on either day of the hearing. Preference will be given to those who register in advance but efforts will also be made to hear those who register on either day of the hearing. Persons who register or who submit written comments should provide their name, address, telephone number and, if appropriate, the organization they represent. An organization will be permitted to make an oral presentation at only one of the five hearings. All speakers will be limited to five minutes of oral presentation.

Since the oral presentation for any one person will be limited, written comments are encouraged so that they may be introduced into the record of the hearings. In addition, those who will not be able to attend a hearing may submit written comments to the appropriate contact person no later than the second day of the hearing. It is requested that ten (10) copies of each set of written comments be furnished, but the furnishing of a lesser number of copies will in no way affect the consideration given. Equal consideration will be given to oral and written comments.

Transcripts of the hearings and materials submitted for each hearing will be available for public inspection in the Office of Public Affairs, Room 647D HEW Building (South Portal), 200 Independence Avenue, S.W., Washington, D.C. 20201, and in the Office of Public Affairs in each of the following Department of Health, Education and Welfare Regional Offices:

REGION I:

Room 2411, John F. Kennedy Federal Building, Government Center, Boston, Massachusetts 02203.

REGION II:

Room 3835, Federal Building, 26 Federal Plaza, New York, New York 10007.

REGION III:

Room 10400, 3535 Market Street, Philadelphia, Pennsylvania 19101.

REGION IV:

Room 434, 50 Seventh Street, NE., Atlanta, Georgia 30323.

REGION V:

35th Floor, 300 South Wacker Drive, Chicago, Illinois 60606.

REGION VI:

Room 1100, 1200 Main Tower Building, Dallas, Texas 75202.

REGION VII:

Room 612C, 601 East 12th Street, Kansas City, Missouri 64106.

REGION VIII:

10th Floor, 1961 Stout Street, Denver, Colorado 80202.

REGION IX:

Room 401, Federal Office Building, 50 United Nations Plaza, San Francisco, California 94102.

REGION X:

Room 6132, Arcade Plaza, 1321 Second Avenue, Seattle, Washington 98101.

PURPOSE OF THE HEARINGS

During the next year, the Department will give further consideration to several important issues in home health care and will take necessary action to modify Medicare (Title XVIII, Social Security Act) and Medicaid (Title XIX, Social Security Act) regulations and further develop Federal policy concerning home health services. Public participation and comment are vital to these Departmental efforts and such participation is invited early in the process.

The Department considers these hearings to be an essential step in the evolution of a more uniform, coordinated, and rational approach to the Federal financing of home health care. Public participation at this stage of the process will contribute to (1) the identification of specific local, State and national concerns regarding home health care, particularly as related to Federal financing efforts; (2) the further clarification of critical issues affecting the development of administrative, regulatory, and legislative approaches; and (3) an increased awareness and sensitivity on the part of the Department to the public's views in this area.

It should be noted that in this volume of the FEDERAL REGISTER, (FR Doc. 76–24915) final Medicaid regulations are issued by the Department, through the Social and Rehabilitation Service, to remove certain restrictions and ambiguities regarding persons eligible to receive home health services and to specify the types of services States must provide (i.e., nursing, home health aide, and supplies and equipment). Provisions related to increased participation by proprietary home health agencies and participation of single-service agencies, which were contained in the notice of proposed rule making of August 21, 1975 (40 CFR 36702), have been omitted from the final regulations and are included as issues for discussion at these hearings.

The hearings are expected to produce a report which will be transmitted to the Secretary (HEW) for use in determing the future direction of Departmental efforts in home health care. Other activities to be undertaken by the Department are: (1) The continuation of efforts to achieve greater uniformity between the Medicare and Medicaid programs, as exemplified by the publication of the revised Medicaid regulations on home health services; (2) the development of a plan for increasing public attention to the problems and issues surrounding home health care, and for fostering media participation in the discussion of the issues; (3) the conduct of in-depth analyses of home health issues, with particular attention to the impact of reimbursement procedures and regulatory requirements on the delivery and utilization of services; (4) the implementation and careful monitoring of HEW-supported home health projects; and, if necessary, (5) the development of legislative proposals covering desired programmatic improvements.

TOPICS FOR DISCUSSION

The Department seeks to determine its role in home health care as a part of the broader health care delivery system. In relation to this objective, the following issues are set forth as a general framework for the hearings, and should be viewed as a guide in the preparation of oral and written comments. Participants may choose to comment on as many of the issues as desired, and additional issues may be persented as well. Private citizens who wish to be heard, and who do not choose to speak to any one of the issues listed, are invited to comment on the basis of personal knowledge of, and experience with home health care.

In considering the issues listed below, the following working definition of home health care may be used: services of physicians, nurses, social workers, therapists, home health aides, and medical equipment and supplies, delivered to a patient in his place of residence.

1. *The Significance of Home Health Care.* 1.1 To what extent is home health care an effective alternative to inappropriate institutional care by: a) preventing or delaying institutionalization; b) allowing individuals to be discharged from an institution and still obtain necessary services; or c) providing a less costly alternative to inappropriate institutional care?

1.2 To what extent does home health care prevent illness, disability, and dependency, and promote, maintain or restore health (i.e. what is its effectiveness apart from its impact on institutionalization)?

1.3 What type of individual is more appropriately cared for through home health care?

2. *Community Need for Home Health Services.* 2.1 What is the extent of community need for home health services and other in-home support services such as transportation and escort services, friendly visiting, home-delivered meals, homemaker services, chore services, etc.?

2.2 What effective measures are there to determine a community's overall needs for home health services?

2.3 How can a community determine whether existing resources are adequate to meet those needs?

2.4 If significant unmet need for home health services exists, is this attributable to lack of eligible providers, restrictions on recipient eligibility or restrictions on services that are reimbursable?

2.5 If existing resources do not meet existing needs, what steps should be taken?

2.6 Are there barriers to the acceptance and continued use of home health services by the physician and other providers and by consumers? If so, what are they and how may they be surmounted?

3. *Eligibility for Care and Extent of Coverage under Titles XVIII (Medicare), XIX (Medicaid), and XX (Social Services).* 3.1 What health and support services should be included in the benefits under Titles XVIII, XIX and XX?

3.2 Should home health care be defined in terms of services or patient needs?

3.3 Should income criteria be used to determine eligibility for home health services? If so, what?

3.4 Should there be limitations regarding length of care and type of service? If so, what?

3.5 Should other limitations be placed on federally-financed home health services? If so, what?

3.6 What Federal programs should pay for which kinds of services?

3.7 Should benefits be assured for special groups, for example, the developmentally disabled, the mentally ill, the terminally ill, etc.? If so, how?

4. *Home Health Service Development.* 4.1 What are and should be the roles of Federal, State, and local governments and community agencies and organizations in the initial development, expansion, and operation of home health programs?

4.2 What are and should be the roles of Federal, State, and local governments in planning, and regulating in-home services (including home health services) through the Health Planning Act (Pub. L. 93–641) and other mechanisms?

4.3 What Federal, State, and local government statutory and regulatory restrictions on the development of in-home services (including home-health services) currently exist; and what is their impact?

4.4 What is the appropriate role for consumers in the planing and development of home health services?

4.5 Are there better ways to organize and finance home health and other long-term care services than the approaches currently in use?

4.6 Are there barriers to the acceptance, continued use, and financing of home health care from a local perspective? From a State or Federal perspective? If so, what can and should be done to eliminate these barriers?

5. *Home Health Services Delivery.* 5.1 What types of agencies should provide and be reimbursed for home health services (i.e., public, voluntary, private nonprofit, proprietary)?

5.2 What types of personel should provide home health services? How much supervision is needed and by whom? What licensure or certification requirements should be considered for home health personnel?

5.3 How can economy in the organization and distribution of home health resources, and efficiency in the delivery of home health services, be encouraged and maintained? What measures should be taken to contain costs?

5.4 How should home health agencies coordinate their services with other health care providers and existing social and support services in the community such as transportation, home-delivered meals, homemaker services, etc.?

5.5 What other alternatives to inappropriate institutional care should be developed (e.g., day care, day hospitals, etc.)?

5.6 What strategies should be employed to assure adequate coordination of resources and services at the local level, including ways to provide services to medically underserved populations in urban and rural areas?

5.7 How should statewide coordination of such services be attained?

6. *Quality Assurance.* 6.1 Are present health care and administrative standards for home health services delivery appropriate, enforceable and measureable in terms of outcomes of care; If not, how should they be modified;

6.2 What should be the role of mechanisms such as Profesional Standards Review Organizations, or Medical Review in determining the quality of home health services;

6.3 What mechanisms are there to prevent fraud and abuse in home health care?

6.4 Should licensure of home health agencies be considered as a means of assuring quality? If so, at what level should it be carried out?

6.5 Should accreditation of home health agencies be considered at this time? If so, by whom?

6.6 What difficulties do home health agencies participating in both Titles XVIII and XIX encounter in administering the program standards?

6.7 What need is there for basic and continuing technical, health professional and managerial training for all home health agency personnel?

7. *Reimbursement.* 7.1 Can and should reimbursement policies (e.g., those related to eligibility and benefits) be more consistent among all private and public third-party payors?

7.2 Should reimbursement be on a per visit, per diem, prospective, retrospective, or other basis?

7.3 What changes are needed in Federal reimbursement policies to contain costs? Do the policies and procedures of non-governmental reimbursement sources require modification? If so, what modifications?

7.4 Should in-home services under Title XX be mandated on a statewide basis to supplement Title XIX?

7.5 For purposes of Federal reimbursement, who should be permitted to authorize home health services (i.e. physicians, physician extenders, nurse practitioners, others)?

Dated: August 20, 1976.

WILLIAM A. MORRILL,
Acting Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[FDAA–518–DR; Docket No. N–76–623]

VERMONT

Amendment to Notice of Major Disaster

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary of Department of Housing and Urban Development Delegation of Authority, Docket No. D–74–285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on August 13, 1976, the President amended his major disaster declaration of August 5, 1976, as follows:

I hereby amend my August 5, 1976, declaration of a "major disaster" for the State of Vermont to read as follows:

I have determined that the damage in certain areas of the State of Vermont resulting from severe storms, high winds, and flooding, beginning about July 11, 1976, and from severe storms and flooding associated with Hurricane Belle, beginning about August 9, 1976, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93–288. I therefore declare that such a major disaster exists in the State of Vermont.

V 41 1166 AUG 25 76 UMI

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development, Delegation of Authority, Docket No. D–74–285, I hereby appoint Mr. E. Paul Hartzell, HUD Region I, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas of the State of Vermont to have been adversely affected by this declared major disaster:

The counties of:

Addison	Orange
Bennington	Orleans
Caledonia	Rutland
Chittenden	Washington
Franklin	Windham
Lamoille	Windsor

Dated: August 13, 1976.

Office of Interstate Land Sales Registration

[Docket No. N–76–616]

ALTO VILLAGE, ET AL.

Hearing

In the matter of: Alto Village, Lakeside Corporation and East Lakeside Corporation and Maurice H. Blaugrund, President and Director, OILSR No. 0–0425–36–10 (A–B), Docket No. 76–221–IS.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that:

1. Alto Village, Lakeside Corporation and East Lakeside Corporation and Maurice H. Blaugrund, President and Director, its officers and agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90–448) (15 U.S.C. 1701 et seq.) received a Notice of Proceedings and Opportunity for Hearing issued June 22, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 C.F.R. 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Alto Villages, located in Lincoln County, New Mexico, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received August 16, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d): *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on November 16 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before October 26, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 17, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[FR Doc.76–24858 Filed 8–24–76;8:45 am]

[Docket No. N–76–620]

CAMELOT, UNIT 1 ET AL.

Hearing

In the matter of: Camelot, Unit 1, Camelot of Ruidoso, Inc. and Karl N. Stephenson, President, OILSR NO. 0–3049–36–143, Docket No. 76–196–IS.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that:

1. Camelot, Unit 1, Camelot of Ruidoso, Inc. and Karl N. Stephenson, President, authorized agent and officers, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90–448) (15 U.S.C. 1701 et seq.) received a Notice of Proceedings and Opportunity for Hearing issued July 15, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 C.F.R. 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Camelot, Unit 1, located in Lincoln County, New Mexico, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received August 13, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d): *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washintgon, D.C., on November 1, 1976 at 2 p.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before October 4, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default in the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 19, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[FR Doc.76–24862 Filed 8–24–76;8:45 am]

[Docket No. N–76–618]

EMERALD LAKES, ET AL.

Hearing

In the matter of: Emerald Lakes, James B. Rabold, President and Unidel Corporation, OILSR NO. 0–0258–44–8 and (A–H), Docket No. 76–205–IS.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that:

1. Emerald Lakes, James B. Rabold, President, and United Corporation, authorized agent and officers, hereinafter referred to as "Respondent", being subject to the provisions of Interstate Land Sales Full Disclosure Act (Pub. L. 9–448) (15 U.S.C. 1701 et seq.) received a Notice of Proceedings and Opportunity for Hearing issued July 27, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property for Emerald Lakes, located in Pennsylvania, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received August 9, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d): *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on September 27, 1976 at 2 p.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before August 30, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

Dated: August 19, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[FR Doc.76–24860 Filed 8–24–76;8:45 am]

[Docket No. N–76–621]

GLENDALE YEAROUND, ET AL.

Hearing

In the matter of: Glendale Yearound, The Glendale Corporation and Ludwig Rudel, President, OILSR No. 0–1752–44–84 and (A–C), Docket No. 76–173–IS.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that:

1. Glendale Yearound, The Glendale Corporation and Ludwig Rudel, President, authorized agent and officers, hereinafter referred to as "Respondent", being subject to the provisions of Interstate Land Sales Full Disclosure Act (Pub. L. 9–448) (15 U.S.C. 1701 et seq.) received a Notice of Proceedings and Opportunity for Hearing issued June 23, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1745(b) (1) and 1720. 125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property for Glendale Yearound, located in Pennsylvania, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received August 12, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d): *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 71456, Department of HUD, 451 7th Street, SW., Washington, D.C., on October 1, 1976 at 2 p.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before September 3, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 19, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[Docket No. N–76–617]

GREENWOOD ACRES, ET AL.

Hearing

In the matter of: Greenwood Acres, Sincavage Lumber Company and William Sincavage, President, OILSR NO. 0–2360–44–143, Docket No. 76–211–IS.

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(b) Notice is hereby given that:

1. Greenwood Acres, Sincavage Lumber Company and William Sincavage, President, authorized agent and officers, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90–448) (15 U.S.C. 1701 et seq.) received a Notice of Proceedings and Opportunity for Hearing issued June 22, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Greenwood Acres, located in Pennsylvania, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received August 12, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d): *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on November 10, 1976 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before October 20, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: August 17, 1976.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

CIVIL AERONAUTICS BOARD

[Dockets 29490, 29500, 29565, 29567, 29569; Order 76-8-111]

PAN AMERICAN WORLD AIRWAYS, INC. AND TRANS WORLD AIRLINES, INC.

Tariffs Containing New Air Fares Over the North Atlantic; Order of Deferral

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of August, 1976.

On June 28, 1976 and July 22, 1976, Trans World Airlines, Inc. (TWA) and Pan American World Airways, Inc. (Pan American), respectively, filed tariffs establishing new transatlantic air fares for transportation commencing November 1, 1976.[1] Complaints against the TWA proposal have been filed by Pan American, the member carriers of the National Air Carrier Association (NACA), and the Department of Transportation (DOT). All of the complainants have requested that the tariffs be suspended and investigated. TWA filed a consolidated answer to the complaints. Complaints against the Pan American proposal have been filed by TWA, National Airlines, Inc. (National), NACA, and DOT. Pan American has filed an answer.

TWA's Proposal

TWA's proposal would increase first-class fares; establish a single-factor, year-around normal economy-class fare; consolidate the present 14/21-day and 22/45-day excursion fares into a 14/45-day excursion fare with 2 stopovers available at $25 each; retain the present APEX fares but with more liberal conditions; and introduce at the APEX levels a new advance-purchase inclusive-tour fare (APIT) available for 14/21 day travel during the peak season and 7/21 days during the basic (off-peak) season. All group fares—affinity, incentive, and inclusive-tour group fares as well as youth fares—would expire under their own terms effective October 31, 1976. TWA's proposed fare levels and related conditions are detailed in the attachment.[2]

In support of its filing TWA states that its proposal represents a basis for resolving the present impasse in IATA fare negotiations while at the same time providing the traveling public with low-cost scheduled-service fares totally free of group requirements. TWA alleges that reducing the number of fares and the complexity of the fare structure will better enable the individual traveler to comprehend his fare options and to choose the fare that most adequately fills his needs; will eliminate unneeded and uneconomic fares; and, along with some upward adjustment in fare levels, will assist TWA to realize a profitable scheduled-service operation. TWA estimates a pre-tax profit of $5.3 million with the proposed structure versus an $18.6 million loss if the present structure is continued. The carrier estimates a return on investment of 6.7 percent under the proposal versus a negative 3.4 percent under status quo fares. Under both fare assumptions, load factors are expected to improve over the historical 1975 results of 53.6 percent to 57.4 percent under present fares and to 58.7 percent under the proposed fares.

As noted previously all of the complainants request suspension and investigation of TWA's proposal. Pan American, while endorsing TWA's objectives, contends the fare structure will not result in revenue improvement. Pan American argues that the levels for the APEX and the APIT fares are unnecessarily low and that TWA's projected increases in normal economy-fare traffic are unrealistic. The DOT commends TWA for its efforts to revise the structure; however, it alleges that TWA has failed to provide data which is critical to an evaluation of its proposal and that additional supporting data must be submitted.[3] In the event the data required to justify the proposal are not provided, the tariffs should be suspended. NACA alleges that the tariffs should be suspended because the normal economy-fare levels are unreasonably high while the APIT and APEX fares are unreasonably low.

In its consolidated answer TWA avers that NACA's contentions, that TWA's proposal would reduce discount fares and that the proposed normal-promotional fare differentials are improper, are false; that the problems raised by DOT cannot be solved now and that TWA's justification is adequate; and that Pan American fails to show that TWA's proposal will not improve revenues and fails to give any other reason for suspension.

Pan American's Proposal

Pan American would increase first-class fares; establish a single-factor, year-around normal economy fare with limited free stopovers and a weekend surcharge; and provide three 14/45-day excursion fares, with no stopovers, at various levels depending on the time of purchase—no advance purchase, 30 days, and 60 days. In addition, Pan American would extend the peak season from three to four months. As with TWA's filing Pan American proposes elimination of all group and youth fares. The proposed fares and related conditions are shown in the attachment.[4]

In support of its filing, Pan American alleges that its proposal presents a logical and simple structure, easily marketable and understandable by sellers and purchasers of air transportation alike; that the structure would be at a compensatory level under prevailing regulatory standards; and that it would enable carriers, after years of unsatisfactory financial results, to offer their services on a reasonably compensatory basis. Pan American forecasts that with status quo fares, its operating profit would be $17 million and its net income would be $3 million producing a rate of return on investment of 6 percent with a 56 percent passenger load factor. The proposed package, Pan American alleges, would increase operating profit to $46 million and improve net income to $19 million for a 12 percent rate of return with a 52 percent seat factor.[5]

Insofar as the proposed scheduled-service fare structure is concerned, NACA's complaint is directed to Pan American's proposed normal economy fares which it alleges are unreasonably high, unjustly discriminatory, and unlawful, and which should be suspended pending investigation. TWA requests suspension on the grounds that the promotional fares proposed are not set at low enough levels and as a consequence significant diversion of scheduled-service traffic to charter services will occur. Comparing Pan American's proposal with its own, TWA estimates that the Pan American fare structure (including the charter-transfer facility) would have the effect of reducing passengers by 16 percent and revenues by 9 percent. A similar comparison with status quo fares, TWA alleges, would reduce passengers by 14 percent and revenues by 3 percent. National objects to Pan American's proposal on the grounds that it does not contain an attractive, low-cost, individual promotional fare. DOT generally supports the various requests for suspension and investigation.

In its consolidated answer, Pan American alleges, in response to the NACA complaint, that at most there is a 9.5 percent variance between total economic costs including a 12 percent return on investment and its proposed normal economy fares and that its proposal will not complicate the fare structure as alleged by TWA.

Upon consideration of the carriers' tariff filings and their justifications in support of those filings, the complaints, answers, and all other relevant matters, we have decided to take no action with respect to the tariff filings at this time. Our action herein is not to be construed as a final action on North Atlantic fare issues for the period after November 1, 1976, but rather an action of deferral in order that our views may be made known on both carrier proposals and with the expectation that additional U.S.-and foreign-carrier proposals will be considered within the IATA framework before a final proposal on North Atlantic fares for the period after November 1 will be submitted. Having in mind our statutory authority to take suspension action against these tariffs at any time in the future, we believe our present action is a proper course of action and that it accomplishes the objective sought by TWA which requests prompt consideration of its proposal to "provide the catalyst that is needed to bring about a sound IATA fare agreement for the transaltantic travel market."

Both Pan American and TWA are to be commended for their efforts to bring about a simplified fare structure, a structure easily understood by both buyers and sellers of air transportation and geared to individual rather than group sales, thus eliminating the potential for abuses which have long been associated with group fares. The present structure of nine distinct fares with varying conditions geared to age, group travel, inclusive tours, and affinity groups would be replaced with a total of five fares all geared to individual travel with charges for stopovers and with appropriate advance-purchase and penalty conditions on usage of the lowest-level fares. We favor the Pan American proposal insofar as it would more closely relate economy fares to costs by limiting the presently unlimited free stopovers to one free stopover in each direction. In addition, no stopovers would be permitted on Pan American's three 14/45-day excursion fares. On the other hand, TWA's 14/45-day excursion-fare proposal would permit 2 stopovers at $25 each, which does not appear unreasonable. Board fare-structure pronouncements have long called for movement in the direction of additional payment for more costly circuitous and broken-journey travel, and we are encouraged by this aspect of Pan American's and TWA's filings.

TWA proposes a 14-22/90-day advance-purchase excursion fare and a 7-14/21-day advance-purchase inclusive-tour fare (APIT). The latter fare, the APIT, has, in our view, the potential of significant diversion from higher-rated fares, especially in the basic season when the fare would be available for a 7- to 21-day duration and require only a 30-day advance purchase and a minimum ground package of only $100. We also have serious reservations about the potential for abuses associated with inclusive-tour fares and question the economic vability of this type fare because of the unresolved question of who puts the ground packages together and at what cost. In sum, while we tend to favor the Pan American structure of excursion fares, the Board would approve promotional fares which include charges for stopovers as TWA proposes as well as such fares with a prohibition on stopovers such as Pan American proposes. Much more economic detail as to the costs associated with TWA's advance-purchase inclusive-tour fare and its significant potential diversion from higher-rated fares would be required before we could consider approval.

Turning now to the proposed fare levels, we shall focus on the two proposals for normal economy fares and advance-purchase fares. By Order 76-6-180, June 18, 1976, the Board suspended tariffs of both Pan American and TWA which proposed increases to normal economy fares in varying amounts. Earlier, by Order 76-4-175, April 30, 1976, the Board disapproved an IATA agreement which would have increased normal fares in greater amounts than unilaterally proposed by the two carriers. The Board's disapprovals were based on the carriers' failure to demonstrate differences in the costs of transporting an economy-class passenger which warranted charging that passenger up to twice the amount charged certain promotional-fare passengers. The Board continues to believe that present normal economy-class-fare passengers pay fares well in excess of the costs of providing the service. In the instant case both Pan American and TWA propose to increase normal economy fares. TWA would charge a $700 round-trip, year-round fare, New York-London, compared with the $584, $626, and $764 currently in effect during the winter, shoulder, and peak seasons, respectively. Based on IATA's North Atlantic normal economy-class traffic distribution in 1974 the average fare to be charged, at today's levels, would equal $652—$48 be-

[1] Trans World Airlines, Inc., International Local and Joint Passenger Fares Tariff No. F-11, C.A.B. No. 305, issued June 28, 1975, and Passenger Fares Tariff No. PF-6, C.A.B. No. 70, Air Tariffs Corporation, Agent, issued July 22, 1976.

[2] Filed as part of original document.

[3] DOT filed a motion to submit a late-filed document which is hereby granted.

[4] Pan American also proposes to revise its charter rules and permit the carriage of charter groups on scheduled service. This proposal, called the "charter transfer facility" by Pan American, is being dealt with separately.

[5] Pan American's results include $5.6 million in revenue from charter transfer passengers and the reduction in passenger load factor results from altering its economy class seating configuration from 9 abreast to 10 abreast.

UMI

low TWA's proposal.[6] To Rome TWA proposes a normal economy fare of $934 which represents an increase of $77 over present average fares. While Pan American proposes a lesser increase than does TWA, ($674 vs. $700 New York-London round trip), the Pan American proposal represents potential increases even more severe than those proposed by TWA. First, TWA would retain the existing scheme of free stopovers and no weekend surcharges. On the other hand, Pan American, although proposing a New York-London level only $26 below TWA, would limit stopovers and would charge $15 each way for weekend travel.[7] Thus, both proposals would significantly increase normal economy fares which, in our view, are already set well above compensatory levels.

Two additional points warrant comment. Both Pan American and TWA propose a single year-round economy fare and two- rather than three-tier promotional-fare pricing. The Board has in the past approved the carriers' efforts to alleviate the problems of traffic peaking through differentiated seasonal pricing, and full justification from the carriers would be necessary before such a fundamental change could be accepted. Also, both carriers propose significant increases in first-class fares. We have no difficulty with the level of these fares *per se*. However, to the extent that efforts are made to continue to set the level of excess-baggage charges to first-class fares, and significant progress is not made in implementing our decision in Docket 24869, Baggage Allowance Tariff Rules in Overseas & Foreign Air Transportation, we very well might not be able to approve the increases.

The APEX fares proposed by Pan American are set at relatively high levels which indicate that carrier's obvious reliance on the "charter-transfer facility" (see fn. 3) as its lowest scheduled-service promotional fare. Were the charter-transfer facility not implemented, Pan American might well revise its APEX fare proposals. On the other hand, TWA's proposed advance-purchase fares appear abnormally low during the basic off-peak season especially considering the diversion possibilities from other higher-rated fares. In addition, TWA's limitation of use of the APIT and APEX fares to a maximum one-third of weekly economy seats over a given route does not sufficiently restrict usage of these fares. In its justification TWA expects 43 percent of its total passengers to avail themselves of these fares. This 43 percent is probably understated considering the passenger load factors projected. The levels of $325 to London and $402 to Rome during the basic season provide discounts significantly in excess of 50 percent from the proposed normal economy fares and their use would represent savings to the one-way passenger (who would otherwise be required to fly at a normal economy fare) of $25 to London and $65 to Rome. The undercut from normal economy round-trip fares would be twice that, or $50 to London and $130 to Rome. Even if the present normal economy fares were to be retained, TWA's proposed low fares during the basic season would not entirely correct this undercut situation although it would be significantly ameliorated. We further note that TWA's proposal represents only marginal increases over the present below-cost APEX fares to London and reductions from the present APEX fares to Rome.

Neither carrier has made any effort to demonstrate that the various fare levels contained in its proposal are cost-related. Rather each carrier estimates usage of each fare in its proposed structure to produce a bottom-line profit figure for comparison with what it expects with status quo fares. While we are unqualifiedly convinced that the fare structure can and should be simplified with fares geared to individual rather than group travel and with free stopovers curtailed, which both carriers are proposing, we are equally convinced that normal economy fares are already excessive in relation to cost and that promotional fares must be set at levels and must be adequately restricted so as to limit diversion and yield dilution and to insure that only truly generative promotional fares are included in the structure.

In view of the foregoing, we would expect the carriers to take steps to revise their tariff filings sufficiently well in advance of November 1, 1976 or to reach an early agreement within IATA which is acceptable and approved by the Board for implementation on November 1, 1976. In the event that no acceptable agreement is reached within IATA and the carriers do not refile tariffs more in line with our views herein, we will take whatever suspension or other action we may then deem appropriate.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 102, 204(a), 403, 404, 801, and 1002 thereof,

It is ordered, That: 1. Action be and hereby is deferred on the complaints filed by Pan American World Airways, Inc., the member carriers of the National Air Carrier Association, and the Department of Transportation in Dockets 29500 and 29490 requesting suspension and investigation of tariffs filed by Trans World Airlines, Inc. proposing transatlantic fares for sale beginning November 1, 1976;

2. Action be and hereby is deferred on the complaints filed by Trans World Airlines, Inc., the member carriers of the National Air Carrier Association, and National Airlines, Inc., and on the request of the Department of Transportation in Dockets 29565, 29567, and 29569, for suspension and investigation of tariffs filed by Pan American World Airways, Inc. proposing transatlantic air fares for sale beginning November 1, 1976; and

3. Copies of this order shall be served on Trans World Airlines, Inc., Pan American World Airways, Inc., National Airlines, Inc., the National Air Carrier Association, the Department of Transportation, and the International Air Transport Association.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-24905 Filed 8-24-76;8:45 am]

[Docket 29519; Order No. 76-8-109]

TRANS WORLD AIRLINES, INC. AND COMPAGNIE NATIONALE AIR FRANCE

Bulk Specific Commodity Rate; Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of August, 1976.

By Tariffs filed July 12, 1976 effective August 11, 1976, Trans World Airlines, Inc. (TWA) proposed to reduce from 61 cents to 57 cents per kilogram the specific commodity rate (SCR) for bulk carriage of horsefiesh (Item 0670), tendered in minimum-sized shipments of 5,000 kilograms, from New York to Paris. In addition, by tariffs filed July 28, 1976 for effect August 27, 1976, Compagnie Nationale Air France (Air France) has filed to meet TWA's horsefiesh rates citing arguments in support that are substantially similar to TWA's arguments set forth herein.[1] Seaboard World Airlines, Inc. (Seaboard) has filed a complaint requesting suspension and investigation of TWA's proposed revision.

In support of its filing, TWA contends that under present rates for horsefiesh, Montreal enjoys a 4-cents-per-pound (8-cents-per-kilogram) advantage over New York; that with single large-sized shipments such as horsefiesh,[2] small rate differentials can influence a shipper's routing; and that U.S. carriers are losing a considerable share of this traffic to carriers who move horsefiesh via Montreal using a combination of air-truck rates. TWA claims that reducing the present 4-cents differential to approximately 2 cents per pound will provide both a satisfactory alternative rate and service for U.S. shippers and an acceptable revenue return per pallet position for the carrier. The carrier estimates that, with this rate change, over 10 million pounds of a total 22 million pounds of horsefiesh now originating in the U.S. will move through U.S. gateway points rather than through Canadian gateway points.

In support of the reasonableness of the reduction, TWA claims that horsefiesh is so dense that the average per pallet return at the proposed rate would be greater than the average per pallet return both from horsefiesh carried in charter service and from average-density traffic carried in scheduled service. Thus, the carrier maintains that increased carriage of horsefiesh, used as filler traffic on scheduled service, can bring about better use of aircraft space since more pallet positions will be occupied, and can make a significant contribution to recovery of fully allocated costs per flight since fewer tons of higher-rated normal-density traffic would be needed.

In its complaint against the rate, Seaboard states that the reduction is contrary to past Board policy statements concerning undue carrier reliance on heavily discounted SCRs. In addition, while not arguing for a further rate reduction, Seaboard considers that TWA's proposal is senseless as it still leaves Montreal with a rate advantage, will generate no additional traffic, and will achieve nothing but dilution of TWA's revenue since it is clearly uneconomic based upon TWA's own cost data. Lastly, Seaboard contends that TWA has provided no support for its estimates of horsefiesh traffic that would be diverted to U.S. gateways from Canada under its proposed rate.

In its reply[3], TWA claims Seaboard's complaint is without merit and should be dismissed. The carrier reiterates its arguments concerning the diversionary and generative aspects of the present and proposed rates, and states that although the reduced rate approximates the present rate available at Boston, horsefiesh does not move through Boston due to inadequate freighter and/or wide-bodied capacity. The carrier further argues that Seaboard's charges that the reduced rate is uneconomic are invalid since Seaboard's conclusions were reached based on an analysis of yields and costs per ton-mile; that it is inappropriate to use cost/revenue per ton-mile to measure profitability when the per pallet and per plane-mile revenue can be determined; and that the reduced rate is economic.

Upon full consideration of the tariff filings, the carriers' justifications and reply, Seaboard's complaint, and all other relevant factors, the Board has determined to dismiss the complaint and permit the filings to become effective.

While TWA's arguments are not entirely persuasive and the question is close, the fact remains that there is a large 8-cents-per-kilogram differential between the New York-Paris and Montreal-Paris horsefiesh rates and that no carrier has disputed the allegation that movement of horsefiesh by air is extremely sensitive to differences in transportation costs. In view of all this, it is plausible that U.S. horsefiesh traffic has diverted to Montreal in significant quantities and that some adjustment in the New York rate is needed to regain a share of this traffic for U.S. carriers. TWA's reduction of this differential by half to 4 cents per kilogram falls short of fully equalizing the New York and Montreal rates, but appears to be a reasonable compromise which could aid in regaining some of the lost traffic to U.S. carriage, and could make some contribution to improved U.S. carrier economics.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a) and 1002 thereof,

It is ordered, That: 1. The complaint of Seaboard World Airlines, Inc. in Docket 29519 be and hereby is dismissed; and

2. The motion of Trans World Airlines, Inc. for leave of file an otherwise unauthorized document in Docket 29519 be and hereby is granted.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

FEDERAL COMMUNICATIONS COMMISSION

FM BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Notice is hereby given, pursuant to § 1.573(d) of the Commission's rules, that on October 4, 1976, the FM broadcast applications listed in the attached Appendix below will be considered as ready and available for processing. Pursuant to § 1.227(b)(1) and section 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list below or with any other application on file by the close of business on October 1, 1976, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on October 1, 1976. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix below by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.573(d) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any pending FM broadcast applications, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

Adopted: August 10, 1976.

Released: August 17, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[6] Of the total normal economy-fare passengers flying the North Atlantic in 1974, 35 percent, 35 percent, and 29 percent flew in the winter, shoulder, and peak seasons, respectively. The weighted average of such travel, based on present fares, is $652, New York-London round trip.

[7] We do not intend by this, however, to discourage Pan American's commendable movement to limit the number of stopovers which can be made at the normal economy fare without additional payment, and to charge for weekend travel to even out peaking.

[1] Trans World Airlines, Inc., Tariff C.A.B. 230, 16th Revised Page 69, and Air Tariffs Corporation, Agent, C.A.B. No. 50, 14th Revised Page 234.

[2] TWA states that its single horsefiesh shipments have ranged from 30,000 lbs. (13,609 kgs.) to 42,500 lbs. (19,278 kgs.) during the last few months and averaged 34,590 lbs. (15,690 kgs.) during 1975.

[3] TWA's reply was filed with a motion for leave to file an unauthorized document, which will be granted.

[FR Doc.76-24896 Filed 8-24-76;8:45 am]

[Docket No. 20824; File No. BPH-9300]

WILLIAM HENRY BRITT

Designating Application for Hearing on Stated Issues

In reference application of William Henry Britt, Lubbock, Texas, Docket No. 20824, File No. BPH-9300, Requests: 102.5 MHz, Channel 273; 29.15 kW; 436 feet; for construction permit.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it the above-captioned application of William Henry Britt (Britt) for a construction permit for a new commercial FM broadcast station at Lubbock, Texas.

2. Analysis of Britt's financial documentation indicates that he will require $85,663 to construct his proposed facility and operate for one year, itemized as follows:

Equipment	$15,876
Loan curtailments	5,843
Interest on loan	4,674
Miscellaneous	9,290
Working capital (1st-yr.)	49,980
Total	85,663

To meet this requirement, Britt intends to rely upon existing capital, a bank loan, and anticipated revenues. However, it does not appear that these funds are, in fact, available to him. Since Britt's balance sheet fails to segregate current liabilities from long-term liabilities, as required by the instructions in section III of the application (FCC Form 301), the staff has been unable to determine the amount of capital available. Although Britt has indicated his intention to apply for a bank loan from the Lubbock National Bank, he has submitted no letter of commitment from that bank nor from any other financial institution. Finally, Britt has not submitted any advertising commitments in support of his intent to rely upon anticipated revenues. Rather, he has submitted a letter from a Webster and Harris Advertising Agency of Lubbock stating that it would consider placement of advertising for its clients on Britt's proposed station. However, such a letter from an advertising agency in lieu of advertising commitments, as required by the instructions to section III of the application, is insufficient. Therefore, a financial issue will be specified.

3. In addition, Britt has failed to comply with the requirements of the "Primer on the Ascertainment of Community Problems by Broadcast Applicants", 27 FCC 2d 650, 21 RR 2d 1501 (1971). Based upon the information contained in Britt's demographic material, it does not appear that he has surveyed leaders of all significant groups within his proposed community of service. "Voice of Dixie, Inc.", 45 FCC 2d 1027, 29 RR 2d 1127 (1974). For example, Britt states that the "principal business opportunities in Lubbock county are centered around agricultural business," including farming and farm related industries (e.g., farm machinery, fertilizer, and related farm products.) However, Britt has consulted no agricultural leaders nor leaders of farm related industries. In addition to Britt's omission of agricultural leaders, he has also excluded industrial leaders, religious leaders, professional leaders, and leaders of students and youth despite the fact that Lubbock is the home of Texas Tech University, one of Texas' largest universities. Further, it does not appear that all of Britt's community leader consultations were conducted by principals or management-level employees, as required by question and answer 11(a) of the "Primer".

4. In his application, as amended, Britt has ascertained the existence of 13 community problems. However, his entire programming proposal in response to these problems consists of one 15-minute program entitled, "Twist the Action" which will be broadcast three times daily, three days per week. Britt's attempt to correlate one program with all of Lubbock's ascertained community problems and needs is so vague and overly general as to reflect but a token effort to comply with the requirements of the "Primer Southeast Arkansas Radio, Inc.," 47 FCC 2d 835, 30 RR 2d 769 (1974). Therefore, a "Suburban"[1] issue will be included.

5. Except as indicated by the issues specified below, the applicant is qualified to construct and operate as proposed. In view of the foregoing, however, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below.

6. Accordingly, *it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether William Henry Britt is financially qualified to construct and operate as proposed.

2. To determine the efforts made by William Henry Britt to ascertain the community needs and problems of the area to be served and the means by which the applicant proposes to meet those needs and problems.

3. To determine, pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience, and necessity.

7. *It is further ordered*, That, to avail himself of the opportunity to be heard, the applicant herein, pursuant to § 1.221 (c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

8. *It is further ordered*, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: August 9, 1976.

Released: August 17, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

INDEPENDENT OCEAN FREIGHT FORWARDER LICENSE

Applicants

Notice is hereby given that the following applicants have filed with the Federal Maritime Commission applications for licenses as independent ocean freight forwarders pursuant to section 44(a) of the Shipping Act, 1916, (Stat. 522 and 46 U.S.C. 841(b)).

Persons knowing of any reason why any of the following applicants should not receive a license are requested to communicate with the Director, Bureau of Certification and Licensing, Federal Maritime Commission, Washington, D.C. 20573.

Gladys C. Moreno, 215 SW. 17th Avenue, Miami, FL 33135.

Eui Man Kim, 147-30 38th Avenue, Apt. No. 1D, Flushing, NY 11354.

Air Sea Forwarding Corp., 115-52 Lefferts Blvd., Jamaica, NY 11420, Officers: Joseph Cacici, President/Treasurer, Donna M. Cacici, Vice Pres./Secretary, Bernard Mazzocchi, Vice Pres./Traffic, Ruth Loeffler, Vice Pres./Traffic.

Bratt International (Thomas W. Bratt, dba), 408 Waters Street, Baltimore, MD 21202.

FEDERAL POWER COMMISSION

[Project No. 271]

ARKANSAS POWER & LIGHT CO.

Order Granting Withdrawal of Application for Change in Land Rights and Vacating Order Providing for Hearing

AUGUST 18, 1976.

On October 30, 1972, Arkansas Power & Light Company (AP&L), licensee for the Carpenter and Remmel Project No. 271,[1] filed an application for change in land rights at Project No. 271. The application sought Commission approval of a proposed conveyance of 100 acres of Electric Island and 16.2 acres of Little Goat Island, both located in the project's Lake Hamilton reservoir, to the City of Hot Springs, Arkansas. The City in turn proposed to grant a 50 year lease for the two islands to a private individual, who planned extensive development of a resort/recreational complex. AP&L stated in its application that, following Commission approval of the conveyance, it would amend Exhibit R of its application for new license for Project No. 271, currently pending before the Commission, to reflect the proposed new recreational development at Electric and Little Goat Islands.

Before us now is a motion filed on April 7, 1976, by which AP&L seeks to withdraw the above-described application. For the reasons stated below, and subject to the conditions imposed by this order, we find it appropriate to grant AP&L's motion.

PROCEDURAL BACKGROUND

The confusing procedural background of the instant application dates back to February 4, 1970, when AP&L filed its application for new major license for Project No. 271.[2] Subsequently, AP&L filed a number of applications for change in land rights, including that which AP&L now seeks to withdraw. On September 10, 1973, the Commission issued three orders, which approved changes in land rights at Project No. 271 to allow the construction and maintenance of effluent outfall lines for a motel complex and two residential subdivision.[3]

In a fourth order issued on September 10, 1973, we expressed our concern with "the practice of allowing increased use of project lands and waters on a piecemeal basis rather than being related to a comprehensive consideration of the capacity of the project lands and waters to serve known and forseeable [sic] public uses * * *."[4] Pursuant to that concern, we noted the pending application for change in land rights involving the transfer of portions of Electric and Little Goat Islands to the City of Hot Springs, and referred that application to hearing with other existing applications for easements or other permission to utilize project lands and waters, so that they could be considered in light of a comprehensive analysis of the project lands and waters as a whole.

DISCUSSION

In support of its motion to withdraw the Electric and Little Goat Islands application, AP&L states that the time limits of its offer to donate the property to the City of Hot Springs have expired, and further, that the City has informed AP&L that financing for the proposed development is no longer feasible and, for the foreseeable future, cannot be obtained. In view of these allegations, and in view of the substantial opposition to the proposed development voiced by local citizens following public notice and the uncertain effect of such development on a fish hatchery maintained by the Arkansas Game and Fish Commission near Electric Island, we have no objection to withdrawal of the application.

In an order issued September 9, 1975, we considered an application for change in land rights at Project No. 271, filed subsequent to the order providing for hearing.[5] We decided that the original hearing order encompassed only applications involving project lands and waters then before the Commission, and that applications filed after September 10, 1973, would be considered in light of the underlying policy of the September 10, 1973 hearing order, to determine whether consolidation within the hearing is appropriate.

Aside from AP&L's application for new license, the only application filed prior to September 10, 1973, that will be left before the Commission following withdrawal of the Electric and Little Goat Islands proposal will be an application for approval of an easement filed on December 4, 1966. This application seeks approval of an easement granted by AP&L to the Union Carbide Corporation for placement of intake and outflow facilities to serve a vandium processing plant at Lake Catherine. The application proposes no additional construction, and

[1] Project No. 271 is located on the Ouachita River in Garland County, Arkansas, near the City of Hot Springs.

[2] The original license for Project No. 271 expired on February 6, 1973. Since that time, the project has been maintained and operated under annual licenses.

[3] Orders Approving Change in Land Rights, Arkansas Power and Light Co., Project No. 271, 50 F.P.C. 687, 692, 695 (1973).

[4] Order Providing for Hearing, Arkansas Power and Light Co., Project No. 271, issued September 10, 1973, slip op. at 1 (unreported).

[5] Order Denying Motion for Severance and Granting Application for Easement, Arkansas Power & Light Co., Project No. 271, issued September 9, 1975, slip op. at 1, 54 F.P.C. ---- (1975).

V 41 166 AUG 25 76 UMI

therefore is not within the ambit of the concern which prompted our hearing order in this proceeding. Accordingly, with the withdrawal of the Electric and Little Goat Islands application there being no applications for change in land rights for which a hearing on comprehensive uses of project lands and waters might be held, we find it appropriate to vacate the Order Providing for Hearing of September 10, 1973. The intent of that Order, however, remains our policy respecting the use of project lands and waters in relation to a comprehensive consideration of their capacity to serve known and foreseeable public uses. To this extent, any future applications which might result in intensified use of the project's resources will be evaluated from a comprehensive resource utilization perspective. We reserve the right, also, to provide for hearing on AP&L's application for new license or on any future applications that come before us, should a hearing be found necessary or appropriate.

In Exhibit R of its application for new license for Project No. 271, AP&L stated that its proposed plans for project recreation included development of Electric Island; in fact, according to the application, "Electric Island is the largest single projected recreational development of the project." The application that AP&L now withdraws included the detailed proposal for development of Electric Island. This being so, we believe that AP&L should reassess its Exhibit R to consider what, if any, recreational development at the project should be proposed in lieu of the development proposed in the withdrawn application. If appropriate, AP&L should then file a revision to the pending Exhibit R.

The Commission finds: (1) It is appropriate for purposes of the Federal Power Act and in the public interest to grant the motion of Arkansas Power & Light Company to withdraw the application for change in land rights, which application was filed on October 30, 1972, and proposed to convey 100 acres of Electric Island and 16.2 acres of Little Goat Island, located in Lake Hamilton, to the City of Hot Springs, as hereinafter provided.

(2) It is appropriate for purposes of the Federal Power Act to vacate the Order Providing for Hearing in this proceeding, issued September 10, 1973.

The Commission orders: (A) The motion of Arkansas Power & Light Company to withdraw its application for change in land rights, as described in paragraph (1), above, is hereby granted.

(B) Arkansas Power & Light Company shall reassess the pending Exhibit R of its application for new license for Project No. 271 to determine what, if any, alternative recreational development should be proposed in lieu of that which was proposed at Electric and Little Goat Islands by the withdrawn application and, if appropriate, shall file a revision to the Exhibit R to propose such alternative recreational development.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-151]

DELMARVA POWER & LIGHT CO.

Order Granting Amendment to Motion To Intervene and Extending Procedural Dates

AUGUST 17, 1976.

On September 29, 1975, Delmarva Power and Light Company and its subsidiaries (Delmarva) tendered for filing, pursuant to § 35.13(b)(4)(ii), proposed changes in the intercompany Power Supply Agreement. By order issued October 31, 1975, the Commission accepted for filing and suspended the proposed changes, established procedures, and allowed the intervention of the Public Service Commission of Maryland (Maryland). The Commission also granted intervention to the Public Service Commission of the State of Delaware (Delaware), the State Corporation Commission of the State of Virginia (Virginia), and the People's Counsel of the Maryland Public Service Commission (People's Coupsel) by separate orders dated December 4, 1975, December 18, 1975, and May 18, 1976, respectively.

On June 29, 1976, Delaware filed its direct evidentiary presentation[1] and an amended notice of intervention along with direct evidence relating to the new issues raised in the Amendment.[2] On July 8 and July 9, 1976, Maryland and Virginia, respectively, filed objections to Delaware's Amendment to Motion to Intervene and both requested that it be stricken along with Delaware's testimony relating thereto. In the alternative, both requested that the procedural dates in this proceeding be postponed to allow all parties an opportunity to prepare testimony on the issues raised by Delaware. Delmarva, on July 9, 1976, and staff, on July 14, 1976, filed responses to Delaware's motion.

Although all parties except staff basically objected to the amendment, their main concern involved the extension of procedural dates. All parties have filed their direct evidence and the hearing is now scheduled to begin on August 27, 1976.[3]

It is clear that the changes proposed in the Amendment have an impact upon the distribution of costs of Delmarva's generating and transmission plant among the three states. Although including these issues will mean that additional time will be required for the parties to file supplemental testimony thereby prolonging the case, it is more appropriate to include them in this docket than, as Delaware has stated in its reply, to institute "a new docket merely to raise these questions" which would result in "needless expense, delay, and, moreover, confusion" in the resolution of the questions raised by the initial petition.

After a careful review of the issues in this proceeding, we will grant the Amendment to the Motion to Intervene and extend the procedural dates as hereinafter ordered.

The Commission finds: (1) Good cause exists to grant the Public Service Commission of the State of Delaware's Amendment to its Motion to Intervene filed on June 29, 1976.

(2) Good cause exists to extend the procedural dates as hereinafter ordered.

The Commission orders: (A) The Public Service Commission of the State of Delaware's Amendment to its Motion to Intervene filed on June 29, 1976, is hereby granted.

(B) The procedural dates in the above matter are modified as follows:

Service of Company's Revised Case, August 26, 1976.
Service of Supplemental Intervenor Testimony, September 10, 1976.
Service of Supplemental Staff Testimony, September 24, 1976.
Service of Company Rebuttal, October 8, 1976.
Hearing, October 26, 1976.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-9453 and ER76-648]

DUKE POWER CO.

Order Adopting Settlement and Terminating Proceeding

AUGUST 17, 1976.

By order of June 18, 1975, we suspended the rate filing of Duke Power Company (Duke) in this proceeding. By order of May 27, 1976, we suspended Duke's filing of a revised schedule to its agreement with Yadkin, Inc., Docket No. ER76-648, and consolidated Docket Nos. E-9453 and ER76-648 since they involved "equivalent" rates. Settlement negotiations among Duke and the customers have ripened into an uncontested settlement, which was certified to us by the Administrative Law Judge on June 15, 1976. On July 16, 1976, the Commission staff filed comments on the settlement agreement favoring the settlement with one minor adjustment with regard to interest on leased nuclear fuel in Account 518. On July 30, 1976, Duke and the Joint Intervenors filed a joint response to the Commission staff's comments indicating their concurrence with staff's revision of the fuel adjustment clause provided the base cost of fuel were changed from .7923¢/kilowatt-hour to .8018¢/kilowatt-hour.

[1] Rate of return was the only issue raised in its original notice of intervention.

[2] The issues raised by Delaware in its Amendment include the overall rate of return, cost of money component, fixed charge rate, the return on production materials and supplies, construction work in progress with allowances for funds used during construction, renaming the Power Supply Agreement and treatment of the impact of depreciation on tax expense.

[3] Originally, the hearing was scheduled to begin on July 27, 1976. On July 21, 1976, Staff filed a motion to extend the procedural dates. This motion was granted on July 26, 1976.

Based on our review of the record in these proceedings, including the settlement agreement itself, the filings, documents and pleadings submitted, we conclude that the settlement agreement represents a reasonable resolution of the issues in the proceeding in the public interest, and that accordingly the settlement should be approved, subject to the above modification.

The Commission finds: The settlement agreement certified by the Presiding Judge to the Commission in this docket, should be approved and made effective, as hereinafter ordered.

The Commission orders: (A) The settlement agreement certified by the Presiding Judge in this docket on June 15, 1976, is hereby approved and made effective.

(B) Within 30 days from the date of this order, Duke shall file with the Commission revised rate schedule supplements applicable to the customers served in Docket Nos. E-9453 and ER76-648 in conformity with the terms of the settlement agreement approved herein. Duke's filing should include a revision of the fuel clause to make it consistent with the requirements of 18 CFR 35.14, with the base cost of fuel changed from .7923¢/kilowatt-hour to .8081¢/kilowatt-hour.

(C) This order is without prejudice to any findings or orders which have been made or which will hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its staff, or any party or person affected by this order, against Duke or any person or party.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP72-150 (Rate Design), RP73-104, RP74-57, and RP75-39]

EL PASO NATURAL GAS CO.

Filing of Stipulation and Agreement

AUGUST 17, 1976.

Take notice that on August 6, 1976, El Paso Natural Gas Company (El Paso) filed with the Commission a Stipulation and Agreement (Stipulation) which proposes to dispose of all issues in the above-captioned rate proceedings.

El Paso states that the Stipulation has the support of all parties to these proceedings, including the Commission's Staff, on all issues except three: (1) The rate design issue related to Rate Schedule A-1-X; (2) the rate treatment for payments made to owners of special overriding royalty interests; and (3) El Paso's proposal to supplement its Reserve for Exploration. El Paso states further that these three issues have been left for determination by the Commission following initial decision thereon by the Presiding Administrative Law Judge, and that the parties have agreed to briefing dates for the three issues.

Copies of the Stipulation are on file with the Commission and are available for public inspection. Any person desiring to comment on the matters contained therein should file such comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before August 27, 1976. Any reply comments should be filed on or before September 3, 1976.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24829 Filed 8-24-76;8:45 am]

[Docket No. ER76-830]

MISSISSIPPI POWER & LIGHT CO.

Tariff Change

AUGUST 17, 1976.

Take notice that Mississippi Power & Light Company on July 30, 1976, tendered for filing in accordance with Section 35.13 of the Commission's Regulations proposed changes in its FPC Electric Service Tariff to Electric Power Associations, FPC Rate Schedules No. 123, 124, 125 165, 166, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 181, 182, 184, 185, 186, 188, 189, 190, 191, 192, 194, 196, 197, 198, 199, 200, 201, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 216, 218, 219, 220, 222, 223, 224, 225, 226, 227, 231, 232, 233, 238 and to municipal electric utilities FPC Rate Schedules No. 39, 87, 88, 93, and 238. The proposed changes would increase revenues $3,406,000 based on the 12 months period ending December 31, 1976.

The Company states that the tariff changes requested are necessary to reflect its cost of service for the projected period. In support thereof the company states that it earned a rate of return of 7.58 percent on its sales for resale to electric power associations and 7.63 percent on its sales for resale to municipal electric utilities in the calendar year 1975, and that the projected rate of return under the present electric service tariff for the 12 months ending December 31, 1976, for sales for resale to the electric power associations is 7.24 percent and for sales to the municipal electric utilities is 7.22 percent.

The company is also requesting that construction work in progress (CWIP) be included in the rate base in the proceeding.

Copies of the filing were served upon the customers receiving services under the above listed FPC Rate Schedules and upon the Mississippi Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24830 Filed 8-24-76;8:45 am]

NATIONAL POWER SURVEY EXECUTIVE ADVISORY COMMITTEE AND COORDINATING COMMITTEE

Determination and Certification With Respect to Renewal

The Chairman of the Federal Power Commission has determined that renewal of the terms of the Executive Advisory Committee and the Coordinating Committee of the National Power Survey to a date not later than December 31, 1976, is necessary in the public interest in connection with the performance of duties imposed on the Commission by law.

The notice is published pursuant to Commission General Order No. 464, issued December 19, 1972, 38 FR 1083, as amended by Commission General Order No. 464-A, issued August 2, 1974, and authorities referred to therein, 39 FR 28929. See also Office of Management and Budget. Advisory Committee Management, Circular A-63, Revised, March 27, 1974, 30 FR 12389, as amended July 19, 1974.

The Executive Advisory Committee was established by Commission order, dated August 11, 1972, 37 FR 24213, and the Coordinating Committee by order, dated November 2, 1972, 37 FR 23868. These orders refer to the Commission order issued June 29, 1972, 37 FR 13380, which announced initiation of the National Power Survey, authorized formation of advisory committees, and established procedures therefor. By order issued December 19, 1972, 37 FR 28661, the Commission amended its earlier orders to conform with the requirements of the subsequently enacted Federal Advisory Committee Act, 86 Stat. 770.

The continued existence of these two committees is desirable during preparation of the Commission report. Specifically, the Executive Advisory Committee will be solicited for its views and comments regarding the staff report, while the Coordinating Committee is the remaining link between the Commission staff and technical advisory committees whose work, in some cases, may form the basis for Commission action; these technical advisory committees have expired.

The Commission continues or reestablishes these committees in accordance with the terms of this order, and the following Commission orders:

Order Authorizing the Establishment of National Power Survey Advisory Committees and Prescribing Procedures, issued June 29, 1972, 37 FR 13380.

V 41 166 AUG 25 76 UMI

Order Establishing National Power Survey Executive Advisory Committee and Designating Initial Membership and Chairmanship, issued August 11, 1972, 37 FR 24213.
Order Establishing National Power Survey Coordinating Committee and Designating Initial Membership and Chairmanship, issued November 2, 1972, 37 FR 23868.
Order Amending National Power Survey Orders issued December 19, 1972, 37 FR 28661.
General Order No. 464–A, issued August 2, 1974, 39 FR 28929.
Order Renewing National Power Survey Executive Advisory Committees, issued August 7, 1974, 39 FR 29233.
Order Renewing National Power Survey Coordinating Committee, issued January 13, 1975, 39 FR 3250.
Order Renewing National Power Survey Executive Advisory Committee and Coordinating Committee, issued June 3, 1976, 41 FR 23246.

By Notice of Determination and Certification with Respect to Renewal with Respect to Renewal of National Power Survey Advisory Committees, dated July 30, 1974, 39 FR 27608, the Chairman of this Commission has determined and certified that the renewal of the aforesaid advisory committees of the National Power Survey for the period set forth herein is necessary in the public interest in connection with the performance of duties imposed upon the Commission by law. The Office of Management and Budget, Advisory Committee Management, has ascertained that the renewal of the aforesaid advisory committees of the National Power Survey is in accord with the requirements of the Federal Advisory Committee Act, 86 Stat. 770, 773–4.

1. *Purposes.* The purposes of the Executive Advisory Committee of the National Power Survey, as renewed herein, are as set forth in the Commission's order of August 11, 1972, Paragraph 1, Purpose, and that Paragraph is hereby incorporated by reference herein. The purposes of the Coordinating Committee of the National Power Survey, as renewed herein, are as set forth in the Commission's order of November 2, 1972, Paragraph 1, Purpose, and that Paragraph is hereby incorporated by reference herein.

It is anticipated that the continuance of these National Power Survey Advisory Committees for the period ending December 31, 1976, will facilitate the conclusion of the Commission's work on the current phase of the continuing National Power Survey.

2. *Membership.* The Chairman, Secretary and other members of the Executive Advisory Committee, as selected by the Chairman of the Commission, with the approval of the Commission, are designated in the appendix below. The Chairman, coordinating representatives, secretaries and other members of the Coordinating Committee established herein, as selected by the Chairman of the Commission with the approval of the Commission, are designated in the appendix below.

3. *Selection of Future Committee Members.* All future Executive Advisory Committee members, and persons designated to act as Committee Chairmen shall be selected and designated by the Chairman of the Commission with the approval of the Commission: *Provided, however,* The Chairman of the Commission may select and designate additional persons to serve in the capacity of alternate secretary. All future Coordinating Committee members and persons designated to act as Committee chairmen, coordinating representatives, and secretaries shall be selected and designated by the Chairman of the Commission with the approval of the Commission: *Provided, however,* The Chairman of the Commission may select and designate additional persons to serve in the capacity of alternate secretary.

4. The following paragraphs of the Commission's order issued June 29, 1972, as amended by Commission order issued December 19, 1972, and by Order Further Amending National Power Survey Orders, August 7, 1974, are hereby incorporated by reference herein:

3. Conduct of Meeting.
4. Minutes and Records.
5. Secretary of the Committee.
6. Location and Time of Meetings.
7. Advice and Recommendations offered by the Committee.

5. The National Power Survey Executive Advisory Committee and the Coordinating Committee renewed by this order shall terminate not later than December 31, 1976.

6. The Secretary of the Commission shall file with the Chairman, Committee on Commerce, United States Senate, Chairman, Interstate and Foreign Commerce Committee, House of Representatives, and Librarian, Library of Congress, copies of this order along with the Order Further Amending National Power Survey orders, issued concurrently herewith, as constituting charters of the National Power Survey Advisory Committees renewed by this order.

7. This order shall take effect immediately upon the issuance thereof and the Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

APPENDIX A

NATIONAL POWER SURVEY EXECUTIVE ADVISORY COMMITTEE

Chairman: Shearon Harris, Chairman, Carolina Power and Light Company.
Secretary: Bernard B. Chew, Chief, Division of Power Surveys and Analyses, Federal Power Commission.
Members:
Edward E. Cobb, General Manager, Huntsville Utilities.
Michael E. Collins, General Manager, Wakefield Municipal Light Department.
D. C. Cook, President, American Electric Power Company, Inc.
J. E. Corette, Chairman of the Board, Montana Power Company.
Gordon R. Corey, Vice Chairman, Commonwealth Edison Company.
Leo A. Daly, President, Leo A. Daly Company.
William E. Dean, Association of Illinois Electric Cooperatives.
Paul Donovan, President, Donovan, Hamester, & Rattlen, Inc.
William M. Elmer, Chairman of the Board, Texas Gas Transmission Corporation.
Bernard Falk, President, National Electrical Manufacturers Assn.
T. J. Galligan, Jr., President, Boston Edison Company.
R. F. Gilkeson, Chairman, Philadelphia Electric Company.
J. L. Grahl, General Manager, Basin Electric Power Cooperative.
Lt. General William C. Gribble, Chief of Engineers, Department of the Army.
Dr. David A. Hamil, Administrator, Rural Electrification Administration.
John D. Harper, Chairman, Aluminum Company of America.
Edwin I. Hatch, President, Georgia Power Company.
Maurice F. Hebb, Jr., Vice President, System Engineering, Florida Power Corporation.
Durwood W. Hill, General Manager, Nebraska Public Power District.
Jack K. Horton, Chairman of the Board, Southern California Edison Company.
Timothy L. Jenkins, Chairman, The MATCH Institution.
Ms. Virginia H. Knauer, Director, Office of Consumer Affairs.
Donald C. Lutken, President, Mississippi Power and Light Company.
William A. Lyons, Chairman and Chief Executive Officer, New York. State Electric and Gas Corporation.
D. Bruce Mansfield, President, Ohio Edison Company.
Paul Martinka, Vice President, Coal Supply, American Electric Power Service Corporation.
Marshall McDonald, President, Florida Power and Light Company.
T. Justin Moore, Jr., President, Virginia Electric and Power Co.
Dr. Laurence I. Moss, Consultant.
Dr. Bruce Netschert, Vice President, National Economic Research Associates.
G. W. Nichols, President and Chief Executive Officer, New England Electric System.
Arthur L. Padrutt, Wisconsin Public Service Commission.
Dr. Ruth Patrick, Curator and Chairman, Dept. of Limnology, Academy of Natural Sciences of Philadelphia.
Russell W. Peterson, Chairman, Council on Environmental Quality.
Charles H. Pillard, President, International Brotherhood of Electrical Workers.
John G. Quale, resident, Wisconsin Electric Power Company.
Dr. Henry J. Ramey, Jr., Department of Petroleum Engineering, Stanford University.
William P. Reilly, President, Arizona Public Service Company.
P. H. Robinson, Chairman, Houston Lighting and Power Company.
Dr. Robert C. Seamans, Jr., Administrator, Energy Research and Development Administration.
Raymond J. Sherwin, Superior Court Hall of Justice, Fairfield, California.
Shermer L. Sibley, Chairman of the Board, Pacific Gas and Electric Company.
M. Frederik Smith, Rockefeller Associates.
Irwin M. Stelzer, President, National Economic Research Associates.
Louis Strong, General Manager, Kentucky Rural Cooperatives Corporation.
W. C. Tallman, President, Public Service Company of New Hampshire.
W. Reid Thompson, Chairman of the Board and President, Potomac Electric and Power Company.
Russell E. Train, Administrator, Environmental Protection Agency.
Alvin W. Vogtle, Jr., President, The Southern Company.
Aubrey J. Wagner, Chairman, Tennessee Valley Authority.
Colston E. Warne, President, Board of Directors, Consumers Union of the U.S., Inc.
M. Frank Warren, President, Portland General Electric Company.
Ben T. Wiggins, Chairman, Georgia Public Service Commission.
Jack L. Wilkins, Chairman, National Electric Reliability Council.
Charles E. Wyckoff, President, National Rural Electric Cooperative Assn.

NATIONAL POWER SURVEY COORDINATING COMMITTEE

Chairman: Shearon Harris, Chairman, Carolina Power and Light Company.
Secretary: Daniel G. Lewis, Assistant Director for Research and Development, Office of Energy Systems, Federal Power Commission.

Members:

Gordon R. Corey, Vice Chairman, Commonwealth Edison Company.
Maurice F. Hebb, Jr., Vice President, System Engineering, Florida Power Corporation.
Paul D. Martinka, Vice President, Coal Supply, American Electric Power Service Corporation.
Bruce Netschert, Vice President, National Economic Research Associates.
Paul Donovan, President, Donovan, Hamester and Rattlen.
Irwin M. Stelzer, President, National Economic Research Associates.

[FR Doc.76–24743 Filed 8–19–76;1:02 pm]

[Docket Nos. E–7700, etc.]

NEW ENGLAND POWER CO.

Cost of Service; Tax Normalization

AUGUST 17, 1976.

By order of November 30, 1973, in these dockets, we approved a rate settlement relating to certain rates of the New England Power Company (NEPCO) 50 FPC 1729. On January 30, 1976, NEPCO filed a motion to consolidate these 3 dockets with Docket Nos. E–8641, E–8251, E–8169, E–8476[1] and ER76–304 and ER76–317, and for designation of a Presiding Judge to hear the Issue of Normalization. NEPCO's motion in Docket Nos. E–7700, E–7729, E–7800, E–8641, E–8251, E–8169 and E–8476 was denied by operation of law 18 CFR 1.12(e).

Our order of November 30, 1973, recognized that the settlement did not include a reserved issue relating to "the reduction in Federal income taxes resulting from the deduction for tax purposes of actual interest charges allocated to NEPCO's investment in construction work in progress." 50 FPC 1729, 1730–1731.

The reserved issue was the subject of 3 Commission orders, Order 530 40 FR 26981, Order 530–A 41 FR 3849, and Order 530–B 41 FR 28474. Pursuant to Order 530–B the tax deduction due to construction work in progress taken for tax purposes but capitalized in the cost of utility plant for book purposes is a tax timing difference which may be normalized by a public utility.

The Commission finds: It is necessary and appropriate for the purposes of the Federal Power Act that these dockets be terminated and that NEPCO be permitted pursuant to Order 530–B to normalize the interest expense deduction related to construction work in progress.

The Commission orders: (A) The issue reserved by our earlier order 50 FPC 1729, 1730–1731 has been resolved by Order 530–B which permits NEPCO to normalize. These proceedings are hereby terminated.

(B) The Secretray shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–24831 Filed 8–24–76;8:45 am]

[Docket No. CP71–273]

SOUTHERN NATURAL GAS CO.

Extension of Time

AUGUST 16, 1976.

On July 29, 1976, Southern Natural Gas Company filed a motion to extend the date fixed by Order issued October 16, 1975, for facilities certificated in this proceeding to be constructed and placed in service.

Upon consideration, notice is hereby given that the date on which facilities are to be constructed and placed in service in the above-designated docket is extended to and including April 16, 1977.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–24825 Filed 8–24–76;8:45 am]

[Docket No. ER76–629]

TAMPA ELECTRIC CO.

Compliance Filing

AUGUST 17, 1976.

Take notice that on August 2, 1976 Tampa Electric Company (Tampa) tendered for filing a revised page 1 of Supplement No. 1 to its Rate Schedule FPC No. 5 (Schedule WR–1). Tampa states that the purpose of this revision is to comply with the Commission's letter order of July 1, 1976 requiring Tampa to submit a fuel adjustment clause in the format specified in Section 35.14 of the Commission's Regulations. The effective date shown on the tendered page 1 is July 8, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 3, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–24832 Filed 8–24–76;8:45 am]

[Docket Nos. CP60–94, etc.]

TENNESSEE GAS PIPELINE CO.

Application To Amend

AUGUST 16, 1976.

Take notice that on August 2, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, filed pursuant to Section 7(c) of the Natural Gas Act an application to amend certain of the Commission's orders issued September 19, 1963, October 1, 1965, June 22, 1970, January 29, 1971, and October 31, 1974, in Docket Nos. CP60–94, CP66–20, CP70–185, CP69–222 (Phase II), and CP–74–318, respectively, which orders among other things, authorized Tennessee to serve Connecticut Natural Gas Corporation (Connecticut Natural) a contracted demand volume of 36,794 Mcf per day under Tennessee's Rate Schedule CD–6 and The Connecticut Gas Company (Connecticut Gas) and the Hartford Electric Light Company (HELCO) a combined maximum contract quantity of 39,631 Mcf per day under Tennessee's Rate Schedules G–6 and GS–6, all as more fully set forth in the application to amend which is on file with the Commission and open to public inspection.

Tennessee states that the purpose of the application to amend is (1) to reflect the acquisition by Connecticut Natural, an existing CD–6 customer, of the gas distribution facilities and properties of Connecticut Gas and HELCO; (2) to reflect the assignment by Connecticut Gas and HELCO to Connecticut Natural of their gas sales contracts with Tennessee for the Derby-Shelton, Norwalk, Winsted, Stamford and Torrington service areas, which contracts provide for service by Tennessee to Connecticut Gas and HELCO under Rate Schedules GS–6 and G–6; and (3) to request authorization for service by Tennessee to Connecticut Natural at each of such service areas, in addition to the service areas of Connecticut Natural presently being served by Tennessee, under Rate Schedule CD–6 and under a single new gas sales contract providing for a contracted demand volume of 76,425 Mcf per day, at the daily volume limits and at the delivery points set forth in such new gas sales contract.

It is indicated that the proposed consolidation of gas sales contracts would allow Connecticut Natural the flexibility to operate its distribution system so as to maximize the use of pipeline natural gas by its high priority residential and small commercial customers, thereby reducing the requirements during winter periods for supplemental gas sources such as propane-air. Tennessee states

[1] On June 25, 1975 and February 3, 1976, Presiding Administrative Law Judge Levant issued Initial Decisions in Docket Nos. E–8641, E–8476, E–8251, and E–8169.

V 41 166
AUG 25 76
UMI

that Connecticut Natural is not requesting any increase in maximum contract quantities presently authorized for the Connecticut Natural, Connecticut Gas and HELCO service areas combined.

Any person desiring to be heard or to make any protest with reference to said application to amend should on or before September 3, 1976, filed with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-847]

UNION ELECTRIC CO.

Letter Agreement

AUGUST 17, 1976.

Take notice that on August 9, 1976, Union Electric Company (Union) tendered for filing a Letter Agreement establishing a new delivery point under the Interchange Agreement dated March 27, 1968, as amended, between Associated Electric Cooperative, Inc. and Union. Union states that the new delivery point will provide support to Associated's system. Union requests that the Letter Agreement become effective on the in service date of the delivery point of which Union will notify the Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be be filed on or before August 31, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24833 Filed 8-24-76;8:45 am]

[Docket No. ER76-851]

UNION ELECTRIC CO.

Amendatory Agreement

AUGUST 17, 1976.

Take notice that on August 9, 1976, Union Electric Company (Union) tendered for filing an Amendatory Agreement to the Interchange Service Contract dated July 18, 1967 between the City of Columbia, Missouri and Union. Union states that said Amendatory Agreement establishes an additional connection between the parties to cover contingencies and expected load growth.

Union requests that the Amendatory Agreement become effective on the in-service date of the connection of which Union will notify the Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 31, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24834 Filed 8-24-76;8:45 am]

[Docket No. CP76-469]

UNITED GAS PIPE LINE CO.

Application

AUGUST 17, 1976.

Take notice that on August 4, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-469 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to use up to 19,900 Mcf per day of its 200,000 Mcf per day reserved capacities in the pipeline systems of Stingray Pipeline Company (Stingray) and Natural Gas Pipeline Company of America (Natural) to transport gas to be purchased by Sea Robin Pipeline Company (Sea Robin) in Blocks 532, 533, and 586, West Cameron Area, offshore Louisiana, to a point onshore near Texaco Inc.'s Henry Plant in Vermilion Parish Louisiana where Applicant's and Natural's facilities Interconnect, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that Sea Robin has or expects to acquire the right to purchase 41.67 percent of the reserves underlying Block 586, West Cameron Area, and that Sea Robin proposes in Docket No. CP76-418[1] to construct facilities to transport gas for itself and others from the producers' platform to a point of interconnection with Stingray's system in Block 595, West Cameron Area. Applicant states further that Sea Robin has purchased 3.335 percent of the reserves underlying Blocks 532 and 533, West Cameron Area. Stingray would transport Sea Robin's gas for Applicant's account, in accordance with Stingray's Rate Schedule T-2, to the northern terminus of its system near Holly Beach, Louisiana, where Natural would take the gas for further transportation for the account of Applicant to the Henry Plant delivery point in accordance with Natural's Rate Schedule X-48. At the Henry Plant delivery point Sea Robin would sell one-half of the gas to each of Applicant and Southern Natural Gas Company.

The application states that in return for the right to utilize a portion of Applicant's reserved capacities in the Stingray and Natural systems, Sea Robin would reimburse Applicant for a pro rata share of the monthly charges paid by Applicant to Stingray and Natural. Further, it is stated, Applicant would credit the revenues from Sea Robin against its own cost of service.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own revew of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24835 Filed 8-24-76;8:45 am]

[1] Notice published July 30, 1976 (41 FR 31947).

[Docket No. CP76-471]

UNITED GAS PIPE LINE CO.

Application

AUGUST 17, 1976.

Take notice that on August 4, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-471 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain metering and compression facilities in Calcasieu Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate three 3,100 horsepower turbine-driven centrifugal compressor units and a multiple 12-inch tube meter station and related station piping in Calcasieu Parish where the existing pipeline facilities of Transcontinental Gas Pipe Line Corporation (Transco) and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), intersect. The application shows the estimated cost of these facilities to be $5,496,700, which cost would be financed from funds on hand.

Applicant states that it has or expects to obtain commitments to purchase gas attributable to reserves underlying a substantial number of blocks located in the High Island Area, offshore Texas, to be served by the proposed pipeline system to be constructed by High Island Offshore System (HIOS). Said gas, it is stated, would be transported from various points in the High Island Area to a point in West Cameron Block 167, offshore Louisiana, by HIOS pursuant to a transportation agreement, dated February 15, 1976, between HIOS and Applicant. It is indicated that at the northern terminus of the HIOS system in West Cameron Block 167, U-T Offshore System (U-TOS) would take delivery of the offshore Texas gas Applicant expects to purchase and would transport said gas to a point of interconnection onshore with existing facilities of Transco near Johnson's Bayou, Cameron Parish, Louisiana, in accordance with the terms of a transportation agreement, dated February 15, 1976, between U-TOS and Applicant.

Applicant asserts that by agreement, dated February 15, 1976, between it and Transco, Transco agreed to transport Applicant's offshore Texas gas from the terminus of the U-TOS system north through its existing system to a proposed point of interconnection near Starks, Calcasieu Parish, Louisiana, with an existing 30-inch pipeline owned by Tennessee. Further, it is stated that pursuant to a letter, dated June 16, 1976, Tennessee has agreed to transport Applicant's gas from the interconnection with Transco to various mutually agreeable existing points of interconnection between the systems of Applicant and Tennessee.

Applicant indicates that the proposed metering and compression facilities are necessary to enable Applicant to effect deliveries to Tennessee since Tennessee's facilities are operated at a higher line pressure than the adjacent facilities of Transco.

Applicant states that the proposed facilities would materially assist it in meeting its urgent customer requirements by enabling it to deliver new gas supplies to Tennessee for ultimate redelivery to its existing pipeline system.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 14, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commisson's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commisson on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24836 Filed 8-24-76;8:45 am]

FEDERAL RESERVE SYSTEM

BANKERS TRUST NEW YORK CORP.

Order Denying Acquisition of Bank

Bankers Trust New York Corporation, New York, New York ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act ("Act"), has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares of The First National Bank of Mexico, Mexico, New York ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those submitted by Bank, in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fifth largest banking organization in the State of New York, controls nine banks with aggregate deposits of approximately $10.4 billion, representing approximately 7.7 percent of the total deposits in commercial banks in New York.[1] Acquisition of Bank ($9.8 million in deposits) would increase Applicant's share of the total commercial bank deposits in the State by 0.01 of one percent and would not significantly increase the concentration of banking resources in New York.

Bank ranks eleventh among the 15 banking organizations located in the Syracuse banking market (approximated by the western half of Madison County and all of Onondaga and Oswego Counties) and controls approximately 0.7 of one percent of total market deposits. The closest branch of any of Applicant's banking subsidiaries to Bank is located approximately 25 miles southeast of Bank in the same banking market. While there is some existing competition between Applicant's banking subsidiaries and Bank, the amount of such competition that would be eliminated as a result of this proposal does not appear to be significant. Similarly, the effects of the proposal on potential competition do not appear to be significant. Bank is one of the smaller banks in the market, and its acquisition by Applicant would not raise significant barriers to entry by other organizations not presently in the

[1] All banking data are as of December 31, 1975.

V 41 166 AUG 25 76 UMI

market. Therefore, on the basis of the facts of record, the Board concludes that consumption of the proposal would not have significant adverse effects on existing or potential competition in any relevant area.

The financial and managerial resources and future prospects of Bank are generally satisfactory.[2]

As the Board has stated on a number of occasions, a bank holding company should be a source of financial and managerial strength for its subsidiaries. With regard to the financial and managerial resources and future prospects of Applicant, information in the record, including all bank examination information available to the Board, indicates that Applicant has been experiencing financial difficulties that have detracted from its overall financial condition and lessened its ability to serve as a source of strength for its subsidiaries. The subject application by its very nature would to some extent impose an additional burden on Applicant's operations. In these circumstances, it is the Board's view that Applicant's resources should be directed toward developing and maintaining strong and efficient operations within its existing structure. Accordingly, the Board concludes that considerations related to the financial and managerial aspects of Applicant's proposal weigh against approval of the application.

There is no evidence to indicate that the banking needs of the community to be served are not being met currently. Applicant states that the proposed transaction would allow Bank to offer additional services to its customers, including trust and investment services, international banking services, savings incentive plans and underwriting and advisory services for municipalities. While convenience and needs considerations appear to be consistent with approval of the application, they are not sufficient, in the Board's judgment, to outweigh the aforementioned adverse banking factors reflected in the record. Accordingly, it is the Board's judgment that approval of the application would not be in the public interest and that the application should be denied.

On the basis of the record, the application is denied for the reasons summarized above.

[2] In connection with this proposal, Applicant indicates that it intends to finance the proposed transaction through the issuance of $1.9 million in promissory notes maturing over a 13 year period and that Bank's earnings alone will be sufficient to retire the debt while maintaining an adequate capital position for Bank. On the basis of the facts of record and its analysis of the proposal, however, the Board is unable to conclude that Applicant's assumptions are correct and that the financing of the proposal solely from Bank's earnings would not result in a deterioration of Bank's capital position.

By order of the Board of Governors,[3] effective August 18, 1976.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-24879 Filed 8-24-76;8:45 am]

INDUSTRIAL LOAN AND INVESTMENT CO.

Formation of Bank Holding Co.

Industrial Loan and Investment Company, Sedalia, Missouri, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 87.6% percent of the voting shares of Bank of Ionia, Ionia, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Industrial Loan and Investment Company, Sedalia, Missouri has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to continue to engage in the business of an industrial loan and investment company in Sedalia, Missouri, and to continue to engage in the sale of credit related insurance associated with loans made by Applicant. Notice of the application was published on June 30, 1976 in the Sedalia Democrat, a newspaper circulated in Sedalia, Missouri.

Applicant states that it will continue to engage in the activities of an industrial loan and investment company and will continue to engage in the sale of insurance that is directly related to extensions of credit by Applicant. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 19, 1976.

Board of Governors of the Federal Reserve System, August 18, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-24880 Filed 8-24-76;8:45 am]

OLD NATIONAL BANCORPORATION

Order Approving Acquisition of Shares of Old National Life Insurance Co.

Old National Bancorporation (formerly Washington Bancshares, Inc.), Spokane, Washington ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act ("Act"), has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), to acquire shares of Old National Life Insurance Company, Phoenix, Arizona ("Company"), a company that will engage de novo in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance directly related to extensions of credit by Applicant's lending subsidiaries in the State of Washington. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (41 FR 24634). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act.

Applicant, the fifth largest banking organization in Washington, controls two subsidiary banks with aggregate deposits of approximately $605.5 million, representing approximately 6.1 percent of the total deposits in commercial banks in the State.[1] Applicant also engages, through nonbank subsidiaries, in equipment leasing, mortgage banking and servicing, investment advising and insurance agency activities.

Company will engage de novo in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance in connection with extensions of credit by Applicant's lending subsidiaries. Company will be formed as an Arizona insurance corporation and will be qualified to underwrite insurance directly only in Arizona. Accordingly, the insurance sold by Applicant's lending subsidiaries will be directly underwritten by an unaffiliated insurance company qualified to do business in Washington, and will thereafter be assigned or ceded to Company under a reinsurance agreement. Since Applicant proposes to engage in this activity de novo, consummation of the transaction would not have any significant adverse effects on existing or potential competition in any relevant market.

Credit life and credit accident and health insurance are generally made available by banks and other lenders and are designed to assure repayment of a loan in the event of death or disability of the borrower. In connection with its addition of the underwriting of such insurance to the list of permissible activities for bank holding companies, the Board stated:

> To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service. (12 CFR 225.4(a)(10) n. 7)

Applicant has stated that following consummation of the proposed acquisition, Company will offer the several types of credit-related insurance that it will reinsure at premium rates ranging from 3.3 percent to 20.0 percent below the maximum allowable rates in the State of Washington for example, reducing term joint life insurance and level term joint life insurance will be offered at rates 12.0 and 18.8 percent, respectively, below the maximum allowable rates. In addition, credit accident and health insurance will be offered at rates 5 percent below the statutory maximum. Applicant has committed to similar rate reductions for each type of insurance coverage that Company will underwrite. The Board is of the view that Applicant's proposed reductions in insurance premiums are procompetitive and in the public interest.

Based upon the foregoing and other considerations reflected in the record, including a commitment by Applicant to maintain on a continuing basis the public benefits which the Board has found to be reasonably expected to result from this proposal and upon which the approval of this proposal is based, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of San Francisco.

By order of the Board of Governors,[2] effective August 18, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

GENERAL ACCOUNTING OFFICE

CIVIL AERONAUTICS BOARD AND INTERSTATE COMMERCE COMMISSION; REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on August 18, 1976. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed CAB and ICC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed forms, comments (in triplicate) must be received on or before September 13, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

CIVIL AERONAUTICS BOARD

CAB requests an extension no change clearance of "Application for Operating Authorization (CAB Form 351)." This form is used by the Board to determine whether an applicant should be granted authority to operate as an air freight forwarder. CAB estimates it receives approximately 50 applications a year and that respondent burden averages 15 hours per application.

INTERSTATE COMMERCE COMMISSION

ICC requests an extension no change clearance of Quarterly Report Form CBS, required to be filed by some 65 Class I linehaul railroads, pursuant to Section 20 of the Interstate Commerce Act. Data collected on Form CBS are used for economic regulatory purposes. Reports are mandatory and available for use of the public. ICC estimates reporting burden for carriers to average 7 hours per report.

ICC requests an extension no change clearance of Annual Report Form MP-2 required to be filed by some 870 Class II and III motor carriers of passengers having annual operating revenues of less than $1 million pursuant to order of the Interstate Commerce Commission 49 CFR 1249.6. Data collected on Form MP-2 are used for economic regulatory purposes. Reports are mandatory and available for use of the public. Reporting burden for carriers to average 2½ hours per report.

ICC requests an extension no change clearance of Annual Report Form W-3 required to be filed by some 105 Class III carriers by water having annual carrier operating revenues of less than $100,000 pursuant to order of the Interstate Commerce Commission 49 CFR 1250.30. Data collected on Form W-3 are used for economic regulatory purposes. Reports are mandatory and available for use of the public. ICC estimates reporting burden for carriers to average 4 hours per report.

ICC requests an extension no change clearance of Quarterly Report Form RE&I, required to be filed by some 65 Class I line-haul railroads, pursuant to section 20 of the Interstate Commerce Act. Data collected on Form RE&I are used for economic regulatory purposes. Reports are mandatory and available for use of the public. ICC estimates reporting burden for carriers to average 6 hours per report.

ICC requests clearance of a revision to Quarterly Report Form QFR, required to be filed by some 900 Class I and 2600 Class II common and contract motor carriers of property pursuant to section 220(a) of the Interstate Commerce Act. Data collected on Form QFR are used for economic regulatory purposes. Reports are mandatory and available for use of the public. One minor change has been made on page 11 of Form QFR, a new Item 283 has been added. ICC states this item is part of a routine accounting procedure and is readily available from carriers records and will not add any burden on respondents. Item 283 reads "(2611 through 2661) Total Stockholder's Equity." Previous items 283 through 285 are renumbered 284 through 286. ICC estimates reporting burden to average 4¼ hours per report.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.76-24889 Filed 8-24-76;8:45 am]

FEDERAL POWER COMMISSION; REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was re-

V 41 166 AUG 25 76 UMI

ceived by the Regulatory Reports Review Staff, GAO, on August 19, 1976. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FPC report are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before September 13, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202–376–5425.

FEDERAL POWER COMMISSION

The FPC requests clearance of a new Form 108, Questionnaire Schedules For Continuing Review of Rate Schedules Analysis, Filed Rates, Volumes and Quality Conditions. Form 108 will be used by the Commission to (1) give a detailed breakdown of rate schedules on file with the Commission; (2) provide a basis for estimating the revenue impact of nationwide and/or area ratemaking proposals by pricing area, state, purchaser; (3) provide a means of determining the potential effects of periodic price escalations and indefinite price provisions; and (4) monitor changes in gas sales contracts and gas quality and their effect on consumers. The following schedules as part of Form 108 will be filed as shown:

Schedule No.	Frequency	Frequency date
501	Annually	March 31.
502–504	Initially	Before Mar. 31, 1977.
502–504	Event	Application for rate certificate and amendment to the rate schedule.
505	Annually	March 31.
507	Event	As rate changes are requested.

FPC estimates Form 108 will be filed by approximately 888 natural gas producers and that the burden will average approximately 18 hours per respondent.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.76–24890 Filed 8–24–76;8:45 am]

INTERSTATE COMMERCE COMMISSION; REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on August 19, 1976. See 43 U.S.C 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed ICC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before September 13, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202–376–5425.

INTERSTATE COMMERCE COMMISSION

ICC requests clearance of a revised Annual Financial Report for Class III Common and Contract Motor Carriers of Property, Form M–3, required to be filed by all carriers having annual carrier operating revenues (including interstate and intrastate) of less than $500,000 pursuant to order of the Interstate Commerce Commission 49 CFR 1249.4.

The report form is revised to incorporate the needs of the majority of State regulatory commissions and the Interstate Commerce Commission. Carriers and State commissions will benefit from the use of the same form. Carriers can avoid restructuring similar data for different State reports and State regulatory commissions can reduce printing costs by utilizing the uniform printed report. Reporting burden is reduced on smaller carriers by exempting carriers with operating revenues of $100,000 or less from completing the balance sheet, income statement and other detailed disclosures. A $50,000 revenue exemption was previously used from 1957 to 1975. The corporate ownership disclosure requirement was expanded and a schedule disclosing salaries, wages, and other compensation was added. Household goods operations are now required to be segregated for certain operating statistics and unpaid cargo loss and damage claims must be disclosed. The disclosure requirements on pages 7 and 8 were inserted to more closely align Class I, II and III motor carrier reports. The additional disclosures were added to keep pace with recent changes in Commission accounting rules, satisfy the information needs of the Commission, State regulatory commissions and interested parties. Reports are mandatory and must be filed by some 12,500 carriers. ICC estimates annual reporting burden for carriers with operating revenues of $100,000 or under to be one-half hour, and two hours for carriers whose operating revenues exceed $100,000.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

Applications for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 17, 1976.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the securities of the companies as set forth below, which securities are listed and registered on one or more other national securities exchanges:

Albany International Corp. $1.25 Par Capital, File No. 7–4860.
Commonwealth Edison Co. $1.25 Convertible Preferred NPV, File No. 7–4861.
Congoleum Corp. Common $1.00 Par, File No. 7–4862.
Nalco Chemical Co. Common $0.75 Par, File No. 7–4863.
Northwest Telecom Ltd., Common Stock NPV, File No. 7–4864.
Rio Algom Ltd. Common Stock NPV, File No. 7–4865.
Spencer Companies, Inc. Common Stock $1.00 Par, File No. 7–4866.

Upon receipt of a request, on or before August 30, 1976 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500–1]

IMAGE SYSTEMS, INC.

Suspension of Trading

AUGUST 18, 1976.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the securities of Image Systems, Inc. being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 1:05 p. m. (e.d.t.) on August 18, 1976 through August 27, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[812–3902]

RESERVE MANAGEMENT CORP. AND THE RESERVE FUND, INC.

Hearing on Application for Exemption

Reserve Management Corporation ("Management"), and The Reserve Fund, Inc., 810 Seventh Avenue, New York, New York 10019, ("Fund") (collectively, "Applicants"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on January 30, 1976, pursuant to section 6(c) of the Act for an order of the Commission exempting from the provisions of section 15(a) of the Act a proposed retroactive implementation of the Fund's investment advisory contract ("Agreement") with Management. Under that proposal, the Fund would pay to Management approximately $523,030 for investment advisory and other services rendered between July 17, 1975, and October 20, 1975, which the application states as representing the difference between (1) payment in the aggregate amount specified in the Agreement and a separate "service agreement", and (2) the cost, already paid by the Fund, of providing those services.

On May 5, 1976, a notice (Investment Company Act Release No. 9275) was issued of the filing of the application. That notice, which is incorporated herein by reference, gave interested persons an opportunity to request a hearing and stated that an order disposing of the application would be issued as of course unless a hearing should be ordered.

Certain interested persons have filed requests for a hearing. It appears to the Commission that it is appropriate in the public interest and consistent with the protection of investors to hold a hearing with respect to said application.

It is ordered, Pursuant to section 40(a) of the Act, that a hearing on said application under the applicable provisions of the Act be held at a time and place to be fixed by further order as provided by Rule 6 of the Commission's rules of practice (17 CFR 201.6). Any person desiring to be heard or otherwise wishing to participate in the proceeding is directed to file with the Secretary of the Commission his application as provided by Rule 9(c) of the Commission's rules of practice, setting forth any issues of law or fact which he desires to controvert, or any additional issues which he deems raised by this Notice and Order or by said application. Persons filing an application to participate or be heard will receive notice of the date of the hearing, and any adjournments thereof, as well as other actions of the Commission involving the subject matter of these proceedings.

It is further ordered, That any officer or officers of the Commission designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42(b) of the Act and to an Administrative Law Judge under the Commission's rules of practice.

The Division of Investment Management has advised the Commission that it has made a preliminary examination of the application and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the proposed retroactive implementation of the Agreement and the payments to Management for certain investment advisory services rendered prior to approval of the Agreement by Fund shareholders would be necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act;

(2) Whether the Fund's previous investment advisory contract with Management was properly in effect prior to June 1, 1975; if not, whether such invalidity of the previous contract was caused by misconduct on the part of Management or its controlling persons; and, in the latter event, whether the proposed payments to Management are appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act; and

(3) Whether the manner in which the Agreement was negotiated and approved by the Fund's directors and ratified by the Fund's shareholders was proper in all respects.

It is further ordered, That at the aforesaid hearing attention should be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this Notice and Order by certified mail to the Applicants and to the persons who have requested a hearing; that notice to all other persons be given by publication of this Notice and Order in the FEDERAL REGISTER; that a copy of this Notice and Order shall be published in the "SEC Docket"; and that an announcement of the aforesaid hearing shall be included in the "SEC News Digest."

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

RESERVE MANAGEMENT CORP. AND THE RESERVE FUND, INC.

Hearing on Application for Exemption

Reserve Management Corporation ("Management"), and The Reserve Fund, Inc., 810 Seventh Avenue, New York, New York 10019, ("Fund") (collectively, "Applicants"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on January 30, 1976, pursuant to section 6(c) of the Act for an order of the Commission exempting from the provisions

V 41 166
AUG 25 76
UMI

of section 15(a) of the Act a proposed retroactive implementation of the Fund's investment advisory contract ("Agreement") with Management. Under that proposal, the Fund would pay to Management approximately $523,030 for investment advisory and other services rendered between July 17, 1975, and October 20, 1975, which the application states as representing the difference between (1) payment in the aggregate amount specified in the Agreement and a separate "service agreement", and (2) the cost, already paid by the Fund, of providing those services.

On May 5, 1976, a notice (Investment Company Act Release No. 9275) was issued of the filing of the application. That notice, which is incorporated herein by reference, gave interested persons an opportunity to request a hearing and stated that an order disposing of the application would be issued as of course unless a hearing should be ordered.

Certain interested persons have filed requests for a hearing. It appears to the Commission that it is appropriate in the public interest and consistent with the protection of investors to hold a hearing with respect to said application.

It is ordered, Pursuant to Section 40(a) of the Act, that a hearing on said application under the applicable provisions of the Act be held at a time and place to be fixed by further order as provided by Rule 6 of the Commission's rules of practice (17 CFR 201.6): Any person desiring to be heard or otherwise wishing to participate in the proceeding is directed to file with the Secretary of the Commission his application as provided by Rule 9(c) of the Commission's Rules of Practice, setting forth any issues of law or fact which he desires to controvert, or any additional issues which he deems raised by this Notice and Order or by said application. Persons filing an application to participate or be heard will receive notice of the date of the hearing, and any adjournments thereof, as well as other actions of the Commission involving the subject matter of these proceedings.

It is further ordered, That any officer or officers of tre Commission designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42(b) of the Act and to an Administrative Law Judge under the Commission's rules of practice.

The Division of Investment Management has advised the Commission that it has made a preliminary examination of the application and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the proposed retroactive implementation of the Agreement and the payments to Management for certain investment advisory services rendered prior to approval of the Agreement by Fund shareholders would be necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act;

(2) Whether the Fund's previous investment advisory contract with Management was properly in effect prior to June 1, 1975; if not, whether such invalidity of the previous contract was caused by misconduct on the part of Management, or its controlling persons; and, in the latter event, whether the proposed payments to Management are appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act; and

(3) Whether the manner in which the Agreement was negotiated and approved by the Fund's directors and ratified by the Fund's shareholders was proper in all respects.

It is further ordered, That at the aforesaid hearing attention should be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this Notice and Order by certified mail to the Applicants and to the persons who have requested a hearing; that notice to all other persons be given by publication of this Notice and Order in the FEDERAL REGISTER; that a copy of this Notice and Order shall be published in the "SEC Docket"; and that an announcement of the aforesaid hearing shall be included in the "SEC News Digest."

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Proposed License No. 02/02-0317]

BOHLEN CAPITAL CORP.

Application for a License

An application for a license to operate as a Small Business Investment Company under the Small Business Investment Act of 1958, as amended (Act) (15 U.S.C. 661 et seq.) has been filed by Bohlen Capital Corporation (the applicant), with the Small Business Administration (SBA) pursuant to 13 CFR 107.102.

The applicant, with its principal place of business at 30 East 42nd Street, New York, New York 10017 will begin operations with $1,000,000 of paid-in capital and surplus and will be solely owned by Bohlen Industries of North America, Inc. (BINA), which is a wholly owned subsidiary of Bohlen Industrie Aktiengesellschaft (BIAG), a German Corporation.

BIAG, which is principally located at Maximillian Strasse 22, D-8,000, Munich, West Germany, is owned by Messrs Berthold von Bohlen und Halbach and Harold von Bohlen und Halbach who each own 49 percent and 50 percent respectively of the company's stock. Mr. Raiser is President and Director of BIAG.

The officers and directors of the applicant will be as follows:

NAME AND TITLE

Helmut Raiser, 14 Franz-Joseph Strasse, Munich, Germany, Chairman of the Board and Director.

Harvey J. Wertheim, 9 Rawlins Drive, Melville, New York 11746, President, Treasurer and Director.

Emilio A. Dominianni, 5 Spring Lake Drive, E. White Plains, New York 10604, Secretary and Director.

Maximo Gonzales, 1 bis rue clement Marot, Paris, France, Director.

John H. French II, 151 East 72nd Street, New York, New York 10023, Director.

The applicant will conduct its operations principally in the New York area and will not concentrate its investments in any particular industry.

Research and Science Investors, Inc., 30 East 42nd Street, New York, New York 10017 (RSI), a privately held venture capital investment company will serve as investment advisor/manager of the Applicant. Messrs. French and Wertheim are president-director and vice president, treasurer, director respectively of RSI. Messrs. Wertheim and French also serve as the President and a Director respectively of Van Rietschoten Capital Corp., a licensed Small Business Investment Company, 30 East 42nd Street, New York, New York 10017.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Act and the SBA Rules and Regulations.

Any person may, on or before September 9, 1976, submit to SBA written comments on the proposed Licensee. Any such communications should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this Notice shall be published in a newspaper of general circulation in New York, New York.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: August 18, 1976.

GERALD L. FEIGEN,
Acting Deputy Associate Administrator for Investment.

[License No. 01/01-0018]

MASSACHUSETTS CAPITAL CORP.

Transfer of a Small Business Investment Company License

On April 27, 1976, a Notice of application for a transfer of control of Massachusetts Capital Corporation, a small business investment company, was published in the Federal Register (Vol. 14, No. 82) pursuant to § 107.701 of the Small Business Administration (SBA) Regulations governing small business Administration (SBA) Regulations governing small business investment companies (13 CFR 107.701 (1976)).

Interested parties were given 10 days to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information and the facts with regard thereto, SBA approves the transfer of control of Massachusetts Capital Corporation.

VETERANS ADMINISTRATION

COOPERATIVE STUDIES EVALUATION COMMITTEE

Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92-463 that a meeting of the Cooperative Studies Evaluation Committee, authorized by 38 U.S.C. 4101, will be held in Room 119 of the main Veterans Administration building, 810 Vermont Avenue, NW, Washington, DC, on October 26 and 27, 1976. The meeting will be for the purpose of reviewing proposed cooperative studies and advising the Veterans Administration on the relevance and feasibility of the studies, the adequacy of the protocols, the scientific validity and the propriety of technical details, including involvement of human subjects. The Committee advises the Director, Medical Research Service, through the Chief of the Cooperative Studies Program on its findings.

The meeting will be open to the public up to the seating capacity of the room from 1:30 to 2 p.m., October 26, to discuss the general status of the program. To assure adequate accommodations, those who plan to attend should contact Dr. James A. Hagans, Coordinator of the Committee, Veterans Administration Central Office, Washington, DC, (202-389-3702) prior to October 8.

The meeting will be closed from 2 p.m. to 4:45 p.m. October 26 and all day on October 27 for consideration of specific proposals in accordance with provisions set forth in section 10(d) of Pub. L. 92-463 and Sections 552(b)(2) and 552(b)(6) of Title 5, U.S. Code. During this portion of the meeting, discussion and decisions will deal with qualifications of personnel conducting the studies and the medical records of patients who are study subjects, the disclosure of which would constitute an invasion of personal privacy.

Dated: August 19, 1976.

R. L. ROUDEBUSH,
Administrator.

WEDNESDAY, AUGUST 25, 1976

PART II:

FEDERAL ELECTION COMMISSION

■

ESTABLISHMENT OF CHAPTER

V41 1 166 AUG 25 76 UMI

Title 11—Federal Elections

CHAPTER I—FEDERAL ELECTION COMMISSION

[Notice 1976-38]

ESTABLISHMENT OF CHAPTER

The Federal Election Commission today publishes regulations which it has adopted to implement the provisions of the Federal Election Campaign Act of 1971, as amended in 1974 and 1976. Commission approval of these regulations occurred on July 27, 29 and 30, 1976, and August 5, 1976. Pursuant to 2 U.S.C. § 438, the regulations have been transmitted to the Congress of the United States. The regulations are not yet effective. Further action, including the announcement of an effective date, will be taken by the Commission after these regulations have been before the Congress for 30 legislative days in accordance with 2 U.S.C. § 438(c), 26 U.S.C. § 9009(c), and 26 U.S.C. § 9039(b).

These regulations were originally published in proposed form on May 26, 1976 (41 FR 21572-21605), on June 25, 1976 (41 FR 26397) and on July 9, 1976 (41 FR 28413). Written comments were received and public hearings were held. The regulations published today will be promulgated in their present form unless disapproved by the Congress under 2 U.S.C. § 438(c), 26 U.S.C. §§ 9009(c) or 9039(b).

Dated: August 19, 1976.

VERNON W. THOMSON,
Chairman for the Federal Election Commission.

Chapter I is added to Title 11 of the Code of Federal Regulations to read as follows:

SUBCHAPTER A—GENERAL

PART 100—SCOPE AND DEFINITIONS

Sec.
100.1 Scope.
100.2 Candidate.
100.3 Commission.
100.4 Contribution.
100.5 Support.
100.6 Election.
100.7 Expenditure.
100.8 Federal office.
100.9 File, filed, or filing.
100.10 Identification.
100.11 Occupation.
100.12 Principal place of business.
100.13 Person.
100.14 Political committee.
100.15 Connected organization.
100.16 Political party.
100.17 National committee.
100.18 State.
100.19 State committee, subordinate committee.
100.20 Act.

PART 101—CANDIDATE STATUS AND DESIGNATIONS

101.1 Duration of candidate status.
101.2 Candidate designations.
101.3 Waiver of candidate reporting.

PART 102—REGISTRATION AND ORGANIZATION OF POLITICAL COMMITTEES

102.1 Registration of political committees.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 100.1 Scope.

This subchapter is issued by the Federal Election Commission under Title III of the Federal Election Campaign Act of 1971 (Public Law 92-225), as amended in 1974 (Public Law 93-443), and as amended in 1976 (Public Law 94-283) and is applicable to campaigns for nomination or election to the offices of President and Vice President of the United States; and Senator or Representative in, or Delegate or Resident Commissioner to, the Congress of the United States.

§ 100.2 Candidate.

An individual is a candidate for Federal office, whether or not elected, whenever any of the following events occur:

(a) The individual has taken the action necessary, under relevant State law, to qualify in a primary, runoff, special or general election convention or caucus; or

(b) The individual has received contributions or made expenditures, or has given his or her consent for any other person to receive contributions or make

V 41 166 AUG 25 76 UMI

expenditures, with a view toward bringing about his or her election; or

(c) If after written notification by the Commission that any other person is receiving contributions or making expenditures on the individual's behalf, the individual fails to disavow this activity by letter to the Commission within 30 days of receipt of the notification.

§ 100.3 Commission.

"Commission" means the Federal Election Comimssion, 1325 K Street, NW., Washington, D.C. 20463.

§ 100.4 Contribution.

(a) "Contribution" means—

(1) A gift, subscription, loan, advance, or deposit of money or anything of value, made for the purpose of influencing the nomination for election, or election, of any person to Federal office; or for the purpose of influencing the results of a primary election, caucus, or convention held for the selection of delegates to a national nominating convention of a political party or for the expression of a preference for the nomination of persons for election to the office of President. For purposes of paragraph (a),

(i) The term "loan" includes a guarantee, endorsement, and any other form of security where the risk of nonpayment rests with the surety, guarantor, or endorser as well as with a political committee, candidate, or other primary obligor. A loan is a contribution to the extent that the obligation remains outstanding.

(ii) The term "money" includes currency of the United States or of any foreign nation, checks, money orders, or any other negotiable instrument payable on demand.

(iii) (A) The term "anything of value" includes securities, goods, facilities, equipment, supplies, personnel, advertising, services, membership lists commonly offered or used commercially, or other in-kind contributions provided without charge (other than volunteer services under § 100.4(b)(2)) or at a charge which is below the usual and normal charge for the items. The amount of a contribution of a thing of value is the difference between the usual and normal charge for the goods or services at the time of the contribution and the amount charged the candidate or political committee.

(B) For purposes of this section,

(*1*) "Usual and normal charge" for goods means the price of those goods in the market from which they ordinarily would have been purchased at the time of their contribution.

(*2*) "Usual and normal charge" for any services, other than those provided by an unpaid volunteer, means the hourly or piecework rate charge for the services prevailing at the time the services were rendered.

(2) The donation of all or a portion of the costs of fundraising, such as the cost of a meal as part of a fundraising dinner.

(3) A written contract, promise, or agreement such as a signed pledge card, whether or not legally enforceable, to make a contribution. The contract, promise, or agreement shall be reported as a debt owed to the candidate or committee until it is honored.

(4) A transfer of funds to a political committee or candidate from another political committee, other political organization, or other similar source whether or not such organization is a political committee. The transfer occurs whenever the treasurer or other designated agent of the transferee committee or the candidate obtains control over the funds.

(5) The payment by any person other than a candidate or political committee of compensation for the personal services of another person which are rendered to a candidate or political committee without charge. No compensation is considered paid to any employee—

(i)(A) Who is paid on an hourly or salaried basis;

(B) Who is expected to perform duties for an employer for a particular number of hours per period; and

(C) Who engages in political activity during what would otherwise be a regular work period;

if the taken or released time is made up or completed by that employee within a reasonable period; or

(ii) Who is paid on a commission or piecework basis, or is paid only for work actually performed, whose time is considered the employee's own to use as he or she sees fit and who engages in political activity during what would otherwise be normal working hours; or

(iii) Where the time used by the employee to engage in political activity is bona fide, although compensable, vacation time or other earned leave time.

(6) The extension of credit for a length of time beyond normal business or trade practice, unless the creditor has made a commercially reasonable attempt to collect the debt (see § 114.10).

(b) The term "contribution" does not include—

(1) Payments made for the purpose of determining whether an individual should become a candidate, such as those incurred in conducting a poll, if the individual does not otherwise become a candidate. If the individual otherwise subsequently becomes a candidate, the payments are contributions, and must be reported with the first report filed by the candidate or the principal campaign committee of the candidate, as appropriate, regardless of the date the payments were made.

(2) The value of services provided without compensation by individuals who volunteer a portion or all of their time on behalf of a candidate or political committee.

(3) The rental value of an individual's residence used for campaign-related activity.

(4) The use of real or personal property and the cost of invitations, food, and beverages, voluntarily provided without charge by an individual, in rendering voluntary personal services to a candidate on the individual's residential premises, to the extent that the cumulative value of those activities by the individual on behalf of the candidate do not exceed $500 with respect to an election. For purposes of this paragraph a contribution by a married individual shall not be attributed to a spouse.

(5) The sale of any food or beverage by a vendor (whether incorporated or not) for use in a candidate's campaign at a charge less than the normal or comparable commercial charge, if the charge for use in a candidate's campaign is at least equal to the cost of food or beverage to the vendor, and the cumulative value of the discounts given by the vendor does not exceed $500 for an election.

(6) Any unreimbursed payments for transportation expenses made by an individual in volunteering services to a candidate, to the extent that the cumulative value of the payments does not exceed $500 for an election. Additionally, any unreimbursed payment from a volunteer's personal funds for usual and normal living expenses incident to volunteer activity are not contributions.

(7) The payment of the costs of preparation, display, or mailing or other distribution incurred by a State or local committee of a political party with respect to a printed slate card, sample ballot, palm card, or other printed listing, of three or more candidates for any public office for which an election is held in the State in which the committee is organized. This paragraph shall not apply in the case of costs incurred by the committee with respect to the preparation and display of listings made on broadcasting stations, or in newspapers, magazines, and similar types of general public political advertising such as billboards, posters, and signs.

(8) Any news story, commentary, or editorial of any broadcasting station, newspaper, magazine, or other periodical publication unless the facility is owned or controlled by any political party, political committee, or candidate, in which case a news story which (1) represents a bona fide news account communicated in a publication of general circulation or on a licensed broadcasting facility, and (2) is part of a general pattern of campaign-related news accounts which give reasonably equal coverage to all opposing candidates in the circulation or listening area, shall not be a contribution.

(9) Any payment made or obligation incurred by a corporation or a labor organization which, under the provisions of Part 114, would not constitute an expenditure by the corporation or labor organization.

(10) An honorarium, and related expenses, within the meaning of § 110.12.

(11) Legal or accounting services rendered to or on behalf of the national committee of a political party (unless the person paying for the services is not the regular employer of the individual rendering the services), other than services attributable to activities which directly further the election of a designated candidate or candidates for Federal office. For purposes of this paragraph and paragraph 12, a partnership shall be deemed to be the regular employer of a partner.

(12) Legal or accounting services rendered to or on behalf of a candidate or political committee solely for the purpose of ensuring compliance with this Act or chapter 95 or 96 of the Internal Revenue Code of 1954 (unless the person paying for the services is not the candidate, committee, or other regular employer of the individual rendering the services), but amounts paid or incurred for these services shall be reported in accordance with Part 104.

(13) A loan of money by a national or State bank made in accordance with applicable banking laws and regulations, and in the ordinary course of business, but these loans (i) shall be reported in accordance with Part 104; and (ii) shall be considered a loan by each endorser or guarantor, in that proportion to the unpaid balance that each endorser or guarantor bears to the total number of endorsers or guarantors.

(14) A gift, subscription, loan, advance, or deposit of money or anything of value made to a national committee of a political party or a State committee of a political party which is specifically designated for the purpose of defraying any cost incurred with respect to the construction or purchase of any office facility and which is not for the purpose of influencing the election of any candidate in any particular election for Federal office, except that such a transaction shall be reported in accordance with Part 104.

(15) A gift, subscription, loan, advance, or deposit of money or anything of value made with respect to the recount of the results of a Federal election, or an election contest concerning a Federal election, except when made by an organization subject to the prohibitions of § 114.2.

§ 100.5 Support.

The term "support" means to make a contribution of any amount or value to, or to make an expenditure of any amount or value on behalf of, a candidate or political committee, but see § 102.11(c).

§ 100.6 Election.

"Election" means the process by which individuals, whether opposed or unopposed, seek nomination for election, or election, to Federal office. Specific types of elections, defined below, are included in this definition.

(a) *General election.* "General election" means—

(1) An election held in even numbered years on the Tuesday next after the first Monday in November, or

(2) An election which is held to fill a vacancy in a Federal office (special election) and which is intended to result in the final selection of a single individual to the office at stake.

(b) *Primary election.* (1) "Primary election" means an election—

(i) Which is held prior to a general election, as a direct result of which candidates are nominated, in accordance with applicable State law, for election to Federal office in a subsequent election, or

(ii) Which is held for the expression of a preference for the nomination of persons for election to the office of President of the United States, or

(iii) Which is held to elect delegates to a national nominating convention.

(2) With respect to individuals seeking Federal office as independent candidates, or without nomination by a major party (as defined in 26 U.S.C. § 9002(6)), the primary election is considered to occur, at the choice of the candidate—

(i) The day prescribed by applicable State law as the last day to qualify for a position on the general election ballot, or

(ii) The date of the last major party primary election, caucus or convention in that State, or

(iii) In the case of non-major parties, the date of the nomination by that party.

(c) *Runoff election.* "Runoff election" means the election held after a

(1) Primary election, and prescribed by applicable State law as the means for deciding which candidate(s) should be certified as a nominee for the Federal office sought, or

(2) General election, and prescribed by applicable State law as the means for deciding which candidate should be certified as an officeholder elect.

(d) *Caucus or Convention.* A caucus or convention of a political party which has authority to select a nominee is an election.

(e) *Special election.* "Special election" means an election which is held to fill a vacancy in a Federal office, and which may be a primary, general, or runoff election.

§ 100.7 Expenditure.

(a) "Expenditure" means—

(1) A purchase, payment, distribution, loan, advance, deposit, or gift of money or anything of value, made for the purpose of influencing the nomination for election, or election, of any person to Federal office, or to the office of Presidential or Vice Presidential elector; or for the purpose of influencing the result of a primary election, caucus or convention held for the selection of delegates for a national nominating convention of a political party or for the expression of a preference for the nomination of persons for election to the office of President. For purposes of paragraph (1)—

(i) The term "payment"

(A) Includes payment of any interest on an obligation; and

(B) Includes a guarantee or endorsement by a candidate or a political committee of a loan;

(C) Does not include the repayment of the principal of an outstanding obligation, the proceeds of which constituted a contribution under these regulations, except that the repayment shall be reported.

(ii) The term "money" includes currency of the United States or of any foreign nation, checks, money orders, or any other negotiable instrument payable on demand.

(iii) The term "anything of value" includes securities, goods, facilities, equipment, supplies, personnel, advertising, services, membership lists commonly offered or used commercially, or other in-kind contributions provided without charge (other than volunteer services under § 100.4(b)(2)) or at a charge which is below the usual and normal charge for the items. The amount of the expenditure of a thing of value is the difference between the usual and normal charge for the goods or services at the time of the expenditure and the amount charged for the candidate or committee. For purposes of this paragraph,

(A) "Usual and normal charge" for goods means the price of those goods in the market from which they ordinarily would have been purchased at the time of their contribution.

(B) "Usual and normal charge" for services, other than those provided by an unpaid volunteer, means the hourly or piecework rate charge for the services prevailing at the time the services were rendered.

(2) A written contract, promise, or agreement, whether or not legally enforceable, to make any expenditure.

(3) A transfer of funds by a political committee to another political committee or candidate. A transfer occurs whenever the treasurer or other designated agent of the transferee committee or the candidate obtains control over the funds.

(4) An independent expenditure, which meets the requirements of Part 109, except that such independent expenditure is to be reported by the person making the expenditure as set forth in Part 109.

(b) The term "expenditure" does not include—

(1) Contributions by an individual from personal funds to a political committee or candidate.

(2) Payments made for the purpose of determining whether an individual should become a candidate, such as those incurred in conducting a poll, if the individual does not otherwise subsequently become a candidate. If the individual becomes a candidate, the payments are expenditures, and must be reported with the first report filed by the candidate or the principal campaign committee of the candidate, as appropriate, regardless of the date the payments were made.

(3) Any news story, commentary, or editorial of any broadcasting station, newspaper, magazine, or other publication, unless the facility is owned or controlled by any political party, political committee or candidate, in which case a news story which (i) represents a bona fide news account communicated in a publication of general circulation or on a licensed broadcasting facility, and (ii) is part of a general pattern of campaign-related news accounts which give reasonably equal coverage to all opposing candidates in the circulation or listening area, shall not be an expenditure.

(4) Nonpartisan activity designed to encourage individuals to register to vote or to vote. For purposes of this section, nonpartisan activity means that no ef-

V 41 166 AUG 25 76 UMI

fort is made to determine the party or candidate preference of individuals before encouraging them to register to vote or to vote.

(5) Any communication by a membership organization to its members or by a corporation to its stockholders or executive or administrative personnel, so long as the membership organization or corporation is not organized primarily for the purpose of influencing the nomination for election, or election, of any individual to Federal office, except that the costs incurred by a membership organization, including a labor organization, or by a corporation, directly attributable to a communication expressly advocating the election or defeat of a clearly identified candidate (other than a communication primarily devoted to subjects other than the express advocacy of the election or defeat of a clearly identified candidate) shall, if those costs exceed $2,000 per election, be reported to the Commission on FEC Form 7. For the purposes of this paragraph—

(i) "Labor organization" means an organization of any kind (any local, national, or international union, or any local or State central body of a federation of unions is each considered a separate labor organization for purposes of this section) or any agency or employee representative committee or plan, in which employees participate and which exists for the purpose, in whole or in part, or dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work.

(ii) "Stockholder" means a person who has a vested beneficial interest in stock, has the power to direct how that stock shall be voted, if it is voting stock, and has the right to receive dividends.

(iii) "Executive or administrative personnel" means individuals employed by a corporation who are paid on a salary rather than hourly basis and who have policymaking, managerial, professional, or supervisory responsibilities.

(A) This definition includes—

(*1*) Individuals who run the corporation's business, such as officers, other executives, and plant, division, and section managers; and

(2) Individuals following the recognized professions, such as lawyers and engineers.

(B) This definition does not include—

(*1*) Professionals who are represented by a labor organization;

(2) Salaried foremen and other salaried lower level supervisors having direct supervision over hourly employees;

(3) Former or retired personnel who are not stockholders; or

(*4*) Individuals who may be paid by the corporation, such as consultants, but who are not employees, within the meaning of 26 CFR 31.3401(c)–(1) of the corporation for the purpose of the collection of, and liability for, employee tax under 26 CFR 31.3402(a)–1.

(C) Individuals on commission may be considered executive or administrative personnel if they have policymaking, managerial, professional, or supervisory responsibility and if the individuals are employees, within the meaning of 26 CFR 31.3401(c)–(1) of the corporation for the purpose of the collection of, and liability for, employee tax under 26 CFR 31.3402(a)–1.

(D) The Fair Labor Standards Act, 29 U.S.C. § 201, *et seq.* and the regulations issued pursuant to the Act, 29 CFR 541, may serve as a guideline in determining whether individuals have policymaking, managerial, professional, or supervisory responsibilities.

(iv) "Members" means all persons who are currently satisfying the requirements for membership in a membership organization, trade association, cooperative, or corporation without capital stock and in the case of a labor organization, persons who are currently satisfying the requirements for membership in a local, national, or international labor organization. Members of a local union are considered to be members of any national or international union of which the local union is a part and of any federation with which the local, national, or international union is affiliated. A person is not considered a member under this definition if the only requirement for membership is a contribution to a separate segregated fund.

(v) "Election" means two separate processes in a calendar year, to each of which the $2,000 threshold described above applies separately. The first process is comprised of all primary elections for Federal office, wherever held; the second process is comprised of all general elections for Federal office, wherever held;

(vi) "Corporation" means any separately incorporated entity, whether or not affiliated.

(vii) When the aggregate costs exceed $2,000 per election, all costs of the communication shall be reported on the filing dates provided in § 104.4, and shall include the total amount expended for each candidate supported.

(6) The rental value of an individual's residence used for campaign-related activity.

(7) The use of real or personal property and the cost of invitations, food, and beverages, voluntarily provided without charge by an individual, in rendering voluntary personal services to a candidate on the individual's residential premises, to the extent that the cumulative value of those activities by the individual on behalf of a candidate do not exceed $500 with respect to an election. For purposes of this paragraph an expenditure by a married individual shall not be attributed to a spouse.

(8) Any unreimbursed payments for transportation expenses made by an individual in volunteering services to a candidate, to the extent that the cumulative value of the payments does not exceed $500 for an election. Additionally, any unreimbursed payment from a volunteer's personal funds for usual and normal living expenses incident to volunteer activity are not expenditures.

(9) Any communication by a person which is not made for the purpose of influencing the nomination for election, or election, of an individual to Federal office.

(10) Any payments by the candidate from non-campaign funds for routine living expenses of the candidate which would have been incurred without candidacy, including food and residence.

(11) The payment of the costs of preparation, display, or mailing or other distribution incurred by a State or local committee of a political party with respect to a printed slate card, sample ballot, palm card, or other printed listing, of three or more candidates for any public office for which an election is held in the State in which the committee is organized. This paragraph shall not apply in the case of costs incurred by a committee with respect to the preparation and display of listings made on broadcasting stations, or in newspapers, magazines, and similar types of general public political advertising, such as billboards, posters, and signs.

(12) Any payment made or obligation incurred by a corporation or a labor organization which, under the provisions of Part 114 and 2 U.S.C. § 441b, would not constitute an expenditure by the corporation or labor organization.

(13) (i) Any costs incurred by a candidate or his or her authorized committees in connection with the solicitation of contributions by a candidate who has received Presidential Primary Matching Fund Payments (or a minor new party candidate receiving general election public financing under 26 U.S.C. § 9004), not exceeding 20% of the expenditure limitation applicable to the candidate, but these costs shall be reported under Part 104.

(ii) For purposes of this paragraph, "in connection with the solicitation of contributions" means any cost reasonably related to fundraising activity, including the costs of printing and postage, the production of and space or air time for, advertisements used for fundraising, and the costs of meals, beverages, and other costs associated with a fundraising reception or dinner.

(iii) The fundraising expenditures need not be allocated on a State by State basis, except where the fundraising activity is aimed at a particular State and takes place within 28 days of a primary election, convention, or caucus, see § 110.8(c).

(14) Legal or accounting services rendered to or on behalf of the national committee of a political party (unless the person paying for the services is not the regular employer of the individual rendering the services), other than services attributable to activities which directly further the election of a designated candidate or candidates for Federal office. For purposes of this paragraph and paragraph (15), a partnership shall be deemed to be the regular employer of a partner.

(15) Legal or accounting services rendered to or on behalf of a candidate or political committee solely for the purpose of ensuring compliance with this Act or chapter 95 or 96 of the Internal Revenue Code of 1954 (unless the person paying for the services is not the candidate, committee, or other regular employer of the individual rendering the services), but amounts paid or incurred for these services shall be reported in accordance with Part 104.

(16) A loan of money by a national or State bank made in accordance with the applicable banking laws, but such a loan shall be made in accordance with § 100.4(b)(13), and shall be reported in accordance with Part 104.

(17) A purchase, payment, distribution, loan, advance, deposit, or gift of money or anything of value made with respect to the recount of the results of a Federal election, or an election contest concerning a Federal election, except when made by an organization subject to the prohibitions of § 114.2.

§ 100.8 Federal office.

"Federal office" means the office of President, or Vice President of the United States, Senator or Representative in, or Delegate or Resident Commissioner to, the Congress of the United States.

§ 100.9 File, filed, or filing.

"File," "filed," and "filing" mean with respect to reports and statements required to be filed under this chapter—

(a) Delivery to the Federal Election Commission, 1325 K Street NW., Washington, D.C. 20463; the Secretary of the Senate, Washington, D.C. 20510; or the Clerk of the House of Representatives, Washington, D.C. 20515, as required by Part 105, by the close of the prescribed filing date, or

(b) (1) deposit as registered or certified mail in an established U.S. Post Office and postmarked no later than midnight of the day of the filing date, except that pre-election reports so mailed must be postmarked not later than midnight of the twelfth day before the date of the election.

(2) Reports and statements sent by first class mail must be received by the close of business of the prescribed filing date to be timely filed.

§ 100.10 Identification.

"Identification" means (a) in the case of an individual, his or her full name, including first name, middle name or initial, if available, last name, and full address of his or principal place of residence, and (b) in the case of any other person, the full name and mailing address.

§ 100.11 Occupation.

"Occupation" means principal job title or position and whether or not self-employed.

§ 100.12 Principal place of business.

"Principal place of business" means the full name under which the business is conducted and the city and state in which the person is employed or conducts business.

§ 100.13 Person.

"Person" means an individual, partnership, committee, association, corporation, labor organization, and any other organiztaion or group of persons.

§ 100.14 Political committee.

"Political committee" means any committee, club, association, or other group of persons which anticipates receiving, or receives contributions, or makes expenditures, totalling more than $1,000 in value during a calendar year, and means any principal campaign committee.

(a) The following are political committees:

(1) *Principal compaign committee.* "Principal campaign committee" means the political committee designated by a candidate as his or her principal campaign committee pursuant to § 101.2.

(2) *Single candidate committee.* "Single candidate committee" means a political committee other than a principal campaign committee which makes or receives contributions or makes expenditures on behalf of only one candidate.

(3) *Multicandidate committee.* "Multicandidate committee" means a political committee which (i) has been registered with the Commission, Clerk, or Secretary for at least 6 months; (ii) has received contributions for Federal elections from more than 50 persons; and (iii) (except for any State political party organization) has made contributions to 5 or more Federal candidates, see § 110.2.

(4) *Party committee.* "Party committee" means a political committee which represents a political party and is part of the official party structure at the national, State, or local level.

(b) A political committee is either an authorized committee or an unauthorized committee.

(1) *Authorized committee.* An "authorized committee" is a political committee which is empowered in writing by a candidate to solicit or receive contributions or make expenditures on behalf of the candidate, or has not been disavowed pursuant to § 100.2(c).

(2) *Unauthorized committee.* An "unauthorized committee" is a political committee which has not been authorized in writing by a candidate to solicit or receive contributions or make expenditures on behalf of the candidate, or has been disavowed pursuant to § 100.2(c).

(c) *Affiliated committee.* (1) All authorized committees of the same candidate are affiliated.

(2) All commitees (including a separate segregated fund, see Part 114) established, financed, maintained, or controlled by the same corporation, labor organization, person, or group of persons, including any parent, subsidiary, branch, division, department, or local unit thereof, are affiliated.

(i) Application of the rule of this paragraph means that—

(A) All political committees set up by a single corporation and/or its subsidiaries are affiliated;

(B) All political committees set up by a single national or international union and/or its local unions or other subordinate organizations of the national or international union are affiliated;

(C) All of the political committees set up by an organization of national or international unions and all its State and/or local central bodies are affiliated;

(D) All political committees (other than party committees) established by a member organization, including a trade or professional association, see § 114.8(a), and/or by related State and local entities, are affiliated;

(E) All the political committees established by the same person or group of persons are affiliated.

(ii) For organizations not covered by (i) above, indicia of establishing, financing, maintaining, or controlling, include—

(A) Ownership of a controlling interest in voting shares or securities;

(B) Provisions of bylaws, constitutions, or other documents by which one entity has the authority, power, or ability to direct another entity;

(C) The authoriy, power, or ability to hire, appoint, discipline, discharge, demote, or remove or otherwise influence the decision of the officers or members of an entity;

(D) Similar patterns of contributions;

(E) The transfer of funds between committees which represent a substantial portion of the funds of either the transferor or transferee committee, other than the transfer of funds between the committees which jointly raised the funds so transferred.

§ 100.15 Connected organization.

"Connected organization" means any organization which is not a political committee but which directly or indirectly establishes, administers, or financially supports the registrant such as a corporation (including one without capital stock), a labor organization, a membership organization, a cooperative, or trade association.

§ 100.16 Political party.

"Political party" means an association, committee, or organization which nominates or selects a candidate for election to any Federal office, whose name appears on an election ballot as the candidate of the association, committee, or organization.

§ 100.17 National committee.

"National committee" means the organization which, by virtue of the bylaws of a political party, is responsible for the day-to-day operation of the political party at the national level.

§ 100.18 State.

"State" means each State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

§ 100.19 State committee, subordinate committee.

(a) "State committee" means the organization which, by virtue of the by-

V 41 166 AUG 25 76 UMI

laws of a political party, is responsible for the day-to-day operation of the political party at the State level.

(b) "Subordinate committee of a State committee" means any organization which is responsible for the day-to-day operation of the political party at the level of city, county, neighborhood, ward, district, precinct, or any other subdivision of a State, or any organization under the control or direction of the State committee.

§ 100.20 Act.

"Act" means the Federal Election Campaign Act of 1971, as amended by the Federal Election Campaign Act Amendments of 1974, and 1976, and, unless specifically excluded, includes chapters 95 and 96 of the Internal Revenue Code of 1954 relating to the public financing of Federal elections.

PART 101—CANDIDATE STATUS AND DESIGNATIONS

Sec.
101.1 Duration of candidate status.
101.2 Candidate designations.
101.3 Waiver of candidate reporting.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 86 Stat. 1279, and amended by secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 101.1 Duration of candidate status.

Once an individual becomes a candidate under § 100.2 and does not have a waiver of candidate reporting under § 101.3, he or she continues to be a candidate for reporting purposes until all debts and obligations for which the candidate is personally obligated arising in connection with the election are extinguished. Candidacy then may be terminated by letter, containing the information required by § 102.4; see § 102.4 for termination of committees.

§ 101.2 Candidate designations.

(a) Within 30 days after attaining candidate status an individual is required to file a Statement of a Candidate for Nomination or Election to Federal Office on FEC Form 2, or file by a letter containing the same information in which such candidate shall—

(1) Designate a principal campaign committee in accordance with § 102.11, and

(2) Designate at least one national or State bank as a campaign depository under § 103.1.

(b) The candidate shall file a Statement of Authorization on FEC Form 2a or by letter containing the same information for any political committee other than a principal campaign committee which will be authorized to accept contributions or make expenditures on behalf of that candidate.

(c) The candidate shall commence filing personal reports of receipts and expenditures in accordance with Part 104, unless a waiver of personal reporting is obtained under § 101.3, or unless reporting is exempted under §§ 104.1(c), 104.4(d)(2), or 104.4(f).

(d) If the candidate, or his or her authorized committee(s), receive contributions designated for the general election prior to the date of the primary election, the candidate or his or her authorized committee(s) shall use an acceptable accounting method to distinguish between contributions received for the primary election and contributions received for the general election. Acceptable methods include but are not limited to (1) the designation of separate accounts for each election, caucus, or convention and (2) the establishment of separate books and records for each election.

§ 101.3 Waiver of candidate reporting.

A candidate is relieved of the duty personally to file reports and keep records of receipts and expenditures if the candidate states on FEC Form 2 or in a letter that—

(a) Within 5 days after personally receiving a contribution, the candidate will surrender possession of the entire contribution to the treasurer of his or her principal campaign committee without expending any of the proceeds thereof. No contributions shall be commingled with the candidate's personal funds or accounts. Contributions conveyed by check, money order, or other written instrument shall be consigned directly to the political committee and shall not be cashed or redeemed by the candidate.

(b) The candidate shall not make any unreimbursed expenditures for his or her campaign, except that this paragraph does not preclude a candidate from making an expenditure from personal funds to the candidate's designated principal campaign committee which shall be reported by the committee as a contribution received.

(c) The waiver shall continue in effect as long as the candidate complies with the conditions under which it was granted.

PART 102—REGISTRATION AND ORGANIZATION OF POLITICAL COMMITTEES

Sec.
102.1 Registration of political committees.
102.2 Forms and filing.
102.3 Change or correction in information.
102.4 Termination of registration.
102.5 Identification number.
102.6 Federal committees and accounts; separation of Federal and non-Federal funds.
102.7 Organization of political committees.
102.8 Receipt of contributions.
102.9 Accounting for contributions and expenditures.
102.10 Petty cash fund.
102.11 Designation of principal campaign committee.
102.12 Authorization of political committees.
102.13 Notice; solicitations of contributions.
102.14 Records; retention.
102.15 Segregated funds.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315 (a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 102.1 Registration of political committees.

(a) Each political committee except as specified in paragraphs (b) and (c), shall file a Statement of Organization with the Federal Election Commission, the Secretary of the Senate, or the Clerk of the House, as appropriate, within 10 days after the date of its organization, or within 10 days after the date on which the committee has information which causes it to anticipate receiving contributions or making expenditures exceeding $1,000 in a calendar year for Federal candidates, whichever is later, and, in the case of a principal campaign committee, within 10 days of when it is designated by the candidate.

(b) Each authorized committee shall file the Statement of Organization required by paragraph (a) of this section, and any amendment thereto, or termination thereof required by sections 102.3 or 102.4 of this Part, with the affiliated principal campaign committee. The principal campaign committee shall file a copy of this Statement, amendment, or termination as in paragraph (a) of this section.

(c) A political committee which has previously filed a Statement of Organization with the Commission, the General Accounting Office, the Clerk of the House of Representatives or the Secretary of the Senate, and has not validly terminated is not required to file a new Statement.

§ 102.2 Forms and filing.

(a) The Statement of Organization shall be filed on Federal Election Commission Form 1, which may be obtained from the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463. The Statement, to be signed by the treasurer, shall include the following:

(1) The name, address, and type (see § 100.14) of committee;

(2) The names, addresses, and relationships of affiliated and connected organizations (see paragraph (b) of this section);

(3) The area, scope, or jurisdiction of the committee;

(4) The name, address, and committee position of the custodian of books and accounts;

(5) The name, address, and committee position of other principal officers, including the assistant treasurer and assistant chairman (if any) and the officers and members of the finance committee, if any;

(6)(i) The name, address, office sought, and party affiliation of (A) each candidate for Federal office whom the committee is supporting and (B) each candidate whom the committee is supporting for nomination or election to any other public office; or if the committee is supporting the entire ticket of any party, the name of the party and the State in which the election is held.

(ii) If a committee wishes to terminate support, it shall amend its statement of organization;

(7) A statement whether the committee's existence will continue beyond the calendar year;

(8) The disposition of residual funds which will be made in the event of dissolution;

(9) A listing of all banks, safety deposit boxes, or other repositories used;

(10) A statement listing any reports (other than those required by these regulations) regarding candidates for Federal office filed under State or local law by the committee with State or local officers, and the names, addresses, and positions of such officers. See 2 U.S.C. § 453, and § 108.7 of these regulations.

(b)(1) "Affiliated organization" means an affiliated committee as defined in § 100.14(c).

(i) Only a principal campaign committee is required to disclose the name and address of all other authorized committees of its candidate; other authorized committees need only disclose the name of their principal campaign committee.

(ii)(A) Only political committees established by a single parent corporation, a single national or international union, a single organization or federation of national or international unions, a single national membership organization or trade association, or any other similar group of persons (other than political party organizations) are required to disclose the names and addresses of all political committees established by any subsidiary, or by any State, local, or other subordinate unit of a national or international union or federation thereof, or by any subordinate units of a national membership organization, trade association, or other group of persons (other than political party organizations).

(B) Political committees established by subsidiaries of State, local, or other subordinate units are only required to disclose the name and address of each political committee established by their parent or superior body, *e.g.*, parent corporation, national or international union or organization or federation of such unions, or national organization or trade association.

(2) "Connected organization" includes any organization defined in § 100.15.

§ 102.3 Change or correction in information.

Any change or correction in the information previously filed in the Statement of Organization shall be reported within 10 days following the date of the change or correction by filing an amended Statement of Organization or by filing a letter noting the change(s). The amendment need list only the change or correction.

§ 102.4 Termination of registration.

(a) Any political committee (except a principal campaign committee) not having outstanding debts or obligations owed to or by it incurred on behalf of Federal candidates which, after having filed one or more Statements of Organization, seeks to disband or determines that it will no longer receive contributions or make expenditures during the calendar year in an aggregate amount exceeding $1,000, shall file a notice of termination on FEC Form 3, FEC Form 6 or by letter containing the same information with the Commission, the Clerk of the House or the Secretary of the Senate, as appropriate. The notice shall contain a final report of receipts and disbursements, including a statement as to the disposition of residual funds if the committee is disbanding.

(b) A principal campaign committee may not terminate until—

(1) All debts of other authorized committees of the candidate have been extinguished, and,

(2) The candidate has terminated candidate status under § 101.1.

§ 102.5 Identification number.

Upon receipt of a Statement of Organization under this Part, or upon Commission review of statements already filed, an identification number shall be assigned to the statement, receipt shall be acknowledged, and the political committee shall be notified of the number assigned. This identification number shall be entered by the political committee on all subsequent reports or statements filed under the Act, as well as on all communications concerning reports and statements.

§ 102.6 Federal committees and accounts; separation of Federal and non-Federal funds.

(a)(1) Each State committee, and each subordinate committee of the State committee (see § 100.19), which intends to solicit, receive, or make contributions or expenditures, in excess of $1,000, to, for, or on behalf of, any candidate for Federal office, or

(2) Any political committee which has solicited or received contributions for or on behalf of, or made expenditures or transfers to or on behalf of, any candidate for Federal office, shall either—

(i) Establish a separate Federal campaign committee which shall register as a political committee. The Federal campaign committee shall establish a segregated Federal account in either a national or State bank; or

(ii) Establish a single committee with a single account to make contributions to Federal and non-Federal candidates, but only if all contributions received are permissible under the Act, and all contributors are informed that all contributions are subject to the limitations of §§ 110.1, 110.2, and 110.5.

(b) The accounts and committees in (a)(2)(i) and (ii) above—(1) may not receive contributions other than contributions designated for the Federal committee or account, contributions received as a result of a solicitation which expressly states that the contribution will be used for Federal elections, or contributions from contributors who are informed that all contributions are subject to the limitations of §§ 110.1, 110.2, and 110.5; or (2) may not receive transfers from an account or committee established by a State committee, subordinate committee of a State committee, or another political committee, except from a committee or account set out in (i) and (ii).

(c) The Federal campaign committee or account may make transfers for any lawful purpose. The committee shall file a Statement of Organization and shall file reports and statements pursuant to Part 104.

§ 102.7 Organization of political committees.

(a) Every political committee shall have a chairman and a treasurer, who shall not be the same individual.

(b) A political committee may designate—

(1) A vice chairman who shall assume the duties and responsibilities of the chairman in the event of a temporary or permanent vacancy in the office;

(2) An assistant treasurer who shall assume the duties and responsibilities of the treasurer in the event of a temporary or permanent vacancy in the office.

(c) No contribution or expenditure shall be accepted or made by or on behalf of a political committee at a time when there is a vacancy in the office of the chairman or the treasurer.

(d) No expenditure shall be made for or on behalf of a political committee without the authorization of its chairman or treasurer, or an agent authorized orally or in writing by the chairman or treasurer.

§ 102.8 Receipt of contributions.

Every person who is not an authorized agent of the treasurer or candidate, and who receives contributions aggregating in excess of $50 on behalf of a political committee or candidate shall, on demand of the treasurer or candidate, and in any event within 5 days after receipt, render to the treasurer or an authorized agent or the candidate an accounting thereof, which shall include—

(a) The exact amount of the contribution and the date received, and

(b) The identification of the contributor and, in the case of a contribution with a value in excess of $100, the occupation and principal place of business or employment, if any.

§ 102.9 Accounting for contributions and expenditures.

It shall be the duty of a candidate (not having received a waiver under § 101.3) and of the treasurer of a political committee or an agent authorized by the treasurer to receive contributions and/or make expenditures to—

(a) Keep an account of all contributions made to or for the committee or candidate, and record

(1) The identification of every person making a contribution in excess of $50;

V 41 166 AUG 25 76 UMI

(2) The occupation and principal place of business of individuals whose contributions aggregate in excess of $100 in a calendar year;

(3) The date received; and

(4) The amount of the contribution.

(b) Keep an account of all expenditures made by or on behalf of the committee or candidate, and record

(1) The identification of every person to whom any expenditure is made;

(2) The date of the expenditure;

(3) The amount of the expenditure;

(4) The name and address of each candidate on whose behalf the expenditure was made; and

(5) The office sought by the candidate.

(c) Obtain and keep a receipted bill from the person to whom the expenditure is made for every expenditure made by or on behalf of the committee or candidate—

(1) In excess of $100;

(2) In a lesser amount if the aggregate amount of expenditures during a calendar year to the same person exceeds $100;

(3) The receipted bill shall contain—

(i) The identification of the person to whom the exenditure is made;

(ii) The amount of the expenditure;

(iii) The purpose of the expenditure; and

(iv) The date the expenditure was made.

(4) Instead of a receipted bill, the treasurer may keep—

(i) The canceled check(s) showing payment(s) of the bill; and

(ii) The bill, invoice, or other contemporaneous memorandum of the transaction containing the same information as required in (3) above.

(d) Keep full and complete records of proceeds from the sale of tickets and mass collections at each dinner, luncheon, rally, and other fundraising events, including the date, location, and nature of each event. He or she shall also keep full and complete records of the proceeds from the sale of items such as political campaign pins, buttons, badges, flags, emblems, hats, banners, literature, jewelry, and similar materials, and these records shall reflect the cost of the items to the committee, the sale price, and the total volume sold. These records shall be preserved in accordance with Part 104.

(e) Use his or her best efforts to obtain the required information, and shall keep a complete record of the efforts to do so. If there is a showing that best efforts have been made, the reporting candidate or committee shall be deemed to be in compliance with this section.

§ 102.10 Petty cash fund.

A political committee may maintain a petty cash fund out of which it may make expenditures not in excess of $100 to any person in connection with a single purchase or transaction. If a petty cash fund is maintained, it shall be the duty of the treasurer of the political committee to keep and maintain a written journal of all disbursements, including the purpose of each disbursement from the fund. The treasurer need not preserve receipts or invoices in connection with the transaction except as provided in § 102.9(c). A check made payable to "cash" shall not be made in excess of $100 except to replenish a petty cash fund.

§ 102.11 Designation of principal campaign committee.

(a) Each candidate for Federal office (other than for election to the office of Vice President of the United States), shall designate a political committee as his or her principal campaign committee (see § 101.2), even if the candidate does not plan to use the committee to receive or expend funds. Each principal campaign committee shall register and report, whether or not otherwise required to do so under § 102.1(a).

(b) No political committee may be designated as the principal campaign committee of more than one candidate.

(c) No political committee which supports more than one candidate may be designated as a principal campaign committee, except that, after nomination, a candidate for the office of President of the United States may designate the national committee of a political party as his or her principal campaign committee.

(1) For purposes of this paragraph, any occasional, isolated, or incidental support of a candidate shall not be construed as "support" of that candidate.

(2) For purposes of this paragraph, "occasional, isolated, or incidental support" means making contributions to, or expenditures on behalf of, a candidate from another candidate's principal campaign committee not exceeding $1000 for any election when combined with any personal contributions from the contributor candidate, except that the national committee of a political party which has been designated as the principal campaign committee of that party's Presidential candidate may contribute to another candidate. See Part 110.

§ 102.12 Authorization of political committees.

(a) (1) Any political committee authorized by a candidate to receive contributions or make expenditures shall be authorized in writing by the candidate. The authorization shall include a designation of campaign depositories to be used by such political committee in accordance with § 101.2 and Part 103.

(2) If an individual fails to disavow activity pursuant to § 100.2(c) and is therefore a candidate upon notice by the Commission, he or she shall authorize the committee in writing and designate a campaign depository in accordance with § 101.2 and Part 103.

(b) A candidate is not required to authorize a national, State or subordinate State party committee which solicits funds to be expended on the candidate's behalf pursuant to § 110.7.

§ 102.13 Notice; solicitations of contributions.

Each political committee shall include on the face or front page of all printed literature and advertisements soliciting contributions and at the beginning or end of any broadcast solicitation the following notice:

"A copy of our report is filed with the Federal Election Commission and is available for purchase from the Federal Election Commission, Washington, D.C."

§ 102.14 Records; retention.

The treasurer of a political committee shall preserve all receipts, bills, accounts, and all other records in accordance with the requirements of § 104.12.

§ 102.15 Segregated funds.

All funds of a political committee shall be segregated from, and may not be commingled with, any personal funds of officers, members, or associates of that committee.

PART 103—CAMPAIGN DEPOSITORIES

Sec.

103.1 Notification of the Commission.
103.2 Depositories.
103.3 Deposits and expenditures.
103.4 Vice-Presidential candidate campaign depositories.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by secs. 208 (a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 103.1 Notification of the Commission.

Each committee shall notify the Commission of the banks it has designated as its depositories, pursuant to §§ 101.2 and 102.3.

§ 103.2 Depositories.

Only national or State banks chartered by the United States or a State may be designated as campaign depositories. One or more depositories may be established in one or more States. One or more accounts may be established in a depository.

§ 103.3 Deposits and expenditures.

(a) All contributions received by a candidate, his or her authorized political committee(s), and any other political committee(s) shall be deposited in a checking account in the appropriate campaign depository by the candidate, or by the treasurer of the committee or his or her agent, within 10 days of the candidate's or treasurer's receipt thereof. An expenditure may be made by a candidate or committee only by check drawn on an account in a designated campaign depository, except for expenditures of $100 or less made from a petty cash fund maintained pursuant to § 102.10. Funds may be transferred from the depository for investment purposes, but shall be returned to the depository before expenditures are made.

(b) Contributions which appear to be illegal shall be, within 10 days—

(1) Returned to the contributor; or

(2) Deposited into the campaign depository, and reported in which case the treasurer shall make and retain a written record noting the basis for the appearance of illegality. The treasurer shall make his or her best efforts to determine the legality of the contribution. Refunds shall be made when a contribution cannot be determined to be legal within a reasonable time, and the treasurer shall so note by amending the current report or noting the change on the candidate's or committee's next required report.

§ 103.4 Vice-Presidential candidate campaign depositories.

The campaign depository(ies) designated by a political party's candidate for President shall be the campaign depository(ies) of that political party's candidate for the office of Vice President.

PART 104—REPORTS BY POLITICAL COMMITTEES AND CANDIDATES

Sec.

104.1 General.
104.2 Form and content of reports.
104.3 Disclosure of receipt and consumption of in-kind contributions.
104.4 Filing dates.
104.5 Uniform reporting of contributions.
104.6 Uniform reporting of expenditures.
104.7 Allocation of expenditures among candidates.
104.8 Continuous reporting of debts and obligations.
104.9 Waiver of reporting requirements.
104.10 Political committees; cash on hand.
104.11 Members of Congress; reporting exemption.
104.12 Formal requirements regarding reports and statements.
104.13 Sale or use restriction.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by secs. 208 (a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 104.1 General.

(a) Each political committee registered with the Commission, the Clerk of the House, the Secretary of the Senate, or with a principal campaign committee (see Part 102 of this subchapter) shall file quarterly reports of contributions and expenditures (unless waived) until—

(1) All debts and obligations relating to that committee's Federal election activity are extinguished; and

(2) The committee has filed a valid Notice of Termniation, see § 102.4.

(b) Each candidate for Federal office (other than a Vice-Presidential candidate) shall file quarterly reports of contributions and expenditures until all debts and obligations relating to that candidacy on which he or she is personally obligated are extinguished, unless the candidate is granted a waiver pursuant to § 101.3, or has terminated candidate status under § 101.1.

(c) (1) (i) A political committee or candidate is exempt from filing a quarterly report if the political committee or candidate did not receive contributions in excess of $1,000 or make expenditures in excess of $1,000 in that quarter.

(ii) In an election year, a candidate or committee with outstanding debts and obligations shall file a 4th quarter report, even if contributions or expenditures do not exceed $1,000.

(2) In any non-election year the candidate and his or her authorized committees shall only be required to file quarterly reports for a calendar quarter in which the candidate and his or her authorized committees received contributions or made expenditures, or both, the total amount of which, taken together, exceeds $5,000.

(3) (i) The political committee or candidate shall notify the Commission on FEC Form 3a or by letter containing the same information at the close of the first quarter in which the exemption applies; and

(ii) The political committee or candidate shall continue to file the pre-election, post-election and annual reports required by § 104.4 until terminated or waived.

(4) Notwithstanding paragraphs (1) and (2), if the candidate's authorized committees (including a principal campaign committee) in the aggregate receive or expend in excess of $1,000 (or in a non-election year $5,000) all authorized committees shall file reports with the principal campaign committee, which shall file the consolidated report pursuant to § 104.2(c).

§ 104.2 Form and content of reports.

(a) Except as noted below, each report filed by a political committe or candidate under this part shall be on FEC Form 3. For candidates having only one authorized committee which neither receives contributions nor makes expenditures in excess of $50,000 for an election and does not make independent expenditures, see Part 109, the report may be on FEC Form 6. Either reporting form shall reflect all receipts and disbursements of a candidate or committee. Each authorized committee shall file its reports with its principal campaign committee, which shall file a consolidated report with the Commission, Clerk, or Secretary as appropriate. Forms may be obtained from the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463.

(b) Each report filed under this part shall include all receipts and disbursements from the close of the last period reported to the close of the current reporting period, and shall disclose—

(1) The amount of cash on hand at the beginning of the calendar year and at the beginning of the reporting period, including currency, balance on deposit in banks and savings and loan institutions, checks, negotiable money orders, and other paper commonly accepted by a bank in a deposit;

(2) The identification, occupation, and principal place of business, if any, of each person who has made a contribution to or for the committee or candidate during the reporting period in an amount or value in excess of $100, or in an amount of less than $100 if the person's contributions within a calendar year total more than $100, together with the amount and date of such contributions;

(3) (i) The total of contributions made to or for a committee or candidate during the reporting period and not reported under (b)(2) above;

(ii) Candidates and committees, which, in addition to the required totals, choose to itemize contributions not in excess of $100, shall itemize these by attaching a separate schedule. Contributions of $100 or less shall not be reported on the same schedule with the required itemized contributions in excess of $100;

(4) The identification of each political committee or other political organization from which the reporting committee or the candidate received, or to which the reporting committee or the candidate made, any transfer of funds in any amount during the reporting period, together with the amounts and dates of all transfers, including aggregate year to date transfers, received from non-affiliated committees, and complete disclosure, pursuant to §110.6 of each transaction involving earmarked funds;

(5) Each loan—

(i) (A) To or from any political committee; or

(B) To a candidate or his or her authorized committees which is—

(ii) (A) Over $100 in value and made during the reporting period; or

(B) Less than $100 in value and the total of the loans from one person is over $100 shall be reported together with the identification, occupation, and principal place of business, if any, of each lender, endorser, or guarantor, as the case may be. The report shall include the date and amount of the loan;

(6) The total amount of proceeds from—

(i) The sale of tickets to each dinner, luncheon, rally, and other fundraising event;

(ii) Mass collections made at these events; and

(iii) Sales of items such as political campaign pins, buttons, badges, flags, emblems, hats, banners, literature, jewelry, and similar materials, as long as the items are sold by the candidate or an authorized committee;

(7) Each receipt in excess of $100 received during the reporting period, not otherwise listed under (b)(2) through (6) above, together with the identification, date and amount received, occupation, and principal place of business of each such person from whom such receipts have been received during the reporting period; including—

(i) The interest or other proceeds from the investment, in an interest-bearing account, note, bill, stock, bond, or other similar device, of funds transferred out of a checking account in a campaign depository; and

(ii) Rebates and refunds received by the candidate or committee;

(8) (i) The total of all receipts by or for the committee or candidate during the reporting period and the calendar year; and

(ii) Total receipts less transfers between affiliated political committees (as defined in § 100.14(c));

(9) The identification of each person to whom expenditures have been made by or on behalf of the committee or candidate within the reporting period which total more than $100, or in an amount less than $100 if the total exceeds $100 within a calendar year, together with the

V 41 166 AUG 25 76 UM

amount, date, and purpose of each such expenditure and the name and address of, and office sought by, each candidate on whose behalf such expenditures were made;

(10) The total of expenditures made by or on behalf of the committee or candidate during the reporting period and the calendar year together with total expenditures less transfers between affiliated political committees (as defined in § 100.14(c)) of the candidate;

(11) The amount and nature of outstanding debts and obligations owed by or to the committee including any written contracts, agreements, or promises to make contributions or expenditures, see § 104.8;

(12) Independent expenditures, see Part 109.

(c) (1) Except as noted in (2) below, each principal campaign committee shall consolidate in its report for each election the reports required to be filed with it, including (i) the candidate's report (unless waived) and (ii) reports submitted to it by any authorized committees and (iii) the principal campaign committee's own report. The consolidation shall be made on FEC Form 3b and submitted with the reports of the principal campaign committee and the reports or applicable portions of the reports of the committees shown on the consolidation.

(2) For pre-election reports, the principal campaign committee may, if necessary, file the consolidated report disclosing the total receipts and expenditures by all authorized committees with respect to that election without including all of the detailed reports of committees required to file with it.

(i) Committees required to file with a principal campaign committee shall file a copy of their report with the Commission, the Clerk of the House, or the Secretary of the Senate, as custodian for the Commission by the 10th day preceding the election, in addition to filing with the principal campaign committee, unless the principal campaign committee files a complete consolidated report 10 days prior to the election under (c) (1) above.

(ii) The principal campaign committee shall then file a consolidated report no later than 5 days before the election, the report to include the detailed reports from committees required to file with it, if the detailed report was not filed 10 days prior to the election.

§ 104.3 Disclosure of receipt and consumption of in-kind contributions.

(a) (1) Each in-kind contribution shall be valued at the usual and normal charge on the date received and reported if in excess of $100 on the appropriate schedule of receipts, identified as to its nature and listed as an "in-kind contribution."

(2) Except for items noted in (b) below, each contribution shall be reported as an expenditure at the same usual and normal charge and reported on the appropriate expenditure schedule, identified and listed as an "in-kind contribution."

(b) Contributions of stocks, bonds, art objects, and other similar items to be liquidated shall be reported as follows:

(1) If the item has not been liquidated at the close of a reporting period, the committee or candidate shall record as a memo entry (not as cash) the item's fair market value on the date received, including the identification (and where in excess of $100, occupation and principal place of business) of the contributor.

(2) When the item is sold, the committee or candidate shall record the proceeds. It shall also report the (i) identification (and where in excess of $100, the occupation and principal place of business) of the purchaser, if purchased directly from the candidate or committee, in which case he or she shall be considered to have made a contribution, and (ii) the identification of the original contributor.

§ 104.4 Filing dates.

(a) Except as provided otherwise in this section, each treasurer of a political committee supporting a candidate or candidates for election to Federal office, and each candidate for election to that office shall file the reports of receipts and expenditures required under this part.

(b) *Pre-Election and Post-Election Reports.*

(1) Candidates.

(i) Pre-election report.

(A) Individuals not having a waiver under § 101.3 shall file a pre-election report no later than the 10th day before every election in which they are a candidate.

(B) Each report filed by registered or certified mail shall be postmarked not later than the 12th day before the election.

(C) This report shall disclose all receipts and disbursements as of the 15th day before the election.

(ii) Post-election report.

(A) Individuals required to file a pre-election report shall also file a post-election report no later than the 30th day after the election.

(B) This report shall include all receipts and disbursements as of the 20th day after the election.

(2) Principal campaign committees. The principal campaign committee of every candidate shall file pre- and post-election reports in the same manner as specified for candidates by subparagraph (1). The pre-election report shall be a consolidated report of all authorized political committees of the candidate or a detailed report, see § 104.2(c).

(3) Authorized political committees. Authorized political committees shall file pre- and post-election reports with the principal campaign committee, the Commission, the Clerk of the House, or the Secretary of the Senate, as custodian for the Commission pursuant to § 104.2 (c) (2) (i).

(4) All other political committees. All other political committees shall file pre- and post-election reports for each election for which the committee has supported a candidate, unless granted monthly reporting status.

(5) Contributions to Presidential candidates from political committees which are not reporting monthly—

(i) Political committees which make a contribution to a Presidential primary candidate shall file pre- and post-election reports relating to the election next occurring after the contribution is made. A political committee which makes a contribution to a Presidential candidate in the general election shall file a pre- and post-general election report.

(ii) If the contribution is made less than 15 days before an election, the contribution shall be reported on the post election report relating to that election.

(iii) For purposes of this paragraph, contributions to the principal campaign committee of a Presidential candidate are considered contributions relating to the next election in which that candidate is on the ballot or has a slate of authorized delegates on the ballot. If two or more elections are held on one day, the contribution shall be considered to relate to each election on that day in which the candidate is a candidate.

(c) *Annual Report.* In any calendar year in which an individual is a candidate but there is no election for the office sought, an annual report shall include all transactions as of December 31 and shall be filed by January 31 of the following year.

(d) *Quarterly Report.* A report shall be filed on April 10, July 10, October 10, and January 31 following the close of the immediately preceding calendar quarter in which the candidate or political committee received contributions in excess of $1,000 or made expenditures in excess of $1,000, or, in non-election years, when contributions and expenditures to or by candidates and their authorized committees together exceed $5,000, see § 104.1.

(1) These reports shall include all receipts and disbursements from the close of the last reporting period to the close of the calendar quarter.

(2) When the last day for filing any quarterly report required by this paragraph (d) occurs within 10 days before or after an election, the quarterly report need not be filed so long as the pre-election reports required by (b) (1) above are timely filed.

(e) If any contribution of $1,000 or more is received by a candidate, his or her authorized committee or agent subsequent to the 15th day, but more than 48 hours before 12:01 a.m. of the day on which an election is to be conducted, the identification, occupation and principal place of business of the contributor shall be reported to the Commission, the Clerk of the House, or Secretary of the Senate, as custodian for the Commission, within 48 hours of receipt, and included in the post-election report. For purposes of this paragraph, report means—

(1) A letter signed by the treasurer or his or her agent, hand delivered within 48 hours of the receipt of the contribution, or

(2) A telegram, followed by a letter signed by the treasurer or his or her agent, sent registered or certified mail and postmarked within 48 hours of the receipt of the contribution.

(3) For purposes of this paragraph (e) only, "election" means an election for which the ballot bears the name of the

candidate, or delegates committed to the candidate who received (or one of whose authorized committees received) the contribution, or an election for which a candidate is conducting a write-in campaign.

(f) *Monthly Reporting.* (1) In any calendar year after 1976 in which a general election is held, and except as otherwise provided in subparagraph (2), each Presidential candidate who makes contributions or expenditures in more than one State, and his or her principal campaign committee and any other authorized committee, shall file the reports required by this Part 104 by the 20th day of the month in each month except January, November, and December of the calendar year, instead of pre- and post-primary reports and quarterly reports. These reports shall include all receipts and disbursements as of the last day of the month immediately preceding the month in which the report is filed.

(2) The pre- and post-election reports required to be filed under paragraph (b) relating to a general election, the 4th quarterly reports required to be filed under paragraph (d), and the reports required to be filed prior to an election under paragraph (e), shall nevertheless be filed.

(3) For candidates, the monthly reporting requirement shall continue until a candidate files with the Commission a statement that his or her name will not appear on any ballot in a primary or the general election. Any candidate filing this statement shall thereafter file reports pursuant to paragraphs (c) and (d) of this section.

(4) Political committees which make contributions or expenditures in more than one State, may, upon request to and approval by the Commission, file monthly reports as set out above.

§ 104.5 Uniform reporting of contributions.

(a) Each contributor of an amount in excess of $100 shall be disclosed by identification, occupation, and principal place of business, if any. If a contributor's name or address is known to have changed since an earlier contribution reported during the calendar year, the exact name or address previously used shall be noted with the first subsequent entry.

(b) In each case when a contribution received from a person in a reporting period is added to previously unitemized contributions from the same person and the aggregate exceeds $100 within a calendar year, the identification, occupation, and principal place of business, if any, of that contributor shall then be listed on the prescribed reporting forms.

(c) Absent evidence to the contrary, any contribution made by check, money order, or other written instrument shall be reported as a contribution by the last person signing the instrument prior to delivery to the candidate or committee.

(d) All contributions from the same person during the calendar year shall be listed under the same name.

(e) A contribution which represents contributions by more than one person shall indicate on the written instrument or on an accompanying writing signed by all contributors, the amount to be attributed to each contributor.

§ 104.6 Uniform reporting of expenditures.

(a) A candidate and his or her authorized committees shall report each expenditure by or on behalf of a candidate or committee in excess of $100, and shall include the identification of the recipient.

(b) In each case when an expenditure made to a recipient in a reporting period is added to previously unitemized expenditures to the same recipient and the total exceeds $100 for the calendar year, the identification of that recipient shall be listed on the prescribed reporting forms.

§ 104.7 Allocation of expenditures among candidates.

A political committee making an expenditure on behalf of more than one candidate for Federal office or for Federal and non-Federal office shall allocate the expenditure(s) among the candidates on a reasonable basis pursuant to Part 106, and report the allocation for each Federal candidate. The treasurer shall retain all documents supporting the allocation in accordance with § 104.12.

§ 104.8 Continuous reporting of debts and obligations.

(a) Debts and obligations which remain outstanding after the election shall be continuously reported until extinguished, see § 104.1(b). These debts and obligations shall be reported on separate schedules together with a statement explaining the circumstances and conditions under which each debt and obligation was incurred or extinguished.

(b) A debt, obligation, or other promise to make an expenditure of $500 or less, shall be reported as of the time payment is made or no later than 60 days after incurrence, whichever comes first. A loan of money in the ordinary course of business and any debt or obligation over $500 shall be reported as of the time of the transaction.

§ 104.9 Waiver of reporting requirements.

Upon application to the Commission, a political committee may be relieved, at the discretion of the Commission, of the duty to file reports of receipts and disbursements if the treasurer of that political committee certifies that the political committee—

(a) Primarily supports persons seeking State or local office; and

(b) Does not operate in more than one State or does not operate on a statewide basis.

§ 104.10 Political committees; cash on hand.

Political committees and candidates which have cash on hand at the time of registration (which the committee or candidate anticipates using in an election) shall disclose on their first report the source(s) of these funds, including the information required by § 104.2. The cash balances are assumed to be composed of those contributions most recently received by the committee or candidate. The committee shall exclude from funds to be used for Federal elections any contributions not permissible under the Act, see Parts 110, 114, and 115.

§ 104.11 Members of Congress; reporting exemption.

(a) Except as provided in (b), a Member of the Congress is not required to report, as contributions received or as expenditures made, the value of photographic, matting, or recording services furnished to him by the Senate Recording Studio, the House Recording Studio, or by an individual whose pay is disbursed by the Secretary of the Senate or the Clerk of the House of Representatives and who furnishes such services as his primary duty as an employee of the Senate or House of Representatives, or if the services were paid for by the Republican or Democratic Senatorial Campaign Committee, the Democratic National Congresssional Committee, or the National Republican Congressional Committee.

(b) (1) The cost of recording services furnished during the calendar year before the year in which the Member's term expires, shall be reported by letter, attached to the principal campaign committee's next report, but shall not be included in the summary of expenditures on FEC Form 3 or Form 6.

(2) A Member who is not a candidate has no reporting obligation under this paragraph, except that a Member who subsequently becomes a candidate shall report as set forth in (b) (1), regardless of the dates the funds were expended in that year.

§ 104.12 Formal Requirements regarding reports and statements.

(a) Each individual having the responsibility to file a report required under this subchapter shall sign the original report.

(b) Each candidate, political committee, or other person required to file any report or statement under this subchapter shall—

(1) Maintain records with respect to the matters required to be reported, including vouchers, worksheets, receipts, bills and accounts, which shall provide in sufficient detail the necessary information and date from which the filed reports and statements may be verified, explained, clarified, and checked for accuracy and completeness;

(2) Preserve a copy of each report or statement filed; and

(3) Keep those records and reports available for audit, inspection, or examination by the Commission or its authorized representatives for a period of not less than 3 years from the end of the year in which the report or statement was filed.

(c) Acknowledgments by the Commission, the Clerk of the House, or the Secretary of the Senate, of the receipt of Statements of Organization or reports or statements filed under this subchapter are intended solely to inform the person

V 41 166 AUG 25 76 UMI

filing the report of its receipt and neither the acknowledgment nor the acceptance of a report or statement shall constitute express or implied approval, or in any manner indicate that the contents of any report or statement fulfill the filing or other requirements of the Act or of these regulations.

(d) Each treasurer of a political committee, each candidate, and any other person required to file any report or statement under these regulations and under the Act shall be personally responsible for the timely and complete filing of the report or statement and for the accuracy of any information or statement contained in it.

§ 104.13 Sale or use restriction.

Any information copied, or otherwise obtained, from any report or statement, or copy, reproduction, or publication thereof, filed with the Commission, Clerk of the House, Secretary of the Senate, or any Secretary of State or other equivalent chief State election officer, shall not be sold or utilized by any person for the purpose of soliciting contributions, or any commercial purpose. For purposes of this section, "any commercial purpose" does not include the sale of newspapers, magazines, books, or other similar communications, the principal purpose of which is not to communicate lists or other information obtained from a report filed as noted above.

PART 105—DOCUMENT FILING

Sec.

105.1 Place of filing; House candidates and committees.
105.2 Place of filing; Senate candidates and committees.
105.3 Place of filing; Presidential candidates and committees.
105.4 Place of filing; committees and others.
105.5 Transmittal of microfilm copies and photocopies of original reports filed with the Clerk of the House and the Secretary of the Senate to the Commission.

AUTHORITY: Sec. 310(8), Pub. L. 92–225, added by sec. 208, Pub. L. 93–443, 88 Stat. 1279, and amended by secs. 105 and 107(a)(1), Pub. L. 94–283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315 (a)10), Pub. L. 92–225, 86 Stat. 16, amended by secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93–443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94–283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 105.1 Place of filing; House candidates and committees.

Reports and statements and any modifications or amendments thereto, required to be filed under Parts 101, 102, and 104 of these regulations by a candidate for nomination or election to the office of Representative in or Delegate or Resident Commissioner to, the Congress of the United States, and by the candidate's principal campaign committee shall be filed in original form with and received by the Clerk of the House of Representatives, as custodian for the Federal Election Commission.

§ 105.2 Place of filing; Senate candidates and committees.

Reports and statements and any modifications or amendments thereto, required to be filed under Parts 101, 102, and 104 of these regulations by a candidate for nomination or election to the office of United States Senator and by the candidate's principal campaign committee shall be filed in original form with and received by the Secretary of the Senate, as custodian for the Federal Election Commission.

§ 105.3 Place of filing; Presidential candidates and committees.

Reports and statements and any modifications or amendments thereto, required to be filed under Parts 101, 102, and 104 of these regulations by a candidate for nomination or election to the office of President or Vice President of the United States, and by the candidate's principal campaign committee shall be filed in original form with the Federal Election Commission.

§ 105.4 Place of filing; committees and others.

(a) Reports and statements, and any modifications or amendments thereto, required to be filed under Parts 101, 102, 104 of these regulations by political committees (other than a candidate's principal campaign committee and other authorized committees of a candidate)—

(1) Which support only candidates for nomination or election to the office of Representative in, or Delegate or Resident Commissioner to, the Congress of the United States, shall be filed in original form with and received by the Clerk of the House of Representatives, as custodian for the Federal Election Commission.

(2) Which support only candidates for nomination or election to the office of United States Senator, shall be filed in original form with, and received by the Secretary of the Senate, as custodian for the Federal Election Commission.

(b) Reports and statements, and any modifications or amendments thereto, required to be filed under Parts 101, 102, and 104 of these regulations by all other political committees, and all persons (other than political committees) making independent contributions or expenditures, shall be filed in original form with the Federal Election Commission.

§ 105.5 Transmittal of microfilm copies and photocopies of original reports filed with the Clerk of the House and the Secretary of the Senate to the Commission.

(a) Upon receiving a report or statement filed under § 105.1, § 105.2, and § 105.4(a), the Secretary of the Senate and the Clerk of the House shall each initiate a process to assure prompt transmittal to the Commission of a microfilm copy and a photocopy of each report and statement filed with each of them.

(b) The Secretary of the Senate and the Clerk of the House shall place on each report and statement received a time and date stamp reflecting the time and date the original report or statement was received.

PART 106—ALLOCATIONS OF CANDIDATE AND COMMITTEE ACTIVITIES

Sec.

106.1 Allocation of expenditures among (or between) candidates and activities.
106.2 Allocation of expenditures among States by candidates for Presidential nomination.
106.3 Allocation of expenses between campaign and non-campaign related travel.
106.4 Allocation of polling expenses.

AUTHORITY: Sec. 310(8), Pub. L. 92–225, added by sec. 208, Pub. L. 93–443, 88 Stat. 1279, and amended by secs. 105 and 107(a)(1), Pub. L. 94–283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315 (a)10), Pub. L. 92–225, 86 Stat. 16, amended by secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93–443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94–283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 106.1 Allocation of expenditures among (or between) candidates and activities.

(a) General Rule: Expenditures, including independent expenditures, made on behalf of more than one candidate shall be attributed to each candidate in proportion to, and shall be reported to reflect, the benefit reasonably expected to be derived.

(b) An authorized expenditure made by a candidate or political committee on behalf of another candidate shall be reported as a contribution in-kind (transfer) to the candidate on whose behalf the expenditure was made, except that expenditures made by party committees pursuant to § 110.7 need only be reported as an expenditure.

(c) Exceptions:

(1) Expenditures for rent, personnel, overhead, general administrative, fundraising, and other day-to-day costs of political committees need not be attributed to individual candidates, unless these expenditures are made on behalf of a clearly identified candidate and the expenditure can be directly attributed to that candidate.

(2) Expenditures for educational campaign seminars, for training of campaign workers, and for registration or get-out-the-vote drives of committees need not be attributed to individual candidates unless these expenditures are made on behalf of a clearly identified candidate, and the expenditure can be directly attributed to that candidate.

(d) For purposes of this section, "clearly identified" means—

(1) The candidate's name appears;

(2) A photograph or drawing of the candidate appears; or

(3) The identity of the candidate is apparent by unambiguous reference.

(e) Party committees and other political committees which have established Federal campaign committees pursuant to § 102.6 shall allocate administrative

expenses on a reasonable basis between their Federal and non-Federal accounts in proportion to the amount of funds expended on Federal and non-Federal elections, or on another reasonable basis.

§ 106.2 Allocation of expenditures among States by candidates for Presidential nomination.

(a) Expenditures made by a candidate or his or her authorized committee(s) which seek to influence the nomination of a candidate for the office of President of the United States in a particular State shall be attributed to that State. This allocation of expenditures shall be reported on FEC Form 3c.

(b) Expenditures for administrative, staff, and overhead costs directly relating to the national campaign headquarters shall be reported but need not be attributed to individual States. Expenditures for staff, media, printing, and other goods and services used in a campaign in a specific State shall be attributed to that State.

(c) An expenditure by a Presidential candidate for use in two or more States, which cannot be attributed in specific amounts to each State, shall be attributed to each State based on the voting age population in each State which can reasonably be expected to be influenced by such expenditure.

(1) Expenditures for publication and distribution of newspaper, magazine, radio, television, and other types of advertisements distributed in more than one State shall be attributed to each State in proportion to the estimated viewing audience or readership of voting age which can reasonably be expected to be influenced by these advertisements.

(2) Expenditures for travel within a State shall be attributed to that State. Expenditures for travel between States need not be attributed to any individual State.

§ 106.3 Allocation of expenses between campaign and non-campaign related travel.

(a) All expenditures for campaign-related travel paid for by a candidate from a campaign account or by his or her authorized committees or by any other political committee shall be reported.

(b)(1) Travel expenses paid for by a candidate from personal funds, or from a source other than a political committee, shall constitute reportable expenditures if the travel is campaign-related.

(2) Where a candidate's trip involves both campaign-related and non-campaign-related stops, the expenditures allocable for campaign purposes are reportable, and are calculated on the actual cost-per-mile of the means of transportation actually used, starting at the point of origin of the trip, via every campaign-related stop and ending at the point of origin.

(3) Where a candidate conducts any campaign-related activity in a stop, the stop is a campaign-related stop and travel expenditures made are reportable. Campaign-related activity shall not include any incidental contacts.

(c)(1) Where an individual, other than a candidate, conducts campaign-related activities on a trip, the portion of the trip attributed to each candidate shall be allocated on a reasonable basis.

(2) Travel expenses of a candidate's spouse and family are reportable as expenditures only if the spouse or family members conduct campaign-related activities.

(d) Costs incurred by a candidate for the United States Senate or House of Representatives for travel between Washington, D.C., and the State or district in which he or she is a candidate need not be reported herein unless the costs are paid by a candidate from a thorized committee(s), or by any other thorized committee(s) or, by any other political committee(s). If these costs are paid from an office account, they shall be reported under Part 113.

(e) Notwithstanding (b) and (c) above, the reportable expenditure for a candidate who uses government conveyance or accommodations for travel which is campaign-related is the rate for comparable commercial conveyance or accommodation. In the case of a candidate authorized by law or required by national security to be accompanied by staff and equipment, the allocable expenditures are the costs of facilities sufficient to accommodate the party, less authorized or required personnel and equipment. If such a trip includes both campaign and non-campaign stops, equivalent costs are calculated in accordance with paragraphs (b) and (c) above.

§ 106.4 Allocation of polling expenses.

(a) The purchase of opinion poll results by a candidate or a candidate's authorized political committee or agent is an expenditure by the candidate. Regarding the purchase of opinion poll results for the purpose of determining whether an individual should become a candidate, see § 100.7(b)(2).

(b) The purchase of opinion poll results by a political committee or other person not authorized by a candidate to make expenditures and the subsequent acceptance of the poll results by a candidate or a candidate's authorized political committee or agent or by another unauthorized political committee is a contribution in-kind by the purchaser to the candidate or other political committee and an expenditure by the candidate or other political committee. Regarding the purchase of opinion poll results for the purpose of determining whether an individual should become a candidate, see § 100.4(b)(1). The poll results are accepted by a candidate or other political committee if the candidate or the candidate's authorized political committee or agent or the other unauthorized political committee—

(1) Requested the poll results before their receipt;

(2) Uses the poll results; or

(3) Does not notify the contributor that the results are refused.

(c) The acceptance of any part of a poll's results which part, prior to receipt, has been made public without any request, authorization, prearrangement, or coordination by the candidate-receipient or political committee-recipient, shall not be treated as a contribution in-kind and expenditure under paragraph (b).

(d) The purchase of opinion poll results by an unauthorized political committee for its own use, in whole or in part, is an overhead expenditure by the political committee under § 106.1(c)(1) to the extent of the benefit derived by the committee.

(e) The amount of a contribution under paragraph (b) or of any expenditure under paragraphs (a) and (b) attributable to each candidate-recipient or political committee-recipient shall be—

(1) That share of the overall cost of the poll which is allocable to each candidate (including State and local candidates) or political committee, based upon the cost allocation formula of the polling firm from which the results are purchased. Under this method the size of the sample, the number of computer column codes, the extent of computer tabulations, and the extent of written analysis and verbal consultation, if applicable, may be used to determine the shares; or

(2) An amount computed by dividing the overall cost of the poll equally among candidates (including State and local candidates) or political committees receiving the results; or

(3) A proportion of the overall cost of the poll equal to the proportion that the number of question results received by the candidate or political committee bears to the total number of question results received by all candidates (including State and local candidates) and political committees; or

(4) An amount computed by any other method which reasonably reflects the benefit derived.

(f) The first candidate(s) or committee(s) receiving poll results under paragraph (b) or (d) and any candidate or political committee receiving poll results under paragraph (b) within 15 days after receipt by the initial recipient(s) shall compute the amount of the contribution in-kind and the expenditure as provided in paragraph (e).

(g) The amount of the contribution and expenditure reported by a candidate or a political committee receiving poll results under paragraph (b) more than 15 days after receipt of such poll results by the initial recipient(s) shall be—

(1) If the results are received during the period 16 to 60 days following receipt by the initial recipient(s), 50 percent of the amount allocated to an initial recipient of the same results;

(2) If the results are received during the period 61 to 180 days after receipt by the initial recipient(s), 5 percent of the amount allocated to an initial recipient of the same results;

(3) If the results are received more than 180 days after receipt by the initial recipient(s), no amount need be allocated.

(h) A contributor of poll results under paragraph (b) shall maintain records sufficient to support the valuation of the contribution(s) in-kind and shall inform the candidate-recipient(s) or po-

litical committee-recipient(s) of the value of the contribution(s).

PART 107—CONVENTION REPORTS

Sec.
107.1 Reports by municipal and private host committees.
107.2 Reports by political parties.
107.3 Convention reports; time and content of filing.
107.4 Convention expenses; definitions.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by secs. 105 and 107 (a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 88 Stat. 16, amended by secs. 208 (a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 107.1 Reports by municipal and private host committees.

Each committee or other organization which represents a State, a political subdivision thereof, or any other group of persons, in dealing with officials of a national political party with respect to matters involving a Presidential nominating convention held in that State, shall file reports with the Commission as set out in § 107.3 below.

§ 107.2 Reports by political parties.

(a) Each committee or other organization, including a national committee, which represents a national major, minor, or new political party in making arrangements for the convention of that party held to nominate a candidate for the office of President or Vice President shall file reports with the Commission as set out in § 107.3 below.

(b) A State party committee or a subordinate committee of a State party committee which assists delegates and alternates to the convention from that State with travel expenses and arrangements, or which sponsors caucuses, receptions, and similar arrangements, or which sponsors, caucuses, receptions, and similar activities at the convention site need not report under this Part 107.

§ 107.3 Convention reports; time and content of filing.

(a) Each committee organization required to file under §§ 107.1-2 shall, within 60 days following the last day the convention is officially in session, but not later than 20 days prior to the date of the general election, file with the Commission a convention report on FEC Form 4, which shall contain all receipts and disbursements in connection with the convention and shall be complete as of 50 days following the convention.

(b) If the committee spends or receives any funds after 60 days following the convention, the committee shall file, no later than 10 days after the end of the next calendar quarter, a report disclosing all transactions completed as of the close of that calendar quarter and shall continue to file quarterly reports until all debts and obligations have been extinguished.

(c) Each committee shall file a final report with the Commission not later than 10 days after it ceases activity, unless such status is reflected in either of the reports submitted pursuant to §§ 107.3 (a) or (b).

§ 107.4 Convention expenses; definitions.

For purposes of this part, receipts and disbursements in connection with a convention, means convention expenses as defined in Part 120 of these regulations.

PART 108—FILING COPIES OF REPORTS AND STATEMENTS WITH STATE OFFICERS

Sec.
108.1 Filing requirements.
108.2 Filing copies of reports of Presidential and Vice Presidential candidates.
108.3 Filing copies of reports by other Federal candidates and committees.
108.4 Filing copies of reports by committees supporting Presidential candidates.
108.5 Time and manner of filing copies.
108.6 Duty of State officers.
108.7 Effect on State law.
108.8 Exemption for the District of Columbia.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by secs. 105 and 107 (a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by secs. 208 (a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 108.1 Filing requirements.

A copy of each statement and report required to be filed under this subchapter shall be filed with the Secretary of State (or, if there is no office of Secretary of State, the equivalent State officer) of the appropriate State. For purposes of this part, the term "appropriate State" means the State or jurisdiction designated in § 108.2 or § 108.3.

§ 108.2 Filing copies of reports by Presidential and Vice Presidential candidates.

A copy of each report and statement required to be filed under this subchapter shall be filed by a candidate for President or Vice President or his or her authorized committees, or by the person making an expenditure or contribution pursuant to Part 109 with the State office of each State or other jurisdiction in which an expenditure is made, the report to contain at least all transactions pertaining to that State during that reporting period.

§ 108.3 Filing copies of reports by other Federal candidates and committees.

A copy of each report and statement required to be filed under this subchapter by other candidates and political committees shall be filed for each reporting period during which an expenditure is made in that State with the State officer of each State or other jurisdiction in which the candidate, other than for President or Vice President, seeks election.

§ 108.4 Filing copies of reports by committees supporting Presidential candidates.

Committees, other than a Presidential candidate's principal campaign committee and other authorized committees, which make contributions to or expenditures on behalf of Presidential candidates, shall file a copy of reports and statements only in the State(s) in which the recipient and contributing committees have their headquarters.

§ 108.5 Time and manner of filing copies.

A copy required to be filed with a State officer under this part shall be filed at the same time as the original report is filed. Each copy of a report or statement shall be a complete, true, and legible copy of the original report or statement filed.

§ 108.6 Duties of State officers.

It is the duty of the Secretary of State, or the equivalent State officer—

(a) To receive and maintain in an orderly manner all reports and statements required to be filed;

(b) To preserve such reports and statements for a period of 10 years from date of receipt, except that reports and statements relating solely to candidates for the House of Representatives need be preserved for only 5 years from the date of receipt;

(c) To make the reports and statements filed available for public inspection and copying during regular office hours commencing as soon as practicable but not later than the end of the day on which it was received and to permit copying of any such report or statement by hand or by duplicating machine, requested by any person, at the expense of such person, such per copy expense to be reasonable; and

(d) To compile and maintain a current list of all statements or parts of statements pertaining to each candidate.

§ 108.7 Effect on State law.

(a) The provisions of the Federal Election Campaign Act of 1971, as amended, and rules and regulations issued thereunder, supersede and preempt any provision of State law with respect to election to Federal office.

(b) Federal law supersedes State law concerning the—

(1) Organization and registration of political committees supporting Federal candidates;

(2) Disclosure of receipts and expenditures by Federal candidates and political committees; and

(3) Limitation on contributions and expenditures regarding Federal candidates and political committees.

(c) The Act does not supersede State laws which provide for the—

(1) Manner of qualifying as a candidate or political party organization;

(2) Dates and places of elections;

(3) Voter registration;

(4) Prohibition of false registration, voting fraud, theft of ballots, and similar offenses; or

(5) Candidate's personal financial disclosure.

§ 108.8 Exemption for the District of Columbia.

Any copy of a report required to be filed with the equivalent officer in the District of Columbia shall be deemed to be filed if the original has been filed with the Clerk, Secretary, or the Commission, as appropriate.

PART 109—INDEPENDENT EXPENDITURES

Sec.
109.1 Definitions.
109.2 Reporting of independent expenditures.
109.3 Certification of independent expenditures.
109.4 Non-authorization notice.
109.5 Reporting of independent contributions.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by secs. 105 and 107 (a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by secs. 208 (a) and (c)(10), and 209 (a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 109.1 Definitions.

(a) "Independent expenditure" means an expenditure by a person for a communication expressly advocating the election or defeat of a clearly identified candidate which is not made with the cooperation or with the prior consent of, or in consultation with, or at the request or suggestion of, a candidate or any agent or authorized committee of such candidate.

(b) For purposes of this definition—

(1) "Person" means an individual, partnership, committee, association, or any organization or group of persons, including a separate segregated fund established by a labor organization, corporation, or national bank (see Part 114) but does not mean a labor organization, corporation, or national bank.

(2) "Expressly advocating" means any communication containing a message advocating election or defeat, including but not limited to the name of the candidate, or expressions such as "vote for," "elect," "support," "cast your ballot for," and "Smith for Congress," or "vote against," "defeat," or "reject."

(3) "Clearly identified candidate" means that the name of the candidate appears, a photograph or drawing of the candidate appears, or the identity of the candidate is otherwise apparent by unambiguous reference.

(4) "Made with the cooperation or with the prior consent of, or in consultation with, or at the request or suggestion of, a candidate or any agent or authorized committee of the candidate" means—

(i) Any arrangement, coordination, or direction by the candidate or his or her agent prior to the publication, distribution, display, or broadcast of the communication. An expenditure will be presumed to be so made when it is—

(A) Based on information about the candidate's plans, projects, or needs provided to the expending person by the candidate, or by the candidate's agents, with a view toward having an expenditure made;

(B) Made by or through any person who is, or has been, authorized to raise or expend funds, who is, or has been, an officer of an authorized committee, or who is, or has been, receiving any form of compensation or reimbursement from the candidate, the candidate's committee or agent;

(ii) But does not include providing to the expending person upon request Commission guidelines on independent expenditures.

(5) "Agent" means any person who has actual oral or written authority, either express or implied, to make or to authorize the making of expenditures on behalf of a candidate, or means any person who has been placed in a position within the campaign organization where it would reasonably appear that in the ordinary course of campaign-related activities he or she may authorize expenditures.

(c) An expenditure not qualifying under this section as an independent expenditure shall be a contribution in-kind to the candidate and an expenditure by the candidate, unless otherwise exempted.

(d)(1) The financing of the dissemination, distribution, or republication, in whole or in part, of any broadcast or any written, graphic, or other form of campaign materials prepared by the candidate, his campaign committees, or their authorized agents shall be considered a contribution for the purpose of contribution limitations and reporting responsibilities by the person making the expenditure but shall not be considered an expenditure by the candidate or his authorized committees unless made with the cooperation or with the prior consent of, or in consultation with, or at the request or suggestion of, a candidate or any authorized agent or committee thereof.

(2) This paragraph does not affect the right of a State or subordinate party committee to engage in such dissemination, distribution, or republication as agents designated by the national committee pursuant to § 110.7(a)(4).

(e) No expenditure by an authorized committee of a candidate on behalf of that candidate shall qualify as an independent expenditure.

§ 109.2 Reporting of independent expenditures.

(a) Every political committee making an independent expenditure shall report on Schedule E each such expenditure or contribution to the Commission, Clerk, or Secretary, as appropriate.

(1) The report shall contain, for each expenditure in excess of $100, the identification of the person to whom it was made, the amount and date of the expenditure, the name of the candidate with respect to whom the expenditure was made and the office the candidate seeks, and whether the expenditure was in support of or in opposition to that candidate.

(2) This information shall be filed on Schedule E as part of a report (monthly, quarterly, pre-election, post-election, or annual) covering any period in which any independent expenditure exceeding $100 is made. Schedule E shall also include the total of all expenditures of $100 or less.

(3) Political committees not required to report under § 104.1(c) shall nonetheless report each independent expenditure in excess of $100 on Schedule E at the time the report for that period would have been filed.

(b) Every other person who makes independent expenditures aggregating in excess of $100 during a calendar year shall file a report with the Commission on FEC Form 5.

(1) The report shall contain the reporting person's identification, occupation, and principal place of business, if any, the identification of the person to whom the expenditure was made, the amount and date of the expenditure, the candidate's name and the office the candidate seeks, and whether the expenditure was in support of or in opposition to that candidate.

(2) The report shall be filed at the end of the reporting period (quarterly, pre-election, post-election, annual) during which the expenditure is made and in any reporting period thereafter in which additional independent expenditures are made.

(c) Independent expenditures by any person or any political committee of $1,000 or more made after the fifteenth day, but more than 24 hours, before any election shall be reported within 24 hours of such independent expenditures pursuant to § 104.4(e).

§ 109.3 Certification of independent expenditures.

Each report of independent expenditures shall be signed and shall include a notarized certification under the penalty of perjury that the expenditure was not made with the cooperation or with the prior consent of, or in consultation with, or at the request or suggestion of, any candidate or any agent or authorized committee of the candidate.

§ 109.4 Non-authorization notice.

(a)(1) Whenever any person makes an independent expenditure for the purpose of financing communications expressly advocating the election or defeat of a clearly identified candidate through any broadcasting station, newspaper, magazine, outdoor advertising facility, direct mailing, or any other type of general public political advertising, but not on a bumper strip, a pin, button, pen, and similar small items upon which the disclaimer cannot be conveniently printed, the communication shall clearly and conspicuously state that the communication is not authorized by any candidate, and state the name of the person who made or financed the expenditure for the communication, including, in the case of a political committee, the name of any

V 41 166
AUG 25 76
UMI

affiliated or connected organization required to be listed under § 102.2(a)(2).

(2) For purposes of this section, "clearly and conspicuously" means—

(i) On the face or front page of printed matter, or at the beginning or end of a broadcast or telecast matter and shall include the name of the committee; and

(ii) In a manner calculated to provide actual notice to a reader, listener, or viewer.

§ 109.5 Reporting of independent contributions.

Every person (other than a political committee or candidate) who makes a contribution for the purpose of expressly advocating the election or defeat of a clearly identified candidate, other than by contributing to a political committee or candidate, in an aggregate amount in excess of $100 during a calendar year shall file reports in the same manner as is required with respect to independent expenditures under § 109.2.

PART 110—CONTRIBUTION AND EXPENDITURE LIMITATIONS AND PROHIBITIONS

Sec.

110.1 Contributions by persons.
110.2 Contributions by multicandidate committees.
110.3 Affiliated committees; transfers.
110.4 Prohibited contributions.
110.5 Annual contribution limitation.
110.6 Earmarked contributions.
110.7 Party committee expenditures.
110.8 Presidential candidate expenditure limitations.
110.9 Miscellaneous provisions.
110.10 Expenditures by candidates.
110.11 Communications; advertising.
110.12 Honoraria.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208(a) and (e)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10).

§ 110.1 Contributions by persons.

(a)(1) No person (except multicandidate committees under § 110.2) shall make contributions to any candidate, his or her authorized political committees or agents with respect to any election to Federal office which in the aggregate exceed $1,000.

(2) "With respect to any election" means—

(i) In the case of a contribution designated in writing for a particular election, the election so designated, except that a contribution made after a primary election, caucus or convention, and designated for the primary election, caucus or convention shall be made only to the extent that the contribution does not exceed net debts outstanding from the primary election, caucus or convention.

(ii) In the case of a contribution not designated in writing for a particular election,

(A) For a primary election, caucus or convention, if made on or before the date of the election, caucus or convention, or

(B) For a general election if made after the date of the primary election.

(b)(1) No person (except multicandidate committees under § 110.2) shall make contributions to the political committees established and maintained by a national political party, which, in the aggregate, exceed $20,000 in any calendar year.

(2) For purposes of this section, "political committees established and maintained by a national political party" means—

(i) The national committee; (ii) the House campaign committee; and (iii) the Senate campaign committee. Each may receive up to the $20,000 limitation from a contributor, see § 110.5.

(3) The recipient committee shall not be an authorized committee of any candidate.

(c) No person (except multicandidate committees under § 110.2) shall make contributions to any other political committee which in the aggregate exceed $5,000 in any calendar year.

(d) The limitations in (b) and (c) also apply to contributions made to committees making independent expenditures, see Part 109.

(e) A contribution by a partnership shall—

(1) Be attributed to each partner in direct proportion to his or her share of the partnership profits, according to instructions which shall be provided by the partnership to the committee or candidate; or

(2) Be attributed by agreement of the partners, as long as—

(i) Only the profits of the partners to whom the contribution is attributed are reduced (or losses increased), and

(ii) These partners' profits are reduced (or losses increased) in proportion to the contribution attributed to each of them; and

(3) Not exceed the limits in (a), (b), and (c).

(f) If an individual is a candidate for more than one Federal office, a person may contribute not more than $1,000 to the candidate, or his or her authorized committees for each election for each office, as long as—

(1) The contributor clearly designates in writing for which office each contribution is intended;

(2) The candidate maintains separate campaign organizations, including separate principal campaign committees and separate accounts; and

(3) No funds are transferred, loaned, or otherwise contributed between or among the separate campaigns and no expenditures are made by one campaign on behalf of the other campaign except as provided in § 110.3(a)(2)(iv).

(g)(1) Contributions made to retire debts resulting from elections held prior to January 1, 1975 are not subject to the limitations of this Part 110, as long as contributions and solicitations to retire these debts are clearly designated and used for that purpose.

(2) Contributions made to retire debts resulting from elections held after December 31, 1974 are subject to the limitations of this Part 110.

(h) A person may contribute to a candidate or his or her authorized committee with respect to a particular election and also contribute to a political committee which has supported, or anticipates supporting, the same candidate in the same election, as long as—

(1) The political committee is not the candidate's principal campaign committee or other authorized committee or a single candidate committee;

(2) The contributor does not give with the knowledge that a substantial portion will be contributed to, or expended on behalf of, that candidate for the same election; and

(3) The contributor does not retain control over the funds.

(i)(1) Even though a spouse in a single income family has contributed $1,000 to a candidate for an election, the other spouse may similarly contribute $1,000 to the same candidate for the same election, see § 104.5(e).

(2) Minor children (children under 18 years of age) may contribute up to $1,000 to a candidate for an election, see § 104.5(e), if—

(i) The decision to contribute is made knowingly and voluntarily by the minor child;

(ii) The funds, goods, or services contributed are owned or controlled exclusively by the minor child, such as income earned by the child, the proceeds of a trust for which the child is the beneficiary, or a savings account opened and maintained exclusively in the child's name; and

(iii) The contribution is not made from the proceeds of a gift, the purpose of which was to provide funds to be contributed, or is not in any other way controlled by another individual.

(j)(1) The limitations on contributions in this section shall apply separately with respect to each election, except that all elections held in a calendar year for the office of President of the United States (except a general election for that office) shall be considered to be one election.

(2) An election in which a candidate is unopposed is a separate election.

(3) If no primary election is held because a candidate is unopposed, the date on which the primary would have been held shall be deemed to be the date of the primary for purposes of the contribution limitations.

§ 110.2 Contributions by multicandidate committees.

(a) No multicandidate political committee shall make contributions—

(1) To any candidate and his authorized political committees with respect to any election for Federal office which, in the aggregate, exceed $5,000; "with respect to any election" has the same meaning as in § 110.1(a)(2);

(2) To the political committees established and maintained by a national political party in any calendar year which, in the aggregate, exceed $15,000;

(i) The recipient committee shall not be an authorized committee of any candidate;

(ii) "Political committees established and maintained by a national political party" means (A) the national committee; (B) Senate campaign committee; and (C) the House campaign committee. Each may receive up to the $15,000 limitation from a contributor;

(3) To any other political committee in any calendar year which, in the aggregate, exceed $5,000.

(b) "Multicandidate political committee" has the same meaning as in § 100.14(a)(3).

(c) Notwithstanding any other provision of the Act, the Republican and Democratic Senatorial campaign committees, or the national committee of a political party, may contribute not more than a combined total of $17,500 to a candidate for nomination or election to the Senate during the calendar year of the election for which he or she is a candidate. Any contribution made by the committees to a Senate candidate in a year other than that election year shall be considered to be part of the $17,500 total contribution limit for that election year.

(d)(1) The limitations on contributions in this section (other than (c)) shall apply separately with respect to each election, except that all elections held in a calendar year for the office of President of the United States (except a general election for that office) shall be considered to be one election.

(2) An election in which a candidate is unopposed is a separate election.

(3) If no primary election is held because a candidate is unopposed, the date on which the primary would have been held shall be deemed to be the date of the primary for purposes of the contribution limitations.

§ 110.3 Affiliated committees; transfers.

(a)(1)(i) For purposes of the limitations in §§ 110.1 and 110.2, contributions shall be considered to be made by a single political committee (including a single separate segregated fund) if made by more than one political committee (including a separate segregated fund) established, financed, maintained, or controlled by any corporation, labor organization, or any other person, including any parent, subsidiary, branch, division, department, or local unit thereof, or by a group of those persons, see affiliated committees, § 100.14(c).

(ii) Application of the rule of this paragraph means—

(A) All of the political committees set up by a single corporation and/or its subsidiaries are treated as a single political committee;

(B) All of the political committees set up by a single national or international union and/or its local unions or other subordinate organizations are treated as a single political committee;

(C) All of the political committees set up by an organization of national or international unions and/or all its State and local central bodies are treated as a single political committee;

(D) All of the political committees (other than party committees, see paragraph (b) set up by a membership organization, including trade or professional associations, see § 114.8(a), and/or by related State and local entities of that organization or group, are treated as a single political committee;

(E) All of the political committees set up by the same group of persons are treated as a single political committee.

(iii) For organizations not described by (i) or (ii) above, indicia of establishing, financing, maintaining, or controlling may include—

(A) Ownership of a controlling interest in voting shares or securities;

(B) Provisions of by-laws, constitutions, or other documents by which one entity has the authority, power, or ability to direct another entity;

(C) The authority, power, or ability to hire, appoint, discipline, discharge, demote, or remove or otherwise influence the decision of the officers or members of an entity;

(D) Similar patterns of contributions;

(E) The transfer of funds between committees which represent a substantial portion of the funds of either the transferor or transferee committee, other than the transfer of funds between the committees which jointly raised the funds so transferred.

(2) This Part shall not limit transfers between—

(i) Political committees of the funds raised through joint fundraising;

(ii) Authorized committees of the same candidate, or between the candidate and his or her authorized committees, if the candidate has not received a waiver from reporting;

(iii) The primary campaign and general election campaign of a candidate, of funds unused for the primary;

(iv) A candidate's previous campaign committee and his or her currently registered principal campaign committee or other authorized committee, as long as none of the funds transferred contain contributions which would be in violation of the Act; or

(v) The principal campaign committees of a candidate seeking nomination or election to more than one Federal office, as long as—

(A) The transfer is made when the candidate is not actively seeking nomination or election to more than one office. For purposes of this paragraph, "not actively seeking" means a principal campaign committee has filed a termination report with the Commission, or has notified the Commission that the candidate and his authorized committees will make no further expenditure, except in connection with the retirement of debts outstanding at the time of the notification;

(B) The limitations on contributions by persons are not exceeded by the transfer. To assure this, the contributions making up the funds transferred shall be reviewed, beginning with the last received and working back until the amount transferred is reached. A person's contribution or any portion thereof, shall be excluded if, when added to contributions already made to the transferee principal campaign committee, it causes the contributor to exceed his or her limitation; and

(C) The candidate has not received funds under 26 U.S.C. §§ 9006 or 9037.

(b)(1) For purposes of the limitations in § 110.1 and § 110.2,

(i) All contributions made by the national committee of a political party, and any political committees established, financed, maintained, or controlled by the same national committee; and

(ii) All contributions made by the State committee of a political party, shall be considered to be made by separate political committees.

(2) For purposes of this section,

(i) The House campaign committee of each political party shall be considered separate from the national committee of that party, giving the national committee and the House campaign committees separate limitations;

(ii) All contributions made by the political committees established, financed, maintained, or controlled by a State party committee and by subordinate State party committees shall be presumed to be made by one political committee. This presumption shall not apply if—

(A) The political committee of the party unit in question has not received funds from any other political committee established, financed, maintained, or controlled by any party unit; and

(B) The political committee of the party unit in question does not make its contributions in cooperation, consultation or concert with, or at the request or suggestion of any other party unit or political committee established, financed, maintained, or controlled by another party unit.

(3) For example, as a result of (1) above,

(i) The national committee of a party and that party's House campaign committee may each contribute a total of $1,000 ($5,000 if a multicandidate committee) and the State committee of a party and each of its independent subordinate committees, may each contribute a total of $1,000 ($5,000 if a multicandidate committee) to a candidate for nomination for President of the United States, or to a candidate for the House for each election;

(ii) A State committee and any subordinate committee able to demonstrate independence under the criteria of §110.3(b)(2)(ii) may each contribute $1,000 ($5,000 if a multicandidate committee) to a candidate for each election.

(4) The national committee of a political party and the Senate campaign committee have special limitations regarding Senate candidates, see § 110.2(c).

(c) Transfers between and among political committees which are national, State, district, or local committees, and subordinate committees thereof, of the same political party are unlimited.

V 41 166 AUG 25 76 UMI

§ 110.4 Prohibited contributions.

(a) (1) A foreign national shall not directly or through any other person make a contribution, or expressly or impliedly promise to make a contribution, in connection with a convention, caucus, primary, general, special, or runoff election in connection with any local, State or Federal public office.

(2) No person shall solicit, accept, or receive a contribution as set out above from a foreign national.

(3) For purposes of this section, "foreign national" means—

(i) A foreign principal, as defined in 22 U.S.C. § 611(b); or

(ii) An individual who is not a citizen of the United States and who is not lawfully admitted for permanent residence, as defined in 8 U.S.C. § 1101(a)(20);

(iii) Except that "foreign national" shall not include any individual who is a citizen of the United States.

(b) (1) No person shall—

(i) Make a contribution in the name of another;

(ii) Knowingly permit his or her name to be used to effect that contribution; or

(iii) Knowingly accept a contribution made by one person in the name of another.

(2) Examples of "contribution in the name of another" include—

(i) Giving money or anything of value, all or part of which was provided to the contributor by another person (the true contributor) without disclosing the source of money or the thing of value to the recipient candidate or committee at the time the contribution is made, see § 110.6; or

(ii) Making a contribution of money or anything of value and attributing as the source of the money or the thing of value another person when in fact the contributor is the source.

(c) (1) With respect to any campaign for nomination for election, or election, to Federal office, no person shall make contributions to a candidate or political committee of currency of the United States, or of any foreign country, which in the aggregate exceed $100.

(2) A candidate or committee receiving a cash contribution in excess of $100 shall promptly return the amount over $100 to the contributor.

(3) A candidate or committee receiving an anonymous cash contribution in excess of $50 shall promptly dispose of the amount over $50. The amount over $50 may be used for any lawful purpose unrelated to any Federal election, campaign, or candidate.

§ 110.5 Annual contribution limitation.

(a) No individual shall make contributions aggregating more than $25,000 in any calendar year.

(b) For purposes of this section,

(1) Any contribution made in a year other than in the calendar year in which an election is held shall be considered to be made during the calendar year in which the election is held, as long as the contribution is made with respect to a particular candidate and election;

(2) An individual's contribution to a political committee in a non-election year shall not be attributable to the calendar year in which an election is held, as long as the political committee is not the principal campaign committee, or other authorized committee of a candidate, or a single candidate committee supporting the candidate and as long as the contribution is not otherwise designated for a particular election.

(c) The limitation in (a) also applies to contributions made to a person who is making independent expenditures, see Part 109.

§ 110.6 Earmarked contributions.

(a) All contributions by a person made on behalf of or to a candidate, including contributions which are in any way earmarked or otherwise directed to the candidate through an intermediary or conduit, are contributions from the person to the candidate.

(b) For purposes of this section, earmarked means a designation, instruction, or encumbrance (including those which are direct or indirect, express or implied, oral or written) which results in all or any part of a contribution or expenditure being made to, or expended on behalf of, a clearly identified candidate or a candidate's authorized committee.

(c) The intermediary or conduit of the earmarked contribution shall report the original source and intended recipient of the contribution to the Commission, the Clerk of the House of Representatives, or the Secretary of the Senate, as appropriate (see Part 105), and to the intended recipient.

(1) The report to the Commission, Clerk, or Secretary shall be included in the conduit or intermediary's next due quarterly, pre- or post-election, or annual report, or, if the conduit is not a reporting entity, by letter to the Commission, and shall—

(i) If the contribution passed through the conduit's account, disclose each contribution, regardless of amount, on schedules of itemized receipts and expenditures;

(ii) If the contribution was passed on in the form of the contributor's check, disclose each contribution on a separate schedule attached to the conduit's next report, or attached to the letter to the Commission.

(2) The report to the intended recipient shall be made when the contribution is passed on to the intended recipient.

(3) The intended recipient shall disclose on his next report each conduit through which the contribution passed.

(4) The reports in (1) and (2) above shall contain—

(i) The identification of the contributor, and if the contribution exceeds $100, the contributor's occupation and principal place of business;

(ii) The amount of the contribution, the date received by the conduit, and the intended recipient as designated by the contributor;

(iii) The date the contribution was passed on to the intended recipient, and whether the contribution was passed on in cash, by the contributor's check, or by the conduit's check.

(5) This section shall not apply to occasional, isolated, or incidental physical transfers of checks or other written instruments payable to a candidate or his or her authorized committees. For purposes of this paragraph, "occasional, isolated, or incidental" means no more than $1,000 is conveyed to any one candidate or committee in a calendar year.

(d) (1) A conduit or intermediary's contribution limits are not affected by passing on earmarked contributions, except where the conduit exercises any direction or control over the choice of the recipient candidate.

(2) If a conduit exercises any direction or control over the choice of the recipient candidate, the contribution shall be considered a contribution by both the original contributor and the conduit, and shall be so reported by the conduit to the Commission, Clerk, or Secretary, as appropriate, or, if the conduit is not a reporting entity, by letter to the Commission, and to the recipient. The recipient candidate or committee shall report it in its reporting of contributions received, indicating that the contribution is made by both the original contributor and the conduit, but that the actual cash received does not reflect the two contributions.

§ 110.7 Party committee expenditures.

(a) (1) The national committee of a political party may make expenditures in connection with the general election campaign of any candidate for President of the United States affiliated with the party.

(2) The expenditures shall not exceed an amount equal to 2 cents multiplied by the voting age population of the United States.

(3) Any expenditure under paragraph (a) shall be in addition to—

(i) Any expenditure by a national committee of a political party serving as the principal campaign committee of a candidate for President of the United States; and

(ii) Any contribution by the national committee to the candidate permissible under §§ 110.1 or 110.2.

(4) The national committee of a political party may make expenditures authorized by this section through any designated agent, including State and subordinate party committees.

(5) The national committee of a political party may not make independent expenditures (see Part 109) in connection with the general election campaign of a candidate for President of the United States.

(b) (1) The national committee of a political party, and a State committee of a political party, including any subordinate committee of a State committee, may each make expenditures in connection with the general election campaign of a candidate for Federal office in that

State who is affiliated with the party.

(2) The expenditures shall not exceed—

(i) In the case of a candidate for election to the office of Senator, or of Representative from a State which is entitled to only one Representative, the greater of—

(A) Two cents multiplied by the voting age population of the State; or

(B) Twenty thousand dollars; and

(ii) In the case of a candidate for election to the office of Representative, Delegate, or Resident Commissioner in any other State, $10,000.

(3) Any expenditure under paragraph (b) shall be in addition to any contribution by a committee to the candidate permissible under §§ 110.1 or 110.2.

(4) The party committees identified in (b) (1) shall not make independent expenditures in connection with the general election campaign of candidates for Federal office.

(5) Any expenditure by a State, county, city, or congressional district committee of a political party, the primary purpose of which is to further the general election campaign of that party's nominee or nominees, that also furthers the general election campaign of that party's candidates for President and Vice President shall not constitute the making of a contribution or expenditure to a Federal candidate as long as the expenditure does not exceed $1,000 per such committee. Such expenditures shall not count toward the limits of § 110.7(a), (b) (1) and (b) (2).

(c) For limitation purposes, State committee includes subordinate State committees. State committees and subordinate State committees combined shall not exceed the limits in (b) (2). To ensure compliance with the limitations, the State committee shall administer the limitation in one of the following ways:

(1) The State central committee shall be responsible for insuring that the expenditures of the entire party organization are within the limitations, including receiving reports from any subordinate committee making expenditures under paragraph (b), and filing consolidated reports showing all expenditures in the State with the Commission; or

(2) (i) The State committee shall file with the Commission an allocation statement setting forth the amounts each subordinate committee in the State will expend on which Federal candidate, as agreed upon by the State committee and the subordinate committees;

(ii) The State committee shall file with the allocation statement a list of participating subordinate committees which have filed a Statement of Organization with the Commission, Clerk, or Secretary, and for those subordinate committees which have not filed a Statement of Organization, the information required in a Statement of Organization, see Part 102;

(iii) Each subordinate committee will be responsible for ensuring that it does not exceed its allocated limitation, and shall register with and report to the Commission as if it were a political committee if its expenditures exceed $100 in a calendar year. If its expenditures in the aggregate exceed $1,000, it shall register as a political committee pursuant to Part 102 and report pursuant to Part 104; or

(3) Any other method, submitted in advance and approved by the Commission which permits control over expenditures.

§ 110.8 Presidential candidate expenditure limitations.

(a) No candidate for the office of President of the United States who is eligible under 26 U.S.C. § 9003 (relating to conditions for eligibility for payments) or under 26 U.S.C. § 9033 (relating to eligibility for payments) to receive payments from the Secretary of the Treasury and has received payments, may make expenditures in excess of—

(1) $10,000,000 in the case of a campaign for nomination for election to the office, except the aggregate of expenditures under this paragraph in any one State shall not exceed the greater of 16 cents multiplied by the voting age population of the State or $200,000; or

(2) $20,000,000 in the case of a campaign for election to the office.

(b) The expenditure limitations shall not be considered violated if, after the date of the primary or general election, convention or caucus, receipt of refunds and rebates causes a candidate's expenditures to be within the limitations.

(c) For the State limitations in (a) (1)—

(1) Expenditures made in a State after the date of the primary election, convention or caucus relating to the primary election, convention or caucus count toward that State's expenditure limitation;

(2) Expenditures for fundraising activities targeted at a particular State and occurring within 28 days before that state's primary election, convention, or caucus shall be presumed to be attributable to the expenditure limitation for that State, § 100.7(b) (13) (relating to the 20% fundraising exemption) notwithstanding.

(d) (1) If an individual is a candidate for more than one Federal office, or for a Federal office and a State office, he or she must designate separate principal campaign committees and establish completely separate campaign organizations.

(2) No funds, goods, or services, including loans and loan guarantees, may be transferred between or used by the separate campaigns, except as provided in § 110.3(a) (2) (iv).

(3) Except for Presidential candidates receiving Presidential Primary Matching Funds, see 26 U.S.C. § 9032, or General Election Public Financing, see 26 U.S.C. § 9002, campaigns may share personnel and facilities, as long as expenditures are allocated between the campaigns, and the payment made from each campaign account reflects the allocation.

(e) (1) A political party may make reimbursement for the expenses of a candidate who is engaging in party-building activities, without the payment being considered a contribution to the candidate, and without the unreimbursed expense being considered an expenditure counting against the limitations in (a) (1) or (2), as long as—

(i) The event is a bona fide party event or appearance; and

(ii) No aspect of the solicitation for the event, the setting of the event, and the remarks or activities of the candidate in connection with the event were for the purpose of influencing the candidate's nomination or election.

(2) (i) An event or appearance meeting the requirements of (e) (1) and occurring prior to January 1 of the year of the election for which the individual is a candidate is presumptively party-related;

(ii) Notwithstanding the requirements of (e) (1), an event or appearance occurring on or after January 1 of the year of the election for which the individual is a candidate is presumptively for the purpose of influencing the candidate's election, and any contributions or expenditures are governed by the contribution and expenditure limitations of this Part 110.

(iii) The presumptions in (1) and (ii) may be rebutted by a showing to the Commission that the appearance or event was, or was not, party-related, as the case may be.

(f) (1) Expenditures made by or on behalf of any candidate nominated by a political party for election to the office of Vice President of the United States shall be considered to be expenditures made by or on behalf of the candidate of such party for election to the office of President of the United States.

(2) Expenditures from personal funds made by a candidate for Vice President shall be considered to be expenditures by the candidate for President, if the candidate is receiving General Election Public Financing, see § 141.2(c).

(g) An expenditure is made on behalf of a candidate, including a Vice-Presidential candidate, if it is made by—

(1) An authorized committee or any other agent of the candidate for purposes of making any expenditure;

(2) Any person authorized or requested by the candidate, an authorized committee of the candidate, or an agent of the candidate to make the expenditure; or

(3) A committee not authorized in writing, so long as it is requested by the candidate, an authorized committee of the candidate, or an agent of the candidate to make the expenditure.

§ 110.9 Miscellaneous provisions.

(a) *Violation of Limitations.* No candidate or political committee shall accept any contribution or make any expenditure in violation of the provisions of Part 110. No officer or employee of a political committee shall accept a contribution made for the benefit or use of a candidate, or make any expenditure on behalf of a candidate, in violation of any limitation imposed on contributions and expenditures under this Part 110.

V 41 1166
AUG 25 76
UMI

(b) *Fraudulent Misrepresentation.* No person who is a candidate for Federal office or an employee or agent of such a candidate shall—

(1) Fraudulently misrepresent himself or any committee or organization under his control as speaking or writing or otherwise acting for or on behalf of any other candidate or political party or employee or agent thereof on a matter which is damaging to such other candidate or political party or employee or agent thereof; or

(2) Willfully and knowingly participate in or conspire to participate in any plan or design to violate paragraph (1).

(c) *Price Index Increase.* (1) Each limitation established by § 110.7 and §110.8 shall be increased by the annual percent difference of the price index, as certified to the Commission by the Secretary of Labor. Each amount so increased shall be the amount in effect for that calendar year.

(2) For purposes of paragraph (1), the term "price index" means the average over a calendar year of the Consumer Price Index (all items—United States city average) published monthly by the Bureau of Labor Statistics.

(d) *Voting Age Population.* The Commission shall assure that there is annually published in the FEDERAL REGISTER an estimate of the voting age population based on an estimate of the voting age population of the United States, of each State, and of each congressional district. The term "voting age population" means resident population, 18 years of age or older.

§ 110.10 Expenditures by candidates.

(a) Except as provided in subchapters C and D of this chapter pertaining to Presidential candidates, candidates for Federal office may make unlimited expenditures from personal funds.

(b) For purposes of this section, "personal funds" means—

(1) Any assets to which at the time he or she became a candidate the candidate had legal and rightful title, or with respect to which the candidate had the right of beneficial enjoyment, under applicable State law, and which the candidate had legal right of access to or control over, including funds from immediate family members; and

(2) Salary and other earned income from bona fide employment; dividends and proceeds from the sale of the candidate's stocks or other investments; bequests to the candidate; income from trusts established before candidacy; income from trusts established by bequest after candidacy of which the candidate is the beneficiary; gifts of a personal nature which had been customarily received prior to candidacy; proceeds from lotteries and similar legal games of chance.

§ 110.11 Communications; advertising.

(a) (1) Whenever any person makes an expenditure for the purpose of financing communications expressly advocating the election or defeat of a clearly identified candidate through any broadcasting station, newspaper, magazine, outdoor advertising facility, direct mailing, or any other type of general public political advertising, but not on a bumper strip, pin, button, pen and similar small items upon which the disclaimer cannot be conveniently printed, the communication—

(i) If authorized by a candidate, his or her authorized political committees, or their agents, shall clearly and conspicuously state that the communication has been authorized on behalf of that candidate;

(ii) If not authorized by a candidate, his authorized political committees, or their agents, shall clearly and conspicuously state that the communication is not authorized by any candidate, and state the name of the person who made or financed the expenditure for the communication, including, in the case a political committee, the name of any affiliated or connected organization required to be listed under § 102.2(a)(2).

(2) For purposes of this section, "clearly and conspicuously" means—

(i) On the face or front page of printed matter, or at the beginning or end of a broadcast or telecast matter, and shall include the name of the committee; and

(ii) In a manner calculated to provide actual notice to a reader, listener, or viewer.

(b) (1) No person who sells space in a newspaper or magazine to a candidate, an authorized committee of a candidate, or an agent of the candidate, for use in connection with the candidate's campaign for nomination or for election, shall charge an amount for the space which exceeds the comparable rate for the space for non-campaign purposes.

(2) For purposes of this section, "comparable rate" means the rate charged to a national or general rate advertiser, and shall include discount privileges usually and normally available to a national or general rate advertiser.

(c) Each political committee shall include on the face or front page of all printed literature and advertisements soliticing contributions and at the beginning or end of any broadcast solicitation the following notice:

"A copy of our report is filed with the Federal Election Commission and is available for purchase from the Federal Election Commission, Washington, D.C."

§ 110.12 Honorariums.

(a) No person while an elected or appointed officer or employee of any branch of the Federal government shall accept—

(1) Any honorarium of more than $2,000;

(2) Honorariums (not prohibited by paragraph (1) of this section) aggregating more than $25,000 in any calendar year.

(b) The term "honorarium" means a payment of money or anything of value received by an officer or employee of the Federal government, if it is accepted as consideration for an appearance, speech, or article. An honorarium does not include payment for or provision of actual travel and subsistence, including transportation, accommodations, and meals for the officer or employee and spouse or an aide, and does not include amounts paid or incurred for any agents' fees or commissions.

(1) *Officer or Employee.* The term "officer or employee of the Federal government," or "officer or employee" means any person appointed or elected to a position of responsibility or authority in the United States government, regardless of whether the person is compensated for this position; and any other person receiving a salary, compensation, or reimbursement from the United States government, who accepts an honorarium for an appearance, speech, or article. Included within this class is the President; the Vice President; any Member of Congress; any judge of any court of the United States; any Cabinet officer; and any other elected or appointed officer or employee of any branch of the Federal government.

(2) *Appearance.* "Appearance" means attendance at a public or private conference, convention, meeting, social event, or like gathering, and the incidental conversation or remarks made at that time.

(3) *Speech.* "Speech" means an address, oration, or other form of oral presentation, regardless of whether presented in person, recorded, or broadcast over the media.

(4) *Article.* "Article" means a writing other than a book, which has been or is intended to be published.

(5) *Accepted.* "Accepted" means that there has been actual or constructive receipt of the honorarium and the Federal officeholder or employee exercises dominion or control over it. A Federal officeholder or employee is considered to have accepted an honorarium (i) if he or she actually receives it and determines its subsequent use, or (ii) he or she directs that the organization offering the honorarium give the honorarium to a charity or other beneficiary which he or she names, but (iii) an honorarium is not accepted if he or she makes a suggestion that the honorarium be given to a charity or other like beneficiary of the organization's own choosing. Nothing in this paragraph shall be construed as an interpretation of relevant provisions of the Internal Revenue Code.

(c) The term "honorarium" does not include—

(1) *An award.* An award is a gift of money or anything of value given—

(i) Primarily in recognition of religious, charitable, scientific, educational, artistic, literary, or civil achievement;

(ii) Based on a selection process with established criteria and which does not require the officer or employee to apply for or take any other action in the way of competition for the award;

(iii) Gratuitously under circumstances which do not require the recipient to make an appearance or speech, or write an article as a condition for receiving the award; and

(iv) Which is not made to serve in place of an honorarium or a contribution.

(2) *A gift.* A gift is a voluntary conveyance of real or personal property which is made gratuitously, and is not supported by consideration, and is not made to serve in place of an honorarium or a contribution.

(3) *A stipend.* A stipend is a payment for services on a continuing basis, including a salary or other compensation paid by news media for commentary on events other than the campaign of the individual compensated. A stipend cannot be paid by a political committee other than a candidate's principal campaign committee or other authorized committee to that candidate.

PART 111—COMPLIANCE PROCEDURE

Sec.
111.1 Scope.
111.2 Complaint; filing.
111.3 Initial processing.
111.4 Notification.
111.5 Investigation.
111.6 Commission action.
111.7 Conciliation.
111.8 Disclosure of Commission action.
111.9 Civil proceedings.
111.10 Issuance of Subpoenas and Subpoenas Duces Tecum.
111.11 Depositions.
111.12 Service of subpoenas and notices of deposition.
111.13 Motions to quash.
111.14 Witness fees and mileage.
111.15 Ex parte communication.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 111.1 Scope.

These regulations provide procedures for processing possible violations of the Federal Election Campaign Act of 1971, as amended (2 U.S.C. § 431, *et seq.*) and chapters 95 and 96 of the Internal Revenue Code of 1954 (26 U.S.C. §§ 9001, *et seq* and 9031 *et seq.*).

§ 111.2 Complaint; filing.

(a) Any person may file a complaint with the Commission setting forth grounds for believing that a person has violated the Act or chapter 96 of the Internal Revenue Code of 1954. A complaint shall be in writing and signed, and shall be sworn to and notarized.

(b) A complaint shall contain—

(1) The full name, address, and telephone number of the complainant;

(2) A clear and concise statement of the acts which are alleged to constitute a violation of the Act;

(3) Any documentation of allegations of the complaint available to the complainant; and

(4) An assertion that the person complaining, if not a candidate, is not filing the complaint on behalf of or at the request or suggestion of a candidate, unless such is the fact, in which case it shall be set forth.

§ 111.3 Initial processing.

The General Counsel shall review the complaint and all relevant material filed with the Commission and report to the Commission on the factual and legal bases for the possible violation. On the basis of the General Counsel's report and the relevant materials, the Commission shall determine by the agreement of at least four of its members whether it has "reason to believe" that the Act or chapter 95 or 96 of the Internal Revenue Code of 1954 have been or will be violated and order any investigation it believes necessary.

§ 111.4 Notification.

Upon determination by agreement of at least four members of the Commission that it has reason to believe that a violation of the Act or chapter 95 or 96 of the Internal Revenue Code of 1954 has occurred or will occur, the General Counsel shall notify respondent of that determination, providing a copy of the complaint or summary of the matters brought into question and advising respondent that he or she should submit any factual or legal information which he or she believes demonstrates that no action should be taken against him or her. Such notification shall be confidential as required by 2 U.S.C. § 437g(a)(3)(B).

§ 111.5 Investigation.

(a) In any case in which the Commission finds it has reason to believe that a violation of the Act or chapter 95 or 96 of the Internal Revenue Code of 1954 has occurred or will occur, it shall order an investigation into those maters about which it believes it needs further information.

(b) If a complaint is filed by a candidate, any investigation shall include an investigation of the reports and statements filed by the complaining candidate, pursuant to 2 U.S.C. § 437g(a)(3).

§ 111.6 Commission action.

After review of the relevant materials obtained during the investigation, the Commission by agreement of at least four of its members shall determine whether there is reasonable cause to believe that respondent has committed or is about to commit a violation of the Act or of chapter 95 or 96 of the Internal Revenue Code of 1954. In the event that the Commission so determines, it shall inform the respondent of its decision and seek voluntary compliance by the respondent.

§ 111.7 Conciliation.

(a) Within a reasonable time after the Commission has determined that it has reasonable cause to believe that the Act or chapter 95 or 96 of the Internal Revenue Code of 1954 has been or will be violated, the General Counsel shall attempt to correct or prevent the violation by informal methods of conference, conciliation, and persuasion.

(b) If a tentative conciliation agreement is reached with respondent, the General Counsel shall submit it to the Commission for approval by agreement of at least four members.

(c) If, after attempting conciliation for the appropriate period of time (see 2 U.S.C. § 437g(a)(5)(A)), the General Counsel concludes that no acceptable conciliation agreement can be reached, he or she shall prepare a report for the Commission which sets forth the reasons for the inability to obtain a conciliation agreement.

§ 111.8 Disclosure of Commisison action.

(a) If the Commission has notified respondent of its decision that he or she has not violated the Act or chapter 95 or 96 of the Internal Revenue Code of 1954, it shall make available to the public its determination and the basis for it.

(b) After the Commission has concluded any conciliation attempts, it shall make available the results of any such attempts, including any conciliation agreement entered into.

§ 111.9 Civil proceedings.

The Commission, on the recommendation of the General Counsel, after attempts to correct or prevent any violation by informal methods of conference, conciliation, or persuasion have been unsuccessful, may determine by the agreement of at least four of its members that there is probable cause to believe that a violation of the Act or chapter 95 or 96 of the Internal Revenue Code of 1954 has occurred or will occur and may direct the General Counsel to commence civil proceedings and seek appropriate relief.

§ 110.10 Issuance of subpoenas and subpoenas duces tecum.

(a) The Chairman or the Vice Chairman shall issue subpoenas requiring the attendance and testimony of witnesses and the production of documentary or other tangible evidence upon request by the General Counsel.

(b) Any party may request the General Counsel to subpoena particular persons or evidence, but such subpoenas shall not be obtainable as a matter of right.

§ 111.11 Depositions.

In any proceeding or investigation, the Commission, upon written notice, may order testimony to be taken by deposition before any person who is designated by the Commission and has the power to administer oaths.

§ 111.12 Service of subpoenas and notices of depositions.

(a) Service of a subpoena or notice of deposition upon a person named therein shall be made by delivering a copy to that person in the manner described by paragraphs (b), (c), and (d). Fees for one day's attendance and mileage shall be tendered as specified in § 111.14.

(b) Whenever service is to be made upon a person who is represented in the pending proceeding by an attorney, the service may be made upon the attorney.

(c) Delivery of a copy of a subpoena or notice of deposition and tender of the fees to a natural person may be made by handing them to the person; or leaving them at his office with the person in charge thereof; or leaving them at his dwelling place or usual place of abode with some person of suitable age and discretion then residing therein; or mailing them by registered

V 41 166
AUG 25 76
UMI

or certified mail to him at his last known address; or by any method whereby actual notice is given to him and the fees are made available prior to the return date.

(d) When the person to be served is not a natural person, delivery of a copy of the subpoena or notice of deposition and tender of the fees may be effected by handing them to a registered agent for service, or to any officer, director, or agent in charge of any office of such person; or by mailing them by registered or certified mail to such representative at his last known address; or by any method whereby actual notice is given to such representative and the fees are made available prior to the return date.

§ 111.13 Motions to quash.

(a) Any person to whom a subpoena is directed may, prior to the time specified therein for compliance, but in no event more than 5 days after the date of service of such subpoena, apply to the Commission to quash or modify such subpoena, accompanying such application with a brief statement of the reasons therefor.

(b) The Commission upon the agreement of at least four of its members may deny the application, or, upon granting notice and an opportunity for reply to the person upon whose request the subpoena was issued, may—

(1) Deny the application;
(2) Quash the subpoena; or
(3) Modify the subpoena.

§ 111.14 Witness fees and mileage.

(a) Witnesses summoned before the Commission shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States, and witnesses whose depositions are taken and the persons taking the same shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

(b) Witness fees and mileage shall be paid by the party at whose instance the witnesses appear.

§ 111.15 Ex parte communications.

(a) In order to avoid the possibility of prejudice, real or apparent, to the public interest in enforcement actions pending before the Commission pursuant to 2 U.S.C. § 437g(a) (1) or (2), except to the extent required for the disposition of ex parte matters as required by law (for example, during the normal course of an investigation or a conciliation effort), no interested person outside the agency shall make or cause to be made to any Commissioner or any member of the Commission's staff involved in handling enforcement actions any ex parte communication relative to the factual merits of any enforcement action, nor shall any Commissioner or member of the Commission's staff involved in the decisional process make or entertain any such ex parte communications.

(b) The prohibition of this regulation shall apply from the time a complaint is filed with the Commission pursuant to 2 U.S.C. § 437g(a) (1) or from the time that the Commission determines on the basis of information ascertained in the normal course of its supervisory responsibilities that it has reason to believe that a violation has occurred or may occur pursuant to 2 U.S.C. § 437g(a) (2), and remains in force until the Commission has finally concluded all action with respect to the enforcement matter in question.

PART 112—ADVISORY OPINION PROCEDURE

Sec.
112.1 Requests for advisory opinions.
112.2 Public availability of requests.
112.3 Written comments on requests.
112.4 Issuance of advisory opinions.
112.5 Reliance on advisory opinions.
112.6 Reconsideration of advisory opinions.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107 (a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 112.1 Requests for advisory opinions.

(a) Any—
(1) Holder of Federal office;
(2) Candidate for Federal office;
(3) Political committee;
(4) National committee of a political party; or
(5) Authorized agent of any of the foregoing persons (if the agent discloses the identity of his or her principal)

may request in writing, an advisory opinion concerning application of a general rule of law (i) stated in the Federal Election Campaign Act of 1971, as amended, or chapter 95 or 96 of the Internal Revenue Code of 1954, or (ii) duly prescribed as a rule or regulation by the Commission, to a specific factual situation that involves the requesting person.

(b) Requests shall include all facts relevant to the specific factual situation with respect to which the request is made. Hypothetical questions will not be treated as advisory opinion requests.

(c) Advisory opinion requests may be sent to the Federal Election Commission, Office of General Counsel, Advisory Opinion Section, 1325 K Street, NW., Washington, D.C. 20463.

(d) Upon receipt by the Commission, each advisory opinion request (AOR) shall be assigned an AOR number for reference purposes.

§ 112.2 Public availability of requests.

(a) Advisory opinion requests submitted under § 112.1 shall promptly be made public at the Commission.

(b) A copy of the original request shall be available for public inspection and purchase, except when it involves a compliance action (see Part 111), at the Federal Election Commission, Public Records Division, 1325 K Street, NW., Washington, D.C. 20463.

(c) Advisory opinion requests may be made public through other means, and publication in those cases shall be either in the form originally submitted or in an edited or paraphrased form as the Commission considers appropriate.

§ 112.3 Written comment on requests.

(a) Interested persons are invited to submit written comments concerning advisory opinion requests.

(b) Written comments may be submitted within 10 calendar days of the date the request is made public at the Commission. The Commission may in its discretion shorten or extend the comment period on a particular request where there is reasonable cause for doing so.

(c) Comments on advisory opinion requests should refer to the AOR number of the request, and statutory references should be to the United States Code citations, rather than to Public Law citations.

(d) Additional time in which to comment may be granted upon written request or in the discretion of the Commission.

(e) Written comments and requests for additional time to comment shall be sent to the Federal Election Commission, Office of General Counsel, Advisory Opinion Section, 1325 K Street, NW., Washington, D.C. 20463.

(f) Before it issues an advisory opinion the Commission shall consider all timely comments received.

§ 112.4 Issuance of advisory opinions.

(a) Within a reasonable time after receiving a written request properly made under § 112.1 the Commission shall issue a written advisory opinion.

(b) The Commission may issue advisory opinions pertaining only to the Federal Election Campaing Act of 1971, as amended, chapter 95 or 96 of the Internal Revenue Code of 1954, or rules or regulations duly prescribed under those statutes.

(c) No advisory opinion may state a general rule of law, other than one which is stated in the Federal Election Campaign Act of 1971, as amended, or chapter 95 or 96 of the Internal Revenue Code of 1954, until that general rule is prescribed by the Commission as a rule or regulation pursuant to 2 U.S.C. § 438 (c).

(d) No opinion of an advisory nature may be issued by the Commission or any of its employees except in accordance with the provisions of this § 112.4; however, this paragraph does not preclude distribution by the Commission of information consistent with the Act and chapter 95 or 96 of the Internal Revenue Code of 1954.

(e) When issued by the Commission each advisory opinion shall be made public and sent by mail, or personally delivered, to the person who requested the opinion.

§ 112.5 Reliance on advisory opinions.

(a) An advisory opinion rendered by the Commission under this Part 112 may be relied upon by:

(1) Any person involved in the specific transaction or activity with respect to which such advisory opinion is rendered, and

(2) Any person involved in any specific transaction or activity which is indistinguishable in all its material aspects from the transaction or activity with respect to which such advisory opinion is rendered.

(b) Notwithstanding any other provision of law, any person who relies upon any provision or finding of an advisory opinion in accordance with paragraph (a) of this § 112.5 and who acts in good faith in accordance with the provisions and findings of such advisory opinion shall not, as a result of any such act, be subject to any sanction provided by the Federal Election Campaign Act of 1971, as amended, or by chapter 95 or 96 of the Internal Revenue Code of 1954.

§ 112.6 Reconsideration of advisory opinions.

The Commission may reconsider advisory opinions upon written request by the party originally submitting the request and upon request of a Commissioner who voted with the majority that approved the opinion.

PART 113—OFFICE ACCOUNTS: EXCESS CAMPAIGN FUNDS

Sec.
113.1 Definitions.
113.2 Use of funds.
113.3 Deposits of funds donated to a Federal or State officeholder.
113.4 Reports of office accounts.
113.5 Contribution and expenditure limitations.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107 (a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315 (a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 113.1 Definitions.

When used in this part—

(a) *Funds donated.* "Funds donated" means all funds, including, but not limited to, gifts, loans, advances, credits or deposits of money which are donated for the purpose of supporting the activities of a Federal or State officeholder; but does not mean funds appropriated by Congress, a State legislature, or another similar public appropriating body, or personal funds of the officeholder donated to an account containing only those personal funds.

(b) *Office account.* "Office account" means an account established for the purposes of supporting the activities of a Federal or State officeholder which contains excess campaign funds and funds donated, but does not include an account used exclusively for funds appropriated by Congress, a State legislature, or another similar public appropriating body, or an account of the officeholder which contains only the personal funds of the officeholder, or an account containing only appropriated funds and only personal funds of the officeholder.

(c) *Federal officeholder.* "Federal officeholder" means an individual elected to or serving in the office of President or Vice President of the United States; or a Senator or a Representative in, or Delegate or Resident Commissioner to, the Congress of the United States.

(d) *State officeholder.* "State officeholder" means an individual elected to or serving in any elected public office within a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico or any subdivision thereof.

(e) *Excess campaign funds.* "Excess campaign funds" means amounts received by a candidate as contributions which he or she determines are in excess of any amount necessary to defray his or her campaign expenditures.

§ 113.2 Use of funds.

Excess campaign funds and funds donated—

(a) May be used to defray any ordinary and necessary expenses incurred in connection with the recipient's duties as a holder of Federal office, if applicable; or

(b) May be given to any organization described in section 170(c) of Title 26, of the U.S. Code; or

(c) May be used for any other lawful purpose, including contributions to a political party or to another candidate, in which case the contributions shall be considered personal contributions by the officeholder, subject to the limitations of Part 110.

§ 113.3 Deposits of funds donated to a Federal or State officeholder.

All funds donated to a Federal officeholder, or State officeholder who is a candidate for Federal office, shall be deposited into one of the following accounts:

(a) An account of the officeholder's principal campaign committee or other authorized committee pursuant to Part 103; or

(b) An office account.

§ 113.4 Reports of office accounts.

(a) All Federal officeholders having office accounts shall report on April 15 and October 15 of each year. The April 15 report shall disclose all receipts and disbursements from October 1 of the preceding year through March 30 of the year in which the report is filed. The October 15 report shall disclose all receipts and disbursements from April 1 through September 30 of the year the report is filed.

(b) A Federal officeholder shall file the reports required by § 113.4(a) with the Clerk of the House of Representatives in the case of a Representative in, or Delegate or Resident Commissioner to, the Congress of the United States, or with the Secretary of the Senate in the case of a United States Senator, or with the Commission in the case of the President or Vice President.

(c) When a State officeholder having an office account becomes a candidate for Federal office, pursuant to 2 U.S.C. § 431(b), he or she shall file the reports provided for in (b) above. The reports shall contain a report of all receipts and disbursements, including the same information required to be reported by a political committee regarding contributions and expenditures, see § 104.2, except that the identification, occupation, and principal place of business of donors of in excess of $50 in cash shall be reported.

§ 113.5 Contribution and expenditure limitations.

(a) Any contributions to, or expenditures from, an office account which are made for the purpose of influencing a Federal election shall be subject to 2 U.S.C. § 441a and Part 110 of these regulations.

(b) If any treasury funds of a corporation or labor organization are donated to an office account, no funds from that office account may be used in connection with a Federal election.

PART 114—CORPORATE AND LABOR ORGANIZATION ACTIVITY

Sec.
114.1 Definitions.
114.2 Prohibitions on contributions and expenditures.
114.3 Partisan communications.
114.4 Nonpartisan communications.
114.5 Separate segregated funds.
114.6 Twice yearly solicitations.
114.7 Membership organizations, cooperatives, or corporations without capital stock.
114.8 Trade associations.
114.9 Use of corporate or labor organization facilities and means of transportation.
114.10 Extension of credit and settlement of corporate debts.
114.11 Employee participation plans.
114.12 Miscellaneous provisions.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107 (a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315 (a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208(a) and (c)(10), and 209(a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438 (a)(10)).

§ 114.1 Definitions.

(a) For purposes of Part 114 and section 12(h) of the Public Utility Holding Company Act (15 U.S.C. 79l(h))—

(1) The term "contribution or expenditure" shall include any direct or indirect payment, distribution, loan, advance, deposit, or gift of money, or any services, or anything of value (except a loan by a National or State bank made in accordance with the applicable banking laws and regulations and in the ordinary course of business) to any candidate, political party or committee, organization, or any other person in connection with any election to any of the offices referred to in § 114.2(a) or (b) as applicable.

(2) The term "contribution or expenditure" shall *not* include—

(i) Communications by a corporation to its stockholders and executive or administrative personnel and their families or by a labor organization to its

V 41 166 AUG 25 76 UMI

members and their families on any subject;

(ii) Nonpartisan registration and get-out-the-vote campaigns by a corporation aimed at its stockholders and executive or administrative personnel and their families or by a labor organization aimed at its members and their families;

(iii) The establishment, administration, and solicitation of contributions to a separate segregated fund to be utilized for political purposes by a corporation, labor organization, membership organization, cooperative, or corporation without capital stock;

(iv) An honorarium, including actual travel and subsistence, as defined in § 110.12;

(v) The sale of any food or beverage by a corporate vendor for use in a candidate's campaign at a charge less than the normal or comparable commercial charge, if the amount charged by the vendor is at least equal to the cost of food or beverage to the vendor, except that the cumulative value of discounts given by the vendor may not exceed $500 per candidate, per election;

(vi) The payment for legal or accounting services rendered to or on behalf of the national committee of a political party other than services attributable to activities which directly further the election of a designated candidate or candidates for Federal office if the corporation or labor organization paying for the services is the regular employer of the individual rendering the services. This exclusion shall not be applicable if additional employees are hired for the purpose of rendering services or if additional employees are hired in order to make regular employees available;

(vii) The payment for legal or accounting services rendered to or on behalf of a candidate or political committee solely for the purpose of ensuring compliance with this Act or chapter 95 or 96 of the Internal Revenue Code of 1954 if the corporation or labor organization paying for the services is the regular employer of the individual rendering the services, but amounts paid or incurred for these services shall be reported in accordance with Part 104. This exclusion shall not be applicable if additional employees are hired for the purpose of rendering services or if additional employees are hired in order to make regular employees available;

(viii) Activity with respect to a national nominating convention allowed under § 121.5;

(ix) A gift, subscription, loan, advance, or deposit of money or anything of value to a national committee of a political party or a State committee of a political party which is specifically designated for the purpose of defraying any cost incurred with respect to the construction or purchase of any office facility which is not acquired for the purpose of influencing the election of any candidate in any particular election for Federal office, except that any gift, subscription, loan, advance, or deposit of money or anything of value, and any such cost, shall be reported in accordance with Part 104; or

(x) Any activity which is specifically permitted by Part 114.

(b) "Establishment, administration, and solicitation costs" means the cost of office space, phones, salaries, utilities, supplies, legal and accounting fees, fundraising and other expenses incurred in setting up and running a separate segregated fund established by a corporation, labor organization, membership organization, cooperative, or corporation without capital stock.

(c) "Executive or administrative personnel" means individuals employed by a corporation who are paid on a salary rather than hourly basis and who have policymaking, managerial, professional, or supervisory responsibilities.

(1) This definition includes—

(i) The individuals who run the corporation's business such as officers, other executives, and plant, division, and section managers; and

(ii) Individuals following the recognized professions, such as lawyers and engineers.

(2) This definition does *not* include—

(i) Professionals who are represented by a labor organization;

(ii) Salaried foremen and other salaried lower level supervisors having direct supervision over hourly employees;

(iii) Former or retired personnel who are not stockholders; or

(iv) Individuals who may be paid by the corporation, such as consultants, but who are not employees, within the meaning of 26 CFR 31.3401(c)–1 of the corporation for the purpose of income withholding tax on employee wages under Internal Revenue Code of 1954, § 3402.

(3) Individuals on commission may be considered executive or administrative personnel if they have policymaking, managerial, professional, or supervisory responsibility and if the individuals are employees, within the meaning of 26 CFR 31.3401(c)–1 of the corporation for the purpose of income withholding tax on employee wages under the Internal Revenue Code of 1954, § 3402.

(4) The Fair Labor Standards Act, 29 U.S.C. § 201, et seq. and the regulations issued pursuant to that Act, 29 CFR 541, may serve as a guideline in determining whether individuals have policymaking, managerial, professional, or supervisory responsibilities.

(d) "Labor organization" means any organization of any kind, or any agency or employee representative committee or plan, in which employees participate and which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work.

(e) "Members" means all persons who are currently satisfying the requirements for membership in a membership organization, trade association, cooperative, or corporation without capital stock and in the case of a labor organization, persons who are currently satisfying the requirements for membership in a local, national, or international labor organization. Members of a local union are considered to be members of any national or international union of which the local union is a part and of any federation with which the local, national, or international union is affiliated. A person is not considered a member under this definition if the only requirement for membership is a contribution to a separate segregated fund.

(f) "Method of facilitating the making of contributions" means the manner in which the contributions are received or collected such as, but not limited to, payroll deduction or checkoff systems, other periodic payment plans, or return envelopes enclosed in a solicitation request.

(g) "Method of soliciting voluntary contributions" means the manner in which the solicitation is undertaken including, but not limited to, mailings, oral requests for contributions, and hand distribution of pamphlets.

(h) "Stockholder" means a person who has a vested beneficial interest in stock, has the power to direct how that stock shall be voted, if it is voting stock, and has the right to receive dividends.

(i) "Voluntary contributions" are contributions which have been obtained by the separate segregated fund of a corporation or labor organization in a manner which is in compliance with § 114.5(a) and which is in accordance with other provisions of the Act.

§ 114.2 Prohibitions on contributions and expenditures.

(a) National banks, or corporations organized by authority of any law of Congress, are prohibited from making a contribution or expenditure, as defined in § 114.1(a), in connection with election to any political office, including local, State and Federal offices, or in connection with any primary election or political convention or caucus held to select candidates for any political office, including any local, State or Federal office.

(1) Such national banks and corporations may engage in the activities permitted by this Part, except to the extent that such activity is foreclosed by provisions of law other than the Act.

(2) The provisions of this Part apply to the activities of a national bank or corporation organized by any law of Congress in connection with both State and Federal elections.

(b) Any corporation whatever or any labor organization is prohibited from making a contribution or expenditure, as defined in § 114.1(a) in connection with any Federal election.

(c) A candidate, political committee, or other person is prohibited from knowingly accepting or receiving any contribution prohibited by this section.

(d) No officer or director of any corporation or any national bank, and no officer of any labor organization shall consent to any contribution or expenditure by the corporation, national bank, or labor organization prohibited by this section.

§ 114.3 Partisan communications.

(a) A corporation may make partisan communications in connection with a Federal election to its stockholders and executive or administrative personnel and their families. A labor organization may make partisan communications in connection with a Federal election to its members and their families.

(b) Expenditures for partisan communications which expressly advocate the election or defeat of a clearly identified candidate must be reported in accord with § 100.7(b)(5).

(c) The manner in which partisan communications may be made includes, but is not limited to—

(1) The distribution of printed material of a partisan nature by a corporation to its stockholders and executive or administrative personnel and their families, or by a labor organization to its members and their families, Provided;

(i) That the material is produced at the expense of the corporation or labor organization or the separate segregated fund of either; and

(ii) That the material constitutes a communication of the views of the corporation or the labor organization, and is not simply the republication or reproduction in whole or in any part, of any broadcast transcript or tape or any written, graphic, or other form of campaign materials prepared by the candidate, his or her campaign committees, or their authorized agents.

(2) Allowing a candidate or party representative to address the stockholders and executive or administrative personnel of the corporation and their families at a meeting, convention, or other regularly scheduled function of the corporation which is primarily held for other purposes or allowing a candidate or party representative to address the members of a labor organization and their families at a meeting, convention, or other regularly scheduled function of the labor organization which is primarily held for other purposes. The candidate or party representative may ask for contributions to his or her campaign or party at the time of the appearance, ask that contributions be sent to his or her campaign or party, or ask that contributions to the separate segregated fund of the corporation or labor organization be designated for his or her campaign or party.

(3) The establishment and operation of phone banks by a corporation to communicate with its stockholders and executive or administrative personnel and their families urging them to register and/or vote for a particular candidate or candidates, and the establishment and operation of phone banks by a labor organization to communicate with its members and their families urging them to register and/or vote for a particular candidate or candidates.

(4) Registration and get-out-the-vote drives, as by providing transportation to the polls, by a corporation aimed at its stockholders and executive or administrative personnel and their families or by a labor organization aimed at its members and their families. Such drives may be partisan in that individuals may be urged to register with a particular party or to vote for a particular candidate or candidates, but assistance in registering or voting may not be withheld or refused on a partisan basis, and if transportation or other services are offered in connection with a registration or get-out-the-vote drive, such transportation or services may not be withheld or refused on a partisan basis.

§ 114.4 Nonpartisan communications.

(a) *Communications by a corporation to its stockholders and executive or administrative personnel and by a labor organization to its members.* (1) A corporation may make nonpartisan communications on any subjects to its stockholders and executive or administrative personnel. A labor organization may make nonpartisan communications to its members on any subject.

(2) A corporation may engage in nonpartisan registration and get-out-the-vote activity aimed at its stockholders and executive or administrative personnel and their families. A labor organization may engage in nonpartisan registration and get-out-the-vote activity aimed at its members and their families.

(b) *Candidate and party appearances.*—(1) *Corporations.* Under the following circumstances, corporations may permit candidates (or their representatives) or representatives of political parties on corporate premises to address or meet employees in addition to stockholders and executive or administrative personnel:

(i) If a candidate for the House or Senate is permitted on the premises to address or meet employees, all candidates for that seat who request to appear must be given the same opportunity to appear;

(ii) If a Presidential candidate is permitted on the premises, all candidates for that office who request to appear must be given the same opportunity to appear;

(iii) If representatives of political parties are permitted on the premises, representatives of all political parties which had a candidate or candidates on the ballot in the last general election or which anticipate having or will have a candidate or candidates on the ballot in the next general election which request to appear must be given the same opportunity to appear.

(iv) A corporation, its stockholders, executive or administrative personnel, or other employees of the corporation or its separate segregated fund shall make no effort, either oral or written, to solicit or direct or control contributions by members of the audience or group to any candidate or party in conjunction with any appearance by any candidate or party representative under this section; and

(v) A corporation, its stockholders, executive or administrative personnel or other employees of the corporation or its separate segregated fund shall **not**, in conjunction with any candidate or party representative appearances under this section, endorse or otherwise support one particular candidate or group of candidates or one particular political party over another political party.

(2) *Labor organizations.* A labor organization may permit candidates (or their representatives) or representatives of political parties on the organization's premises to address employees of the labor organization in addition to members of the labor organization if the conditions in paragraph (b)(1(i) through (iii) of this section are met.

(i) An official, member, or employee of a labor organization or its separate segregated fund shall not make any effort, either oral or written, to solicit or direct or control contributions by members of the audience to any candidate or party representative under this section.

(ii) An official, member, or employee of a labor organization or its separate segregated fund shall not, in conjunction with any candidate's or party representative's appearance under this section, endorse or otherwise support one particular candidate or group of candidates over another candidate or group of candidates or one particular political party over another political party.

(c) *Nonpartisan registration and voting information.* (1) A corporation or labor organization may, by posters or in newsletters or other communications, urge the employees of the corporation or of the labor organization to register or to vote or to otherwise participate in the political process if—

(i) The communication mentions no political affiliation (except as permitted by (ii)) and is restricted to urging acts such as contributing, voting, and/or registering and, describing the hours and places of registration and voting; and

(ii) Information about particular candidates or political parties is not included in the communication, except that the corporation or labor organization may reprint the entire list of names and political affiliations of candidates on the official ballot.

(2) A corporation or labor organization may distribute or reprint (in whole) any registration or voting information, such as instructional materials, which have been produced by the official election administrators for distribution to the general public.

(3) A corporation or labor organization may distribute voter guides or other types of brochures describing the candidates and their positions if—

(i) The materials do not favor one candidate or political party over another; and

(ii) The materials are obtained from a civic or other nonprofit organization which does not endorse or support or is not affiliated with any candidate or political party.

(d) *Nonpartisan registration and get-out-the-vote drives.* (1) A corporation may support nonpartisan registration and get-out-the-vote drives, as by transporting people to the polls, which are not restricted to its stockholders and executive or administrative personnel and their families, and a labor organization may support such drives which are not restricted to its members and their families if:

(i) The corporation or labor organization jointly sponsors the drives with a civic or other nonprofit organization

V 41 166 AUG 25 76 UMI

which does not support or endorse candidates or political parties and if the activities are conducted by the other organization; and

(ii) These services are made available without regard to the voter's political preference.

(2) A corporation or labor organization may donate funds to be used for nonpartisan registration and get-out-the-vote drives to civic and other nonprofit organizations which do not endorse candidates or political parties.

(3) The civic or nonprofit organization, in conducting the nonpartisan registration and get-out-the-vote activities, may utilize the employees and facilities of a corporation or the employees or members and facilities of a labor organization.

§ 114.5 Separate segregated funds.

(a) *Voluntary contributions to a separate segregated fund.* (1) A separate segregated fund is prohibited from making a contribution or expenditure by utilizing money or anything of value secured by physical force, job discrimination, financial reprisals, or the threat of force, job discrimination, or financial reprisal; or by dues, fees, or other monies required as a condition of membership in a labor organization or as a condition of employment, or by monies obtained in any commercial transaction. For purposes of this section, fees or monies paid as a condition of acquiring or retaining membership or employment are monies required as a condition of membership or employment even though they are refundable upon request of the payor.

(2) A guideline for contributions may be suggested by a corporation or a labor organization, or the separate segregated fund of either, provided that the person soliciting or the solicitation informs the persons being solicited—

(i) That the guidelines are merely suggestions; and

(ii) That an individual is free to contribute more or less than the guidelines suggest and the corporation or labor organization will not favor or disadvantage anyone by reason of the amount of their contribution or their decision not to contribute.

A corporation or labor organization or the separate segregated fund of either may not enforce any guideline for contributions.

(3) Any person soliciting an employee or member for a contribution to a separate segregated fund must inform such employee or member of the political purposes of the fund at the time of the solicitation.

(4) Any persons soliciting an employee or member for a contribution to a separate segregated fund must inform the employee or member at the time of such solicitation of his or her right to refuse to so contribute without any reprisal.

(5) Any written solicitation for a contribution to a separate segregated fund which is addressed to an employee or member must contain statements which comply with the requirements of paragraph (a) (3) and (4) of this section, and if a guideline is suggested, statements which comply with the requirements of paragraph (a)(2) of this section.

(b) *Use of treasury monies.* Corporations, labor organizations, membership organizations, cooperatives, or corporations without capital stock may use general treasury monies, including monies obtained in commercial transactions and dues monies or membership fees, for the establishment, administration, and solicitation of contributions to its separate segregated fund. A corporation, labor organization, membership organization, cooperative, or corporation without capital stock may not use the establishment, administration, and solicitation process as a means of exchanging treasury monies for voluntary contributions.

(1) A contributor may not be paid for his or her contribution through a bonus, expense account, or other form of direct or indirect compensation.

(2) A corporation, labor organization, membership organization, cooperative, or corporation without capital stock may, subject to the provisions of 39 U.S.C. § 3005 and Chapter 61, Title 18, United States Code, utilize a raffle or other fundraising device which involves a prize, so long as State law permits and the prize is not disproportionately valuable. Dances, parties, and other types of entertainment may also be used as fundraising devices. When using raffles or entertainment to raise funds, a reasonable practice to follow is for the separate segregated fund to reimburse the corporation or labor organization for costs which exceed one-third of the money contributed.

(c) *Membership in separate segregated funds.* (1) A separate segregated fund established by a corporation, labor organization, membership organization, cooperative, or corporation without capital stock may provide that persons who contribute a certain amount to its separate segregated fund will become "members" of its separate segregated fund, so long as—

(i) The fund accepts contributions of all amounts, subject to the limitations of Part 110;

(ii) Subject to subsection (iii), no thing of value may be given in return for or in the course of membership;

(iii) The fund may use membership status for intangible privileges such as allowing members only to choose the candidates to whom the fund will contribute.

(2) The fact that the separate segregated fund of a corporation, labor organization, membership organization, cooperative, or corporation without capital stock is a "membership group" does not provide the corporation, labor organization, membership organization, cooperative, or corporation without capital stock with any greater right of communication or solicitation than the corporation, labor organization, membership organization, cooperative, or corporation without capital stock is otherwise granted under this Part.

(d) *Control of funds.* A corporation, membership organization, cooperative, corporation without capital stock, or labor organization may exercise control over its separate segregated fund.

(e) *Disclosure.* Separate segregated funds are subject to the following disclosure requirements:

(1) A corporation or labor organization is not required to report any payment made or obligation incurred which is not a contribution or expenditure, as defined in § 114.1(a), except those reporting requirements specifically set forth in this section.

(2) A membership organization or corporation is not required to report the cost of any communication to its members or stockholders or executive or administrative personnel, if such membership organization or corporation is not organized primarily for the purpose of influencing the nomination for election, or election, of any person to Federal office, except that—

(i) The costs incurred by a membership organization, including a labor organization, or by a corporation, directly attributable to a communication expressly advocating the election or defeat of a clearly identified candidate (other than a communication primarily devoted to subjects other than the express advocacy of the election or defeat of a clearly identified candidate) shall, if those costs exceed $2,000 per election, be reported in accordance with § 100.7(b)(5); and

(ii) The amounts paid or incurred for legal or accounting services rendered to or on behalf of a candidate or political committee solely for the purpose of ensuring compliance with the provisions of the Act or chapter 95 or 96 of the Internal Revenue Code of 1954 paid by a corporation or labor organization which is the regular employer of the individual rendering such services, shall be reported in accordance with the provisions of Part 104.

(3) A separate segregated fund is subject to all other disclosure requirements of political committees as set forth in Part 104.

(f) *Contribution limits.* Separate segregated funds are subject to the contribution limitations for political committees set forth in Part 110. (See particularly § 110.3).

(g) *Solicitations.* Except as specifically provided in §§ 114.6, 114.7, and 114.8, a corporation and/or its separate segregated fund or a labor organization and/or its separate segregated fund is subject to the following limitations on solicitations:

(1) A corporation, or a separate segregated fund established by a corporation is prohibited from soliciting contributions to such a fund from any person other than its stockholders and their families and its executive or administrative personnel and their families. A corporation may solicit the executive or administrative personnel of its subsidiaries, branches, divisions, and affiliates and their families.

(2) A labor organization, or a separate segregated fund established by a labor organization is prohibited from soliciting contributions to such a fund from any person other than its members and their families.

(h) *Accidental or inadvertent solicitation.* Accidental or inadvertent solicitation by a corporation or labor organization, or the separate segregated fund of either, of persons apart from and beyond those whom it is permitted to solicit will not be deemed a violation, provided that such corporation or labor organization or separate segregated fund has used its best efforts to comply with the limitations regarding the persons it may solicit and that the method of solicitation is corrected forthwith after the discovery of such erroneous solicitation.

(i) *Communications paid for with voluntary contributions.* A separate segregated fund may, using voluntary contributions, communicate with the general public, except that such communications may not solicit contributions to a separate segregated fund established by a corporation, labor organization, membership organization, cooperative, or corporation without capital stock, unless such solicitation is permitted under paragraph (g) of this section.

(j) *Acceptance of contributions.* A separate segregated fund may accept contributions from persons otherwise permitted by law to make contributions.

(k) *Availability of methods.* Any corporation, including its subsidiaries, branches, divisions, and affiliates, that uses a method of soliciting voluntary contributions or facilitating the making of voluntary contributions from its stockholders or executive or administrative personnel and their families, shall make that method available to a labor organization representing any members working for the corporation, its subsidiaries, branches, divisions, and affiliates for soliciting voluntary contributions or facilitating the making of voluntary contributions from its members and their families. Such method shall be made available on the written request of the labor organization and at a cost sufficient only to reimburse the corporation for the expenses incurred thereby. For example—

(1) If a corporation, including its subsidiaries, branches, divisions, or affiliates utilizes a payroll deduction plan, checkoff system, or other plan which deducts contributions from the dividend or payroll checks of stockholders or executive or administrative personnel, the corporation shall, upon written request of the labor organization, make that method available to members of the labor organization working for the corporation, its subsidiaries, branches, divisions, or affiliates, who wish to contribute to the separate segregated fund of the labor organization representing any members working for the corporation, or any of its subsidiaries, branches, divisions, or affiliates. The corporation shall make the payroll deduction plan available to the labor organization at a cost sufficient only to reimburse the corporation for the actual expenses incurred thereby.

(2) If a corporation uses a computer for addressing envelopes or labels for a solicitation to its stockholders or executive or administrative personnel, the corporation shall, upon written request, program the computer to enable the labor organization to solicit its members. The corporation shall charge the labor organization a cost sufficient only to reimburse the corporation for the actual expenses incurred in programming the computers and the allocated cost of employee time relating to the work, and the materials used.

(3) If a corporation uses corporate facilities, such as a company dining room or cafeteria, for meetings of stockholders or executive or administrative personnel at which solicitations are made, the corporation shall, upon written request of the labor organization allow that labor organization to use existing corporate facilities for meetings to solicit its members. The labor organization shall be required to reimburse the corporation for any actual expenses incurred thereby, such as any increase in the overhead to the corporation and any cost involved in setting up the facilities.

(4) If a corporation uses no method to solicit voluntary contributions or to facilitate the making of voluntary contributions from stockholders or executive or administrative personnel, it is not required by law to make any method available to the labor organization for its members. The corporation and the labor organization may agree upon making any lawful method available even though such agreement is not required by the Act.

(5) The availability of methods of twice yearly solicitations is subject to the provisions of § 114.6(e).

(l) *Methods permitted by law to labor organizations.* Notwithstanding any other law, any method of soliciting voluntary contributions or of facilitating the making of voluntary contributions to a separate segregated fund established by a corporation, permitted by law to corporations with regard to stockholders and executive or administrative personnel, shall also be permitted to labor organizations with regard to their members.

§ 114.6 Twice yearly solicitations.

(a) A corporation and/or its separate segregated fund may make a total of two written solicitations for contributions to its separate segregated fund per calendar year of its employees other than stockholders, executive or administrative personnel, and their families. Employees as used in this section does not include former or retired employees who are not stockholders. Nothing in this paragraph shall limit the number of solicitations a corporation may make of its stockholders and executive or administrative personnel under § 114.5(g).

(b) A labor organization and/or its separate segregated fund may make a total of two written solicitations per calendar year of employees who are not members of the labor organization, executive or administrative personnel, or stockholders (and their families) of a corporation in which the labor organization represents members working for the corporation. Nothing in this paragraph shall limit the number of solicitations a labor organization may make of its members under § 114.5(g).

(c) Written solicitation. A solicitation under this section may be made only by mail addressed to stockholders, executive or administrative personnel, or employees at their residences. All written solicitations must inform the recipient—

(1) Of the existence of the custodial arrangement described hereinafter;

(2) That the corporation, labor organization, or the separate segregated fund of either cannot be informed of persons who do not make contributions; and

(3) That persons who, in a calendar year, make a single contribution of $50 or less or multiple contributions aggregating $100 or less may maintain their anonymity by returning their contributions to the custodian.

(d) The custodial arrangement. In order to maintain the anonymity of persons who do not wish to contribute and of persons who wish to respond with a single contribution of $50 or less or multiple contributions aggregating $100 or less in a calendar year, and to satisfy the recordkeeping provisions, the corporation, labor organization, or separate segregated fund of either shall establish a custodial arrangement for collecting the contributions under this section.

(1) The custodian for a separate segregated fund established by a corporation shall not be a stockholder, officer, executive or administrative personnel, or employee of the corporation, or an officer, or employee of its separate segregated fund. The custodian for a separate segregated fund established by a labor organization shall not be a member, officer or employee of the labor organization or its separate segregated fund.

(2) The custodian shall keep the records of contributions received in accordance with the requirements of Part 102 and shall also—

(i) Establish a separate account and deposit contributions in accordance with the provisions of Part 103;

(ii) Provide the fund with the identification of any person who makes a single contribution of more than $50 and the identification, occupation, and principal place of busines of any person who makes multiple contributions aggregating more than $100. The custodian must provide this information within a reasonable time prior to the reporting date of the fund under Part 104;

(iii) Periodically forward all funds in the separate account, by check drawn on that account, to the separate segregated fund; and

(iv) Treat all funds which appear to be illegal in accordance with the provisions of § 103.3(b).

(3) The custodian shall not—

(i) Make the records of persons making a single contribution of $50 or less or multiple contributions aggregating $100 or less, in a calendar year, available to any person other than representatives of the Federal Election Commission, the Clerk of the House or the Secretary of the Senate, as appropriate; and law enforcement officials or judicial bodies.

V 41 166
AUG 25 76
UMI

(ii) Provide the corporation or the labor organization or the separate segregated fund of either with any information pertaining to persons who, in a calendar year, make a single contribution of $50 or less or multiple contributions aggregating $100 or less, except that the custodian may forward to the corporation, labor organization, or separate segregated fund of either the total number of contributions received; or

(iii) Provide the corporation, labor organization, or the separate segregated fund of either with any information pertaining to persons who have not contributed.

(4) The corporation, labor organization, or the separate segregated fund of either shall provide the custodian with a list of all contributions, indicating the contributor's identification and amount contributed, which have been made directly to the separate segregated fund by any person within the group of persons solicited under this section.

(5) Notwithstanding the prohibitions of paragraph (d)(1), the custodian may be employed by the separate segregated fund as its treasurer and may handle all of its contributions, provided that the custodian preserves the anonymity of the contributors as required by this section. The custodian shall file the required reports with the Federal Election Commission, the Clerk of the House, or the Secretary of the Senate, as appropriate. A custodian who serves as treasurer is subject to all of the duties, responsibilities, and liabilities of a treasurer under the Act, and may not participate in the decision making process whereby the separate segregated fund makes contributions and expenditures.

(e) *Availability of methods.* (1) A corporation or labor organization or the separate segregated fund of either may not use a payroll deduction plan, a checkoff system, or other plan which deducts contributions from an employee's paycheck as a method of facilitating the making of contributions under this section.

(2) The twice yearly solicitation may only be used by a corporation or labor organization to solicit contributions to its separate segregated fund and may not be used for any other purpose.

(3) A corporation is required to make available to a labor organization representing any members working for the corporation or its subsidiaries, branches, divisions, or affiliates the method which the corporation uses to solicit employees under this section during any calendar year.

(i) If the corporation uses a method to solicit any employees under this section, the corporation is required to make that method available to the labor organization to solicit the employees of the corporation who are not represented by that labor organization, and the executive or administrative personnel and the stockholders of the corporation and their families.

(ii) If the corporation does not wish to disclose the names and addresses of stockholders or employees, the corporation shall make the names and addresses of stockholders and employees available to an independent mailing service which shall be retained to make the mailing for *both* the corporation and the labor organization for any mailings under this section.

(iii) If the corporation makes no solicitation of employees under this section during the calendar year, the corporation is not required to make any method or any names and addresses available to any labor organization.

(4) The corporation shall notify the labor organization of its intention to make a solicitation under this section during a calendar year and of the method it will use, within a reasonable time prior to the solicitation, in order to allow the labor organization opportunity to make a similar solicitation.

(5) If there are several labor organizations representing members employed at a single corporation, its subsidiaries, branches, divisions, or affiliates, the labor organizations, either singularly or jointly, may not make a combined total of more than two written solicitations per calendar year. A written solicitation may contain a request for contributions to each separate fund established by the various labor organizations making the combined mailing.

§ 114.7 Membership organizations, cooperatives, or corporations without capital stock.

(a) Membership organizations, cooperatives, or corporations without capital stock, or separate segregated funds established by such persons may solicit contributions to the fund from members of the organization, cooperative, or corporation without capital stock.

(b) Nothing in this section waives the prohibition on contributions to the separate segregated fund by corporations, national banks, or labor organizations which are members of a membership organization, cooperative, or corporation without capital stock.

(c) A trade association whose membership is made up in whole or in part of corporations is subject to the provisions of § 114.8 when soliciting any stockholders or executive or administrative personnel of member corporations. A trade association which is a membership organization may solicit its noncorporate members under the provisions of this section.

(d) The question of whether a professional organization is a corporation is determined by the law of the State in which the professional organization exists.

(e) There is no limitation upon the number of times an organization under this section may solicit its members.

(f) There is no limitation under this section on the method of solicitation or the method of facilitating the making of voluntary contributions which may be used.

(g) A membership organization, cooperative, or corporation without capital stock and the separate segregated funds of the organizations are subject to the provisions in § 114.5(a).

(h) A membership organization, cooperative, or corporation without capital stock may communicate with its members under the provisions of § 114.3.

(i) A mutual life insurance company may solicit its policyholders if the policyholders are members within the organizational structure.

(j) A membership organization, including a trade association, cooperative, or corporation without capital stock or a separate segregated fund established by such organization may not solicit contributions from the separate segregated funds established by its members. The separate segregated fund established by a membership organization, including a trade association, cooperative, or corporation without capital stock may, however, accept unsolicited contributions from the separate segregated funds established by its members.

§ 114.8 Trade associations.

(a) *Definition.* A trade association is generally a membership organization of persons engaging in a similar or related line of commerce, organized to promote and improve business conditions in that line of commerce and not to engage in a regular business of a kind ordinarily carried on for profit, and no part of the net earnings of which inures to the benefit of any member.

(b) *Prohibition.* Nothing in this section waives the prohibition on contributions by corporations which are members of a trade association.

(c) *Limitations.* A trade association or a separate segregated fund established by a trade association may solicit contributions from the stockholders and executive or administrative personnel of the member corporations of such trade association and the families of such stockholders and personnel if—

(1) The member corporation involved has separately and specifically approved the solicitations; and

(2) The member corporation has not approved a solicitation by any other trade association during the calendar year.

(d) *Separate and specific approval.* (1) The member corporation must knowingly and specifically approve any solicitation for a trade association, whether the solicitation is done by the trade association, its separate segregated fund, or the corporation or any of its personnel, for contributions to the trade association's separate segregated fund.

(2) A copy of each approved request received by a trade association or its separate segregated fund shall be maintained by the trade association or its fund for three years from the date the approval is given.

(3) The request for approval may contain a copy of solicitation materials which will be used if approval is granted. Such a mailing must specifically indicate the requirement of approval and the limitation of (c)(2), and approval must be

granted to the trade association or its separate segregated fund prior to the time any solicitation is made of the stockholders or executive or administrative personnel by the trade association, its separate segregated fund, or by the corporation for contributions to the separate segregated fund of the trade association. (The request for approval may be sent to the representatives of the corporation with whom the trade association normally conducts the association's activities.)

(4) A separate authorization specifically allowing a trade association to solicit its corporate member's stockholders and executive or administrative personnel applies through the calendar year in which it is obtained. A separate authorization must be obtained each year.

(5) In its request to a member corporation, a trade association may indicate that it intends to solicit, for example, a limited class of the executive or administrative personnel of the member corporation, or only the executive or administrative personnel but not the stockholders of the member corporation. Moreover, in its approval, a member corporation may similarly limit any solicitation by the trade association or its separate segregated fund. In any event, a member corporation, once it has approved any solicitation—even to a limited extent—of its personnel or stockholders by a trade association or its separate segregated fund, is precluded from approving any such solicitation by another trade association or its separate segregated fund and the corporation and its personnel are precluded from soliciting the corporation's executive or administrative personnel or stockholders on behalf of another trade association or its separate segregated fund.

(e) *Solicitation.* (1) After a trade association has obtained the approval required in paragraph (c), there is no limit on the number of times the trade association or its separate segregated fund may solicit the persons approved by the member corporation during the calendar year to which the approval applies. The member corporation may, however, in its approval limit the number of times solicitations may be made.

(2) A member corporation which grants permission to a trade association to solicit is in no way restricted in its rights under § 114.5(g) to solicit its stockholders or executive or administrative personnel and their families for contributions to the corporation's own separate segregated fund.

(3) There is no limitation on the method of soliciting voluntary contributions or the method of facilitating the making of voluntary contributions which a trade association may use. The member corporation may not use a payroll deduction or checkoff system for executive or administrative personnel contributing to the separate segregated fund of the trade association.

(4) A trade association and/or its separate segregated fund is subject to the provisions of § 114.5(a).

(f) *Solicitation of a subsidiary corporation.* If a parent corporation is a member of the trade association, but its subsidiary is not, the trade association or its separate segregated fund may only solicit the parent's executive or administrative personnel and shareholders and their families; and no personnel of the subsidiary may be solicited. If a subsidiary is a member, but the parent is not, the trade association or its separate segregated fund may solicit the subsidiary's personnel and their families; it may not solicit the parent's shareholders. If both parent and subsidiary are members, executive and administrative personnel and stockholders of each and their families may be solicited.

(g) *Federations of trade associations.* (1) A federation of trade associations is an organization representing trade associations involved in the same or allied line of commerce. Such a federation may, subject to the following limitations, solicit the members of the federation's regional, State, or local affiliates or members, provided that all of the political committees established, financed, maintained, or controlled by the federation and its regional, State, or local affiliates or members are considered one political committee for the purposes of the limitations in §§ 110.1 and 110.2.

(i) The federation and its member associations may engage in a joint solicitation; or

(ii) The member association may delegate its solicitation rights to the federation.

(2) A federation is subject to the provisions of this section when soliciting the stockholders and executive or administrative personnel of the corporate members of its member associations.

(h) *Communications other than solicitations.* A trade association may make communications, other than solicitations, to its members under the provisions of § 114.3. When making communications to a member which is a corporation, the trade association may communicate with the representatives of the corporation with whom the trade association normally conducts the association's activities.

(i) *Trade association employees.* (1) A trade association may communicate with its executive or administrative personnel under the provisions of § 114.3; a trade association may communicate with its other employees under the provisions of § 114.4.

(2) A trade association may solicit its executive or administrative personnel under the provisions of § 114.5(g); a trade association may solicit its other employees under the provisions of § 114.6.

§ 114.9 Use of corporate or labor organization facilities and means of transportation.

(a) *Use of corporate facilities for individual volunteer activity by stockholders and employees.* (1) Stockholders and employees of the corporation may, subject to the rules and practices of the corporation, make occasional, isolated, or incidental use of the facilities of a corporation for individual volunteer activity in connection with a Federal election and will be required to reimburse the corporation only to the extent that the overhead or operating costs of the corporation are increased. As used in this paragraph, "occasional, isolated, or incidental use" generally means—

(i) When used by employees during working hours, an amount of activity during any particular work period which does not prevent the employee from completing the normal amount of work which that employee usually carries out during such work period; or

(ii) When used by stockholders other than employees during the working period, such use does not interfere with the corporation in carrying out its normal activities; but

(iii) Any such activity which does not exceed one hour per week or four hours per month, regardless of whether the activity is undertaken during or after normal working hours, shall be considered as occasional, isolated, or incidental use of the corporate facilities.

(2) A stockholder or employee who makes more than occasional, isolated, or incidental use of a corporation's facilities for individual volunteer activities in connection with a Federal election is required to reimburse the corporation within a commercially reasonable time for the normal and usual rental charge, as defined in § 100.4(a)(1)(iii)(B), for the use of such facilities.

(b) *Use of labor organization facilities for individual volunteer activity by officials, members and employees.* (1) The officials, members, and employees of a labor organization may, subject to the rules and practices of the labor organization, make occasional, isolated, or incidental use of the facilities of a labor organization for individual volunteer activity in connection with a Federal election and will be required to reimburse the labor organization only to the extent that the overhead or operating costs of the labor organization are increased. As used in this paragraph, "occasional, isolated, or incidental use" generally means—

(i) When used by employees during working hours, an amount of activity during any particular work period which does not prevent the employee from completing the normal amount of work which that employee usually carries out during such work period; or

(ii) When used by members other than employees during the working period, such use does not interfere with the labor organization in carrying out its normal activities; but

(iii) Any such activity which does not exceed one hour per week or four hours per month, regardless of whether the activity is undertaken during or after normal working hours, shall be considered as occasional, isolated, or incidental use of the labor organization facilities.

(2) The officials, members, and employees who make more than occasional,

V 41 166
AUG 25 76
UMI

isolated, or incidental use of a labor organization's facilities for individual volunteer activities in connection with a Federal election are required to reimburse the labor organization within a commercially reasonable time for the normal and usual rental charge, as defined in § 100.4(a)(1)(iii)(B), for the use of such facilities.

(c) *Use of corporate or labor organization facilities to produce materials.* Any person who uses the facilities of a corporation or labor organization to produce materials in connection with a Federal election is required to reimburse the corporation or labor organization within a commercially reasonable time for the normal and usual charge for producing such materials in the commercial market.

(d) *Use or rental of corporate or labor organization facilities by other persons.* Persons, other than those specifically mentioned in paragraphs (a) and (b), who make any use of corporate or labor organization facilities, such as by using telephones or typewriters or borrowing office furniture, for activity in connection with a Federal election are required to reimburse the corporation or labor organization within a commercially reasonable time in the amount of the normal and usual rental charge, as defined in § 100.4(a)(1)(iii)(B), for the use of the facilities.

(e) *Use of airplanes and other means of transportation.* (1) A candidate, candidate's agent, or person traveling on behalf of a candidate who uses an airplane which is owned or leased by a corporation or labor organization other than a corporation or labor organization licensed to offer commercial services for travel in connection with a Federal election must, in advance, reimburse the corporation or labor organization—

(i) In the case of travel to a city served by regularly scheduled commercial service, the first class air fare;

(ii) In the case of travel to a city not served by a regularly scheduled commercial service, the usual charter rate.

(2) A candidate, candidate's agent, or person traveling on behalf of a candidate who uses other means of transportation owned or leased by a corporation or labor organization must reimburse, within a commercially reasonable time, the corporation or labor organization at the normal and usual rental charge.

§ 114.10 Extension of credit and settlement of corporate debts.

(a) A corporation may extend credit to a candidate, political committee, or other person in connection with a Federal election provided that the credit is extended in the ordinary course of the corporation's business and the terms are substantially similar to extensions of credit to nonpolitical debtors which are of similar risk and size of obligation. Nothing in this section modifies regulations prescribed by the Civil Aeronautics Board, the Federal Communications Commission or the Interstate Commerce Commission issued pursuant to 2 U.S.C. § 451 or any other regulations prescribed by other Federal agencies with regard to credit extended by the regulated corporations.

(b) Except as specifically provided in paragraph (c), a corporation may not forgive prior debts or settle debts which have been incurred by a candidate or political committee or other person for use in connection with a Federal election for less than the amount owed on the debt.

(c) A corporation may settle or forgive a debt if the creditor has treated the outstanding debt in a commercially reasonable manner. A settlement will be considered commercially reasonable if—

(1) The initial extension of credit was made in accordance with regulations issued pursuant to 2 U.S.C. § 451 or paragraph (a).

(2) The candidate or political committee or person has undertaken all commercially reasonable efforts to satisfy the outstanding debt; and

(3) The corporate creditor has pursued its remedies in a manner similar in intensity to that employed by the corporation in pursuit of a non-political debtor, including lawsuits if filed in similar circumstances.

The corporation and/or the debtor must file a statement of settlement with the Commission including the initial terms of credit, the steps the debtor has taken to satisfy the debt, and remedies pursued by the creditor. This statement must be filed prior to the termination of the reporting status of the debtor and the settlement is subject to Commission review.

§ 114.11 Employee participation plans.

(a) A corporation may establish and administer an employee participation plan (i.e. a "trustee plan") which is a political giving program in which a corporation pays the cost of establishing and administering separate bank accounts for any employee who wishes to participate. The cost of administering and establishing includes the payment of costs for a payroll deduction or check-off plan and the cost of maintaining the separate bank accounts.

(1) The employees must exercise complete control and discretion over the disbursement of the monies in their accounts.

(2) The trustee, bank, or other administrator shall not provide the corporation or its separate segregated fund any report of the source or recipient of any contribution(s) or donation(s) into or out of any account or of the amount any employee has in an account.

(3) The trustee, bank, or other administrator may provide the corporation or its separate segregated fund with a periodic report limited to information about the total number of employees in the program, the total number of funds in all the accounts combined, and the total amount of contributions made to all candidates and committees combined.

(4) No stockholder, director, or employee of the corporation or its separate segregated fund may exert pressure of any kind to induce participation in the program.

(5) No stockholder, director, or employee of the corporation or its separate segregated fund may exercise any direction or control, either oral or written, over contributions by participants in the program to any candidate, group of candidates, political party, or other person.

(b) An employee participation plan must be made available to all employees including members of a labor organization who are employees of the corporation. Communications about participation in the plan may be conducted by either the corporation or the labor organization or both.

(c) A labor organization may establish and administer an employee participation plan subject to the above provisions, except that the cost shall be borne by the labor organization.

(d) The method used to transmit employee or member contributions to the candidate or political committee may not in any manner identify the corporation or labor organization which established the employee participation plan.

§ 114.12 Miscellaneous provisions.

(a) An organization may incorporate and not be subject to the provisions of this Part if the organization incorporates for liability purposes only, and if the organization is a political committee as defined in § 100.14. Notwithstanding the corporate status of the political committee, the chairman and the treasurer of an incorporated political committee remain personally responsible for carrying out their respective duties under the Act.

(b) Notwithstanding any other provision of Part 114, a corporation or a labor organization which customarily makes its meeting rooms available to clubs, civic or community organizations, or other groups may make such facilities available to a political committee or candidate if the meeting rooms are made available on a nonpartisan basis and on the same terms given to other groups using the meeting rooms.

(c)(1) A corporation of labor organization may not pay the employer's share of the cost of fringe benefits, such as health and life insurance and retirement, for employees or members on leave-without-pay to participate in political campaigns of Federal candidates. The separate segregated fund of a corporation or a labor organization may pay the employer's share of fringe benefits, and such payment would be a contribution in-kind to the candidate. An employee or member may, out of unreimbursed personal funds, assure the continuity of his or her fringe benefits during absence from work for political campaigning, and such payment would not be a contribution in-kind.

(2) Service credit for periods of leave-without-pay is not considered compensation for purposes of this section if the employer normally gives identical treatment to employees placed on leave-without-pay for nonpolitical purposes.

(d) A corporation which, prior to May 11, 1976, had solicited employees other than stockholders or executive or administrative personnel for voluntary contributions to its separate segregated fund and had offered such employees the opportunity to enroll in a payroll deduction plan may, until December 31, 1976, unless the employee withdraws before that date, continue to deduct contributions from the checks of employees who signed up prior to May 11, 1976. Any solicitation of such employees after May 11, 1976, is subject to the provisions of 2 U.S.C. § 441b(b)(4)(B) and § 114.6 when prescribed.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 315(a)(10), Pub. L. 92-225, 86 Stat. 16, amended by Secs. 208 (a) and (c)(10), and 209 (a)(1) and (b)(1), Pub. L. 93-443, 88 Stat. 1279, 1287, and Sec. 105, Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 438(a)(10)).

§ 115.1 Definitions.

(a) "A Federal contractor" means a person, as defined in § 100.13 who—

(1) Enters into any contract with the United States or any department or agency thereof either for—

(i) The rendition of personal services; or

(ii) Furnishing any material, supplies, or equipment; or

(iii) Selling any land or buildings;

(2) If the payment for the performance of the contract or payment for the material, supplies, equipment, land, or building is to be made in whole or in part from funds appropriated by the Congress.

(b) The period during which a person is prohibited from making a contribution or expenditure is the time between the earlier of the commencement of negotiations or when the requests for proposals are sent out, and the later of—

(1) The completion of performance under; or

(2) The termination of negotiations for, the contract or furnishing of material, supplies, equipment, land, or buildings, or the rendition of personal services.

(c) For purposes of this Part, a contract includes

(1) A sole source, negotiated, or advertised procurement conducted by the United States or any of its agencies;

(2) A written (except as otherwise authorized) contract, between any person and the United States or any of its departments or agencies, for the furnishing of personal property, real property, or personal services; and

(3) Any modification of a contract.

(d) The basic contractual relationship must be with the United States or any department or agency thereof. A person who contracts with a State or local jurisdiction or entity other than the United States or any department or agency thereof is not subject to this Part, even if the State or local jurisdiction or entity is funded in whole or in part from funds appropriated by the Congress. The third party beneficiary of a Federal contract is not subject to the prohibitions of this Part.

(e) The term labor organization has the meaning given it by § 114.1(a).

§ 115.2 Prohibition.

(a) It shall be unlawful for a Federal contractor, as defined in § 115.1(a), to make, either directly or indirectly, any contribution or expenditure of money or other thing of value, or to promise expressly or impliedly to make any such contribution or expenditure to any political party, committee, or candidate for Federal office or to any person for any political purpose or use. This prohibition does not apply to contributions or expenditures in connection with State or local elections.

(b) This prohibition runs for the time period set forth in § 115.1(b).

(c) It shall be unlawful for any person knowingly to solicit any such contribution from a Federal contractor.

§ 115.3 Corporations, labor organizations, membership organizations, cooperatives, and corporations without capital stock.

(a) Corporations, labor organizations, membership organizations, cooperatives, and corporations without capital stock to which this Part applies may expend treasury monies to establish, administer, and solicit contributions to any separate segregated fund subject to the provisions of Part 114. Each specific prohibition, allowance, and duty applicable to a corporation, labor organization, or separate segregated fund under Part 114 applies to a corporation, labor organization, or separate segregated fund to which this Part applies.

(b) The question of whether a professional organization is a corporation is determined by the law of the State in which the professional organization exists.

§ 115.4 Partnerships.

(a) The assets of a partnership which is a Federal contractor may not be used to make contributions or expenditures in connection with Federal elections.

(b) Individual partners may make contributions or expenditures in their own names from their personal assets.

(c) Nothing in this part prohibits an employee of a partnership which is a Federal contractor from making contributions or expenditures from his or her personal assets.

§ 115.5 Individuals and sole proprietors.

Individuals or sole proprietors who are Federal contractors are prohibited from making contributions or expenditures from their business, personal, or other funds under their dominion or control. The spouse of an individual or sole proprietor who is a Federal contractor is not prohibited from making a personal contribution or expenditure in his or her name.

§ 115.6 Employee contributions or expenditures.

Nothing in this part shall prohibit the stockholders, officers, or employees of a corporation, the employees, officers, or members of an unincorporated association, cooperative, membership organization, labor organization, or other group or organization which is a Federal contractor from making contributions or expenditures from their personal assets.

SUBCHAPTER B—PRESIDENTIAL ELECTION CAMPAIGN FUND, FEDERAL FINANCING OF CONVENTIONS

PART 120—GENERAL PROVISIONS

Sec.
120.1 Scope.
120.2 Definitions.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b).

§ 120.1 Scope.

(a) This part interprets 2 U.S.C. § 437 and 26 U.S.C. § 9008. Section 9008 of Title 26 authorizes the Federal Election Commission to certify to the Secretary of the Treasury for payments of the amounts to which the national committee of any major or minor party is entitled under 26 U.S.C. § 9008 with respect to a Presidential nominating convention, but the entitlement of each major party may not exceed the aggregate amount of $2,000,000, adjusted by the Consumer Price Index. Section 437 of Title 2 requires certain organizations to file convention reports.

(b) Under 26 U.S.C. § 9008(b) the national committees of both major and minor parties are entitled to payments from public funds to defray expenses which they incurred with respect to a Presidential nominating convention. These expenses are limited to $2,000,000, as adjusted by the Consumer Price Index. New parties are exempt from any expenditure limitation and are not entitled to any public funds. For a minor party to be entitled to its proportionate share of public funds for convention expenses, its Presidential candidate in the last election must have received (as the Presidential candidate of that party) at least 5 percent of the total popular vote received by all Presidential candidates in such election.

§ 120.2 Definitions.

The following definitions shall apply for the purposes of this subchapter:

(a) "Commission" means the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463.

(b) "Fund" means the Presidential Election Campaign Fund established by 26 U.S.C. § 9006(a).

(c) "Major party" means, with respect to any Presidential election, a political party whose candidate for the office of

V 41 166 AUG 25 76 UMI

President in the preceding Presidential election received, as the candidate of such party, 25 percent or more of the total number of popular votes received by all candidates for such office.

(d) "Minor party" means, with respect to any Presidential election, a political party whose candidate for the office of President in the preceding Presidential election received, as the candidate of such party, 5 percent or more, but less than 25 percent, of the total number of popular votes received by all candidates for such office.

(e) "New party" means, with respect to any Presidential election, a political party which is neither a major party nor a minor party.

(f) "Convention expenses" or "expenses or expenditures incurred with respect to a Presidential nominating convention" means expenses incurred for the purpose of conducting a presidential nominating convention or convention-related activities (including the payment of deposits) by or on behalf of the national committee of a political party, including—

(1) Any expense for preparing, maintaining, and dismantling the physical site of the convention, including rental of the hall, platforms and seating, decorations, telephones, security, and convention hall utilities;

(2) Salaries and expenses of personnel whose responsibilities are planning, managing, or conducting the convention, including staff members of convention committees or arrangements committees and similar personnel;

(3) Any expenses of those persons employed by the national committee of a political party which were incurred in the performance of personal services for the convention that were in addition to their normal duties to the national committee, such as travel expenses to and from or at the convention city or other locations specified in subsection (4), but excluding any portion of the person's salary paid by the national committee, provided that the services of that person were incidental to the convention and not performed as a major responsibility;

(4) The expense of conducting meetings, whether or not at the convention site, of or related to convention policy committees, such as rules, credentials, and platform committees, including costs of renting meeting space and printing materials (except for certain legal and accounting expenses, see § 121.10(b));

(5) The expenses incurred in securing a convention city and facility;

(6) The expense of providing a transportation system in a convention city for the use of delegates and other persons attending or otherwise connected with the conventions;

(7) The expenses of entertainment activities which are part of official convention activity sponsored by the national committee, including but not limited to dinners, concerts, and receptions, but not including entertainment activities sponsored by or on behalf of candidates for nomination to the office of President or Vice President, or State delegations, or activities sponsored by the national committee if the purpose of the activity is solely for national committee business, such as fundraising events, selecting new officers for the national committee, or entertainment activities sponsored by persons other than the national committee, not otherwise prohibited;

(8) The expenses of printing official convention programs, a journal of proceedings, agendas, tickets, badges, passes, and other official publications;

(9) The administrative and office expenses of conducting the convention such as stationery and office supplies, office machines, and telephone charges, but excluding the cost of any such services supplied by the national committee at its headquarters or principal office so long as such services are incidental to the convention and not utilized primarily for the convention;

(10) The interest on loans the proceeds of which are used to defray convention expenses; and

(11) The expenses of any candidate or delegate participating in the national nominating convention, subject to the provisions of §§ 121.10 and 122.5.

(g) "Secretary" means the Secretary of the Treasury of the United States.

(h) "Host committee" means a local organization such as a local civic association, business league, chamber of commerce, real estate board, board of trade, or convention bureau—

(1) Not organized for profit and no part of the net earnings of which inures to the benefit of any private shareholder or individual, and

(2) A principal objective of which is the encouragement of commerce in the convention city, as well as projecting a favorable image of the city to convention attendees.

PART 121—LIMITATION OF EXPENDITURES

Subpart A—National Party Limitations

Sec.
121.1 Major parties.
121.2 Minor parties.
121.3 Exception.
121.4 Expenditures by agencies and municipal corporations.

Subpart B—In-Kind Contributions by Businesses

121.5 Discounts by retail business concerns.
121.6 Samples and promotional material.
121.7 In-kind contributions to the host committee.

Subpart C—Donation of Funds by Local Businesses and Labor Organizations

121.8 Donation of funds to host committee.
121.9 Use of funds by host committee.
121.10 Expenditures by individuals and groups.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

Subpart A—National Party Limitations

§ 121.1 Major parties.

Except as provided by § 121.3, the national committee of a major party may not incur convention expenses with respect to a Presidential nominating convention which, in the aggregate, exceed the amount of payments to which such committee is entitled under § 122.1, whether or not the national committee elects to receive any of its entitled funds.

§ 121.2 Minor parties.

Except as provided by § 121.3, the national committee of a minor party may not incur convention expenses with respect to a Presidential nominating convention which, in the aggregate, exceed the amount of the entitlement of the national committee of a major party under § 122.1, whether or not the national committee elects to receive any of its entitled funds.

§ 121.3 Exception.

The Commission may authorize the national committee of a major party or minor party to make expenditures for convention expenses which, in the aggregate, exceed the limitation established by § 121.1 or § 121.2. This authorization shall be based upon a determination by the Commission that, due to extraordinary and unforeseen circumstances, the expenditures are necessary to assure the effective operation of the Presidential nominating convention by the committee. In no case, however, will such authorization entitle the national committees to receive public funds greater than the amount the national committees are entitled to under § 122.1 or § 122.2.

§ 121.4 Expenditures by agencies and municipal corporations.

(a) Expenditures with respect to a Presidential nominating convention incurred by Federal and local governmental agencies and municipal corporations will not be considered either as expenditures made by a national party or as illegal corporate contributions under 2 U.S.C. § 441b. These expenditures will therefore not be subject to the national party's expenditure limitations of §§ 121.1 and 121.2, provided that the facilities or services supplied at no charge or less than the normal charge to the national committee were not leased or bought from corporations, national banks, labor organizations, or any other person for less than their fair market value.

(b) Expenditures made under paragraph (a) are reportable under § 125.1.

Subpart B—In-Kind Contributions by Businesses

§ 121.5 Discounts by retail business concerns.

(a) Private retail business concerns (whether incorporated or not) may sell, lease, or rent, or offer to sell, lease, or rent to the national party for the convention any services, materials, space, or goods that the business normally deals in, at less than the fair market value; For example, the business may provide discounts in standard rates of any goods or services, provided that the discounts are offered in the ordinary course of business and are standard practice based upon the quantity of similar goods and services sold, leased, or rented in similar transactions.

(b) As long as the discount does not exceed the amounts specified in paragraph (a) will not count toward the national party expenditure limitation under §§ 121.2 and 121.2.

§ 121.6 Samples and promotional material.

(a) Private business concerns may sell at nominal cost or provide at no charge any of their products or services in the form of samples or discount coupons, or provide promotional items of nominal value, such as maps, pens, or pencils, with the business's name imprinted on the item, to those attending the convention functions, provided that—

(1) The samples and the like are solely for bona fide advertising or promotional purposes and are not provided for the purpose of influencing any delegate's or alternate vote;

(2) The activity is in the ordinary course of business as evidenced by past practice with other political and nonpolitical conventions.

(b) The samples, coupons, and promotional material may be distributed by or with the help of persons employed by the business, the national party, or a citizen host committee.

(c) The value of the benefits provided will not count toward the national party's expenditure limitation under §§ 121.1 and 121.2.

§ 121.7 In-kind contributions to the host committee.

Local private businesses and labor organizations may donate or offer at a reduced rate to the host committee office space, supplies, furniture, transportation, and the like for use by the host committee for administrative purposes.

Subpart C—Donation of Funds by Local Businesses and Labor Organizations; Advertising

§ 121.8 Donation of funds to host committee.

(a) Local businesses (whether incorporated or not) and labor organizations may donate funds to a citizen's host committee.

(b) Subject to § 121.9, the use of the funds may be restricted by the donor in any manner agreeable between the donor and the recipient host committee, such as earmarking the funds for a particular project or purpose, or having the contribution acknowledged as "Courtesy of X, Y and Z Companies," so long as any restrictions are commercially motivated and are non-political.

§ 121.9 Use of funds by host committee.

(a) Funds donated to the host committee may be used—

(1) To defray those expenses incurred for the purpose of promoting the suitability of the city as a convention site;

(2) To defray those expenses incurred for welcoming the convention attendees to the city, such as expenses for information booths, receptions, and tours;

(3) To defray those expenses incurred in facilitating commerce, such as providing the convention and attendees with shopping and entertainment guides and distributing the discount coupons and samples specified in § 121.6; and

(4) To defray the administrative expenses incurred by the host committee, such as salaries, rent, travel, and liability insurance.

(b) If the host committee has received funds from an incorporated local retail business in an amount proportionate to the commercial return reasonably expected by that business during the life of the convention, and if the committee maintains such funds in a separate account (along with funds donated by unincorporated businesses if any), the funds may be used to pay for what would otherwise be a convention expense by the national committee, such as the renting or refurbishing of the convention hall or the rental of seats, lights, and like equipment. No other corporate funds may be used to pay such expenses.

§ 121.10 Expenditures by individuals and groups.

(a) (1) For purposes of this part, expenditures made by Presidential candidates from campaign accounts, by delegates, or by any other individual out of his or her personal funds for the purpose of attending and participating in the convention or convention-related activities, or made on his or her behalf by State or local committees of a political party, will not be considered as expenditures made by or on behalf of the national party, and are therefore not subject to the overall expenditure limitations of §§ 121.1 and 121.2.

(2) Expenditures made under paragraph (a)(1) by candidates from campaign accounts, or by State and local party committees or any other political committee or person shall be reported pursuant to Part 104.

(b) *Legal and accounting services.* For purposes of this section—

(1) The payment by any person (other than the national committee of a political party) of compensation to any individual for legal or accounting services rendered to, or on behalf of, the national committee is not an expenditure counting against the expenditure limitation for a Presidential nominating convention, as long as the person paying is the regular employer of the individual rendering the service.

(2) The payment by the national committee of compensation to any individual for legal and accounting services rendered to, or on behalf of, the national committee is an expenditure counting against the expenditure limitation for a Presidential nominating convention, whether paid from funds received by the national committee from the Presidential Election Campaign Fund or from private contributions.

PART 122—ENTITLEMENT TO AND DISPOSITION OF PAYMENTS FROM THE FUND

Sec.
122.1 Major parties.
122.2 Minor parties.
122.3 Adjustment of entitlements.
122.4 Investment of funds.
122.5 Use of funds; candidate and delegate expenses.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 122.1 Major parties.

Subject to the provisions of this part, the national committee of a major party shall be entitled to receive payments under § 123.4, with respect to any Presidential nominating convention, in amounts which, in the aggregate, shall not exceed $2 million, as adjusted by the Consumer Price Index.

§ 122.2 Minor parties.

Subject to the provisions of this part, the national committee of a minor party shall be entitled to payments under § 123.4, with respect to any Presidential nominating convention, in amounts which, in the aggregate, shall not exceed an amount which bears the same ratio to the amount the national committee of a major party is entitled to receive under § 122.1, as the number of popular votes received by the candidate for President of the minor party, as such candidate, in the preceding Presidential election bears to the average number of popular votes received by the candidates for President of the United States of the major parties in the preceding Presidential election.

§ 122.3 Adjustment of entitlements.

(a) The entitlements established by this part shall be adjusted in the same manner as expenditure limitations established by § 441a(b) of Title 2, United States Code are adjusted pursuant to the provisions of § 441a(c) of such title.

(b) The entitlements established by this part shall be decreased by the amount of income generated by the investment of public funds under § 122.4.

(c) The entitlements established by this part shall be adjusted so as not to exceed the difference between the expenditure limitations of Part 121 and the amount of private contributions received under § 123.1 by the national committee of a political party and used to defray convention expenses.

§ 122.4 Investment of funds.

Any investment of public funds or their use in any other way which generates income is permissible only if the income so generated is used for the purposes described in § 122.5. This income will be applied against the na-

V 41 166 AUG 25 76 UMI

tional committee's entitlement, and where appropriate, the Commission may determine that a repayment is required because of excess payment under § 124.1 (a).

§ 122.5 Use of funds; candidate and delegate expenses.

(a)(1) No part of any payment made under § 123.4 shall be used to defray the expenses of any candidate, delegate, or alternate delegate who is participating in any Presidential nominating convention.

(2) The expenses of a person participating in the convention as official personnel of the national party may be defrayed with public funds even though that person is simultaneously participating as a delegate or candidate to the convention. Public funds shall not be used to defray any expense the incurring or payment of which violates any law of the United States or of the State in which such expense is incurred or paid.

(b) Any payment shall be used only—

(1) To defray convention expenses incurred (including the payment of deposits) by or on behalf of the national committee receiving such payments; or

(2) To repay the principal and interest on loans the proceeds of which were used to defray convention expenses; or

(3) To restore funds (other than contributions to defray convention expenses received by the committee under § 123.1) used to defray convention expenses.

PART 123—PAYMENT PROCEDURE FOR PRESIDENTIAL NOMINATING CONVENTIONS

Sec.

123.1 Optional payments; private contributions.
123.2 Transfer to the fund.
123.3 Information required to qualify for public funds.
123.4 Payment schedule.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 123.1 Optional payments; private contributions.

(a) A major or minor party may elect to receive all, part, or none of the amounts to which it is entitled under §§ 122.1 and 122.2.

(b) A major party electing to receive part or none of the amounts to which it is entitled under § 122.1 may receive and use private contributions for the nominating convention, so long as the sum of the contributions which are used to defray convention expenses and the amount of entitlements elected to be received does not exceed the total expenditure limitation under § 121.1.

(c) A minor party electing to receive all, part, or none of the amounts to which it is entitled under § 122.2 may receive and use private contributions for the nominating convention, so long as the sum of the contributions which are used to defray convention expenses and the amount of entitlements elected to be received does not exceed the total expenditure limitation under § 121.2.

§ 123.2 Transfer to the fund.

If, after the close of a Presidential nominating convention and after the national committee of the political party involved has been paid the amount to which it is entitled under Part 122, there are moneys remaining in the account maintained by the Secretary of the Treasury for such national committee because of the adjustment due to § 122.3 (b) or (c) (interest received on investments and acceptance of private contributions), the Secretary will transfer the moneys so remaining to the Presidential Election Campaign Fund.

§ 123.3 Information required to qualify for public funds.

(a) To qualify for public financing of their conventions, the national committees of the major and minor parties shall file an application statement and agreements containing the information in paragraphs (b) and (c) of this section with the Federal Election Commission.

(b) This application statement shall be filed no earlier than June 1 of the calendar year preceding the year in which a Presidential nominating convention of a political party is held and shall include—

(1) The name and address of the national committee;

(2) The name and address of the convention arrangements committee of the national committee or such similar committee in charge of the national convention;

(3) The name of the city where the convention is to be held and the approximate dates;

(4) The name, address, and position of the officers and members of the convention arrangements committee;

(5) The name, address, and position of the party officials designated by the national committee to sign requests for payment;

(6) The name and address of the commercial bank to be used as the depository of the convention arrangements committee; and

(7) Signature cards, available from the Commission, signed by the designated party officials authorized to request payments.

(c) If the application statement is filed before the cost of living increase is able to be determined for the year preceding the convention, that amount determined by the increase shall be paid to the national committee promptly after the increase has been determined.

(d) The national committees of the major and minor parties shall agree to limit the expenditures for their convention to the amount specified in Part 121.

(e) Any change in the information required by paragraph (c) shall be reported to the Commission within a 10-day period following the change.

§ 123.4 Payment schedule.

After a national committee has properly submitted its application statement under § 123.1, payments will be disbursed upon the receipt of a payment request in installments in the manner specified in paragraphs (a)-(e).

(a) Initial payment. (1) A writtetn request for an initial payment shall—

(i) Be signed by the authorized individual(s) whose name appears on the signature card;

(ii) Specify an amount to be received, not to exceed 30 percent of the aggregate amount to which the committee is entitled;

(iii) Specify one or more accounts established solely for the purpose of depositing therein and drawing therefrom all public funds received for convention financing, or certify that such account(s) will be established;

(iv) Specify one or more accounts established solely for the purpose of depositing therein and drawing therefrom all private contributions to defray convention expenses, or certify that such account(s) will be established if the national committee decides to receive such contributions; and

(v) Be supported by a statement projecting and describing estimated convention expenses and those already incurred, if any, through and including the last day of the calendar quarter in which the request is made, except that projected expenditure categories need not be itemized in specific dollar figures.

(2) A request for an initial payment may be submitted to the Commission simultaneously with the application statement required under § 123.3 or at any time thereafter.

(3) A properly submitted request for initial payment shall be reviewed and certified by the Commission to the Secretary for payment not later than 5 working days after being received by the Commission, or July 1 of the calendar year preceding the calendar year of the convention, whichever is later.

(b) Quarterly payment requests. (1) Requests for disbursements after the national committee has qualified for public financing under § 123.3 and received its initial disbursement under § 123.4(a) shall be submitted quarterly commencing with October 1 of the year prior to the year in which the convention will be held.

(2) The written requests shall—

(i) Be signed by the authorized individuals(s);

(ii) Be accompanied by a statement of projected convention expenses estimated through the close of the quarterly period, except that no specific dollar figure need be assigned to the various expenditure categories;

(iii) Specify an amount to be received which shall reflect the amount of the projected expenses; and

(iv) Be submitted to the Commission anytime during the quarter to which the request relates.

(c) Special certification for accelerand payment schedule. The Commission may certify more than one disbursement per quarter where a showing is made that a deficit is likely to be incurred unless a further disbursement is made. Any payment request for such further disbursement should be supported by a summary of actual convention expenses previously incurred for the quarter, together with the projected convention expenses which will occasion the deficit if a further disbursement is not forthcoming.

(d) Amount of disbursement.

Each disbursement certification to the Secretary will be based upon the convention expenses projected for the requesting period, subject to any deductions as the Commission may determine under paragraph (e) of this section and § 124.1(f).

(e) Post-convention disbursements.

(1) Notwithstanding the payment request for the last quarter preceding the convention, the Commission may, in its discretion and upon appropriate notice to the committee, certify to the Secretary for an amount less than the amount requested, but in no case may the amount of such adjustment downward exceed 10 percent of the total entitlement of that party.

(2) Funds withheld under this paragraph, if any, shall be disbursed after the convention upon the proper submission of a post-convention payment request accompanied by the convention financing report required under Part 125.

(3) Post-convention payments shall be subject to audit by the Commission and deductions computed under § 124.1(f) in addition to other requirements imposed by law.

(f) Properly submitted requests for quarterly, accelerated, and post-convention payments shall be certified by the Commission to the Secretary for disbursement within five working days after being received by the Commission.

PART 124—POST-DISBURSEMENT PROCEDURES

Sec.

124.1 Repayments.
124.2 Notification of need for repayments.
124.3 Examination and audits.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 124.1 Repayments.

(a) If the Commission determines that any portion of the payments to the national committee under § 123.4 was in excess of the aggregate payments to which the national committee was entitled, it shall so notify the national committee, and such national committee shall pay to the Secretary an amount equal to such portion.

(b) If the Commission determines that the national committee incurred convention expenses in excess of the aggregate payments to which the national committee of a major party was entitled, it shall notify such national committee of the amount of such excess, and such national committee shall pay to the Secretary an amount equal to that amount.

(c) If the Commission determines that the national committee of a major party accepted contributions to defray convention expenses which, when added to the amount of payments received, exceeds the expenditure limitation of such party, it shall notify such national committee of the amount of the contributions so accepted, and such national committee shall pay to the Secretary an amount equal to that amount.

(d) If the Commission determines that any amount of any payment to the national committee under § 123.4 was used for any purpose other than those authorized by § 122.5, it shall notify such national committee of the amount so used, and such national committee shall pay to the Secretary the amount so specified.

(e) No repayment shall be required from the national committee under this section, which, when added to other repayments required from such national committee under this section, exceeds the amount of payments received by such national committee under § 123.4.

(f) Subject to § 124.2, the Commission may obtain repayment by authorizing the Secretary to deduct the repayable amount determined under paragraphs (a)-(e) from the amount otherwise due the national committee for its next payment. All other repayments shall be made payable to the Secretary and deposited by him in the general fund of the Treasury.

§ 124.2 Notification of need for repayment.

(a) If the Commission determines that repayment is required under § 124.1, it shall give written notification to the affected national committee of the amounts required to be paid and the reasons thereof.

(b) No notification shall be made by the Commission under this section more than 3 years after the last day of the Presidential nominating convention.

(c) The national party shall repay to the Secretary, within 90 days of the notice, the amount of the repayment. Upon application submitted by the national party, the Commission may grant a 90-day extension of the repayment period.

(d) If the national committee disputes the Commission's determination that a repayment is required, it shall notify the Commission within 30 days of receipt of the Commission's notification.

(1) The Commission, or its designee, shall conduct a hearing at a mutually agreeable time and place, at which the representaitve of the national committee may make a showing of where the Commission erred in its determination of repayment.

(2) Based on the hearing, the Commission shall reaffirm or modify its initial determination, which shall constitute a final and conclusive determination, and shall so notify the national committee.

§ 124.3 Examinations and audits.

The Commission shall conduct an examination and audit of the convention expenses of the national party no later than December 31 of the calendar year of the convention and may at any time conduct other examinations and audits as it deems necessary.

PART 125—CONVENTION REPORTS

Sec.

125.1 Reports by municipal and private host committees.
125.2 Reports by political parties.
125.3 Post-convention reports; time and content of filing.
125.4 Committees receiving Federal funds; quarterly reports.
125.5 Convention expenses; definition.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 125.1 Reports by municipal and private host committees.

(a) Each committee or other organization which represents a State, a political subdivision thereof, or any other group of persons in dealing with officials of a national political party with respect to matters involving a Presidential nominating convention held in that State or political subdivision shall file reports with the Commission as set out in § 125.3 below.

(b) Each committee or other organization specified in paragraph (a) need not report its unsuccessful efforts to attract the convention to its city.

§ 125.2 Reports by political parties.

(a) Each committee or other organization, including a national committee, which represents a national major, minor, or new political party in making arrangements for the convention of that party held to nominate a candidate for the office of President or Vice President, shall file reports with the Commission as set out in § 125.3 below.

(b) A State party committee or a subordinate committee of a State party committee which only assists delegates and alternates to the convention from that State with travel expenses and arrangements, or which sponsors caucuses, receptions, and similar activities at the convention site, need not report under this Part.

§ 125.3 Post-convention reports: content and time of filing.

(a) Each committee or organization required to file a financial statement shall within 60 days following the last day the convention is officially in session, but not later than 20 days prior to the date of the general election, file with the Commission a convention report on FEC Form 4 which shall contain all receipts and disbursements in connection with the convention and shall be complete as of 45 days following the convention.

(b) If the committee spends or receives any funds after 45 days following the convention, the committee shall begin to file no later than 10 days after the end of the next calendar quarter a report dis-

V 41 166 AUG 25 76 UMI

closing all transactions completed as of the close of that calendar quarter and shall continue to file quarterly reports thereafter until the committee ceases activity.

(c) Each committee shall file a final report with the Commission not later than 10 days after it ceases activity, unless such status is reflected in either of the reports submitted pursuant to § 125.3(a) or (b).

§ 125.4 Committees receiving Federal funds; quarterly reports.

Any national committee of a major or minor party which receives, directly or indirectly, all or part of the payment for Presidential nominating conventions under 26 U.S.C. § 9008, shall, in addition to the post-convention reports required to be filed under § 125.3, file quarterly reports as follows:

(a) The quarterly report shall be filed no later than 10 days after the end of the calendar quarter in which the committee receives payment under 26 U.S.C. § 9008 and after each subsequent quarter in which the committee receives or expends any funds until the date of the convention, except that any quarterly report due 20 days or less before or after the convention shall be suspended and need not be filed until 30 days after the close of the convention.

(b) The reports shall contain the same information as required under § 125.3 and shall disclose all transactions as of the end of the calendar quarter.

§ 125.5 Convention expenses; definition.

For the purposes of this part, "receipts and disbursements in connection with a convention" means convention expenses as defined in Part 120 of these regulations.

SUBCHAPTER C—PRESIDENTIAL ELECTION CAMPAIGN FUND, PRESIDENTIAL PRIMARY MATCHING FUND

PART 130—DEFINITIONS

Sec.
130.1 Authorized committee.
130.2 Political committee.
130.3 Candidate.
130.4 Commission.
130.5 Matching payment account.
130.6 Matching payment period.
130.7 Primary election.
130.8 Matchable campaign contribution.
130.9 Nonmatchable contributions.
130.10 Qualified campaign expense.
130.11 State.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 408(c), Pub. L. 93-443, 88 Stat. 1297 (26 U.S.C. 9039(b)).

§ 130.1 Authorized committee.

"Authorized committee" means any political committee which is authorized in writing by a candidate to solicit or receive contributions or to make expenditures on behalf of the candidate. This authorization shall be addressed to the authorized political committee, and a copy of the authorization shall be filed by the candidate with the Commission. A withdrawal of authorization shall also be in writing and shall be addressed and filed in the same manner as the authorization.

§ 130.2 Political committee.

"Political committee" means any individual, committee, association, or organization (whether or not incorporated) which accepts contributions or incurs qualified campaign expenses for the purpose of influencing, or attempting to influence, the nomination of any individual for election to the office of President of the United States.

§ 130.3 Candidate.

(a) "Candidate" means an individual who seeks nomination for election to be President of the United States. An individual is considered to seek the nomination for election if he or she—

(1) Takes the action necessary under the law of a State to qualify for nomination for election; or

(2) Receives contributions or incurs qualified campaign expenses; or

(3) Gives consent for any other person to receive contributions or to incur qualified campaign expenses on his or her behalf.

(b) "Candidate" shall not include any individual who is not actively conducting campaigns in more than one State in connection with seeking nomination for election to be President of the United States.

§ 130.4 Commission.

"Commission" means the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463.

§ 130.5 Matching payment account.

"Matching payment account" means the Presidential Primary Matching Payment Account established by the Secretary of the Treasury under 26 U.S.C. § 9037(a).

§ 130.6 Matching payment period.

"Matching payment period" means the period beginning January 1 of the year in which a general election for the office of President of the United States is held and ending on the date on which the national convention of the party whose nomination a candidate seeks nominates its candidate for the office of President of the United States, or, in the case of a party which does not make such nomination by national convention, the last day for the matching period shall be the earlier of (a) the date the party nominates its candidates for the office of President of the United States or (b) the last day of the last national convention held by a major party.

§ 130.7 Primary election.

"Primary election" means an election, including a runoff election, or a nominating convention or a caucus held by a political party—

(a) For the selection of delegates to a national nominating convention of a political party; or

(b) For the expression of a preference for the nomination of candidates for election to the office of President of the United States; or

(c) Which is an election that combines the features of both paragraphs (a) and (b); or

(d) To nominate a candidate for election to the office of President of the United States.

§ 130.8 Matchable campaign contribution.

(a) "Matchable campaign contribution" means a gift of money made by a written instrument identifying the individual making the contribution by full name and mailing address and made for the purpose of influencing the result of a primary election.

(1) Gifts of money will be considered matchable campaign contributions only to the extent of the first $250 contributed by an individual.

(2) The amount of the contribution which is submitted for matching shall be actually received by the candidate or any of the candidate's authorized committees and deposited in a designated campaign depository maintained by the principal campaign committee.

(3) The contribution shall be received and deposited by the candidate or authorized committee on or after the first day of the calendar year immediately preceding the calendar year of the Presidential election, but no later than December 31 following the matching payment period.

(b) For purposes of this section the term "money" means checks, money orders, or any other negotiable instrument payable on demand.

(c) For purposes of this section "written instrument" means a check written on a personal, escrow, or trust account, a money order, or any other negotiable instrument payable on demand and to the order of, or specially endorsed without qualification to, the Presidential candidate or to his or her principal campaign committee. The candidate's name shall be included by the contributor on the face or endorsement of the written instrument, which shall contain the full name and signature of the contributor, the amount and date of the contribution, and the mailing address of the contributor.

(1) In cases of a check drawn on a joint checking account, the contributor is considered to be the owner whose signature appears on the check. To be attributed equally to other joint tenants of the account, the check or other written instrument shall contain the other individual's signature(s).

(2) Checks drawn on escrow or trust accounts can only be a contribution from the person who has beneficial ownership of the account and therefore must be signed by that person with the statement that the giving of the contribution does not violate the conditions of the trust or escrow agreement.

(3) Contributions in the form of checks written on partnership accounts or accounts of unincorporated associations or businesses are matchable contributions, so long as—

(i) The checks are accompanied by documentation which specifies that the contribution is made by a specific individual or individuals;

(ii) Such documentation is signed by the individual or individuals; and

(iii) The aggregate amount of the contributions drawn on a partnership or unincorporated association or business account does not exceed $1,000 to any one Federal candidate for an election.

§ 130.9 Nonmatchable contributions.

A contribution to a candidate other than by a gift of money under § 130.8 is not matchable. Contributions which are not matchable include—

(a) In-kind contributions of real or personal property;

(b) A subscription, loan, advance, or deposit of money, or anything of value;

(c) A contract, promise, or agreement, whether or not legally enforceable, such as a pledge card or credit card transaction, to make a contribution for any such purpose;

(d) Funds from a corporation, labor organization, government contractor, political committee as defined in § 100.14 or any group of persons other than those under § 130.8(c)(3);

(e) Contributions which are illegally made or accepted, such as contributions in the name of another;

(f) Contributions in the form of a check drawn upon the account of a committee, corporation, union, or government contractor even though the funds represent personal funds earmarked by a contributing individual to a Presidential candidate;

(g) Contributions in the form of the purchase price paid for an item with significant intrinsic and enduring value, such as a watch;

(h) Contributions in the form of the purchase price paid for a chance to participate in a raffle, lottery, or a similar drawing for valuable prizes;

(i) Contributions in the form of the purchase price paid for the admission to any activity that primarily confers private benefits in the form of entertainment to the contributor, such as a concert, motion picture, or theatrical performance, in which case the amount of the matchable contribution shall include only the excess of the amount paid for admission over the fair market value of all the benefits available to the purchaser of the ticket, using a good faith reasonable estimate.

(1) The fair market value and any amount in excess of the fair market value of the benefits conferred shall be clearly and separately indicated on the promotional material and the tickets for the event, and a copy of such material and of a ticket shall accompany the submission of documentation under §§ 131.2 and 132.2.

(2) A contribution in the form of the purchase price paid for admission to an activity that is essentially political is fully matchable. An "essentially political" program is one the principal purpose of which is political speech or discussion, such as the traditional political dinner or reception;

(j) Contributions which are made by persons without the necessary donative intent to make a gift or made for any purpose other than to influence the result of a primary election; and

(k) Contributions of currency of the United States or currency of any foreign country.

§ 130.10 Qualified campaign expense.

(a) "Qualified campaign expense" means a purchase, payment, distribution, loan, advance, deposit, or gift of money or anything of value—

(1) Incurred by a candidate or by the candidate's authorized committees no later than the last day of the candidate's eligibility as determined under § 133.2 and made in connection with his or her campaign for nomination for election; and

(2) Neither the incurrence nor payment of which constitutes a violation of any law of the United States or of any State in which the expense is incurred or paid, except that any State law which has been preempted by the Federal Election Campaign Act of 1971, as amended, shall not be considered a State law for purposes of this paragraph.

(b) For purposes of this section, an expense is incurred by a candidate or by an authorized committee if it is incurred by a person specifically authorized in writing by the candidate or committee, as the case may be, to incur such expense on behalf of the candidate or committee.

§ 130.11 State.

"State" means each State of the United States and the District of Columbia.

PART 131—ELIGIBILITY FOR PAYMENTS

Sec.
131.1 Candidate agreements.
131.2 Candidate certifications; threshold amount.
131.3 Matching payment threshold requirements.
131.4 Matching payments in excess of threshold.
131.5 Candidate entitlements.
131.6 Expenditure limitation.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 408(c), Pub. L. 93-443, 88 Stat. 1297 (26 U.S.C. 9039(b)).

§ 131.1 Candidate agreements.

(a) A candidate seeking to become eligible to receive Presidential primary matching fund payments shall agree in a letter to the Commission, signed by the candidate, that the candidate and his or her principal campaign committee will—

(1) Obtain and furnish to the Commission any evidence the Commission may request regarding qualified campaign expenses, including expenses made by all authorized committees of a candidate;

(2) Keep, and furnish to the Commission any books, records, or other information that the Commission may request, including copies of books and records maintained by all authorized committees of the candidate;

(3) Permit an audit and examination by the Commission, pursuant to Part 134, and pay any amounts required to be paid under that Part. In addition, the candidate shall submit the name and mailing address of the person to whom the payment should be sent and the name and address of the national or State bank designated by the candidate as a campaign depository as required in Part 103 of this chapter and § 132.3(c); and

(4) Comply with the applicable requirements of Title 2, United States Code and Parts 100–108 of these regulations.

(b) Failure by the candidate or the candidate's principal campaign committee to comply with the agreements in paragraph (a) may result in the suspension of the certification process under § 133.7.

§ 131.2 Candidate certifications; threshold amount.

A candidate seeking to become eligible to receive Presidential primary matching fund payments shall certify to the Commission, in a written statement signed by the candidate, that—

(a) He or she is seeking nomination by a political party to the office of President of the United States in more than one State;

(b) The candidate and his or her authorized committee(s) will not incur qualified campaign expenses in excess of the limitation on such expenses under § 131.6;

(c) The candidate and his authorized committees have received matchable campaign contributions which, in the aggregate, exceed $5,000 in contributions from individuals who are residents of each of at least 20 States, and which in respect to any individual do not exceed $250. For each State in which the candidate certifies he or she has met this requirement, the candidate shall—

(1) Submit an alphabetical list of contributors showing each contributor's full name and residential address, the date of the receipt of each contribution by the candidate or his or her committee and of the deposit into the designated campaign depository, the dollar amount of each contribution submitted for matching purposes, the matchable portion thereof, the total amount of all matchable contributions submitted, and a notation as to whether the contribution was received as a result of an entertainment activity under § 130.9(i); and

(2) Submit a photocopy of each check or other written instrument for each contribution which the candidate submits to receive matching funds. The photocopies shall be segregated alphabetically by deposit, and shall be accompanied by copies of the relevant deposit slip.

(d) The Commission may conduct audits of candidate records to determine eligibility and shall notify candidates if it chooses to conduct the audits. In that case, the Commission may at its own

V 41 166
AUG 25 76
UMI

discretion waive the submission requirement of paragraphs (c)(1) and (c)(2) of this section.

(e) If a candidate is not active in more than one State, matching payments will be terminated under § 133.4.

(f) If a candidate knowingly exceeds the expenditure limitation in any State after he or she has accepted matching funds, the candidate is disqualified from receiving further matching funds with respect to that Presidential election.

§ 131.3 Matching payment threshold requirements.

During the matching payment period, the Commission shall, as soon as practicable and generally within 5 working days, examine the submission under § 131.1 and § 131.2 (a), (b), and (c) and shall either—

(a) Make a preliminary determination that the candidate has satisfied the requirement of raising an amount in excess of $5000 in contributions from individuals who are residents of each of at least 20 States, which in respect to any individual do not exceed $250; or

(b) Promptly notify the candidate giving a detailed explanation of the reasons for the Commission's conclusion that the candidate has failed to satisfy the matching payment threshold requirements.

§ 131.4 Matching payments in excess of threshold.

(a) After a preliminary determination has been made that the candidate has successfully satisfied the threshold requirement under § 131.3, the Commission shall so notify the candidate and request the submission in good order of the necessary documentation of all contributions received and deposited by a date specified by the Commission.

(b) Contributions which have been submitted for matching purposes after notification that the candidate has met the threshold requirement need not be segregated by State, including any resubmission of the threshold contributions. Each submission shall include an aggregate total of each individual's contributions submitted for matching purposes.

§ 131.5 Candidate entitlements.

A candidate who is certified by the Commission under § 132.1 below as eligible to receive payments is entitled to payments in an amount equal to the amount of each matchable campaign contribution, as defined in § 130.8, provided that the total amount of payments to a candidate shall not exceed 50 percent of the total expenditure limitation applicable under 2 U.S.C. § 441a(b)(1)(A) as adjusted by 2 U.S.C. § 441a(c).

§ 131.6 Expenditure limitation.

(a) No candidate who has accepted matching funds shall knowingly—

(1) Incur qualified campaign expenses in excess of the expenditure limitation applicable under 2 U.S.C., § 441a(b)(1)(A); and

(2) Make expenditures from his or her personal funds, or funds of his or her immediate family, in connection with his or her campaign for nomination for election to the office of President in excess of, in the aggregate, $50,000.

(b) For purposes of this section, the term "immediate family" means a candidate, spouse, and any child, parent, grandparent, brother, half-brother, sister, or half-sister of the candidate, and the spouses of such persons.

(c) For purposes of applying paragraph (a)(2) of this section, expenditures made by an individual after January 29, 1976, and before May 11, 1976, shall not be taken into account.

(d) For purposes of this section, "personal funds" has the same meaning as specified in § 110.10.

PART 132—CERTIFICATION AND DISBURSEMENT

Sec.
132.1 Initial certification.
132.2 Additional certifications.
132.3 Payments and deposits of Presidential primary matching funds.
132.4 Insufficient documentation.
132.5 Certification review and notice.
132.6 Resubmissions and hearing opportunity.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 408(c), Pub. L. 93-443, 88 Stat. 1297 (26 U.S.C. 9039(b)).

§ 132.1 Initial certification.

Within 10 calendar days after the Commission formally determines that a candidate has established his or her eligibility under Part 131 to receive payments, the Commission shall certify to the Secretary of the Treasury for payment of the amount to which such candidate is entitled.

§ 132.2 Additional certifications.

(a) To obtain subsequent certifications following the initial certification and payment, a candidate shall file all information required for the initial eligibility under Part 131, except that—

(1) The alphabetical listing of contributors need not be segregated by State; and

(2) The candidate need not resubmit the agreements under § 131.1 and the certifications under § 131.2.

(b) Requests for additional certifications may be submitted on dates to be determined and publicized by the Commission from time to time.

(c) Except as provided by § 132.4, requests for additional certification shall be made for those contributions received by the candidate after the close of the period for which the previous submission was made.

(d) The Commission shall certify to the Secretary of the Treasury any additional amount to which a candidate is entitled within 15 calendar days of receipt of information submitted under paragraph (a).

§ 132.3 Payments and deposits of Presidential primary matching funds.

(a) Upon receipt of a written certification from the Commission, but not before the beginning of the matching payment period, the Secretary of the Treasury or his or her delegate will promptly transfer the amount certified from the matching payment account to the candidate.

(b) In making such transfers to candidates of the same political party, the Secretary or his or her delegate will seek to achieve an equitable distribution of funds available in the matching payment account, and the Secretary or his or her delegate will take into account, in seeking to achieve an equitable distribution, the sequence in which such certifications are received.

(c) Upon receipt of any matching funds, the candidate shall deposit the full amount received into a checking account maintained by the candidate's principal campaign committee in the depository designated by the candidate.

§ 132.4 Insufficient documentation.

Contributions which are otherwise matchable may be rejected for matching purposes because of insufficient supporting documentation. These contributions may become matchable if there is a proper resubmission in accordance with §§ 132.5 and 132.6. Insufficient documentation includes—

(a) Discrepancies in the written instruments, such as—

(1) Instruments drawn on other than personal accounts of contributors and not signed by the contributing individual;

(2) Signature discrepancies; and

(3) Lack of the contributor's signature, the amount of the contribution, or the listing of the committee or candidate as payee;

(b) Discrepancies between listed contributions and supporting documentation, such as—

(1) The contributor's name is misspelled;

(2) The listed amount requested for matching exceeds the amount contained on the written instrument; and

(3) A written instrument has not been submitted to support a listed contribution;

(c) Discrepancies within or between contribution lists submitted, such as—

(1) The address of the contributor is missing or incomplete, or the contributor's name is alphabetized incorrectly, or more than one contributor is listed per item; and

(2) A discrepancy in aggregation within or between submissions, or a listing of a contributor more than once within the same submission.

§ 132.5 Certification review and notice.

(a) The Commission will review the submission to determine if the submission meets acceptable standards of good order. Those submissions not meeting the standards will not be certified, and the candidate will be requested to resubmit the documentation. Submissions of a sufficient size will be reviewed using statistical sampling, and the candidate will be given the option of correcting and resubmitting the documentation or of accepting a dollar reduction in the amount requested for matching based on the results of the sample. If the Commission certifies to the Treasury for payment an amount which is less than the amount requested by the candidate, the Commission shall notify the candidate in writing which notice or notices shall include—

(1) The amount less than the full amount requested for certification;

(2) The amount of the contribution and the name of the contributor which the Commission considers not matchable and the reasons therefore, or, if statistical sampling is used, the estimated amount of contributions by type and the reasons for rejection;

(3) The amount of matchable contributions that are not in dispute which the Commission will certify to the Treasury for payment; and

(4) A statement that the candidate has the opportunity to supply the Commission with additional documentation or other explanation in the form of a resubmission under § 132.6 so as to make the disputed contributions matchable.

(b) In any case where the candidate or his or her committee has knowledge that a contribution which has been submitted for matching purposes does not so qualify, such as a check returned to the committee for insufficient funds, the Commission shall be notified as soon as possible so that a proper adjustment may be made in the amount to be certified.

§ 132.6 Resubmissions and hearing opportunity.

(a) Contributions which were submitted and rejected under § 132.5(a) may be resubmitted with the necessary information.

(b) In order to be reviewed, the resubmission of disputed contributions shall be made on a separate list identifying the submission in which the contributions were originally submitted.

(c) Resubmissions must be presented to the Commission at a time specified and, to the extent approved, will be certified to the Secretary of the Treasury within 15 calendar days.

(d) If the candidate chooses to make a resubmission and the Commission determines that the disputed contribution is still unmatchable, the Commission will notify the candidate in writing of such action and the reasons therefor and will accord the candidate an opportunity for a hearing if he or she so requests within 7 days from the receipt of this second notification.

(e) The hearing shall be informal and shall be held before the Commission or a designee of the Commission who shall not have been responsible for the certification in question. The candidate or his or her representative shall bring to the hearing all documents relevant to the disputed contributions.

(f) The Commission shall certify for payment the amount of the disputed contributions which have been found at the hearing to be matchable. Failure of the Commission to certify unresolved disputed contributions shall constitute a final and conclusive determination by the Commission. The Commission shall so notify the candidate of its determinations.

PART 133—TERMINATIONS OF PAYMENTS

Sec.
133.1 Continuation of certification.
133.2 Ineligibility dates defined.
133.3 Use of matching payments; net outstanding campaign obligations.
133.4 Determination of inactive candidacy.
133.5 Determination of active candidacy.
133.6 Reestablishment of eligibility dates.
133.7 Suspension of payments.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 408(c), Pub. L. 93-443, 88 Stat. 1297 (26 U.S.C. 9039(b)).

§ 133.1 Continuation of certification.

Except as provided by § 133.3,

(a) Candidates who have received matching funds may continue to submit contributions to the Commission to be certified for matching through January 21 of the year following the election.

(b) No contribution will be matched if it is submitted after this period, regardless of the date the contribution was deposited.

§ 133.2 Ineligibility dates defined.

The ineligibility date of a candidate is determined by paragraph (a) or (b), whichever occurs first.

(a) The day on which an individual ceases to be a candidate because the candidate is not actively conducting campaigns in more than one State in connection with seeking the nomination for election to the office of President of the United States. That date shall be the earlier of—

(1) The date the candidate publicly announces to be the date that he or she will not be actively conducting campaigns in more than one State; or

(2) The date which the Commission determines under § 133.4 to be the date that the candidate is not actively seeking election in more than one State; or

(b) The 30th day following the date of the second consecutive primary election in which such individual receives less than 10 percent of the number of popular votes cast for all candidates of the same party for the same office in such primary election, if such individual permitted or authorized the appearance of his name on the ballot, unless such individual certifies to the Commission at least 15 days prior to the primary that he will not be an active candidate in the primary involved.

(1) For purposes of this paragraph, if the primary elections involved are held in more than one State on the same date, the highest percentage of votes a candidate receives in any one State will govern. Separate primary elections held in more than one State on the same date are not deemed to be consecutive primaries. If two primary elections are held on the same date in the same State (e.g., a primary to select delegates to a national nominating convention and a primary for the expression of preference for the nomination of candidates for election to the office of President), the highest percentage of votes a candidate receives in either election will govern.

(2) For purposes of this paragraph, the Commission may determine that, notwithstanding the certification by the candidate that he is not an active candidate in the primary involved, he will be deemed to be an active candidate if the Commission so finds under § 133.5.

§ 133.3 Use of matching payment; net outstanding campaign obligations.

(a) Matching payments shall be used only to defray qualified campaign expenses.

(b) If either § 133.2(a) or § 133.2(b) becomes applicable to a candidate, any expenses incurred after that date are *not* qualified campaign expenses. Matching payments made to a candidate, after the date he or she becomes ineligible under § 133.2 (a) or (b) may only be used to defray net outstanding campaign obligations as of the date determined by § 133.2 (a) or (b).

(c) Net outstanding campaign obligations are total outstanding obligations for qualified campaign expenses as of the close of business on the last date of candidate eligibility less the amount of cash on hand and less the total of any debts owed *to* the campaign in the form of returns or rebates of qualified campaign expenses (telephone deposits, reimbusements for the press or Secret Service for travel, etc.).

(d) If a campaign has *no* net outstanding campaign obligations—

(1) The ineligible candidate may not receive further matching payments regardless of the date of deposit of the underlying contributions; and

(2) Any surplus on the date of ineligibility shall be returned to the Treasury in an amount determined by the formula specified in § 134.3(c).

(e) If a campaign has net outstanding campaign obligations, the candidate may, subject to § 130.6, submit contributions for matching, regardless of the date of deposit, but in no event will the Commission certify for matching an amount which exceeds outstanding campaign obligations.

§ 133.4 Determination of inactive candidacy.

(a) The Commission may make an initial determination that a candidate is no longer actively seeking nomination for election in more than one State, unless the candidate chooses to send a letter to the Commission indicating an inactive status.

(b) A notice of initial determination shall be sent to the candidate, which determination shall become final if the candidate fails to respond within 10 business days.

V 41 166 AUG 25 76 UMI

(c) The candidate will be afforded an opportunity to make a showing that he or she is an active candidate.

(d) After a proper hearing, the Commission may make a final determination that the candidate is inactive.

(e) The Commission may consider, but is not limited to, the following factors in making its determination:

(1) The frequency and type of public appearances, speeches, and advertisements;

(2) Campaign activity with respect to soliciting contributions or purchasing campaign materials;

(3) Continued payment and employment of personnel and use of volunteers; or

(4) The release of committed delegates, or permitting an opponent to seek their support.

§ 133.5 Determination of active candidacy.

If a candidate certifies to the Commission that he will not be an active candidate in the primary involved under § 133.2(b), the Commission may nevertheless determine that the candidate is active in the primary involved based upon the same criteria and procedure outlined in § 133.4.

§ 133.6 Reestablishment of eligibility dates.

(a) If a candidate is not actively conducting campaigns in more than one State, the Commission may subsequently find that such individual is actively seeking election to the office of President of the United States in more than one State. The Commission shall make this finding without requiring such individual to reestablish his eligibility to receive payments under § 131.2. This finding will be based upon a showing that the candidate is making a bona fide effort to campaign in more than one State. The Commission may consider, but is not limited to, the following factors in making its determination:

(1) The frequency and type of public appearances, speeches, and advertising;

(2) Campaign activity with respect to soliciting contributions or purchasing campaign materials; and

(3) Continued payment and employment of personnel and the use of volunteers, and the continued existence of a campaign organization in a State. The day which the Commission determines to be the day the candidate became active again is the reestablishment of eligibility date.

(b) If it has been determined that § 133.2(b) applies to a candidate, the reestablishment of eligibility date shall be the day on which the candidate receives 20 percent or more of the total number of votes cast for candidates of the same party in a primary election held after the date on which the election was held which was the basis for terminating payments to him.

(c) If the candidate is reestablished under § 133.6(a) or (b), contributions which were not matched during the ineligibility period may be matched, and the payment received may be used to defray expenses incurred during the ineligible period and during the ensuing period of eligibility.

§ 133.7 Suspension of payments.

If the Commission determines that a candidate or his principal campaign committee substantially failed to comply with § 131.1(a)(4), no certifications will be made until the Commission determines that § 131.1(a)(4) has been substantially complied with. Before suspending payments, the Commission shall notify the candidate and afford him or her an opportunity to demonstrate that the requirements of Title 2 have been substantially complied with.

PART 134—EXAMINATIONS AND AUDITS; REPAYMENTS

Sec.
134.1 Audit.
134.2 Repayments.
134.3 Liquidation of obligations; repayment.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 408(c), Pub. L. 93-443, 88 Stat. 1297 (26 U.S.C. 9039(b)).

§ 134.1 Audit.

(a) After the close of a matching payment period, the Commission shall conduct an audit of the qualified campaign expenses of every candidate and his or her authorized committees who received Presidential primary matching funds.

(b) In addition, the Commission may conduct other examinations and audits from time to time as it deems necessary to carry out the provisions of this subchapter.

§ 134.2 Repayments.

(a) If the Commission determines that—

(1) Any portion of the payments made to a candidate from the matching payment account was in excess of the aggregate amount to which such candidate was entitled; or

(2) Any amount of any payment made to a candidate from the matching payment account was used for any purpose other than—

(i) To defray qualified campaign expenses; or

(ii) To repay loans which were used to defray qualified campaign expenses; or

(3) Any portion of any payment made to a candidate on the basis of contributions received after the ineligibility date in § 133.2 was used for any purpose other than to defray qualified campaign expenses incurred before the ineligibility date;

The Commission shall so inform the candidate as soon as possible, but no later than 3 years after the end of such matching payment period, and the candidate shall repay to the Secretary of the Treasury, within 90 days of the notice, an amount equal to the excess payments, or an amount equal to the amount expended for nonqualified campaign expenses. Upon application submitted by the candidate, the Commission may grant a 90-day extension of the repayment period.

(b) If the candidate disputes the Commission's determination that a repayment is required, he or she shall notify the Commission within 30 days of receipt of the Commission's notification to the candidate.

(1) The Commission, or its designee, shall conduct a hearing at a mutually agreeable time and place, at which the candidate may make a showing of where the Commission erred in its determination requiring repayment.

(2) Based on the hearing, the Commission shall reaffirm or modify its initial determination, which shall constitute final and conclusive determination, and shall so notify the candidate.

§ 134.3 Liquidation of obligations; repayment.

(a) Qualified campaign expenses may be liquidated through use of matching payment funds during a period up to 6 months after the end of the matching payment period.

(b) After all obligations have been liquidated, the candidate shall so inform the Commission in writing.

(c)(1) If on the last day of candidate eligibility the net outstanding campaign obligations of the candidate, as defined in § 133.3(c), reflect a surplus, the candidate shall repay to the Secretary of the Treasury an amount equal to that portion of the surplus which bears the same ratio to the total surplus that the total amount received from the matching payment account bears to the aggregate of all contributions and matching funds deposited in all the candidate's depositories from the first day of the matching payment period through the last day of candidate eligibility. Repayment shall be made within 30 days after the liquidation of all outstanding campaign obligations, but no later than 6 months after the end of the matching payment period.

(2) If on the last day of candidate eligibility there are net outstanding campaign obligations, any matching funds received may be retained for a period not exceeding 6 months after the end of the matching payment period in order to liquidate those obligations. Any amounts paid which are not used to liquidate the net outstanding campaign obligations within 6 months shall be repaid to the Treasury 30 days thereafter.

(d) All payments received by the Secretary under §§ 134.2 or 134.3 shall be deposited in the matching payment account.

SUBCHAPTER D—PRESIDENTIAL ELECTION CAMPAIGN FUND, GENERAL ELECTION FINANCING

PART 140—DEFINITIONS

Sec.
140.1 Authorized committee.
140.2 Candidate.
140.3 Commission.
140.4 Eligible candidates.
140.5 Fund.

Sec.
140.6 Major party.
140.7 Minor party.
140.8 New party.
140.9 Political committee.
140.10 Presidential election.
140.11 Qualified campaign expense.
140.12 Expenditure report period.
140.13 Contribution, exclusions.
140.14 Secretary.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)); and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 140.1 Authorized committee.

"Authorized committee" means, with respect to the candidates of a political party for President and Vice President of the United States, any political committee which is authorized in writing by such candidates to incur expenses to further the election of such candidates. Such authorization shall be addressed to the chairman of such political committee, and a copy of such authorization shall be filed by such candidates with the Commission. Any withdrawal of any authorization shall also be in writing and shall be addressed and filed in the same manner as the authorization.

§ 140.2 Candidate.

(a) "Candidate" means, with respect to any Presidential election, an individual who—

(1) Has been nominated for election to the office of President of the United States or the office of Vice President of the United States by a major party; or

(2) Has qualified to have his name on the election ballot (or to have the names of electors pledged to him on the election ballot) as the candidate of a political party for election to either such office in 10 or more States.

(b) For purposes of §§ 140.6, 140.7, and 142.2 the term "candidate" means, with respect to any preceding Presidential election, an individual who received popular votes for the office of President in such election.

(c) The term "candidate" shall not include any individual who has ceased actively to seek election to the office of President of the United States or to the office of Vice President of the United States in more than one State.

§ 140.3 Commission.

"Commission" means the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463.

§ 140.4 Eligible candidates.

"Eligible candidates" means the candidates of a political party for President and Vice President of the United States who have met all applicable conditions for eligibility to receive payments under this chapter set forth in Part 141.

§ 140.5 Fund.

"Fund" means the President Election Campaign Fund established by 26 U.S.C. § 9006(a).

§ 140.6 Major party.

"Major party" means, with respect to any Presidential election, a political party whose candidate for the office of President in the preceding Presidential election received, as the candidate of such party, 25 percent or more of the total number of popular votes received by all candidates for such office.

§ 140.7 Minor party.

"Minor party" means, with respect to any Presidential election, a political party whose candidate for the office of President in the preceding Presidential election received, as the candidate of such party, 5 percent or more, but less than 25 percent, of the total number of popular votes received by all candidates for such office.

§ 140.8 New party.

"New party" means, with respect to any Presidential election, a political party which is neither a major party nor a minor party.

§ 140.9 Political committee.

"Political committee" means any committee, association, or organization (whether or not incorporated) which accepts contributions or makes expenditures for the purpose of influencing, or attempting to influence, the nomination or election of one or more individuals to Federal, State, or local elective public office.

§ 140.10 Presidential election.

"Presidential election" means the election of Presidential and Vice-Presidential electors.

§ 140.11 Qualified campaign expense.

"Qualified campaign expense" means an expense—

(a) Incurred—

(1) By the candidate of a political party for the office of President to further his election to such office or to further the election of the candidate of such political party for the office of Vice President, or both;

(2) By the candidate of a political party for the office of the Vice President to further his election to that office or to further the election of the candidate of the political party for the office of President, or both;

(3) By an authorized committee of the candidates of a political party for the offices of President and Vice President to further the election of either or both of the candidates to the respective offices; or

(4) By a person authorized by the Presidential or Vice-Presidential candidate or any of their authorized committees, as the case may be, to incur an expense on behalf of the candidate or committee;

(b) Incurred within the expenditure report period or incurred before the beginning of such period to the extent such expense is for property, services, or facilities used during such period; or

(c) Incurred for travel, such as renting airplanes and buses, but only to the extent of the greater of—

(1) Gross transportation expenses, less Secret Service and media reimbursements; or

(2) The product of (i) the highest rate for which reimbursement is sought by the candidate from any person for transportation, multiplied by (ii) the total persons transported, less the number of—

(A) Airline or bus company employees;

(B) Secret Service; and

(C) Media personnel;

(d) Neither the incurring nor payment of which constitutes a violation of any law of the United States or of the State in which the expense is incurred or paid.

(e) "Qualified campaign expense" does not include, inter alia, amounts paid by a campaign for—

(1) Expenses incurred after the expenditure report period;

(2) Legal and accounting services paid for by the lawyer's or accountant's regular employers or by the candidate or his or her committee and rendered solely for the purposes of insuring compliance with this Act or chapter 95 of the Internal Revenue Code of 1954, except if the candidate wishes to treat those expenses as qualified campaign expenses, and, in any event, amounts paid or incurred for these services shall be reported in accordance with Part 104.

§ 140.12 Expenditure report period.

"Expenditure report period" with respect to any Presidential election means—

(a) In the case of a major party, the period beginning with the first day of September before the election, or, if earlier, with the date on which such major party at its national convention nominated its candidate for election to the office of President of the United States, and ending 30 days after the date of the Presidential election; and

(b) In the case of a party which is not a major party, the same period as the expenditure report period of the major party which has the shortest expenditure report period for such Presidential election under paragraph (a).

§ 140.13 Contribution; exclusions.

For purposes of this subchapter—

(a) "Contribution" is given the meaning in § 100.4; and

(b) "Contribution" does not include

(1) A loan of money by a national or State bank made in accordance with applicable banking laws and regulations and in the ordinary course of business and not endorsed or guaranteed by any person other than the candidate to the extent that the amount so endorsed by the candidate, when added to all other expenditures made from his personal funds and those of his immediate family, does not exceed $50,000;

(2) Reimbursements to the candidate or his or her authorized committee from members of the press, the Secret Service,

V 41 1166
AUG 25 76
UMI

or other persons for air and surface transportation; or

(3) Contributions made to a candidate or his or her committees to defray nonqualified campaign expenses (see § 140.11(e)). These contributions are subject to the limitations of Part 110, and shall be deposited in, and disbursed from, a separate account and not commingled with any money from the fund.

§ 140.14 Secretary.

"Secretary" means the Secretary of the Treasury.

PART 141—ELIGIBILITY FOR PAYMENTS

Sec.
141.1 Candidate agreements.
141.2 Candidate certifications.
141.3 Allowable contributions.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 141.1 Candidate agreements.

In order to be eligible to receive any payments under § 143.2, the candidates of a political party in a Presidential election shall, in writing—

(a) Agree to obtain and furnish to the Commission such evidence as it may request of the qualified campaign expenses of such candidates;

(b) Agree to keep and furnish to the Commission such records, books, and other information as it may request;

(c) Agree to an audit and examination by the Commission under Part 145 and to pay any amounts required to be paid under that section; and

(d) Provide the Commission with the name and mailing address of the person to whom the payment should be sent and the name and address of the national or State bank designated by the candidate as a campaign depository.

§ 141.2 Candidate certifications.

(a) Major parties. In order to be eligible to receive any payments under § 143.2, the candidates of a major party in a Presidential election shall certify to the Commission, under penalty of perjury, that—

(1) The candidates and their authorized committees will not incure qualified campaign expenses in excess of the aggregate payments to which they will be entitled under § 142.1; and

(2) No contributions to defray qualified campaign expenses have been or will be accepted by such candidates or any of their authorized committees, except to the extent necessary to make up any deficiency in payments received out of the fund on account of the application of 26 U.S.C. § 9006(d), and no contributions to defray expenses which would be qualified campaign expenses but for § 140.11(c) have been or will be accepted by such candidates or any of their authorized committees.

(b) Minor and new parties. In order to be eligible to receive any payments under § 143.2, the candidates of a minor or new party in a Presidential election shall certify to the Commission, under penalty of perjury, that—

(1) Such candidates and their authorized committees will not incur qualified campaign expenses in excess of the aggregate payments to which the eligible candidates of a major party are entitled under § 142.1; and

(2) Such candidates and their authorized committees will accept and expend or retain contributions to defray qualified campaign expenses only to the extent that the qualified campaign expenses incurred by such candidates and their authorized committees certified to under paragraph (1) exceed the aggregate payments received by such candidates out of the fund pursuant to § 143.2.

(c) All parties. In order to be eligible to receive any payment under § 143.2, the candidate of a major, minor, or new party in an election for the office of President shall certify to the Commission, under penalty of perjury, that such candidate will not knowingly make expenditures from his personal funds, or the personal funds of his immediate family, in connection with his campaign for election to the office of President in excess of, in the aggregate, $50,000. For purposes of this paragraph, expenditures from personal funds made by a candidate of a major, minor, or new party for the office of Vice President shall be considered to be expenditures by the candidate of such party for the office of President.

(1) For purposes of this paragraph the term "immediate family" means a candidate's spouse, and any child, parent, grandparent, brother, half-brother, sister, or half-sister of the candidate, and the spouses of such persons.

(2) For purposes of this paragraph expenditures made by an individual after January 29, 1976, and before May 11, 1976, shall not be taken into account.

(3) Expenditures from personal funds made under this paragraph shall not count toward the expenditure limitations.

(d) The certifications in paragraphs (a)-(c) shall be made no sooner than the day upon which the individual became a nominee and no later than 14 days after the nomination.

§ 141.3 Allowable contributions.

Candidates for the office of President and Vice President may accept contributions to defray the expenses specified in § 140.11(e)(1) and (2), provided that—

(a) No donations are made by an organization prohibited from contributing by Parts 114 and 115, and contributions from other persons do not exceed the limitations set forth in Part 110;

(b) The contributions shall be deposited and maintained in an account separate from that described in § 143.2, and shall not be commingled with the money paid to the candidates by the Secretary pursuant to § 143.2;

(c) Receipt of any and all of these contributions shall be reported in a report separate from, and in addition to, the report required by § 144.1;

(d) Any solicitation for these contributions must clearly state the purpose to which the contributions are to be applied; and

(e) Any excess of the contributions may not be used to retire debts remaining from the Presidential primaries.

PART 142—ENTITLEMENT OF ELIGIBLE CANDIDATES TO PAYMENTS; USE OF PAYMENTS

Sec.
142.1 Major parties.
142.2 Minor parties.
142.3 Minor and new parties; post-election payments.
142.4 Use of payments.
142.5 Withdrawal by candidate.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 142.1 Major parties.

The eligible candidates of each major party in a Presidential election shall be entitled to equal payments under § 143.2 in an amount which, in the aggregate, shall not exceed the expenditure limitations applicable to such candidates under 2 U.S.C. § 441a(b)(1)(B).

§ 142.2 Minor parties.

(a) The eligible candidates of a minor party in a Presidential election shall be entitled to payments under § 143.2 equal, in the aggregate, to an amount which bears the same ratio to the amount allowed under § 142.1 for a major party as the number of popular votes received by the candidate for President of the minor party, as such candidate, in the preceding Presidential election bears to the average number of popular votes received by the candidates for President of the major parties in the preceding Presidential election.

(b) If the candidate of one or more political parties (not including a major party) for the office of President was a candidate for such office in the preceding Presidential election and received 5 percent or more, but less than 25 percent, of the total number of popular votes received by all candidates for such office, such candidate and his running mate for the office of Vice President, upon compliance with the provisions of §§ 141.1 and 141.2, shall be treated as eligible candidates entitled to payments under § 142.1 in an amount computed as provided in paragraph (a) by taking into account all the popular votes received by such candidate for the office of President in the preceding Presidential election. If eligible candidates of a minor party are entitled to payments under this paragraph, such entitlement shall be reduced by the amount of the entitlement allowed under paragraph (a).

§ 142.3 Minor and new parties; post-election payments.

(a) The eligible candidates of a minor party or a new party in a Presidential election whose candidate for President in such election receives, as such candidate, 5 percent or more of the total number of popular votes cast for the office of President in such election shall be entitled to payments under this part equal, in the aggregate, to an amount which bears the same ratio to the amount allowed under § 142.1 for a major party as the number of popular votes received by such candidate in such election bears to the average number of popular votes received in such election by the candidates for President of the major parties.

(b) In the case of eligible candidates entitled to payments under § 142.2 the amount allowable under this paragraph shall be limited to the amount, if any, by which the entitlement under the preceding sentence exceeds the amount of the entitlement under § 142.2.

§ 142.4 Use of payments.

(a) The eligible candidates of a political party shall be entitled to payments only—

(1) To defray qualified campaign expenses incurred by such eligible candidates or their authorized committees; or

(2) To repay bank loans in the case of a major party candidate, and all other loans in the case of a minor or new party candidate, the proceeds of which were used to defray such qualified campaign expenses or otherwise to restore funds (other than contributions to defray qualified campaign expenses received and expended by minor or new party candidates or committees) used to defray such qualified campaign expenses.

(b) Payments may be invested by an eligible candidate or his or her authorized committee, but any income derived from an investment, such as interest on a certificate of deposit, shall be returned to the Secretary.

§ 142.5 Withdrawal by candidate.

In any case in which an individual ceases to be a candidate as a result of the operation of the last sentence of § 140.2(c) such individual—

(a) Shall no longer be eligible to receive any payments under § 143.2, except that such individual shall be eligible to receive payments under such section to defray qualified campaign expenses incurred while actively seeking election to the office of President of the United States or to the office of Vice President of the United States in more than one State; and

(b) Shall pay to the Secretary or his delegate, as soon as practicable after the date upon which such individual ceases to be a candidate, an amount equal to the amount of payments received by such individual under § 143.2 which are used to defray qualified campaign expenses.

PART 143—CERTIFICATION BY COMMISSION

Sec.
143.1 Initial certification.
143.2 Payments from the fund.
143.3 Finality of certification; hearings.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 143.1 Initial certification.

Not later than 10 days after both of the candidates of a political party for President and Vice President of the United States have met all applicable conditions for eligibility to receive payments under Part 141, the Commission shall certify to the Secretary for payment to the eligible candidates under § 143.2 payment in full of amounts to which the candidates are entitled under Part 142.

§ 143.2 Payments from the fund.

(a) Upon receipt of a certification from the Commission under § 143.1 for payment to the eligible candidates of a political party, the Secretary shall pay to Presidential and Vice-Presidential candidates out of the fund the amount certified by the Commission.

(b) Payment received by the Presidential candidate shall be deposited in a separate account maintained by his principal campaign committee. The Presidential candidate nominated by a political party may designate the national committee of that political party as the candidate's principal campaign committee.

(c) Payment received by the Vice-Presidential candidate may be deposited in a separate account other than the Presidential account in paragraph (b) as long as that account is in the same depository as that maintained by the Presidential candidate.

(d) No funds other than the payments received from the Treasury and the reimbursements described in § 140.11(c) may be deposited in the accounts described in paragraphs (b) and (c).

(e) Except as provided by this subchapter, amounts paid to any candidate shall be under control of that candidate.

§ 143.3 Finality of certification; hearings.

(a) Certifications by the Commission under § 143.1, and all determinations made by it under this subchapter shall be final and conclusive, except to the extent that they are subject to examination and audit by the Commission under Part 145 and judicial review under 26 U.S.C. § 9011.

(b)(1) If the candidate disputes any determination made by the Commission under § 143.1, the candidate shall notify the Commission within 15 days of the determination in order to request a re-determination.

(2) Upon receipt of the request for a re-determination, the Commission shall afford the candidate an opportunity to be heard and to present supporting evidence.

PART 144—REPORTS AND RECORD KEEPING

Sec.
144.1 Separate reports.
144.2 Allocation of administrative expenses.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 144.1 Separate reports.

(a) The principal campaign committee of any Presidential candidate of a major party, the candidate himself, unless waived, and all authorized committees shall report all expenditures with respect to the general election separately from any other monthly or quarterly reports, as if the general election were the only election activity engaged in by the committees and the candidate.

(b) In addition to the requirements in paragraph (a), minor and new parties shall report the receipt of any private contributions for the general election.

§ 144.2 Allocation of administrative expenses.

If an authorized committee (including the national committee if authorized) of the candidates of a political party for President and Vice President of the United States also incurs expenses to further the election of one or more other individuals to Federal, State, or local elective public office, expenses incurred by such committee which are not specifically to further the election of such other individual or individuals shall be considered as incurred to further the election of such candidates for President and Vice President in proportion to the number of other candidates supported. For example, if an authorized committee supports the Presidential candidate, the Vice-Presidential candidate, 5 congressional candidates, and 9 State candidates, the total number of candidates supported is 16. The amount of overhead and administrative expenses incurred by the authorized committee for the Presidential and Vice-Presidential candidates is 2/16 or 1/8.

PART 145—EXAMINATIONS AND AUDITS; REPAYMENTS

Sec.
145.1 Audits, records, and investigations.
145.2 Repayments.
145.3 Notification.

AUTHORITY: Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b)).

§ 145.1 Audits, records, and investigations.

(a) After each Presidential election, the Commission shall conduct a thorough examination and audit of the qualified

V 41 1 166 AUG 25 76 UMI

campaign expenses of the candidates of each political party for President and Vice President.

(b) In addition, the Commission may conduct other examinations and audits or investigations and require the keeping and submission of books, records, and information as it deems necessary to carry out the functions and duties imposed on it by this subchapter.

§ 145.2 Repayments.

(a) If the Commission determines that—

(1) Any portion of the payments made to the eligible candidates of a political party under § 143.2 was in excess of the aggregate payments to which candidates were entitled under Part 142;

(2) The eligible candidates of a political party and their authorized committees incurred qualified campaign expenses in excess of the aggregate payments to which the eligible candidates of a major party were entitled under Part 142;

(3) The eligible candidates of a major party or any authorized committee of such candidates accepted contributions (other than contributions to make up deficiencies in payments out of the fund on account of the application of 26 U.S.C. § 9006(c) or loans from a bank) to defray qualified campaign expenses (other than those excess qualified campaign expenses with respect to which repayment is already required under paragraph (a)(2) of this section); or

(4) Any amount of any payment made to the eligible candidates of a political party under § 143.2 was used for any purpose other than—

(i) To defray qualified campaign expenses with respect to which the payment was made; or

(ii) To repay loans the proceeds of which were used, or otherwise to restore funds (other than contributions received by a minor or new party candidate to defray qualified campaign expenses which were received and expended) which were used, to defray qualified campaign expenses;

The Commission shall notify such candidates of the amount so used, and such candidates shall pay to the Secretary an amount equal to the amount determined under paragraphs (a)(1)-(4).

(b) Any portion of the payment under § 143.2 which remains unspent after all qualified campaign expenses have been paid shall be returned to the Secretary.

(c) No repayment shall be required from the eligible candidates of a political party under § 145.2 to the extent that any repayment, when added to other repayments required from the candidates under § 145.2, exceeds the amount of payments received by the candidates under § 143.2.

(d)(1) The candidates shall repay to the Secretary within 90 days of the notice in paragraph (a) an amount equal to the excess payments or an amount equal to the amount expended for nonqualified campaign expenditures. Upon application submitted by the candidate, the Commission may grant a 90-day extension of the repayment period.

(2) If the candidates dispute the Commission's determination that a repayment is required, they shall notify the Commission within 30 days of receipt of the Commission's notification to the candidates.

(i) The Commission, or its designee, shall conduct a hearing at a mutually agreeable time and place, at which the candidate may make a showing of where the Commission erred in its determination of repayment.

(ii) Based on the hearing, the Commission shall reaffirm or modify its initial determination, which shall constitute final and conclusive determination, and shall so notify the candidate.

§ 145.3 Notification.

No notification shall be made by the Commission under § 145.2(a) with respect to a Presidential election more than 3 years after the day of the election.

PART 146—OTHER EXPENDITURES

§ 146.1 Expenditures by political party committees.

Notwithstanding the expenditure limitation applicable to the candidates, national, State, and subordinate committees of a political party may make expenditures in connection with a Presidential general election in amounts that do not exceed those specified in § 110.7.

(Sec. 310(8), Pub. L. 92-225, added by Sec. 208, Pub. L. 93-443, 88 Stat. 1279, and amended by Secs. 105 and 107(a)(1), Pub. L. 94-283, 90 Stat. 481 (2 U.S.C. 437d(a)(8)), and Sec. 404(c)(13), Pub. L. 93-443, 88 Stat. 1293 (26 U.S.C. 9009(b))).

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

New Community Development Corporation

[24 CFR Parts 710, 720]

[Docket R-76-415]

ASSISTANCE FOR NEW COMMUNITIES—1970 ACT

Financing Public and Private Development

The Department proposes to amend Title 24 by revising the title of Subchapter B to read "Assistance for New Communities—1968 Act" and the title of Part 710 to read "Financing Private New Community Development" and by adding a new Subchapter C, "Assistance for New Communities—1970 Act" and under Subchapter C a new Part 720 entitled "Financing Public and Private New Community Development." On July 31, 1971, 36 FR 14205–14, a notice of proposed rule making, R–71–133, proposed comprehensive regulations to implement Title VII of the Housing and Urban Development Act of 1970 (Part B of the Urban Growth and New Community Development Act of 1970), 42 U.S.C. 4511. With the passage of time, that proposal has become obsolete and the rule making proceeding in Docket No. R–71–133 is therefore being terminated. However, a number of comments were received in response to that Notice and each of these comments will be considered in developing the regulations herein proposed. Moreover since 1971, additional operating experience has enabled the Department to review and revise the earlier proposal with the objective of better explaining basic program requirements. This Notice, then, invites further public comment on a proposed rule significantly changed from the 1971 proposal with the intention of developing a clearer and more complete final rule.

Part 720 consists of six Subparts as follows:

Subpart A sets forth the purposes of Part B of the Urban Growth and New Community Development Act of 1970 and states the authority of the Secretary, including the power to guarantee debt obligations issued by, or on behalf of Developers to assist in financing new community Projects and the power to make supplementary grants to assist in providing necessary public facilities. It also sets forth the organization of the new communities program within HUD, including the New Community Development Corporation and the New Communities Administration.

Subpart B contains the criteria and standards which the Secretary will apply in determining whether a proposed Project is approvable under the Act. These criteria and standards include: (1) Internal characteristics, such as the relative balance of proposed land uses; (2) Urban growth considerations, including the functional types of Projects which may be assisted and the relationship of a Project to its surrounding area; (3) The physical plan and program for the Project; (4) The proposed system for the delivery of human services and facilities such as health, education and recreation and the local governmental structure and other arrangements for the provision of such services; (5) The provision of housing to accommodate a broad range of income levels, employment opportunities in support of such provisions and which provide for federal assistance to meet low and moderate income housing goals; (6) The level and type of necessary State and local government reviews and approvals; (7) Environmental planning requirements; (8) The impact of a Project on the area it will affect and the degree of consistency with existing comprehensive areawide plans; (9) The use of advances in design and technology with respect to land utilization, materials and methods of construction and the provision of community facilities and services; (10) The establishment and maintenance of an affirmative action program to assure equal opportunity in all phases of the new community including employment and housing; (11) The basis for determining that the Developer possesses the financial, technical and administrative ability to carry out the Project with reasonable assurance of its completion as scheduled; (12) Labor standards, use of small builders, work safety and health standards, relocation and the regulation of utilities.

Subpart B also contains criteria and standards designed to establish the economic feasibility of a Project and the acceptability of its financial risk to the Government. These criteria and standards include necessary determinations regarding: (1) Marketing assumptions; (2) projected revenues and costs to the Developer, to any community association which may be established and to each Subsidiary over the development period; (3) the financial experience of the Developer including its ability to borrow sufficient funds and contribute required equity to the Project; (4) the maximum outstanding indebtedness which may be guaranteed under the Act for any Project; (5) provisions relating to the security interests of the United States; (6) the administration of the Escrow Account; (7) the terms of the guarantee; (8) appropriate financial tests and controls designed to assure the Developer's ability to meets its liabilities and to provide an early warning system regarding any financial problems being encountered in development of the Project; and (9) methods for preparing and auditing financial statements.

Subpart C sets forth in sequential order the procedural steps leading to the approval or disapproval of applications for initial and additional guarantee assistance and for a Determination of Eligibility. It specifies the nature and content of the Project Agreement and other documents which evidence the commitment of the Secretary to guarantee a specified maximum principal amount of debt obligations to be issued by the Developer. The Subpart also indicates the procedures which shall be followed by applicants under the Act in order to comply with OMB Circular A–95, as well as the effect upon processing of compliance by the Secretary with the National Environmental Policy Act of 1969.

Subpart D sets forth the requirements, purposes and methods for monitoring and evaluating the progress of Projects throughout the development period to assure compliance with the Project Agreement. It sets forth policies and procedures concerning the rights of the Secretary with respect to inspection, amendments to Project Documents and waivers and remedies of the Secretary in the event of default. In addition, this Subpart specifies the periodic financial and nonfinancial reports and projections which Developers are required to submit as well as the special notification and internal evaluation requirements which they must comply with.

Subpart E specifies the general requirements and procedures applicable to assistance other than guarantee assistance which is available under Title VII and other Federal programs to Projects for which guarantee assistance has been provided under, the Act or for which a Determination of Eligibility has been made. The Subpart specifically deals with supplementary grants, community development block grants and federally-assisted housing.

Subpart F specified the fees and charges which have been established for payment to HUD in connection with the processing of applications for guarantee assistance and Determinations of Eligibility. These include application, commitment, reopening, guarantee, annual, and transfer fees and charges.

Interested persons are invited to participate in the making of the proposed rule by submitting written data, views or arguments to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410. Each person submitting a comment should include his name and address and refer to the document by the docket number indicated in the heading and give reasons for any recommendations.

Comments received by September 23, 1976 will be considered before final action is taken on this proposal.

Copies of all written comments received will be available for examination by interested persons in the Office of the Rules Docket Clerk at the address listed above.

A finding of inapplicability of section 102(2)(C) of the National Environmental Policy Act of 1969 has been made pursuant to HUD Handbook 1390.1. The environmental inapplicability statement will be available at the above address.

It is hereby certified that the economic and inflationary impacts of this proposed rule have been carefully evaluated in accordance with OMB Circular No. A–107.

On January 14, 1975, the Secretary directed that the processing of applications on hand and the acceptance of applications for guarantee assistance to new projects be suspended. As a result, the proposed rule applies only to existing approved projects and does not alter the current moratorium concerning new project applications.

Accordingly, the Secretary proposes to amend Title 24 by (1) revising the title of Subchapter B to read "Assistance for New Communities—1968 Act", (2) revising the title of Part 710 to read "Financing Private New Community Development", (3) adding a new Subchapter C, "Assistance for New Communities—1970 Act", and (4) adding a new Part 720 to Subchapter C entitled "Financing Public and Private New Community Development" which reads as follows:

It is proposed to amend the title of Subchapter B and the title of Part 710 to read as follows:

SUBCHAPTER B—ASSISTANCE FOR NEW COMMUNITIES 1968 ACT

PART 710—FINANCING PRIVATE NEW COMMUNITY DEVELOPMENT

It is proposed to add Subchapter C and Part 720 to read as follows:

SUBCHAPTER C—ASSISTANCE FOR NEW COMMUNITIES—1970 ACT

PART 720—FINANCING PUBLIC AND PRIVATE NEW COMMUNITY DEVELOPMENT

720.90 Applicability of this Subpart.
720.91 Fees and charges.

AUTHORITY: Sec. 7(d) Department of Housing and Urban Development 42 USC 3535(d), Title VI, Housing and Community Development Act of 1974, 42 USC 5401.

Subpart A—General

§ 720.1 Statement of applicable law.

(a) *Purposes of act.* The declared purposes of Part B of the Urban Growth and New Community Development Act of 1970 (42 U.S.C. 4511–32) are to:

(1) Provide Private Developers and State and Local Public Bodies (including regional or metropolitan public bodies and agencies) with financial and other assistance necessary for encouraging the orderly development of well-planned, diversified, and economically sound new communities, including major additions to existing communities, and to do so in a manner which will rely to the maximum extent on private enterprise;

(2) Strengthen the capacity of State and local governments to deal with local problems;

(3) Preserve and enhance both the natural and urban environment;

(4) Increase for all persons, particularly members of minority groups, the available choices of locations for living and working, thereby providing a more just economic and social environment;

(5) Encourage the fullest utilization of the economic potential of older central cities, smaller towns, and rural communities;

(6) Assist in the efficient production of a steady supply of residential, commercial, and industrial building sites at reasonable costs;

(7) Increase the capability of all segments of the homebuilding industry, including both small and large producers, to utilize improved technology in producing the large volume of well-designed, inexpensive housing needed to accommodate population growth;

(8) Help create neighborhoods designed for easier access between the places where people live and the places where they work and find recreation;

(9) Encourage desirable innovation in meeting domestic problems whether physical, economic, or social; and

(10) Improve the organizational capacity of the Federal Government to carry out programs of assistance for the development of new communities and the revitalization of the Nation's urban areas.

(b) *Applicability of this part.* This Part is applicable to the following authorities of the Secretary (acting through the Corporation for the purposes of paragraph (b)(1) of this section) under the Act and under other provisions of law, to assist new community Projects:

(1) The guarantee of debt obligations issued by, or on behalf of, Developers for the purpose of assisting in the financing of new community Projects;

(2) Making supplementary grants for the purpose of assisting in the provision of facilities which are necessary or desirable for carrying out Projects. The authority to make such grants is subject to the following limitations:

(i) Supplementary grants may be made only for the purpose of assisting in the provision of facilities for which grants have been made under the following provisions of law: Section 3, Urban Mass Transportation Act of 1964 (49 U.S.C. 1602); (23 U.S.C. 120(a)) (highways other than interstate); section 19 of the Airport and Airway Development Act of 1970 (49 U.S.C. 1719); Title VI of the Public Health Service Act (42 U.S.C. 291) (hospital and medical facilities); Title II of the Library Services and Construction Act (20 U.S.C. 355(a)); section 5 of the Land and Water Conservation Fund Act of 1961 (16 U.S.C. 460(l)); Title VII of the Housing Act of 1961 (42 U.S.C. 1500); section 702 or 703 of the Housing and Urban Development Act of 1965 (42 U.S.C. 3102–3); section 8 of the Federal Water Pollution Control Act (33 U.S.C. 1281); section 306(a)(2) of the Consolidated Farmers Home Administration Act (7 U.S.C. 1926(a)(2)); section 101(a)(1) of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3131).

(ii) No supplementary grant may exceed 20 percent of the total eligible costs of providing the facility for which the grant is made, as determined by the Federal department or agency which makes a grant specified in paragraph (b)(2)(i) of this section, nor may the total Federal contribution to the cost of the facility exceed 80 percent of such total eligible costs;

(3) Providing other forms of assistance, benefits and priorities to assist in carrying out Projects; and

(4) Assisting Developers in securing other assistance to Projects which may be available under other Federal laws or under State or local laws.

§ 720.2 Definitions.

For the purpose of this Part, the following terms shall mean:

Act. Part B of the Urban Growth and New Community Development Act of 1970 (Title VII of the Housing and Urban Development Act of 1970, 42 U.S.C. 4511–32).

Actual cost. The costs (exclusive of rebates or discounts) incurred by a new community Developer or a Restricted Affiliate for Land Acquisition and in carrying out the Land Development assisted under the Act. These costs may include amounts paid for labor, materials, construction contracts, land planning, engineers' and architects' fees, surveys, taxes and interest during development,

V 41 166 AUG 25 76 UMI

organization and legal expenses, such allocation of general overhead expenses as is acceptable to the Secretary, and other items of expense incidental to development which may be approved by the Secretary. If the Secretary determines that there is an identity of interest between the Developer and a contractor, there may be included as part of Actual Cost an allowance for the contractor's profit or risk in an amount deemed reasonable by the Secretary.

Board. The Board of Directors of the Corporation.

Corporation. The New Community Development Corporation established within the Department of Housing and Urban Development under the Act.

Determination of eligibility. A determination by the Secretary, pursuant to section 712 of the Act (42 U.S.C. 4513) that a Project is a new community development program eligible for assistance, other than guarantee assistance, under the Act. The provisions of section 712 appear in § 720.11.

Developer. Any Public Developer or Private Developer.

Development plan. An exhibit to the Project Agreement which describes the Project, establishes the objectives of the Developer and specifies its undertakings with respect to physical and social elements of the Project over the development period.

Escrow account. An account which is security for the sole benefit of the Secretary consisting of the proceeds of all guaranteed obligations investments and other funds as provided in the Project Documents.

Financial plan. A document containing projected revenues and costs, prepared pursuant to § 720.25.

General manager. The chief executive officer of the Corporation.

Indenture. An indenture of mortgage and deed of trust executed by the Developer in favor of a Trustee, creating a lien on real and personal property as security for the Secretary.

Land acquisition. The acquisition of real property for Land Development as part of the project, including the removal of liens and encumbrances thereon.

Land development. The process of clearing and grading land making, installing, or constructing waterlines and water supply installations, sewer lines and sewage or waste disposal installations, steam, gas, and electric lines and installations, roads, streets, curbs, gutters, sidewalks, storm drainage facilities, community or neighborhood central heating or air-conditioning systems and other installations or work, whether on or off the site, which the Secretary deems necessary or desirable to prepare land for residential, commercial, industrial or other uses, or to provide facilities for public or common use. Land Development includes the construction of public facilities, but does not include the construction of any other building unless it is (1) needed in connection with a water supply or sewage or waste disposal installation, a community or neighborhood central heating or air-conditioning system, or a steam, gas, or electric line or installation, or (2) to be owned and maintained by residents of the new community under joint or cooperative arrangements approved by the Secretary.

Local public body or agency. Any public body or agency, including a political subdivision, created by or under the laws of a State or two or more States, or a combination of such bodies or agencies.

Non-project activities. Activities other than Land Acquisition or Land Development.

Person. Any individual, corporation, partnership, joint venture, association, joint stock company, trust, unincorporated organization, entity or government or any agency or political subdivision thereof.

Private developer. Any private entity organized in a form satisfactory to the Secretary for carrying out one or more Projects.

Project. The activities and undertakings required to carry out a program which meets the eligibility standards set forth in the Act and these Regulations.

Project agreement. The legal document by which the Secretary and the Developer agree to comply in all respects with the relevant provisions of the Act and with these Regulations.

Project documents. All Project-related documents executed or required by the Secretary.

Public developer. Any State or Local Public Body or Agency with authority to act as Developer in carrying out one or more Projects.

Regulations. The Regulations adopted by the Secretary under the Act.

Restricted affiliate or subsidiary. A Subsidiary restricted in its business operations pursuant to the Project Documents.

Revolving fund. The fund established by the Secretary pursuant to Section 717 of the Act for the purpose of making authorized program expenditures.

Secretary. The Secretary of Housing and Urban Development or the Secretary's authorized representative (HUD).

State. Any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of any of the foregoing.

Subsidiary. A Person of whom the Developer, directly or indirectly through one or more intermediaries, has control.

Trustee. A bank or trust company approved by the Secretary and named as trustee under an Indenture.

§ 720.3 Other authorities.

(a) *Authority of the Corporation.* Section 729(c) of the Act (42 U.S.C. 4532 (c)) directs that functions of the Secretary with respect to guarantees of new community development shall be administered through the Corporation. According to the delegation of authority, dated March 1971 (36 FR 5304), the Corporation performs the functions and duties and exercises the power and authority of the Secretary with respect to Part B of the Act. According to the by-laws of the Corporation (24 CFR 700.1), the Board has general supervision and direction of the Corporation and its officers.

(b) *General manager.* The General Manager is the chief executive officer of the Corporation and, under the general direction of the Board, has responsibility for executive management of the operation of the Corporation.

(c) *Establishment of the new communities administration.* The Secretary has established the New Communities Administration to perform policy, staff and operational roles in support of the Corporation.

(d) *The Administrator of the new communities administration.* An Administrator appointed by the Secretary is the chief executive officer of the New Communities Administration and is responsible directly to the General Manager.

§ 720.4 Program information.

(a) *General information.* Instructions for applying for assistance under this program as well as information on other Federal programs which are related to the establishment and development of new communities may be obtained from the Office of the Administrator, New Communities Administration, Department of Housing and Urban Development, Washington, D.C. 20410.

(b) *Other publications.* Detailed information, supplementing these Regulations and relating to planning, operations and management of new community Projects, is also available in HUD handbooks and guidelines.

Subpart B—Criteria and Standards

§ 720.10 Applicability of this Subpart.

This Subpart sets forth the policies and requirements which shall be met before Developers and Projects may qualify for guarantee assistance under the Act or for a Determination of Eligibility. Developers and Projects shall also comply with applicable Sections of this Subpart during the term of any Project Agreement executed pursuant to § 720.57.

§ 720.11 Statutory basis.

The basis for the criteria and standards set forth in this Subpart is provided by the folowing Sections of the Act:

Section 712. (a) A new community development program is eligible for assistance under this part only if the Secretary determines that the program (or the new community it contemplates)—

(1) Will provide an alternative to disorderly urban growth, helping preserve or enhance desirable aspects of the natural and urban environment or so improving general and economic conditions in established communities as to help reverse migration from existing cities or rural areas;

(2) Will be economically feasible in terms of economic base or potential for economic growth;

(3) Will contribute to the welfare of the entire area which will be substantially affected by the program and of which the land to be developed is a part;

(4) Is consistent with comprehensive planning, physical and social, determined by the Secretary to provide an adequate basis for evaluating the new community development program in relation to other plans (including State, local, and private plans) and activities involving area population, housing and development trends, and transportation, water, sewerage, open space, recreation, and other relevant facilities;

(5) Has received all governmental reviews and approvals required by State or local law, or by the Secretary;

(6) Will contribute to good living conditions in the community, and that such community will be characterized by well balanced and diversified land use patterns and will include or be served by adequate public, community, and commercial facilities (including facilities needed for education, health and social services, recreation, and transportation) deemed satisfactory by the Secretary;

(7) Makes substantial provision for housing within the means of persons of low and moderate income and that such housing will constitute an appropriate proportion of the community's housing supply; and

(8) Will make significant use of advances in design and technology with respect to land utilization, materials, and methods of construction, and the provision of community facilities and services.

(b) A new community development program approved for assistance under this part shall be undertaken by a private new community developer or State land development agency approved by the Secretary on the basis of financial, technical, and administrative ability which demonstrates capacity to carry out the program with reasonable assurance of its completion.

Sec. 716. (a) No guarantee or loan shall be made under this part unless the Secretary has determined that the new community development program represents an acceptable financial risk to the United States, taking into consideration (1) the financial and security interests of the United States, including the manner in which the developer proposes to finance and schedule land acquisition, land development, and marketing, and (2) the public purposes of this part and the special problems involved in financing new communities, including (i) the large amount of initial capital required to finance sound new communities, (ii) the extended period before initial returns can be expected, and (iii) the irregular pattern of cash returns characteristic of this type of development.

§ 720.12 General criteria.

(a) *Internal characteristics.* In determining whether a proposed Project (otherwise eligible for assistance and consistent with the purposes of the Act) is a new community within the meaning of the Act, the Secretary will apply the following general criteria:

(1) It must be designed so as to create a newly-built community or major addition to an existing community which includes most, if not all, of the basic services and facilities normally associated with a city or town: housing (including substantial provision for housing for persons and families of low and moderate income), transportation, utilities, industry, commerce, open space and recreation, education and health, cultural, and social facilities and services.

(2) It must, during each major phase of the development, combine the above components to acheve a well-planned and harmonious whole that is socially balanced, economically sound and environmentally attractive as a place to live, work and play.

(3) It must provide a framework for the creation of a substantial number and variety of jobs, both in conjunction with Project development and construction activities and through plans for the inclusion of sites for public and business enterprises within the Project.

(4) It need not be completely self-sufficient. In determining balance for a given Project, consideration shall be given to the adequacy of existing or projected development of services and facilities in the immediate area. However, the Project may not consist of housing alone, or housing with a minimum of commercial facilities serving only the immediate needs of people for neighborhood shopping. Nor may the Project be predominantly an industrial or commercial development, with a minimum supply of new housing.

(5) If a Project is proposed as a major addition to an existing community, the following criteria will be applied to determine whether the Project qualifies for assistance under the Act:

(i) The Project plan must evidence careful integration of the proposed Project development with the existing development.

(ii) The resultant community must be of substantially higher quality and designed to accommodate a substantially larger number of housing units and related urban functions than that which existed.

(b) *Urban growth considerations.* A Project shall provide an alternative to disorderly urban growth, or so improve general and economic conditions in established communities and rural areas as to help stem migration therefrom and shall in any event help to preserve or enhance desirable aspects of the natural and urban environment. In addition to criteria set forth in other Paragraphs of this section, the following factors will be considered in this context:

(1) The development proposed under the Project shall be significantly superior, as measured by environmental, fiscal and other impacts, to development which, in the absence of the Project, would be likely to occur in the area.

(2) The Project shall provide for an increase in available choices for living and working for individuals and families of varying incomes and social needs so as to help relieve pressures causing (i) detrimental and unnecessary migration from existing cities and from rural areas, and (ii) undue concentration of population by income, race, and lifestyle.

(3) The following types of Projects, clasified by functional relationship to the processes of urban growth, may be assisted under the Act. While this classification reflects commonly accepted categories of Projects, it is recognized that a particular Project may exhibit the characteristics of more than one such category or may not specifically fall in any of them. No Project, otherwise eligible for assistance under the Act, shall be disqualified solely on the basis of failure to be clearly identified under one of these categories. The Secretary and the Board may, however, acord priorities for approval based upon such categories:

(i) New Town-In-Town. Major developments within or adjacent to existing cities, on vacant land or land requiring limited redevelopment, whose purpose is to revitalize existing urban centers, stabilize surrounding neighborhoods and provide a wide range of housing within easy access of employment, commercial, recreational, cultural, and other facilities and amenities within such urban centers;

(ii) Satellite or Suburban: Projects located within or close to metropolitan areas which serve as superior alternatives to urban sprawl which would be likely to occur in their absence.

(iii) Small Town Growth Centers: Additions to smaller cities and towns, with potential for growth, which serve to avoid urban sprawl which would be likely to take place in their absence, or which serve to prevent economic decline and consequent migration to metropolitan areas; and

(iv) Free-Standing: Self-sufficient development, remote from existing urban centers, which may provide sound community development when combined with significant, long-term capital investment in hitherto economically underdeveloped areas.

(c) *Size.* The Project population, density or size of site area must be significant in comparison with existing development or communities in the area in which the Project is to be located, but no minimum or maximum population density or size of site area is prescribed. Size and boundary determinations may be influenced by natural features, political boundaries and existing development. Other determinants shall be considered, such as market data indicating the potential for, and absorption rate of, residential, commercial, and industrial growth, through an extended development period necessary to result in a balanced and mature community.

(d) *Access.* A Project shall have access to highways, airports, and other transportation facilities commensurate with its size and the reasonably anticipated requirements of its population, industry and commerce.

(e) *Relationship to surrounding area.* (1) A Project shall contribute to the social and economic welfare of the entire area which it will significantly affect.

(2) Site selection and internal planning for a Project shall reflect consideration of existing and planned development in the area surrounding the Project.

(3) To the extent that vital needs of the Project (such as energy supply, transportation access, water supply, waste treatment and disposal, etc.) are dependent on linkages with facilities and services outside the Project boundary, there must be reasonable assurance that feasible physical, financial and institutional methods and arrangements are available to meet such needs.

(4) A new community may, as appropriate, be incorporated as a separate municipality, or be subject to the jurisdiction of an existing city, town, county or other political entity.

V 41 166 AUG 25 76 UM

§ 720.13 Physical plan and program.

(a) *General requirement.* A Project shall include a general physical plan and program for creating and maintaining a functional and pleasing environment wrich is responsive to human needs.

(b) *Factors to be considered.* Among the factors which the Secretary shall consider in the evaluation of the general physical plan and program are the following:

(1) *Suitability of the site.* The site must be suitable for the proposed uses, considering its location, size, topography, microclimate and soil characteristics, and there must be a harmonious relationship of these uses with surrounding development, including protection of such uses against undesirable effects from the area surrounding the Project and protection of the area surrounding the Project from undesirable effects from the Project.

(2) *Interrelationship of plan components.* The various elements of the plan must be effectively interrelated through efficient, unified plans for land use, transportation and circulation, population density and distribution, employment, services, recreation and other elements.

(3) *Design controls.* Adequate controls and incentives must be included in the plan and program to create efficient land utilization and quality urban design, and to maintain architectural and environmental standards.

(4) *Phased development.* All elements of the physical plan and program (including housing, industry, utilities, commerce, circulation systems, management of undeveloped land, institutions, open space, recreation, service delivery systems and special features) shall be phased on a schedule compatible with economic feasibility and the achievement of social balance and shall be coordinated with the timing of Land Acquisition, Land Development and Disposition as reflected in the Financial Plan.

(5) *Consideration of alternatives.* Alternative plans, taking into account environmental, social, and other factors specified in this part, must be considered in the planning process.

(6) *Infrastructure and facilities.* The plan must contain adequate infrastructure and other public and private facilities, taking into consideration Project needs, recognized standards and existing facilities in the area. These shall include commercial, transportation, recreational, educational, health, religious and other community facilities as well as utility systems.

(7) *Provision for handicapped and elderly.* Buildings, outdoor areas and facilities must be designed to facilitate movement and self-sufficiency of the physically handicapped and elderly.

(8) *Adaptability of the plan.* The plan must be adaptable to the various needs and alternatives which may arise as the development program proceeds. The size of the initial land area which the Developer owns or controls must be adequate to permit the construction of a comparatively balanced community should completion of planned Land Acquisition prove to be infeasible.

(9) *Advances in design and technology.* The plan and program must show that significant use will be made of advances in design and technology.

§ 720.14 Human service delivery system.

(a) *General requirement.* The Project shall include a plan, satisfactory to the Secretary, for delivery of human services throughout the development period and must provide reasonable assurance of such cooperation of public and private entities as may be necessary to carry out the plan. Such plan shall include the following components:

(1) *Education.* High quality primary, secondary, adult and vocational education, and, as feasible and appropriate, institutions of higher education, directed to the needs of population groups which the new community is likely to attract, making maximum use of advanced methods, facilities, curriculum, and equipment and integrating the educational system into the life of the community.

(2) *Health.* An adequate comprehensive system of health facilities and services, accessible to new community residents of all ages and incomes, including ambulatory, hospital and long-term care, emergency and mental health services, care for the elderly and the mentally or physically handicapped, public health, nursing homes and, where feasible, prepaid health care as in health maintenance organizations.

(3) *Recreation and cultural.* Adequate recreational and cultural facilities and services which allow opportunity for full participation by all residents of the Project and are of sufficient variety to meet needs and preferences of all residents including low income persons, renters, minority group residents, and groups with special needs such as youth, the handicapped and the elderly.

(4) *Public safety.* A public safety system to proivde police and fire protection, emergency medical services, communications and other functions necessary to safeguard persons and property.

(5) *Other services.* Other services and facilities, including child care centers, information and referral systems, manpower development programs, religious institutions, social welfare, counseling, libraries, meeting places, advanced telecommunications systems, and other services identified by local agencies or residents.

(b) *Facilities.* The plan shall provide for the appropriate location of facilities needed to implement the human service delivery system and shall demonstrate that the financing of such facilities (and programs) through public and Developer resources, as they are needed, is feasible.

(c) *Planning and implementation process.* The plan shall provide for an ongoing planning and implementation process with Local Public Bodies, residents, community groups and private agencies to:

(1) Analyze the needs of the population projected for the new community by relevant subgroup to determine the diversity of needs, including consideration of needs by age, race, tenure of residents, sex, national origin, religion, marital status, family size, income and place of employment;

(2) Develop criteria for judging alternative plans for facilities and services based on identified needs;

(3) Inventory and evaluate the quality of existing facilities and services in the surrounding area in terms of ability to expand service and be responsive to the needs of current and future residents of the Project;

(4) Develop plans for providing the service systems discussed above to meet identified needs either through expansion of existing services or through other means; and

(5) Develop systems for insuring ongoing adjustment of plans, coordination of efforts, and evaluation of service delivery.

(d) *Structure for provision of services.* (1) To the maximum extent possible, the provision of services should be the responsibility of Local Public Agencies, preferably agencies of general purpose units of government rather than special purpose districts.

(2) To the extent necessary to meet and maintain the standards of services contemplated by the plan for the Project, the plan may provide for the creation of community associations to provide services which are not provided by Local Public Agencies. Such associations shall provide for membership and opportunity for full participation by all residents of the are which they serve. To the extent that such associations are initially controlled by the Developer, provision acceptable to the Secretary shall be made for the orderly transfer of control from the Developer to the residents. Provision shall be made, as may be appropriate, for the transfer of responsibility for delivery of services from such associations to appropriate government units as the earliest feasible time. All covenants creating community associations and all by-laws governing the boards of directors of such associations shall be approved by the Secretary.

§ 720.15 Housing and population balance.

(a) *General requirement.* A Project shall provide for the development and sale of land in accordance with a plan and program, acceptable to the Secretary, which:

(1) Provides for a variety of housing types within the Project to accommodate persons of a broad range of incomes, ages, household composition and lifestyles;

(2) Makes substantial provisions for housing within the means of persons of low and moderate income, which housing shall constitute an appropriate proportion of the Project's housing supply and of each major construction stage thereof;

(3) Provides for a broad range and mix of employment opportunities through industrial, commercial and institutional enterprises located in or nor the Project;

(4) Provides an opportunity for all persons who work within the Project to reside therein; and

(5) Provides for spatial distribution of housing, by type and price range, so as to avoid excessive concentration of low and moderate income households and afford all residents reasonably equal access to community and neighborhood facilities, services and activities.

(b) *Establishment of housing goals.* (1) *Initial goals.* A Project must be determined by the Secretary to provide a plan for Land Development and sales which will result in an acceptable amount, phasing and mix of housing based upon consideration of the following factors, except that in no case shall the amount of housing within the means of persons of low and moderate income be below a minimum level which may be determined by the Secretary to be necessary to meet the intent of the Act:

(i) Projected age, household composition and incomes of persons likely to be employed within or near the Project, based upon the employment plan and program specified in paragraph (c)(3) of this section and using methods of computation acceptable to the Secretary;

(ii) Current and projected need for housing by age, household size and income for the region and market area;

(iii) Impact of any commitments which may be required of the Developer, in connection with the provision of low and moderate income housing, upon the economic feasibility of the Project; and

(iv) Other factors (including, but not limited to, marketing, economic and social factors) as the Secretary may determine to be relevant to the overall success of the Project and its consistency with the purposes of the Act.

(2) *Periodic readjustment of goals.* The initial housing goals shall be subject to periodic readjustment by the Secretary based upon consideration, in addition to factors specified in paragraph (b)(1) of this section, of the following factors:

(i) Past performance and experience;

(ii) Changes in the income of low and moderate income Project residents;

(iii) Changes in supply and demand factors; and

(iv) Such other factors as the Secretary may determine to be appropriate.

(3) *Definition of low and moderate income.* As used in this Section, low-income refers to the income levels of families classified as "very low-income families" eligible for assistance under Section 8 of the Housing and Community Development Act of 1974 (42 U.S.C. 1437(f)), or under any program designated as a successor program by the Secretary, or, if no such program exists, families within income levels to be established by the Secretary. Moderate-income refers to the income levels of families classified as "lower income families" eligible for assistance under the said Section 8 program, or under any program designated as a successor program by the Secretary, or, if no such program exists, families within income levels to be established by the Secretary. Currently effective income levels shall be provided by the New Communities Administration upon written request.

(c) *Program for achieving housing goals.* The Project must provide for a program acceptable to the Secretary which provides reasonable assurance that the housing goals established pursuant to paragraph (b) of this section will be met. Such program shall include the following elements:

(1) An obligation of the Developer to develop land in accordance with the plan, to use his best efforts to sell such land and, in connection with the sale of land, to bind the buyer thereof to use such land to provide housing in accordance with the plan;

(2) A commitment by the Developer to undertake such other actions as may be determined by the Secretary to be necessary to assure achievement of housing goals, including:

(i) Seeking, or causing others to seek, such assistance as may be available from Federal, State and local low and moderate income housing programs;

(ii) Causing, if economically feasible, unassisted housing for low and moderate income persons to be provided;

(iii) Reducing lot prices and making other financial contributions, subject to overall limitations of the latest approved Financial Plan;

(iv) Requesting and assisting officials of local political jurisdictions to take such action as may be needed to achieve housing goals;

(v) Complying with applicable local property and construction standards and FHA Minimum Property Standards; (MPS) (HUD 4900.1, 4910.1, 4920.1 and 4930.1), and

(vi) Assuring that adequate counseling services related to home maintenance and operation are provided to assist low and moderate income persons residing in the Project; and

(3) The Project shall provide for a program, consistent with market considerations as set forth in § 720.24, to attract a mix of commercial, industrial and institutional enterprises which will offer employment opportunities for persons with a broad range of skills and other qualifications, including, to the maximum extent feasible, employment opportunities for persons of low and moderate income.

(d) *Federal housing assistance programs.* It is the policy of the Secretary to encourage and assist, within budgetary constraints, the construction of a substantial number of housing units for persons of low and moderate income in approved Projects. Accordingly, to the extent determined by the Secretary to be necessary, taking into consideration among other things the elements set forth in paragraph (c)(2) of this section, above, to meet the then current annual housing goals (as determined under paragraph (b) of this section, for provision of low and moderate income housing within the Project), the Secretary shall assure that approved Projects receive a sufficient share of available federal assistance during a given fiscal year.

§ 720.16 Governmental reviews and approvals.

The Developer shall secure all State and local government reviews and approvals required by law or determined by the Secretary to be necessary for initiating and continuing the Project. To the extent significant Project activities will require or depend upon future approvals that are necessarily unobtainable at the time an offer of commitment is made or a Project Agreement is executed, reasonable assurance shall be provided that such approvals will be secured in a timely fashion, as needed. Unless otherwise specified by the Secretary, such assurance shall include the adoption by the governing body of the unit of general local government of a resolution in a form satisfactory to the Secretary, approving the general plan for the development of the new community. In addition, before an offer of commitment shall be accepted, the land proposed to be developed in the initial stage shall be subject to specific zoning or other equivalent required approval which permits development of such land in accordance with the Project plans.

§ 720.17 Environmental quality.

(a) *General requirement.* The Project must be determined by the Secretary to contribute to the preservation or enhancement of desirable aspects of the natural and urban environment.

(b) *Planning and execution.* All factors affecting the environment must be considered at every stage of planning and execution of the Project, incuding site selection and suitability analyses, land use planning, urban design and architecture, engineering, construction and management. The effects of and on probable surrounding development shall also be considered.

(c) *Factors to be considered.* (1) *Environmental components.* The components making up the environment, which must be taken into account in preparing applications and in determining whether the Project meets environmental requirements, include without limitation: air, water, energy, biota geology, soils, facilities and services, special physical features, climate, safety, physical and mental health, aesthetics, comfort and sense of community.

(2) *Relevant statutes and regulations.* Project planning and development must be determined to be in compliance with all applicable Federal, State and local laws and ordinances including, but not limited to, the following Federal statutes, regulations and guidelines which establish substantive environmental requirements and standards:

(i) National Flood Insurance Act (42 U.S.C. 4001 et seq.);

(ii) National Historic Preservation Act of 1966 (16 U.S.C. 470);

(iii) Clean Air Act (42 U.S.C. 1857 et seq.);

(iv) Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(v) HUD Circular 1390.2, Noise Abatement and Control;

(vi) Historical and Archaeological Data Act of 1974 (16 U.S.C. 469);

V 41 166 AUG 25 76 UMI

(vii) Safe Water Drinking Act of 1973 (21 U.S.C. 349; 42 U.S.C. 201, 300f–300j–9);

(viii) Energy Policy and Conservation Act of 1975 (15 U.S.C. 753 et seq.);

(ix) Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.;

(x) Solid Waste Disposal Act as amended by the Resources Recovery Act of 1970 (42 U.S.C. 3259);

(xi) Noise Control Act of 1972 (42 U.S.C. 4901–18); and

(xii) Fish and Wildlife Coordination Act of 1958 (16 U.S.C. 661 et seq.),

(d) *Management.* To assure that environmental quality requirements will be achieved, management systems and controls shall be instituted to provide for the monitoring and analysis of components of the Development Plan affecting the environment, particularly major changes in environmental impact, over the life of the Project. Such systems and controls may involve coordination or participation by State, regional or local government.

(e) *Project agreement restrictions.* Reservations and restrictions which are considered by the Secretary to be necessary to assure the achievement of environmental quality objectives shall be incorporated in the Project Agreement.

§ 720.18 Welfare of the area.

The Project must contribute to the welfare of the entire area which will be substantially affected by the Project and of which the land to be developed is a part. Among the factors which the Secretary will consider in determining whether a Project meets this requirement are:

(a) The estimated fiscal impact of the Project on local units of government which are, or will be, responsible for meeting the on-site and off-site needs for public facilities and services generated by the Project. In determining this impact both the estimated expenditures and revenues, on- and off-site, incident to the development of the Project will be considered. Due to its importance, particular and detailed consideration will be given to the fiscal impact associated with the provision of educational facilities and services;

(b) The estimated fiscal impact of development which would be likely to occur in the absence of the Project, on local units of government which would be responsible for meeting the projected on-site and off-site needs for public facilities and services generated by such development. The factors indicated in paragraph (a) of this section will be considered for this purpose; and

(c) Other benefits and costs to the area generated by the Project such as jobs created and similar economic benefits, increased availability and accessibility of transportation, commercial, recreational, health, educational and other community facilities and services, and the anticipated overall effects of the new community upon the quality of development and growth of the area as a whole.

§ 720.19 Area planning and development.

(a) If the area within which the Project is to be located is covered by a comprehensive areawide plan or by an ongoing planning effort by an authorized agency, the Project must be consistent with such comprehensive plan or planning and must reflect consideration of any economic development programs, physical plans, social and service delivery plans and programs, and public works programs of relevant Federal, State, regional, city or county agencies for the area, provided such planning is, in the Secretary's judgment, sufficiently detailed to provide a reasonable basis for evaluating the relationship of the proposed new community to such other plans.

(b) Throughout the development period of the Project, there shall be continued planning coordination by the Developer with the appropriate local, areawide or State planning agencies.

§ 720.20 Advances in design and technology.

(a) *General requirement.* A Project shall make significant use of advances in design and technology with respect to land utilization, materials and methods of construction, and the provision of community facilities and services.

(b) *Scope and nature of advances.* Advances meeting the requirements of this section need not be limited to physical elements of a Project, but may include the Project as a whole, if it involves an advanced general concept or approach to community building, or any significant advance in the planning, design, financing or management of systems and institutional arrangements for meeting the needs of the community.

(c) *Factors to be considered.* The Secretary shall take the following factors into account in determining whether a given element of a Project meets the requirements of this section:

(1) A proposed element may meet this requirement if it constitutes an advance over general practice in the area in which the Project is located, even though it may have been instituted or applied in other areas of the country.

(2) While some degree of risk may be inherent, the probable impact of a proposed advance on marketability or other aspects of the Project shall be considered in relation to the overall economic feasibility of the Project. To the extent that a high risk advance is proposed for an element critical to the success of the entire Project, other feasible options shall be available in the event the advance shall prove to be infeasible.

(3) An advance accepted for the purposes of meeting the requirements of the Act shall, subsequent to its implementation, be subject to evaluation by the Developer or by outside groups, and to arrangements satisfactory to the Secretary for dissemination of information about the advance.

(d) *Financial assistance for advances.* (1) Where substantial costs for studies and implementation are involved, the Project shall include a plan financing of such costs by the Developer, by outside sources or by a combination thereof. Commitments of financing by the Developer shall be subject to overall economic feasibility requirements as set forth in § 720.23.

(2) It is the policy of the Secretary to assist the Developer, within budgetary constraints, in instituting or applying advances approved by the Secretary.

§ 720.21 Capacity and ownership of the developer.

The Developer shall possess the financial, technical, and administrative ability which demonstrates its capacity to carry out the Project with reasonable assurance of its completion in accordance with the Project Agreement. Such capacity shall in part be determined by the criteria and standards set forth in this section and elsewhere in these Regulations.

(a) *Management structure.* The Developer shall establish and maintain throughout the development period a management structure and system which, in the judgment of the Secretary, is appropriate to:

(1) The size and complexity of the Project;

(2) The amount of the debt obligations to be guaranteed or other assistance given;

(3) The current development status of the Project;

(4) The purposes, criteria, requirements and standards of the Act and the Regulations;

(5) Project Documents; and

(6) Principles of sound business practice.

Such plan shall identify the various components of its operation, including kinds and levels of expertise required over the development period. Consideration shall be given to projections of overhead costs, contingencies, and realistic schedules (especially during the initial stage of development) in establishing the workload and expertise needed for efficient and economical management during each stage of development.

(b) *Management system.* The management system shall include the following components:

(1) Establishment of goals and functions to be performed in planning, development and management of the new community;

(2) An identification of the roles to be performed in carrying out these functions by the Developer and by any entities outside the immediate control of the Developer, such as Local Public Bodies or affiliates and Subsidiaries;

(3) Planning and programming techniques, including a sound mechanism for long-range planning, which will permit proper phasing of diverse activities and the ability to adapt to changing requirements of the development process;

(4) A mechanism for measuring results against established criteria and standards;

(5) Provision of accurate and current data and analysis of changing conditions, and the utilization of this data in further decision-making; and

(6) Establishment of management control mechanisms to execute the program in an efficient manner.

(c) *Personnel resources.* (1) The Developer shall have, either in its own organization or available to it, personnel with the requisite managerial, administrative and technical ability and background appropriate to the implementation of the management structure and system as set forth under paragraphs (a) and (b) of this section. Proposed use of consultants, by number and profession, as a supplement to the Developer's management organization, shall be identified by development stage and cost.

(2) Prior to acceptance of the offer of commitment (see § 720.56), person(s) approved by the Secretary, who shall exercise the responsibilities of a chief executive officer for the Project shall be under contract to the Developer. Such approval shall be based upon consideration of background and experience indicating managerial ability and the probity of such individuals as determined pursuant to paragraph (d)(2) of this section.

(d) *Probity of owners and management staff.* (1) *Owners.* Prior to acceptance of the offer of commitment, the Developer shall submit such information as the Secretary shall require in order to conduct a background investigation of the stockholders, partners and any other Person having a direct or indirect ownership interest in the Developer. In the event that the results of any such investigation are adverse as to the probity of any such Person, the Secretary reserves the right to disapprove any such stockholder, partner or other Person. No sale, transfer, pledge or other disposition of all or any portion of a Private Developer's stock or other equity interest may be made without the approval of the Secretary. No sale, transfer, pledge or other disposition of the stock or other equity interest of any entity which directly or indirectly owns or controls any interest in a Private Developer may be made without the approval of the Secretary where either a change in control of the Private Developer may result or the transaction involves a Person or entity whom the Secretary deems to have a substantial relationship to the Project.

(2) *Management staff.* Prior to acceptance of the offer of commitment (and at any time thereafter that a change is proposed), the Developer shall submit such information as the Secretary may require in order to conduct a background investigation of the officers, directors, managing or general partners, and any other individual having a management function with respect to the Developer. In the event that the results of any such investigation are, in the judgment of the Secretary, adverse as to the probity of such Person, the Secretary reserves the right to disapprove any such Person.

§ 720.22 Equal opportunity.

(a) *General requirement.* A Project must be specifically designed and implemented so as to assure compliance with all requirements imposed by or pursuant to any applicable statute, executive order or regulation (as they have been or may be amended from time to time) concerning discrimination on the basis of race, creed, color, religion, sex, or national origin. These include Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601–3619); Title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000(e)); the Civil Rights Acts of 1866 and 1870 (42 U.S.C. 1981–2); Executive Order 11063 (27 FR 11527); and Executive Order 11625 (36 FR 19967); Executive Order 11246 (30 FR 12319) and Executive Order 11375 (32 FR 14303). These authorities apply variously so as to prohibit discrimination and promote equal opportunity in the use, sale, lease or other disposition of land, housing, or facilities in the Project and in employment in, or in the development of, the Project. Pursuant to the authority in each executive department to issue regulations and take other appropriate action under Executive Order 11063 with respect to its programs, discrimination on the basis of race, color, creed, or national origin in the use, sale, lease or other disposition of any land developed for residential or related uses with assistance under the Act is hereby specifically made a violation of that order enforceable under the terms of section 302 of the order after due notice and hearing. A Project must also be specifically designed and implemented to comply with all requirements imposed by or pursuant to section 3 of the Housing and Ubran Development Act of 1968 (12 U.S.C. 1701(u)), as it may be amended from time to time, regarding job and business opportunities for Project area residents.

(b) *Affirmative action program.* In furtherance of paragraph (a) of this section, and as a condition of the granting or continuation of assistance by the Secretary, the Developer shall formulate and implement an affirmative action program. Such program shall be in addition to any other requirements imposed by or pursuant to the authorities cited in paragraph (a) of this section. Such program shall include: (1) Planning and construction activities as well as marketing practices which provide a full range of individual housing choice and encourage members of various ethnic and racial minorities to live and work in the new community, cooperation with civil rights and civic groups, action to provide equal opportunity within the Developer's staff, and inclusion of equal opportunity provisions in pertinent contracts, subcontracts, covenants, and other documents; (2) an affirmative action program for equal employment opportunity in direct employment by the Developer and employment by contractors and subcontractors of the Developer. In addition, the Developer is encouraged to take all feasible steps to involve minority entrepreneurs in planning and development of the Project.

(c) *Monitoring of Affirmative Action Program.* The Developer shall establish methods to periodically assess the results of each portion of his affirmative action program. He shall incorporate, in a timely manner, appropriate adjustments to achieve the goals of such program.

§ 720.23 Economic feasibility and financial risk.

A Project must be determined by the Secretary to be economically feasible and to constitute an acceptable financial risk to the U.S. Government based upon consideration of the following factors:

(a) The economic potential of the Project, as measured against the criteria and other considerations described in § 720.24 for marketing land in accordance with assumptions as to prices, quantities, types, timing, and other factors specified in the plan for development of the Project;

(b) The Financial Plan for the Project prepared in accordance with § 720.25; and

(c) Other factors, including, without limitation, those set forth in § 720.26, affecting the financial risk to the United States.

§ 720.24 Economic base and growth potential.

A proposed Project must be determined by the Secretary to be likely to accomplish the marketing of land to be developed within the Project in accordance with assumptions as to prices, quantities, types, timing and other factors specified in a plan for development of the Project. Such determination shall be based upon consideration of studies and analyses included as part of the Developer's application, of the following market criteria and factors and such other information, studies and analyses as may be available to the Secretary:

(a) *Market criteria.* The size of the potential market for various categories of land use in the area must be determined, together with expected capture rates for the proposed Project, based upon consideration of the Project relative to other existing and probable development in the area. For each major land use category, consideration shall be given to the following factors:

(1) *Residential land.* (i) *Demand factors.* Historic absorption rates of residential units by type and price range, the current status and the historic and projected growth rate for each of the following market indicators: population, household size, employment, family income, personal income, housing preference and demand by type of units, including subsidized sale and rental housing units.

(ii) *Supply factors.* With respect to probable as well as existing supply: sales of residential land comparable as to the location, price per unit and per acre by type of dwelling unit; size, accessibility, and availabiltiy of other residential sites; utilities and amenities of other residential sites compared with the proposed Project; amount and condition of the housing stock by resident income; housing permits and starts; rental unit by

V 41 166
AUG 25 76
UMI

type and monthly rent; and vacancy rates by type,

(2) *Industrial land.* (i) *Demand factors.* With respect to the market area for industrial land, which may constitute a larger area than that identified for the residential market: employment growth rates by types of industries; sizes and types of major industries located in the market area; capital investment and value added to the local tax base by these industries; the historic absorption rate of land zoned industrial; the size, growth rate and wage rates of the major industrial employers; availability of raw materials, transportation and markets for products; prevailing tax policies in the area, and other relevant factors.

(ii) *Supply factors.* With respect to probable as well as existing supply: availability of industrial sites in the market area by location and size; comparable historical sales and rental activity, including sale price per acre and per square foot rental rates; and availability of utilities and amenities.

(3) *Commercial land.* (i) *Demand factors.* Projections of retail sales to expected residents of the new community; identification of population in the trade area by driving time intervals, income profile and area consumer expenditure patterns; conversion of retail sales projections into space and land requirements; identification of existing and proposed commercial developments; capital investment by commercial center; and historic absorption rates of land zoned for commercial use.

(ii) *Supply factors.* Comparable sales and rental data and availability of sites outside the Project but within the trade area; generally the same type of information indicated in paragraph (a) (2) (ii) of this section.

(4) *Office land.* (i) *Demand factors.* Size of the market area; projections of white collar employment; space requirements per employee, industry or service; identification of existing and proposed office building centers; capital investment for office building; absorption rates of land zoned for office use; and historic vacancy rates.

(ii) *Supply factors.* Comparable sales and rental data and availability of sites outside the Project but within the market area; generally the same type of information indicated in paragraph (a) (2) (ii) of this section.

(b) *Non-market criteria.* In addition to the market criteria specified in paragraph (a) of this section, the following special criteria shall be considered in determining the economic base or potential for economic growth in the indicated types of Projects.

(1) *Free-standing and growth center projects.* In the case of free-standing and small town growth centers, as described in § 720.12(b) (3), prior to the issuance of guarantees there shall be reasonable assurance, in the form of commitments or otherwise from industry and/or governments, that major employment generators will locate within the Project at an early development stage specified in the plan for development of the Project.

(2) *New-towns-in-town.* In the case of new-towns-in-town; as described in § 720.12(b) (3), prior to issuance of guarantees, there shall be such local government commitments of funds and other support for basic infrastructure and other municipal services as may be necessary to provide reasonable assurance of successful development of the Project.

§ 720.25 Financial plan.

(a) *General requirement.* A Project must be developed according to a Financial Plan which sets forth, in a format prescribed by the Secretary, the projected revenues and costs of the Developer, any community association as may be established pursuant to § 720.14(d), and each Subsidiary over the development period. The Financial Plan must demonstrate compliance with all of the criteria and standards of these Regulations and shall contain or provide for:

(1) An optimal financial strategy based upon consideration of alternative assumptions with regard to costs, market demand, interest rates and other factors critical to the Project;

(2) Projections of the sources and uses of cash for each year of the development period (based upon the planned development of the Project), projections of the financial position statements and statements of operations for short-term development and an analysis of the escrow funds and security requirements;

(3) Achievement of a break-even point or a positive cash surplus after all costs, debt and borrowings have been repaid and assurance that investments in the land will be recovered by the end of the development period;

(4) An appropriate allowance for contingencies;

(5) Separate financial projections for all community associations and Subsidiaries which demonstrate the ability of such entities to attain financial self-sufficiency, based upon the development of regular and recurrent revenue.

All assumptions of the Financial Plan shall be set forth with specificity and fully documented in a format prescribed by the Secretary.

(b) *Revenues.* Revenues shall include funds derived from land sales, and all other sources. Land sales revenues shall be reflected in a marketing schedule which is based upon the criteria and factors set forth in § 720.24. Projected land sales revenues may assume reasonable increases in property value due to population pressures and and growth of the Project. Revenues should reflect actual cash receipts expected in any given year based on actual and anticipated contracts of sale and financing arrangements. Other sources of revenues may include, but shall not be limited to, rebates from utility companies, sale of land not within the Project, income from the sale of timber, minerals and agricultural products, and rental income from the use of Project property.

(c) *Costs.* Costs shall include the estimated Actual Cost of Land Acquisition and Land Development. Costs of the Developer other than Actual Cost shall be identified as being for Non-Project Activities and must be specifically approved by the Secretary. The costs of Land Acquisition shall be based on the terms of actual purchase agreements and options as well as on reasonable terms of contracts for anticipated land purchases. Actual Cost of Land Development shall be supported by detailed engineering estimates or recent bid prices for comparable work in the area where the Project is located. Actual Cost shall also include the cost of providing those public facilities and municipal services normally funded by local government or otherwise which are consistent with the plan for development of the Project and which must be or are reasonably expected to be funded by the Developer, any community association, or any Subsidiary. The costs of such facilities and services shall be supported, among other things, by a projection of the total cost of providing such public facilities and services.

(d) *Determination of eligibility.* In those instances where the Developer has requested only a Determination of Eligibility, the determination that the Project is economically feasible will be based on an analysis of the Financial Plan which takes into consideration any financial resources or support to be provided. In such cases, the Financial Plan need not include the extensive documentation required for a loan guarantee. In lieu thereof, the Secretary will specify the type of documentation needed for each Project.

§ 720.26 Other financial review criteria.

The following other financial review criteria must be met.

(a) *Experience.* The Developer and its principals must be determined by the Secretary to have the experience appropriate to develop the Project based upon consideration of credit ratings, earnings history, previous and current lender and investor relationships and growth prospects of all other ventures sponsored by the Developer.

(b) *Borrowings.* The Developer shall demonstrate (1) its ability to obtain any necessary borrowings within the next two-year period, and (2) the extent to which it is likely to obtain any necessary borrowings beyond such two-year period.

(c) *Equity.* There shall be an equity contribution (including loans to the Developer that are subordinated, both as to principal and interest, to the Government guaranteed debt obligations) in an amount sufficient to assure Project liquidity and to assure that the Developer and its principals have sufficient financial incentive in the Project to complete it in accordance with the Development Plan. The amount of equity required in relation to the total amount of funds needed for development of the project shall be determined by the Secretary.

(d) *Agreement and compliance.* The Developer and other Persons shall, as

appropriate, comply with the provisions of § 720.27 through § 720.34.

(e) *Strategic risk factors.* The Secretary must be satisfied with certain strategic risk factors including, without limitation: Completeness of land assembly, competitive location of large parcels of land under single ownership or control; dependence of the Project on an interstate highway or other major public improvement that is not yet in place; the structure of local government; diversity and favorable recent history of local building industry; availability and interest of successful small residential developers; and availability of local sources or outlets of mortgage credit for homeowners.

(f) *Developer's statement of estimated disbursements.* Prior to the issuance of guaranteed debt obligation, the Secretary must approve the Developer's statement of estimated disbursements from the Escrow Account.

§ 720.27 Amount of Federal guarantee.

(a) *General formula and limitations.* The maximum outstanding indebtedness which may be guaranteed under the Act for any Project shall be:

(1) *Public developer.* In the case of a Public Developer, an amount not exceeding 100 percent of the sum of the Secretary's estimate of the value of the real property before development and the estimated Actual Cost of the Land Development, or

(2) *Private developer.* In the case of a Private Developer, an amount not exceeding the sum of 80 percent of the Secretary's estimate of the value of the real property before development and 90 percent of the estimated Actual Cost of the Land Development. In no event shall the principal amount of the outstanding debt obligations guaranteed under the Act with respect to a single Project exceed $50 million. No debt obligation of any Public Developer shall be guaranteed under the Act if the income from such obligation is exempt from Federal taxation.

(b) *Future transactions.* The value of land which is yet to be acquired and Actual Costs of Land Development which are yet to be incurred at the time an offer of commitment is made may be included as a basis for determining the maximum commitment.

(c) *Prior transactions.* To assist the Secretary in the determination of the value of the real property before development, the Developer shall notify the Secretary of all transactions involved in the determination of the amount of debt obligations to be guaranteed which would otherwise be classified as a transaction with an Interested Person as defined in § 740.32(m).

§ 720.28 Debt obligations.

(a) *Kind of obligations.* The debt obligations guaranteed under the Act may include any bond, debenture, or other obligation issued by a Developer for public or private sale.

(b) *Use of Federal Financing Bank.* The debt obligations guaranteed shall be sold to the Federal Financing Bank unless another disposition is approved by the Secretary.

(c) *Terms of guaranteed debt obligations.* Rates of interest and any other charges relating to guaranteed debt obligations, and the repayment, maturity, and redemption privilege provisions of such obligations shall be approved by the Secretary.

§ 720.29 Security for the guarantee.

(a) *General requirements.* All obligations guaranteed under the Act must contain, or be issued subject to, such provisions relating to the security interests of the United States as may be required by the Secretary. These shall include general provisions under which the United States acquires rights of subrogation and such special provisions relating to the security of the United States in the specific property, including real property being acquired and developed or other property satisfactory to the Secretary. The value of the real property which is security, plus other elements of security, shall at all times equal or exceed a prescribed percentage of the principal amount of outstanding guaranteed debt obligations.

(b) *First lien on real property.* Unless otherwise approved by the Secretary, the security of the United States shall include a first lien on the real property of the Developer. Such lien shall constitute security for the sole benefit of the Secretary. Upon or before the issuance of obligations guaranteed under the Act, the lien shall be created in favor of the Secretary and/or the Trustee. The Indenture and any other instruments creating such lien must be satisfactory to the Secretary.

(c) *Release of real property.* The Indenture shall include provisions for the release of real property from the lien as such property is sold or otherwise disposed of for Project purposes in accordance with such schedules and procedures as the Secretary may require to assure that upon the sale or other disposition of such property (1) adequate release payments will be applied to the redemption of the guaranteed debt obligations or paid into an appropriate fund, or (2) other appropriate action will be taken or assurances received as may be required to protect the security interests of the United States.

(d) *Real property valuation.* The real property in security shall be valued initially and may be revalued periodically as required by the Secretary. During the period between the initial valuation and any revaluations, the security value of the real property is assumed to increase by the amount of certain Actual Costs of Land Acquisition and Land Development certified to the Secretary as set forth in § 720.30(c). Prior to the initial valuation and each revaluation the Secretary shall undertake or commission an appraisal. An independent appraisal may also be furnished by the Developer at an appropriate time, as determined by the Secretary. Appraisals, regardless of source, are subject to review, modification, and acceptance by the Secretary.

(1) *Initial valuation.* An initial valuation of the real property which is security shall be made upon the first issuance of the guaranteed debt obligations. Appraisals must be prepared in strict accordance with the latest instructions issued by the Secretary. If the Secretary finds that any factor (including zoning), which has been included in the value estimated by the appraiser has been influenced by the expectation of the Federal guarantee of debt obligations, the Secretary will adjust such value estimate to exclude such influence.

(2) *Revaluations.* Revaluation of real property which is security shall be based on the Secretary's review of appraisals prepared in accordance with the latest instructions issued by the Secretary.

(e) *Personal property.* Personal property constituting security shall consist of the Escrow Account and any other personal property acceptable to the Secretary.

§ 720.30 Escrow account.

(a) *Administration.* The Escrow Account shall be held and administered by the Trustee as security for the sole benefit of the United States. Funds in the Escrow Account may be invested by the Trustee as provided in the Project Documents.

(b) *Maximum disbursement amounts.* (1) *Initial issuance.* Upon the initial issuance of the guaranteed debt obligations the amount approved for disbursement shall be 80 percent of the Secretary's valuation of the real property (less the value of any permitted encumbrances) subject to the lien of the Indenture and approved Actual Costs as determined by the Secretary.

(2) *Subsequent to initial issuance.* Subsequent to the initial issuance of guaranteed debt obligations for Projects approved under the Act, the amount endorsed shall be 80 percent of the Actual Cost of Land Acquisition and 90 percent of the Actual Cost of Land Development. For Projects approved under the New Communities Act of 1968, the amount endorsed shall be 75 percent of the Actual Cost of Land Acquisition and 90 percent of the Actual Cost of Land Development. Subject to paragraphs (c) and (d) of this section the Trustee shall, upon request of the Developer, disburse the amounts so endorsed to the Developer.

(c) *Disbursement procedures.* In order to obtain the release of funds in the Escrow Account the Developer shall certify to the Secretary, in a form satisfactory to him, Actual Cost incurred subsequent to the initial issuance of the guaranteed debt obligations and shall submit with such certification such supporting documentation as the Secretary may require to assure that such costs have actually been incurred and are eligible for endorsement. The Secretary shall review such certifications and, if he determines that such costs (or a portion thereof) have actually been incurred and are eligible for assistance under the Act, shall furnish an endorsement in whole or in part to the Developer.

V 41 166
AUG 25 76
UMI

(d) *Limitation on disbursements.* Without the prior written consent of the Secretary, no funds may be disbursed by the Trustee unless the Developer presents its certificate stating that no default exists under the Project Documents. Further limitations on disbursements shall be set forth in the Project Documents. Such limitations shall relate, but not be limited to: the progress of work completed, the maintenance by the Developer of required levels of equity and working capital, the possibility of overruns or unanticipated costs, the extent to which allowable land values exceed costs, or the amount of excess security available, and such other factors as the Secretary may deem relevant.

§ 720.31 Terms of guarantee.

(a) *Nature and scope.* The full faith and credit of the United States is pledged to the payment of all guarantees made under the Act with respect to principal, interest, and any redemption premiums. The guarantee extends to interest accruing between the date of default under a guaranteed debt obligation and the payment in full of the amount in respect of which the default occurred. Any such guarantee made by the Secretary shall be conclusive evidence of eligibility of the debt obligations for such guarantee, and the validity of any guarantee so made shall be incontestable in the hands of a holder of the guaranteed debt obligation.

(b) *Claims and payment upon default.* Upon default by a Developer in payment of interest or premium on, or principal of, a debt obligation guaranteed under the Act, the first recourse of the holder shall be a claim under the guarantee for payment of defaulted interest, premium, or principal. Upon payment thereof in accordance with the terms of such guarantee, the holder shall have no further recourse. All payments thereunder shall be made in cash from the Revolving Fund.

§ 720.32 Other financial standards.

The Developer shall comply with the following financial standards except as otherwise approved by the Secretary. For the purpose of this section, "the Developer" shall be deemed to include any Restricted Affiliate. The Developer shall comply with the following standards:

(a) *Financial tests.* The Developer shall comply with financial tests designed by the Secretary for the purpose of assuring the Developer's ability to meet its liabilities.

(b) *Maintenance of good standing and properties.* The Developer and any Subsidiary shall maintain its legal existence, pay all taxes, assessments and governmental charges and all claims for labor, materials and supplies which might result in property encumbrance, maintain its properties in good repair, and service and preserve prior security interests on property which is security for the Secretary's guarantee.

(c) *Insurance.* The Developer shall maintain insurance coverage in form and amount satisfactory to the Secretary.

(d) *Condemnation.* In the event that any property subject to the lien of the Indenture be taken by eminent domain, any award for the property so taken shall be paid to the Trustee to be held as security for the guarantee.

(e) *Non-project activities.* The Developer shall not engage in Non-Project Activities.

(f) *Limitation on debt.* The Developer shall not create, incur, assume, or suffer to exist any debt other than: Debt evidenced by the guaranteed debt obligations; debt subject to an agreement subordinating such debt to both principal and interest on the Government-guaranteed debt obligations; debt, if any, secured by permitted encumbrances; and other debt specifically permitted in writing by the Secretary.

(g) *Sale or acquisition of assets; merger.* The Developer shall not enter into any merger or consolidation or acquire all or substantially all the assets of any Person, or sell, lease or otherwise dispose of any substantial portion of its assets except in the ordinary course of business.

(h) *Extension of credit.* The Developer shall not lend to any Person except as provided in the Project Documents.

(i) *Investments of developer.* The Developer shall not purchase, acquire or hold obligations or stock of, or any interest in, any Person other than as provided in the Project Documents.

(j) *Sale and leaseback.* The Developer shall not directly or indirectly enter into any arrangements whereby the Developer shall sell or transfer any part of its assets and thereupon, or within one year thereafter, lease the assets so sold or transferred.

(k) *Leases.* The Developer shall not enter into any lease of real property except as provided in the Project Documents.

(l) *Change in form or control.* No sale, transfer, pledge or other disposition of the stock or other equity which directly or indirectly represents ownership or control of any interest in a Developer or Subsidiary shall be made without the written approval of the Secretary.

(m) *Transactions with interested persons.* The Developer shall not enter into any transaction directly or indirectly involving the transfer of money or other items of value with any "Interested Person," except as authorized in writing by the Secretary. "Interested Person" means any:

(1) Person who is a limited or general partner of the Developer;

(2) Person who is an officer or director of (i) the Developer or (ii) a limited or general partner of the Developer;

(3) Stockholder of the Developer;

(4) Person owning or controlling any interest in the profits or voting rights of the Developer;

(5) Person directly or indirectly owning or controlling a 3.5 percent or greater interest in any Person described in paragraphs (m) (1) through (4) of this section, but excluding stockholders of an entity which directly or indirectly owns the Developer, and whose stock is publicly traded, as to whom the Project Documents' definition of Interested Person shall apply;

(6) Person of which a 10 percent or greater interest in profits or voting rights is directly or indirectly owned or controlled by a Person described in paragraphs (m) (1) through (4) this section or by the Developer;

(7) Person owning or having an interest in subordinated debt of the Developer.

For the purposes of this definition, any direct or indirect ownership or control held by a Person's spouse or by any parent, child, grandchild, brother or sister of such Person or such Person's spouse shall be attributed to such Person.

(n) *Reimbursement of payments under guarantees; interest on delinquent payments.* Immediately upon the payment by the United States of any amount under any guarantee, the Developer shall pay to the Secretary the amount of such guarantee payment, with interest at the rate borne by the guaranteed debt obligations with respect to which such payment has been made from the date of such guarantee payment until reimbursement thereof to the Secretary in full. The Developer shall pay to the Secretary on demand the amount of any overdue annual fee (as specified in § 720.91(e) due the Secretary, with interest at the highest rate borne by any of the underlying debt obligations from the due date until repayment in full.

(o) *Accounting systems and records.* The Developer shall keep and shall cause each Subsidiary to keep true and complete books of records and accounts satisfactory to the Secretary. The Developer and each Subsidiary shall maintain an accounting system which shall include complete books of original entry supported by adequately detailed journals and underlying source documents maintained in accordance with sound management practices. The accounting system shall also include a system of internal accounting controls satisfactory to the Secretary. The Developer and each Subsidiary shall use the same fiscal year.

(p) *Financial reporting and monitoring.* The Developer shall submit to the Secretary, in accordance with a schedule and in a format prescribed by the Secretary, operating and budget plans, financial reports and financial statements that show the financial performance and financial condition of the Developer, each Subsidiary, and each community association. The Developer shall submit annually financial statements that have been audited by an independent public accountant who has been approved by the Secretary.

(q) *Agreement of restricted affiliates.* The Developer shall cause each Restricted Affiliate to agree to financial, record, and other covenants satisfactory to the Secretary.

§ 720.33 Accounting standards and audit.

(a) *Financial statement standards.* All financial statements and financial test calculations shall be prepared in accordance with generally accepted accounting principles, and examinations required shall be conducted in accordance with generally accepted auditing standards. The terms "generally accepted accounting principles" and "generally accepted auditing standards" refer to the principles, standards, methods, and practices of accounting and auditing sanctioned by the American Institute of Certified Public Accountants, the Financial Accounting Standards Board or any successor thereof, as evidenced in its Statement of Auditing Standards and Opinion, bulletins, and circulars published periodically by it or by authoritative bodies designated by it, and applied on a consistent basis. The form, frequency, and scope of the financial statements and reports shall conform to the requirements of the Secretary.

(b) *Auditing by the government.* Upon request, all records and all agreements relevant thereto shall be made available for examination by the Secretary. Insofar as such records and agreements relate to any grants, loans, or guarantees from the Government, the financial transactions may also be audited by the General Accounting Office (GAO under rules and regulations issued by the Comptroller General of the United States. The Secretary and representatives of the Secretary and GAO shall have access to all books, accounts, records, files, and all other papers, materials, or property belonging to or in use by such recipients of Federal assistance which pertain to such financial transactions and are necessary to facilitate the audit. Such documents shall be retained by recipients of Federal assistance for audit purposes until the Secretary notifies such recipients in writing that they are no longer required.

§ 720.34 Other requirements.

(a) *Labor standards.* (1) All laborers and mechanics employed by the Developer or by contractors or subcontractors in Land Development assisted under this Part shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with Davis-Bacon Act, as amended (40 U.S.C. 276a et seq.) and as it may be amended from time to time. No assistance shall be extended under this part for any Project without first obtaining adequate assurance that these labor standards will be maintained upon the construction work involved in Land Development within the Project. The Secretary of Labor shall have, with respect to the labor standards specified in this paragraph, the authority and functions set forth in Reorganization Plan No. 14 of 1950 (5 U.S.C. p. 242) and 40 U.S.C. 276c. Proceeds of debt obligations guaranteed under this Part may not be disbursed to a Developer with respect to Land Development construction unless these labor standards have been complied with to the satisfaction of the Secretary.

(2) All construction contracts and subcontracts for Land Development assisted under this part shall contain labor standards clauses in furtherance of the Act and of the applicable regulations of the Secretary of Labor as they may be amended from time to time. The Developer shall comply with the provisions of said labor standards clauses. The regulations of the Secretary and the Secretary of Labor with respect to ineligible contractors shall be observed by the Developer. The Developer shall furnish such certification for filing as necessary to assure compliance with the provisions of said labor standards clauses, be filed as necessary to assure compliance with the provisions of said labor standards clauses.

(b) *Small builders.* The Developer shall, in a manner satisfactory to the Secretary, encourage and help maintain a diversified, local homebuilding industry by making an adequate supply of building sites available to local and small builders and contractors at competitive prices and terms.

(c) *Work safety and health standards.* No laborer or mechanic employed by the Developer or by contractors or subcontractors in Land Development assisted under this part shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health or safety as determined under construction safety and health standards promulgated by the Secretary of Labor by regulation pursuant to Section 107 of the Contract Work Hours and Safety Standards Act (52 U.S.C. 333).

(d) *Ineligible contractors.* No contract shall be entered into with a contractor or subcontractor where the name of such contractor or subcontractor or their affiliate's name appears on the Consolidated List of Debarred, Suspended and Ineligible Contractors and Grantees established by the Secretary pursuant to the regulations contained in 24 CFR, Chapter 1. Part 24. Proceeds of debt obligations guaranteed under this Part may not be disbursed to a Developer with respect to Land Development performed by a contractor or subcontractor whose name or whose affiliate's name appears on such list.

(e) *Interstate land sales.* The Developer shall comply with the regulations issued by the Office of Interstate Land Sales (24 CFR, Chapter IX).

(f) *Relocation.* When relocation of eixsting residents and businesses during the course of the development of a Project becomes necessary, the relocation program shall be carried out in accordance with the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1899; 42 U.S.C. 4601 et seq.), and other applicable Federal, State and local laws and regulations.

(g) *Regulation of utilities.* Utilities or other public facilities which are established to provide services to a Project and which are operated by a non-public body, shall be regulated as to rates and charges, capital structure, rate of return, and methods of operation by a public body or by other means satisfactory to the Secretary.

Subpart C—Procedures for Application, Commitment and Project Agreement

§ 720.50 Applicability of this Subpart.

This Subpart describes the procedures for applying for initial guarantee assistance, a Determination of Eligibility, and additional guarantee assistance.

§ 720.51 Inquiry.

After acquainting themselves with the Act and the Regulations, prospective applicants for an initial guarantee or a Determination of Eligibility are encouraged to meet with the General Manager or his designated representatives to discuss their proposals and obtain an understanding of the goals and requirements of the program.

§ 720.52 Pre-application.

(a) *Purpose.* The pre-application procedures for initial guarantee assistance and for a Determination of Eligibility under the Act are designed to provide an initial screening, prior to submission of detailed plans by the Developer. This will permit an initial determination as to whether the Developer and the selected site have the potential to comply with the requirements of the Act, these Regulations and other policies and priorities of the Secretary and the Board. It will also provide an opportunity to work with the Developer from the earliest stages of Project planning.

(b) *Submission.* The first formal step by an applicant seeking assistance under the Act, is the submission of a pre-application to the General Manager, New Community Development Corporation, U.S. Department of Housing and Urban Development, Washington, D.C. 20410. The pre-application should deal in summary form with the criteria for Project evaluation set forth in Subpart B of this Part and should contain evidence that initial notice has been submitted (in accordance with § 720.53) to each appropriate clearinghouse for review and comment.

(c) *Review and action.* The General Manager, upon completion of his review of each pre-application, shall inform the applicant in writing of his findings and:

(1) State his willingness to accept a full application where the pre-application appears to meet and be consistent with the program criteria and priorities mentioned above;

(2) Discourage an application, listing the reasons therefore, where the proposal does not appear to be consistent with program criteria and priorities; or

(3) Require the resolution of certain problems and issues before proceeding with an application.

(d) *Significance of action.* Acceptance of or indication of willingness to accept an application does not constitute or imply an assurance of eventual approval of such an application.

(e) *Resubmission.* If the applicant is not encouraged to submit an application, but nevertheless believes that the Project may qualify under the Act, he may resubmit the pre-application for further

V 41 166
AUG 25 76
UMI

review with such changes as, in his opinion, will overcome the initial objections of the General Manager.

§ 720.53 Compliance with OMB Circular A–95.

(a) *Applicability and purpose.* The provision of initial guarantee assistance under the Act is subject to compliance with the provisions of Attachment A, Part I of Circular A–95 issued by the Office of Management nad Budget (41 FR 2052).

(1) A major purpose of the Circular is to secure the assistance of State and areawide planning and development clearinghouses in the coordination of proposals for Federally assisted projects and programs with State, areawide and local planning for orderly growth and development.

(2) To achieve this objective, the Circular establishes a system for review and comment by appropriate State, regional and local agencies of Projects for which Federal assistance is sought and for adequate consideration of such comments by the applicant prior to submission of an application and by the concerned Federal agency prior to taking action on such application.

(b) *General procedures.* Detailed instructions for compliance will be provided at the time of inquiry (§ 720.51). In general, the following procedures shall be adhered to with respect to Projects for which assistance is sought under the Act.

(1) *Notification.* (i) At the earliest possible time, but no later than the submission of the pre-application (§ 720.52) to the General Manager, the applicant is required to provide notification (including a summary description of the Project as specified in Circular A–95) of intent to apply for assistance under the Act to the clearinghouse of the State and, if one exists, of the region in which the Project is to be located. Each clearinghouse under Circular A–95 has up to 30 days after receipt of the notification to transmit to the applicant any comments or recommendations which it or its constituent agencies may have with respect to the Project.

(ii) The applicant shall forward copies of any communications received from each clearinghouse, together with a summary of the nature and status of oral consultations, if any, with each clearinghouse, to the General Manager. No final action on a pre-application proposal shall be taken until the General Manager has received either (A) copies of all written communications and a summary of all oral communications with each clearinghouse following the notification or (B) a statement from the applicant that at least 30 days have elapsed since the filing of notification with each appropriate clearinghouse and that no response therefrom has been received.

(2) *Application review and comment.* (i) Before submission to the General Manager, the applicant shall send a copy of the proposed application to each clearinghouse for review and comment. Each clearinghouse under Circular A–95 has up to 30 days after receipt in which to review the completed application and to transmit to the applicant any comment or recommendations the clearinghouse or its constituent agencies may have. The applicant shall give appropriate consideration to such comments and recommendations, including such modification of the application as may, in the applicant's judgment, be appropriate. If substantive changes in the application are made at this point, the revised proposed application shall be submitted to each clearinghouse for further review and comment.

(ii) Copies of any comments and recommendations made by or through each clearinghouse, together with a statement that such comments have been considered, shall be appended to the application submitted to the General Manager (§ 720.54). No application shall be processed by the General Manager unless it contains either (A) materials described in paragraph (b) (i) of this section above or (B) a statement from the applicant that the procedures outlined in this section have been followed and that no comments or recommendations have been received from the appropriate clearinghouses.

(c) *Other procedural requirements.* (1) Any substantial amendment to an application made after submission to the General Manager will, at the applicant's initiative or at the request of the General Manager, be sent by the applicant to each clearinghouse for review and comment. In such a case, the procedures set forth in paragraph (b) (2) of this section shall be followed.

(2) An application for additional guarantee assistance may, at the determination of the General Manager, require compliance with the procedures as outlined in paragraph (b) of this section.

(3) Any request for modification of the procedures set forth in this section shall be submitted in writing to the General Manager.

§ 720.54 Application for assistance.

An application for initial guarantee assistance (see § 720.59 concerning additional guarantee assistance) or for a Determination of Eligibility may be submitted to the General Manager following submission and review of pre-applications pursuant to § 720.52 and upon payment of the application charge specified in § 720.91(a). The application shall contain information, supporting documentation and analysis adequate to enable the Secretary, acting through the Corporation, to make a determination as to whether or not the Developer and the proposed Project meet the requirements of the Act, of these Regulations, and other policies of the Secretary and the Corporation. Applications shall be in a format specified in instructions issued by the General Manager and may be submitted in stages or parts so that basic obstacles to Project approval can be identified early in the application process.

§ 720.55 Compliance with National Environmental Policy Act.

(a) *Applicability and purpose.* Assistance under the Act is subject to compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) (NEPA) and with issuances implementing NEPA which have been promulgated by the Council on Environmental Quality (CEQ), (40 CFR Part 1500) and by HUD (HUD Handbook 1390.1, as amended; 38 FR 19182, 39 FR 38922; 41 FR 23878). The purpose of this section is to indicate to applicants and others the effect of such compliance by the Secretary upon the procedures and timing for processing and taking action on applications for assistance under the Act. Interested individuals should consult the above-cited issuances for detailed policies and procedures.

(b) *General procedures for Compliance.* (1) *Draft environmental impact statement.* (i) *Preparation.* Based upon an analysis of the application submitted in accordance with § 720.54 and such other information as may be needed for this purpose, the General Manager shall prepare a draft environmental impact statement addressing the issues set forth in section 102(2)(c) of NEPA (42 U.S.C. 4332(c)) and in accordance with applicable policies, guidelines and procedures pursuant thereto. Normally draft statements will be prepared within 60 days after receipt by the General Manager of a complete application. Such time period is, however, subject to adjustment depending on the complexity of the Project, the existence of unusual environmental issues, and the adequacy of the information included in the application.

(ii) *Circulation.* After internal clearance within the Department in accordance with HUD regulations (normally up to 30 days), the draft statement will be circulated for review and comment to relevant Federal, State, and local agencies and made available to the public. The period for comment is 45 days subject to extensions of up to 15 additional days, if necessary, upon request to HUD.

(2) *Final environmental impact statement.* Based upon consideration of the comments on the draft statement and such other analyses as may have been performed, the General Manager shall prepare a final environmental impact statement. The final statement shall include a discussion of problems and objections, if any, raised by reviewing agencies and the public and a statement of the disposition of issues involved. The final statement, together with comments, shall be filed with the CEQ, sent to appropriate agencies, and made available to the public. The period for comment on the final statement is 30 days from the date of filing with the CEQ.

(3) *Offer of commitment.* For purposes of compliance with NEPA and CEQ guidelines, the "major Federal action significantly affecting the quality of the human environment" is the offer of commitment as described in § 720.56. In accordance with applicable regulations, no offer of commitment shall be made sooner than 90 days after a draft statement has been circulated, nor sooner than 30 days after the final statement has been filed with the CEQ, sent to appropriate agencies, and made available to the public.

(c) *Exceptions to compliance procedures.* Exceptions to the above procedures are permitted, under unusual circumstances, by the CEQ guidelines. Circumstances which might warrant such an exception should be brought to the attention of the General Manager by the applicant as soon as possible.

(d) *Issuance of environmental impact statement during project execution.* Any proposed change in the Development Plan of an approved Project which, in the determination of the Secretary, would constitute a "major Federal action significantly affecting the quality of the human environment" shall require circulation of an environmental impact statement. No approval of such a change shall be made until after full compliance with the review procedures of NEPA and CEQ guidelines.

§ 720.56 Commitment.

(a) *Review and action.* After review of the complete application, the Secretary shall either issue an offer of commitment, require changes in the application before an offer of commitment can be issued, or deny the application.

(b) *Offer of commitment.* (1) If the General Manager's determination referred to in § 720.54 is favorable to the applicant, the Secretary (acting through the Corporation) may address a letter to the applicant stating, in effect, that based upon the information contained in the applicant's preapplication and application and any other information which may have been reviewed by the Secretary, the Secretary is prepared to enter into a Project Agreement regarding (i) a Determination of Eligibility, or (ii) the guarantee of a specified maximum principal amount of debt obligations to be issued by the Developer. Such offer shall be subject to approval by the Secretary of:

(2) The initial investors (in the case of a private sale of such obligations) or the terms and conditions of the underwriting (in the case of a public sale of such obligations) if the debt obligations are not sold to the Federal Financing Bank (§ 720.28(b));

(3) The rate of interest to be borne by such obligations or the formula by which such rate shall be determined if such obligations are not purchased by the Federal Financing Bank;

(4) The repayment and maturity provisions of such obligations;

(5) The specific measures for the protection of the security interests of the United States, and release of liens, and payment of taxes;

(6) All other terms and conditions of the financing arrangements which affect the interests of the United States; and

(7) Such further conditions as the Secretary may prescribe.

(c) *Acceptance of offer of commitment.* The offer of commitment shall expire 120 days after the issuance thereof unless accepted by the applicant during such period by payment of the commitment charge specified in § 720.91(b) and by meeting such conditions to acceptance as the Secretary may impose. The Secretary may in his discretion extend the expiration date of the offer of commitment. Within 120 days after the expiration of such offer of commitment, the applicant may request in writing to the Secretary accompanied by tender of the commitment charge and the reopening charge as specified in § 720.91 (b) and (c), that the offer be reopened. If the Secretary in his discretion approves such a request, the offer may be accepted by the applicant. An accepted offer of commitment shall remain effective as a commitment to enter into a Project Agreement pursuant to § 720.57 for six (6) months, at which time the commitment shall expire unless the applicant has taken all steps that the Secretary determines to be required under this Part as a prerequisite to the execution of such Project Agreement or unless such six (6) month period is extended at the discretion of the Secretary.

§ 720.57 Project agreement and other agreements.

(a) *Project Agreement.* Following acceptance of the offer of commitment by the applicant (§ 720.56(c)), and before or simultaneously with the making of any guarantee or Determination of Eligibility, the Developer shall be required to enter into a Project Agreement satisfactory to the Secretary. The Project Agreement shall set forth the understandings or the Secretary and the Developer with respect to implementation of the entire Project during the development period. The Project Agreement shall also set forth the Developer's agreement to carry out the Project in accordance with application documents and other information and plans, as approved or deemed relevant by the Secretary, and the Secretary, and the Secretary's agreement to guarantee debt obligations of the Developer issue pursuant to those plans, subject to the limitations set forth in the Act, these Regulations and the Project Agreement. The Project Agreement (or a related agreement) shall further include:

(1) An express covenant to the effect that the United States' interest in the Project is not limited to its financial interest, but extends to accomplishment of the public purposes of the Act;

(2) A Development Plan setting forth the objectives, plans and undertakings of the Developer over specific time periods to assure the Secretary of compliance with the purposes of the Act and with these Regulations as they may be amended during the development period and to protect the Secretary's financial interest as guarantor of the debt obligations;

(3) Provisions setting forth the duties and responsibilities of the Developer with respect to parts or portions of the Project which will not be carried out by the Developer;

(4) Provisions governing the security to be provided to the United States;

(5) Provisions setting forth the rights and remedies of the United States in the event of default, including rights to seek injunctive or other equitable relief;

(6) Special provisions as necessary to assure compliance with environmental, equal opportunity, relocation, historic preservation, barrier-free, labor standards, and other particular requirements;

(7) Duties of the Developer to provide information, data, and reports as required by the Secretary; maintain adequate books and records; and permit and provide as necessary for inspections and on-site examinations by or on behalf of the Secretary; and

(8) Such other provisions as the Secretary may require as necessary or appropriate to assure adherence to the Project as approved to the provisions of the Act or of these Regulations, or to protect the United States against loss.

(b) *Other agreements.* The Developer, and such other parties as the Secretary shall designate, shall execute, simultaneously with the Project Agreement, an Indenture, and such other documents all of which shall be satisfactory to the Secretary.

§ 720.58 Issuance of guaranteed obligations.

Pursuant to the Project Agreement (§ 720.57) and upon satisfaction of the conditions specified in such Agreement, the Secretary shall endorse his guarantee upon debt obligations duly issued by the Developer pursuant to a purchase or underwriting agreement approved by the Secretary. The guarantee fee specified in § 720.91(d) shall be paid at the time any guarantee is made, subject to waiver in whole or in part, at the discretion of the Secretary, in the case of debt obligations issued by a Public Developer with respect to which the Secretary determines that the interests of the United States are protected by appropriate recourse to, or other arrangements with, State or local governments.

§ 720.59 Additional guarantee assistance.

(a) *Applications.* Developers whose debt obligations have been guaranteed under the Act in an amount less than the statutory maximum of $50,000,000 per project, may submit to the General Manager an application for additional guarantee assistance, subject to this maximum. The application shall be prepared in accordance with instructions of the General Manager who shall commence review of such application upon receipt of the application charge specified in § 720.91(a). The application shall contain sufficient information, supporting documentation, and analysis to enable the Secretary, acting through the Corporation, to make a determination as to whether or not the Developer and the Project meet the requirements of the Act, these Regulations, and other policies of the Secretary and the Corporation. Applications shall be in a form specified in instructions issued by the General Manager and may be submitted in stages or parts so that basic obstacles to issuance of an offer of commitment can be identified early in the application process.

(b) *Additional information.* In addition to consideration of the application, the Secretary, acting through the Cor-

V 41 166
AUG 25 76
UMI

poration, may base his determination of whether to provide additional guarantee assistance on:

(1) A revaluation of the security;

(2) The results of one or more market studies commissioned or undertaken by the Secretary;

(3) An audit report on the Project prepared by an independent certified public accountant under instructions approved by the Secretary; and

(4)Such other information, reports and analyses as the Secretary may deem appropriate.

(c) *Processing requirements.* The provisions of §§ 720.53(b), 720.55(d), 720.56 and 720.57 shall be applicable to the processing of applications for additional guarantee assistance.

§ 720.60 Projects initiated under the New Communities Act of 1968.

A Developer to whom a commitment of guarantee assistance has been offered under the New Communities Act of 1968 (42 U.S.C. 3901 et seq.) may elect, as to any outstanding portion of such commitment, to proceed under the Act and this Part or to proceed under the New Communities Act of 1968 and the regulations issued thereunder. If the Developer elects to proceed under the Act, it may do so only after the Secretary has determined that the Developer and the Project have satisfied all requirements of the Act and have met the standards and criteria of these Regulations. All preapplication proposals, applications, and materials in support thereof, submitted in respect of Projects for which no commitment has been offered under the New Communities Act of 1958, shall be deemed submitted under the Act and this Part.

Subpart D—Project Execution and Monitoring

§ 720.70 Applicability of this Subpart.

This Subpart is applicable to the monitoring of Projects which have received a guarantee or a Determination of Eligibility.

§ 720.71 Purpose.

Among the purposes of Project monitoring and evaluation are the following:

(a) To protect the security interests of the United States.

(b) To facilitate the measurement and evaluation of the progress of each Project throughout the development period in compliance with the objectives and requirements of the Act, the Regulations and the Project Documents.

(c) To provide the Secretary with the opportunity to take appropriate and timely action to resolve Project problems and to assist the Developer.

(d) To facilitate the retrieval and assembly of relevant data, statistics and information in a uniform format for the purpose of:

(1) Analyzing Project problems and experiences;

(2) Evaluating program effectiveness with respect to overall new community program goals and in conjunction with national urban growth policy;

(3) Making comparisons among Projects; and

(4) Developing basic educational and training materials for Developers, institutions and others interested and involved in new community development.

(e) To encourage evaluation and monitoring of the Project by the Developer, independent of Federal requirements, pursuant to sound management practices.

§ 720.72 Inspection.

The Secretary shall be afforded access to the Project site and to the records of the Developer and Subsidiaries at all reasonable times for purposes of inspection and monitoring of Project development.

§ 720.73 Reporting requirements.

(a) *General requirement.* To ensure that the Project is being executed in a manner consistent with the objectives of the Act and as provided in the Project Documents, the Developer shall be required to submit periodic financial and non-financial reports and projections on Project execution.

(b) *Financial reports.* Financial reports shal be prepared and submitted according to requirements of § 720.32(p) except that Projects receiving a Determination of Eligibility shall follow these requirements as adapted by the Secretary to the organizational and financial structure of the Developer and described in Project Documents.

(c) *Non-financial reports.* Non-financial reports; consisting of statistical and narrative information in a format specified by the Secretary, will be prepared and submitted as set forth in the Project Documents.

(d) *Other reports.* Other reports and studies specifically required by the Secretary are identified in Project Documents. In addition, the Developer shall furnish to the Secretary any reports or analyses reviewing or evaluating any aspect of the Project undertaken by, for or on behalf of the Developer, any Federal, State or Local Public Body or any other Person as well as such other information with respect to the Project as the Secretary may from time to time request.

(e) *Special notification requirements.* The Developer shall ascertain and give immediate notice to the Secretary of any facts or conditions which may adversely and substantially affect or impede the implementation of the Project, including: (1) Notice of litigation affecting (i) the status or powers of, or ownership interests in the Developer or any Restricted Affiliate, (ii) outstanding debt obligations, (iii) Project property or (iv) Project requirements; (2) changes in laws, ordinances or official plans related to the Project; (3) major damage to Project property; (4) work stoppages for longer than five business days on any part of the Project; (5) defaults on contracts or sub-contracts covering Project activities and (6) changes in financial condition of any shareholder, principal or partner of the Developer.

§ 720.74 Internal monitoring and evaluation.

(a) *Internal reporting and monitoring.* The Developer shall develop an internal reporting and monitoring system to meet its own management needs which is compatible with requirements and guidelines established by the Secretary.

(b) *Developer's evaluation.* The Developer shall undertake evaluation as an integral part of its monitoring activities in order to provide a continuing assessment of performance and development progress measured against approved goals and projections.

(c) *Secretary's evaluation.* The Secretary may contract with outside experts, undertake field surveys, and make use of other Federal agencies for evaluation of approved Projects.

§ 720.75 Amendments and waivers.

Development Plans, financial requirements and all other terms and conditions in the Project Agreement, Indenture and other Project Documents that do not specifically require the consent of all or a portion of the holders of the guaranteed debt obligations that were initially approved by the Secretary, may be amended or waived. All proposals by the Developer for amendments or waivers shall be submitted to the Secretary for approval. The Secretary may recommend or require such amendments, modifications or waivers as he shall deem necessary or desirable to ensure the financial viability of the Project, to protect the security interests of the United States or to otherwise preserve his ability to carry out the purposes of the Act.

§ 720.76 Remedies of the Secretary.

(a) *General.* The Secretary shall have the remedies set forth in the Project Documents, together with such other remedies as are available at law or equity.

(b) *Foreclosure.* (1) When an event occurs which, under the Project Documents, entitles the Secretary or the Trustee to foreclose against any of the real property subject to the lien of the Indenture, the Secretary or the Trustee may foreclose in full or in part, in either case regardless of whether acceleration of maturity of any outstanding guaranteed debt obligations has occurred.

(2) The Secretary shall have no obligation to accelerate the maturity of any guaranteed debt obligations regardless of the amount realized from foreclosure.

(c) *Extinguishment.* (1) The authority to extinguish granted to the Secretary under 42 U.S.C. 4527(3) and under the Project Documents may be exercised by the Secretary to extinguish rights and equities of redemption.

(2) No compensation shall be payable to any party on account of the extinguishment of any of such party's rights.

(d) *Deed in lieu of foreclosure.* The Secretary may accept a deed-in-lieu of foreclosure upon terms and conditions satisfactory to him.

Subpart E—Other Assistance

§ 720.80 Applicability of this Subpart.

This Subpart applies to assistance, other than guarantee assistacne, available under the Act and other provisions of law to assist in carrying out Projects for which guarantee assistance has been provided under the Act or for which a Determination of Eligibility has been made.

§ 720.81 Multiple forms of assistance.

The award of any form of assistance provided under this Subpart shall not in itself exclude the availability of any other form of assistance under this Subpart. The availability of any form of assistance under this Subpart is not conditioned upon action taken with respect to any other form of assistance under this Subpart.

§ 720.82 Supplementary grants.

Following are the general requirements and procedures applicable to Supplementary Grants for Public Facilities as described in § 720.1(b)(2).

(a) *Application for basic grant.* The first step in applying for a supplementary grant is the submission of an application for a grant (referred to herein as the "basic grant") under one of the statutory authorities cited in § 720.1(b)(2)(i). Such application and the subsequent processing and approval thereof must be in accordance with the requirements of the Federal agency responsible for the administration of the basic grant program. No application for a supplementary grant shall be accepted by the General Manager unless an application for the corresponding basic grant has been made.

(b) *Application for supplementary grant.* An application for a supplementary grant, in a form prescribed by the General Manager, shall only be made to the General Manager at or subsequent to the time an application for the corresponding basic grant is made. A copy of the application for the basic grant shall accompany the application for the supplementary grant.

(c) *Approval of supplementary grant.* A supplementary grant shall be approved only if:

(1) The Secretary determines that the facility proposed to be assisted by the supplmentary grant is necessary or desirable for carrying out a Project;

(2) The related basic grant has been approved by the basic granting agency; and

(3) A Project Agreement has been entered into for the Project which the facility is intended to serve.

§ 720.83 Community development block grants.

Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 301) authorizes grant assistance for certain community development activities, including such activities in behalf of Projects under the Act and under the New Communities Act of 1968 (42 U.S.C. 3901 et seq.). The policies and procedures applicable to this program are contained in 24 CFR, Part 570. Developers and others intending to apply for assistance under Title I in behalf of new communities should consult with the General Manager.

§ 720.84 Federally-assisted housing.

Section 8 of the United States Housing Act of 1937, as amended (42 U.S.C. 1437(f)), authorizes the making of housing assistance payments on behalf of lower income families renting housing pursuant to the United States Housing Act of 1937 (42 U.S.C. 1430 et seq.), including such families renting such housing in new community Projects. The policies and procedures applicable to this program are contained in 24 CFR, Ch. II.

Subpart F—Fee and Charge Schedule

§ 720.90 Applicability of this Subpart.

This Subpart specifies the fees and charges which have been established for payment to HUD in connection with applications for and approval of guarantees and other assistance.

§ 720.91 Fees and charges.

(a) *Application charge.* A non-refundable application charge of $10,000 shall accompany the initial submission of all or part of an application by a Public or Private Developer for guarantee assistance or a Determination of Eligibility (§ 720.54).

(b) *Commitment charge.* A commitment charge equal to 0.5 percent of the principal amount of the guarantee commitment by the Secretary up to $30 million, and in addition, 0.1 percent of the principal amount above $30 million shall be paid by the Developer upon acceptance of an offer of commitment (§ 720.56(c)) or at the time a guarantee is made (§ 720.58), which ever occurs first. Should the Project become impractical, infeasible, or imposible to undertake prior to issuance of a guarantee, the Secretary may refund such portion of the commitment charge as he deems equitable.

(c) *Reopening charge.* A timely reopening request (§ 720.56(c)) shall be accompanied by a charge of 0.05 percent of the expired offer of commitment for guarantee assistance. An offer of commitment which has expired because of the failure to pay the commitment charge may be reopened and accepted only upon payment by the Developer of the commitment charge and the reopening charge.

(d) *Gurantee fee.* A guarantee fee equal to 3 percent of the principal amount of guaranteed debt obligations shall be paid by the Developer at the time of the issuance of such obligations, subject to waiver in whole or in part at the discretion of the Secretary in the case of debt obligations issued by a Public Developer, as provided in § 720.58.

(e) *Annual fee.* An annual fee equal to 0.5 percent of the average principal amount of guaranteed debt obligations and unused guarantee commitment, outstanding during the preceding year, shall be paid on the first anniversary date of the guarantee, until the seventh anniversary date. Thereafter an annual fee of 1 percent of the average principal amount of guaranteed debt obligations and unused guarantee commitment outstanding during the preceding year shall be paid on each subsequent anniversary date of the initial guarantee until the total debt obligation is paid in full. Annual fees may, however, be waived in whole or in part at the discretion of the Secretary.

(f) *Transfer charge.* Upon application for approval of a substitution of Developers (§ 720.21(d)), a transfer charge of 0.05 percent of the unused portion of the commitment for guarantee assistance shall be paid by either the initial Developer or the substitute Developer.

Issued at Washington, D.C. August 18, 1976.

JOHN B. RHINELANDER,
Under Secretary of Housing and Urban Development.

PART IV:

FEDERAL ENERGY ADMINISTRATION

DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Entitlements

V 41 1 166 AUG 25 76 UMI

FEDERAL ENERGY ADMINISTRATION

DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Entitlement Notice for June 1976

In accordance with the provisions of 10 CFR 211.67 relating to FEA's domestic crude oil allocation program, the monthly notice specified in § 211.67(i) is hereby published.

Based on reports submitted to FEA by refiners and other firms as to crude oil receipts, crude oil runs to stills and eligible product imports for June 1976, imported naphtha utilized as a petrochemical feedstock in Puerto Rico in May and June 1976, application of the entitlement adjustment for residual fuel oil production for sale in the East Coast market provided in § 211.67(d)(4), and application of the entitlement adjustment for small refiners provided in § 211.67(e), the national domestic crude oil supply ratio for June 1976 is calculated to be .328463.

In accordance with § 211.67(b)(2), to calculate the number of barrels of deemed old oil included in a refiner's adjusted crude oil receipts for the month of June 1976, each barrel of old oil is equal to one barrel of deemed old oil and each barrel of upper tier crude oil is equal to .170926 of a barrel of deemed old oil.

The issuance of entitlements for the month of June 1976 to refiners and other firms is set forth in the Appendix to this notice. The Appendix lists the name of each refiner and other firm to which entitlements have been issued, the number of barrels of deemed old oil included in each such refiner's adjusted crude oil receipts, the number of entitlements issued to each such refiner or other firm, and the number of entitlements required to be purchased or sold by each such refiner or other firm.

Pursuant to 10 CFR 211.67(i)(4), FEA hereby fixes the price at which entitlements shall be sold and purchased for the month of June 1976 at $7.91, which is the exact differential as reported for the month of June between the weighted average per barrel costs to refiners of old oil and of imported crude oil, less the sum of 21 cents.

In accordance with 10 CFR 211.67(b), each refiner that has been issued fewer entitlements for the month of June 1976 than the number of barrels of deemed old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of June 1976 equal to the difference between the number of barrels of deemed old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of June 1976 in excess of the number of barrels of deemed old oil included in their adjusted crude oil receipts for that month and other firms issued entitlements shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for reporting errors for the months September 1975 through May 1976 pursuant to 10 CFR 211.67(j)(1). Pursuant to an amendment to § 211.67(j)(2), corrections for reporting errors for months prior to September 1975 will be reflected in the entitlement notices for the months July 1976 through February 1977. The proposed dollar amounts of these latter corrections are set forth in the special correction notice issued by FEA on July 22, 1976 (41 FR 31793, July 29, 1976).

The listing of refiners' old oil receipts contained in the Appendix reflects any adjustments made by FEA pursuant to § 211.67(h).

The listing contained in the Appendix identifies in a separate column additional entitlements issued to refiners pursuant to relief granted by FEA's Office of Exceptions and Appeals.

The listing also reflects entitlements issued to refiners and one other firm for volumes of naphtha imported into Puerto Rico for petrochemical use in May and June 1976 pursuant to the newly adopted provisions of § 211.67(d)(5). These entitlement issuances are shown in the Exceptions and Appeals column in the listing. Except for one refiner (Corco) that received exception relief with respect to imported naphtha for petrochemical feedstock use through the month May 1976, entitlements issued hereby pursuant to § 211.67(d)(5) relate to the months May and June 1976. For purposes of these entitlement issuances only, but not for any other purposes under FEA's regulations, FEA has treated the Puetro Rico subsidiary of Phillips Petroleum Company as a separate firm. This subsidiary is shown in the listings as Phillips–PR.

One eligible firm is shown in the listing with a negative product entitlement issuance nad a corresponding purchase obligation as a result of corrections effected for a prior month's reporting error.

For purposes of the adjustments to refiners' crude run volumes under § 211.67(d)(4), total production of residual fuel oil for sale in the East Coast market (in excess of the first 5,000 barrels per day thereof for each refiner reporting such production) was 10,139,129 barrels for June 1976. For that month, imports of residual fuel oil eligible for entitlement issuances totaled 28,784,032 barrels.

The total number of entitlements required to be purchased and sold under this notice is 22,023,390.

Payment for entitlements required to be purchased under 10 CFR 211.67(b) for June 1976 must be made by August 31, 1976.

On or prior to September 10, 1976, each firm which is required to purchase or sell entitlements for the month of June 1976 shall file with FEA the monthly transaction report specified in 10 CFR 211.66(i) certifying its purchases and sales of entitlements for the month of June. FEA has mailed the monthly transaction report forms for the month of June to reporting firms. FEA requests that firms which have been unable to locate other firms for required entitlement transactions by August 31, 1976 contact FEA at 202–254–6296 to expedite consummation of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to August 31, 1976, FEA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR 211.67(k).

This notice is issued pursuant to Subpart G of FEA's regulations governing its administrative procedures and sanctions, 10 CFR Part 205. Any person aggrieved hereby may file an appeal with FEA's Office of Exceptions and Appeals in accordance with Subpart H of 10 CFR Part 205. Any such appeal shall be filed on or before September 24, 1976.

Issued in Washington, D.C. on August 19, 1976.

MICHAEL F. BUTLER,
General Counsel.

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO, UNITED STATES SECTION

■

PRIVACY ACT OF 1974

Systems of Records

V 41 166 AUG 25 76 UMI

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO, UNITED STATES SECTION

PRIVACY ACT OF 1974

Notices of Systems of Records

On February 24, 1976, there was published in the Federal Register (41 FR 8144) a notice of proposed systems of records in accordance with Section 552a of the Privacy Act of 1974. Interested parties were given the opportunity to submit, not later than March 15, 1976, written data, comments, views or arguments regarding the proposed systems of records.

Since no unfavorable comments were received, the proposed systems of records, which contain non-substantive revisions resulting from this Sections final review and correction of typographical errors, are adopted as set forth below.

Pursuant to 5 U.S.C. 552a(e)(4), International Boundary and Water Commission, United States, and Mexico, United States Section hereby publishes the systems of records as currently maintained by the agency.

Effective date: April 30, 1976.

Signed at El Paso, Texas, on August 6, 1976.

Frank Fullerton,
Special Legal Assistant.

IBWC/US SEC.—1

System name: Attendance, Leave, and Payroll records of employees.

System location: Room 229, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section.

Categories of records in the system: Name, Social Security Number and employee number, grade, step, and salary; organization (code), retirement or FICA data as applicable; Federal, State and local tax deductions, as appropriate; Internal Revenue Service tax lien data; savings bond and charitable deductions; regular and optional government life insurance deduction(s), health insurance deduction and plan or code; cash award data; jury duty data; military leave data; pay differentials; union dues deductions; allotments, by type and amount; financial institution code and employee account number; leave status and leave data of all types (including annual, compensatory, jury duty, maternity, military, retirement disability, sick, transferred, and without pay); time and attendance records, including number of regular, overtime, holiday, Sunday, and other hours worked; pay period number and ending date; cost-of-living allowances; mailing address; co-owner and/or beneficiary of bonds, marital status and number of dependents; and "Notification of Personnel Action". The individual records listed herein are included only as pertinent or applicable to the individual employee.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Budget and Accounting Procedures Act of 1950; and 31 U.S.C. 665.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Transmittal of data to United States Treasury to effect issuance of paychecks to employees and distribution of pay according to employee directions for savings bonds, allotments, financial institutions, and other authorized purposes.

Reporting: Tax withholding to Internal Revenue Service and appropriate State and local taxing authorities; FICA deductions to the Social Security Administration; dues deductions to labor unions; withholdings for health insurance to the insurance carriers and the United States Civil Service Commission; charity contribution deductions to agents of charitable institutions; annual W-2 statements to taxing authorities and the individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable copy.

Retrievability: By name and/or employee number.

Safeguards: Physical, technical, and administrative security is maintained, with all storage equipment and/or rooms locked when not in use. Admittance when open is restricted to authorized personnel only. All payroll personnel and computer operators and programmers are instructed and cautioned on the confidentiality of the records.

Retention and disposal: Cut off at the end of a calendar year; retained for 3 years or until after General Accounting Office audit, whichever is earlier; and then destroyed in accordance with standard procedures.

System manager(s) and address: Director, General and Financial Services, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Resister (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individuals concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Subject individuals, supervisors, timekeepers, official personnel records, and Internal Revenue Service.

IBWC/US SEC.—2

System name: Accounts Receivable.

System location: Room 229, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Persons owing money to the United States Section, including employees, former employees, business firms, general public, and institutions.

Categories of records in the system: Names and addresses; amounts owed and services performed, overpayment or other accounting therefor; invoice numbers, if any; and United States Treasury certificates of deposit numbers.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Budget and Accounting Procedures Act of 1950; and 31 U.S.C. 665.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For billing purposes to obtain funds due the Section.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable copy.

Retrievability: By name and invoice number, as appropriate.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Retained until payment is received and account audited, then disposed of in accordance with standard procedures.

System manager(s) and address: Director, General and Financial Services, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, EL Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, EL Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Subject individual; Procurement Section; and accounting records.

IBWC/US SEC.—3

System name: Confidential statements of employment and financial interests.

System location: Room 229, IBWC Building, 4110 Rio Bravo, EL Paso, Texas 79902.

Categories of individuals covered by the system: Employees paid at a level of the Executive Schedule in subchapter II of 5 U.S.C.53, and Section employees who are required by Executive Order 11222 to file such statements, including former employees.

Categories of records in the system: Statements of personal and family holdings and other interests in business enterprises; listing of creditors, outside employment and opinion of reviewing official; and any confirmation material.

Authority for maintenance of the system: Executive Order 11222.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To comply with United States Civil Service Commission Regulations (Federal Personnel Manual Chapter 735). Records form an effective system of review for disclosing conflicts or apparent conflicts of interest on the part of employees. Records from this system may be forwarded to the United States Civil Service Commission when requested. Information may not be disclosed from a statement other than to designated employees who have an official need, except as the Chairman of the United States Civil Service Commission, or the Commissioner of the Section, may determine for a good cause shown.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in sealed envelopes.

Retrievability: Filed by name alphabetically.

Safeguards: Records are located in a locked box in a combination safe-metal file cabinet in a secured room, with access limited under very controlled conditions to those individuals whose official duties require access.

Retention and disposal: These records are disposed of 2 years after separation of the employee, in accordance with standard procedures.

System manager(s) and address: Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from the Commissioner, United States Section, International Boundary and Water Commission, Room 200, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Commissioner, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Employees on whom records are required to be maintained:

IBWC/US SEC.—4

System name: Individual identification cards.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Key employees of the two Sections of the International Boundary and Water Commission, whose duties necessitate travel across the border between the two countries in conduct of the Sections' business affairs.

Categories of records in the system: Names, titles, nationalities, places of birth, physical descriptions (color of hair, eyes, and height, etc.), and photographs.

Authority for maintenance of the system: 1944 Water Treaty; 5 U.S.C. 301, and 44 U.S.C.3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For the identification of key employees of the two Sections of the International Boundary and Water Commission, whose duties necessitate travel across the border between the two countries in conduct of the Sections' business affairs.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Index card records.

Retrievability: Filed by name—alphabetically.

Safeguards: Records are located in metal card-file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Retained for 6 years after cancellation, and then destroyed in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained form Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Individuals to whom identification cards pertain.

IBWC/US SEC.—5

System name: Certificates of Medical Examination.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section.

Categories of records in the system: Medical certificates (SF-78* or equivalent) and any other medical records of examinations used to determine an employee's fitness for the job, and may include employee's name, date of birth, and Social Security Number. (* Parts D, E, and F of SF-78 are not considered a medical record, and are filed in the Official Personnel Folder.)

Authority for maintenance of the system: 5 U.S.C 3301, 3302; and Executive Order 10577.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine medical eligibility for appointment, and for changes in assignment within the Section.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name alphabetically.

Safeguards: Records are located in lockable metal file cabinets in secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Upon employee's transfer to another agency or separation from Federal service, the sealed envelope with medical records attached on the right side of the Official Personnel Folder will be forwarded to National Personnel Records Center (Civilian), 111 Winnebago Street, St. Louis, Missouri 63118, within thirty (30) days after separation from Federal service, or to the agency to which the employee is transferring within thirty (30) days from such transfer. In the case of disability retirements, medical information is obtained and forwarded to the United States Civil Service Commission's Medical Officer in the El Paso, Texas area.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above. Information may be released upon receipt of a subpoena, or to a nonfederal entity or person, upon written authorization from employee, and the extent of the information will be in accordance with United States Civil Service Commission Regulations (Federal Personnel Manual Chapter 339).

Contesting record procedures: Rules for access to records for contesting contents and appealing initial determinations by the in-

V 41 166
AUG 25 76
UMI

dividual concerned, as published in the Section's rules in the Federal Register (41 FR 19625), are in accordance with United States Civil Service Commission Regulations (Federal Personnel Manual Chapter 339).

Record source categories: Individual's physician or Section's designated physician covering individuals to whom the records pertain.

Systems exempted from certain provisions of the act: Subject system from Pub. L. 93-579, 552a, Sec. 3. (k)(6), unless approved for release by the Regional Medical Officer of the United States Civil Service Commission. Information will be given to the employee if determined by the Regional Medical Officer that the material is not considered detrimental to the employee's well-being. Medical information may also be released to a licensed physician designated in writing for that purpose by the individual to whom the information pertains, or to his or her designated representative.

IBWC/US SEC.—6

System name: Equal Employment Opportunity.

System location: Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Employees or applicants for employment who have filed complaints of discrimination against the Section.

Categories of records in the system: Affidavits concerning the complaint; correspondence and written documentation related to the complaint; and copies of personnel records and information covering how the complaint was resolved.

Authority for maintenance of the system: Executive Order 11478; Pub. L. 92-261; and Pub. L. 93-259.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To maintain records of discrimination complaints filed by employees or applicants for employment with the Section, and all documentation and information pertaining thereto.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name alphabetically.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Records are retained for 7 years after close of the matter, and then destroyed in accordance with standard procedures.

System manager(s) and address: Director, Equal Employment Opportunity, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules published in the Federal Register (41 FR 19625).

Record source categories: From employees of, or applicants for employment with, the Section involved as complainants, witnesses, etc., in discrimination complaints; reports of investigations, and other materials prepared by the Equal Employment Opportunity Director, Equal Employment Opportunity Assistant, counselors, coordinators, and investigators; copies of Section documents relevant to any Equal Employment Opportunity investigations; and records of hearings on complaints.

IBWC/US SEC.—7

System name: Occupational Health and Injury Files.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section who have sustained injuries or have other occupational health problems.

Categories of records in the system: Accident reports (CA-1 and CA-2); claims for compensation for injury or occupational disease (CA-4); claims for continuance of compensation on account of disability (CA-8); logs of employees receiving medical services or who have sustained a work-related injury or disease; health and medical records, including medical reports on the compensation forms or in response to medical treatment and examination; and related correspondence.

Authority for maintenance of the system: 5 U.S.C. 81; 5 U.S.C. 7153; 5 U.S.C. 7901; The Occupational Safety and Health Act of 1970; and Executive Order 11807.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To provide information, including statistical data, required by the Occupational Safety and Health Administration, Department of Labor, and Office of Workers' Compensation Programs, Department of Labor.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name alphabetically.

Safeguards: Records are located in a lockable metal file cabinet in a secured area, with access limited to those individuals whose official duties require access.

Retention and disposal: Files are maintained indefinitely while individual is in employ of the Section. Upon separation, records are retained for 5 years and then destroyed in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundry and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Official records are maintained by the Office of Workers' Compensation Programs (OWCP), New Orleans, Louisiana, or other district offices of the OWCP, and records contested must be filed with that agency under its contesting procedures. Information and address may be obtained from the Comptroller, address as noted under notification section above.

Record source categories: From employees who have suffered a work-related illness or injury; Section supervisory personnel; medical authorities treting or examining employee; and witnesses to an accident or occurrence giving rise to a claim.

Systems exempted from certain provisions of the act: Pub. L. 93-579, 552a, Sec. 3.(k)(1) and (4). Records maintained under this system are unofficial copies of OWCP records and are maintained to assist in processing compensation claims. Persons seeking information under this system should follow the directions given in the notification procedure above. Information will be given to supervisors and to the employee covered by the record if the material is not considered detrimental to the employee's well-being. Requests for information which appear detrimental will be referred to the OWCP for opinion prior to release.

IBWC/US SEC.—8

System name: Motor Vehicle Operator Records.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section who are seeking or holding a United States Government Motor Vehicle Operator's Identification Card.

Categories of records in the system: Applications for government driver's licenses, Social Security Numbers, physical fitness statements, driving violation records, road test results, and pertinent correspondence.

Authority for maintenance of the system: Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 471, et. seq.).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To provide the Section with information necessary and relevant to the accomplishment of its functions covering motor vehicle operators; and to request information from State and local police departments to determine an employee's eligibility for a government license.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name alphabetically.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those individuals whose official duties require access.

Retention and disposal: Retained 3 years after separation of employee or 3 years after rescission of authorization to operate a government-owned vehicle, whichever occurs earlier; then destroyed in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Individuals to whom records pertain, witnesses to driving violations, police and court records, and road test examiners.

IBWC/US SEC.—9

System name: Employees' travel records—initial appointment and/or change of duty stations.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Employees and applicants selected for appointment in shortage category occupations.

Categories of records in the system: Names, addresses, estimated travel expenses, modes of travel, employment service agreements, and travel orders.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Accounting and Auditing Act of 1950; and Federal Claims Collection Act of 1966.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To document authority for change of duty station travel and the payment of authorized travel expenses.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable paper copy.

Retrievability: Filed in chronological order.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured premises with access limited to those individuals whose official duties require access.

Retention and disposal: Retained according to General Services Administration Federal Travel Regulations, and then disposed of and destroyed in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules published in the Federal Register (41 FR 19625).

Record source categories: Subject individual, supervisors, and Finance Office standard references.

IBWC/US SEC.—10

System name: Freedom of Information Act requests for records.

System location: Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Persons requesting copies of records from the United States Section under the provisions of the Freedom of Information Act, as amended.

Categories of records in the system: Names, addresses and telephone numbers of requesters; description or identification of records requested, furnished, and/or denied; dates of request and response; amount of fees paid, reduced, or waived, if any; payment delinquencies, if any; petitions of indigency; appeals of denials; final determinations; and names and titles of denying officials and determining officials.

Authority for maintenance of the system: Freedom of Information Act, as amended (Pub. L. 93-502).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For Annual Report to the Congress under section (d) of the Freedom of Information Act, as amended; and available for public inspection at all times.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed chronologically by date received.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Approved requests and denied requests which do not result in appeals or litigation: completed actions cut off at close of fiscal year and destroyed two years after cutoff in accordance with standard procedures. Denied requests resulting in appeals or litigation: cut off at close of fiscal year in which final determination is made. Transferred to Federal Archieves Records Center, Forth Worth, Texas, two years after cut off, and destroyed ten years after cutoff in accordance with standard procedures.

System manager(s) and address: Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Subject individuals, Section officers, and employees engaged in processing or making determinations with respect to Freedom of Information Act requests.

IBWC/US SEC.—11

System name: General Personnel Records.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902, or Field Office where individual is employed.

Categories of individuals covered by the system: Current employees of the United States Section.

Categories of records in the system: General correspondence and files relating to employment or conditions of employment; promotion, Notification of Personnel Action (SF-50), and request for Personnel Action (SF-52) files; leave and training records; Central Personnel Data File (CPDF), and retirement records relating to person-

V 41 166
AUG 25 76
UMI

nel actions and determinations concerning an individual while employed. These records may contain information about an individual relating to name; date of birth; home address; telephone number; emergency addresses; Social Security Number; Veteran's Preference; tenure; work connected injuries; handicap code; employment history; qualification background; past and present salaries; grades and position titles; training; awards and other recognition; counseling; performance appraisal; conduct; pay and leave; and data documenting reasons for personnel actions; decisions or recommendations concerning an employee; and background data and documentation leading to an adverse action being taken against an employee.

Authority for maintenance of the system: 5 U.S.C. 1302, 2951, 4118, 4308, 4506, 7501, 7511, 7521; and Executive Order 10561.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information in these records may be used:

(A) By an agency of the Federal government having oversight or review authority, such as the United States Civil Service Commission.

(B) In the event an appeal is made outside the Section, records which are relevant may be referred to the appropriate agency charged with rendering a decision on the appeal.

(C) Information, without prior employee consent, can be disclosed as follows:

1. To the public: Employee name; position title/grade (past/present); salary (past/present); and duty station (past/present—as specific as building/room number).

2. To a prospective Federal employer: All items on Request for Preliminary Employment Data (SF-75).

3. To a prospective nonfederal employer: Employee name; position title/grade (past/present); salary (past/present); duty station (past/present); tenure of employment; Civil Service status; length of service (Section/Federal government); and date/reason for separation (from Notification of Personnel Action SF-50).

4. To a police department/court: Any information requested for law enforcement purposes.

5. To a credit firm:

(a) May be provided: Employee name; position title/grade (past/present); salary (past/present); duty station (past/present).

(b) May only be verified (the firm may be advised if its information is correct; if not correct, it is not permitted to disclose the "right answer"): Tenure of employment; Civil Service status; and length of service (Section/Federal government).

Any other disclosure requires prior written consent.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders, index cards, and computer printouts.

Retrievability: Records are indexed by any combination of name, date of birth, Social Security Number, or employee identification number.

Safeguards: Records are located in locked metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Retained during the period of individual's employment with the Section; transferred to individual's Official Personnel Folder upon resignation, transfer or separation from Section service.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: From information supplied by applicable individuals, or as provided by applicable Section supervisors.

IBWC/US SEC.—12

System name: Investigative records.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Current employees of the United States Section.

Categories of records in the system: Name, address, date and place of birth; citizenship status; physical characteristics; employment and military service history; arrest records; Federally-employed relatives; dates and purposes of visits to foreign countries; passport numbers; names of spouses, relatives, references, and personal associates; activities; and conflicts of interest, security, and suitability material.

Authority for maintenance of the system: Executive Orders 10450 and 11652.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine suitability for Federal employment.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by employee name alphabetically.

Safeguards: Records are located in lockable metal file cabinets in secured rooms or secured premises, and access limited to those individuals whose official duties require access.

Retention and disposal: The records consist of confidential background investigations for Section employees; and are filed in manila envelopes attached on the outside of the Official Personnel Folder, the envelopes bearing employee name and Social Security Number. When the employee transfers or separates, these records are placed in the Official Personnel Folder and disposed of as part of such Official Personnel Folder.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States section, International boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the section's rules published in the Federal Register (41 FR 19625).

Record source categories: Applications and other personnel and security forms furnished by the individual; investigative and other record material furnished by other Federal agencies; notices of personnel actions furnished by other Federal agencies; personal investigations or written inquires from sources such as employers, educational institutions, references, neighbors, associates, police departments, courts, credit bureaus, medical records, probation officials, prison officials, newspapers, magazines, periodicals, and other publications; and published hearings of Congressional Committees.

Systems exempted from certain provisions of the act: Certain records contained within this system of records are exempt from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), (I), and (f). Reference Section's rules published in the Federal Register (41 FR 19625).

IBWC/US SEC.—13

System name: Employees' vehicle accident reports.

System location: Room 229, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section.

Categories of records in the system: Full names and addresses of persons involved and their individual statements; vehicle tag number; service and repairs required; invoice number; cost code; and applicable appropriation symbol.

Authority for maintenance of the system: Federal Property and Administrative Services Act of 1941, as amended (40 U.S.C. 471, et seq.).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For Finance Section employees to complete billing procedures.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By employee name, date of accident, and invoice number.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Retain on hand 3 fiscal years, and then dispose of and destroy in accordance with standard procedures.

System manager(s) and address: Director, General and Financial Services, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules published in the Federal Register (41 FR 19625).

Record source categories: From subject individual, supervisors and/or Finance Section's standard references.

IBWC/US SEC.—14

System name: Records of cash receipts.

System location: Room 229, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Individuals and companies making payments to cover goods acquired and services rendered; reimbursements for overpayments; and miscellaneous monies received by the Section.

Categories of records in the system: Names of individuals or companies; goods acquired or services rendered; amounts; dates; check numbers; locations; bank deposit information; and United States Treasury deposit numbers.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Budget and Accounting Procedures Act of 1950; and 31 U.S.C. 665.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Accounting for all monies received by the Section.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable paper copy.

Retrievability: By name and/or account or invoice number.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Retained for one year following the end of the fiscal year; then transferred to Federal Archives Records Center, Fort Worth, Texas.

System manager(s) and address: Director, General and Financial Services, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Subject individual and/or company.

IBWC/US SEC.—15

System name: Disciplinary Action, Appeal, and Grievance Files; and Unfair Labor Practice Charges/Complaints.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Section employees who have had disciplinary actions taken against them, and who have filed appeals or grievances.

Categories of records in the system: Warning letters and official reprimand files; grievance files (Section or negotiated); adverse action decision letters; disciplinary action files; appeals hearing transcripts (if held); background information in support of disciplinary and adverse actions; and unfair labor practice charges/complaints.

Authority for maintenance of the system: Executive Orders 10987, 11491, 11787; and 5 U.S.C. 77.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

(a) To the United States Civil Service Commission upon request in conjunction with any appeal or in conjunction with its official duties pertaining to personnel matters and investigations regarding complaints of Federal employees or applicants for employment.

(b) To designated officers and employees of other Federal agencies conducting investigations of an individual for the purpose of granting security clearance or access determination, and having a need to evaluate qualifications, suitability and loyalty to the United States Government in connection with employment.

(c) In the event of any indication of violation or potential violation of the law, to the appropriate Federal agency charged with the responsibility of investigating or prosecuting such violation, or charged with enforcement or implementation of the statute, rule, regulation or order issued pursuant thereto.

(d) To respond to a court subpoena or response to a district court in connection with a civil suit.

(e) To designated hearing examiners, arbitrators, and third-party appellate authorities involved in the hearing or appeal processes.

(f) To investigative officials of the Department of Labor and Federal Labor Relations Council for settlement of a complaint or appeal.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By employee name, filed alphabetically.

Safeguards: Records are located in lockable metal file cabinets in secured rooms or secured premises, with access limited to individuals whose official duties require access.

Retention and disposal: Records involving court actions are retained permanently; all others retained 7 years after completion of action, and then disposed of in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Individuals to whom records pertain; Section officials; affidavits or statements from employees; testimony of witnesses; official documents relating to appeals, grievances, or complaints; and correspondence from specific organizations or individuals.

IBEW/US SEC.—16

System name: Official Personnel Folders.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section.

Categories of records in the system: Official Personnel Folders containing name, Social Security Number; date of birth; employment history; education; job and pay data; performance reviews; letters of commendation; reprimands; training certificates; salary and benefits information, to include allowance and insurance data; travel orders and general correspondence; other personnel data such as security clearance, loyalty, military service evidence, injury reports, suggestions, health qualification records, etc.

Authority for maintenance of the system: Executive Order 10561; and United States Civil Service Commission Regulations (Federal Personnel Manual Chapters 293 and 294).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

(A) To provide hard-copy documentation on employees' current job and pay data, past job history, career progression, etc. Used to determine qualifications and to provide information for processing personnel actions.

(B) Information, without prior employee consent, can be disclosed as follows:

1. To the public: Employee name; position title/grade (past/present); salary (past/present); and duty station (past/present)—as specific as building/room number).

2. To a prospective Federal employer: All items on Request for Preliminary Employment Data (SF-75).

3. To a prospective nonfederal employer: Employee name; position title/grade (past/present); salary (past/present); duty station (past/present); tenure of employment; Civil Service status; length of service (Section/Federal government); and date/reason for separation (from Notification of Personnel Action SF-50).

4. To a police department/court: Any information requested for law enforcement purposes.

5. To a credit firm:

(a) May be provided: Employee name; position title/grade (past/present); salary (past/present); duty station (past/present).

(b) May only be verified (the firm may be advised if its information is correct; if not, it is not permitted to disclose the "right answer"): Tenure of employment; Civil Service status; and length of service (Section/Federal government).

Any other disclosure requires prior written consent.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders

Retrievability: Filed by employee name—alphabetically.

Safeguards: Records are located in lockable metal file cabinets in secured rooms or secured premises, with access limited to individuals whose official duties require access.

Retention and disposal: Retained for duration of employment, and then folders are transmitted to the Personnel Records Center (Civilian) at 111 Winnebago Street, St. Louis, Missouri, 63118, within 30 days after separation—except for those employees leaving on military furlough, or with retirement applications pending, or compensation cases which are pending and which have not been adjudicated.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, as conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for acess for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Applications for employment; applications for fidelity bonds; college transcripts; personnel actions; performance reviews and/or personnel evaluation reports; letters of commendation or reprimand; training certificates; travel orders; employee insurance data; certificates of clearance; and loyalty affidavits.

IBWC/US SEC.—17

System name: Service records.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section.

Categories of records in the system: Official summary of employment history to include name, Social Security Number, date of birth, service computation date, Veteran's Preference, life insurance enrollment, retirement data, handicap code, performance reviews (date and type), service award data, and employment record to include date, type, job, pay, and separation data.

Authority for maintenance of the system: United States Civil Service Commission Regulations (Federal Personnel Manual Chapter 293-31).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To have a ready reference to official summary of employment histories, chronology of personal and service data of employees, and provide information for processing personnel actions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records filed in Kardex or file box.

Retrievability: Arranged by (a) budgeted position in organization sequence; (b) pay plan; and (c) descending grade level within each pay plan.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those individuals whose official duties require access.

Retention and disposal: Retain 3 years after employee's separation from the Section, then dispose of in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned, appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Personnel actions, performance reviews and/or personnel evaluation reports; application forms, and training and service award certificates.

IBWC/US SEC.—18

System name: Employment resources files.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Applicants for employment with the United States Section.

Categories of records in the system: Applications for employment; personal qualifications statement (SF-171); and other pertinent employment data.

Authority for maintenance of the system: 5 U.S.C. 301; 15 U.S.C. 634(b)(6); and 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To maintain a source of qualified applicants for the purpose of filing vacancies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records files in file folders.

Retrievability: Grouped by positions for which applicants appear qualified; arranged by name within position groupings.

Safeguards: Records are located in lockable metal file cabinets or metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Applications considered active for 2 years; then destroyed after 2 years from date signed, in accordance with standard procedures—except upon written request that they be returned to individuals.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned, appear in the Section's rules published in the Federal Register (41 FR 19625).

Record source categories: Applicants; previous employers.

IBWC/US SEC.—19

System name: Incentive Awards files.

System location: Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section, or non-employees who submit suggestions.

Categories of records in the system: Award certificates; letters of commendation, citation, and awards; letters of non-adoption of suggestions.

Authority for maintenance of the system: 5 U.S.C. 45.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To document staff or other agency comments in support of justification for, or disapproval of, award nominations in order to present findings to Incentive Awards Committee or other Section officials or, at its request, to the United States Civil Service Commission.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Suggestions—by number; performance nominations—chronologically by type of award.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured room or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Cut off at end of calendar year, retained for 2 years, and then disposed of in accordance with standard procedures.

System manager(s) and address: Director of Personnel, United States Section, International Boundary and Water Commission, Room 223, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC, Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Employees, supervisors, management officials, Incentive Awards Committee, officials of other agencies, and members of the public, if appropriate.

IBWC/US SEC.—20

System name: Travel advance information files.

System location: Room 229, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section who are required to travel.

Categories of records in the system: Employees' names, areas of assignment, and dollar amounts advanced.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Budget and Accounting Procedures Act of 1950; and 31 U.S.C. 665.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: By the Finance Section to monitor travel advance expenditures.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Index card records.

Retrievability: Filed by employee name, alphabetically.

Safeguards: Records are located in metal card file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Cut off at end of fiscal year; retained for 3 years, and then destroyed in accordance with standard procedures.

System manager(s) and address: Director, General and Financial Services, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned, appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: From Imprest Fund receipts signed by employee-traveler when amount is under 150 dollars, and from Bureau schedules for checks issued by the United States Treasury to employee-traveler when the amount is above 150 dollars.

IBWC/US SEC.—21

System name: Employer's tax return files.

System location: Room 229, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: All employees of the United States Section.

Categories of records in the system: Federal and State monthly and/or quarterly employee withholding tax form information; computer printouts, magnetic tapes and related documents showing reports of Federal and State taxes withheld from employees, and the banking and payment thereof.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Budget and Accounting Procedures Act of 1950; and 31 U.S.C. 665.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For reconciliation and payment of taxes withheld from employees and employer's share; to provide Internal Revenue Service with record representing wages covered by Social Security.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable copy.

Retrievability: By name and/or employee number.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Cut off at the close of fiscal year, retained for 2 years, and then destroyed in accordance with standard procedures.

V 41 166 AUG 25 76 UMI

System manager(s) and address: Director, General and Financial Services, United States Section, International Boundary and Water Commission, Room 227, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Data stored in payroll master file.

IBWC/US SEC.—22

System name: Privacy Act request file.

System location: Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Categories of individuals covered by the system: Individuals requesting information on records concerning them or someone on whose behalf the individual is authorized to act which are in the custody of the United States Section, or individuals requesting access or amendment to such records under the provisions of The Privacy Act of 1974, 5 U.S.C. 552a.

Categories of records in the system: Copies of correspondence between individuals and Section custodian official; written summaries of conversations with individuals; coordination documents between the Section and other Federal, State, and local government agencies when records which are the subject of an individual inquiry were originated by another agency; and copies of documents which are the subject of an individual inquiry. Originals of amendment requests, refusals, and appeals accumulated by the custodian of the records concerned are included in the file containing those records.

Authority for maintenance of the system: The Privacy Act of 1974, 5 U.S.C. 552a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To process and coordinate requests for information, access, and amendment of personal records; to process and record appeals by individuals against Section rulings; and to assure timely response to requesters.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by requester's name.

Safeguards: Records are located in lockable metal file cabinets in secured rooms or secured premises, with access limited to those individuals whose official duties require access.

Retention and disposal: Approved and/or denied requests not resulting in appeals or litigation—completed actions cut off at close of fiscal year and destroyed 2 years after cutoff in accordance with standard procedures. Denied requests resulting in appeals or litigation—cut off at close of fiscal year in which final determination is made; transferred to Federal Archives Record Center, Fort Worth, Texas, 2 years after cutoff; destroyed 10 years after cutoff in accordance with standard procedures.

System manager(s) and address: Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC Building, 4110 Rio Bravo, El Paso, Texas 79902.

Notification procedure: Information may be obtained from Comptroller, United States Section, International Boundary and Water Commission, Room 212, IBWC, Building, 4110 Rio Bravo, El Paso, Texas 79902.

Record access procedures: Requests from individuals should be addressed to Comptroller, same address as stated in the notification section above, and conform to the inquiry provisions of the Section's rules as published in the Federal Register (41 FR 19625).

Contesting record procedures: Rules for access for contesting contents and appealing initial determinations by the individual concerned appear in the Section's rules as published in the Federal Register (41 FR 19625).

Record source categories: Individual requesters, and agencies of the Federal, State, and local governments.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

REARVIEW MIRRORS

"THE FEDERAL REGISTER—WHAT IT IS AND HOW TO USE IT"

Weekly Briefings at the Office of the Federal Register

(For Details, See 41 FR 22997, June 8, 1976)

RESERVATIONS: JANET SOREY, 523–5282

list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

[Amdt. 25]

PART 220—SCHOOL BREAKFAST PROGRAM

Child Nutrition Programs

Correction

In FR Doc. 76-24227 appearing on page 34757 in the issue for Tuesday, August 17, 1976, make the following corrections:

1. On page 34758, in the first column, in the Authority appearing beneath the table of contents, "Stat. 866" should have read "Stat. 886".

2. On page 34758, in the third column, under § 220.2 (u), in the 20th line, "nonprofit child care institution," should have read "nonprofit private child care institution,".

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 542]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

PREAMBLE

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period Aug. 27–Sept. 2, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh marget demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.842 Valencia Orange Regulation 542.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues slow. Prices f.o.b. for the week ending August 19 were $3.42 a carton on 614 cars as compared with $3.45 per carton on 593 cars during the prior week. Track and rolling supplies at 286 cars were down 29 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 24, 1976.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 27, 1976, through September 2, 1976, are hereby fixed as follows:

(i) District 1: 292,000 cartons;

(ii) District 2: 358,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 25, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-25295 Filed 8-25-76;11:13 am]

[Lime Reg. 27, Amdt. 5]

PART 911—LIMES GROWN IN FLORIDA

Container Regulation

This amendment to the current container regulation continues suspension of the use of 10-pound containers for the handling of fresh Florida limes during the period August 29 through October 30, 1976. Such suspension was scheduled to end August 28. The amendment continues to authorize the use of six containers with minimum content requirements of 20 pounds and 38 pounds net weight of limes.

On August 12, 1976, notice of rulemaking was published in the FEDERAL REGISTER (41 FR 34049) regarding a proposed amendment of the current container regulation (7 CFR 911.329; 38 FR

V 41 1 167 AUG 26 76 UMI

12323, 15726; 41 FR 15685, 19299, 30343) in effect pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida. The proposal was submitted by the Florida Lime Administrative Committee (established pursuant to said amended marketing agreement and order). This is a marketing order program issued pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). No exception to said notice was filed.

The amendment reflects the Department's appraisal of present and prospective marketing conditions for limes. Production estimates indicate that supplies of limes will continue heavy through October 30. The committee reports that trade reaction has been favorable during the period of suspension of the 10-pound containers. Limiting shipments to the larger 20- and 38-pound containers results in lower container costs and handling and marketing charges for a given volume of limes. Indications are that the lower packing and marketing charges enable lower f.o.b. prices. Such prices should encourage increased sales during the period of heaviest lime supplies. Hence, the action would contribute to orderly marketing of limes and be in the public interest.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the recommendations and information submitted by the committee, and other available information, it is hereby found that the amendment hereinafter set forth is in accordance with the provisions of said amended marketing agreement and order; and such amendment will tend to effectuate the declared policy of the act with respect to effectuating orderly marketing in the public interest.

It is hereby further found that it is impracticable and contrary to the public interest to give further notice and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553), and good cause exists for making the provisions hereof effective as hereinafter set forth in that: (1) Shipments of the current crop of limes began on April 1, 1976, and heavy shipments of limes are now in progress, and this regulation should be applicable, insofar as practicable, to all such shipments in order to effectuate the declared policy of the act; (2) The recommendations upon which this regulation is based were developed by the committee at an open meeting on July 20, 1976, after due notice thereof, and all interested persons present were given an opportunity to express their views; (3) A notice of proposed amendment of the container regulation for Florida limes was published in the FEDERAL REGISTER (41 FR 34049); and (4) The amended container regulation herein specified is the same as the proposed regulation.

Order. The provisions of paragraph (a) (2) of § 911.329 (Lime Regulation 27; 38 FR 12323, 15726; 41 FR 15685, 19299, 30343) are hereby amended to read as follows:

§ 911.329 Lime Regulation 27.

(a) • • •

(2) During the period August 29, 1976, through October 30, 1976, no handler shall handle any variety of limes, grown in the production area, in containers having inside dimensions of 12 x 9⅝ x 3¾ inches and 12 x 9⅝ x 5 inches: *Provided,* That during such period and thereafter no handler shall handle between the production area and any point outside thereof any variety of limes, grown in the production area, in individual bags having a capacity of more than 4 pounds net weight of limes.

• • • • • •

Dated: August 23, 1976, to become effective August 29, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–25067 Filed 8–25–76;8:45 am]

PART 946—IRISH POTATOES GROWN IN WASHINGTON

Expenses and Rate of Assessment

This document authorizes the State of Washington Potato Committee to spend not more than $16,200 for its operations during the fiscal period ending June 30, 1977, and to collect one-tenth cent per hundredweight on assessable potatoes handled by first handlers under the program.

The committee is the administrative agency established under Marketing Agreement No. 113 and Order No. 946, both as amended, regulating the handling of Irish potatoes grown in Washington. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

Notice was published in the August 5 FEDERAL REGISTER (41 FR 32758) regarding the proposals. It afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than August 20, 1976. None was filed.

After consideration of all relevant matters, including the proposals set forth in the notice, it is hereby found and determined that the following budget and rate of assessment should be approved.

It is further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because this part requires that the rate of assessment for a particular fiscal period shall apply to all assessable potatoes from the beginning of such period.

§ 946.229 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1977, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $16,200.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be one-tenth cent (0.001) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during the fiscal period, except potatoes for canning, freezing, and "other processing" as defined in the act shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 946.42(a).

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).)

Dated: August 23, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 16030; Amdt. 39–2701]

PART 39—AIRWORTHINESS DIRECTIVES

Armstrong Whitworth Argosy Model AW–650 Series 101 Airplanes

There have been reports of cracks in the main undercarriage sliding cylinder on Armstrong Whitworth Model AW–650 Series 101 airplanes that could result in the failure of the main landing gear. Since this condition is likely to exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which requires an inspection with magnetic particle fluid of the main undercarriage sliding cylinder and its replacement, if cracks are discovered, on Armstrong Whitworth Model AW–650 Series 101 airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c).)

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the folowing new airworthiness directive:

ARMSTRONG WHITWORTH. Applies to all Model AW–650 Series 101 airplanes certificated in all categories.

Compliance is required within the next 100 hours time in service after the effective date of this AD, unless already accomplished.

To detect cracks in the undercut at the bottom of the main undercarriage sliding cylinder and prevent possible failure of the main landing gear, accomplish the following:

(a) Inspect the undercut at the bottom of the main undercarriage sliding cylinder with magnetic particle fluid in accordance with Accomplishment Instructions 2A (1) through 2A (6) of Dowty Rotol Service Bulletin No. 32–49D, dated August 15, 1975, or an FAA-approved equivalent.

(b) If a crack in the sliding cylinder is detected during the inspection required by paragraph (a) of this AD, replace the main undercarriage sliding cylinder before further flight with a serviceable part of the same part number or an FAA-approved equivalent.

This amendment becomes effective, on September 9, 1976.

Issued in Washington, D.C. on August 18, 1976.

R. P. SKULLY,
Director, Flight Standards Service.

[FR Doc.76–24715 Filed 8–25–76;8:45 am]

[Docket No. 76–GL–15; Amdt. 39–2700]

PART 39—AIRWORTHINESS DIRECTIVES

Enstrom Models F–28, F–28A and 280

Pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), an airworthiness directive was adopted on August 6, 1976, and made effective immediately as to all known United States operators of Enstrom helicopters Models F–28, F–28A and 280, except for those helicopters which have certain main rotor shaft gear box serial numbers as listed in the AD. The directive requires Enstrom helicopter owners to report any evidence of tool marks or surface irregularities on the main rotor shaft in the area of the radius beneath the rotor hub shoulder and make inspections for cracks at closer intervals. This directive supersedes Amendment 39–2472 (40 FR 59197), AD 75–26–19.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known United States operators of Enstrom helicopters Models F–28, F–28A and 280, except for those helicopters which have main rotor shaft gear box serial numbers listed in the AD, by individual airmail letters dated August 6, 1976. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

ENSTROM. Applies to Models F–28, F–28A, and 280 helicopters certificated in all categories, except for those helicopters which have the following main rotor shaft gear box serial numbers.

032FS	10–002–72PS
041PS	19–024–74PS
067PS	34–029–75PS
070PS	39–002–13PS
091	44–011–76PS
07–012–74PS	44–019–76PS
08–001–72S	53–003–73PS

To detect tool marks, surface irregularities, and cracks which may develop into failure of the Main Rotor Shaft (Enstrom Part Number 28–13104) accomplish the following:

A. Before further flight visually inspect the main rotor shaft in the area of the radius beneath the rotor hub shoulder, using an eight power or greater magnifying glass and report to the Enstrom Helicopter Corporation, Menominee County Airport, P.O. Box 277, Menominee, Michigan, Phone 906–863–9971, any evidence of circumferentially disposed tool marks or surface irregularities.

B. Before further flight, unless previously accomplished within the last 20 hours time in service or one month, and every 20 hours or one month thereafter, whichever occurs first, inspect the main rotor shaft for cracks in the area of the radius beneath the rotor hub shoulder using a 3-step dye-penetrant method. The inspections are to be performed by maintenance personnel familiar with the dye-penetrant inspection method.

C. Within 10 hours time in service or 15 days, whichever occurs first after each dye-penetrant inspection, visually check the main rotor shaft for cracks in the area of the radius beneath the rotor hub shoulder using an eight power or greater magnifying glass.

D. Before further flight remove from service any main rotor shaft found to contain cracks or other evidence of damage and replace with an airworthy shaft of the same part number or later FAA approved part number.

E. Immediately check in accordance with Paragraph B above any helicopter which develops unusual once-per-rotor-revolution vibration. Such vibrations serve as warning of imminent failure.

F. The above inspections may be discontinued after completion of main rotor shaft modifications in accordance with Enstrom Service Directive Bulletin Number 0036.

This supersedes Amendment 39–2472 (40 FR 59197), AD 75–26–19.

This amendment is effective September 1, 1976 and was effective immediately for all recipients of the airmail letters dated August 6, 1976 which contained this amendment.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to The Enstrom Helicopter Corporation, Menominee County Airport, P.O. Box 277, Menominee, Michigan 49858. These documents may also be examined at the FAA Great Lakes Region, Engineering and Manufacturing Branch, AGL–210, 2300 East Devon Avenue, Des Plaines, Illinois. A historical file on this AD which includes the incorporated material in full is also maintained at that office.

The incorporation by reference provisions in this document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois on August 18, 1976.

LEON C. DAUGHERTY,
Acting Director, Great Lakes Region.

[FR Doc.76–24886 Filed 8–25–76;8:45 am]

[Docket No. 76–GL–14; Amdt. 39–2699]

PART 39—AIRWORTHINESS DIRECTIVES

Grumman American Aviation Corp.; Model AA1, AA1A, AA1B, AA5, AA–5A, and AA–5B Series Airplanes

There have been failures of the bondline integrity on control surfaces on Grumman American airplanes that could result in control surface skin delamination. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require bondline inspection and repair, if necessary, and installation of rivets on control surfaces on Grumman American Model AA1, AA1A, AA1B, AA5, AA–5A and AA–5B airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697 and 14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

GRUMMAN AMERICAN AVIATION CORPORATION

Applies to *Model*	*Serial Number*
AA1, AA1A	0001 and up
AA1B	0001 thru 0641
AA5	0001 and up
AA–5A	0001 thru 0173, 0176 thru 0196
AA–5B	0001 thru 0309, 0311 thru 0324

airplanes certificated in all categories.

Compliance required within the next 25 flight hours' time in service after the effective date of this AD, unless already accomplished.

To detect delaminations in bonded skins and prevent any possible further delaminations, accomplish the following: Inspect and perform rework as prescribed by the instructions of Grumman American Aviation Corporation Service Bulletin No. 155, dated July 30, 1976, or an equivalent inspection and modification approved by the Chief, Engineering and Manufacturing Branch, Great Lakes Region.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

This amendment becomes effective August 30, 1976.

Issued in Des Plaines, Illinois, on August 16, 1976.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[FR Doc.76–24814 Filed 8–25–76;8:45 am]

[Docket No. 15616; Amdt. 39–2705]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation, Ltd. Model DH/BH–125 Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring

V 41 167 AUG 26 76 UMI

necessary modifications of the airbrake servodynes and operating circuit on certain Hawker Siddeley Aviation, Ltd. Model DH/BH–125 airplanes was published in the FEDERAL REGISTER at 41 FR 17400.

Interested persons have been afforded an opportunity to participate in the making of the amendment and no objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION, LTD. Applies to Model DH/BH–125 airplanes Series 400A, S/N NA–711 through NA–758 and all Model DH/BH–125 airplanes Series 1A, 1A–522, 1A/S–522, 3A, 3AR, 3ARA, certificated in all categories.

Compliance is required within the next 200 hours time in service after the effective date of this AD, unless already accomplished.

To prevent possible unwanted deployment of airbrakes in flight, accomplish the following:

(a) For all aircraft except those altered to include airbrake servodynes P/N AIR 46520/0 and 46521/0 in accordance with the Part D Supplement of Hawker Siddeley Aviation Ltd., Modification 252174, Service Bulletin SB 27–86–(2174), dated March 29, 1972, modify the airbrake servodynes, P/N AIR 45398 and 45399, in accordance with Part A of the section entitled "Accomplishment Instructions" of Hawker Siddeley Aviation Ltd., Service Bulletin 27–86–(2174), Revision 4, dated March 29, 1972, or an FAA-approved equivalent.

(b) For all aircraft, modify the airbrake operating circuit (R/H and L/H) in accordance with Part C of the section entitled "Accomplishment Instructions" of Hawker Siddeley Aviation, Ltd., Service Bulletin 27–86–(2174), Revision 4, dated March 29, 1972, or an FAA-approved equivalent.

This amendment becomes effective September 27, 1976.

Issued in Washington, D.C. on August 19, 1976.

R. P. SKULLY,
Director,
Flight Standards Service.

[FR Doc.76–24882 Filed 8–25–76;8:45 am]

[Airspace Docket 76–NW–11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone

On April 22, 1976, a Notice of Proposed Rulemaking was published in the Federal Register (41 FR 16827), stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Salem, Oregon, Control Zone.

Interested persons were given 30 days in which to submit written data, views, or arguments. No objections were received.

In consideration of the foregoing, the amendment is hereby adopted without changes.

Effective date: This amendment shall be effective 0901 G.m.t. on November 4, 1976.

(Sec. 307(a) of the Federal Aviation Act of 1958 as amended (49 U.S.C. 1348(a)), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Seattle, Washington, on August 12, 1976.

J. H. TANNER,
Acting Director,
Northwest Region.

§ 71.171 [Amended]

In § 71.171 (41 FR 423) the description of the Salem, Oregon, Control Zone is amended to read as follows:

SALEM, OREGON

Within a 5 mile radius of McNary Field, Salem, Oregon. Latitude 44°54'35" N., Longitude 123°00'05" W., and within 2 miles each side of the Salem ILS localizer E course, extending from the 5 mile radius zone to the LOM; within 4 miles each side of the Salem ILS localizer W course, extending from the 5 mile radius zone to 15 miles west of the airport.

(Section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

[FR Doc.76–24883 Filed 8–25–76;8:45 am]

[Airspace Docket No. 76–SO–76]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Columbus, Miss., control zone.

The Columbus control zone is described in § 71.171 (41 FR 355). It is necessary to amend the description by reducing the effective hours of operation from 24 hours per day to 0600 to 1800 hours, local time, Monday thru Thursday; 0600 to 2000 hours, local time, Friday; 0900 to 1600 hours, local time, Saturday; 1000 to 1600 hours, local time, Sunday; and closed on Federal holidays. Since this amendment is less restrictive in nature, notice and public procedure hereon are unnecessary.

§ 71.171 [Amended]

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 4, 1976, as hereinafter set forth. In § 71.171 (41 FR 355), the Columbus, Miss., control zone is amended by adding:

This control zone is effective from 0600 to 1800 hours, local time, Monday thru Thursday; 0600 to 2000 hours, local time, Friday; 0900 to 1600 hours, local time, Saturday; 1000 to 1600 hours, local time, Sunday; and closed on Federal Holidays.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in East Point, Ga., on August 16, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.76–24884 Filed 8–25–76;8:45 am]

[Airspace Docket No. 76–WE–15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Lompoc, Calif.; Designation of Transition Area

On July 1, 1976 a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (41 FR 27085) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a new transition area for Lompoc Airport, Lompoc, California.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. The only objection was submitted by the Department of the Air Force. Their objection was based on the fact that the proposed transition area would overlie Restricted Areas R–2516, R–2534A and R–2534B, and aircraft executing an instrument letdown to the Lompoc airport could penetrate restricted airspace while circling to land or executing a missed approach while remaining within the confines of the transition area.

The new transition area will be designated so as to exclude that airspace within Restricted Area R–2516, since R–2516 is not a joint use Restricted Area and is therefore not open for public use. Restricted Areas R–2534A and R–2534B are both joint use and are available for transit on a coordinated basis.

Additionally, the approach procedure to Lompoc will be annotated in the remarks section to show the procedure will only be available during the hours the Vandenberg AFB RAPCON is in operation.

In consideration of the foregoing, the proposed amendment is hereby adopted subject to the following:

After Gaviota VORTAC add the sentence, "The airspace within R–2516 is excluded."

(Sec. 307(2) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Effective date: This amendment shall be effective 0901 G.m.t., November 4, 1976.

Issued in Los Angeles, California, on August 16, 1976.

LYNN L. HINK,
Acting Director, Western Region.

In consideration of the foregoing, the FAA proposes the following airspace action.

§ 71.181 [Amended]

In § 17.181 (41 FR 440) the following transition area is added:

LOMPOC, CALIFORNIA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Lompoc Airport (latitude 34°39'56" N., longitude 120°27'56" W.) and within 5 miles each side of the Gaviota VORTAC 293° radial, extending from the 5-mile radius area to 16 miles west of the Gaviota VORTAC. That airspace within R–2516 is excluded."

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on June 18, 1976.

LYNN L. HINK,
Acting Director, Western Region.

[FR Doc.76–24813 Filed 8–25–76;8:45 am]

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 16]

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Subpart T—State Supplementation Provisions; Agreements; Payments

EFFECTS OF FEDERAL FINANCING OF STATE SUPPLEMENTARY PAYMENTS TO INDOCHINESE REFUGEES—FEDERAL ADMINISTRATION OF STATE SUPPLEMENTATION FINAL REGULATIONS

The amendments to regulations set forth below set out the effects of implementation of certain portions of the Indochina Migration and Refugee Assistance Act of 1975 (Pub. L. 94–23), as amended by Pub. L. 94–313, as they relate to Federal administration of State supplementation for beneficiaries under the supplemental security income program (title XVI of the Social Security Act). The Indochina Migration and Refugee Assistance Act authorizes Federal funds for a range of purposes. Under this Act, States will be provided 100 percent reimbursement for financial assistance to these refugees in accordance with the current policy of the Social and Rehabilitation Service; this policy is expected to be in effect through September 30, 1977, when the authorizing legislation expires, but is conditioned on availability of funds until that date. The Social and Rehabilitation Service, in general, will deal directly with the States in effectuating reimbursement for payments to refugees pursuant to such law. However, to provide for situations where State supplementation is administered by the Social Security Administration under the terms of a Federal/State agreement pursuant to § 416.2005 of Subpart T, Regulations No. 16, the Social and Rehabilitation Service and the Social Security Administration have entered into an interagency agreement to implement the Federal financing (by the Social and Rehabilitation Service) of the federally-administered supplement for fiscal year 1976, and it is anticipated that this agreement will be extended through September 30, 1977. The amendments to the regulations make it clear that Federal funding of State supplements pursuant to Pub. L. 94–23 does not affect the supplementation character of such payments (i.e., they are excluded from countable income under the supplemental security income program and do not affect the State's obligation to include all supplemental security income recipients under its supplementation agreement). The amendments further provide, however, that a State shall not be liable to the Secretary for federally-administered supplementation payment amounts which are reimbursable by the Social and Rehabilitation Service directly to the Social Security Administration under the terms of the interagency agreement described above and pursuant to Pub. L. 94–23, as amended. Further, such amounts shall not be considered State supplementary payments for purposes of the State fiscal relief provisions of § 416.2080.

Thus, these amounts which are reimbursed by the Social and Rehabilitation Service rather than the State will not be counted towards determining when the State has spent an amount equal to its base calendar year 1972 expenditures and neither debits nor credits will be generated by the payments. They will have no bearing in any way upon the computation of State fiscal relief.

The notice of proposed rulemaking is being waived in spite of the Secretary's new policy against so doing because these amendments have no effect upon the amount of supplementation which individuals will receive; but in recognition of the fact that the State supplementation of SSI for eligible Indochinese refugees is considered a Federal responsibility, under SRS policy implementing Pub. L. 94–23, as amended, they merely make provision for the Federal Government to assume what could otherwise be the State's cost of supplementing these cases. Therefore, the Secretary finds that it is appropriate to make these regulations effective August 26, 1976, and that notice of proposed rulemaking, as well as publication at least 45 days prior to the effective date, is unnecessary.

Although the notice of proposed rulemaking is being dispensed with, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203.

Copies of all comments received in response to these amendments will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue S.W., Washington, D.C. 20201, on or before October 12, 1976.

(Secs. 1102, 1616, Social Security Act, as amended; 49 Stat. 647 as amended; 86 Stat. 1474; (42 U.S.C. 1302, 1382e); sec. 401 of Pub. L. 92–603, Pub. L. 94–23, and Pub. L. 94–24.)

(Catalog of Federal Domestic Assistance Program No. 13.807, Supplemental Security Income Program)

Dated: June 7, 1976.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: August 13, 1976.

MARJORIE LYNCH,
Acting Secretary of Health, Education, and Welfare.

Part 416 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Section 416.2001 is amended by revising the language in paragraph (a) preceding paragraph (a)(1) to read as follows:

§ 416.2001 State supplementary payments; general.

(a) *State supplementary payments; defined.* State supplementary payments which shall be excluded from income pursuant to § 416.1151, are any payments made by a State or one of its political subdivisions (including any such payments for which reimbursement is available from the Social and Rehabilitation Service pursuant to Pub. L. 94–23 (89 Stat. 87), as amended by Pub. L. 94–313, to a recipient of supplemental security income benefits (or to an individual who would be eligible for such benefits except for income), if the payments are made:

* * * * *

2. Section 416.2080 is amended by adding thereto a new paragraph (g) to read as follows:

§ 416.2080 Limitation of fiscal liability of States.

* * * * *

(g) *Refugee assistance.* The State shall not be liable under this subpart to the Secretary for the amount of any State supplementary payment for which reimbursement is available from the Social and Rehabilitation Service pursuant to the Indochina Migration and Refugee Assistance Act of 1975 (Pub. L. 94–23), as amended. Further, such amount shall not be considered or included as a State supplementary payment for any purpose under this section, e.g., it shall not be included for determining when a State has exceeded the total amount described in paragraph (a) of this section, it does not give rise to debits or credits under paragraph (e) of this section, etc.

V 41 167 AUG 26 76 UM

3. Section 416.2090 is amended by adding thereto a new paragraph (d) to read as follows:

§ 416.2090 State funds advanced for supplementary payments.

* * * * * *

(d) *Advance payment and adjustment not applicable.* The provisions of paragraphs (a) and (b) of this section shall not apply with respect to any State supplementary payment for which reimbursement is available from the Social and Rehabilitation Service pursuant to the Indochina Migration and Refugee Assistance Act of 1975 (Pub. L. 94–23; 89 Stat. 87), as amended, since such amounts are not considered to be State supplementary payments for purposes of § 416.2080.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Sterile Prednisone Suspension

The Food and Drug Administration approves new animal drug application (92–233) filed by Syntex Laboratories, Inc., 3401 Hillview Dr., Palo Alto, CA 94304, proposing safe and effective intramuscular use of sterile prednisone suspension in horses and dogs for the treatment of inflammatory conditions involving joints and accessory structures. The approval is effective August 26, 1976.

The Commissioner of Food and Drugs is amending Part 522 (21 CFR Part 522) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 522 is amended by adding new § 522.1890 to read as follows:

§ 522.1890 Sterile prednisone suspension.

(a) *Specifications.* Each milliliter of sterile aqueous suspension contains 10 or 40 milligrams of prednisone.

(b) *Sponsor.* See No. 000033 in § 510.600(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used in horses and dogs for the treatment of inflammatory conditions involving joints and accessory structures.

(2) It is administered by intramuscular injection as follows:

(i) Horses—100 to 500 milligrams, repeating if necessary. If no response is observed after 3 to 4 days of therapy, reevaluate diagnosis.

(ii) Canine—0.25 to 1.0 milligram per pound of body weight for 3 to 5 days or until a response is noted. Treatment may be continued with an orally administered maintenance dose.

(3) Clinical and experimental data have demonstrated that corticosteroids administered orally or parenterally to animals may induce the first stage of parturition when administered during the last trimester of pregnancy and may precipitate premature parturition followed by dystocia, fetal death, retained placenta, and metritis.

(4) Not for use in horses intended for food.

(5) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Effective date: This regulation shall be effective on August 26, 1976.

Dated: August 19, 1976.

PHILIP D. CAZIER,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc.76–24990 Filed 8–25–76;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74–194]

PART 109—GENERAL

PART 110—ANCHORAGE REGULATIONS

Anchorage Grounds—Port of New York

On March 1, 1976, there was published in the FEDERAL REGISTER (41 FR 8794), a notice of proposed rulemaking to amend the anchorage regulations for New York Harbor by increasing the area of some New York anchorages, establishing safety requirements, and opening for general use certain previously restricted anchorages. The notice also contained a proposal to add the Ports and Waterways Safety Act of 1972 (PWSA) as the authority for regulating the anchorages established under the Anchorage Grounds Act in New York Harbor.

Interested persons were given the opportunity to comment on this proposal. All comments received before April 15, 1976 were considered by the Coast Guard before the promulgation of the final rule. Certain sections of the notice of proposed rulemaking are changed as a result of the comments received. There are also some minor organizational changes from the notice of proposed rulemaking in the final rule.

Several commenters stated that the increase in the maximum penalty for violation of the anchorage regulations is excessive. These regulations are issued under the Ports and Waterways Safety Act of 1972 (PWSA). Under PWSA, whoever commits a nonwillful violation of a regulation issued under it, in this instance the New York Anchorage Regulations, could be assessed a penalty of up to $10,000. As noted in the preamble to the notice of proposed rulemaking the casualties and near casualties in the New York Anchorages are a serious enough problem for the Coast Guard to use the PWSA as authority for regulating the New York anchorages. The anchorage regulations will not be the only method of handling operating problems. The Coast Guard will continue to cooperate with industry on vessel operations in New York Harbor; however, it is necessary for the Coast Guard as an enforcement agency to have the authority to assess penalties when unsafe vessel operations occur.

One commenter noted the elimination of the channel through Anchorage No. 21. He had not objection to the deletion of the channel, but pointed out that discussions are being conducted to establish a carfloat service that would require a channel through Anchorage No. 21. The Coast Guard would be able to reestablish the channel when it would be needed for the carfloat service.

Another commenter stated that occasionally a vessel at anchor near the edge of a channel would, during the tidal cycle, and with an offshore wind, swing into the channel for as much as an hour. This is an unsafe condition, and will not be allowed. The New York anchorage regulations are intended to make the Port as safe as possible. To allow a vessel at anchor to swing into the channel particularly during periods of reduced visibility would create an especially hazardous situation.

This commenter also recommended that an anchorage officer be right on scene to solve anchoring problems, pointing out that the Coast Guard had an anchorage officer during World War II. The Captain of the Port of New York maintains an anchorage plot in the Operations Duty Office, which is manned 24 hours a day. Since vessels must notify the Captain of the Port before anchoring, the anchorage plot in the Ship Movement Office should provide information for the Captain of the Port to deal with problems of anchorage overcrowding without the need for an anchorage officer on scene.

Another commenter recommended that vessels with a draft of 12 feet or less be allowed to use Anchorage No. 21–B when Anchorage No. 21–A cannot be used. This comment is not being adopted by the Coast Guard; however, the Captain of the Port under § 110.155(l)(13) can grant permission to vessels to anchor in other anchorages. After study on the use of Anchorage No. 21–B the Coast Guard is amending the draft restriction to allow vessels with a draft of over 10 feet instead of 12 feet.

Another comment recommended that Anchorage No. 23–A and 23–B be combined into one anchorage. Anchorage No. 23 was divided into two anchorages and made length restrictive to require vessels of similar length to be anchored in the same area. This increases the likelihood of anchored vessels swinging "in step" on the changes of the tide, and thus increases the number of vessels that can safely use these anchorages. The division of Anchorage No. 23 has been in effect for some time and the divided anchorages have been able to accommodate additional vessels, therefore the division of Anchorage No. 23–A and 23–B is retained.

Another commenter questioned why the requirement to anchor only within 5 hours of ebb tide applied only to tank vessels with drafts of 40 feet or over. This requirement is being changed to apply to all vessels with drafts of 40 feet or over to make the requirement consistent for all deep draft vessels.

Two commenters opposed requiring deep draft vessels to anchor on the ebb tide only in the Stapleton anchorages. One of these commenters noted that the number of vessels in the anchorage and whether the vessel is assisted by a tug are conditions that might mitigate the anchoring restriction. The Coast Guard is partially adopting this comment. The requirement of when a deep draft vessel may anchor is being retained; however, upon request, the Captain of the Port, after considering the conditions of the anchorage, might permit a vessel to anchor at a time otherwise prohibited by this regulation.

One comment opposed the section requiring vessels over 800 feet in length or 40 feet in draft to report 48 hours in advance of arrival at New York. The commenter pointed out the vessels reporting under the Automated Merchant Vessel Report (AMVER) system already report their intended arrival 48 hours in advance. While this is true, the report does not contain the vessel's draft or whether the vessel intends to anchor which is critical is controlling the proper distribution of vessels in the anchorages.

In consideration of the foregoing Part 109 and Part 110 of Title 33 of the Code of Federal Regulations are amended as follows:

Effective date: This amendment is effective on October 1, 1976.

Signed August 19, 1976.

O. W. SILER,
Admiral, U.S. Coast Guard
Commandant.

In consideration of the foregoing Part 109 and Part 110 of Title 33 of the Code of Federal Regulations are amended as follows:

1. By amending the authority citation for Part 109 by adding; unless otherwise noted.

2. By amending Part 109 by adding a new § 109.07 to read as follows:

§ 109.07 Anchorages under Ports and Waterways Safety Act of 1972.

The provisions of section 101 (3) and (4) of the Ports and Waterways Safety Act of 1972 as delegated to the Commandant of the U.S. Coast Guard in 49 CFR 1.46(n)(4) authorize the Commandant to specify times of movement within ports and harbors, restrict vessel operations in hazardous areas and under hazardous conditions, and direct the anchoring of vessels. The sections listed in § 110.1a of this Subchapter are regulated under Title I of the Ports and Waterways Safety Act of 1972.

(Pub. L. 92–340, Title I, 86 Stat. 424 (33 U.S.C. 1221 et seq.); 49 CFR 1.46(n)).

3. By amending the general authority citation for Part 110 by adding: Unless otherwise noted.

4. By amending Part 110 by adding a new § 110.1a to read as follows:

§ 110.1a Anchorages under Ports and Waterways Safety Act of 1972.

(a) The anchorages listed in this section are regulated under Title I, Ports and Waterways Safety Act of 1972 (33 U.S.C. 1221 et seq.):

(1) Section 110.155 *Port of New York.*

(b) Whoever violates any regulation under Title I Ports and Waterways Safety Act of 1972—

(1) Is liable to a civil penalty of not more than $10,000;

(2) If the violation is willfull is fined not less than $5,000 or more than $50,000 or imprisoned for not more than 5 years or both.

(Pub. L. 92–340, Title I, 86 Stat. 424 (33 U.S.C. 1221 et seq.); 49 CFR 1.46(n)).

5. By revising § 110.155(c)(1)(i), (c)(2)(i), (c)(3)(i), (c)(4)(i), and (c)(5) to read as follows:

§ 110.155 Port of New York.

* * * * * *

(c) *Hudson River.* * * *

(1) * * *

(i) When the use of Anchorage No. 16 is required by naval vessels, the vessels anchored therein shall move when the Captain of the Port directs them.

(2) * * *

(i) When the use of Anchorage No. 17 is required by naval vessels, the vessels anchored therein shall move when the Captain of the Port directs them.

(3) * * *

(i) When the use of Anchorage No. 18–A is required by naval vessels, the vessels anchored therein shall move when the Captain of the Port directs them.

(4) * * *

(i) When the use of Anchorage 18–B is required by naval vessels, the vessels anchored therein shall move when the Captain of the Port directs them.

(5) *Anchorage No. 19.* An area located east of the Weehawken-Edgewater Channel beginning at a point on the Manhattan shoreline at latitude 40°46'47.8" N., longitude 73°59'23.3" W.; thence to latitude 40°46'59.8" N., longitude 73°59'52.8" W.; thence to latitude 40°47'42.5" N., longitude 73°59'13" W.; thence to latitude 40°48'27" N., longitude 73°58'45.5" W.; thence to latitude 40°49'28" N., longitude 73°58'06.2" W.; thence to latitude 40°50'15.5" N., longitude 73°57'18" W.; thence to latitude 40°51'02.3" N., longitude 73°56'59" W.; thence to a point on the Manhattan shoreline at latitude 40°51'00.8" N., longitude 73°56'51" W.; thence following the shoreline to the point of beginning.

(i) No vessel may anchor in Anchorage No. 19 without permission from the Captain of the Port.

(ii) Each vessel shall report its position within Anchorage No. 19 to the Captain of the Port immediately after anchoring.

(iii) No vessel may conduct lightering operations in Anchorage No. 19 without permission from the Captain of the Port.

(iv) When the use of Anchorage No. 19 is required by naval vessels, the vessels anchored therein shall move when the Captain of the Port directs them.

(v) No vessel over 800 feet, in length overall, or 40 feet in draft may anchor in Anchorage No. 19 unless it notifies the Captain of the Port at least 48 hours before it arrives in New York Harbor.

§ 110.155 [Amended]

6. By revising § 110.155(d)(2)(i) by deleting the footnote following subparagraph (d)(2)(i).

7. By revising § 110.155(d)(5), (d)(6), and (d)(7) to read as follows:

* * * * * *

(d) *Upper Bay.*

* * *

(5) *Anchorage No. 21.* (*Bay Ridge Anchorage*). An area located at the junction of Bay Ridge and Anchorage Channels, beginning at a point of latitude 40°38'03" N., longitude 74°02'49.5" W.; thence to latitude 40°38'03" N., longitude 74°03'02" W.; thence to latitude 40°38'57" N., longitude 74°03'10" W.; thence to latitude 40°40'22.5" N., longitude 74°02'14.5" W.; thence to latitude 40°40'19.5" N., longitude 74°01'28" W.; thence to latitude 40°39'49" N., longitude 74°01'23" W.; thence to latitude 40°38'42" N., longitude 74°02'32.5" W.; thence to the point of beginning. Anchorage No. 21 is divided into Anchorage No. 21–A, Anchorage No. 21–B, and Anchorage No. 21–C.

(5–A) *Anchorage No. 21–A.* That portion on Anchorage No. 21, north of a line of latitude 40°39'09" N., and east of a line connecting a point at latitude 40°39'09" N., longitude 74°02'22" W., and latitude 40°40'20" N., longitude 74°01'35" W. Any vessel anchored in or intending to anchor in Anchorage 21–A shall comply with the following requirements.

(i) No vessel may anchor unless it notifies the Captain of the Port when it anchors of the vessel's name, length, and draft and its position in the anchorage.

V 41 167
AUG 26 76
UMI

(ii) Each vessel anchored shall notify the Captain of the Port when it weighs anchor.

(iii) No vessel may conduct lightering operations unless it notifies the Captain of the Port before it begins its lightering operations.

(iv) Each vessel lightering shall notify the Captain of the Port when it ends its lightering.

(v) No vessel may anchor unless it maintains a bridge watch, guards and answers channel 16 FM, and maintains an accurate position plot.

(vi) If any vessel is so close to another that a collision is probable, each vessel shall communicate with the other vessel and the Captain of the Port on channel 16 FM, and shall act to eliminate the close proximity situation.

(vii) No vessel may anchor unless it maintains the capability to get under way within 30 minutes, without permission from the Captain of the Port.

(viii) No vessel may anchor in a "dead ship" status (propulsion or control unavailable for normal control) without permission from the Captain of the Port.

(ix) Each vessel in a "dead ship" status while lightering shall engage a tug alongside during tide changes. The tug alongside may assume the channel 16 FM radio guard for the vessel after it notifies the Captain of the Port.

(x) No vessel over 800 feet in length overall or 40 feet in draft may anchor unless it notifies the Captain of the Port at least 48 hours before it arrives in New York Harbor.

(5–B) *Anchorage No. 21–B.* That portion of Anchorage No. 21 north of a line drawn from latitude 40°39'14.3'' N., longtitude 74°02'59'' W. to latitude 40°38'43.9'' N., longitude 74°02'30.5'' W. and exclusive of the above designated Anchorage No. 21–A area.

(i) No vessel with a draft 3.048m (10 feet) or less may anchor in Anchorage No. 21–B.

(ii) Any vessel anchored in or intending to anchor in Anchorage 21–B must comply with the regulations for Anchorage No. 21–A (§ 110.155(d) (5–A) (i)–(x)).

(5–C) *Anchorage No. 21–C.* That portion of Anchorage No. 21 south of a line drawn from latitude 40°39'14.3'' N., longitude 74°02'59'' W. to latitude 40°38'43.9'' N., longitude 74°02'30.5'' W.

(i) No vessel with a draft of 10.058m (33 feet) or less may anchor in Anchorage No. 21–C.

(ii) Any vessel anchored in or intending to anchor in Anchorage 21–C must comply with the regulations for Anchorage No. 21–A (§ 110.155(d) (5–A) (i)–(x)).

(6) *Anchorage No. 23 (Stapleton Anchorage).* An area located west of the Anchorage Channel beginning at a point of latitude 40°38'36.5'' N., longitude 74°04'13.3'' W.; thence to latitude 40°38'37'' N., longitude 74°03'49'' W.; thence to latitude 40°38'22'' N., longitude 74°03'36'' W.; thence to latitude 40°37'26.8'' N., longitude 74°03'18'' W.; thence to latitude 40°37'23.2'' N., longitude 74°03'59'' W.; thence to latitude 40°37'30.7'' N., longitude 74°04'04.5'' W.; thence to the point of beginning. Anchorage No. 23 is divided into Anchorage No. 23–A and Anchorage No. 23–B.

(6–A) *Anchorage No. 23–A.* That portion of Anchorage No. 23, north of a line bearing 090° T from the northernmost corner of Pier 12, Staten Island at latitude 40°37'49.5'' N., longitude 74°04'-10.4'' W.

(i) No vessel may anchor in Anchorage No. 23–A for a period longer than 48 hours without permission from the Captain of the Port.

(ii) No vessel with a length overall of more than 670 feet may anchor in Anchorage No. 23–A unless otherwise authorized by the Captain of the Port.

(iii) No vessel with a draft of 40 feet or over may anchor in Anchorage No. 23–A without permission from the Captain of the Port unless it anchors within 5 hours after ebb current begins at the Narrows. Daily predicted times of ebb current are found in the Department of Commerce Tidal Current Tables, Atlantic Coast of North America, utilizing the Narrows as the reference station.

(iv) Any vessel anchored in or intending to anchor in Anchorage 23–A shall comply with the regulations for Anchorage No. 21–A (§ 110.155(d) (5–A) (i)–(x)).

(6–B) *Anchorage No. 23–B.* That portion of Anchorage No. 23, south of a line bearing 090° T from the northernmost corner of Pier 12, Staten Island at latitude 40°37'49.5'' N., longitude 74°04'-10.4'' W.

(i) No vessel may anchor in Anchorage No. 23–B for a period longer than 48 hours without permission from the Captain of the Port.

(ii) No vessel with a length overall of 670 feet or less may anchor in Anchorage No. 23–B, unless otherwise authorized by the Captain of the port.

(iii) No vessel with a draft of 40 feet or over may anchor in Anchorage No. 23–B without permission from the Captain of the Port unless it anchors within 5 hours after ebb current begins at the Narrows. Daily predicted times of ebb current are found in the Department of Commerce Tidal Current Tables, Atlantic Coast of North America, utilizing the Narows as the reference station.

(iv) Any vessel anchored in or intending to anchor in Anchorage 23–B shall comply with the regulations for Anchorage No. 21–A (§ 110.155(d) (5–A) (i)–(x)).

(7) *Anchorage No. 24 (Stapleton Anchorage South).* An area located west of the Anchorage Channel beginning at a point of latitude 40°37'23.2'' N., longitude 74°03'59'' W.; thence to latitude 40°37'26.8'' N., longitude 74°03'18'' W.; thence to latitude 40°36'25'' N., longitude 74°02'58'' W. thence to a point on the Staten Island shoreline at latitude 40°36'20'' N., longitude 70°03'14'' W.; thence to the point of beginning.

(i) No vessel may anchor in Anchorage No. 24 for a period longer than 48 hours without permission from the Captain of the Port.

(ii) No vessel with a length overall of less than 800 feet (243.840 meters) or with a draft of less than 40 feet (12.192 meters) may anchor in Anchorage No. 24.

(iii) No vessel with a draft of 40 feet or over may anchor in Anchorage No. 24 without permission from the Captain of the Port unless it anchors within 5 hours after ebb current begins at the Narrows. Daily predicted times of ebb current are found in the Department of Commerce Tidal Current Tables, Atlantic Coast of North America, utilizing the Narrows as the reference station.

(iv) Any vessel anchored in or intending to anchor in Anchorage No. 24 shall comply with the regulations for Anchorage No. 21–A (§ 110.155(d) (5–A) (i)–(x)).

8. By revising § 110.155(e) to read as follows:

§ 110.155 Port of New York.

* * * * *

(e) *Anchorage No. 25 Gravesend Bay).* An area located east of Ambrose Channel beginning at a point on the Coney Island shoreline at latitude 40°-34'36'' N., longitude 74°00'47'' W.; thence to latitude 40°34'53'' N., longitude 74°01'56.5'' W.; thence to latitude 40°-35'24'' N., longitude 74°02'05'' W.; thence to latitude 40°35'58'' N., longitude 74°02'18.5'' W.; thence to a point on the Brooklyn shoreline at latitude 40°36'12.9'' N., longitude 74°01'24.2'' W.; thence following the shoreline to latitude 40°36'06.8'' N., longitude 74°00'54.5'' W.; thence to latitude 40°34'53.8'' N., longitude 74°00'23.5'' W.; thence following the shoreline to the point of beginning.

(i) When the use of Anchorage No. 25 is required by naval vessels, the vessels anchored therein shall move when the Captain of the Port directs them.

(ii) Any vessel anchored in or intending to anchor in Anchorage No. 25 must comply with the regulations for Anchorage No. 21–A (§ 110.155(d) (5–A) (i)–(x)).

9. By revising § 110.155(1) by adding a new paragraph (13) to read as follows:

§ 110.155 Port of New York.

* * * * *

(1) * * *

(13) Any vessel prohibited by these rules from anchoring in a specific anchorage because of the vessel's length or draft may anchor in the anchorage with permission from the Captain of the Port.

10. By adding the following note and authority citation of the end of § 110.155:

§ 110.155 Port of New York.

* * * * *

NOTE: The anchorage in this section are regulated under Title I, Ports and Waterways Safety Act of 1972 as stated in § 110.1a(a) of this Part. The penalties for violating regulations under this Act are stated in § 110.1a(b) of this Part.

(Pub. L. 92–340, Title I, 86 Stat. 424 (33 U.S.C. 1221 et seq.); 49 CFR 1.46(n))

Title 41—Public Contracts and Property Management

CHAPTER 9—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

[ERDA–PR Temporary Reg. No. 22]

PART 9–3—PROCUREMENT BY NEGOTIATION

Cost-Plus-Award-Fee Contracts

AUGUST 20, 1976.

1. *Purpose.* This regulation establishes ERDA cost-plus-award-fee contracting policy.

2. *Effective date.* This regulation is effective on August 26, 1976.

3. *Expiration date.* This regulation will remain in effect until it is canceled or until its provisions are incorporated into the ERDA–PR.

4. *Explanation of changes.* In Subpart 9–3.4, *Types of Contracts,* § 9–3.405–50, *Cost-plus-award-fee (CPAF) contract,* is added as follows:

Subpart 9–3.4 Types of Contracts

§ 9–3.405–50 Cost - plus - award - fee (CPAF) contract.

(a) *Description.* The CPAF contract is a cost-reimbursement type contract with special fee provisions. It provides a means of applying incentives in contracts which are not susceptible to finite measurements of performance essential to structured incentive contracts. The fee established in a CPAF contract consists of two parts: (1) A fixed amount (base fee) which does not vary with performance and which could be zero, and (2) an award amount (award fee), in addition to the fixed amount, sufficient to encourage attainment of excellent contract performance in stated areas such as quality, timeliness, ingenuity, and cost effectiveness. Award fee may be earned by the contractor in whole or in part. The amount of award fee to be paid is determined after a subjective evaluation by the Government of the contractor's performance, judged against performance criteria established by the Government and furnished in writing to the contractor. The number and kinds of performance goals and performance evaluation criteria used will differ widely from one contract to another. Therefore, when determining performance goals, criteria and rating plans, the contracting activity should select the plan which will motivate the contractor in a positive way to improve performance in specific areas. Evaluation reports will be prepared by the Government and results should be furnished to the contractor for comment on the evaluation findings. Additionally, the contractor may be asked to provide an assessment of its performance in relation to each performance evaluation criterion. The decision that all or part of the award fee has been earned is a unilateral determination made by a fee determination official not subject to the Disputes clause of the contract.

(b) *Application.* The cost-plus-award-fee contract is suitable for use when:

(1) A cost-reimbursement type contract is found necessary;

(2) The work to be performed is such that specific quantitative or objective measurement is not feasible;

(3) The achievement of procurement objectives will be enhanced by the use of a contract that effectively motivates the contractor toward exceptional performance, and permits ERDA the flexibility to evaluate both actual performance levels and the conditions under which such levels were achieved; and

(4) Any additional administrative effort and cost required to monitor and evaluate performance, as well as added fees available for award, are justified by the benefits expected.

(c) *Consideration of concept.* (1) The opportunity to earn increased fees, the clear statement of goals, objectives, and performance evaluation criteria and the improved communication between and among ERDA personnel and the contractor, are designed to encourage the contractor to perform the required work effectively, to control costs, and to improve the timeliness and quality of performance. Base fees generally are negotiated commensurate with minimum acceptable performance, taking into consideration the various profit evaluation factors under § 9–3.808–2. The base fee should be set at a minimum in order to provide a large award fee pool, thereby providing the contractor maximum incentive to improve performance. The award fee potential should be large enough to reward the contractor at any level of performance above minimum acceptable. In this regard, the award of additional fee for performance exceeding minimum acceptable performance in evaluated areas should be contingent upon the maintenance of at least minimum acceptable levels in all other areas of contract performance.

(2) Although award fee determinations are unilateral ones based upon judgmental evaluations, quantifying devices such as adjective ratings, point systems, or percentages of achievements may be used. Where used, these devices are for the sole purpose of quantifying the facts considered, and the amount of award fee earned shall not be merely the result of the application of summing, averaging, or a mathematical formula.

(3) For operating, onsite service, architect-engineer and construction contracts which are subject to the maximum allowable CPFF fees set forth in the Interim ERDA Procurement Handbook, "Establishing and Negotiating Fee and Profit," dated March 1976, the base fee should normally not exceed 50 percent of the maximum allowable CPFF fee. The base fee plus the award fee should normally not exceed the maximum allowable CPFF fee by more than 50 percent.

(4) For contracts performed in commercial facilities, where the Weighted Guidelines (WGL) of § 9–3.808–50 can be used to establish a reasonable fee for acceptable performance level, the base fee should normally not exceed 50 percent of the fee developed using the WGL. The base fee plus the award fee should normally not exceed the WGL developed fee by more than 50 percent.

(5) Prior approval of the Director of Procurement is required for total fees exceeding: The guidelines in paragraphs (3) and (4) of this paragraph; 15 percent of estimated costs, exclusive of fees, in contracts for experimental, developmental, or research work; or 10 percent of estimated costs, exclusive of fees, in other contracts.

(d) *Payment of fees.* Base fees may be paid periodically as provided for in the contract. Award fees will be paid only after the amount of the award fee earned has been established. Payments of award fees earned will be made promptly after the award decision has been made in each evaluation period.

(e) *Limitations.* (1) The cost-plus-award-fee contract shall not be used (i) in procurements in which all factors to be considered in the award fee arrangement (e.g., cost, delivery, performance) can be measured objectively in terms of predetermined incentive targets, or (ii) where the contract amount, term of performance, or the benefits expected from use of the award fee arrangement are insufficient to warrant any additional administrative effort or cost that may be required.

(2) Cost-reimbursement type contracts having award fee arrangements limited to technical performance considerations are prohibited because they may increase cost disproportionately to any benefits gained. Instead, the award fee arrangement shall include both technical performance and business management considerations tailored to the needs of the particular situation. The only exception is a situation where cost estimating reliability and other factors are such that the negotiation of a separate, predetermined incentive sharing arrangement applicable to cost performance is determined both feasible and advantageous. The resulting contract would then be identified as a Cost-Plus-Incentive-Fee/Award-Fee combination type. The goals and evaluation criteria should be results-oriented. The award fee should be concentrated on the end product of the contract, that is, output, be it hardware, research, development, demonstration or services, together with business management considerations. However, input criteria such as equal employment opportunity, small business programs, functional management areas, such as safety, security, etc., cannot be disregarded and may be appropriate criteria upon which to base some part of the award fee. Specific goals or objectives should be established in relation to each performance evaluation criteria against which to measure contractor performance.

(f) *Evaluation.* (1) The contract should provide for evaluation at stated intervals during contract performance, so that the contractor will know how its performance is rated and what areas need to be improved. Partial payment of award fee earned will correspond to the evaluation periods. This will make effec-

V 41 167 AUG 26 76 UMI

tive the incentive which the award fee was designed create by inducing the contractor to improve poor performance or to continue excellent performance.

(2) The contractor shall be furnished the performance evaluation criteria to be used to arrive at the award fee before award of the contract. The goals and objectives should be clearly set forth.

(3) As a part of contract negotiation, the Government should obtain agreement and incorporate into the contract a provision that the Government unilaterally can change the performance evaluation criteria, goals and objectives, weights and rating plan after reasonable advance notice to the contractor. The specific number of days constituting reasonable notice should be agreed to in advance by the parties.

(g) *Organization and administration.*

(1) Individuals will be designated as performance monitors. They will be responsible for evaluating, in assigned areas, the contractor's performance against the established criteria.

(2) A board will be established to evaluate the contractor's performance (based on monitors' reports, contractor's input and other information) and to recommend the amount of the award fee to the fee determination official.

(3) The fee determination official will be an individual who is organizationally above the persons who are directly involved in performance evaluation.

(4) The contractor should be given an opportunity to present matters to the board or the fee determination official on its own behalf.

(Sec. 105, Energy Reorganization Act of 1974 (Pub. L. 93-438).)

Effective date: August 26, 1976.

M. J. TASHJIAN,
Director of Procurement.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

[Circular No. 2402]

PART 3520—PREFERENCE RIGHT AND COMPETITIVE LEASES

PART 9230—TRESPASS

Mineral Leasing Regulations

On page 23206 of the FEDERAL REGISTER of Wednesday, June 9, 1976, a notice was published proposing to amend two sections of 43 CFR 3520 and one section of 43 CFR 9230 to clearly state that leasable minerals cannot be mined in commercial quantities prior to the issuance of a lease for that purpose. Comments were requested for a thirty-day period, ending July 10, 1976. Since no comments, suggestions, or objections were received, the rulemaking is adopted as proposed.

Under the authority of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 181-287) and the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351-359), Title 43, Subtitle B, Chapter II is amended as set forth below, effective September 27, 1976.

CHRIS FARRAND,
Deputy Assistant Secretary of the Interior.

AUGUST 19, 1976.

1. Section 3520.2-2(a) is revised to read as follows:

§ 3520.2-2 Dating of Leases.

(a) Leases will be dated the first day of the month following the date signed by the lessor, except that upon receipt of a prior written request, a lease may be dated the first day of the month in which it is signed.

* * * * *

2. Section 3521.4-1 is revised to read as follows:

§ 3521.4-1 Preference right lease.

Mining operations carried on prior to the effective date of a lease shall constitute an act of trespass.

3. Section 9239.5-3(b) is amended to read as follows:

§ 9239.5-3 Coal.

* * * * *

(b) *Coal mined when there is no lease in effect.* Any mining of coal which is not pursuant to a coal lease in effect at the time of the mining shall constitute a trespass, and the coal so mined must be paid for on a trespass basis.

[FR Doc.76-25029 Filed 8-25-76;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20785; RM-2597]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations; Table of Assignments

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations (Bryan, Texas).

1. The Commission herein considers its notice of proposed rulemaking, 41 FR 17784, in the above-captioned proceeding issued in response to a petition filed by Scott and Davis Enterprises (S&D).[1] The petition proposed the assignment of Channel 285A to Bryan, Texas, as a second FM assignment to the community. S&D is the only commenting party.

2. Bryan, Texas (pop. 33,719), seat of Brazos County (pop. 57,978),[2] is located adjacent to College Station, Texas, approximately 257 kilometers (160 miles) southeast of Dallas and 145 kilometers (90 miles) northwest of Houston. Bryan presently receives local aural service from AM Station KTAM and FM Station KORA-FM (Channel 252A), Bryan. Service is also provided from nearby College Station by daytime-only AM Station WTAW and FM Station WTAW-FM (Channel 221A).

3. S&D sets forth in its supporting comments a level of commercial and economic activity in the Bryan area sufficient to support the assignment of a second FM channel to the community. It points out that, during the period 1960-1970, the population of Bryan increased 22.4 percent and that of College Station 55.1 percent. S&D adds that Bryan-College Station will experience a 40 percent population increase during 1970-1980, and a 232.7 percent increase during 1970-2020. S&D states it will promptly apply for a construction permit to operate on Channel 285A at Bryan if the proposed assignment is granted, and will provide the only "Good Music" format in the Bryan-College Station area, operating with maximum permissible facilities.

4. Preclusion would occur only on co-channel 285A in a very small area which is sparsely populated. The impact of the potential preclusion is insignificant. In order to meet the minimum distance separation requirements of our rules, a site 4.8 kilometers (3 miles) north of the community would be required.[3]

5. We have given careful consideration to the proposal in this proceeding and believe Channel 285A should be assigned to Bryan, Texas. Considering the size of Bryan (which qualifies for one or two assignments), its currrent and anticipated growth, the fact that preclusion would be limited to Channel 285A in a very small area which is sparsely populated and the assignment would result in efficient use of radio spectrum, we are of the view that the assignment of Channel 285A to Bryan, Texas would serve the public interest.

6. Authority for the action taken herein is contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules.

§ 73.202 [Amended]

7. In view of the foregoing, *It is ordered*, That effective September 30, 1976, § 73.202(b) of the Commission's Rules, the Table of FM Assignments, is amended to read as follows:

City:	*Channel No.*
Bryan, Tex	252A, 285A

8. *It is further ordered*, That this proceeding is terminated.

[1] We are informed by letter dated October 6, 1975, signed by Stuart F. Pierson, counsel for Scott and Davis Enterprises, that all ownership interest in Scott and Davis Enterprises are now owned by Bob Bell.

[2] All population figures are taken from the 1970 U.S. Census.

[3] On April 9, 1976, the Commission granted the application (BMPH-14767) of Radio Lufkin, Ltd., licensee of KLUF-FM, to modify its existing construction permit so as to specify a transmitter site location 10.5 kilometers (6.5 miles) northwest of Lufkin. We also granted the earlier request of Radio Lufkin to dismiss a prior application (BMPH-14617) to locate the transmitter site for KLUF-FM southwest of Lufkin (a site which would have barred the proposed assignment to Bryan).

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

Adopted: August 17, 1976.

Released: August 19, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.76-25055 Filed 8-25-76;8:45 am]

[Docket No. 20803; RM-2629]

PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations; Table of Assignments; Correction

In the matter of amendment of § 73.606(b), table of assignments, television broadcast stations (Park Falls, Wisconsin).

In the *Report and Order* in the above-entitled proceeding, Mimeo No. 41951, which was released on August 4, 1976, the amendment to the Television Table of Assignments, § 73.606(b) of the Commission's Rules, appearing in paragraph 6 of the *Report and Order* should be amended to read as follows:

§ 73.606 [Amended]

City:	*Channel No.*
Park Falls, Wis	*36+

Released: August 20, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.76-25054 Filed 8-25-76;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-20; Notice 5]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Rearview Mirrors

This notice amends Standard No. 111, Rearview Mirrors, to establish separate requirements for school buses, to increase the amount of reflective surface required for mirrors on multipurpose passenger vehicles and trucks with a GVWR of 25,000 pounds or more, and to extend the coverage of the standard to motorcycles.

By final rule published by the National Highway Traffic Safety Administration (NHTSA) on August 12, 1975 (40 FR 33825), Standard No. 111 (49 CFR 571.111) was amended to allow installation of truck-type mirror systems on multipurpose passenger vehicles and to extend the coverage of the standard to trucks and buses. As amended, the standard specified identical requirements for all types of buses. No distinction was made between commercial buses and school buses. No requirements were set out for motorcycles, as had been proposed in an earlier notice. Further, the standard imposed the same requirements for all multipurpose passenger vehicles, trucks, and buses with a GVWR of more than 10,000 pounds.

At the time of these changes, the NHTSA had completed further research and considered comments submitted by participants in that rulemaking, and determined that the promulgation of separate rearview mirror requirements for motorcycles, school buses, and multipurpose passenger vehicles and trucks with a GVWR of 25,000 pounds or more would ensure the provision of minimum mirror performance levels essential to motor vehicle safety. Therefore, a notice proposing these changes was also published on August 12, 1975 (40 FR 33828), and forms the basis of the present amendments.

Interested persons were afforded an opportunity to submit comments on the proposal by September 26, 1975, and due consideration has been given to the 24 comments received. The National Motor Vehicle Safety Advisory Council did not take a position on the proposed amendments. (Active dockets concerning rearview mirrors are Docket No. 74-20 and Docket No. 71-3a.)

Commenters generally agreed with the NHTSA proposal to establish rearview mirror requirements for motorcycles. However, the Grote Manufacturing Company opposed the optional use of convex mirrors, contending that their use on motorcycles would be hazardous due to the distortion of distance characteristics of convex mirrors and the unfamiliarity of young drivers with them. The NHTSA has decided that both plane and convex motorcycle mirrors should be permitted, since available data does not support the contention that convex mirrors would be hazardous. The SAE Recommended Practice J268(a), "Rear View Mirrors—Motorcycles," specifies criteria for both plane and convex mirrors, and convex mirrors are presently in common usage on motorcycles.

There were also recommendations for both larger and smaller minimum reflective area requirements for motorcycle mirrors, and one recommendation for field-of-view performance requirements instead of a reflective area requirement. The amendment specifies 12.5 in² of reflective surface for a plane motorcycle mirror or 10 in² of reflective surface for a convex mirror. The NHTSA concludes that these required reflective surface areas will ensure a safe level of rearview visibility on motorcycles. The NHTSA finds the larger reflective area is needed on the plane mirror to offset its smaller field-of-view compared to that of a convex mirror. It is contemplated that field-of-view performance requirements will be developed in future rulemaking.

The State of California commented that the SAE Recommended Practice J964a, specified in paragraph S11 of the standard, does not include a procedure for measuring the reflectance of convex mirrors, and suggested that a different procedure be specified. This suggestion is not well taken since, contrary to California's comment, the Recommended Practice does include a procedure for measuring convex mirror reflectance.

This amendment excepts school buses from the general bus requirements specified in paragraphs S6 and S7 of the standard, as amended by this notice, and establishes a new paragraph, S9, which requires school buses to be equipped with outside mirrors of unit magnification with not less than 50 in² of reflective surface and, except for forward control vehicles, with a convex cross-view mirror that has a minimum of 40 in² of reflective surface and an average radius of curvature not less than 12 inches and not greater than 25 inches.

The Grote Manufacturing Company contended that a 50 in² plane mirror on the right side of a school bus is inadequate, but the NHTSA believes that the 50 in² mirror in common use offers sufficient reflective area. Likewise, the NHTSA cannot agree with the views of the States of California and Illinois that a 40 in² cross-view mirror is insufficient. Manufacturers can meet this requirement with the 7½ inch-diameter convex mirror which is commonly installed on school buses and which has been found to be adequate.

California also opposed the proposal that forward control school buses be excluded from the cross-view mirror requirements, stating that cross-view mirrors might be necessary on some forward control configurations. The NHTSA will consider this aspect of California's comment in future rulemaking in which the agency plans to develop field-of-view performance tests.

The State of Illinois, noting that the proposed amendments specified requirements for cross-view mirrors on school buses, recommended that the title of Standard No. 111, Rearview Mirrors, be shortened to "Mirrors." The NHTSA believes that such a change is unnecessary and might create confusion since the industry has come to associate the existing title with the standard number. Therefore, there is no change in the title of Standard No. 111 even though this amendment adds a provision for cross-view mirrors.

Several commenters, including Blue Bird Body Company, the State of Illinois, and the Grote Manufacturing Company, disagreed with the preamble discussion concerning preemption that appeared in the notice proposing this amendment (40 FR 33828), in regard to Federal versus State requirements for rearview mirrors on school buses. There appears to be some confusion concerning the provision of the National Traffic and Motor Vehicle Safety Act of 1966, Pub. L. 89-563 (15 U.S.C. 1392(d)) that allows states and political subdivisions to impose higher standards of performance than is required by Federal standards in the case of vehicles procured for their own use. Blue Bird Body Company commented that the interpretation in the preamble to the proposal "would allow local governments and other parties to specify potentially conflicting requirements with all NHTSA standards." This is incorrect. Section 103(d) of the National Traffic and Motor Vehicle Safety Act provides that no State or political subdivision of a State shall have author-

V 41 167 AUG 26 76 UM

ity to establish a motor vehicle safety standard governing the same aspect of performance of a motor vehicle or of motor vehicle equipment as a Federal standard, unless it is identical to the Federal standard. The only exception, also provided in section 103(d) of the Act, is that a State may establish a safety requirement applicable to motor vehicles or motor vehicle equipment procured for its own use if such requirement imposes a higher standard of performance than the Federal standard. This means that a State may impose requirements additional to those specified in an applicable Federal standard only if the vehicles are procured specifically for use by the State or its political subdivision. Therefore, a State may not require vehicles manufactured or sold for use by private parties to meet any standards not identical with Federal standards, even if the State standard would require a higher level of performance. Use of the phrase "higher standard of performance" means that the State standard must not conflict with the Federal standard but may contain additional requirements.

The phrase does not mean that a State standard will be subjectively analyzed as a whole to determine its comparable worth in safety terms in relation to a Federal standard. Such an interpretation would create impracticable results. Finally, as stated in the preamble of the notice proposing these amendments, the National Traffic and Motor Vehicle Safety Act of 1966 does not prohibit a nongovernmental purchaser of a vehicle from contracting with a manufacturer or dealer for additional safety features beyond those required by Federal motor vehicle safety standards.

The majority of comments favored the proposal that multipurpose passenger vehicles and trucks with a GVWR of more than 10,000 and less than 25,000 pounds, and buses, other than school buses, with a GVWR of more than 10,000 pounds continue to be equipped with outside mirrors of unit magnification on both sides of the vehicle, each with not less than 50 in² of reflective surface.

The Teamsters Union recommended that the proposed 75-square-inch reflective area requirement for trucks and multipurpose vehicles with a GVWR of 25,000 pounds or more be increased to a 96-square-inch requirement. The NHTSA has carefully considered the views of the Teamsters, but must conclude, based on available studies, that the proposed 75-square-inch mirror is adequate for safety purposes. Further, a larger reflective area requirement would prohibit the new truck mirrors that are designed to be mounted below the driver's line of sight. Use of these mirrors is encouraged by the agency since they do not obstruct the forward view of the driver, as do the larger "West Coast" mirrors.

The obstruction of the forward view due to the mounting location of some of the larger mirrors can create a potential safety hazard, as pointed out by several commenters. However, rather than incorporating mounting location as a requirement of the standard at this time, the NHTSA believes the problem can better be solved through viewing performance requirements to be promulgated in the future.

The State of California suggested that minimum width requirements be specified for side-mounted mirrors, and that truck classification be based on a system other than GVWR. We see no need to specify width requirements. The California comments provided no evidence, and the agency has no indication, that manufacturers would circumvent the purposes of the standard by providing long and narrow side mirrors. No circumvention of this sort has occurred in the case of mirrors currently available on the market. The NHTSA recognizes that truck classification based on GVWR creates some artificiality in the applicability of requirements, but other methods of classification create similar problems. These problems can better be corrected in future rulemaking with the specification of field-of-view performance requirements.

Finally, several commenters recommended that combination plane and convex mirrors be required for large multipurpose passenger vehicles and trucks, in order to increase the field of view. The NHSTA agrees that the use of convex mirrors on larger vehicles would be of some benefit because of the increased field-of-view they would provide. Therefore, the agency publishes in this issue of the FEDERAL REGISTER a proposal to amend Standard No. 111 to specify the optional use of plane and convex mirror combinations on buses other than school buses, multipurpose passenger vehicles, and trucks that have a GVWR of 10,000 pounds or more.

This amendment also clarifies the deflection requirements for inside rearview mirror mountings on passenger cars. The amendment specifies that the mounting is required to "break away" when the test force is applied to the reflective surface of the mirror in any direction that forms an angle of up to 45° with the forward longitudinal direction. The amendment clarifies that the mounting is required to deflect, collapse, or "break away" when the force is applied to the reflective surface in a generally forward direction.

The provision of Standard No. 111 regarding mirror construction is amended to provide that the "average" reflectance value of the reflective film employed on any mirror required by the standard must be at least 35 percent. The purpose of this amendment is to make clear that the failure of any individual point or points on the reflective surface of a mirror to reflect 35 percent of a light source does not constitute a failure to comply with the standard if the average reflectance of the total points comprising the reflective surface is at least 35 percent.

The amendment incorporates into the mirror construction requirements the current test procedures for measurement of average reflectance value found in the Society of Automotive Engineers Recommended Practice J964a, August, 1974.

Standard No. 111 is further amended by this notice to add a definition of the term "mirror of unit magnification." This definition incorporates a previous NHTSA interpretation to the effect that precise "unit magnification" is not required by the standard if any deviations are not in excess of normal manufacturing tolerances. The definition provides that a prismatic day-night adjustment rearview mirror, one of whose positions provides unit magnification, is considered a unit magnification mirror.

The notice proposing these amendments (40 FR 33828) included a proposal that the term "driver's eye reference point" referred to in S5.1.1 and S5.2.1 of the standard as amended by this notice, be changed to "driver's eye reference points" in order to more accurately describe the locations to which the term refers. The notice further proposed that the standard be amended to permit location of the driver's eye reference point at "a nominal location appropriate for any 95th percentile male driver," as had been established in a previously published NHTSA interpretation (32 FR 5498). At the time of the proposal, Standard No. 111 only provided that the location of the driver's eye reference point "shall be that established in Motor Vehicle Safety Standard No. 104." The proposal provided that the location of the eye reference point could be derived through either formula.

In response to four petitions for reconsideration, by final rule issued February 19, 1976 (41 FR 7510), Standard No. 111 was amended to partially adopt the proposed changes regarding driver's eye reference point. The standard was amended to incorporate the previous NHTSA interpretation which allowed location of the driver's eye reference point "at a nominal location appropriate for any 95th percentile adult male driver." The petitioners had requested that this aspect of the proposal be adopted immediately.

Today's amendment completes the adoption of the proposed changes by modifying the term "driver's eye reference point" to read "driver's eye reference points." As amended, the last sentence of S5.1.1 and of S5.2.1 now reads: "The location of the driver's eye reference points shall be those established in Motor Vehicle Safety Standard No. 104 (§ 571.104) or a nominal location appropriate for any 95th percentile adult male driver." Even with these changes, however, there still appears to be much confusion concerning this aspect of the field-of-view performance requirements for passenger cars. General Motors has recommended that the reference to Standard No. 104 in paragraphs S5.1.1 and S5.2.1 be deleted, since that standard's designation of "eye reference points" is ambiguous. In light of the evident confusion, the NHTSA is proposing in this issue of the FEDERAL REGISTER to amend paragraphs S5.1.1 and S5.2.1 of Standard No. 111 to specify that location of driver's eye reference points shall be determined in accordance with the procedure found in SAE Recommended

Practice J1050, "Describing the Driver's Field of View," Section 7 (September, 1973). References to Standard No. 104 and to the "nominal location" method of determining the eye reference points would be deleted from the standard.

These amendments should have only a minimal economic and environmental impact, since manufacturers are currently equipping vehicles with the same type mirrors that are required by the amendments.

In consideration of the foregoing, the amendments of Motor Vehicle Safety Standard No. 111 (49 CFR 571.111) are adopted without change, as set forth below.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 1.50.)

Effective date: February 26, 1977.

Issued on August 17, 1976.

JOHN W. SNOW,
Administrator.

Section 571.111 is added to read as follows:

§ 571.111 Standard No. 111; Rearview Mirrors.

S1. *Scope.* This standard specifies requirements for the performance and location of rearview mirrors.

S2. *Purpose.* The purpose of this standard is to reduce the number of deaths and injuries that occur when the driver of a motor vehicle does not have a clear and reasonably unobstructed view to the rear.

S3. *Application.* This standard applies to passenger cars, multipurpose passenger vehicles, trucks, buses, school buses and motorcycles.

S4. *Definition.* "Unit magnification mirror" means a plane or flat mirror with a reflective surface through which the angular height and width of the image of an object is equal to the angular height and width of the object when viewed directly at the same distance except for flaws that do not exceed normal manufacturing tolerances. For the purposes of this regulation a prismatic day-night adjustment rearview mirror one of whose positions provides unit magnification is considered a unit magnification mirror.

S5. *Requirements for passenger cars.*

S5.1. *Inside rearview mirror.* Each passenger car shall have an inside rearview mirror of unit magnification.

S5.1.1. *Field of view.* Except as provided in S5.3, the mirror shall provide a field of view with an included horizontal angle measured from the projected eye point of at least 20 degrees, and sufficient vertical angle to provide a view of a level road surface extending to the horizon beginning at a point not greater than 200 feet to the rear of the vehicle when the vehicle is occupied by the driver and four passengers or the designed occupant capacity, if less, based on an average occupant weight of 150 pounds. The line of sight may be partially obscured by seated occupants or by head restraints. The location of the driver's eye reference points shall be those established in Motor Vehicle Safety Standard No. 104 (§ 571.104) or a nominal location appropriate for any 95th percentile male driver.

S5.1.2. *Mounting.* The mirror mounting shall provide a stable support for the mirror, and shall provide for mirror adjustment by tilting in both the horizontal and vertical directions. If the mirror is in the head impact area, the mounting shall deflect, collapse or break away without leaving sharp edges when the reflective surface of the mirror is subjected to a force of 90 pounds in any forward direction that is not more than 45° from the forward longitudinal direction.

S5.2 *Outside rearview mirror—driver's side.*

S5.2.1. *Field of view.* Each passenger car shall have an outside mirror of unit magnification. The mirror shall provide the driver a view of a level road surface extending to the horizon from a line, perpendicular to a longitudinal plane tangent to the driver's side of the vehicle at the widest point, extending 8 feet out from the tangent plane 35 feet behind the driver's eyes, with the seat in the rearmost position. The line of sight may be partially obscured by rear body or fender contours. The location of the driver's eye reference points shall be those established in Motor Vehicle Safety Standard No. 104 (§ 571.104) or a nominal location appropriate for any 95th percentile male driver.

S5.2.2. *Mounting.* The mirror mounting shall provide a stable support for the mirror, and neither the mirror nor the mounting shall protrude farther than the widest part of the vehicle body except to the extent necessary to produce a field of view meeting or exceeding the requirements of S5.2.1. The mirror shall not be obscured by the unwiped portion of the windshield, and shall be adjustable by tilting in both horizontal and vertical directions from the driver's seated position. The mirror and mounting shall be free of sharp points or edges that could contribute to pedestrian injury.

S5.3. *Outside rearview mirror passenger's side.* Each passenger car whose inside reafview mirror does not meet the field of view requirements of S5.1.1 shall have an outside rearview mirror of unit magnification installed on the passenger's side. The mirror mounting shall provide a stable support and be free of sharp points or edges that could contribute to pedestrian injury. The mirror need not be adjustable from the driver's seat but shall be capable of adjustment by tilting in both horizontal and vertical directions.

S6 *Requirements for multipurpose passenger vehicles, trucks, and buses, other than school buses, with GVWR of 10,000 pounds or less.*

S6.1. Each multipurpose passenger vehicle, truck and bus, other than a school bus, with a GVWR of 10,000 pounds or less shall have either—

(a) Mirrors that conform to the requirements of S5; or

(b) Outside mirrors of unit magnification, each with not less than 19.5 in² of reflective surface, installed with stable supports on both sides of the vehicle, located so as to provide the driver a view to the rear along both sides of the vehicle, and adjustable in both the horizontal and vertical directions to view the rearward scene.

S7. *Requirements for multipurpose passenger vehicles and trucks with a GVWR of more than 10,000 and less than 25,000 pounds and buses, other than school buses, with a GVWR of more than 10,000 pounds.*

S7.1. Each multipurpose passenger vehicle and truck with a GVWR of more than 10,000 pounds and less than 25,000 pounds and each bus, other than a school bus, with a GVWR of more than 10,000 pounds shall have outside mirrors of unit magnification, each with not less than 50 in² of reflective surface, installed with stable supports on both sides of the vehicle. The mirrors shall be located so as to provide the driver a view to the rear along both sides of the vehicle and shall be adjustable both in the horizontal and vertical directions to view the rearward scene.

S8. *Requirements for multipurpose passenger vehicles and trucks with a GVWR of 25,000 pounds or more.*

S8.1 Each multipurpose passenger vehicle and truck with a GVWR of 25,000 pounds or more shall have outside mirrors of unit magnification, each with not less than 75 in² of reflective surface, installed with stable supports on both sides of the vehicle. The mirrors shall be located so as to provide the driver a view to the rear along both sides of the vehicle and shall be adjustable both in the horizontal and vertical directions to view the rearward scene.

S9. *Requirements for school buses.*

S9.1. *Outside rearview mirrors.* Each school bus shall have outside mirrors of unit magnification, each with not less than 50 in² of reflective surface, installed with stable supports on both sides of the vehicle. The mirrors shall be located so as to provide the driver a view to the rear along both sides of the vehicle and shall be adjustable both in the horizontal and vertical directions to view the rearward scene.

S9.2. *Outside cross view mirror.* Each school bus, except those which are forward control vehicles, shall have a convex mirror with at least 40 in² of reflective surface with an average radius of curvature not less than 12 inches and not greater than 25 inches, installed with a stable support, and mounted so as to provide the driver a view of the front bumper and the area in front of the bus.

S10. *Requirements for motorcycles.*

S10.1. Each motorcycle shall have either a mirror of unit magnification with not les than 12.5 in² of reflective surface, or a convex mirror with not less than 10 in² of reflective surface and an average radius of curvature not less than 20 inches and not greater than 60 inches, installed with a stable support, and

V 41 167
AUG 26 76
UMI

mounted so that the horizontal center of the reflective surface is at least 11 inches outward of the longitudinal centerline of the motorcycle. The mirror shall be adjustable by tilting in both the horizontal and vertical directions.

S11. *Mirror construction.* The average reflectance value of the reflective film employed on any mirror required by this standard, determined in accordance with SAE Recommended Practice J964a, August 1974, shall be at least 35 percent. If a mirror is of the selective position prismatic type, the reflectance value in the night driving position shall be at least 4 percent.

[Docket No. 73-03; Notice 07, et al.]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Effective Dates for School Bus Requirements

Docket No. 73-03; Notice 07; Docket No. 73-20; Notice 010; Docket No. 73-34; Notice 04; Docket No. 75-02; Notice 03; Docket No. 75-03; Notice 05; Docket No. 75-07; Notice 03; Docket No. 75-24; Notice 03.

This notice announces that the effective dates of the redefinition of "school bus" and of six Federal motor vehicle safety standards as they apply to school buses are changed to April 1, 1977, from the previously established effective dates. This notice also makes a minor amendment to Standard No. 220, School Bus Rollover Protection, and adds a figure to Standard No. 221, School Bus Body Joint Strength.

The Motor Vehicle and Schoolbus Safety Amendments of 1974 (the Act) mandated the issuance of Federal motor vehicle safety standards for several aspects of school bus performance, Pub. L. 93-492, section 202 (15 U.S.C. 1392(i)(1)(A)). These amendments included a definition of school bus that necessitated a revision of the existing definition used by the NHTSA in establishing safety requirements. The Act also specified that the new requirements "apply to each schoolbus and item of schoolbus equipment which is manufactured . . . on or after the expiration of the 9-month period which begins on the date of promulgation of such safety standards." (15 U.S.C. 1392(i)(1)(B).)

Pursuant to the Act, amendments were made to the following standards: Standard No. 301-75, Fuel System Integrity (49 CFR 571.301-75), effective July 15, 1976, for school buses not already covered by the standard, (40 FR 483521, October 15, 1975); Standard No. 105-75, Hydraulic Brake Systems (49 CFR 571.105-75), effective October 12, 1976 (41 FR 2391, January 16, 1976); and Standard No. 217, Bus Window Retention and Release (49 CFR 571.217), effective for school buses on October 26, 1976 (41 FR 3871, January 27, 1976).

In addition, the following new standards were added to Part 571 of Title 49 of the Code of Federal Regulations, effective October 26, 1976: Standard No. 220, School Bus Rollover Protection (41 FR 3874, January 27, 1976); Standard No. 221, School Bus Body Joint Strength (41 FR 3872, January 26, 1976); and Standard No. 222, School Bus Passenger Seating and Crash Protection (41 FR 4016, January 28, 1976). Also, the existing definition of "school bus" was amended, effective October 27, 1976, in line with the date set by the Act for issuance of the standards.

The Act was recently amended by Pub. L. 94-346 (July 8, 1976) to change the effective dates of the school bus standards to April 1, 1977 (15 U.S.C. 1392(i)(1)(B)). This notice is intended to advise interested persons of these changes of effective dates. In the case of Standard No. 301-75, the change of effective date is reflected in a conforming amendment to S5.4 of that standard. A similar amendment is made in S3 of Standard No. 105-75.

The agency concludes that the October 27, 1976, effective date for the redefinition of "school bus" should be postponed to April 1, 1977, to conform to the new effective dates for the upcoming requirements. If this were not done, the new classes of school buses would be required to meet existing standards that apply to school buses (e.g., Standard No. 108 (49 CFR 571.108)) before being required to meet the new standards. This would result in two stages of compliance, and would complicate the redesign efforts that Congress sought to relieve.

This notice also amends Standard No. 220 in response to an interpretation request by Blue Bird Body Company, and Sheller-Globe Corporation's petition for reconsideration of the standard. Both companies request confirmation that the standard's requirement to operate emergency exits during the application of force to the vehicle roof (S4(b)) does not apply to roof exits which are covered by the force application plate. The agency did not intend to require the operation of roof exits while the force application plate is in place on the vehicle. Accordingly, an appropriate amendment has been made to S4(b) of the standard.

With regard to Standard No. 220, Sheller-Globe also requested confirmation that, in testing its school buses that have a gross vehicle weight rating (GVWR) of 10,000 pounds or less, it may test with a force application plate with dimensions other than those specified in the standard. The standard does not prohibit a manufacturer from using a different dimension from that specified, in view of the NHTSA's expressed position on the legal effect of its regulations. To certify compliance, a manufacturer is free to choose any means, in the exercise of due care, to show that a vehicle (or item of motor vehicle equipment) would comply if tested by the NHTSA as specified in the standard. Thus the force application plate used by the NHTSA need not be duplicated by each manufacturer or compliance test facility. Sheller-Globe, for example, is free to use a force application plate of any width as long as it can certify its vehicle would comply if tested by the NHTSA according to the standard.

In a separate area, the agency corrects the inadvertent omission of an illustration from Standard No. 221 as it was issued January 26, 1976 (41 FR 3872). The figure does not differ from that proposed and, in that form, it received no adverse comment.

In accordance with recently-enunciated Department of Transportation policy encouraging adequate analysis of the consequences of regulatory action (41 FR 16200, April 16, 1976), the agency herewith summarizes its evaluation of the economic and other consequences of this action on the public and private sectors, including possible loss of safety benefits. The changes in effective dates for the school bus standards are not evaluated because they were accomplished by law and not by regulatory action.

The change of effective date for the redefinition of "school bus" will result in savings to manufacturers who will not be required to meet existing school bus standards between October 27, 1976, and April 1, 1977. The agency calculates that the only standard that would not be met would be the requirement in Standard No. 108 for school bus marker lamps. In view of the agency's existing provision for the marking of light school buses in Pupil Transportation Standard No. 17 (23 CFR 1204), it is concluded that the absence of this equipment until April 1, 1977, will not have a significant adverse impact on safety.

The interpretative amendment of Standard No. 220 and the addition of a figure to Standard No. 221 are not expected to affect the manufacture or operation of school buses.

In consideration of the foregoing, Part 571 of Title 49 of the Code of Federal Regulations is amended as follows:

§ 571.105-75 [Amended]

1. In Standard No. 105-75 (49 CFR 571.105-75), the date "October 12, 1976" in S3 is changed to "April 1, 1977".

§ 571.220 [Amended]

2. The first sentence of S4(b) of Standard No. 220 (49 CFR 571.220) is amended to read:

S4. *Requirements.*

* * * * *

(b) Each emergency exit of the vehicle provided in accordance with Standard No. 217 (§ 571.217) shall be capable of opening as specified in that standard during the full application of the force and after release of the force, except that an emergency exit located in the roof of the vehicle is not required to be capable of being opened during the application of the force.

§ 571.221 [Amended]

3. The figure set forth below is added to Standard No. 221 (49 CFR 571.221), following paragraph S6.1.3.

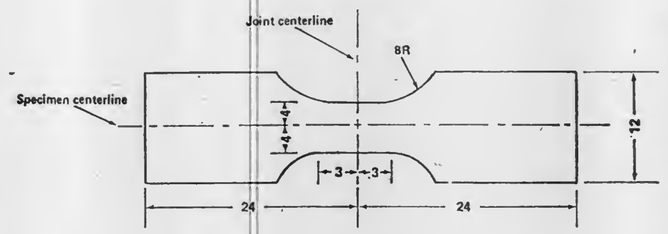
§ 571.301-75 [Amended]

4. In Standard No. 301-75 (49 CFR 571.301-75), the date "July 15, 1976" in S5.4 is changed to "April 1, 1977".

EFFECTIVE DATES

1. Because the listed amendments do not impose additional requirements of any person, the National Highway Traffic Safety Administration finds that an immediate effective date of August 26, 1976 is in the public interest.

2. The effective date of the redefinition of "school bus" in 49 CFR Part 571.3 that was published in the issue of December 31, 1976 (40 FR 60033) is changed to April 1, 1977.



3. The effective dates of Standard Nos. 105-75, 217, 301-75, 220, 221, and 222 (as they apply to school buses) are April 1, 1977, in accordance with Pub. L. 94-346.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); Pub. L. 94-346, Stat. (15 U.S.C. § 1392(1)(1)(B)); delegation of authority at 49 CFR 1.50)

Issued on August 17, 1976.

JOHN W. SNOW,
Administrator.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. No. 1250]

PART 1033—CAR SERVICE

Substitution of Hopper Cars for Covered Hopper Cars of Boxcars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 20th day of August 1976.

It appearing, That an acute shortage of covered hopper cars and boxcars for transporting shipments of grain, grain screenings, soybeans, or grain products exists in certain sections of the country; that some carriers have adequate supplies of open hopper cars; that use of these cars for transporting grain, grain screenings, soybeans, or grain products is precluded by certain tariff provisions requiring the use of covered hopper cars or boxcars, thus curtailing shipments of grain, grain screenings, soybeans, or grain products and creating great economic loss; that present regulations and practices with respect to the use, supply, control, movement, and distribution of covered hopper cars and boxcars are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1250 Service Order No. 1250.

(a) *Substitution of hopper cars for covered hopper cars or boxcars.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) *Substitution of cars.* Subject to the concurrence of the shipper, the carrier may substitute open hopper cars for shipments of grain, grain screenings, soybeans, or grain products, whether from the point of origin or from an intermediate in-transit point, regardless of tariff provisions requiring the use of covered hoppers or boxcars.

(2) *Minimum weights.* The minimum weights per shipment of grain, grain screenings, soybeans, or grain products transported in open hopper cars substituted for covered hopper cars or boxcars shall be the minimum weight specified in the tariffs for shipments made in covered hopper cars or boxcars regardless of the number of open hopper cars required to be used to secure the minimum weight.

(3) In shipping grain, grain screenings, soybeans, or grain products in open hopper cars in lieu of covered hopper cars or boxcars as provided herein, the shipper shall be deemed to have acknowledged the terms and conditions of the contract of carriage embodied in the bill of lading that the carrier shall not be liable for injury, loss, or damage to the lading resulting from a defect or vice in such property.

(4) Bills of lading covering movements authorized by this order shall contain a notation that shipment is moving under authority of Service Order No. 1250.

(5) The term "open hopper cars" means all cars listed in the Official Railway Equipment Register, I.C.C.-R.E.R. No. 400, issued by W. J. Trezise, or successive issues thereof, as having mechanical designations "HFA", "HK", "HM", "HMA", "HT", or "HTA".

(6) The term "covered hopper cars" means all cars listed in the Official Railway Equipment Register, I.C.C. No. 400, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "LO".

(7) The term "boxcars" means all cars listed in the Official Railway Equipment Register, I.C.C. No. 400, issued by W. J. Trezise, or successive issues thereof, as having mechanical designations "XL", "XLI", "XM", or "XMI".

(b) *Rules and regulations suspended.* The operation of tariffs or other rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(d) *Effective date.* This order shall become effective at 12:01 a.m., August 23, 1976.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., November 15, 1976, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384 as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Lewis R. Teeple, Thomas J. Byrne and William J. Love. Member Lewis R. Teeple not participating.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-24941 Filed 8-25-76;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Cibola National Wildlife Refuge, Arizona and California and Bitter Lake National Wildlife Refuge, New Mexico

The following special regulations are issued and are effective August 26, 1976.

V 41 167 AUG 26 76 UMI

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

CIBOLA NATIONAL WILDLIFE REFUGE

The public hunting of deer on Cibola National Wildlife Refuge, Arizona and California, is permitted as follows: Arizona—bow and arrow, from October 22 through November 7, 1976, inclusive; gun, from November 12 through November 21, 1976, inclusive. California—bow and arrow, from August 21 through September 13, 1976, inclusive; gun, from September 25 through November 7, 1976, inclusive. The areas designated by signs as open to hunting comprise 7,500 acres and are delineated on maps available at refuge headquarters, Blythe, California, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) Hunting is prohibited within one-fourth mile of any occupied dwelling or 250 yards of any farm field worker.

(2) Campfires will be permitted only in designated areas. All other open fires are prohibited.

(3) Wildlife observation is permitted within the two closed hunting zones. Persons are permitted to use only established routes of travel.

(4) Cibola Lake, located in Zone 1, is closed to fishing and boating from October 1 through March during the waterfowl use period.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1976.

NEW MEXICO

BITTER LAKE NATIONAL WILDLIFE REFUGE

The public hunting of deer on the Bitter Lake National Wildlife Refuge, New Mexico, is permitted only on the North Tract as follows: bow hunting, from September 18 through October 3, 1976, inclusive; general hunting, from November 6 through November 21, 1976, inclusive. This hunting area, comprising approximately 12,000 acres, is delineated on maps available at refuge headquarters, 13 miles northeast of Roswell, New Mexico, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1976.

ROBERT F. STEPHENS,
Acting Regional Director,
Albuquerque, New Mexico.

AUGUST 19, 1976.

[FR Doc.76-25028 Filed 8-25-76;8:45 am]

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 222—ENDANGERED FISH OR WILDLIFE

General Permit Requirement

On August 18, 1976, interim regulations were published in the FEDERAL REGISTER to implement the provisions of Pub. L. 94-359, which would allow the regulated disposal of certain pre-Act endangered species parts or products held in the course of a commercial activity prior to December 28, 1973.

The interim regulations established a new Subpart B of Part 222 which provides for the issuance of certificates of exemption. Such certificates of exemption will entitle the holder to engage in or carry on certain activities otherwise prohibited.

However, § 222.21 of Subpart C of this part appears to be in conflict with the new subpart B. It is the purpose of this amendment to eliminate any potential conflict and to make the existing regulations conform with the latest promulgation.

Accordingly, existing § 222.21 is amended as hereinafter set out.

This amendment is effective August 26, 1976.

JACK W. GEHRINGER,
Deputy Director.

In Subpart C of this part, § 222.21 is revised to read as follows:

§ 222.21 General permit requirement.

No person shall take, import, export, or engage in any other prohibited activity involving, any species or subspecies of fish or wildlife which the Secretary has determined to be endangered under the Endangered Species Act of 1973, as evidenced by its inclusion on the list of endangered fish or wildlife (see 50 CFR Chapter I, Part 17) or which the Secretary of the Interior determined to be endangered under the Endangered Species Conservation Act of 1969 and which are now under the jurisdictional responsibilities of the Secretary of Commerce, without a valid permit issued pursuant to this part.

[FR Doc.76-24992 Filed 8-25-76;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[27 CFR Parts 4, 5]

[Notice No. 300]

WINE AND DISTILLED SPIRITS BOTTLES AND CONFORMING CHANGE TO TEQUILA DESIGNATION

Label Information on Coverings or Cartons

The Bureau of Alcohol, Tobacco and Firearms with the approval of the Secretary of the Treasury or his delegate, is proposing amendments to the regulations for the labeling and advertising of wine and distilled spirits, 27 CFR Parts 4 and 5, respectively.

PETITION

Request. The Bureau of Alcohol, Tobacco and Firearms was recently petitioned by the Distilled Spirits Council of the United States, Inc. (DISCUS), a trade association representing numerous distillers and bottlers of distilled spirits and by Schenley Distillers, Inc., to amend 27 CFR Part 5, Labeling and Advertising of Distilled Spirits, with respect to information required to appear on coverings or cartons of individually wrapped or packed distilled spirits bottles.

Request for regulatory amendment. The proposals submitted by the petitioners would amend 27 CFR 5.41(c) to permit readily openable cartons of distilled spirits bottles to display any information which is not misleading stated alone, or is not in conflict with the label on the bottle therein.

Justification for amendment. In support of their proposal, the petitioners state that the present regulatory requirements for information on cartons and containers are unnecessarily restrictive. Specifically, they state that the present regulations preclude the depiction of key information (e.g., proof and net contents) that would be helpful to the consumer without the need for opening the carton, unless all of the mandatory information is present. Further, the petitioners contend that, although the regulations permit the name and address of the manufacturer, bottler, or importer to be shown on the container, the function of the permittee (e.g., bottler, rectifier, distiller) may be shown only if all of the mandatory information is indicated.

REGULATORY HISTORY

The regulations implementing the provisions of the Federal Alcohol Administration Act (FAA Act) were promulgated in 1936. At that time, provisions establishing information required to be included on coverings, cartons, or other containers of distilled spirits bottles were included in the regulations governing the labeling and advertising of distilled spirits (FAA regulations No. 5, section 51). These regulations provided that distilled spirits in bottles would be considered misbranded if the bottle was in an individual carton and such carton obscured the mandatory label information while failing to reproduce all mandatory label information. Cartons or containers were, however, permitted to display the name and address of the manufacturer, importer, or other person by whom bottled, without including all mandatory label information. These regulations were amended in 1969 to establish the current requirement that sealed cartons must bear all mandatory label information, whereas openable cartons must bear all mandatory label information only when the carton displayed information other than the brand name and the name and address of the manufacturing, bottler, or importer.

BUREAU EVALUATION OF REQUESTS

Effect on industry. The Bureau recognizes that industry packaging technology has changed over the years and, therefore, and, as a result, its regulations must be examined to identify unnecessarily restrictive or obsolete requirements. In this case we recognize that, in many instances, distilled spirits bottle cartons or containers are manufactured so as to permit ready access to the bottle and the information stated on its label. Therefore, we believe that the need for duplication of all mandatory information on the carton or container may not be necessary.

Effect on consumers. The Bureau also considers the effect of proposed regulatory changes on the retail purchaser of distilled spirits to be a determining factor in the consideration of a proposal of this nature. Although the petitioners for the amendment have indicated that the proposed regulatory changes would permit key information to be included on the bottle carton and that this would be helpful to the consumer, the Bureau also believes that "romance language" (puffery) would probably also be added to the carton to enhance its consumer appeal. The Bureau believes that such information could be added to cartons without misleading consumers, since regulations will retain existing provisions prohibiting statements or information on cartons or coverings which are false or create a misleading impression. Although the Bureau believes that the overall effect of the proposed amendments would not be detrimental to consumers, our information in this area is limited. Therefore, the Bureau has decided to propose the changes petitioned for, but at the same time encourage the submission of relevant comments or suggestions by consumers as well as members of the alcoholic beverage industry and other government agencies.

ADDITIONAL PROPOSED REGULATORY AMENDMENTS

Wine bottle cartons. In conjunction with the requested changes for the information on distilled spirits bottle cartons, the Bureau has examined the regulatory provisions for wine bottle cartons and believes that similar changes should be made in 27 CFR Part 4, Labeling and Advertising of Wine. Therefore, it is proposed to provide the same regulatory requirements for wine bottle cartons information as the proposed distilled spirits bottle information. In addition, it is proposed to eliminate obsolete regulatory references and relocate existing provisions to a more suitable position in the regulations. The changes will be accomplished by deleting § 4.31 and paragraph (j) of § 4.39 and by adding a new § 4.38a.

Standard of identity for Tequila. Pursuant to T.D. ATF-7 (38 FR 33300), effective February 1, 1974, Tequila was declared to be a distinctive product of Mexico. Section 5.22(j)(5), currently requires that the word "imitation" shall modify the name of any Tequila to which neutral spirits or distilled spirits other than Tequila have been added. However, since Tequila has been accorded special protection as a distinctive product of Mexico, if neutral spirits or distilled spirits other than Tequila are added outside of Mexico, the product may not contain the word "Tequila" in its designation, even if modified by the word "imitation". For this reason, the Bureau is proposing an amendment to § 5.22(j)(5) to eliminate the reference to Tequila.

PUBLIC PARTICIPATION

Prior to final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, (Attn: Chief, Regulations and Procedures Division) on or before September 27, 1976. Written comments or suggestions which are not exempt from disclosure by the Bureau of Alcohol, Tobacco and Firearms, may be inspected by any person upon compliance with 27 CFR 71.22(d)(7). The provisions of 27 CFR 71.31(b) shall apply with respect to designation of portions of com-

V 41 167 AUG 26 76 UMI

ments or suggestions as exempt from disclosure. Any interested person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director, Bureau of Alcohol, Tobacco and Firearms, within the 30-day period.

The proposed regulations are to be issued under the authority contained in section 5 of the Federal Alcohol Administration Act (49 Stat. 981, as amended (27 U.S.C. 205)).

PROPOSED REGULATIONS

In consideration of the foregoing, it is proposed that Title 27 of the Code of Federal Regulations be amended as follows:

PART 4—LABELING AND ADVERTISING OF WINE

§ 4.31 [Reserved]

PARAGRAPH 1. Section 4.31 is revoked and reserved.

PAR. 2. A new § 4.38a is added immediately following § 4.38, to provide for revised requirements concerning bottle cartons, booklets and leaflets, and it reads as follows:

§ 4.38a Bottle cartons, booklets and leaflets.

(a) *General.* An individual covering, carton, or other container of the bottle used for sale at retail (other than a shipping container), or any written, printed, graphic, or other matter accompanying the bottle to the consumer buyer shall not contain any statement, design, device, or graphic, pictorial, or emblematic representation that is prohibited by §§ 4.30–4.39 on labels.

(b) *Sealed cartons.* If bottles are enclosed in sealed opaque coverings, cartons, or other containers used for sale at retail (other than a shipping container), such coverings, cartons, or other containers must bear all mandatory label information.

(c) *Other cartons.* (1) If an individual covering, carton, or other container of the bottle used for sale at retail (other than a shipping container) is so designed that the bottle is readily removable, it may display any information which is not in conflict with the label on the bottle contained therein.

(2) Cartons displaying brand names and/or designations must display such names and designations in their entirety—brand names required to be modified, e.g. by "Brand" or "Product of U.S.A.", must also display such modification.

(3) Wines for which a truthful and adequate statement of composition is required must display such statement.

§ 4.39 [Amended]

PAR. 3. Paragraph (j) of § 4.39 is deleted.

PART 5—LABELING AND ADVERTISING OF DISTILLED SPIRITS

PAR. 4. Paragraph (j) (5) of § 5.22 is amended to delete reference to Tequila. As amended, paragraph (j) (5) reads as follows:

§ 5.22 The standards of identity.

* * * * * * *

(j) *Class 10; imitations.* * * *

(5) Any rum to which neutral spirits or distilled spirits other than rum have been added;

* * * * * * *

PAR. 5. Paragraph (c) of § 5.41 is amended to change the requirements for information that must be shown on bottle cartons. As amended, paragraph (c) reads as follows:

§ 5.41 Bottle cartons, booklets and leaflets.

* * * * * * *

(c) *Other cartons.* (1) If an individual covering, carton, or other container of the bottle used for sale at retail (other than a shipping container) is so designed that the bottle is readily removable, it may display any information which is not in conflict with the label on the bottle contained therein.

(2) Cartons displaying brand names and/or designations must display such names and designations in their entirety—brand names required to be modified, e.g. by "Brand" or "Product of U.S.A.", must also display such modification.

(3) Specialty products for which a truthful and adequate statement of composition is required must display such statement.

Signed: August 16, 1976.

REX D. DAVIS,
Director.

Approved: August 20, 1976.

JAMES J. FEATHERSTONE,
Acting Assistant Secretary of the Treasury.

[FR Doc.76-24903 Filed 8-25-76;8:45 am]

DEPARTMENT OF DEFENSE

Office of the Secretary

[32 CFR Part 256]

AIR INSTALLATIONS COMPATIBLE USE ZONES

Pursuant to 5 U.S.C. 552, notice is hereby given that a new Part 256, will be added to Subchapter M. Part 256 will state Department of Defense policy on Air Installations Compatible Use Zones. This policy was previously stated in Department of Defense Instruction 4165.57.[1] Public comment on that document was obtained through the Environmental Impact Statement process and a final statement was filed with the Council of Environmental Quality on June 30, 1973.

This proposed rule will revise the original document to place greater emphasis on state and local government involvement in the program; prioritize the land areas in which the Department of Defense may wish to acquire an interest with those areas having the greatest potential for aircraft accident first; classify runways by type of aircraft using them; adopt the Leq/Ldn noise descriptor system; define clear zones and accident potential zones; and clarify language.

Public comments on the proposed Part 256 may be addressed to the Deputy Assistant Secretary of Defense (Installations and Housing), Pentagon Building, Washington, D.C. 20301. All material received on or before September 30, 1976 will be considered. All comments in response to these proposed rules will be available for public inspection during normal business hours at the foregoing address.

The proposed Part 256 to this subchapter reads as follows:

PART 256—AIR INSTALLATIONS COMPATIBLE USE ZONES

Sec.
256.1 Purpose.
256.2 Applicability.
256.3 Criteria.
256.4 Policy.
256.5 The Air Installation compatible use program.
256.6 Runway classification by aircraft type.
256.7 Accident potential zone guidelines.
256.8 Land use compatibility guidelines for accidental potential zones and footnotes.
256.9 Real estate interests to be considered for clear zones and accident potential zone.
256.10 Air installations compatible use zone noise descriptors.
256.11 Effective date and implementation.

AUTHORITY: National Security Act of 1947, as amended, 61 Stat. 495.

§ 256.1 Purpose.

This part: (a) Sets forth Department of Defense policy on achieving compatible use of public and private lands in the vicinity of military airfields; (b) defines (1) required restrictions on the uses and heights of natural and man-made objects in the vicinity of air installations to provide for safety of flight and to assure that people and facilities are not concentrated in areas susceptible to aircraft accidents; and (2) desirable restrictions on land use to assure its compatibility with the characteristics, including noise, of air installations operations; (c) describes the procedures by which Air Installations Compatible Use Zones (AICUZ) may be defined; and (d) provides policy on the extent of Government interest in real property within these zones which may be retained or acquired to protect the operational capability of active military airfields (subject in each case to the availability of required authorizations and appropriations).

§ 256.2 Applicability.

This part applies to air installations of the Military Departments located within the United States, its territories, trusts, and possessions.

§ 256.3 Criteria.

(a) *General.* The Air Installations Compatible Use Zone for each military air installation shall consist of (1) land areas upon which certain uses may obstruct the airspace or otherwise be hazardous to aircraft operations, and (2) land areas which are exposed to the health, safety or welfare hazards of aircraft operations.

(b) *Height of Obstructions.* The land area and height standards defined in AFM 86-8,[2] NavFac P-272 and P-80,[2] and TM 5-803-4[2] will be used for purposes of height restriction criteria.

(c) *Accident Potential.* (1) *General.* (i) Areas immediately beyond the ends of runways and along primary flight paths are subject to more aircraft accidents than other areas. For this reason, these areas should remain undeveloped, or if developed should be only sparsely developed in order to limit, as much as possible, the adverse effects of a possible aircraft accident.

(ii) DoD fixed wing runways are separated into two types for the purpose of defining accident potential areas. Class A runways are those restricted to light aircraft (See § 256.6) and which do not have the potential for development for heavy or high performance aircraft use or for which no foreseeable requirement for such use exists. Typically these runways have less than 10 percent of their operations involving Class B aircraft (§ 256.6) and are less than 8000 feet long. Class B runways are all other fixed wing runways.

(iii) The following descriptions of Accident Potential Zones are guidelines only. Their strict application would result in increasing the safety of the general public but would not provide complete protection against the effects of aircraft accidents. Such a degree of protection is probably impossible to achieve. Local situations may differ significantly from the assumptions and data upon which these guidelines are based and require individual study. Where it is desirable to restrict the density of development of an area, it is not usually possible to state that one density is safe and another is not. Safety is a relative term and the objective should be the realization of the greatest degree of safety that can be reasonably attained.

(2) *Accident Potential and Clear Zones (See § 256.7).* (i) The area immediately beyond the end of a runway is the "Clear Zone", an area which possesses a high potential for accidents, and has traditionally been acquired by the Government in fee and kept clear of obstructions to flight.

(ii) Accident Potential Zone I (APZ I) is the area beyond the clear zone which possesses a significant potential for accidents.

(iii) Accident Potential Zone II (APZ II) is an area beyond APZ I having a measurable potential for accidents.

(iv) Modifications to APZs I and II will be considered if:

(A) The runway is infrequently used.

(B) The prevailing wind conditions are such that a large percentage (i.e., over 80 percent) of the operations are in one direction.

(C) Most aircraft do not overfly the APZs as defined herein during normal flight operations (modifications may be made to alter these zones and adjust them to conform to the line of flight).

(D) Local accident history indicates consideration of different areas.

(E) Other unusual conditions exist.

(v) The takeoff safety zone for VFR rotary-wing facilities wil be used for the clear zone; the remainder of the approach-departure zone will be used as APZ I.

(vi) Land use compatibility with clear zones and APZs is shown in § 256.8.

(d) *Noise.* (1) *General.* Noise exposure is described in various ways. In 1964, the Department of Defense began using the Composite Noise Rating (CNR) system to describe aircraft noise. Several years ago the Noise Exposure Forecast (NEF) system began to replace CNR. In August 1974, the Environmental Protection Agency notified all Federal agencies of intent to implement the Day-Night Average Sound Level (Ldn) noise descriptor, and this was subsequently adopted by the DoD. This Ldn system will be used for air installations. Where AICUZ studies have been published using the CNR of NEF systems or where studies have progressed to the point that a change in the descriptor system is impractical or uneconomical, such studies may be published and continued in use. However, in such cases, data necessary for conversion to Ldn should be collected and studies should be revised as soon as time and budgetary considerations permit. However, if state or local laws require some other noise descriptor, it may be used in lieu of Ldn.

(2) *Noise Zones.* (i) As a minimum, contours for Ldn 65, 70, 75 and 80 shall be plotted on maps as part of AICUZ studies.

(ii) See § 256.10 for a further discussion of Ldn use and conversion to Ldn from previously used systems.

§ 256.4 Policy.

(a) *General.* As a first priority step, all reasonable, economical, and practical measures will be taken to reduce and/or control the generation of noise from flying and flying related activities. Typical measures normally include siting of engine test and runup facilities in remote areas if practical, provision of sound suppression equipment where necessary, and may include additional measures such as adjustment of traffic patterns to avoid built-up areas where such can be accomplished with safety and without significant impairment of operational effectiveness. After all reasonable noise source control measures have been taken, there will usually remain significant land areas wherein the total noise exposure is such as to be incompatible with certain uses.

(b) *Compatible Use Land.* (1) *General.* (i) DoD policy is to work toward achieving compatibility between air installations and neighboring civilian communities by means of a compatible land use planning and control process conducted by the local community.

(ii) Land use compatibility guidelines will be specified for each Clear Zone, Accident Potential Zone, Noise Zone and combination of these as appropriate.

(iii) The method of control and regulation of land usage within each zone will vary according to local conditions. In all instances the primary objective will be to identify reasonable planning areas and land use guidelines which will be recommended to appropriate agencies who are in control of the planning functions for the affected areas.

(2) *Property Rights Acquisition.* (i) *General.* While noise generated by aircraft at military air installations should be an integral element of land use compatibility efforts, the acquisition of property rights on the basis of noise by the Department of Defense may not be in the long term best interests of the United States. Therefore, while the complete requirement for individual installations should be defined prior to any programming actions, acquisition of interests should be programmed in accordance with the following priorities.

(ii) *Priorities.* (A) The first priority is the acquisition in fee and/or appropriate restrictive easements of lands within the clear zones whenever practicable.

(B) Outside the clear zone, program for the acquisition of interests first in Accident Potential Zones and secondly in high noise areas only when all possibilities of achieving compatible use control, or similar protection, have been exhausted and the operational integrity of the air installation is manifestly threatened. If programming actions are considered necessary, complete records of all discussions, negotiations, testimony, etc., with or before all local officials, boards, etc., must be maintained. This will ensure that documentation is available to indicate that all reasonable and prudent efforts were made to preclude incompatible land use through cooperation with local governmental officials and that all recourse to such action has been exhausted. Such records shall accompany programming actions and/or apportionment requests for items programed prior to the date of this Part. In addition, a complete economic analysis and assessment of the future of the installation must be included.

(*1*) Costs of establishing and maintaining compatible use zones must be weighed against other available options, such as changing the installation, or such other courses of action as may be available. In performing analyses of this type, exceptional care must be exercised to assure that a decision to change or relocate a mission is fully justified and that all aspects of the situation have been thoroughly considered.

(2) When, as a result of such analysis, it is determined that relocation or abandonment of a mission will be required, then no new construction shall be undertaken in support of such activities except as is absolutely necessary to maintain

V 41 167 AUG 26 76 UM

safety and operational readiness pending accomplishment of the changes required.

(iii) *Guidelines.* This Part shall not be used as sole justification for either the acquisition or the retention of owned interests beyond the minimum required to protect the Government.

(A) Necessary rights to land within the defined compatible use area may be obtained by purchase, exchange, or donation, in accordance with all applicable laws and regulations.

(B) If fee title is currently held or subsequently acquired in an area where compatible uses could be developed and no requirement for a fee interest in the land exists except to prevent incompatible use, disposal actions shall normally be instituted. Only those rights and interests necessary to establish and maintain compatible uses shall be retained. Where proceeds from disposal would be inconsequential, consideration may be given to retaining fee title.

(C) If the cost of acquiring a required interest approaches closely the cost of fee title, consideration shall be given to whether acquisition of fee title would be to the advantage of the Government.

(c) *Rights and Interests Which May Be Obtained.* When it is determined to be necessary for the Federal Government to acquire interests in land, a careful assessment of the type of interest to be acquired is mandatory. § 256.9 contains a listing of possible interests which should be examined for applicability.

(d) *Environmental Impact Statements.* (1) Any actions taken with respect to safety of flight, accident hazard, or noise which involve acquisition of interests in land must be examined to determine the necessity of preparing an environmental impact statement in accordance with DoD Directive 6050.1, "Environmental Consideration in DoD Actions," March 19, 1974 (32 CFR 214).

(2) All such environmental impact statements must be forwarded to appropriate Federal and local agencies for review in accordance with DoD Directive 6050.1 (32 CFR 214).

(3) Coordination with local agencies will be in accordance with OMB Circular A–95.

§ 256.5 The air installation compatible use program.

(a) The Secretaries of the Military Departments will develop, implement and maintain a program to investigate and study all air installations in necesary order of priority to develop an Air Installation Compatible Use Zone (AICUZ) program for each air installation consistent with § 256.4. AICUZ studies which contain an analysis of land use compatibility problems and potential solutions shall be developed and updated as necessary. As a minimum, each Study shall include the following:

(1) Determination by detailed study of flight operations, actual noise and safety surveys if necessary, and best available projections of future flying activities, desirable restrictions on land use due to noise characteristics and safety of flight;

(2) Identification of present incompatible land uses;

(3) Identification of land that if inappropriately developed would be incompatible;

(4) Indication of types of desirable development for various land tracts;

(5) Land value estimates for the zones in question.

(6) Review of the airfield master plans to ensure that existing and future facilities siting is consistent with the policies in this Part.

(7) Full consideration of joint use of air installations by activities of separate Military Departments whenever such use will result in maintaining operational capabilities while reducing noise, real estate and construction requirements.

(8) Recommendations for necessary minimum programs of acquisition, relocation, work with local zoning boards, or such other actions as are indicated by the results of the Study.

(b) *Procedures.* In developing AICUZ Studies the Secretaries of Military Departments shall:

(1) Follow the review and comment procedures established under OMB Circular A–95;

(2) Ensure that appropriate environmental factors are considered; and

(3) Ensure that other local, State or Federal agencies engaged in land use planning or land regulation for a particular area have an opportunity to review and comment upon any proposed plan or significant modification thereof.

(c) *Coordination with State and Local Governments.* Secretaries of the Military Departments shall develop procedures for coordinating AICUZ Studies with the land use planning and regulatory agencies in the area. Developing compatible land use plans may require working with local governments, local planning commissions, special purpose districts, regional planning agencies, state agencies, state legislatures, as well as the other Federal agencies. Technical assistance to local, regional, and state agencies to assist them in developing their land use planning and regulatory processes, to explain an AICUZ Study and its implications, and generally to work toward compatible planning and development in the vicinity of military airfields, should be provided.

(d) *Property Rights Acquisition.* The AICUZ Study shall serve as the basis for new land acquisitions, property disposal, and other proposed changes in Military Departments real property holdings in the vicinity of military airfields where applicable.

(e) *Required Approvals.* Based on the results of the AICUZ Studies, each Military Department will prepare recommendations for individual installation's AICUZ programs for approval as follows:

(1) The Secretaries of the Military Departments or their designated representatives will review and approve the AICUZ Studies establishing the individual air installation AICUZ program.

(2) When relocation or abandonment of a mission or an installation is apparently required, the Secretaries of the Military Departments will submit the proposed plan for the installation, with appropriate recommendations, to the Secretary of Defense for approval.

(3) A time-phased fiscal year plan for implementation of the AICUZ program in priority order, consistent with budgetary considerations, will be developed for approval by the Secretary of the Military Departments, or their designated representatives. These plans will serve as the basis for all AICUZ actions at the individual installations.

(f) *Coincident Actions.* The Secretaries of the Military Departments will also take action to assure in accordance with § 256.4 (a) and (b) that:

(1) As the first priority action in developing an AICUZ program, full attention is given to safety and noise problems.

(2) In all planning, acquisition and siting of noise generating items, such as engine test stands, full advantage is taken of available alleviating measures, such as remote sites or sound suppression equipment.

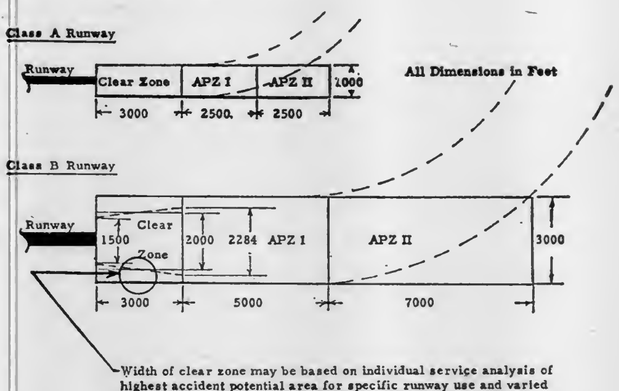
(3) The noise exposure of on-installation facilities and personnel are considered together with that off the installation.

(4) There is development or continuation with renewed emphasis, of programs to inform local governments, citizens groups, and the general public of the requirements of flying activities, the reasons therefore, the efforts which may have been made or may be taken to reduce noise exposure, and similar matters which will promote and develop a public awareness of the complexities of air installation operations, the problems associated therewith, and the willingness of the Department of Defense to take all measures possible to alleviate undesirable external effects.

(g) Responsibilities for the acquisition, management and disposal of real property are defined in DoD Directive 4165.6, "Real Property; Acquisition, Management and Disposal," September 15, 1955 (20 FR 7113).

(h) The Assistant Secretary of Defense (Installations and Logistics) will examine the program developed pursuant to this Part, and from time to time review the progress thereunder to assure conformance with policy.

§ 256.6 Runway classification by aircraft type.



CLASS A RUNWAYS

S–2, VC–6, C–1, C–2, TC–4C, C–7, C–8, C–12, C–47, C–117, U–1, U–3, U–6, U–8, U–9, U–10, U–11, LU–16, TU–16, HU–16, U–21, OU–22, E–1, E–2, O–1, O–2, OV–1, OV–10, T–28, T–34, T–41, T–42.

CLASS B RUNWAYS

A–1, A–3, A–4, A–5, A–6, A–7, A–38, AV–8, P–2, P–3, F–9, F–14, F–4, F–8, F–111, YF–12, SR–71, F–100, F–101, F–102, F–104, F–105, F–106, F–5, F–15, F–18, S–3, T–29, T–33, T–37, T–39, T–1, T–2, T–38, B–52, B–57, B–57F, B–66, C–9, C–54, C–97, C–118, C–119, C–121, EC–121, WC–121, C–123, C–130, HC–130B, C–131, C–140, C–5A, KC–97, C–124, EC–130E, HC–130, C–135, VC–137, C–141, KC–135, EC–135, RC–135, U–2.

[1] A "yes" or "no" designation for compatible land use is to be used only for gross comparison. Within each, uses exist where further definition may be needed as to whether it is clear or normally acceptable/unacceptable owing to variations in densities of people and structures.
[2] Suggested maximum density 1-2 DU/AC, possibly increased under a planned unit development where maximum lot covered less than 20 pct.
[3] Factors to be considered: Labor intensity, structural coverage, explosive characteristics, air pollution.
[4] No passenger terminals and no major aboveground transmission lines in APZ I.
[5] Low intensity office uses only. Meeting places, auditoriums, et cetera, not recommended.
[6] Excludes chapels.
[7] Facilities must be low intensity.
[8] Clubhouse not recommended.
[9] Concentrated rings with large classes not recommended.
[10] Includes livestock grazing but excludes feedlots and intensive animal husbandry.
[11] Includes feedlots and intensive animal husbandry.
[12] No structures (except airfield lighting), buildings or aboveground utility/communication lines should be located in the clear zone. For further runway safety clearance limitations pertaining to the clear zone see AFM 86-6, TM 5-803-4, and NAVFAC P-80.3
[13] Lumber and timber products removed due to establishment, expansion, or maintenance of clear zones will be disposed of in accordance with DOD Instruction 4170.7, "Natural Resources—Forest Management," June 21, 1965 (32 CFR 233) and DOD instruction 7310.1, "Accounting and Reporting for Property Disposal and Proceeds from Sale of Disposable Personal Property and Lumber or Timber Products," July 10, 1970.[1]
[14] Includes hunting and fishing.
[15] Controlled hunting and fishing may be permitted for the purpose of wildlife control.

§ 256.9 Real estate interests to be considered for clear zones and accident potential zone.

(a) The right to make low and frequent flights over said land and to generate noises associated with:

(1) Aircraft in flight, whether or not while directly over said land,

(2) Aircraft and aircraft engines operating on the ground at said base, and,

(3) Aircraft engine test/stand/cell operations at said base.

(b) The right to regulate or prohibit the release into the air of any substance which would impair the visibility or otherwise interfere with the operations of aircraft, such as, but not limited to, steam, dust and smoke.

(c) The right to regulate or prohibit light emissions, either direct or indirect (reflective), which might interfere with pilot vision.

(d) The right to prohibit electrical emissions which would interfere with aircraft and Air Force communications systems or aircraft navigational equipment.

(e) The right to prohibit any use of the land which would unnecessarily attract birds or waterfowl, such as, but not limited to, operation or sanitary landfills, maintenance of feeding stations or the growing of certain types of vegetation attractive to birds or waterfowl.

(f) The right to prohibit and remove any buildings or other nonfrangible structures.

(g) The right to top, cut to ground level, and to remove trees, shrubs, brush or other forms of obstruction which the installation commander determines might interfere with the operation of aircraft, including emergency landings.

(h) The right of ingress and egress upon, over and across said land for the purpose of exercising the rights set forth herein.

(i) The right to post signs on said land indicating the nature and extent of the Government's control over said land.

(j) The right to prohibit land uses other than the following:

(1) Agriculture.
(2) Livestock grazing.
(3) Permanent open space.
(4) Existing water areas.
(5) Rights of way for fenced two land highways, without sidewalks or bicycle trails and single track railroads.
(6) Communications and utilities rights of way, provided all facilities are at or below grade.

(k) The right to prohibit entry of persons onto the land except in connection with activities authorized under (a), (b), (c) and (f) of this section.

(l) The right to disapprove land uses not in accordance with § 256.8.

(m) The right to control the height of structures to insure that they do not become a hazard to flight.

(n) The right to install airfield lighting and navigational aids.

§ 256.10 Air installations compatible use zone noise descriptors.

(a) Composite Noise Rating (CNR) and Noise Exposure Forecast (NEF) values as previously required by sections III., IV., and V. of DoD Instruction 4165.-57, "Air Installations Compatible Use Zones," July 30, 1973 [1] will no longer be used.

(b) Where CNR 100 (or the quietest boundary of CNR Zone 2 if otherwise computed) or NEF 30 would previously have been used, data shall be collected sufficient to permit computation of Ldn 65 noise contours and these noise contours shall be plotted on maps accompanying AICUZ studies.

(c) Where CNR 115 (or the boundary of CNR Zone 3 if otherwise computed) or NEF 40 would previously have been used, data shall be collected sufficient to permit computation of Ldn 75 noise contours and these noise contours shall be plotted on maps accompanying AICUZ studies.

(d) Where previous studies have used CNR or NEF, for matters of policy, noise planning and decisionmaking, areas quieter than Ldn 65 shall be considered approximately equivalent to the previously used CNR Zone 1 and to areas quieter than NEF 30. The area between Ldn 65 and Ldn 75 shall be considered approximately equivalent to the previously used CNR Zone 2 and to the area between NEF 30 and NEF 40. The area of higher noise than Ldn 75 shall be considered approximately equivalent to the previously used CNR Zone 3 and to noise higher than NEF 40. The procedures shall remain in effect only until sufficient data to compute Ldn values can be obtained.

(e) When computing helicopter noise levels using data collected from meters, a correction of +7db shall be added to meter readings obtained under conditions where blade slap was present until and unless meters are developed which more accurately reflect true conditions.

(f) Noise contours less than Ldn 65 or more than Ldn 80 need not be plotted for AICUZ studies.

(g) Since CNR noise levels are not normally directly convertible to Ldn values without introducing significant error, care should be exercised to assure that personnel do not revise previous studies by erroneously relabeling CNR contours to the approximately equivalent Ldn values.

(h) Under consideration at this time is the use of "C" weighted noise levels for intermittent impulse noises such as are associated with bombing and gunnery ranges.

§ 256.11 Effective date and implementation.

This part is effective immediately. Two copies of implementing regulations shall be forwarded to the Assistant Secretary of Defense (Installations & Logistics) within 90 days after publication of final rules.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

AUGUST 19, 1976.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 981]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

Administrative Rules and Regulations; Quality Control

Notice is given of a proposal to amend Subpart—Administrative Rules and Regulations (7 CFR 981.441–981.481) by adding a new § 981.442. The new section would provide for quality control of incoming almonds. It prescribes how the quantity of inedible kernels in each variety of almonds received by a handler must be determined and disposed of. The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981; 41 FR 26852; 27827), hereinafter collectively referred to as the "order", regulating the handling of almonds grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal is based on a unanimous recommendation of the Almond Board of California.

The recent amendment to the marketing order added § 981.42. Among other things, it provides that each handler shall cause to be determined, through the inspection agency, and at the handler's expense, the percent of inedible kernels in each variety received by him, and shall report the determination to the Board. The quantity of inedible kernels in each variety in excess of two percent of the kernel weight received, shall constitute a weight obligation to be accumulated in the course of processing and shall be delivered to the Board, or Board-accepted crushers, feed manufacturers, or feeders. Section 981.42 also authorizes the Board, with the approval of the Secretary, to establish rules and regulations necessary and incidental to the administration of this provision, including the method of determining inedible kernel content and satisfaction of the disposition obligation. It also provides that the Board for good cause may waive portions of obligations for those handlers not generating inedible material from such sources as blanching or manufacturing.

Under the proposal, all almond receipts would be sampled by variety in a manner acceptable to the Board and the inspection agency. The inspection agency is the Federal-State Inspection Service or, when specifically designated, the Federal Inspection Service. The samples then would be analyzed for sound and inedible kernel content by the inspection agency or by the handler receiving the almonds under the supervision of the inspection agency. The weight of inedible kernels in excess of two percent of the total kernel weight of any variety received by the handler would constitute his disposition obligation. The handler would satisfy his obligation with deliveries of inedible kernels or other such material to outlets such as oil or feed. The proposal also provides procedures for maintaining the identity of the various types of almond receipts by variety, reporting requirements, and waiving a portion of the disposition obligations of those handlers not blanching almonds or manufacturing almond products.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same in quadruplicate with the Hearing Clerk, Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than September 10, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

The proposal is to amend Subpart—Administrative Rules and Regulations (7 CFR 981.441–981.481) by adding a new § 981.442 to read as follows:

§ 981.442 Quality control.

(a) *Incoming.* Pursuant to § 981.42(a), the quantity of inedible kernels in each variety of almonds received by a handler, including almonds of his own production, shall be determined and disposed of in accordance with the provisions of this paragraph.

(1) *Sampling.* Each handler shall cause a representative sample of almonds to be drawn from each lot of any variety received by him. The sample shall be drawn before inedible kernels are removed from the lot, or the lot is processed or stored by the handler. For receipts at premises with mechanical sampling equipment and under contracts providing for payment by the handler to the producer for sound meat content, samples shall be drawn by the handler in a manner acceptable to the Board and the inspection agency. The inspection agency shall make periodic checks of the mechanical sampling procedures. For all other receipts, including but not limited to field examination and purchase receipts, accumulations purchased for cash at the handler's door or from an accumulator, or almonds of the handler's own production, samples shall be drawn by or under the surveillance of the inspection agency. All samples shall be bagged and identified in a manner acceptable to the Board and the inspection agency. Each handler shall identify his receipts according to the method of acquisition. Each handler shall report the quantity of each variety received, by method of acquisition, to the Board as it may prescribe.

(2) *Variety.* For the purpose of classifying receipts by variety to determine a handler's disposition obligation, "variety" shall mean that variety of almonds which constitutes at least 90 percent of a lot. If no variety constitutes at least 90 percent of the almonds in a lot, the lot shall be designated as "mixed". If no variety is known, the lot shall be designated "unknown".

(3) *Analysis of sample.* Each sample shall be analyzed by or under the surveillance of the inspection agency to determine the kernel content and the proportion of inedible kernels in the sample. The inspection agency shall prepare a report for each handler showing, by variety, the weight of almonds received by the handler, the total kernel weight, and the inedible kernel weight. The report shall cover the handler's daily receipts or the handler's total receipts during a period not exceeding one month, and shall be submitted by the inspection agency to the Board and the handler.

(4) *Disposition obligation.* The weight of inedible kernels in excess of two percent of the total kernel weight of any variety received by a handler shall constitute his disposition obligation.

(5) *Meeting the disposition obligation.* Each handler shall meet his disposition obligation by delivering packer pickouts, kernels rejected in blanching, pieces of kernels, meal accumulated in manufacturing, or other material, to crushers, feed manufacturers, feeders, or dealers in nut wastes, on record with the Board as Accepted Users. Each disposition of such almond material shall be sampled and the almond meat content determined at the time of loading for delivery to the accepted user or at the user's destination by the inspection agency or the Board. The almond meat content of each delivery shall be reported to the Board and the handler and credited to the handler's disposition obligation. Deliveries containing less than 10 percent almond meat content shall not be credited against the disposition obligation. Each handler's disposition obligation shall be satisfied when the almond meat content of the material delivered to accepted users equals the disposition obligation, but no later than July 31 succeeding the crop year in which the obligation was incurred.

(6) *Partial waiver of obligation.* Any handler generating inedible kernels only in the form of pickouts after shelling, may petition the Board for a waiver of the difference between this inedible weight and his disposition obligation. The petition will be granted only if the handler certifies to the Secretary and the Board that: (i) He did not engage in any blanching, cutting, chopping or other processing of almond kernels during the crop year, (ii) All almonds shelled by or for him were hand-picked on belts and the visibly inedible almonds removed, and (iii) That he did not place into trade channels any almonds with more than two percent inedibles. However, no waiver shall be granted for more than 30 percent of the handler's inedible disposition obligation.

(7) *Inedible almonds unfit for processing.* All lots received from growers as as "inedible almonds unfit for processing", shall be disposed of in their entirety as provided in paragraph (a)(5) of this section. Such lots must be received and kept under surveillance of the inspection agency, and shall be identified as the inspection agency and the Board may require.

Dated: August 20, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division.

[7 CFR Part 926]

TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Proposed Extension of Grade Regulation and Container Marking Requirements

This notice invites written comments relative to a proposal to continue through

V 41 167
AUG 26 76
UMI

December 31, 1976, the currently effective grade and container marking requirements for fresh Tokay grapes shipped from San Joaquin County, California. These requirements are specified by Tokay Grape Regulation 12 (§ 926.313; 41 FR 34007) issued under Marketing Order No. 926. The regulation requires that such grapes meet the grade and size specifications of U.S. No. 1 Table Grapes and, in addition, that at least 30 percent, by count, of the berries in the lower 25 percent, by count, of each bunch shall show characteristic color. Each container of such grapes must bear a Federal-State Inspection Service number in plain letters and figures on one outside end. These regulatory provisions are the same as the provisions that were in effect during the previous four seasons. They are necessary to assure the shipment of only those grapes which will be of suitable quality and size in the interest of consumers and producers.

The regulation was proposed by the Industry Committee which is established under the marketing agreement, as amended, and Order No. 926, as amended (7 CFR Part 926), regulating the handling of Tokay grapes grown in San Joaquin County, California. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal is to amend § 926.313 (Tokay Grape Regulation 12; 41 FR 34007) to continue the effective period through December 31, 1976. Unless so amended, the regulation would end September 30, 1976.

All persons who desire to submit written data, views, or arguments for consideration in connection with this proposal shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than September 10, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to amend § 926.313 to read as follows:

§ 926.313 Tokay Grape Regulation 12.

Order. (a) During the period August 15, 1976, through December 31, 1976, no handler shall ship:

(1) Any Tokay grapes, grown in the production area, which do not meet the grade and size specifications of U.S. No. 1 Table Grapes and the following additional requirement: Of the 25 percent, by count, of the berries of each bunch which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color; and

(2) Any container of Tokay grapes grown in the production area, unless such container bears, in plain letters and figures on one outside end, a Federal-State Inspection Service lot stamp number showing that such grapes have been inspected in accordance with the established grade set forth in this section.

(b) *Definitions.* As used herein, the terms "handler", "ship", and "production area" shall have the same meaning as when used in the amended marketing agreement and order; "U.S. No. 1 Table Grapes" and "characteristic color" shall have the same meaning as when used in the United States Standards for Table Grapes (7 CFR 51.880–51.912).

Dated: August 20, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 76–RM–20]

ST. GEORGE, UTAH

Alteration of Transition Area

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the transition area at St. George, Ut.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colorado 80010. All communications received on or before September 24, 1976 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colorado 80010.

A state-owned VOR has been commissioned at St. George, Ut. Public-use instrument approach procedures have been developed utilizing the VOR. Additional controlled airspace is required to provide protection to aircraft conducting these procedures.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.181 (41 FR 440) the description of the St. George, Ut. transition area is amended to read:

ST. GEORGE, UT.

That airspace extending upward from 700 feet above the surface within 9.5 miles northeast and 6 miles southwest of the St. George, Ut. VOR (latitude 37°05'28" N., longitude 113°35'26" W.) 131 radial extending from 7 miles northwest to 18.5 miles southeast; and within 5 miles each side of the St. George VOR 183 radial extending from the VOR to 15.5 miles south; that airspace extending upward from 1200 feet above the surface within an arc of a 23 mile radius of the St. George VOR extending clockwise from the 058 radial to the 239 radial; and within 10 miles east and 6.5 miles west of the St. George VOR 183 radial extending from the 23 mile arc to 37.5 miles south of the VOR.

Issued in Aurora, Colorado, August 17, 1976.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

M. M. MARTIN,
Director, Rocky Mountain Region.

[FR Doc.76–24815 Filed 8–25–76;8:45 am]

[14 CFR Part 121]

[Docket No. 14245; Notice No. 76–17]

PROFICIENCY CHECKS: MANEUVERING WITH SIMULATED POWERPLANT FAILURE

Notice of Proposed Rulemaking

The Federal Aviation Administration is considering amending Part 121 of the Federal Aviation Regulations to permit a pilot-in-command to omit the maneuver to a landing with simulated powerplant failure during a required proficiency check or simulator course of training, if he satisfactorily performed that maneuver during a proficiency check, or during an approved simulator course of training under the observation of a check airman, within the preceding six calendar months.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before November 24, 1976, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This notice is issued in response to a petition for rulemaking submitted by the Air Transport Association of America (ATA).

Section 121.441(a) of the Federal Aviation Regulations provides that a Part 121 certificate holder may not use a person, nor may a person serve as a required pilot flight crewmember, unless he has satisfactorily completed either a proficiency check or an approved simulator course of training. Paragraph (a)(1) of

that section requires, for a pilot-in-command, a proficiency check within the preceding 12 calendar months and, in addition, within the preceding six calendar months, either a proficiency check or appropriate simulator training.

Section 121.441(b)(1) provides, in pertinent part, that a proficiency check must include at least the procedures and maneuvers set forth in Appendix F of Part 121, unless otherwise specifically provided in that appendix. Paragraph V(d)(1) of Appendix F requires, in the case of three engine airplanes, a maneuver to a landing with an approved procedure that approximates the loss of two powerplants (center and one outboard engine); and paragraph V(d)(2) requires, in the case of other multiengine airplanes, a maneuver to a landing with a simulated failure of 50 percent of available powerplants, with the simulated loss of power on one side of the airplane. The appendix permits the maneuver to be performed in a visual simulator or in flight.

The ATA petitions for an amendment to Part 121 that would permit omission of the maneuver to a landing with a simulated failure of 50 percent of available powerplants (with the simulated loss of power on one side of the airplane) on every other six-month proficiency check or course of training if, during the preceding and following proficiency check or course of training, the maneuver has been and will be performed in a visual simulator. This, it states, would avoid the possible need to perform the maneuver in an airplane to a landing in the event the visual simulator is inoperative and would provide operational flexibility.

The FAA believes that a pilot-in-command may omit the subject maneuver during a required proficiency check or simulator course of training without compromising safety, provided that he satisfactorily performed that maneuver during a proficiency check, or during an approved simulator course of training under the observation of a check airman, within the preceding six calendar months.

Paragraph V(d)(2) of Appendix F of Part 121 currently provides, in pertinent part, that before January 1, 1975, for 4-engine turbojet airplanes, the maneuver described therein could have been performed in an approved simulator or in flight at altitude. Since this provision now is obsolete, this notice proposes that it be deleted.

(Secs. 313(a), 601, 602, and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1422, and 1424) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing, it is proposed to amend Part 121 of the Federal Aviation Regulations as follows:

By deleting the last sentence in paragraph V(d)(2) of Appendix F, and by adding a sentence to the flush paragraph immediately following that paragraph, as follows:

APPENDIX F—PROFICIENCY CHECK REQUIREMENTS

* * * * *

V. LANDINGS AND APPROACHES TO LANDINGS

* * * * *

(d) Maneuvering to a landing with simulated powerplant failure as follows:

(1) In the case of 3-engine airplanes, maneuvering to a landing with an approved procedure that approximates the loss of two powerplants (center and one outboard engine); or

(2) In the case of other multiengine airplanes, maneuvering to a landing with a simulated failure of 50 percent of available powerplants, with the simulated loss of power on one side of the airplane.

Notwithstanding the requirements of subparagraphs (d)(1) and (d)(2) of this paragraph, in a proficiency check for other than a pilot-in-command, the simulated loss of power may be only the most critical powerplant. However, if a pilot satisfies the requirement of subparagraph (d)(1) or (d)(2) of this paragraph in a visual simulator, he also must maneuver in flight to a landing with a simulated failure of the most critical powerplant. In addition, a pilot-in-command may omit the maneuver required by subparagraph (d)(1) or (d)(2) of this paragraph during a required proficiency check or simulator course of training if he satisfactorily performed that maneuver during a proficiency check, or during an approved simulator course of training under the observation of a check airman, within the preceding six calendar months.

Issued in Washington, D.C., on August 11, 1976.

R. P. SKULLY,
Director, Flight Standards Service.

[FR Doc.76–24816 Filed 8–25–76;8:45 am]

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 74–20; Notice 6]

MOTOR VEHICLE SAFETY STANDARDS

Rearview Mirrors

This notice proposes the amendment of Standard No. 111, Rearview Mirrors, to provide for the optional use of plane and convex mirror combinations for buses other than school buses, multipurpose passenger vehicles, and trucks, with a GVWR of 10,000 pounds or more, to provide for the optional use of convex mirrors on the passenger's side of vehicles when right-side mirrors are required by the standard in order to meet the passenger car requirements, and to modify paragraphs S5.1.1 and S5.2.1 of the standard to specify that location of the driver's "eye reference points" shall be determined by the procedure provided in SAE Recommended Practice J1050.

By final rule published in this issue of the FEDERAL REGISTER, Standard No. 111 (49 CFR 571.111) is amended to establish separate rearview mirror requirements for school buses, to increase the amount of reflective surface required for mirrors on multipurpose passenger vehicles and trucks with a GVWR of 25,000 pounds or more, and to extend the coverage of the standard to motorcycles.

Several commenters to that rulemaking, including Carl G. Seashore and Associates, the International Brotherhood of Teamsters, the American Mutual Insurance Alliance, Mack Trucks, Inc., and a petition for rulemaking from Mr. M. W. Urban, recommended that Standard No. 111 be amended to require the use of convex mirrors on multipurpose passenger vehicles, trucks, and buses with a GVWR of 10,000 pounds or more, because of the larger field of view of convex mirrors compared to mirrors of unit magnification.

The NHTSA agrees that the larger vehicles have unique rearward visibility problems that can create potential safety hazards, and that use of both plane and convex mirrors on these vehicles should help to increase rearward visibility. These heavy-duty vehicles are driven by professional drivers who have had experience with different types of rearview mirrors. However, the NHTSA disagrees that the use of convex mirrors should be made a mandatory requirement of the standard at this time because the agency has concluded that detailed evaluation techniques for convex mirrors cannot be established until appropriate rearview performance requirements can be developed. These test procedures will be included in future rulemaking. Therefore, this notice proposes to permit the use of plane and convex mirror combinations in place of the presently required plane mirror, at the option of the manufacturer. The proposed combination mirror would include a plane mirror with a smaller area of reflective surface than would otherwise be required by the standard.

It is proposed that paragraph S7.1 of the standard be modified to provide for either outside mirrors of unit magnification, each with not less than 50 in^2 of reflective surface or, at the option of the manufacturer, unit magnification mirrors with not less than 35 in^2 of reflective surface, combined with convex mirrors with not less than 19.5 in^2 of reflective surface. It is proposed that paragraph S8.1 of the standard be amended to provide for either outside mirrors of unit magnification, each with not less than 75 in^2 of reflective surface or, at the manufacturer's option, mirrors of unit magnification, each with not less than 45 in^2 of reflective surface, combined with convex mirrors, each with not less than 25 in^2 of reflective surface. Manufacturers would be permitted to use the combination plane and convex mirrors on either side or on both sides of the vehicle. The proposal specifies that convex mirrors shall have an average radius of curvature not less than 20 inches and not greater than 60 inches.

General Motors recently petitioned for rulemaking to amend paragraph S5.3 of Standard No. 111 to specify the optional

V41167 AUG 26 76 UMI

use of convex mirrors on the passenger side of vehicles, when right-side mirrors are required by the standard due to the failure of the inside rearview mirror to meet the specified field of view performance requirements.

The use of convex mirrors on the smaller vehicles presents some concern, since these vehicles are generally driven by non-professional drivers. Although the convex mirror provides a wider field of view, results from recent NHTSA research indicates that one out of five drivers has difficulty using an outside convex mirror on the passenger side due to distortion problems. Therefore, the NHTSA has reservations regarding the substitution of a convex mirror to satisfy the existing requirements for a plane mirror on the right side of passenger cars and other light-weight vehicles. However, a proposed amendment of paragraph S5.3 is included in this notice for the purpose of obtaining comments and data. On the basis of the comments and research, the NHTSA will make a decision concerning the advisability of allowing the optional use of convex mirrors on the smaller vehicles.

This notice proposes to amend paragraph S5.3 of the standard to specify that each passenger car whose inside rearview mirror does not meet the field of view requirements of paragraph S5.1.1 shall have an outside rearview mirror installed on the passenger side which is either a mirror of unit magnification or a convex mirror that has an average radius of curvature not less than 40 inches and not greater than 60 inches. If the optional convex mirror is used, the proposed amendment provides that it shall have a highly reflective, brightly colored reference frame that is at least 0.125 inches wide and extends around the entire periphery of the reflective surface. NHTSA field tests indicate that a colored border surrounding the convex mirror alerts drivers that they are viewing a convex mirror rather than a plane mirror (see NHTSA Report: "Evaluation of a New Automotive Plane and Convex Mirror System by Government Drivers," SAE 760006, February, 1976). The proposed amendment also requires manufacturers to provide explanatory information indicating the location of the convex mirror, stating that the convex mirror has a highly reflective, brightly colored reference frame, and stating that convex mirrors are wide-angle rearview mirrors that are useful for lane changing purposes, but which present a distorted field of view. This information could be included in the vehicle owner's manual, if one is provided.

The colored reference frame and the information in the owner's manual is intended to alert drivers that they are viewing a convex mirror, since the visual information received is different than that received from a mirror of unit magnification. To minimize this distortion problem, the proposed convex mirror option specifies that only convex mirrors having an average radius of curvature from 40 to 60 inches may be used. This would effectively limit the degree of distortion to which drivers would have to become accustomed. The proposed amendment leaves intact the requirements for the inside rearview mirror and the driver's outside rearview mirror, both unit magnification mirrors that are familiar to the driving public. The proposed convex mirror option would be applicable to buses other than school buses, multipurpose passenger vehicles, and trucks with a GVWR of 10,000 pounds or less, in addition to passenger cars, since paragraph S6.1(a) of the standard provides that the former category of vehicles may be equipped with mirrors meeting the requirements of Section S5 for passenger cars.

This notice further proposes to amend paragraphs S5.1.1 and S5.2.1 of Standard No. 111 to specify that location of the driver's "eye reference points" and the evaluation of the rearward fields of view shall be determined in accordance with the procedures found in Section 7 of the SAE Recommended Practice J1050, "Describing the Driver's Field of View," (September 1973). Currently the standard provides that location of the "eye reference points" shall be that established in Motor Vehicle Safety Standard No. 104 (§ 571.104) or a nominal location appropriate for any 95th percentile adult male driver.

General Motors recommended that reference to Standard No. 104 in paragraphs S5.1.1 and S5.2.1 be deleted, since that standard's designation of "eye reference points" is ambiguous. The nominal location method of determining the points was incorporated into the standard (41 FR 7510) to affirm a previously published NHTSA interpretation (32 FR 5498) that the standard permits location of the driver's "eye reference points" in that manner. Neither of the current two methods specifies the location of the points as well as the SAE recommended procedure. Therefore, the purpose of this proposed amendment is to improve the procedure for locating the "eye reference points" and to clarify the methods to be used to evaluate mirror performance.

Since these proposed amendments would not require additional equipment and would merely provide options for motor-vehicle manufacturers, they should have no significant inflationary or environmental impact.

In consideration of the foregoing, it is proposed that Motor Vehicle Safety Standard No. 111, Rearview Mirrors (49 CFR 571.111), be amended as follows:

§ 571.111 [Amended]

1. The last sentence of paragraph S5.1.1 and the last sentence of paragraph S5.2.1 would be revised to read:

The location of the driver's eye reference points and the evaluation of the rearward field of view shall be determined in accordance with the procedures in section 7 of the SAE Recommended Practice J1050, "Describing the Driver's Field of View," (September 1973).

2. Paragraph S5.3 would be revised to read:

S5.3 *Outside rearview mirror passenger's side.* Each passenger car whose inside rearview mirror does not meet the field of view requirements of S5.1.1 shall have either an outside rearview mirror of unit magnification or, at the option of the manufacturer, an outside convex mirror with an average radius of curvature not less than 40 inches and not greater than 60 inches, installed on the passenger's side. The mirror mounting shall provide a stable support and be free of sharp points or edges that could contribute to pedestrian injury. The mirror need not be adjustable from the driver's seat but shall be capable of adjustment by tilting in both horizontal and vertical directions. If a convex mirror is installed, it shall have a highly reflective, brightly colored reference frame that is at least 0.125 inches wide, extending around the entire periphery of the reflective surface. Explanatory information concerning the supplemental convex mirror shall be provided with each vehicle, stating that: (i) The convex mirror is located on the passenger's side of the vehicle; (ii) the convex mirror has a highly reflective, brightly colored reference frame for the purpose of alerting a driver that he is viewing a convex mirror rather than a plane mirror; and (iii) convex mirrors are wide-angle rearview mirrors that are useful in detecting traffic for lane changing purposes, but present a distorted perception of distance. If a vehicle owner's manual is provided, this information shall be included in the manual.

3. The first sentence in paragraph S7.1 would be revised to read:

S7.1. Each multipurpose passenger vehicle and truck with a GVWR of more than 10,000 pounds and less than 25,000 pounds and each bus, other than a school bus, with a GVWR of more than 10,000 pounds shall have installed with stable supports on each side of the vehicle, an outside mirror(s) that is either: (i) A mirror of unit magnification with not less than 50 in^2 of relative surface or, at the option of the manufacturer, (ii) two mirrors, one of unit magnification with not less than 35 in^2 of reflective surface, and the other a convex mirror with not less than 19.5 in^2 of reflective surface and an average radius of curvature not less than 20 inches and not greater than 60 inches.

4. The first sentence in paragraph S8.1 would be revised to read:

S8.1. Each multipurpose passenger vehicle and truck with a GVWR of 25,000 pounds or more shall have installed with stable supports on each side of the vehicle, an outside mirror(s) that is either: (i) A mirror of unit magnification with not less than 75 in^2 of reflective surface or, at the option of the manufacturer, (ii) two mirrors, one of unit magnification with not less than 45 in^2 of reflective surface, and the other a convex mirror with not less than 25 in^2 of reflective surface and an average radius of curvature not less than 20 inches and not greater than 60 inches.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: October 11, 1976.

Proposed effective date: 6 months after publication of final rule in FEDERAL REGISTER.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 1.50 and 501.8.)

Issued on August 19, 1976.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 556]

[76-613]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Amendment Relating to Locating Branch Offices and Mobile Facilities in Rural Areas

SUMMARY

AUGUST 18, 1976.

The following summary of the amendment proposed by this Resolution is provided for the reader's convenience and is subject to the full explanation in the preamble and to the specific provisions in the regulations.

I. *Existing Regulations.* The Board's general policy requires that a Federal association's branch office or mobile facility be located not more than 100 miles from the association's home office. An exception to that policy permits the Board to consider a branch office or mobile facility application without regard to such 100-mile limit if the new office or facility is to be located in a rural county having 3 or less savings-and-loan-association offices.

II. *Proposed Amendment.* The Board's general policy regarding the 100-mile limitation would be retained, but thrift institutions whose accounts are not insured by the Federal Savings and Loan Insurance Corporation (FSLIC) would not be counted when applying the "rural-county" exception.

III. *Purpose of Amendment.* To liberalize the Board's policy regarding branching into certain rural areas which are not adequately served by branch offices or mobile facilities of FSLIC-insured institutions.

The Federal Home Loan Bank Board considers it desirable to propose to amend Part 556 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 556) for the purpose stated in Item III of the Summary of this Resolution.

The first sentence of § 556.5(b)(3) of said Part 556 states in substance that it is the Board's general policy to consider an application for a branch office or mobile facility only when the proposed branch office or mobile facility is to be located not more than 100 miles from the applicant's home office, unless the application falls within certain exceptions specified in that section. Subdivision (*d*) of § 556.5(b)(3) provides one such exception and states in substance that the Board may permit consideration of an application where the new office or facility would be located in a rural county presently served by 3 or less savings and loan associations having home or branch offices or mobile facilities in such county. Pursuant to that subdivision (*d*), branch offices and mobile facilities of both FSLIC-insured and non-FSLIC-insured savings and loan associations are presently counted when applying the "rural-county" exception.

The principal effect of this Resolution is to propose to liberalize the Board's policy regarding this matter by eliminating the counting of non-FSLIC-savings and loan associations. This change would permit the Board to consider certain applications which the present provision may bar. For example, although the Board's policy was intended to allow more liberal branching into rural areas, the present provision would not be available in counties which, although not served by any FSLIC-insured institution, nevertheless, have 3 or more non-FSLIC-insured savings and loan associations located therein.

It is noted that the liberalized exception to the 100-mile limitation proposed by this Resolution would not relieve an applicant for a branch office or mobile facility from the requirements of § 545.14(c) (12 CFR 545.14(c)), i.e. the applicant must furnish information to show: "(1) There will be at the time the branch is opened a necessity for the proposed branch office in the community to be served by it; (2) there is a reasonable probability of usefulness and success of the proposed branch office; and (3) the proposed branch office can be established without undue injury to properly conducted existing local thrift and home-financing institutions."

Accordingly, the Board hereby proposes to amend said Part 556 by revising said § 556.5(b)(3)(*d*) thereof by deleting the words "savings and loan associations" and substituting therefor the words "insured institutions (as defined in § 561.1 of this chapter)", to read as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, N.W., Washington, D.C. 20552, by September 27, 1976, as to whether this proposal should be adopted, rejected, or modified. Copies of all written material submitted will be available for public inspection at the above address during normal business hours.

Section 556.5(b)(3)(*d*) is revised as follows:

§ 556.5 Establishment of Federal savings and loan associations and branch office and mobile facilities of such associations.

* * * * *

(b) * * *

* * * * *

(3) It is the Board's general policy to consider an application by such an association for permission to establish or maintain a branch office or mobile facility only when the proposed branch office or mobile facility is to be located not more than 100 miles from the association's home office unless (i) the association's home office is located in Alaska, Hawaii, Puerto Rico, or the Virgin Islands, (ii) such application is for permission to maintain, as a branch office, an existing home or branch office of an institution which is to be absorbed by merger or other approved acquisition, or (iii) such application is by a Federal association which has converted (or is in the process of converting) from a State-chartered association for permission to upgrade an office facility, which is located outside the State in which the applicant's home office is located but inside the applicant's regular lending area as prescribed in § 545.6-6 of this chapter, to the status of a branch office located at or in the same vicinity as such existing office facility is located. However, the Board may permit consideration of applications for permission to establish branch offices or mobile facilities in a State without regard to the 100-mile geographical limitation contained in the preceding sentence if the Board or its Principal Supervisory Agent, as defined in § 545.14(a)(3)(i) of this chapter, determines that:

* * * * *

(*d*) Such branch office or mobile facility is to be located in a county (or similar political subdivision) which is primarily rural in character and which is presently served by 3 or less insured institutions (as defined in § 561.1 of this chapter) having home or branch offices or mobile facilities in such county. For this purpose, a county will not be determined to be primarily rural in character if it is part of a Standard Metropolitan Statistical Area.

FEDERAL POWER COMMISSION

[18 CFR Part 34]

[Docket No. RM75–16]

REVISION OF PROCEDURES FOR THE ISSUANCE OF SECURITIES

Order Terminating Proposed Rulemaking Proceeding

AUGUST 18, 1976.

On January 20, 1975, the Commission issued in this docket a notice of proposed rulemaking (40 FR 4320, January 29, 1975). The rulemaking proposed, inter alia, revisions of §§ 34.1a and 34.2 (f) of Chapter I, Title 18 of the Code of Federal Regulations by (1) requiring public invitation of proposals for the purchase or underwriting of security issues involving proceeds of $10 million or more before exemption from the competitive bidding requirements of the Regulations would be considered by the Commission; (2) exempting security issues involving proceeds under $10 million from the competitive bidding requirements of the Regulations; (3) requiring utilities, when filing negotiated procedures, to submit evidence of having negotiated with at least three purchasers or underwriters and to show that the effective cost of the security issue is reasonable in relation to the state of the financial or money markets before approval of issuance of securities by negotiation would be authorized by the Commission; and (4) eliminating the requirement that utilities must receive Commission approval to engage in negotiation for the sale or underwriting of securities. Comments were invited from interested parties on Docket No. RM75–16, to be submitted on or before March 3, 1975. The Commission received timely comments from thirteen respondents,[1] and three of those thirteen respondents requested conferences with the Commission's Staff.[2] The Commission also received comments from three respondents which were filed after the termination of the notice period and these documents were accepted for filing conditionally,[3] and two of those respondents sought conferences with the Commission's Staff.[4]

All parties agreed that the Commission should exempt security issues involving proceeds under $10 million from the competitive bidding requirements of the Regulations. However, several respondents suggested that the size of the exemption should be increased to $20–$30 million.[5]

Moreover, it was the consensus of all respondents that the proposed revision of Part 34 of the Commission's regulations which would require public invitation of proposals for the purchase or underwriting of security issues involving proceeds of $10 million or more before exemption from the competitive bidding requirements of the Regulations would be considered by the Commission could have serious detrimental effects on the capital structure of affected utilities, place a heavy burden on affected utilities, increase expenses, complicate an already complicated process and would not in any meaningful way protect the public interest.

On May 9, 1975, the Commission issued in this docket a notice of public meeting, pursuant to § 1.3 of the Commission's Rules of Practice and Procedure (18 CFR § 1.3), to be convened at the offices of the Federal Power Commission, Washington, D.C. 20426. The Commission's Staff determined that such a conference was an appropriate forum for the discussion of relevant issues relating to the subject of the proposed rulemaking. Specifically, the purpose of the conference was to discuss the proposed procedures enunciated in Docket No. RM75–16 and in the alternative to discuss any procedures that the participants might suggest which would aid the Commission in fulfilling its statutory responsibilities. In response to the notice of public meeting, fourteen firms were represented at the conference which convened at the Offices of the Federal Power Commission, Washington, D.C. on Tuesday, May 27, 1975.[6]

The comments and suggestions proffered by the respondents at the public conference were essentially the same as those filed with the Commission in response to the notice of proposed rulemaking.[7] It was the consensus of all in attendance at the public conference that by requiring an issuer to place an issue for actual bidding before seeking exemption, many delays and costs will be produced which are not in the public interest. The numerous comments in opposition to the proposed rulemaking stress the fact that the procedures would seriously disrupt the flow of capital into the affected utilities. In addition, the parties point out that one of the most important jobs the financial officer of a large electric utility company has, is to ensure that the timing of the company's issue will not conflict with the timing of comparable issues, thereby spreading the available market too thin on the day of the issue. Issues are scheduled long in advance of the proposed offering date in order that the numerous companies coming to market will not all decide to attempt to sell on the same day, thus exerting excessive strains on the underwriting system to the detriment of the issuing utilities. The parties proffer that with the volume of offerings of comparably rated utilities, finding a place on the calendar is becoming increasingly difficult. Therefore, with the procedure proposed by the Commission, a company would not be assured that it could sell its securities at any given time. The parties stress that the magnitude of the timing problem cannot be overemphasized.

Upon review and further consideration of the additional requirements proposed by this rulemaking, and giving consideration to the pertinent comments filed herein, we find that this proposed rulemaking should not be implemented. We believe instead that exemption from the competitive bidding requirements of the Regulations should continue to be considered on a case-by-case basis.

For the reasons stated, we find that the proposed rulemaking in this docket is not in the public interest and should therefore not be implemented. Accordingly, the rulemaking shall be terminated.

The Commission finds: (1) The termination of the proposed rulemaking in Docket No. RM75–16 is appropriate and necessary for carrying out the provisions of the Federal Power Act.

(2) Compliance with the effective date provisions of section 553 Title 5 of the United States Code is unnecessary.

The Commission, acting pursuant to the provisions of the Federal Power Act, as amended, particularly sections 3(16), 19, 20, 203, 204, 205, 305, 308 and 309 (41 Stat. 1073, 1074; 49 Stat. 839, 849, 850, 851, 852, 856, 858–859; 16 U.S.C. 796(16), 812, 813, 824b, 824c 824d, 825d, 825g, 825h), orders:

(A) Effective upon issuance of this order, the proposed rulemaking in Docket No. RM75–16 is terminated.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1106]

[Ex Parte No. 55 (Sub-No. 22)]

ENERGY POLICY AND CONSERVATION ACT OF 1975

Proposed Implementation

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 16th day of August 1976.

It is ordered, That based on the reasons set forth in the attached notice, a proceeding be, and it is hereby, instituted pursuant to 5 U.S.C. 552, 553, and 559 (the Administrative Procedure Act), for the purpose of implementing the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6201 et seq.).

It is further ordered, That the attached notice be, and it is hereby, adopted and is incorporated by reference into this order.

And it is further ordered, That notice of the institution of this proceeding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

By the Commission (Commissioners Murphy and Brown not participating).

ROBERT L. OSWALD,
Secretary.

The Energy Policy and Conservation Act of 1975, Pub. L. 94–163, 42 U.S.C. 6201 et seq. (EPACA), establishes a comprehensive national energy policy designed to:

(1) Maximize domestic production of energy and provide for strategic storage reserves of crude oil, residual fuel oil and refined petroleum products;

(2) Minimize the impact of disruptions in energy supplies by providing for emergency standby measures;

(3) Provide for domestic crude oil prices that will encourage domestic production in a manner consistent with economic recovery; and

(4) Reduce domestic energy consumption through the operation of specific voluntary and mandatory energy conservation programs.

Recognizing the fact that the transportation industry is a major user of energy resources and that Federal regulation of transportation influences the amount of energy consumed by the regulated transport modes, EPACA imposes certain responsibilities upon this Commission and four other Federal agencies vested with jurisdiction to regulate surface, air, and maritime transportation.

Specifically, section 382(a) of the statute directs this Commission and the other affected agencies to file three separate reports with Congress over a period of one year. The first report, which this Commission submitted to Congress on February 20, 1976, entailed a description of our energy conservation policies and practices instituted subsequent to October 1973, while the second report, which was submitted on April 14, 1976, contained proposals aimed at achieving additional energy savings by regulated carriers. A third report, which must be filed by December 1976, will consist of an analysis of Commission policies, past and present, which promote or perpetuate the inefficient use of petroleum products and other energy resources.

In addition to submission of the above-described reports, which are non-recurring obligations, section 382(b) vests this Commission with the continuing responsibility of including in any major regulatory action, where practicable and consistent with the exercise of authority under other law, "a statement of the probable impact of such major regulatory action on energy efficiency and energy conservation".

IMPLEMENTATION

EPACA does not define the term "major regulatory action" and specifically confers the responsibility of defining it upon each of the affected agencies through rulemaking. This proceeding has been instituted to define what this Commission considers to be a "major regulatory action" for purposes of EPACA and to propose guidelines for implementation of the section 382(b) requirements.

Before discussing the proposed guidelines, mention should be made of this Commission's existing policy to fully consider the implications of its actions upon energy consumption and its efforts to continually reexamine its regulatory programs and practices in order to maximize energy conservation consistent with its statutory obligation to develop, coordinate, and preserve a multi-modal national system of transportation adequate to meet the needs of the Nation. Energy impacts are identified in Commission procedures implementing the National Environmental Policy Act of 1969 (NEPA) (see 49 CFR 1108) as part of the broader range of environmental impacts which may result from Commission action. Impacts on energy conservation and energy efficiency, when present, are analyzed in Commission environmental impact statements or environmental threshold assessment surveys and are given careful consideration in our decisionmaking and review process. Furthermore, the Commission has adopted rules over the last 3 years which have encouraged the conservation of substantial amounts of fuel by eliminating unnecessary circuity in motor carrier operations. See Gateway Elimination, 119 M.C.C. 530 (1974); and Enlargement of Operational Circuity Reduction, 121 M.C.C. 685 (1975).

In order to assess the energy conservation impact of Commission rulemaking proceedings as well as to investigate the need for further rulemakings which may result in more efficient utilization of energy resources, the Commission has sponsored several research projects to assess the extent of unused capacity within the motor carrier industry which may lead to energy consumption inefficiency. One project, conducted by an independent consultant under contract from the Commission, analyzed the percentage and reasons for motor carrier empty miles. Another project, conducted by the Commission's staff, consists of a nationwide survey designed to produce statistically valid quantitative measures of unused motor carrier capacity. Still another staff-conducted project entails an investigation of the fuel, time, and cost savings engendered by the Gateway Elimination rules.

Motor carrier operating rights applicants are also required to show in their applications that the service proposed therein will be operationally feasible in terms of minimizing empty mileage on backhauls. See General Policy Statement Concerning Motor Carrier Licensing Procedures (Operational Feasibility), (November 15, 1973). In addition, this Commission has established special certification procedures encouraging the transportation of waste products for reuse and recycling, thus allowing more efficient use of energy and other natural resources. Transportation of "Waste" Products for Reuse and Recycling, 124 M.C.C. 583 (1976).

With respect to effecting additional energy savings in the future, this Commission has proposed legislation designed to conserve substantial amounts of fuel, see The Energy Crisis and the Need for Emergency Transportation Legislation, 349 I.C.C. 699 (1975), and has recently created a policy and planning unit which will seek out ways to improve energy efficiency among the regulated surface carriers.

In view of this Commission's demonstrated commitment towards promoting energy conservation and our existing mechanism for considering energy impacts in the decisionmaking process, EPACA is not expected to create substantial new responsibilities or require extensive new procedures. Rather, the statute primarily serves to reemphasize the important role that energy considerations play in this Commission's regulatory process.

In implementing EPACA, the primary interpretative problem lies in defining the term "major regulatory action". The legislative history of the Act is silent as to why this particular term was used and how it differs, if at all, from the "major Federal action" terminology employed in NEPA. However, inasmuch as the "statement of energy impact" (SEI) requirement of EPACA is apparently similar in purpose to the "environmental impact statement" requirement of NEPA, the basic principles utilized in formulating the Commission's NEPA procedures have been adopted in these proposed guidelines.

Inasmuch as this Commission's actions are primarily regulatory in nature, we

V 41 167
AUG 26 76
UMI

perceive no distinction, as far as this Commission is concerned, between the words "regulatory" as used in section 382(b) of EPACA and "Federal" as used in section 102(2)(C) of NEPA. It is true that the section 102(2)(C) term "major Federal action" is modified by the phrase "significantly affecting the quality of the human environment" and that no such modifier is utilized in EPACA. In spite of this, however, it is believed that Congress intended "energy impact statements" to be issued under essentially the same circumstances which would trigger issuance of environmental impact statements, i.e., whenever a proposal before the Commission may result in a significant impact upon energy efficiency and energy conservation. Accordingly, the proposed guidelines define "major regulatory action" in terms of the significance of the proposal's impact on energy efficiency and conservation. The word "significant" is difficult to define inasmuch as that which may be significant under one set of facts may not be such in other circumstances. Instead of defining this term, therefore, the proposed rules indicate those factors which will be considered in arriving at a threshold determination of significance.

In view of the fact that each case must be evaluated on the basis of its own particular facts, it cannot be stated with assurance in these proposed guidelines which Commission actions will require the preparation of an SEI. However, this Commission's experience in implementing NEPA has indicated that certain categories of actions have greater potential for significant energy impacts than others. Such actions include rail line constructions; commuter fare increases; merger, control, or consolidations involving two or more class I railroads (which normally require an environmental impact statement (EIS)); abandonment, acquisition or operation of rail lines; water carrier certification; Investigation and Suspension, rate complaint, or formal docket cases involving recyclable commodities; rulemaking and legislative proposals affecting carrier operations; and general rate increases (which normally do not require an EIS). Although proceedings within the abovementioned categories will, in many cases, not result in significant impacts on energy efficiency and energy conservation, they will receive close scrutiny in determining whether preparation of an SEI is appropriate.

Once a decision is made to prepare an SEI, said statement will be incorporated into the environmental impact statement (EIS) for the involved proceeding. The EIS is proposed as the appropriate vehicle for identifying and evaluating significant energy impacts since it represents a systematic, finely tuned, and comprehensive analysis of the broad range of environmental impacts, including those related to energy efficiency and conservation. The consultation procedures utilized in the EIS process, which entail the solicitation of comments from State and Federal agencies with special jurisdiction or expertise in energy and other fields, will also be beneficial in accurately assessing energy impacts.

The fact that only "major regulatory actions" will engender the preparation of Statements of Energy Impact does not mean that the energy implications of other actions will not be considered in the Commission's decisionmaking and review processes. This Commission recognizes its responsibility to consider energy, as well as other environmental impacts, as integral factors in arriving at informed decisions which are in the public interest. The level of analysis, however, must necessarily depend upon the magnitude of the relevant energy impacts. Consequently, potentially serious energy impacts of actions not considered major for purposes of EPACA will normally be discussed and considered either in environmental impact statements (when prepared in instances where nonenergy impacts are significant), threshold assessment surveys prepared by the Commission's Environmental Affairs Staff as a reviewable record under NEPA, or in the decisional document of a proceeding.

Inasmuch as extensive reporting requirements encompassing the identification of potential impacts on energy already exist (see 49 CFR 1108.12), no additional requirements have been proposed herein. However, applicants should keep in mind the importance that this Commission, as well as Congress, attaches to energy considerations and should make a conscientious effort to fully describe the impacts of their proposals on energy efficiency and energy conservation in complying with 49 CFR 1108.12.

Oral hearings do not appear to be necessary at this time and none are contemplated. Anyone wishing to present their views and evidence, either in support of, or in opposition to, the action proposed in this order may do so by the submission of written data, views, or arguments. An original (and 15 copies whenever possible) of such data, views, or arguments shall be filed with the Commission on or before October 12, 1976.

All such statements will be a part of the record in the proceeding and will be available for public inspection during regular business hours at the Interstate Commerce Commission, 12th and Constitution Avenue, Washington, D.C.

(Secs. 552, 553, and 559 of the Administrative Procedure Act (5 U.S.C. 552, 553, and 559).)

Accordingly, it is proposed to add Part 1106 to Title 49 of the Code of Federal Regulations, to read as follows:

PART 1106—IMPLEMENTATION OF THE ENERGY POLICY AND CONSERVATION ACT OF 1975

Sec.
1106.1 Purpose and scope.
1106.2 Authority.
1106.3 Definitions.
1106.4 Actions normally constituting major regulatory actions.

AUTHORITY: 42 U.S.C. 6201 et seq.; 49 U.S.C. 17(8), 204(a)(b), 304(a), 403(a); 5 U.S.C. 552, 553, 559.

§ 1106.1 Purpose and scope.

(a) The Energy Policy and Conservation Act (42 U.S.C. 6201 et seq., hereinafter referred to as EPACA) directs and authorizes that certain steps be taken by the Federal and State governments to reduce demand for energy, increase domestic energy supplies, and conserve existing energy supplies through energy conservation programs and improvements in the energy efficiencies of motor vehicles and other consumer products. Consistent with this mandate, efforts should also be taken to increase the energy efficiency of other modes of surface transportation subject to Commission regulation.

(b) The purpose of these regulations is to establish procedures for facilitating the Commission's discharge of its duties under the Energy Policy and Conservation Act of 1975.

(c) These guidelines apply to all proceedings before the Commission.

§ 1106.2 Authority.

(a) Section 382 of EPACA requires the Commission to examine its policies and programs with the purpose of instituting measures designed to reduce energy consumption by persons subject to its regulation. Section 382(b) of the EPACA directs the Commission to include in any major regulatory action, where practicable and consistent with the exercise of its authority under other law, a statement of the probable impact of such major regulatory action on energy efficiency and energy conservation. The statute directs the Commission to define the term "major regulatory action" by rule.

(b) Sections 17(3), 204(a)(b), 304(a), and 403(a) of the Interstate Commerce Act authorize the Commission, consistent with the purpose of the Act, to establish such rules, regulations, and procedures as are necessary to the exercise of its functions.

§ 1106.3 Definitions.

(a) "Act" means the Interstate Commerce Act, as amended.

(b) "Commission" means the Interstate Commerce Commission.

(c) "EPACA" means the Energy Policy and Conservation Act of 1975.

(d) "Environmental impact statement" (EIS) is a complete and fully comprehensive environmental analysis including such formal review as may be provided by other Federal, State, and local agencies and the public pursuant to section 102(2)(C) of NEPA. The EIS is developed in two stages, draft and final.

(e) "Major regulatory action" is any activity undertaken, approved, or licensed by the Commission which has a significant impact on the conservation of energy resources or upon energy efficiency.

(f) "NEPA" means the National Environmental Policy Act of 1969.

(g) "Statement of Energy Impact" (SEI) is a detailed analysis, incorporated into an environmental impact statement, which describes the probable impact of a

major regulatory action on energy conservation and energy efficiency.

§ 1106.4 Actions normally constituting major regulatory actions.

(a) In determining whether a proposed action will have a significant impact on energy conservation or energy efficiency, consideration will be given to:

(1) The extent to which the action will increase energy consumption in excess of existing energy consumption in the affected area;

(2) The extent to which the action will result in diversion of traffic from one mode of transportation to another;

(3) The extent to which the action will result in more efficient or less efficient use of existing modes of transportation;

(4) The extent to which the proposed action is consistent with Federal, State, and local plans regarding energy conservation;

(5) The extent to which the action will result in the disruption of existing patterns of energy distribution; and

(6) The extent to which the action will provide necessary transportation access for the development of energy resources.

(b) Upon a termination that a proposed action is a major regulatory action, the Commission's Environmental Affairs Staff will prepare a Statement of Energy Impact. The SEI will be incorporated into the staff-prepared environmental impact statement for the proceeding and will be considered with the EIS in the Commission's review process.

DEPARTMENT OF STATE

Agency for International Development

[Redelegation of Authority No. 99.1.80]

AID AFFAIRS OFFICER FOR CARIBBEAN REGIONAL PROGRAMS, BRIDGETOWN, BARBADOS

Redelegation of Authority Regarding Contracting Functions

Pursuant to the authority delegated to me as Director, Office of Contract Management, under Redelegation of Authority No. 99.1.80 (38 FR 12836), as amended, from the Assistant Administrator for Program and Management Services of the Agency for International Development, I hereby redelegate to the AID Affairs Officer for Caribbean Regional Programs, Bridgetown, Barbados, the authority to sign or approve:

1. U.S. Government contracts, and amendments thereto, and AID grant-financed host country contracts for technical assistance, provided that the aggregate amount of each individual contract does not exceed $25,000 or local currency equivalents.

2. Contracts with individuals for the services of the individual alone without monetary limitations.

3. Grants (other than grants to foreign governments or agencies thereof), and amendments thereto, for technical assistance, provided that the aggregate amount of each individual grant does not exceed $25,000 or local currency equivalents.

The authority herein delegated may be redelegated in writing in whole or in part, by said AID Affairs Officer at his discretion to the person or persons designated by the AID Affairs Officer as Contracting Officer. Such redelegations shall remain in effect until such designated person or persons cease to hold the office of Contracting Officer for AID programs, or until the redelegation is revoked by the AID Affairs Officer, whichever shall first occur. The authority so redelegated by the AID Affairs Officer may not be further redelegated.

The authority delegated herein is to be exercised in accordance with regulations, procedures, and policies now or hereafter established or modified and promulgated within AID and is not in derogation of the authority of the Director of the Office of Contract Management to exercise any of the functions herein redelegated.

The authority herein redelegated to the AID Affairs Officer may be exercised by duly authorized persons who are performing the functions of the AID Affairs Officer in an acting capacity.

This redelegation of authority shall be effective immediately.

Dated: August 19, 1976.

RUSSELL DILTS,
Acting Director, Office of Contract Management.

Internal Revenue Service

[Order No. 19 (Rev. 5)]

DEPUTY COMMISSIONER ET AL.

Authority Delegation

Payment of Expenses Incident to Transfers or Appointments of Employees to New Official Stations, Vacation Leave Travel, and Similar Items.

1. This order delegates authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 72 Revised, to authorize or approve the allowance and payment from Government funds of expenses allowable under Chapter 2, Relocation Allowances, of General Services Administration Federal Property Management Regulations Part 101–7, Federal Travel Regulations. The following officers may authorize or approve the incurrence of such expenses, and make related determinations, subject to the restrictions in the succeeding paragraphs of this order and pursuant to implementing regulations in Treasury Department Administrative Circular No. 19, as revised, and IRM 1763, Travel Handbook:

Deputy Commissioner.
Assistant to the Commissioner (Public Affairs).
Assistant Commissioners.
Chief Counsel.
Division Directors.
Director of Internal Operations.
Director, National Computer Center.
Fiscal Management Officer.
Regional Commissioners.
Regional Inspectors.
Regional Counsel.
District Directors.
Service Center Directors.
Director, Data Center.

2. This delegation does not include the authority to agree to the payment of moving expenses by an office other than the gaining office in transfers between the Internal Revenue Service and another agency, department, bureau of the Treasury Department, etc.

3. This delegation does not include the authority to agree to payment of travel and transportation of new appointees to first post of duty.

4. This delegation does not include the authority to approve a period of service of less than two years, or to accept separation, without penalty, from service before the end of a year of service, with respect to employees serving outside the conterminous (contiguous 48 States and the District of Columbia) United States under circumstances requiring two years of service.

5. No redelegation of the above authority may be made except that: (1) Regional Commissioners may redelegate, but not lower than to Branch Chiefs in the Regional Office, (2) District Directors, Service Center Directors, and the Director, Data Center, may redelegate, but not lower than to Division Chiefs.

6. The Director of International Operations and the Regional Commissioner, Western Region, may make determinations and authorizations in cases under their jurisdiction with respect to the transportation and emergency storage of privately-owned motor vehicles of Service employees appointed or transferred to posts of duty other than those located in the conterminous United States. The Fiscal Management Officer may make such determinations and authorizations with respect to all other Service employees appointed or transferred to posts of duty outside the conterminous United States. This authority may not be redelegated.

7. Delegation Order No. 19 (Rev. 4), issued May 23, 1975, is superseded.

Date of Issue: August 19, 1976.

Effective Date: September 3, 1976.

DONALD ALEXANDER,
Commissioner.

NATIONAL CRIME INFORMATION CENTER ADVISORY POLICY BOARD

Meeting

Pursuant to the provisions of Pub. L. 92–463, notice is hereby given that a meeting of the National Crime Information Center (NCIC) Advisory Policy Board (Board) will be held on October 19–20, 1976, at the Royal Inn of Santa Monica, Santa Monica, California. The meeting will begin at 9 a.m. and terminate at 5 p.m. each day.

The purpose of this meeting will be to discuss matters relating to NCIC which are presented to the Board.

The meeting will be open to the public. Persons who wish to make statements and ask questions of the Board members must file written statements or questions at least twenty-four hours prior to the beginning of each meeting. All questions or statements shall be delivered to the person of the Designated Federal Employee or the Assistant Director, Administrative Services Division, FBI, Washington, D.C.

Additional information may be obtained from Mr. Frank B. Buell, Chief, NCIC Section, Administrative Services Division, FBI Headquarters, Washington, D.C. 20535, at telephone number 202/324–2606.

Minutes of the meeting will be available upon request from the above designated FBI official.

CLARENCE M. KELLEY,
Director.

ALBUQUERQUE DISTRICT MULTIPLE USE ADVISORY BOARD

Meeting

Notice is hereby given that the Multiple Use Advisory Board for the Albuquerque District, Bureau of Land Management will meet at 8:00 a.m. on September 28 and 29, 1976. The Board will meet at the Holiday Inn, 600 Broadway, Farmington, New Mexico.

On September 28 the board members will tour lands involved in a Grazing Environmental Statement, a Coal Environmental Statement, Land Exchanges, the Navajo Indian Irrigation Project and coal mines.

On September 29 the Board will meet at 8 a.m. at the Farmington, New Mexico Holiday Inn, 600 Broadway.

The meeting agenda will include discussions on the proposed revised grazing regulations, amendments to off-road vehicle regulations and the lands viewed on the previous day.

The meeting will be open to the public and time will be made available for public statements starting at 10:00 a.m. Statements should be limited to items listed in the agenda. Those wishing to make an oral statement should inform the District Manager prior to the meeting. Written statements may be filed for the Board's consideration by submitting them at the meeting or mailing in advance to the Bureau of Land Management at the address listed below.

Further information concerning the meeting may be obtained from Mr. R. Keith Miller, District Manager, Albuquerque District, 3550 Pan American Freeway, NE., Albuquerque, New Mexico 87107 (telephone 505-766-2455).

Minutes of the meeting will be available at the Albuquerque District Office for public inspection and copying thirty days after the meeting.

Dated: August 20, 1976.

R. KEITH MILLER,
District Manager.

NEW MEXICO MULTIPLE USE ADVISORY BOARD

Meeting

Notice is hereby given that the New Mexico Multiple Use Advisory Board of the Bureau of Land Management will meet at the Inn at Loretto in Santa Fe, New Mexico, September 22 and 23, 1976, as follows:

September 22—8 a.m. to 10 a.m. public comment period on proposed new grazing regulations for lands administered by the Bureau. 10:30 a.m. to 11:30 a.m. Board deliberations upon the regulations and possible formulation of recommendation. 11:30 a.m. to 1:30 p.m. lunch recess. 1:30 p.m. to 3 p.m. public comment period on proposed new amendments to off-road vehicle regulations for lands administered by the Bureau. 3:30 p.m. to 4:30 p.m. Board deliberations upon the regulations and possible formulation of recommendation.

September 23—8 a.m. Review by the Bureau for possible Board recommendation of Bureau primitive area policy and management. 9 a.m. review by the Bureau for possible Board recommendation of the impacts of its allotment management planning and implementation upon interminglied land owners, and vice versa. 10:30 a.m. review by the Bureau for possible Board recommendation of Bureau research policies and programs in New Mexico. 11:30 a.m. to 1:30 p.m. lunch recess. 1:30 p.m. report by the Bureau to the Board for possible recommendation on Bureau policy and methods of personnel management with particular emphasis on rotation of field personnel. 3 p.m. report by the Bureau on the concepts, statutory requirements, organization, function, and interrelationships of the Bureau's district, state, and National Multiple Use Advisory Boards. 4 p.m. discussion of various provisions of the Federal Land Use Policy and Management Act of 1976.

All sessions will be open to the public. Opportunity will be set aside as described above, on a time-available basis, for public comment or statements, on September 22, and on a time-available basis topic-by-topic on September 23. Public comment will be limited to the topics set forth herein.

Members of the public wishing to make written or oral statements should advise Doyle Kline, the Bureau's public affairs officer for New Mexico, of their desire prior to the beginning of the session at which they desire to speak or to submit written comment.

Summary minutes of the meeting will be prepared and will be available approximately 30 days following the meeting. They will be available from the Office of Public Affairs, New Mexico State Office, Bureau of Land Management, Post Office/Federal Building, Santa Fe, N.M.

ARTHUR W. ZIMMERMAN,
State Director.

Bureau of Mines

ADVISORY COMMITTEE ON COAL MINE SAFETY RESEARCH

Meeting

Notice is hereby given in accordance with Public Law 92-463 that a subcommittee meeting of the Advisory Committee on Coal Mine Safety Research will be held on September 15, 1976, commencing at 9:30 a.m. at the Department of the Interior, Room 6071, 18th and C Streets, N.W., Washington, D.C.

The Committee was established to consult with and make recommendations to the Secretary of the Interior on matters involving or relating to coal mine safety research.

The purpose of the meeting is to meet with Department of the Interior officials to discuss fiscal year 1979 budget procedures and requirements and the Committee's role in providing input to the budget process. The meeting is open to the public. Space will be provided for approximately 10 persons other than subcommittee members.

The following is a list of the subcommittee membership:

Dr. John V. Grimaldi, Chairman
Mr. Michael Trbovich, Member
Mr. Robert L. Vines, Member
Mr. Harreld N. Kirkpatrick, Member.

Further information concerning this meeting may be obtained from Rolland R. Reid, Deputy Assistant Secretary—Minerals, Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240, telephone: (202) 343-4881. Transcripts of the meeting will be available for public inspection and copying three weeks after the meeting upon written request addressed to the official above.

Dated: August 20, 1976.

J. D. MORGAN,
Acting Director, Bureau of Mines.

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Receipt of Application for Amendment

A permit was issued on November 10, 1975, to Mr. William S. Clark, Annandale, Virginia, authorizing capture and banding of Peregrine Falcons (*Falco peregrinus tundrius*), not to exceed eight (8) per year, at Cape May Point, New Jersey, during the months of September, October and November. The expiration date of that permit—December 31, 1977.

A notice containing the application for the permit was published in the FEDERAL REGISTER on July 17, 1975 (40 FR 30141-42-43), soliciting public comments for a period of 30 days.

A notice of the issuance of the permit was published on March 5, 1976 (41 FR 9576).

Under date of July 26, 1976, Mr. William S. Clark submitted a request for an amendment to the permit. Published herewith are copies of the terms of the permit and the request for an amendment. The request is being considered pursuant to § 13.23, Title 50 Code of Federal Regulations (see 39 FR 1162).

SIGNATURE: William S. Clark — DATE: July 26, 1976

3-200 6/70 GPO 890-042

V 41 167 AUG 26 76 UMI

12. Attachments. (As required is Section 17.22)
This is an application for an amendment to my Endangered Species Permit No. PRT 8-226-B-C to capture and band Peregrine Falcons. The specific items to be amended are:

1.) To alter the number of Peregrine Falcons that can be banded from up to 8 (Eight) to 30 (Thirty).
2.) Include my subpermittee, Mr. Louis Stevenson Potts, to capture and band Peregrine Falcons under my direction.
Mr. Potts is 5'8" in height, 145 lbs in weight, was born on September 8, 1956. His hair is brown and his eyes are green. His Social Security Number is 226-76-4087.

The reasons for this amendment request is that the Cape May Bird Observatory, in cooperation with the International Color-banding Studies of Peregrine Falcons conducted by Dr. F. Prescott Ward, wants to set up and operate a special station to capture and band Arctic Peregrine Falcons, (Falco peregrinus tundrius) which are still in the wild. In our previous raptor banding activities, we have banded over 11,500 hawks and owls, but only 26 Peregrine Falcons. The reason for our low Peregrine yield is that we have been operating in a woods and marsh location and the Peregrines usually fly, hunt and rest in a beach locale. It is proposed that we set up a special station for the Peregrine Falcons (and Merlins and Kestrels) on the beach within the confines of the U.S. Coast Guard Station at Cape May. Permission has already been granted by the base commander. An alternate site at the Loran station a mile to the north is being considered.

Mr. Potts is scheduled to operate the station every day from mid-September until late October, weather permitting. I will on occasion relieve him. The migration of Peregrine Falcons should be heavier on the beach side of the peninsula and CMBO will be able to add a considerable number of color banded peregrines to the study. Those caught will be banded with U.S. Fish & Wildlife Service bands and color bands and released immediately. Except if they have color bands or radio transmitters on them. In this event we will photograph the bird up close to show the condition of the marker. In the event something unusual comes up, I will be within 5 miles and 15 minutes of Mr. Potts.

Mr. Potts has served as my subpermittee for over three years, except for the time he was away at college. He has operated, both as an assistant and as a bander, both of the present stations of CMBO Raptor banding operation. He is very familiar with the handling, identification and trapping of birds of prey. Mr. Potts has finished two years of college in wildlife management. He will be operating under Department of the Army invitational orders while working at CMBO. He will be under my daily supervision. I have the utmost confidence that Mr. Potts will be an able assistant.

FEDERAL FISH AND WILDLIFE PERMIT

1a. PERMITTEE: • William S. Clark, Annandale, Virginia 22003, -- (4353 Greenberry Lane)	2. AUTHORITY - STATUTES: 16 USC 1539(a); REGULATIONS (Effective): 50 CFR 17.22
	3. NUMBER: PRT 8-226-B-C
	4. RENEWABLE: [X] YES [ ] NO
	5. MAY COPY: [X] YES [ ] NO
	6. EFFECTIVE: NOV 10 1975
	7. EXPIRES: 12/31/77
8. NAME AND TITLE OF PRINCIPAL OFFICER (If 1a is a business): William S. Clark	9. TYPE OF PERMIT: Endangered Species - Banding

10. LOCATION WHERE AUTHORIZED ACTIVITY MAY BE CONDUCTED
Cape May Point, Raptor Banding Station, Cape May, New Jersey

11. CONDITIONS AND AUTHORIZATIONS

A. GENERAL CONDITIONS SET OUT IN SUBPART D OF 50 CFR 13, AND SPECIFIC CONDITIONS CONTAINED IN FEDERAL REGULATIONS CITED IN BLOCK #2 ABOVE, ARE HEREBY MADE A PART OF THIS PERMIT. ALL ACTIVITIES AUTHORIZED HEREIN MUST BE CARRIED OUT IN ACCORD WITH AND FOR THE PURPOSES DESCRIBED IN THE APPLICATION SUBMITTED. CONTINUED VALIDITY, OR RENEWAL, OF THIS PERMIT IS SUBJECT TO COMPLETE AND TIMELY COMPLIANCE WITH ALL APPLICABLE CONDITIONS, INCLUDING THE FILING OF ALL REQUIRED INFORMATION AND REPORTS.

B. THE VALIDITY OF THIS PERMIT IS ALSO CONDITIONED UPON STRICT OBSERVANCE OF ALL APPLICABLE FOREIGN, STATE, LOCAL OR OTHER FEDERAL LAW.

C. VALID FOR USE BY PERMITTEE NAMED ABOVE only.

D. Authorized to capture and band, not to exceed eight (8) each year, Peregrine falcons (Falco peregrinus tundrius) at Cape May Point, New Jersey during the months of September, October, and November.

E. Activities conducted under authority of this permit must be for official business only.

F. Permittee must have a copy of this permit in his possession while conducting the activities authorized.

G. The peregrine falcons must be released immediately at the capture site.

H. May salvage and care for any peregrine falcons found injured or dead and any injured or killed as a result of the permitted activity. Dead specimens shall be preserved for scientific research.

[X] ADDITIONAL CONDITIONS AND AUTHORIZATIONS ON REVERSE ALSO APPLY

12. REPORTING REQUIREMENT: A report of the activities conducted under authority of this permit must be submitted to the Director (FWS), P.O. Box 19183, Washington, D. C. 20036, by January 31st of the following year.

ISSUED BY: s/ Lorna K. Porcher, for	Chief, Division of Law Enforcement	DATE: NOV 10 1975

I. The Special Agent in charge, New York (212-995-5381) will provide instructions for the disposition of any specimens salvaged.

J. When a peregrine falcon is salvaged, it must be reported within 48 hours to Special Agent in Charge, New York (212-995-5381).

K. Maintain records as required in 50 CFR 13.46.

In keeping with the spirit of the Endangered Species Act of 1973 this notice is being published to allow public comment on the request for an amendment. Interested persons may comment on this amendment by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. Please refer to PRT 8-226-B-C, when submitting comments. All relevant comments received on or before September 27, 1976.

Dated: August 19, 1976.

MARSHALL L. STENNETT,
Acting Chief, Division of Law Enforcement,
U.S. Fish and Wildlife Service.

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205):

Applicant: Mr. Lloyd R. Ure, Route 1, Granton, Wisconsin 54436

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE
FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION

1. APPLICATION FOR/IN: [ ] IMPORT OR EXPORT LICENSE [X] PERMIT (Fully Iced)

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED: TO BE ABLE TO HAVE DESIGNATED PASSPORTS TO PROTECT-INSURE THEIR SURVIVAL

3. APPLICANT (Person, partnership or corporation) (Print or type full name, business, agency, or institution for which permit is requested): LLOYD R. URE, RT. 1, GRANTON, WIS. 54436, Phone 715-238 7281

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
SEX: [X] MALE [ ] FEMALE; HEIGHT: 5'9"; WEIGHT: 150
DATE OF BIRTH: SEPT 13, 1930; COLOR HAIR: BROWN; COLOR EYES: BLUE
PHONE NUMBER WHERE EMPLOYED: 715-238-7281; SOCIAL SECURITY NUMBER: 398-22-8238
OCCUPATION: DAIRY FARMING
IF BUSINESS, AGENCY OR INSTITUTION IS NOT INDIVIDUAL, BRIEFLY DESCRIBE ITS NATURE AND ACTIVITIES. IF A CORPORATION, GIVE NAMES AND TITLES OF PRINCIPAL OFFICERS. IF A PARTNERSHIP, GIVE NAMES OF ALL PARTNERS. IF AN AGENCY OR INSTITUTION, GIVE NAMES OF PRINCIPAL OFFICIALS. ATTACH ADDITIONAL SHEET IF NECESSARY.

5. IF "APPLICANT" IS A BUSINESS, PARTNERSHIP, CORPORATION, PUBLIC AGENCY OR INSTITUTION, COMPLETE THE FOLLOWING: EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY OR INSTITUTION: DOES NOT APPLY
IF "APPLICANT" IS A PARTNERSHIP, GIVE NAME AND ADDRESS OF EACH PARTNER. IF A CORPORATION, GIVE NAME AND ADDRESS OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC.: DOES NOT APPLY
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED: DOES NOT APPLY

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED (Peregrine Endangered Passports At my cabin at Rt. 1 Granton Wis. Shipping Address Clark County) (If buying live birds indicate source and shipping intrastate, interstate or foreign): Peregrine Endangered Passports At my cabin at Rt. 1 Granton Wis. Shipping Address Clark County. Peregrine Endangered Passports Are Bought Live Birds Banded And Shipping Interstate. Printing Passports Granton Wisconsin Peregrine Endangered Passports Are Bought Live Birds Banded And Shipping Interstate. Printing Passports Granton Wisconsin (Peregrines Born In Missing)

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? [ ] YES [X] NO
IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU DESCRIBE IN ITEM 2? [ ] YES [ ] NO
IF YES, GIVE JURISDICTION AND TYPE OF APPROVAL: I Hold A Commercial Propagation License, Issued By The State Of Wisconsin License No. 4617

8. DESCRIBE FACILITIES AND EQUIPMENT YOU HAVE FOR HOUSING AND CARING FOR WILDLIFE: Wildlife Endangered Passports Are Bought Live Birds Banded And Shipping Interstate. Printing Passports Granton Wisconsin (Peregrines Born In Missing)

9. CERTIFIED CHECK OR MONEY ORDER (If required) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF: Does Not Apply

10. DESIRED EFFECTIVE DATE: SEPT 1, 1976
11. DURATION NEEDED: 60 DAYS

12. ATTACHMENTS: THE FOREGOING INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT PROVIDED IS (OR IS BEING) FURNISHED AS AN ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED: 50 CFR PART 17.22 Permits for scientific purposes, pet for the enhancement of propagation or survival

CERTIFICATION

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 11 OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY BE SUBJECT TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE (In ink): Lloyd R. Ure
DATE: June 28, 1976

1. Would like to purchase two Brown Eared (Crossoptilon Mantchuricum) females to mate with my two males for propagation purposes as well as for new blood.

2. Wildlife born in captivity

3. By purchasing the above pheasants that were raised in captivity. From breeders in the states. By having the above shipped in padded crates to avoid chance of injury.

4. The brown Eared hens were raised in captivity by Mr. C. Milton Bayne, Box 204, Dover Road, Reisterstown, Md 21136. Phone: 301-429-8969 The males were raised at my farm at Rt. 1, Granton, Wis. 54436.

5. The birds are and will be kept at my farm. The aviaries are 8' x 16' x 6' high with vegatative cover to insure contentment of the birds.

6.(I)

—	—	—	—	—

Pens are 8'x 16' x 6' high. Covered with 1" mesh netting and boarded up 2' on the bottom. The back 4' of the pen is enclosed with a weather proof roof for shade and protection from the weather.

(II) in the past 9 years I have raised Pheasant such as Golden, Amherst, Silver, Reeves, Elliots, Swinhoe, Impeyan, Cheer, Nepal, Mikado, Humes, and Brown Eared as well as waterfowl such as Canadian Geese and Wood Ducks.

(III) I would be more than willing to cooperate in a breeding program and keep accurate records, as I believe the only reason many species exist today is because of the dedicated individuals who are raising them in captivity.

(IV) The containers used for shipping are at least 1' x 2' x 18" high, Made of masonite, with the top lined with 1" of foam rubber. Feed and Water is placeed in each box. As the airline is contacted in advancem they will not be in a box more than 24 to 36 hours.

(V) I have never lost a Brown Eared Pheasant. In 1974, a mink got into a pen and killed a pair of Cheer and an Amherst Cock. I buried wire around the pens to prevent any wild animal from digging under. I also lost a Swinhoe and an Elliots Hen last winter in a storm. I feel they were weakened by age as they were 9 years old. The pens are kept clean and a medication plan is followed.

7. Ther are no written contracts or agreements. Mr. Bayne said he will hold the birds at Reisterstown, Md., until a permit is issued or rejected.

8.(I) I plan on keeping and breeding Brown Eared Pheasants as well as the other pheasants I have now.

(II) and (III) I will supply adequate pens, housing, feed and care to insure the birds contentment in captivity, so they will breed to keep a captive self sustaining stock. I strongly feel that they will only do so in the care and quiet surroundings provided by the private propogator.

(IV) If I would quit raising birds, I would sell or donate them to other breeders to continue propagating them.

However since this is the only hobby I care for and I have a great love for raising birds, this is a very remote possibility.

Documents and other information submitted with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. This application has been assigned File Number PRT PRT 2-273-07; please refer to this number when submitting comments. All relevant comments received on or before September 27, 1976, will be considered.

Dated: August 19, 1976.

MARSHALL L. STINNETT,
Acting Chief Division of Law Enforcement, U.S. Fish and Wildlife Service.

Re Endangered Species Import Permit Application

MR. LYNN A. GREENWALT,
Director, U.S. Fish and Wildlife Service, Attn: Law Enforcement, P.O. Box 19183, Washington, D.C.

DEAR SIR: 1. Request permit to import one (1) male and three (3) female parma wallaby, *Macropus parma* (*Wallabia parma*) born 1975, from the Royal Zoological Society of South Australia, Inc. (Adelaide Zoo).

2. These animals were born in captivity.

3. N.A.

4. Born Adelaide Zoo, Australia.

5. To be imported to the National Zoological Park, Washington, D.C. 20009, U.S.A.

6. (I) The enclosure in which we intend to house the parma wallabies is a triangular area of the following dimensions: 300 feet long, 150 feet wide at upper end of enclosure by 50' wide at lower portion of enclosure. The substrate is an earth/gravel mix with a heavy growth of grasses. In addition the area is heavily planted with pyracatha, holly, white pine maple, oak and poplar. The entire area is fenced with vinyl-coated wire with a mesh size of 2''×4''. The fence height is 6 feet.

Housing is provided in the form of 4 wooden sheds, each sub-divided inside into two compartments. Each house is equipped with two infra-red heat lamps, one per compartment. The houses measure 10'×4', 5'×3' and 3'×2' respectively. There are three wooden barrels approximately 18'' wide × 36'' long buried partly beneath the ground to provide additional hiding/shelter areas.

Viewing by the public is allowed from only two areas: the long 300' frontage and the 150' side. The rear of the enclosure is double fenced with heavy planting, masking the area from the public. The same is true of the 50' lower side area.

At the present time the enclosure is inhabited by a group of 1.4 red kangaroos, *Megaleia rufa*, and 1.3 dik-dik, *Madoqua kirki*. There is also a single male parma wallaby in the exhibit. Reproduction has occurred in all of the above species. It is intended to remove the existing male parma wallaby and place him in a smaller holding area for use as a back-up breeder. The 1.3 animals requested are to be housed in the enclosure with a major effort toward breeding them.

(II) The staff of the Office of Animal Management has had over 40 years combined experience with macropods. In addition, the Office of Zoological Research has extensively studied the reproduction and behavior of Australian carsupials, and the Office of Animal Health has experience in treating marsupial diseases. (See previous applications for staff resumes.)

(III) We are willing to participate in a cooperative breeding program and to contribute data to a studbook.

(IV) The animals will be shipped from Australia by airplane and will conform to the IATA live animal regulations (container note 25).

(V) On June 15, 1970 we received a female parma wallaby and on January 30, 1970 we received a male. Both had been in the possession of private citizens. The pair bred in January and October of 1972; no offspring resulted. This male died with a fractured spine of unknown origin on November 14, 1973. A new male (the one currently at the ZOO) was received December 13, 1973 from another zoo (where it was born in 1971), and after quarantine was put with the female on January 29, 1974. The female was found dead on October 24, 1975; neither gross autopsy nor histological examination of the tissues enabled us to determine the cause of death. The female was pregnant at the time, and a 1.5 cm foetus was found in the uterus.

The zoo currently has 22 specimens of three (3) other species of macropods; of these 11 were born at the National Zoo (four (4) were born at other zoos).

7. Attached is a copy of the permit from National Parks and Wildlife Service of Australia authorizing export of four (4) parma wallaby (*Wallabia parma*) from the Adelaide Zoo to the National Zoo. This permit is valid until 30 September 1976, and shipment would take place between the date of receipt of a U.S. Endangered Species and 30 September.

8. The National Zoological Park currently has one lone male parma wallaby, of breeding age (5 years).

(I) The National Zoo wishes to purchase one (1) male and three (3) females of the same species from the Adelaide Zoo.

(II) The four wallabies which are to be imported would be shipped via air to either the San Francisco or Los Angeles airport and then on to Washington, D.C.

(III) Based on previous experience with macropods, the National Zoo has a good chance to keep the specimens alive and to breed them (see 6 (V) above).

(IV) It is planned that the specimens would remain at the National Zoological Park. At death the autopsied carcasses would go to the U.S. National Museum (Smithsonian Institution).

THEODORE H. REED, D.V.M.,
Director, National Zoological Park.

ENDANGERED SPECIES PERMIT
Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1974 (Pub. L. 93-205).

Applicant: Patuxent Wildlife Research Center, U.S. Fish and Wildlife Service, Laurel, Maryland 20811.

Dr. Lucille F. Stickel, Director.

PATUXENT WILDLIFE RESEARCH CENTER
ENDANGERED SPECIES PERMIT APPLICATION
ATTACHMENT

17.22(a)

(1) Common name: Peregrine Falcon; Scientific name: *Falco peregrinus*. Trapping (and banding) of peregrines during fall migration at Assateague Island, Maryland and Virginia and Padre Island, Texas is authorized by Federal permits (PRT 8-251-B-C and PRT 8-112-B-C) issued to other individuals. We wish to take blood samples from birds caught at those localities, to trap and band not more than 25 peregrine falcons along the coast of Washington and Oregon, and to take a small amount (3 cc.) of blood to be analyzed for environmental pollutants. Permit is requested for taking blood samples from at least six, but not more than 12, peregrines at each of the three (3) localities; total number of blood samples would not exceed 36. Samples would be taken from adults, if they are available, of either sex. Cooperators will be provided instructions, both in person and in writing, and equipment for taking samples. Blood samples will be analyzed for organochlorine pesticides and PCB's at the Patuxent Wildlife Research Center, following procedures in the PWRC Analytical Manual.

(2) All birds from which samples would be taken are in the wild.

(3) Peregrines will be caught with nets, snares, traps or other similar proven techniques that are under constant observation to ensure that birds are not injured or captured by predators. Using these techniques, blood samples have been taken from more than 300 raptors in the Pacific Northwest (see 8, below). To the best of our knowledge, no birds died as a result of the blood sampling.

(4) Not applicable.

(5) Peregrine falcons will not be maintained in captivity. The blood samples will be taken immediately after falcons are captured. The birds will then be banded and released, certainly within 30 minutes of capture.

(6) (i) No facilities are to be used for housing the peregrines because samples will be taken immediately; the birds will then be banded and released.

(ii) Dr. Charles J. Henny, Research Biologist, is the principal investigator for this study. He and his field assistants have used similar methods to take blood samples from more than 300 raptors in the Pacific Northwest (see (6) (v), below).

(iii) Not applicable.

(iv) See (6) (i), above.

(v) Dr. Henny and his assistants have successfully taken blood samples from many raptors in their study of the effects of the DDT spray program against the tusock moth on raptors in the Pacific Northwest. There was no known mortality of raptors as a result of taking the blood samples in that study.

(7) Each of the cooperating banders will send a letter of agreement directly to Federal Wildlife Permit Office as soon as possible.

(8) Justification: Concern for the status of the peregrine falcon coupled with the sparse data on pesticide burdens and the strong prevailing hypothesis that the decline of peregrines in many cases resulted from environmental contamination make it highly desirable to obtain a more extensive data base for this species. The birds are already being trapped and studied routinely. Blood samples can be taken at the same time without harm to the bird, and with essentially no additional costs.

The use of blood for measuring pesticide exposure has been used for epidemiological investigations of pesticide exposure in man (Davies et al. 1969, Am. J. Public Health 59: 435; Radomski et al. 1971, Toxicol. Appl. Pharmacol. 20: 175-185; and others). Dale et al. (1966, Life Sci. 5: 47-54) reported that the six insecticides that they routinely identified in a general human population occurred so predominantly in plasma that serum or plasma values were satisfactory for toxicological studies. Their observations have been supported by data for dieldrin, lindane, DDE and DDT residues in the blood and fat of man (Brown et al. 1964, Br. J. Ind. Med. 21: 283; Radomski and Rey 1969, Ind. Med. 38: 53-90; Edmundson et al. 1972, In J. E. Davies and W. F. Edmundson (ed.). Futura Publishing Co., Inc., Mt. Kisco, N.Y. 157 pp.). Blood has also been used to monitor exposure of waterfowl to both organochlorine pollutants and lead (Dieter, et al. 1976, Arch. Environ. Contam. Toxicol. 4) and to monitor exposure of fish to endrin (Mount et al. 1966, Science 152: 1388-1390).

Friend et al. (in prep.) concluded from a test of the relationship between DDE in blood sera and DDE in the fat of mallards (*Anas platyrhynchos*) that there was a consistent relationship. Major advantages of blood sampling include: (1) The bird does not have to be killed to obtain the sample, therefore, large-scale sampling is possible even with endangered or threatened species; (2) multiple samples are possible over time from some individuals; (3) freezer storage space for specimens is greatly reduced; (4) discrete populations can be sampled periodically over time in sufficient numbers to establish pesticide exposure patterns and biologically meaningful changes in residue levels.

We utilized this technique to monitor the effects of the 1974 DDT spray program against the tussock moth on raptors in the Pacific Northwest (Henny et al. 1976, Rep. to USDA, Forest Service, Portland, OR. Memeo. 23 pp.). The magnitude of change in pesticide burdens in and away from DDT spray area showed the same pattern from eggs as it did from sera in American kestrels (*Falco sparverius*). Furthermore, the amount of DDT and its metabolites in the eggs appeared to be a log function of the amount in the sera from the same female (Henny et al. 1976). Additional laboratory work with American kestrels fed varying diets of DDE (Henny, unpublished) showed an excellent correlation between DDE levels in the sera and brain of the same birds ($y=0.290+1.408X$, $r=+0.964$, $n=26$).

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. This application has been assigned File Number PRT 2-310-07; please refer to this number when submitting comments. All relevant comments received on or before September 27, 1976, will be considered.

Dated: August 20, 1976.

MARSHALL L. STINNETT,
Acting Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

MARINE MAMMALS
Issuance of Permit and Amendment

On March 26, 1976, a notice was published in the FEDERAL REGISTER (41 FR 12726-27-28), that an application had been filed with the Fish and Wildlife Service by the Seattle Aquarium, Department of Parks and Recreation, City of Seattle, Washington (H. D. Kemper, Jr., Director), for a permit to collect five (5) SEA OTTERS (*Enhydra lutris*), for public display and scientific research.

Notice is hereby given that on August 10, 1976, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the Fish and Wildlife Service issued a permit to the Seattle Aquarium. A copy of that permit is published herewith.

On August 18, 1976, Amendment No. 1 to that permit (PRT 2-90), was issued, changing the location where the authorized activity may be conducted. A copy of that amendment is also published herewith.

Dated: August 20, 1976.

MARSHALL L. STINNETT,
Acting Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Rev. 9-1-68

3. AUTHORITY (STATUTES): 16 USC 1371(a)(1)
REGULATIONS (Attached): 50 CFR 18.31
2. NUMBER: PRT 2-90
4. RENEWABLE: ☐ YES ☒ NO
5. MAY COPY: ☒ YES ☐ NO
6. EFFECTIVE:
7. EXPIRES: 02/28/77

AUG 10 1976

8. NAME AND TITLE OF PRINCIPAL OFFICER (If #1 is a business): H. Doug Kemper, Jr., Director
9. TYPE OF PERMIT (CHECK ISSUED): PUBLIC DISPLAY & SCIENTIFIC RESEARCH
10. LOCATION WHERE AUTHORIZED ACTIVITY MAY BE CONDUCTED: STATE OF CALIFORNIA

11. CONDITIONS AND AUTHORIZATIONS:

A. GENERAL CONDITIONS SET OUT IN SUBPART D OF 50 CFR 13, AND SPECIFIC CONDITIONS CONTAINED IN FEDERAL REGULATIONS CITED IN BLOCK 10 ABOVE, ARE HEREBY MADE A PART OF THIS PERMIT. ALL ACTIVITIES AUTHORIZED HEREIN MUST BE CARRIED OUT IN ACCORD WITH AND FOR THE PURPOSES DESCRIBED IN THE APPLICATION SUBMITTED. CONTINUED VALIDITY, OR RENEWAL, OF THIS PERMIT IS SUBJECT TO COMPLETE AND TIMELY COMPLIANCE WITH ALL APPLICABLE CONDITIONS, INCLUDING THE FILING OF ALL REQUIRED INFORMATION AND REPORTS.

B. THE VALIDITY OF THIS PERMIT IS ALSO CONDITIONED UPON STRICT OBSERVANCE OF ALL APPLICABLE FOREIGN, STATE, LOCAL OR OTHER FEDERAL LAW.

C. VALID FOR USE BY PERMITTEE NAMED ABOVE and any person who is under the direct control of, or who is employed by or under contract to, the permittee.

D. Authorized to capture, as specified in Block 10, one (1) male and four (4) female subadult (1-1/2 to 3 years of age) Sea otters (Enhydra lutris), and transport them to the Seattle Aquarium for the purposes of public display and scientific research.

E. The actual collection of the animals is to be performed by personnel of the California Department of Fish and Game.

F. No nursing females are to be taken and the utmost care is to be exercised not to take any pregnant females.

G. Activities conducted under authority of this permit must be for official business only.

☒ ADDITIONAL CONDITIONS AND AUTHORIZATIONS ON REVERSE ALSO APPLY

12. REPORTING REQUIREMENTS: A report of the activities conducted under authority of this permit must be submitted to the Director (FWS), P.O. Box 19183, Washington, D.C. 20036, by January 31st of the following year.

ISSUED BY: s/ Loren K. Parcher, Chief, Division of Law Enforcement — DATE: AUG 10 1976

(S) Loren K. Parcher for – Chief, Division of Law Enforcement — Aug.10,1976

H. Acceptance of this permit authorizes inspection per 50 CFR 13.47.

I. Permittee must have a copy of this permit in his possession while conducting the activities authorized.

J. The loss, death, or destruction of any Sea otters as a result of these authorized taking activities must be reported within 24 hours to the Special Agent in Charge at Sacramento (916-468-4748), and in writing to the Director (FWS), Box 19183, Washington, D.C. 20036.

K. Any dead or injured Sea otters found may be salvaged or cared for. Dead specimens shall be preserved for scientific research.

L. The Sacramento FWS office will provide instructions for the disposition of any specimens salvaged in California waters.

M. Maintain records as required in 50 CFR 13.46.

N. The expiration date in block 7 refers only to the preceding authorization and conditions listed above. The following conditions remain effective until amended, modified, revoked, or upon death of the wildlife.

O. Upon the death of any Sea otters, taken, transported and held under the authority of this permit, the Special Agent in Charge at Portland (503-234-3361), must be notified within 24 hours.

P. Upon the death of any Sea otters, taken, transported and held under authority of this permit, the Special Agent in Charge at Portland (503-234-3361), will provide instructions for disposition of the carcass(s).

U.S. DEPARTMENT OF THE INTERIOR,
FISH AND WILDLIFE SERVICE,
Washington, D.C., August 18, 1976.

THE SEATTLE AQUARIUM,
Department of Parks and Recreation,
100 Dexter Avenue North,
Seattle, Washington.

Attention: H. Doug Kemper, Jr., Director.
Re PRT 2-90-10,11; Amendment No. 1

DEAR MR. KEMPER: Under date of August 10, 1976, you were issued a permit PRT 2-90-10,11 to collect five (5) Sea otters (*Enhydra lutris*), and transport them to the Seattle Aquarium, for the purposes of public display and scientific research.

The permit authorized the collecting activities in California waters. A recommendation by the Marine Mammal Commission on May 20, 1976, was made to authorize collecting activities in Alaska waters only. The recommendation by the Commission was inadvertently overlooked in preparing the conditions of the permit.

Therefore, as discussed in a telephone conversation on August 12, 1976, between you and the Fish and Wildlife Law Enforcement office in Washington, D.C., and in accordance with Federal Regulations your permit is amended as follows:

Block 10. Location Where Authorized Activity May Be Conducted.

10. Delete—as written. Amend—to read: State of Alaska.

Block 11.E. Delete.

Block 11.J. Delete—as written.

11.J. Amend—to read: The loss, death, or destruction of any Sea otters as a result of these authorized taking activities must be reported within 24 hours to the Special Agent in Charge at Anchorage (907-278-2031), and in writing to the Director (FWS), P.O. Box 19183, Washington, D.C. 20036.

Block 11.L. Delete—as written.

11.L. Amend—to read: The Anchorage FWS office will provide instructions for the disposition of any specimens salvaged.

In accordance with § 18.33, Title 50 Code of Federal Regulations, permittees have the option of requesting a hearing where a modification of a marine mammal permit is proposed. We view your expressed willingness and request to have this amendment accomplished as rapidly, as possible, as related to Special Agent Sims of my staff in telephone conservations as a waiver of your option for a hearing. Accordingly, the amendment has been issued immediately to preclude time delays.

Please attach this letter to your original permit.

All other terms and conditions remain in effect.

Sincerely yours,

MARSHALL L. STINNETT,
Acting Chief,
Division of Law Enforcement.

Office of the Secretary

COMMITTEE ON ENHANCED RECOVERY TECHNIQUES FOR OIL AND GAS IN THE UNITED STATES, SUBGROUPS; NATIONAL PETROLEUM COUNCIL

Meetings

Notice is hereby given for the following meetings: 1. The Coordinating Subcommittee will meet on September 16–17, 1976, at 9:30 a.m. on September 16 and at 9:00 a.m. on September 17, in the President's Room of the Writer's Manor, 1730 South Colorado Boulevard, Denver, Colorado.

The agenda includes the following items for review and discussion: (1) Comments received from the Committee on Enhanced Recovery Techniques for Oil and Gas in the United States regarding the direction of the study.

(2) Task Group comments.

(3) Draft proposals for the final report.

(4) Schedule for completion of study.

(5) Any other matters pertinent to the overall assignment of the Coordinating Subcommittee.

2. The Technology Task Group will meet on September 14–15, 1976, at 10:00 a.m. on September 14 and at 8:30 a.m. on September 15, in the President's Room of the Writer's Manor, 1730 South Colorado Boulevard, Denver, Colorado.

The agenda includes the following items for review and discussion: (1) Submissions on Task Group assignments.

(2) Draft proposals for final report.

(3) Any other matters pertinent to the overall assignment of the Technology Task Group.

3. The Economic Conditions Task Group will meet on September 14–15, 1976, at 1:30 p.m. on September 14 and at 9:00 a.m. on September 15, in the Olympic Room of the Writer's Manor, 1730 South Colorado Boulevard, Denver, Colorado.

The agenda includes the following items for review and discussion: (1) Submissions on Task Group assignments.

(2) Draft proposals for final report.

(3) Any other matters pertinent to the overall assignment of the Economic Conditions Task Group.

The purpose of the National Petroleum Council is to provide to the Secretary of the Interior, upon request, advice, information, and recommendations upon any matter relating to petroleum or the petroleum industry.

The meetings will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meetings. Interested persons who wish to speak at the meetings must apply to the Council and obtain approval in accordance with its established procedures.

Further information about the meetings may be obtained from Ben Tafoya, Office of the Assistant Secretary-Energy and Minerals, Department of the Interior, Washington, D.C. (telephone: 343-6226).

Dated: August 20, 1976.

ROBERT L. PRESLEY,
Staff Assistant-Emergency Preparedness, Office of the Assistant Secretary-Energy and Minerals.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

IDAHO

Grain Standards Inspection Point

Notice is hereby given pursuant to § 26.99 of the regulations (7 CFR 26.99) under the U.S. Grain Standards Act (7 U.S.C. 71 *et seq.*) that on June 4, 1976, there was published in the FEDERAL REGISTER (41 FR 22639) a notice announcing a request by the Utah-Idaho Grain Exchange, Ogden, Utah, that its assignment of inspection points be amended to add Pocatello, Idaho, as a designated inspection point. Interested persons were given until July 6, 1976, to submit written views and comments with respect to the proposed amendment of assignment.

No comments were received with respect to the June 4, 1976, notice in the FEDERAL REGISTER. After due consideration of market needs and circumstances and other material available to the Department, the assignment of the Utah-Idaho Grain Exchange, Ogden, Utah, is amended to add Pocatel, Idaho, as a designated inspection point.

(Sec. 7, 39 Stat. 882, as amended 82 Stat. 764 (7 U.S.C. 79(f); 37 FR 28464 and 28476.)

Effective date: This notice shall become effective August 26, 1976.

Done in Washington, D.C. on August 20, 1976.

IRVING W. THOMAS,
Acting Administrator.

[FR Doc.76-25063 Filed 8-25-76;8:45 am]

MISSISSIPPI

Grain Standards Inspection Point

Statement of considerations. On July 16, 1976, there was published in the FEDERAL REGISTER (41 FR 29450) a notice announcing the request of the Woodson-Tenent Laboratories, that effective September 1, 1976, its designation under section 7(f) of the U.S. Grain Standards Act (7 U.S.C. 79(f)) to operate as an official inspection agency at Clarksdale, Mississippi, be canceled because it is unable to recover the cost of providing the service due to the low volume of inspection. Interested persons were given until August 16, 1976, to make application for designation to operate as an official inspection agency at Clarksdale, Mississippi, and to submit written views and comments with respect to the proposed cancellation.

No comments were received with respect to the July 16, 1976, notice in the FEDERAL REGISTER. Therefore, the designation of the Woodson-Tenent Laboratories to operate as an official inspection agency at Clarksdale, Mississippi, is canceled. No person is now designated under section 7(f) of the U.S. Grain Standards Act (7 U.S.C. 79(f)) to operate as an official inspection agency at Clarksdale, Mississippi. This notice does not preclude intereted persons from making application later for designation to operate as an official inspection agency at Clarksdale, Mississippi, in accordance with the requirements in § 26.96 of the regulations (7 CFR 26.96) under the U.S. Grain Standards Act.

(Sec. 7, 39 Stat. 482, as amended 82 Stat. 764 (7 U.S.C. 79(f)); 37 FR 28464 and 28476.)

Effective date: This notice shall become effective August 26, 1976.

Done in Washington, D.C. on: August 20, 1976.

IRVING W. THOMAS,
Acting Administrator.

[FR Doc.76-25064 Filed 8-25-76;8:45 am]

Farmers Home Administration

[Designation Number A363]

NEW YORK

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in the following New York Counties as a result of the natural disasters shown below:

Columbia County—Winterkill resulting from severely low temperatures and cool wet weather March 16 through July 21, 1976, and hailstorms June 10 and June 11, 1976.

Wayne County—Torrential rains, flooding, and abnormally wet conditions March 1 to July 23, 1976, and damaging hail April 15, April 16, and June 14, 1976.

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 94-68, and the provisions of 7 CFR 1832.3 (b) including the recommendation of Governor Hugh L. Carey that such designation be made.

Application for emergency loans must be received by this Department no later than October 18, 1976, for physical losses and May 18, 1977, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, DC. this 20th day of August, 1976.

JOSEPH R. HANSON,
Acting Administrator,
Farmers Home Administration.

Forest Service

EMERALD CREEK PLANNING UNIT; LAND USE PLAN

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Land Use Plan — Emerald Creek Planning Unit, Forest Service Report Number USDA-FS-R1(04)-FES-Adm.-75-13.

The environmental statement concerns the proposed implementation of a revised Land Use Plan for the Emerald Creek Planning Unit, St. Maries Ranger District, Idaho Panhandle National Forests, Benewah, Shoshone and Latah Counties, Idaho. About 15,800 acres of National Forest land are affected. The planning unit is divided into five subunits of similar resource potential and limitations to management. Significant values, management direction, and specific statements to guide land management have been developed for each subunit.

This final environmental statement was transmitted to CEQ on August 19, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW., Washington, DC 20250.

USDA, Forest Service, Northern Region, Federal Building, Missoula, MT 59801.

USDA, Forest Service, Idaho Panhandle National Forests, 218 North 23rd Street, Coeur d'Alene, Idaho 83814.

V 41 167
AUG 26 76
UMI

USDA, Forest Service, St. Maries Ranger District, Federal Building, St. Maries, Idaho 83861.

A limited number of single copies are available upon request to:

USDA, Forest Service, St. Maries Ranger District, P.O. Box 407, St. Maries, Idaho 83861.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

RALPH D. KIZER,
Forest Supervisor, Idaho Panhandle National Forests, Northern Region, Forest Service.

OZONE UNIT PLAN

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Ozone Unit Plan, USDA-FS-R8-FES-Adm.-75-19.

The environmental statement concerns a proposed action to manage the Ozone Unit, which is part of the Ozark National Forest, in accordance with the 10-year management direction contained in the Unit Plan. This Unit contains 66,417 acres of National Forest land in Johnson County, Arkansas. It is proposed that this Unit be managed for a wide range of multiple-use benefits, including water, wildlife, recreation, range, minerals and timber. Major actions in the 10-year period include regenerating 6,650 acres, thinning and releasing 9,600 acres, increasing the diversity of wildlife habitat conditions, maintenance and improvement of existing, developed recreation sites, administration of on-going gas and oil leasing activities, managing the range resource and the construction or reconstruction by timber purchasers, contractors or permittees of 67 miles of single lane, gravel roads.

This Final environmental statement was transmitted to CEQ on August 20, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, Southern Region, Room 804, 1720 Peachtree Rd., NW, Atlanta, GA 30309.

USDA, Forest Service, Main and Fargo, Russellville, AR 72801.

A limited number of single copies are available upon request to Larry D. Henson, Forest Supervisor, P.O. Box 1008, Russellville, AR 72801.

Copies of the environmental statement have been sent to various Federal, state and local agencies as outlined in the CEQ guidelines.

LARRY D. HENSON,
Forest Supervisor.

ADVISORY COMMITTEE ON EAST-WEST TRADE

Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Advisory Committee on East-West Trade will be held on Thursday, September 16, 1976, at 9:00 a.m., in Room 4832, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

The Committee was established to advise the Department, through the Deputy Assistant Secretary for East-West Trade, on ways to facilitate and coordinate the expansion of two-way trade with countries having centrally planned economies, so as to enhance the balance of trade and payments situation.

Agenda items are as follows:

MORNING SESSION, 9:00 A.M.-12 NOON

1. Review of miscellaneous items outstanding from previous meetings.

2. Discussion of the submissions by Committee members to the Committee study on the Policy Implications of East-West Trade

3. Discussion of Media Perceptions of East-West Trade Issues.

4. Review of items submitted by Committee members.

5. Review of items submitted by the Public.

AFTERNOON SESSION, 1:00 P.M.-2:00 P.M.

6. Presentation and discussion of current policies of the Export Import Bank of the United States in regard to East-West Trade.

The meeting will be open to public observation and a period will be set aside for oral comments or questions by the public which do not exceed ten minutes each.

More extensive questions or comments should be submitted in writing before May 24, 1976. Other public statements regarding committee affairs may be submitted at any time before or after the meeting.

Approximately 20 seats will be available for the public (including 5 seats reserved for media representatives) on a first-come first-served basis.

Copies of minutes will be available 30 days after the meeting upon written request addressed to the Domestic and International Business Administration, Freedom of Information Officer, Freedom of Information Control Desk, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

Inquiries should be addressed to Robert Frothingham III, Committee Control Officer, Office of East-West Policy and Planning, Bureau of East-West Trade, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone (202) 377-4691.

ARTHUR T. DOWNEY,
Deputy Assistant Secretary for East-West Trade.

AUGUST 20, 1976.

[FR Doc.76-25011 Filed 8-25-76;8:45 am]

ASSEMBLY, PACKAGING AND TEST SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Assembly, Packaging and Test Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Thursday, September 16, 1976 at 1:30 p.m. in Room 5230, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Assembly, Packaging and Test Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 4, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Assembly, Packaging and Test Subcommittee was formed to provide advice to the Committee with respect to equipment for completing microelectronic circuit assemblies and for testing circuits during production or at final test stations.

The Subcommittee meeting agenda has five parts:

GENERAL SESSION

(1) Opening remarks by the Subcommittee Chairman.

(2) Presentation of papers or comments by the public.

(3) Reports by Subcommittee members on their assignments and investigations in their respective areas: Assembly Equipment, S. Harrell; Test Equipment, B. Cohen; Packaging Equipment, K. Russell.

(4) Review of findings and summarization of the reports.

EXECUTIVE SESSION

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under the Executive Order. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on January 30, 1976 (41 FR 4623).

Dated: August 20, 1976.

LAWRENCE J. BRADY,
Acting Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

[FR Doc.76-25009 Filed 8-25-76;8:45 am]

WAFER PROCESSING SUBCOMMITTEE OF THE SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that a meeting of the Wafer Processing Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Thursday, September 16, 1976 at 1:30 p.m. in Room 4833, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Wafer Processing Subcommittee of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was established on March 3, 1976, by the Director, Office of Export Administration, pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Wafer Processing Subcommittee was formed to provide advice to the Committee with respect to processes and processing equipment including but not limited to cleaning wafer surfaces, applying resist materials, and developing circut patterns.

The Subcommittee meeting agenda has five parts:

GENERAL SESSION

(1) Opening remarks by the Subcommittee Chairman.

(2) Presentation of papers or comments by the public.

(3) Discussion of current product and technology availability from foreign sources in the areas of chemical vapor deposition, metalization and ion implantation.

(4) Discussion of the critical process steps required to manfacture low powered schottky, complimentary-metal oxide semiconductor, and TTL devices as related to the fields of chemical vapor disposition, metalization, and ion implantation.

EXECUTIVE SESSION

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under the Executive Order. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on January 30, 1976 (41 FR 4623).

Dated: August 20, 1976.

LAWRENCE J. BRADY,
Acting Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

Maritime Administration

CONSTRUCTION OF TWO CONTAINERSHIPS MA DESIGN C5–S–73b

Computation of Foreign Cost; Intent

Notice is hereby given of the intent of the Maritime Subsidy Board, pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended, to compute the estimated foreign cost of the construction of two containerships, MA Design C5–S–73b.

Any person, firm or corporation having any interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on September 15, 1976, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th & E Streets, N.W., Washington, D.C. 20230.

By order of the Maritime Subsidy Board, Maritime Administration.

Dated: August 20, 1976.

JAMES S. DAWSON, Jr.,
Secretary.

Office of the Secretary

[Department Organization Order 10–5; Amdt. 2]

ASSISTANT SECRETARY FOR ADMINISTRATION

Authority Delegation

JULY 1, 1976.

This order effective July 1, 1976 further amends the material appearing at 38 FR 34133 of December 11, 1973 and 41 FR 19998 of May 14, 1976.

Department Organization Order 10–5, dated November 23, 1973 is hereby further amended as shown below. The purpose of this amendment is to delegate responsibility for coordinating the responsibilities of the Secretary required by Section 901 of Executive Order 11490, as amended, and to transfer budget activities pertaining to the Office of the Secretary from the Office of Financial Management Services to the Office of the Assistant Secretary for Administration.

1. *Section 3. Scope of authority.* A new subparagraph .02d. is added to read as follows:

"d. Coordinating departmentwide the preparation of the national emergency plans and the development of the preparedness programs required by Section 901 of Executive Order 11490, as amended."

2. *Section 4. Office of the Assistant Secretary for Administration.*

a. A new subparagraph .01d. is added to read as follows:

"d. The Office of the Secretary Budget Staff which shall provide budgetary services for the Office of the Secretary, and for assigned operating units."

b. In pen and ink renumber current subparagraph .01d. as .01e.

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

[FR Doc.76–25012 Filed 8–25–76;8:45 am]

[Department Organization Order 20–5]

FINANCIAL MANAGEMENT SERVICES OFFICE

Authority Delegation

JULY 21, 1976.

This order effective July 21, 1976 supersedes the material appearing at 37 FR 6410 of March 29, 1976.

Section 1. Purpose.

.01 This order prescribes the functions and organization of the Office of Financial Management Services (OFMS).

.02 This revision reflects the transfer of the Budget Staff to the Office of the Assistant Secretary for Administration and provides an updated reference, Regional Action Planning Commissions, in place of Regional Economic Development Commissions.

Section 2. Status and line of authority.

The Office of Financial Management Services, a Departmental office, shall be headed by a Director, who shall report and be responsible to the Assistant Secretary for Administration.

Section 3. Functions.

.01 Pursuant to the authority vested in the Assistant Secretary for Administration by Department Organization Order 10–5 and subject to such policies and directives as the Assistant Secretary for Administration may prescribe, the office shall provide accounting and related financial services to the Office of the Secretary, and, as may be designated by the Assistant Secretary for Administration, to particular operating units, and shall exercise staff responsibility for Departmentwide policies and procedures on official travel.

.02 The Director shall also manage the Working Capital Fund of the Office of the Secretary, which responsibility shall consist of proposing financial policies on operating the Fund for the Assistant Secretary for Administration, prescribing rules and procedures on use of the Fund, giving financial management instructions to heads of Departmental offices responsible for services being financed through the Fund, and taking other actions as may be required to maintain liquidity of the Fund.

Section 4. Organization.

The functions of the Office shall be carried out under the direction and supervision of the Director and through its principal organization element, the *Central Accounting Division* which shall:

a. Provide accounting, payrolling and related services for the Office of the Secretary, Regional Action Planning Commission, and assigned operating units; and

b. Be responsible for the consolidated billings of the Department, for preparation of consolidated accounting statements required of the Department, and for the office's staff responsibility on official travel.

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

[FR Doc.76–25013 Filed 8–25–76;8:45 am]

[Department Organization Order 30–2B]

NATIONAL BUREAU OF STANDARDS

Authority Delegation

JULY 21, 1976.

This order effective July 21, 1976 supersedes the material appearing at 40 FR 36604 of August 21, 1975.

Section 1. Purpose.

.01 This order prescribes the organization and assignment of functions within the National Bureau of Standards (NBS). The scope of authority and functions are set forth in Department Organization Order 30–2A.

.02 This revision effects no organization changes in NBS, but streamlines the order by deleting (1) offices reporting to Institutes, (2) all units reporting to Centers, and (3) separate functional statements for division-level units outside the Office of the Associate Director for Administration. References to, and detailed descriptions of, the organization elements deleted from this order are contained in NBS Administrative Manual, Chapter 9.02, "Functional Statements".

Section 2. Organization.

The organization structure and line of authority of NBS shall be as depicted in the attached organization chart. A copy of the organization chart is on file with the original of this document with the Office of the Federal Register.

Section 3. Office of the Director.

.01 The *Director* determines the policies of NBS and directs the development and execution of its programs.

.02 The *Deputy Director* assists the Director in the direction of NBS and performs the functions of the Director in the latter's absence.

Section 4. Staff unit reporting to the Director.

The *Office of Legal Adviser* shall, under the professional supervision of the Department's General Counsel and as provided in Department Organization Order 10–6, serve as the law office of, and have responsibility for, all legal services at NBS.

Section 5. Office of the Associate Director for Programs.

The *Office of the Associate Director for Programs* shall plan, develop, and evaluate Bureau-level programs and policy; serve as the Director's staff for Bureau-level programmatic matters; serve as the focal point of intelligence and feedback for Bureau-level programmatic matters; critique programmatic documents developed by line units; provide programmatic information and support for the budgetary process and recommend program and budget priorities; participate in external liaison with industry, universities, state and local governments, and other agencies of government and provide program information to NBS management; carry out strategic planning and policy development; analyze and describe NBS relationships with its constituencies; develop goals, objectives, and strategies; coordinate NBS approaches; develop forecasts; provide program evaluation methods; conduct major issue and impact studies; formulate policy proposals; and administer the Post Doctoral and Research Associate Programs.

Section 6. Office of Experimental Technology Incentives Program.

The Office of Experimental Technology Incentives Program shall investigate the effectiveness of various incentives and mechanisms to stimulate increased development and use of technology by industry. These investigations shall be designed to provide an experimental basis for the formulation of Government policy in this area.

Section 7. Office of the Associate Director for Administration.

.01 The *Associate Director for Administration* shall be the principal assistant and adviser to the Director on management matters and is responsible for the conduct of administrative management functions, including the management of NBS buildings, plants, and non-scientific facilities. He shall carry out these responsibilities primarily through the organization units specified below, which are under his direction.

.02 The *Accounting Division* shall administer the official system of central fiscal records, payments and reports, and provide staff assistance on accounting and related matters.

.03 The *Administrative Services Division* shall be responsible for security, safety, emergency planning, and civil defense activities; provide mail, messenger, communications, duplicating, and related office services; manage use of auditorium and conference rooms; conduct records and forms management programs; operate an NBS records holding area; manage the NBS motor vehicle fleet; and provide janitorial service.

.04 The *Budget Division* shall provide advice and assistance to line management in the preparation, review, presentation, and management of NBS's budget encompassing its total financial resources.

.05 The *Personnel Division* shall advise on personal policy and utilization; administer recruitment, placement, classification, employee development and employee relations activities; provide health care and medical office services to the NBS staff; and assist operating officials on these and other aspects of personnel management.

.06 The *Plant Division* shall maintain the physical plant at Gaithersburg, Maryland, and perform staff work in planning and providing grounds, buildings, and improvements at other Bureau locations.

.07 The *Supply Division* shall procure and distribute material, equipment, and supplies purchased by NBS; keep records and promote effective utilization of property; act as the Bureau coordinating office for research, construction, supply and lease contracts of NBS; and administer telephone communications services and travel services.

.08 The *Management and Organization Division* shall provide consultative services to line management in organization, procedures, and management practices; develop administrative information systems; maintain the directives system; and perform reports management and committee management functions.

.09 The *Instrument Shops Division* shall design, construct, and repair precision scientific instruments and auxiliary equipment.

Section 8. Office of the Associate Director for Information Programs.

.01 The *Associate Director for Information Programs* shall administer the National Standard Reference Data System which provides critically evaluated data in the physical sciences to the scientific community; shall manage and coordinate NBS standards and scientific exchanges; shall provide scientific information generated within and outside NBS to the scientific community and the NBS staff respectively by means of such functions as library services and processing, announcing and distributing NBS publications; and shall direct public information activities of NBS.

.02 The *organizational units* reporting to the Associate Director for Information Programs are as follows:

Office of Standard Reference Data
Office of Information Activities
Office of Technical Publications
Library Division
Office of International Standards
Office of International Relations

Section 9. Institute for Basic Standards.

.01 The *Institute for Basic Standards* shall provide the central basis within the United States of a complete and consistent system of physical measurement; coordinate that system with measurement systems of other nations; and furnish essential services leading to accurate and uniform physical measurements throughout the Nation's scientific community, industry, and commerce.

.02 The *Office of the Director.*

a. The *Director* shall direct the development, execution, and evaluation of the programs of the Institute.

b. The *Deputy Director* shall assist in the direction of the Institute and perform the functions of the Director in the latter's absence.

c. The *Deputy Director, Institute for Basic Standards/Boulder* shall assist in the direction of the Institute's programs at Boulder and report to the Associate Director for Administration through the Director, IBS, in supervising the administrative divisions at Boulder.

d. The *administrative divisions* reporting to the Deputy Director, Institute for Basic Standards/Boulder include:

Supply Services Division
Instrument Shops Division
Plant Division

These divisions and units within the Office of the Deputy Director shall provide staff support for the technical program and administrative services for the NBS organization at Boulder, Colorado. The administrative units and divisions shall also service, as needed, National Oceanic and Atmospheric Administration, and Office of Telecommunications units at Boulder, Colorado, and associated field stations.

.03 The *Center for Radiation Research* shall constitute a prime resource within NBS for research and measurement involving radiation and for the application of radiation to NBS problems and those of other agencies and other institutions.

a. The *Director* shall report to the Director, Institute for Basic Standards, and shall direct the development, execution, and evaluation of the programs of the Center.

b. The *Deputy Director* shall assist in the direction of the Center and perform the functions of the Director in the latter's absence.

.04 a. The divisions reporting to the Director of the Institute for Basic Standards or the Deputy Director at Boulder are as follows:

LOCATED AT BUREAU HDQRS.

Applied Mathematics Division
Electricity Division
Mechanics Division
Heat Division
Optical Physics Division

LOCATED AT BOULDER, COLORADO

Electromagnetics Division
Time and Frequency Division
Laboratory Astrophysics Division
Cryogenics Division

b. Each Division, shall engage in such of the following functions as are appropriate to the subject matter field of the Division:

1. Develop and maintain the national standards for physical measurement, develop appropriate multiples and submultiples of prototype standards, and develop transfer standards and standard instruments;

2. Determine important fundamental physical constants which may serve as reference standards, and analyze the self-consistencies of their measured values;

3. Conduct experimental and theoretical studies of fundamental physical phenomena of interest to scientists and engineers with the general objective of improving or creating new measurement methods and standards to meet existing or anticipated needs;

4. Conduct general research and development on basic measurement techniques and instrumentation, including research on the interaction of basic measuring processes on the properties of matter and physical and chemical processes;

5. Calibrate instruments in terms of the national standards, and provide other measurement services to promote accuracy and uniformity of physical measurements;

6. Correlate with other nations the national standards and definitions of the units of measurement;

7. Provide advisory services to Government, science, and industry on basic measurement problems; and

8. Conduct research in various fields of mathematics important to physical and engineering sciences, automatic data processing, and operations research, with emphasis on statistical,

V 41 1167 AUG 26 76 UMI

numerical and combinatorial analysis and systems dynamics; provide consultative services to NBS and other Federal agencies; and develop and advise on the use of mathematical tools, in checking mathematical tables, handbooks, manuals, mathematical models, and computational methods.

Section 10. Institute for Materials Research.

.01 The *Institute for Materials Research* shall conduct materials research leading to improved methods of measurement, standards, and data on the properties of materials needed by industry, commerce, educational institutions, and Government; provide advisory and research services to other Government agencies; and develop, produce, and distribute standard reference materials.

a. The *Director* shall direct the development, execution, and evaluation of the programs of the Institute.

b. The *Deputy Director* shall assist in the direction of the Institute and perform the functions of the Director in the latter's absence.

.02 The divisions reporting to the Director of the Institute for Materials Research are as follows:

Analytical Chemistry Division
Polymers Division
Metallurgy Division
Inorganic Materials Division
Reactor Radiation Division
Physical Chemistry Division

Each Division shall engage in such of the following functions as are appropriate to the subject matter field of the Division:

a. Conduct research on the chemical and physical constants, constitution, structure, and properties of matter and materials;

b. Devise and improve methods for the preparation, purification, analysis, and characterization of materials;

c. Investigate fundamental chemical and physical phenomena related to materials of importance to science and industry, such as fatigue and fracture, crystal growth and imperfections, stress, corrosion, etc.;

d. Develop techniques for measurement of the properties of materials under carefully controlled conditions, including extremes of high and low temperature and pressure and exposure to different types of radiation and environmental conditions;

e. Assist in the development of standard methods of measurement and equipment for evaluating the properties of materials;

f. Conduct research and develop methodology leading to the production of standard reference materials, and produce these materials;

g. Provide advisory services to Government, industry, universities, and the scientific and technological community on problems related to materials;

h. Assist industry and national standards organizations in the development and establishment of standards; and

i. Cooperate with and assist national and international organizations engaged in the development of international standards.

Section 11. Institute for Applied Technology.

.01 The *Institute for Applied Technology* shall coordinate and conduct research and development on improved measurement technology; provide technical advice and services to facilitate the use of available technology and the development of new technology by industry and Government; cooperate with public and private organizations which develop and apply technological standards, codes, and test methods; provide information to Government, private sector organizations, and the public on product performance, energy use, and safety; and provide technical advice and services to Government agencies upon request. The Institute shall also monitor NBS engineering standards activities and provide liaison between NBS and national engineering standards bodies.

a. The *Director* shall direct the development, execution, and evaluation of the programs of the Institute.

b. The *Deputy Director* shall assist in the direction of the Institute and perform the functions of the Director in the latter's absence.

.02 The *Center for Consumer Product Technology* shall, in cooperation with the appropriate organizations outside NBS, coordinate and conduct research and the design of measurement and test methods to evaluate the safety, energy efficiency, and other performance characteristics of consumer products and law enforcement equipment.

a. The *Director* shall report to the Director, Institute for Applied Technology and shall direct the development, execution, and evaluation of the programs of the Center.

b. The *Deputy Director* shall assist in the direction of the Center and perform the functions of the Director in the latter's absence.

.03 The *Center for Building Technology* shall consult with industry, government agencies, professional associations, labor organizations, consumers, and such organizations as the National Conference of States on Building Codes and Standards in developing test methods for evaluating the performance of buildings, including their materials and components, the support and stability characteristics of their elements and systems, the effects of new design strategies, their fire safety and environmental characteristics, and their service and communication systems; shall formulate performance criteria for building design and urban systems; and shall perform research (including research on safety factors) in the systems approach to building design and construction, in improving construction and management efficiency, in building material characteristics, in structural behavior, and in building environmental systems.

a. The *Director* shall report to the Director, Institute for Applied Technology and shall direct the development, execution and evaluation of the programs of the Center.

b. The *Deputy Director* shall assist in the direction of the Center and perform the functions of the Director in the latter's absence.

.04 The *Center for Fire Research* shall conduct a program covering the types of fire research specifically identified in section 18 of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 278f.). It shall also cooperate with the National Fire Prevention and Control Administration in insuring dissemination of the results of this research and in encouraging their adoption and use. The content and priorities of the Center's activities shall be determined in consultation with the Administrator of the National Fire Prevention and Control Administration.

a. The *Director* shall report to the Director, Institute for Applied Technology. He shall (1) in consultation with the National Fire Prevention and Control Administration, direct the development and evaluation of the Center's programs, and (2) direct their execution.

b. The *Deputy Director* shall assist in the direction of the Center and perform the functions of the Director in the latter's absence.

.05 The divisions reporting to the Director of the Institute for Applied Technology are as follows:

Standards Application and Analysis Division; and
Electronic Technology Division.

Section 12. Institute for Computer Sciences and Technology.

.01 The *Institute for Computer Sciences and Technology* shall conduct research and provide scientific and technical services to aid Federal agencies in the selection, acquisition, application and use of computer and automation technology to improve effectiveness and economy in Government operations in accordance with Public Law 89-306 (40 U.S.C. 759), relevant Executive Orders and other directives. The Institute carries out this mission by managing the Federal Information Processing Standards Program, developing Federal ADP standards guidelines, and managing Federal participation in ADP voluntary standardization activities; providing scientific and technological advisory services and assistance to Federal agencies; providing the technical foundation for computer-related policies of the Federal Government; assisting in the resolution of the issues of technology transfer and export of computers in international trade; and operating and managing the NBS central computer facility to provide ADP services to the NBS staff.

a. The *Director* shall direct the development, execution, and evaluation of the programs of the Institute.

b. The *Deputy Director* shall assist in the direction of the Institute and perform the functions of the Director in the latter's absence.

.02 The *organizational units* of the Institute are as follows:

Computer Services Division
Systems and Software Division
Computer Systems Engineering Division
Information Technology Division

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

[FR Doc.76-25015 Filed 8-25-76;8:45 am]

[Department Organization Order 25-5B; Amdt. 1]

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Authority Delegation

JULY 1, 1976.

This order effective July 1, 1976 amends the material appearing at 41 FR 795 of January 1, 1976. Department Organization Order 25-5B, dated December 4, 1975 is hereby amended as shown below. The purpose of this amendment is to abolish the National Ocean Survey's Lake Survey Center and to transfer its functions to other organizations within NOS, particularly the Office of Marine Surveys and Maps and the Atlantic Marine Center.

1. *Section 13. National Ocean Survey.*

a. Paragraph .04 is revised to read as follows:

".04 The *Office of Marine Surveys and Maps* shall contribute to the safety of marine navigation through nautical charting and related publications, and seek added knowledge about the states and processes of the ocean. It shall study the Great Lakes and their outflow rivers, Lake Champlain, New York State Barge Canal, and the Minnesota-Ontario Border Lakes. The Office shall plan and direct marine geophysical mapping and services, hydrographic and oceanographic surveys; analyze physical phenomena pertaining to the sea, including tide and current phenomena, the dynamic and physical properties of seawater and shoreline and bottom configuration as they affect seawave and current propagation and attenuation; operate a network of tide and water level stations; compile survey data, including the compilation of nautical charts and marine geophysical maps; and conduct research. It shall also make studies and conduct photogrammetric surveys for coastal mapping, seaward boundaries, and coastal evacuation maps."

b. Paragraph .08 is revised to read as follows:

".08 a. The *Field Structure* shall consist of the following organizational elements:

"1. The *Atlantic and Pacific Marine Centers* shall direct the operation of ocean-going survey ships; maintain ship bases at Norfolk, Miami, and Seattle; operate shore facilities for processing oceanographic data and compiling photogrammetric survey data; and manage photogrammetric field units. The Atlantic Marine Center shall also manage hydrographic, tide, and water level field units.

"2. The *NOAA Data Buoy Office* and the *National Oceanographic Instrumentation Center* shall report to the Office of Marine Technology at the Headquarters of NOS.

"b. The *Atlantic Marine Center* shall provide its own administrative support except where it is determined to be more practical and advantageous to NOAA to have the services furnished by other NOAA components. The Atlantic Marine Center shall provide such services to other NOAA components as directed. The Pacific Marine Center shall obtain its administrative support from the Northwest Administrative Service Office."

2. The organization chart, Exhibit 1, attached to this amendment supersedes the organization chart dated December 4, 1975.

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

COMMUNITY EDUCATION ADVISORY COUNCIL

Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-634, that the next meeting of the Community Education Advisory Council will be held September 17 and 18, 1976. The meeting will be held in Parlor 509 at the Washington Statler Hilton Hotel located at 16th and K Streets, NW., Washington, D.C.

The Friday meeting will begin at 9:30 a.m. and end at 4:30 p.m. On Saturday, the meeting will begin at 9:30 a.m. and end at 4:30 p.m.

The Community Education Advisory Council is authorized under Pub L. 93-380. The Council is established to advise the Commissioner of Education on policy matters relating to the interest of community schools.

The meeting of the Council will be open to the public. The proposed agenda includes:

(1) Discussion of Long-Range Program Direction for Community Education Program.
(2) Report on Clearing House.
(3) Report on Evaluation.
(4) Presentation of Issue Paper.
(5) Discussion of Role and Function of the Council.
(6) Briefing on Conflict of Interest.
(7) Special Reports.
(8) Status Report on Current Community Schools Act Action.
(9) Other Administrative Matters and Related Business.

Records shall be kept of all Council proceedings and shall be available for public inspection in Room 5622, Regional Office Building 3, 7th and D Streets SW., Washington, D.C. 20202.

Signed at Washington, D.C., on August 11, 1976.

JULIE ENGLUND,
Director, Community Education Program.

[FR Doc.76-25017 Filed 8-25-76;8:45 am]

FULBRIGHT-HAYS TRAINING GRANTS

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in section 102(b)(6) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2452(b)(6)), applications are being accepted from eligible institutions for Fulbright-Hays training grants.

Eligible applicants for Fulbright-Hays training grants are as follows:

A. For the Faculty Research Abroad program, accredited institutions of higher education.

B. For the Doctoral Dissertation Research Abroad program, accredited institutions of higher education which offer doctoral programs in the fields of foreign languages and area studies,

C. For the Group Projects Abroad program, accredited institutions of higher education, State departments of education, private non-profit educational organizations, and consortiums of such entities.

D. For the Foreign Curriculum Consultants program, accredited institutions of higher education, State departments of education, local public school systems, private non-profit educational organizations, and consortiums of such entities.

Applications must be received by the U.S. Office of Education Application Control Center on or before November 5, 1976.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202, Attention (as applicable): 13.438 Faculty Research Abroad; 13.439 Foreign Curriculum Consultants; 13.440 Group Projects Abroad; or 13.441 Doctoral Dissertation Research Abroad. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail no later than November 1, 1976 as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

V41167 AUG 26 76 UMI

C. *Program information and forms.* Information and application forms may be obtained from the International Studies Branch, Division of International Education, Bureau of Postsecondary Education, Office of Education, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. 20202.

D. *Applicable regulations.* Awards made pursuant to this notice will be subject to the Office of Education General Provisions Regulations (45 CFR Part 100a) and the regulations for Modern Foreign Language Training and Area Studies (45 CFR Part 148) published on March 9, 1976 at 41 FR 10200.

(22 U.S.C. 2452(b)(6).)

(Catalog of Federal Domestic Assistance Programs: 13.438 Fulbright-Hays Training Grants—Faculty Research Abroad; 13.439 Fulbright-Hays Training Grants—Foreign Curriculum Consultants; 13.440 Fulbright-Hays Training Grants—Group Projects Abroad; 13.441 Fulbright-Hays Training Grants—Doctoral Dissertation Research Abroad.)

Dated: August 19, 1976.

WILLIAM F. PIERCE,
Acting Commissioner of Education.

[FR Doc.76-25052 Filed 8-25-76;8:45 am]

NATIONAL DIRECT STUDENT LOAN, COLLEGE WORK-STUDY AND SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT PROGRAMS

Approved List of Need Analysis Systems

Notice is hereby given that the need analysis systems listed below are approved by the Commissioner of Education for use by institutions of higher education in applying for funds under the Supplemental Educational Opportunity Grant, (SEOG) College Work-Study (CWS) and National Direct Student Loan (NDSL) Programs for the 1977–78 academic year and for making awards to students under those programs for that year.

Section 144.14 of the National Direct Student Loan Program Regulations (45 CFR 144.14), section 175.17 of the College Work-Study Program Regulations (45 CFR 175.17) and section 176.13 of the Supplemental Educational Opportunity Grant Program Regulations (45 CFR 176.13) approve the use of certain need analysis systems and methods of determining expected family contributions for dependent and independent students, and set forth procedures for an annual review and approval by the Commissioner of other need analysis systems for use in those programs. In order to be approved for dependent students the latter systems must generate expected parental contributions for at least 75 percent of the sample cases which are within $50 of the benchmark figures published by the Commissioner for those cases. The benchmark figures for the 1977–1978 academic year were published in the FEDERAL REGISTER of May 6, 1976 (41 F.R. 18660). For independent students, a system that was not specifically included in the regulations must produce expected family contributions which are comparable to those produced by one of the systems specified in subparagraph (c)(1) of each section.

The following list includes those pre-approved systems, those systems for independent students which produced results comparable to those pre-approved for independent students, and those systems for dependent students which generated expected family contributions that were, for at least 75 percent of the sample cases, within $50 of the benchmark figure. The approved systems are:

1. Dependent students only—

a. The Income Tax System.

2. Dependent and independent students—

a. The method of calculating expected family contributions used in the Basic Educational Opportunity Grant Program (45 CFR 190);

b. The system of need analysis published by the College Scholarship Service;

c. The system of need analysis published by the American College Testing Program;

d. The need analysis service published by the Graduate and Professional Student Financial Aid Service;

e. The system of need analysis published by Financial Analysis Service, Inc., a division of Donley, Richardson and Associates;

f. The system of need analysis published by Student Assistance Financial Evaluation, a program of Information and Communications, Inc.;

STRENGTHENING DEVELOPING INSTITUTIONS PROGRAM, AND BASIC AND ADVANCED INSTITUTIONAL DEVELOPMENT PROGRAMS

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in section 304 of Title III of the Higher Education Act of 1965, as amended (20 U.S.C. 1054), applications are being accepted from institutions of higher education for grants under both the Basic and Advanced Institutional Development Programs (Title III, HEA, 20 U.S.C. 1051 et seq.).

In order to be assured of consideration for funding from appropriations for Fiscal Year 1977, applications must be received by the U.S. Office of Education Application Control Center on or before November 1, 1976.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Grant and Procurement Management Division, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Attention: Basic 13.454B or Advanced 13.454A. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than October 27, 1976, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Bureau of Postsecondary Education, Division of Institutional Development, Basic Institutional Development Branch and/or Advanced Institutional Development Branch, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a) and The Strengthening Developing Institutions regulations (45 CFR 169) which were published in the FEDERAL REGISTER on June 3, 1975 at 23857.

TEACHER CORPS PROJECTS

Closing Date for Receipt of Amendments

Notice is hereby given that pursuant to the authority contained in Part B–1 of the Education Professions Development Act (Title V of the Higher Education Act of 1965, as amended, 20 U.S.C. 1101–1107a), amendments are being accepted from Teacher Corps Tenth and Eleventh Cycle Youth Advocacy Programs for Fiscal Year 1976.

Amendments must be received by the Application Control Center on or before September 15, 1976.

A. *Amendments sent by mail.* An amendment sent by mail should be addressed as follows: U.S. Office of Education, Grant and Procurement Management Division, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202, Attention: 13489. An amendment sent by mail will be considered to be received on time by the Application Control Center if:

(1) The amendment was sent by registered or certified mail not later than September 10, 1976 as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The amendment is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail room in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. *Hand delivered amendments.* An amendment to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered amendments will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays or Federal holidays. Amendments will not be accepted after 4:00 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Teacher Corps, Donohoe Building, 400 6th Street SW., Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a) and the funding criteria applicable to this program published in the FEDERAL REGISTER on December 17, 1975.

(20 U.S.C. 1101–1107a)

NATIONAL ADVISORY COUNCIL ON EQUALITY OF EDUCATIONAL OPPORTUNITY

Public Meeting

Notice is hereby given, pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92–463), that the National Advisory Council on Equality of Educational Opportunity will convene at 10:00 a.m. on Friday, September 24, until 4:00 p.m., and reconvene at 10:00 a.m. on Saturday, September 25, until 12:00 noon, in the Brent Room of the Holiday Inn, Old Town Alexandria, 480 King Street, Alexandria, Virginia.

The National Advisory Council on Equality of Educational Opportunity is established under Section 716 of the Emergency School Aid Act (P.L. 92–318, Title VII, as amended by P.L. 93–380). The Council is established to: (1) advise the Assistant Secretary for Education with respect to the operation of the program authorized under the Emergency School Aid Act (ESAA), including the preparation of regulations and the development of criteria for the approval of applications; and (2) review the operation of the program with respect to its effectiveness in achieving its purpose as stated in the Act and with respect to the Assistant Secretary's conduct in the administration of the program.

The meeting of the Council, which is open to the public, will be primarily concerned with recommendations to the full Council from its standing Committees. USOE program representative, Dr. Herman Goldberg, will discuss the FY 1976 ESAA/CRA funding cycle which has just been completed and Mr. Frederick Cioffi, from the Office of Civil Rights, Elementary and Secondary Education Branch, will discuss the Office of Civil Rights program activities for FY 1976–1977. Members of other educational units have also been invited to participate during the course of the meeting.

Records of all meetings are kept at NACEEO headquarters, 1325 G Street NW., Suite 710, Washington, D.C., and are available for public inspection.

Signed at Washington, D.C., on August 24, 1976.

LEO A. LORENZO,
Executive Director.

[NADA 12-773V]

PHILIPS ROXANE, INC.

Hexederm and Derma Hex Shampoos; Withdrawal of Approval of New Animal Drug Application

Under the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351 (21 U.S.C. 360b)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director, Bureau of Veterinary Medicine (21 CFR 5.29) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the following notice is issued:

New animal drug application (NADA) 12–773V held by Philips Roxane, Inc., St. Joseph, MO 64502 provides for the use of Hexederm and Derma Hex Shampoos on dogs, cats, and horses for the treatment of nonspecific dermatoses, or specific dermatoses caused or complicated by bacteria and/or fungi sensitive to the shampoo, and for treatment of ringworm, dandruff, seborrheic dermatitis, and pruritus.

The Food and Drug Administration advised the firm by letter dated October 20, 1975, that the agency cannot approve revised labeling because efficacy data were not adequate to support any of the labeling claims. The firm responded by letter dated April 22, 1976, requesting withdrawal of approval of the NADA and waiving an opportunity for a hearing because the product is no longer being marketed.

Therefore, in accordance with § 514.115 (21 CFR 514.115), notice is given that approval of NADA No. 12–773V and all supplements and amendments thereto is hereby withdrawn, effective August 26, 1976.

Dated: August 19, 1976.

PHILIP D. CAZIER,
Acting Director, Bureau of Veterinary Medicine.

DEPARTMENT OF TRANSPORTATION

Coast Guard

NATIONAL BOATING SAFETY ADVISORY COUNCIL

[CGD 76–169]

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L.

V 41 1 6 7
AUG 26 76
UMI

92–463; 5 U.S.C. App 1) notice is hereby given of a meeting of the National Boating Safety Advisory Council to be held on Tuesday, October 19, 1976 in Room 2230, Departmental Headquarters, 7th and D Streets, S.W., Washington, D.C. The meeting is scheduled to begin at 9:00 a.m. and adjourn at 4:00 p.m. The following day, a demonstration of the characteristics of typical Personal Flotation Devices will be provided for the Council members at Naval District Washington (Anacostia Annex) indoor pool. The agenda for this meeting is as follows:

1. Review of action taken at the Fourteenth Meeting of the Council.
2. Executive Director's Report.
3. Vote on need to require fire extinguishers on all boats using gasoline for fuel.
4. Report on accident statistics relative to wearable Personal Flotation Devices (P.F.D.'s) on all watercraft.
5. Discussion on Foot Throttle/Dead Man Throttle.
6. Discussion on Anti-Siphon Valves.
7. Report on Flotation Material Research.
8. Presentation on the effect of including empty or full fuel tank weight in the calculation of Maximum Weight and Persons Capacity for boats.
9. Update on Proposed Fuel and Electrical Systems Regulation.
10. Sub-committee Report on Capacity Labels.
11. Status report on proposed amendment to maximum weight for boats rated for 2 horsepower or less.
12. Status report on proposed Level Flotation Regulation.
13. Technical Proposal on Specifications for Navigation Lights.
14. Members Items.
15. Chairman's Session.

Attendance is open to the interested public.

With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from CDR. M. Tubella, Jr., Executive Director, National Boating Safety Advisory Council, U.S. Coast Guard (G–BA–TP), Washington, D.C. 20590 or by calling (202) 426–1080. Any member of the public may present a written statement to the Council at any time.

Issued in Washington, D.C., on August 17, 1976.

D. F. LAUTH,
Rear Admiral, U.S. Coast Guard, Chief, Office of Boating Safety.

SHIP STRUCTURE SUBCOMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Ship Structure Subcommittee to be held Wednesday, September 22, 1976 at 9:30 a.m. in the 7th Floor Conference Room, American Bureau of Shipping, 45 Broad Street, New York, New York. The agenda for this meeting is as follows: Discussion of the research program and operations of the Ship Structure Committee.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the hearing. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from, LCDR E. A. Chazal, USCG, Secretary, Ship Structure Committee, U.S. Coast Guard Headquarters, Washington, D.C. 20590, (202) 426–2205. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on August 17, 1976.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

RESEARCH ADVISORY COMMITTEE

Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act (Pub. L. 92–643, 5 U.S.C. App. I) notice is hereby given of a meeting of the Research Advisory Committee to be held at 2:00 PM EDT on September 22, 1976 and at 8:30 AM EDT on September 23–24, 1976 in the Transpoint Building, Room 5409, located at 2100 2nd Street, S.W., Washington, D.C., 20590. The agenda for this meeting is as follows:

(1) Welcome aboard and delineation of agenda.
(2) Research and development highlights for the period April, 1976 to September, 1976.
(3) Core technology choices for the Research and Development Center.
(4) Old business from the 13th meeting.
(5) Technical evaluation of proposed research project areas.
(6) Report on USCG technical liaison activity.
(7) Committee administration:
(a) Time and place of next meeting.
(b) Suggestions for new members.
(c) Election of Chairman for CY 77.
(8) Other appropriate matters that may be brought before the committee.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the hearing. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting and information may be obtained from, Mrs. Patricia Shenkle, Executive Secretary of the Research Advisory Committee, Office of Research and Development, U.S. Coast Guard (G–DS/62, Transpoint), Washington, D.C., 20590, Phone: 202–426–1037. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C. on 20 August 1976.

A. H. SIEMENS,
Rear Admiral, Chief, Office of Research and Development.

National Highway Traffic Safety Administration

[Docket No. IP76–6; Notice 2]

GENERAL MOTORS CORP.

Petition for Exemption From Notice and Recall for Inconsequential Noncompliance

This notice grants the petition by General Motors Corporation of Warren, Michigan ("GM" herein) to be exempted from the notification and recall requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.110, Motor Vehicle Safety Standard No. 110, Tire Selection and Rims for Passenger Cars, on the basis that it is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on June 3, 1976 (41 FR 22404) and an opportunity afforded for comment. No comments were received on the petition.

A total of 4,964 station wagons with front bucket seats were manufactured in the 1974, 1975, 1976 model Chevrolet Malibu and Buick Century passenger lines. The tire inflation placard on these station wagons indicate that their front occupant capacity is "3" when it is in fact two. Corrections have been made in production. GM argued that the noncompliance is inconsequential since loading a vehicle to the 1200 pounds shown on the incorrect placard as its total vehicle capacity "will not exceed the total load carrying capacity of these vehicles because they are identical in this regard to station wagons equipped with bench seats".

This agency concurs with GM's conclusion that the noncompliance is inconsequential. The important figure is that of total vehicle capacity, 1200 pounds, and it is not affected by the noncompliance. Because of the presence of the console between the bucket seats, no one is likely to be misled that the vehicle can actually carry three adults in the front seat area. Accordingly, it is hereby found that the noncompliance with Standard No. 110 herein described is inconsequential as it relates to motor vehicle safety.

(Sec. 102, Pub. L. 93–492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on August 18, 1976.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

[FR Doc.76–24746 Filed 8–25–76;8:45 am]

[Docket No. IP 76–5; Notice 2]

TRAVEL EQUIPMENT CORP.

Petition for Exemption From Notice and Recall for Inconsequential Noncompliance

This notice denies the petition by Travel Equipment Corporation of Goshen, Indiana, to be exempted from the notification and recall requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.302, Federal Motor Vehicle Safety Standard No. 302, Flammability of Interior Materials, on the basis that it is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on April 22, 1976 (41 FR 16858) and an opportunity afforded for comment.

At issue is the flammability of seat cushion material used in 180 of the company's 1973 model motor homes. This forms the basis of NHTSA's investigatory file, CIR 1077. The fabric was subjected to four NHTSA compliance tests in transverse and longitudinal directions in 1974 at two laboratories. Seven of the eight test results showed failures, with burn rates from 4.6 inches to 6.7 inches a minute. There was one marginal pass, at 3.9 inches a minute. The overall average burn rate of Travel Equipment Corp's. seat cushion fabric was 5.5 inches per minute, 1.5 inch in excess of the standard's permissible maximum burn rate of 4 inches a minute. Travel Equipment Company submitted 18 test reports on the fabric with no failure registered. It argued that the noncompliance is inconsequential because the material smoulders but does not ignite when the cushion is installed. The company originally agreed to replace the pillow case covers at no cost to owners, and while it does not now "absolutely reject a recall campaign", it believes that such "probably would not provide any real increased protection to vehicle owners". There have been no fires in the company's motor homes reported as attributed to seat cushion materials.

General Motors Corporation supported the petition. No comments were received opposing it. In GM's opinion, a maximum burn rate of 12 inches a minute would meet the stated intent of Standard No. 302 to insure "• • • when fires occur in the interior of the vehicle from such sources as matches, cigarettes, or short circuits in interior wiring, that there be sufficient time for the driver to stop the vehicle and if necessary, for occupant to leave it, before injury occurs." Therefore, the burn rates exhibited by Travel Equipment Corporation material would seem "more than adequate" to allow vehicle occupant egress.

By definition (15 U.S.C. 1391(2)) a "motor vehicle safety standard" is "a minimum standard for motor vehicle performance, or motor vehicle equipment performance". The minimum established by Standard No. 302 is that the burn rate of interior fabrics not exceed 4 inches a minute. The average margin of noncompliance of the fabric here concerned is 1.5 inches, a failure to meet the minimum by over 25 per cent, hardly an inconsequential margin of noncompliance. Available data indicates that at burn rates greater than 4 inches a minute, polyvinyl chloride material may release hydrogen chloride gas in potentially lethal quantities. Petitioner's argument that the material smoulders but does not ignite when the cushion is installed presupposes that a vehicle fire would start at the cushion itself but overlooks the possibility that the cushion might ignite in a high temperature environment such as would exist were adjacent fabrics already afire. Travel Equipment Corp. has not met its burden of convincing this agency that the noncompliance is inconsequential as it relates to motor vehicle safety, and its petition is hereby denied.

(Sec. 3, Pub. L. 92–548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on August 19, 1976.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I), notice is hereby given of a meeting of the National Motor Vehicle Safety Advisory Council to be held on September 15 and 16, 1976, at the DOT Headquarters Building, 400 Seventh Street, SW., Washington, D.C., with the following program:

Consumer and Public Information Committee, September 15, 8:30 a.m., room 2230, agenda: Future Committee Goals.

Motorcycle Committee, September 15, 9:30 a.m., room 4234, agenda:

Briefing on Docket Comments on Motorized Bicycle Rulemaking.
Status Report on California Demonstration Project on Motorcycle Driver Licensing.
Discussion of Proposed 1977 Seminar on Head and Neck Injuries.
New Business/Old Business.

1977 Fifth International Congress Committee, 1:30 p.m. to 2:00 p.m., room 4234, agenda: Status Report on Plans for Congress.

Accident Avoidance and Operating Systems Committee and Crashworthiness Committee, joint meeting, September 15, 2:00 p.m. to 5:00 p.m., room 2230, agenda:

Review of August 3 Passive Restraint Hearing.
New Business/Old Business.

Full Council, September 16, 9:00 a.m. to 12 Noon, room 2230, agenda:

Approval of July Council Minutes.
Briefing on Proposed National Data Center (S. 2608).
Report of Consumer and Public Information Committee.
Report of Motorcycle Committee.
Report of Crashworthiness and Accident Avoidance and Operating Systems Committees.
Report of 1977 International Congress Committee.
New Business/Old Business.

Executive Committee meeting, 12 Noon to 1:00 p.m., room 2230, to discuss future Council meetings and agenda.

With the approval of the Chairman, members of the public may present oral statements at the meeting. Additional information may be obtained from the NHTSA Executive Secretary, room 5205, 400 Seventh Street, SW., Washington, D.C., telephone 202–426–2872.

Any member of the public may present a written statement to the Council at any time.

Issued in Washington, D.C., on August 19, 1976.

WM. H. MARSH,
Executive Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 22859; Order 76–8–116]

FLYING TIGER LINE INC.

Order of Suspension Regarding Increased Air Freight Rates From Chicago to New York

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of August 1976.

By tariff revisions[1] filed July 23 and marked to become effective August 22, 1976, The Flying Tiger Line Inc. (Tiger) proposes to increase all bulk and most container general commodity rates and charges from Chicago to New York by approximately 8 percent. The proponent asserts that the increases are justified by value-of-service considerations; that it will realize $75,000 additional annual revenue; and that no rate equals more than 105 percent of industry-average costs.

The proposed rates and charges fall within the scope of the "Domestic Air Freight Rate Investigation (DAFRI)," Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

In view of all relevant factors, the Board concludes that the proposal should be suspended pending investigation. The proposed increases would result in general commodity rates and charges higher by about 8 percent from Chicago to New York than in the reverse direction, without adequate support therefor. Although the proposed rates and charges do not appear to be unreasonable, substantial issues of unjust discrimination and undue preference and prejudice are inherent in their relationship to the westbound rates. Tiger's justification, that the eastbound traffic has a higher value of service, is unsupported and, pending

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariffs C.A.B. Nos. 169 and 227.

V 41 167
AUG 26 76
UMI

resolution of the issue of directional rates in DAFRI, is unacceptable.

In addition, the rates proposed from Chicago to New York would exceed the general commodity rates from Milwaukee to New York. Inasmuch as the carrier serves the latter market through Chicago, the proposal would result in a long- and short-haul situation, raising significant questions of undue preference and prejudice that Tiger has not even attempted to resolve.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. Pending hearing and decision by the Board, all increased rates and charges on "GEN" and "GCX" from Chicago to New York/Newark on 18th Revised Page 618–D of Tariff C.A.B. No. 169, issued by Airline Tariff Publishing Company, Agent, and all increased "GEN" rates and charges on container types A–2, B, B–2, D, FTC, L–3, and M–1 from Chicago to New York/Newark on 39th Revised Page 161 of Tariff C.A.B. No. 227, issued by Airline Tariff Publishing Company, Agent, are suspended and their use deferred to and including November 19, 1976, unless otherwise ordered by the Board; and that no change be made therein during the period of suspension except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariffs and served upon The Flying Tiger Line, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–25058 Filed 8–25–76;8:45 am]

[Docket No. 29684; Order 76–8–113]

HUGHES AIRWEST

Ephrata-Moses Lake Deletion Case

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of August 1976. Application of Hughes Airwest for authority to suspend service temporarily at Wenatchee and Ephrata-Moses Lake, Wash.—Docket 26383, Ephrata-Moses Lake Deletion Case—Docket 29684.

ORDER

By order 75–8–83, August 15, 1975, the Board directed all interested parties to show cause why the certificate of Hughes Airwest for route 76 should not be amended by deleting Ephrata-Moses Lake, Wash., therefrom. On August 28, 1975, the Port of Ephrata filed an answer to the show-cause order, objecting to the finalization of the deletion without prior hearing on the merits.

While the show-cause order was still pending, Airwest on March 1, 1976, filed an application for renewal of its authority to suspend service at Wenatchee and Ephrata-Moses Lake pending deletion of the points from its certificate.[1] The carrier also requested a waiver of the timeliness-of-filing requirements of Part 377 of the Board's Special Regulations so as to permit the original suspension authority to continue in effect until after Board action on the renewal request. By order 76–3–121, dated March 18, 1976, the Director, Bureau of Operating Rights, acting under delegated authority, granted the waiver.

In support of its renewal application, Airwest cites the Board's proposed findings in the show-cause order regarding Ephrata-Moses Lake, namely, that Ephrata has never been a strong traffic-generating point; that Ephrata does not generate enough traffic to support the commuter service;[2] that Ephrata has access to the air transportation system; and that reinstitution of service by Airwest would result in substantial losses without commensurate public benefits.[3]

The Port of Ephrata filed an answer to Airwest's renewal application, requesting the Board to hold a formal hearing on the issue or to require Airwest to resume service at the point.

In view of the substantial objections raised by the Port of Ephrata to the show-cause order and the suspension renewal application, it would be inappropriate to finalize the show-cause order herein. Therefore, that order will be vacated, and we will institute a proceeding to be called the *Ephrata-Moses Lake Deletion Case*. We will consolidate into that proceeding Airwest's application in docket 26383,[4] to the extent it conforms to the scope of the proceeding. The disputed facts and issues in this matter can best be resolved on the basis of an evidentiary record after hearing. In the interim, we will condition Airwest's continued suspension at Ephrata-Moses Lake on the provision of commuter service by Sun Basin (or another acceptable Part 298 carrier) at Moses Lake, with the attendant tariff-filing requirements. Thus, the carrier's service responsibility will be retained, and Ephrata-Moses Lake will be assured of adequate air service during the pendency of the proceeding instituted herein. We will expect Airwest to make whatever arrangements are necessary to effectuate these requirements.

With regard to Wenatchee, we find that renewal of Airwest's suspension for a period of 5 years is in the public interest.[5] Cascade continues to provide commuter service at the point, and Airwest has not indicated that either it or Cascade is dissatisfied with the results of the first 2 years of the suspension/replacement. We will therefore impose the same substitute service requirements as were contained in the original suspension order.

Finally, Airwest has not submitted sufficient information for us to determine the environmental consequences of the proposed suspension/deletion of Ephrata-Moses Lake at this time. Therefore, we will require the carrier to file the information set forth in Part 312 of the Board's Procedural Regulations within 30 days of the date of adoption of this order.

Accordingly, it is ordered, That:

1. A proceeding designated as the *Ephrata-Moses Lake Deletion Case*, docket 29684, be and it hereby is instituted and set for hearing before an administrative law judge of the Board at a time and place to be hereafter designated, as the orderly administration of the Board's docket permits;

2. The proceeding instituted by paragraph 1, above, shall include consideration of the following issues:

a. Whether the public convenience and necessity require, pursuant to section 401(g) of the Act, that the certificate of Hughes Airwest for route 76 be altered, amended, or modified so as to suspend, with or without conditions, or delete Ephrata-Moses Lake, Wash.; and

b. Whether the public interest requires, pursuant to section 401(j) of the Act, the temporary suspension of service by Airwest at Ephrata-Moses Lake, Wash., with or without conditions;

3. The application of Hughes Airwest in docket 26383, to the extent that it conforms to the scope of the proceeding, be and it hereby is consolidated into the proceeding instituted by paragraph 1 above;

4. Order 75–8–83, dated August 15, 1975, be and it hereby is vacated;

5. Hughes Airwest be and it hereby is authorized to suspend service temporarily at Ephrata-Moses Lake, Wash., until

[1] Airwest was first authorized to suspend service at Wenatchee and Ephrata-Moses Lake by order 74–4–119, Apr. 23, 1974, for a period of 2 years, subject to certain conditions. By order 74–6–124, June 27, 1974, the Board amended the conditions contained in the original order.

[2] Cascade Airways, the replacement carrier, terminated its service at Ephrata on Sept. 29, 1975. Another air taxi operator, Sun Basin Airlines, began service at Moses Lake during the summer of 1975, but discontinued service as of Feb. 20, 1976. On Apr. 2, 1976, Airwest filed a letter informing the Board that Sun Basin resumed service at Moses Lake on Apr. 1 with one round trip 5 days per week and one round trip 6 days per week to and from Seattle.

[3] The carrier made no allegations regarding Wenatchee.

[4] In its renewal request Airwest erroneously states that the Board's original suspension order authorized the carrier to suspend service at Ephrata-Moses Lake and Wenatchee for a period of 2 years or until 60 days after final decision on its deletion application. There is no application on file with the Board which requests deletion of either point. The issue of deletion of Ephrata-Moses Lake has been raised as a result of Airwest's motion for an order to show cause in this docket; deletion of Wenatchee has never been requested formally by the carrier. Therefore, the proceeding being instituted herein will consider only the question of the service needs of Ephrata-Moses Lake.

[5] In view of the fact that this action only renews Airwest's present suspension authority at Wenatchee, it is not a major Federal action within the meaning of the National Environmental Policy Act of 1969, and the requirement that Airwest file an environmental evaluation will be waived.

60 days after final decision in the proceeding instituted in paragraph 1 above, subject to the conditions that:

a. Such suspension shall be effective as long as Sun Basin Airlines (or an acceptable Part 298 carrier) is providing at least two round trips 6 days per week between Ephrata or Moses Lake, Wash., on the one hand, and Seattle, Wash., on the other hand;

b. Such suspension shall terminate 30 days after Sun Basin Airlines (or an acceptable Part 298 carrier) ceases or fails to provide regularly the service specified in paragraph a above;

c. Hughes Airwest shall maintain in effect for the Ephrata-Moses Lake service operated by Sun Basin (or an acceptable Part 298 carrier) all joint tariffs now in effect or hereafter required to be filed by the Board in the *Domestic Passenger-Fare Investigation*, docket 21866; and

d. Hughes Airwest shall maintain, and Sun Basin (or an acceptable Part 298 carrier) shall concur in, as long as the suspension is in effect, its local passenger fares and cargo rates to and from Ephrata-Moses Lake, and such rates shall be no higher than the rates which Airwest could charge for travel between Ephrata-Moses Lake, on the one hand, and other points on Airwest's system, on the other hand, if it were providing service at Ephrata-Moses Lake with its own aircraft;[6]

6. Hughes Airwest be and it hereby is authorized to suspend service temporarily at Wenatchee, Wash., for a period of 5 years from the date of adoption of this order, subject to the conditions that:

a. Hughes Airwest maintain on file with the Board (1) a verified statement setting forth in detail the support services outlined in paragraph 6b(iii) of this order and indicating that the specific arrangements are satisfactory to Cascade Airways (or an acceptable Part 298 carrier), and (2) copies of such contracts and agreements as are entered into and may be required to be filed for Board approval under section 412 of the Act;

b. Such suspension shall terminate 30 days after:

(i) Cascade Airways, Inc. (or an acceptable Part 298 carrier), ceases or fails to provide (1) at least two round trips 6 days per week between Wenatchee and Seattle, and (2) at least one round trip 6 days per week between Wenatchee and Spokane; or

(ii) Hughes Airwest ceases to provide the services specified in paragraph (iii) below to Cascade Airways, Inc. (or an acceptable Part 298 carrier); or

(iii) Cascade Airways, Inc. (or an acceptable Part 298 carrier), ceases to provide service to the Seattle-Tacoma International Airport, and Hughes Airwest ceases to provide (at no cost to the Part 298 carrier)[7] the following support services and facilities at said airport, provided that the named support services and facilities need not be supplied as a condition for suspension to the extent that the air taxi replacement carrier establishes and maintains its own independent services and facilities at the Seattle-Tacoma International Airport:

(a) Complete ramp parking for aircraft;

(b) Complete ticketing and passenger handling;

(c) Joint passenger loading-gate positions;

(d) Joint baggage handling;

(e) Access to Airwest's weather printer, if any;

(f) Cleaning and maintenance of passenger loading areas; and

(g) Snow removal from ramp area;

c. Hughes Airwest shall maintain in effect for the Wenatchee service operated by Cascade (or an acceptable Part 298 carrier) all joint tariffs now in effect or hereafter required to be filed by the Board in the *Domestic Passenger-Fare Investigation*, docket 21866; and

d. Hughes Airwest shall maintain, and Cascade (or another acceptable Part 298 carrier) shall concur in, as long as the suspension is in effect, its local passenger fares and cargo rates to and from Wenatchee, and such rates shall be no higher than the rates which Airwest could charge for travel between Wenatchee, on the one hand, and other points on Airwest's system, on the other hand, if it were providing service at Wenatchee with its own aircraft;[6]

7. Hughes Airwest shall file an environmental evaluation pursuant to section 312.12 of the Board's Procedural Regulations within 30 days of this order; and

8. A copy of this order shall be served upon Hughes Airwest; Cascade Airways, Inc.; Governor, State of Washington; Mayor, City of Ephrata; Mayor, City of Moses Lake; Mayor, City of Wenatchee; Airport Manager, Port of Ephrata Airport; Airport Manager, Wenatchee Municipal Airport; Sun Basin Airlines; Director, Washington State Aeronautics Commission; Chairman, Utilities and Transportation Commission, State of Washington; and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–25027 Filed 8–25–76;8:45 am]

[6] Airwest may comply with the requirement that it maintain its local fares and rates and joint fares required by the *Domestic Passenger-Fare Investigation* by providing in its tariff that its fares will continue to apply when transportation is via Cascade between Wenatchee and Seattle/Spokane and via Sun Basin between Ephrata-Moses Lake and Seattle.

[7] To the extent that Airwest would be required to increase services and facilities solely for the Wenatchee replacement service, and thereby incur additional out-of-pocket costs at Seattle-Tacoma International Airport, Airwest may request compensation from the Part 298 carrier for any such additional costs. [6] See n. 6.

COMMISSION OF FINE ARTS

MEETING

AUGUST 19, 1976.

The Commission of Fine Arts will meet in open session on Wednesday, September 15, 1976, at 10 a.m. in the Commission offices at 708 Jackson Place, NW., Washington, D.C. 20006, to discuss various projects affecting the appearance of Washington, D.C.

Inquiries regarding the agenda or requests to submit written or verbal statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address, or by telephone at 202/343–5324.

CHARLES H. ATHERTON,
Secretary.

[FR Doc.76–25022 Filed 8–25–76;8:45 am]

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON, WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS FROM THE REPUBLIC OF KOREA

Adjusting Import Levels

AUGUST 24, 1976.

On September 30, 1975, there was published in the FEDERAL REGISTER (40 F.R. 44862) a letter dated September 25, 1975, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, implementing those provisions of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, as amended, between the Governments of the United States and the Republic of Korea, which establish specific export limitations on certain cotton, wool, and man-made fiber textile products, produced or manufactured in the Republic of Korea and exported to the United States during the twelve-month period which began on October 1, 1975. As set forth in that letter, the levels of restraint are subject to adjustment pursuant to paragraph 7(a)(ii) of the agreement which provides that specific levels of restraint may exceed current-year limits by up to six percent with the amount of that adjustment being deducted from the applicable levels of the succeeding agreement year.

Accordingly, pursuant to the provision of the bilateral agreement referred to above, there is published below a letter of August 24, 1976 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs amending the levels of restraint applicable to textile products in Categories 9/10, 49, 116/117, 120, 121, 124, 229, and 238 during the twelve-month period which began on October 1, 1975.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

V 41 167
AUG 26 76
UMI

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS, UNITED STATES DEPARTMENT OF COMMERCE, THE ASSISTANT SECRETARY FOR DOMESTIC AND INTERNATIONAL BUSINESS

Washington, D.C. 20230, August 24, 1976.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229

DEAR MR. COMMISSIONER: On September 25, 1975 the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry during the twelve-month period beginning October 1, 1975 and extending through September 30, 1976 of cotton, wool and man-made fiber textile products in certain specified categories, produced or manufactured in the Republic of Korea, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, pursuant to paragraph 7(a)(ii) of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, as amended, between the Governments of the United States and the Republic of Korea, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to amend, effective on August 26, 1976, the levels of restraint established for the indicated categories to the following:

Category:		*Amended 12-mo. level of restraint* [1]
9/10	square yards	7, 153, 449
49	dozen	54, 028
116/117	pounds	517, 430
120	numbers	355, 697
121	do	213, 120
124	do	1, 110, 000
229	dozen	796, 510
238	do	230, 778

[1] The levels of restraint have not been adjusted to reflect any entries made after Sept. 30, 1975.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

[FR Doc.76-25110 Filed 8-25-76;8:45 am]

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, as amended, between the Governments of the United States and the Republic of Korea which provide, in part, that: (1) within the aggregate and applicable group limits, specific levels of restraint within Categories 1-38, part of 63 (shoe uppers), 64, 200-213, and 241-243 may be exceeded by 10 percent; within Categories 39-62, part of 63 (other than shoe uppers), and 214-240, by 7 percent; and within Categories 101-132, by 5 percent; (2) these same levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; (3) consultation levels may be increased within the aggregate and applicable group limits upon agreement between the two governments; and (4) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-605-3; FIFRA Docket Nos. 246, et al.]

CHAPMAN CHEMICAL CO., ET AL.

Consolidated Mercury Cancellation Hearing; Supplement and Order

On February 17, 1976 (41 FR 16497, April 19, 1976), I issued a Decision and Order in the above-captioned proceeding, cancelling some of the registered uses of mercury compounds as fungicides and bactericides.[1] Several parties filed petitions for review in various Federal Courts of Appeal pursuant to Section 16(b) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended ("FIFRA"). For various reasons, some of these petitions have been dismissed. The five (5) petitioners who remain have proposed terms of settlement of their petitions.[2] For the reasons stated herein, I have concluded that the terms and conditions of settlement proposed by the registrants satisfy applicable statutory standards under FIFRA, and that for this and other reasons, acceptance of the proposed settlements is in the public interest.

THE USE OF MERCURY AS A SEED DISINFECTANT AND AS A FUNGICIDE FOR CONTROL OF SUMMER TURF DISEASES

My Order of February 17, 1976, cancelled registrations for mercurial seed disinfectants and registration for mercurial fungicides for control of summer turf diseases.[3] Approximately 7,000 pounds of mercury are used annually as seed disinfectants; between 10,000 and 15,000 pounds are used annually to control summer turf diseases. Two (2) registrants[4] sought review of the Order cancelling registrations for seed disinfectants and two (2) registrants[5] sought review of the Order cancelling registrations for summer turf fungicides.

These registrants have offered to dismiss their petitions for review pursuant to the following terms and conditions;[6] (1) Total permitted production of these pesticide products is strictly limited; in no event shall it exceed the equivalent of two (2) years of production, as determined by production data for recent years; (2) The effective date of final cancellation is dependent on the date on which the total permitted production is reached, but in no event shall final cancellation be later than August 31, 1978; (3) Products produced before the effective date of final cancellation will become "existing stocks," the sale, distribution and use of which will be permitted; (4) Registrants shall regularly submit reports (including, among other things the date on which total production is reached) to EPA in order that the Agency can monitor and implement the terms of the agreement. In essence, registrants will submit to final cancellation without further contest in return for an extension of the current stay.

I believe that these offers should be accepted. Settlement provides for a certain end point of this lengthy and costly litigation. An end-point two years hence is not significantly in excess of the end point which might be expected if this case proceeded through the Court of Appeals. Although I am confident that the Court would affirm my cancellation order, settlement will eliminate whatever uncertainty might exist with respect to whether cancellation will be finally achieved. Further, terminating this case now will permit a reallocation of the Agency's limited resources to other necessary programs, including the Agency's review of pesticides pursuant to the reregistration program mandated by Section 4(c) of the Federal Environmental Pesticide Control Act of 1972, as amended ("FEPCA").[7] I am, therefore, accepting the settlement proposal of the registrants of summer turf products and seed disinfectant products.

THE USE OF MERCURY AS A FUNGICIDE FOR CONTROL OF WINTER TURF DISEASES

My Order of February 17, 1976, cancelled registrations for mercurial fungicides for control of winter turf diseases.[8]

[2] On March 2, 1976, I issued an Order granting a temporary stay of the effective date of the February 17, 1976 Order, and on May 27, 1976, I extended that stay until November 30, 1976, or until the conclusion of judicial review, if earlier.

[3] Those petitioners are Gustafson, Inc., Troy Chemical Corporation, W. A. Cleary Corporation, O. M. Scott & Sons Company, and Mallinckrodt, Inc.

[4] The term "summer turf diseases" encompasses a wide array of pathogens which can attack fine turf under temperate climate conditions. In addition, for the purposes of the settlement agreement, the term includes winter diseases which occur on golf course areas other than greens, tees and aprons.

[4] Gustafson, Inc., and Troy Chemical Corporation.

[5] W. A. Cleary Corporation and O. M. Scott & Sons Company.

[6] I am necessarily summarizing and simplifying the actual terms of the settlement offers. Copies of these documents may be obtained from the Hearing Clerk, United States Environmental Protection Agency, Room 1019, Waterside Mall, East Tower, 401 M Street, S.W., Washington, D.C. 20460. Any specific question of interpretation of the terms of settlement must necessarily be resolved by reference to the documents themselves.

[7] *See*, also "Data Requirements to Support Reregistration of Pesticide Active Ingredients and Preliminary Schedule of Call-Ins", 41 FR 7216, February 17, 1976.

[8] The term "winter turf diseases" refers to various forms of snow mold which can attack and damage the fine turf of greens, tees and aprons of golf courses.

Between 10,000 and 15,000 pounds of mercury are used annually to control winter turf diseases. Three (3)[9] registrants sought review of my Order cancelling these uses.

These registrants have offered to dismiss their petitions for review pursuant to the following terms and conditions: (1) the use of these products shall be prohibited within 25 feet of any water body where fish are taken for human consumption; (2) these products shall be applied only by or under the direct supervision of golf course superintendents; and (3) the products will be classified as restricted use pesticides when they are reregistered and classified in accordance with Section 4(c) of FEPCA.

This settlement offer obviously poses questions different from those discussed above, in that registrations for this use will not be ultimately cancelled. This offer is environmentally acceptable only if the proposed restrictions reduce the risk sufficiently to render that risk reasonable in relation to benefits. An examination of the record is required to make this determination.

The Administrative Law Judge ("ALJ") who presided at the consolidated mercury cancellation hearing recommended that I continue this use based on his finding that benefits exceeded risks. It was his opinion that the nonmercurial fungicides used against winter turf diseases were more costly, and not as effective as mercurials, and that the benefits were accordingly greater than the benefits for summer turf disease control, registrations for which he recommended be cancelled.[10] While accepting the ALJ's findings on risk, I concluded that the nonmercurial substitutes were adequate, even though more costly and not quite as effective as mercury.[11]

The degree of risk posed by these products does appear to be lessened considerably by the proposed restrictions. Although some mercury escapes from treated turf grass through volatilization, the evidence of record indicates that the translocation pathways of most concern are leaching and run-off. This evidence demonstrates that most of the mercury which is leached or drained from its site of application travels a relatively short distance. Since respondent's case for cancellation was directed primarily at the hazards to man posed by mercury pesticides which reach aquatic environments,[12] I believe that restricting use near water bodies where fish are taken for human consumption will considerably decrease that risk.

Although I am not persuaded that my February 17, 1976 Decision and Order cancelling this use was in error, I believe that this settlement, as a practical matter, substantially achieves the end sought by the Agency. As discussed above, the hazard associated with this use concerns the movement of mercury to aquatic environments. The proposed restrictions greatly mitigate this hazard.[13]

Moreover, such incremental advantage as may be achieved by of cancellation of this use is more than offset by the advantages to the Agency and the public of resolution of this matter at this time through acceptance of the settlement offer. The uncertainties of further litigation are eliminated. This issue is resolved today, rather than being further postponed pending judicial review. Finally, this settlement will release additional Agency resources needed for review of other pesticides possibly requiring regulatory action and other important projects.

Accordingly, I have decided to accept the settlement proposal of the registrants of winter turf products. In accordance therewith, I am vacating that portion of my Order which cancelled the use of mercurial turf fungicides for use against winter turf diseases on greens, tees, and aprons, subject to the terms and conditions discussed above.

ORDER

In accordance with the foregoing discussion, it is hereby ordered that:

(1) The effective date of the Order of February 17, 1976, insofar as it cancelled (a) registrations for mercurial seed treatment pesticide products held by petitioners, and (b) registrations for mercurial fungicide products for use against summer turf diseases held by petitioners is stayed until August 31, 1978, or such earlier date as provided for in the respective settlement agreements, in accordance with the terms of the respective settlement agreements;

(2) That part of the Order of February 17, 1976 which cancelled registrations for mercurial fungicide products for use against winter turf diseases held by petitioners is vacated, in accordance with the terms of the respective settlement agreements;

(3) The Order Granting Temporary Stay (March 2, 1976, and amended on May 27, 1976) is dissolved, effective August 31, 1976.

All parties who have appealed the Order of February 17, 1976, have agreed to settlement of the case.[14] Therefore, this Order shall be final on August 26, 1976.

Dated: August 19, 1976.

RUSSELL E. TRAIN,
Administrator.

[FR Doc.76-24921 Filed 8-25-76;8:45 am]

[9] Mallinckrodt, Inc., W. A. Cleary Corporation, O. M. Scott & Sons Company.

[10] The evidence was virtually unanimous that a number of effective substitutes exist for control of summer turf diseases. However, fewer substitutes apparently exist for control of winter turf diseases, and the record reveals considerable controversy regarding their efficacy.

[11] The ALJ characterized the risk as "minimal." Several registrants contended at that time that a pesticide posing "minimal risks" cannot be cancelled under the FIFRA. But as I discussed in my Decision (at 16499), "[t]he FIFRA does not specify that any specific level or magnitude of risks must be found to exist before a pesticide may be cancelled • • • [A]lthough I do not adopt his characterization, I do not find that the ALJ's characterization of the risks of mercurial pesticides as being 'minimal' in any way precludes cancellation. It is certainly an indication of some risk which must be weighed against the • • • costs and benefits of continued use of mercurial pesticides." Nothing in this decision should be interpreted as a retreat from this standard.

[12] I noted in my Decision of February 17, 1976:

"[T]he principal thrust of respondent's case is that mercury compounds in pesticides (following application according to their registered uses) are transported into the aquatic environment through the routes of volatilization, run-off, and leaching. Once in the aquatic environment, these compounds are subject to biological transformation (biotransformation) to methylated mercury, which bioaccumulates throughout the aquatic food chain. The result, respondent contends, is the creation of an unreasonable risk to man or the environment, taking into account the economic, social, and environmental costs and benefits of the use of mercurial pesticides." [41 FR 16500]

[13] Section 3(d) of FIFRA authorizes the classification of pesticides for restricted use in those cases in which the environmental hazards of the pesticide can be mitigated by prudent and careful use.

[14] Parsons Chemical Works, Inc. holds registrations for mercurial seed treatment products which were cancelled by my Order of February 17, 1976. Although they have not appealed the cancellation Order, fairness requires that Parsons be permitted to participate in the phase-out of mercurial seed treatment products provided for in the settlement. Accordingly, Parsons is given until September 15, 1976 to participate in the settlement according to the terms and conditions outlined above. If Parsons submits such an offer, it shall, for the purposes of this Order, be considered a "petitioner".

[FRL 605-4]

ADMINISTRATOR'S PESTICIDE POLICY ADVISORY COMMITTEE

Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following subcommittee meeting:

Name: The Strategy Subcommittee of the Administrator's Pesticide Policy Advisory Committee

Date: September 10, 1976

Time: 9:00 a.m.-4:00 p.m. (approximately)

Place: Environmental Protection Agency, 401 M Street, SW., Washington, D.C., Room 1032, West Tower

Proposed Agenda: Review the latest version of the draft pesticide strategy.

For further information please contact David K. Sabock, Executive Secretary, Administrator's Pesticide Policy Advisory Committee, Office of Water and Hazardous Materials (WH-556), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. Anyone wishing to have their name placed on the mailing list for any committee reports, meeting announcements and minutes of all meetings should contact the executive secretary, either in writing or by telephone—(202) 755-0405.

Dated: August 20, 1976.

VICTOR KIMM,
Acting Assistant Administrator for Water and Hazardous Materials.

[FRL 605-5]

IMPACT STATEMENTS AND OTHER ACTIONS IMPACTING THE ENVIRONMENT

Availability of Agency Comments

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of July 1, 1976 and July 31, 1976.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix II contains the definitions of the classification of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reveiwed and commented upon in writing during this review period. The listing includes the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix IV contains a listing of final environmental impact statements reviewed and not commented upon by EPA during this review period. The listing includes the Federal agency responsible for the statement, the number and title of the statement, and the source of the EPA review as set forth in Appendix VI.

Appendix V contains a listing of proposed Federal agencies' regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the title of the action, a summary of the nature of EPA's comments, and the source for copies of the comments as set forth in Appendix VI.

Appendix VI contains a listing of the names and addresses of the sources of EPA reviews and comments listed in Appendices I, III, IV, and V.

Copies of the EPA Manual setting forth the policies and procedures for EPA's review of agency actions and EPA comments referenced herein may be obtained by writing the Public Information Reference Unit (PM-213), Environmental Protection Agency, Room 2922, Waterside Mall, SW, Washington DC 20460, telephone 202/755-2808. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal agency or department.

Dated: August 18, 1976.

REBECCA W. HANMER,
Director,
Office of Federal Activities.

APPENDIX I.—*Draft environmental impact statements for which comments were issued between July 1 and 31, 1976*

Identifying No	Title	General nature of comments	Source for copies of comment
Corps of Engineers:			
DS-COE-A32312-LA	Atchafalaya River, Chene, Boeuf, and Black Bayous, La.	ER-1	G
D-COE-D36020-PA	Bull Run flood protection project, Loyalsock township and the west branch of the Susquehanna River, Lycoming County, Pa.	LO-1	D
DS-COE-E33000-GA	Harbor improvements, Brunswick Harbor, Glynn County, Ga.	ER-2	E
D-COE-E32017-GA	Channel widening for navigation, Savannah Harbor, Ga.	ER-2	E
D-COE-E36038-TN	White Oak Creek flood control, Sunbright, Morgan County, Tenn.	LO-2	E
DS-COE-F32039-00	Ottawa River Harbor, Michigan and Ohio	LO-2	F
D-COE-F32041-MI	Mitigation of shore damage Frankfort Harbor, Benzie County, Mich.	LO-2	F
D-COE-F36038-IN	Marion local flood protection project, Mississippi River, Grant County, Ind.	LO-2	F
D-COE-G34023-LA	Bayou Teche, Bayou Teche and Vermilion River and Freshwater Bayou, La.	LO-1	G
D-COE-G34024-TX	Industrial Canal, Texas City Channel, Galveston County, Tex.	LO-1	G
D-COE-G34025-TX	Mouth of Colorado River, Matagorda County, Tex.	LO-2	G
D-COE-G36048-TX	Lake Wichita, Holliday Creek, Wichita Falls, Tex.	3	G
D-COE-H32002-00	Missouri River bank stabilization and navigation project, from Sioux City, Iowa to the mouth in St. Louis, Mo., Kansas, Nebraska, and Iowa.	ER-3	H
D-COE-K11008-CA	Dow Chemical Co., petrochemical facility permit application, construction of chemical plants, Pittsburg, Contra Costa County, and Montazuma Hill, Solano County, Calif.	3	J
D-COE-K35007-HI	Honolulu Harbor main entrance channel, dredging, Oahu waterborne commerce, Oahu, Hawaii.	LO-2	J
D-COE-L02003-WA	Port of Grays Harbor, Kaiser Steel Corp., permit application, Hoquiam, Wash.	LO-1	K
D-COE-L36035-OR	Umpqua River jetty extension, Portland, Oreg.	LO-1	K
D-COE-L36037-OR	Siuslaw River jetty extension, Portland, Lane County, Oreg.	LO-1	K
D-COE-L36038-WA	Grays Harbor, widening and deepening, navigation channel improvements, Washington.	ER-2	K
D-COE-L36039-ID	Little Wood River flood damage reduction, Gooding and Lincoln Counties, Idaho.	ER-2	K
DS-COE-L36040-OR	Days Creek Lake project, Umpqua River Basin, Douglas County, Oregon.	LO-2	K
DS-COE-L39006-AK	Small boat harbor, Kodiak, Alaska	LO-1	K
D-COE-L39008-OR	South Beach Marina, Yaquina Bay small boat basin, Lincoln County, Oregon.	ER-2	K
DS-COE-L61023-00	Lower Snake River report for compensation for fish and wildlife losses, Idaho and Washington.	LO-1	K
Department of Agriculture:			
D-AFS-E65012-MS	Bienville National Forest, timber management plan, Jasper, Newton, Scott and Smith Counties, Miss. (USDA-FS-R8-DES-ADM-76-13).	LO-2	E
D-AFS-J61011-UT	Four Season Winter Sports Site, Uinta National Forest, Utah (USDA-FS-DES(ADM)-R4-76-13).	EU-2	I
D-AFS-J65045-MT	Multiple use plan, Big Hole planning unit, Lolo National Forest, Mont.	ER-2	I
D-AFS-J65046-00	Bears Ears land use plan, Routt National Forest, Colo. and Wyo.	ER-2	I
DS-AFS-K40029-AZ	Swift Trail Forest Highway 34, Coronado National Forest, Graham County, Ariz.	LO-1	J
D-AFS-K65017-NV	Santa Rosa planning unit, Humboldt National Forest, land use plan, Humboldt County, Nev.	LO-1	J
D-AFS-L61072-WA	Trapper-Siouxon planning unit, Gifford Pinchot National Forest, Skamania County, Wash. (USDA-FS-R6-DES-(ADM)-76-11).	LO-2	K
D-AFS-L61073-00	Lamb upper west branch planning unit, Kaniksu National Forest, Idaho and Wash. (USDA-FS-R1-04-DES-(ADM)-R1-76-16).	LO-1	K
D-AFS-L61075-OR	South Fork planning unit, Malheur National Forest, Grant County, Oreg.	LO-2	K
D-AFS-L61076-ID	Management alternatives, Diamond Creek planning unit, Caribou National Forest, Caribou and Bear Lake Counties, Idaho.	3	K
D-AFS-L65019-ID	Timber management plan, Boise National Forest, Idaho (USDA-FS-R-4-DES-R4-76-16).	LO-1	K
D-SCS-D36018-WV	Hacker's Creek watershed, Lewis, Harrison and Upshur Counties, W. Va. (USDA-SCS-EIS-WS-(ADM)-76-1-D-WV).	LO-2	D
Department of Defense:			
D-UAF-C10001-NY	Establishment of Falcon military operating area, Adirondacks, N.Y.	LO-2	C
D-UAF-K61011-GU	Proposed development of lot 10080, access easement across U.S. Air Force lands to Seibu Leisure, Guam.	ER-2	J
D-USN-D03002-VA	POL bulk pipelines, naval supply center, Norfolk, Va.	LO-2	D
Department of the Interior:			
D-BIA-A01029-WA	Sherwood uranium project, Spokane Indian Reservation, Stevens County Wash. (DES 76-13).	LO-2	K
D-BIA-G31001-NM	Navajo Indian irrigation project, San Juan, N. Mex.	LO-1	G
D-BPA-L08023-00	Fiscal year 1978 proposed program	LO-1	K

Identifying No.	Title	General nature of comments	Source for copies of comment
Department of the Interior—Continued			
D-IBR-J39002-00	Colorado River water quality improvement program, Arizona, Nevada, California, Colorado, Wyoming.	ER-2	I
D-IGS-L67001-ID	Development of phosphate resources in southeastern Idaho (DES 76-15).	3	K
D-NPS-L08022-AK	Electric distribution line extension to McKinley Park, Mount McKinley National Park, Alaska.	LO-1	K
Department of Transportation:			
D-FAA-E51016-MS	C. D. Lemons Field runway construction, Tupelo, Lee County, Miss.	ER-2	E
D-FAA-E51017-TN	Scott County Municipal Airport, Oneida, Tenn.	LO-2	E
D-FAA-K51006-TT	Kusaie Island Airport and Harbor project, Trust Territory of Pacific Islands.	ER-2	J
D-FAA-K51007-CA	San Francisco International Airport development program, San Francisco, Calif.	ER-2	J
DS-FHW-A41091-OR	Green Timber Road, Little Nestucca and Neskowin Section, Forest Highway OR-56, U.S. 101, Tillamook County, Oreg.	LO-1	K
DS-FHW-A42077-VA	I-66, I-495 to Potomac River, Fairfax and Arlington Counties, Va.	ER-2	D

D-NRC-G06001-AR	Arkansas nuclear one, unit 2, Pope County, Ark.	ER-2	G

APPENDIX II

DEFINITIONS OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

Environmental Impact of the Action

LO—LACK OF OBJECTION

EPA has no objections to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

ER—ENVIRONMENTAL RESERVATIONS

EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these impacts.

EU—ENVIRONMENTALLY UNSATISFACTORY

EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

Adequacy of the Impact Statement

CATEGORY 1—ADEQUATE

The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonably available to the project or action.

CATEGORY 2—INSUFFICIENT INFORMATION

EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

CATEGORY 3—INADEQUATE

EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

V41167 AUG 26 76 UMI

APPENDIX III.—*Final environmental impact statements for which comments were issued between July 1 and 31, 1976*

Identifying No.	Title	General nature of comments	Source for copies of comments
Corps of Engineers:			
F-COE-A32515-FL	ITT palm coast, permit to remove nine earthen plugs Flagler County, Fla.	EPA continues to have environmental reservations on the proposed project in respect to poor water quality and lack of plans to reestablish flows to Long Creek. EPA recommended the Corps of Engineers conduct further studies and a reassessment be made.	E
F-COE-A36174-NY	Flood control project for Ardsly, Saw Mill River Basin, N.Y.	EPA's concerns were adequately addressed in the final EIS.	C
F-COE-C32004-PR	Ponce Harbor, navigation project, Puerto Rico.	do	C
F-COE-H36006-IA	Missouri River levee system, unit L 611-614, Mills and Pottawattamie counties, Iowa.	do	H
F-COE-H36013-NB	Missouri River levee system, unit R-616, Sarpy County, Nebr.	do	H
Department of Agriculture:			
F-AFS-J65003-MT	Multiple use plan, Lake Five planning unit, Flathead National Forest, Mont.	EPA's concerns were adequately addressed in the final EIS. However, EPA continues to have concerns in use of trail bikes in roadless areas.	I
F-AFS-J65037-CO	Snake River land use plan, White River National Forest, Summit County, Colo.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA suggested the Forest Service actively solicit input from the public and interested agencies when assessing possible expansion of the Keystone ski area.	I
F-SCS-H36022-IA	Little River watershed, Decatur County, Iowa.	EPA continues to have environmental reservations with the water quality aspects of the proposed multipurpose impoundment. Significant concentrations of pesticides, heavy metals and PCB's may not allow the impoundment to be used as a water supply during certain periods of the year and may also contaminate the fishery making it inedible. EPA recommended that Soil Conservation Service initiate further water quality assessments and these assessments be completed before a final decision is reached on whether the multipurpose structure should be constructed.	H
F-SCS-K36005-HI	Honolulu watershed project, Maui County, Hawaii.	EPA's concerns have been adequately addressed in the final EIS.	J
Department of Defense:			
FS-USN-A10042-CT	Dredge River Channel, Naval Submarine Base, New London, Groton, Conn.	EPA's concerns were adequately addressed in the supplement final EIS.	B
Department of the Interior:			
F-IBR-K28002-CA	Sugar Pine Dam, reservoir and conduit, Central Valley project, Placer County, Calif.	EPA generally had no objections to the proposed project, but requested that some concerns be addressed before Bureau of Reclamation proceeds with the project.	J
Department of Transportation:			
F-CGD-D50001-VA	James River Bridge permit, I-95 to downtown expressway, Richmond, Va.	EPA continues to have environmental reservations on the proposed project's air and noise impacts. EPA has requested the Coast Guard to provide further information on these concerns.	D
FS-FAA-E51018-NC	Douglas Municipal Airport, construction of runway 18R-36L, Charlotte, N. C.	EPA's concerns were adequately addressed in the final EIS.	E
F-FHW-A41505-PA	LR 1022, sections 10, 11, and 12, relocation of PA-219, Somerset County, Pa.	do	D
F-FHW-A41879-NY	NY-13, Newfield Hill to Ithaca, NY-96, Ithaca to Duboise Road, Tompkins County, N.Y.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA will reserve comment on the Route 13 portion of the proposed project until a specific alignment is chosen.	C
F-FHW-C40013-VI	Sion Farm to Christiansted Highway, St. Croix, Virgin Islands.	EPA's concerns were adequately addressed in the final EIS.	C
F-FHW-D40013-MD	Salisbury Bypass, relocated U.S. 13, Wicomico County, Md.	do	D
F-FHW-K40015-CA	Coast Highway Bridge replacement, Upper Newport Bay, Newport Beach, Orange County, Calif. (FHWA-CA-EIS-76-02-F.)	Generally EPA's concerns were adequately addressed in the final EIA.	J
F-FHW-K40021-NV	I-80, city of Lovelock bypass, Pershing County, Nev. (FHWA-NV-EIS-75-01-F).	EPA's concerns were adequately addressed in the final EIS.	J
F-FHW-K40030-NV	West leg, U.S. 95, Las Vegas and Clark Counties, Nev.	do	J
General Services Administration:			
F-GSA-D00002-VA	Virginia heating plant improvements, Arlington County, Va. (EVA 76001).	do	D

Identifying No.	Title	General nature of comments	Source for copies of comments
General Services Administration—Continued			
F-GSA-D03003-DC	Installation of multifuel boilers, Central Heating and Refrigeration Plant, Washington, D.C.	do	D
Department of Housing and Urban Development:			
F-HUD-C25002-PR	Acquisition of 25 acres for solid waste disposal facilities, Salinas, Puerto Rico.	EPA's review of the final EIS indicated the statement to be unresponsive to EPA's comments on the draft EIS. Additional information on the collection, treatment, and use of leachate and a detailed illustration of the gas gathering and ventilation systems are needed in order for EPA to adequately evaluate the proposed project.	C
F-HUD-D89015-VA	Downtown west redevelopment project, Norfolk, Va. (CDBG).	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA requested the opportunity to review the environmental aspects of further refinements in design and planning activities before construction takes place.	D
F-HUD-E85001-SC	Camp Fornace urban renewal area, Columbia, Richland County, S.C.	EPA's concerns were adequately addressed in the final EIS.	E
International Boundary and Water Commission:			
F-IBW-A36396-CA	Tijuana River flood control project, San Diego County, Calif.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA suggested consideration be given to more extensive measures to offset project impact.	J
Nuclear Regulatory Commission:			
F-NRC-E06002-NC	William B. McGuire Nuclear Station, units 1 and 2, Duke Power Co., Lake Norman, Mecklenburg County, N.C.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA recommended that the operating license provide for monitoring and restriction on operation to prevent violation of water quality standards. A biomonitoring program will be of praticular importance because of the massive numbers of shad predicted to be impinged and the possible negative effect of the highly turbulent area of the mixing chamber when hypolimnetic water is being utilized. Also, all blow-off operations or steam venting should be muffled, and a program of monitoring and abatement should be implemented immedintely should complaints arise regarding noise after the plant operation begins.	E

APPENDIX IV.—*Final environmental impact statements which were reviewed and not commented on between July 1 and 31, 1976*

Identifying No.	Title	Source of review
Corps of engineers:		
F-COE-A32536-CA	Extension of entrance to Islais Creek Channel, San Francisco Harbor, Calif.	J
F-COE-A36178-PA	Wyoming Valley flood control, Susquehanna River, Pa	D
F-COE-A36193-00	Wallkill River, flood control project, New York and New Jersey	C
F-COE-A36264-CA	Wildcat and San Pablo Creeks, water resources project, Contra Costa County, Calif.	J
F-COE-E32013-00	Apalachicola, Chattahoochee, and Flint Rivers, continued operation and maintenance, Alabama, Florida, and Georgia.	E
F-COE-E34001-KY	Wolf Creek Dam, Lake Cumberland, continued operation, maintenance and management, south central Kentucky.	E
F-COE-G34004-OK	Operation and maintenance program, Oologah Lake, Verdigris River, Hulah Lake, Caney River, Reyburn Lake, Polecat Creek, Okla.	G
F-COE-G34012-TX	Operation and maintenance, Canyon Lake, Guadalupe River Basin, Tex.	G
F-COE-G36040-LA	Upper Point Coupee, watershed project, Johnson Bayou, La	G
F-COE-H34004-IA	Operation and maintenance, Rathbun Dam and Lake, Iowa	H
F-COE-H34010-KS	Operation and maintenance, Tuttle Creek Lake, Kans	H
F-COE-K34002-CA	Small Craft Harbor, San Leandro Marina, Alameda County, Calif	J
F-COE-K36006-CA	Maintenance dredging, outer harbor, Crescent City, Del Norte County, Calif.	J
F-COE-L26001-AK	Lost River mining project, Lost River, Alaska	K
F-COE-L36006-WA	Shelton Creek flood control and storm drainage project, Shelton, Wash.	K
F-COE-L36012-WA	Lower monumental lock and dam, Snake River, Wash	K
Department of Agriculture:		
F-AFS-A65006-MT	Land use plan, Elkhorn planning unit, Helena National Forest, Mont.	I
F-AFS-J65022-MT	Multiple use basin planning unit, Deerlodge National Forest, Mont	I
F-AFS-J65033-CO	Management of Mount Welba unit, Routt National Forest, Colo	I
F-AFS-J65036-WY	Ryan Park winter sports site, Medicine Bow National Forest, Wyo	I
F-AFS-K65008-CA	Palomar Mountain planning unit, Cleveland National Forest, San Diego, Calif.	J
FS-AFS-L65018-AK	Herbicide use on national forests of Alaska, calendar year 1976, Alaska.	K
F-REA-E06006-SC	230 kV transmission lines, Sumner to Hilton Head, S.C	E
F-SCS-B36007-CT	Norwalk River watershed, Fairfield County, Conn. (USDA-SCS-EIS-WS-(ADM)-76-2-F).	B
F-SCS-D36012-VA	Great Creek watershed, Brunswick and Lunenburg Counties, Va. (USDA-SCS-EIS-WS-ADM-76-2-F).	D
F-SCS-D36013-VA	Bush River watershed, Prince Edward County, Va. (USDA-SCS-EIS-WS-(ADM)-76-3(D)-VA).	D
F-SCS-D36016-MD	Big Pipe Creek watershed plan, Carroll County, Md	D
F-SCS-E36018-GA	Mill Branch watershed, Bacon County, Ga. (USDA-SCS-EIS-WS-ADM-75-2-F-GA).	E

Department of Agriculture:			
R-AFS-A65123-00	36 CFR pts. 213, 231, 261, national forests and national grasslands, grazing.	EPA has no major objections to the regulations as proposed. However, three language changes were suggested to explicitly incorporate environmental consideration into the regulations.	A
Department of the Interior:			
A-BLM-A02002-00	Mid-Atlantic Outer Continental Shelf, (OCS, sale No. 49), call for nominations.	The lack of infrastructure for oil support activities, possible aggravation of existing photochemical oxidant problems, possible conflicts between OCS and ocean dumping sites, and other intensive current uses of the proposed sale area present considerable difficulties in environmental analysis of the proposed lease sale. These difficulties are exaggerated by the large area (40,000 M²) involved in the proposed sale. EPA suggested that BLM limit the sale to a more easily managed area.	A
A-BLM-A02003-AK	Beaufort Sea Outer Continental Shelf (OCS sale No. 50), off the northern coast of Alaska, call for nominations.	EPA expressed its concern over the environmental safety of the project, in particular the possibility of a blowout continuing uncontrolled for several years. EPA recommended a 1-yr delay in order to prepare contingency plans for such occurrences, to complete biological baseline studies, and to finalize operating orders. EPA stated that the environmental impact of this lease sale could not be meaningfully evaluated without such information.	A

FEDERAL COMMUNICATIONS COMMISSION

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Committee Meetings

To: RTCM Officers, Executive Committee Representatives and Alternates, and Special Committee Chairmen.

Subject: Executive Committee Meeting, Thursday, September 16, 1976.

The next Executive Committee Meeting will be on Thursday, September 16, 1976, at 9:30 a.m. in Conference Room 847, 1919 M Street, N.W., Washington, D.C.

AGENDA

1. Call to Order; Chairman's Report.
2. Introduction of Attendees; Adoption of Agenda.
3. Acceptance of the Minutes of Executive Committee Meetings.
4. Progress Reports on Currently Active Committees.
5. Status Reports on Other Committees.
6. New Membership Applications for Executive Committee Approval.
7. Approved of membership contribution schedule for FY 1977.
8. Approval of SC-65 "Ship Radar" Paper.
9. Review of Unit Pricing Schedule for Quantity MRT Orders.
10. Discussion on 1977 Assembly Meeting.
11. Summary Reports and Announcements.
12. New Business.
13. Establishment of next meeting date.

Special Committee No. 68 "Marine Radiotelephone Operator Education."

Notice of 16th Meeting: Wednesday, September 15, 1976—9:30 a.m.; Conference Room A-205, 1229 20th Street, N.W., Washington, D.C.

AGENDA

1. Call to Order; Chairman's Report.
2. Confirmation of Secretary; Adoption of Agenda.
3. Acceptance of SC-68 Summary Records.
4. Review promotion plans for Handbook.
5. Review proposed feature stories.
6. New business.
7. Establishment of next meeting date.

A. Newell Garden, Chairman, SC-68, Raytheon Company, 141 Spring Street, Lexington, Mass. 02173. Phone: (617) 862-6600 (Ext. 414).

RTCM SC 69/FCC WARC-79 Advisory Committee for Maritime Mobile Service tenth meeting, 2025 M Street, N.W., Washington, D.C., Room 8210, 9:30 a.m. to 12:30 p.m., Tuesday, September 14, 1976.

AGENDA

1. Call of the Agenda.
2. Chairman's Opening Remarks.
3. Reports of the Task Forces.
4. Review work to be accomplished.
5. Further Business.
6. Set date for next meeting.
7. Adjournment.

Charles Dorian, Chairman SC 69, COMSAT General, 950 L'Enfant Plaza, S.W., Washington, D.C 20024, Phone: (202) 554-6829.

To comply with the advance notice requirements of Public Law 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meeting. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend the meeting should report to the room listed in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Agendas, working papers, and other appropriate documentation for the meeting is available at that meeting. Those desiring more specific information may contact either the designated Chairman or the RTCM Secretariat. (Phone (202) 632-6490)

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final report is approved by the RTCM Executive Committee. All RTCM meetings are open to the public. Written statements are preferred but by previous arrangement, oral presentations will be permitted within time and space limitations.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

FEDERAL ENERGY ADMINISTRATION

WORLDWIDE SUPPLY AND DEMAND TASK GROUP OF THE LP-GAS TRANSPORTATION AND STORAGE SUBCOMMITTEE OF THE LP-GAS INDUSTRY ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Worldwide Supply and Demand Task Group of the LP-Gas Transportation and Storage Subcommittee of the LP-Gas Industry Advisory Committee will meet Thursday, September 16, 1976, at 10 a.m., in the Tower Suite, Host International Hotel, Houston Intercontinental Airport, Houston, Texas.

The Subcommittee was established to make recommendations to the parent Committee with respect to policy and implementation of programs that affect the LP-Gas industry.

The purpose of the meeting is to review production and demand statistics by country.

The meeting is open to the public. The Chairman of the Group is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement will be permitted to do so,

V 41 167 AUG 26 76 UMI

either before or after the meeting. Members of the public who wish to make oral statements should inform Lois G. Weeks, Director, Advisory Committee Management, (202) 961-7022, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection in the Freedom of Information Office, Room 2107, Federal Energy Administration, 12th and Pennsylvania Avenue, NW., Washington, D.C.

Issued at Washington, D.C., on August 23, 1976.

MICHAEL F. BUTLER,
General Counsel.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1496]

COLUMBUS EXPRESS & SHIPPING CO., INC.

Order of Revocation

By letter dated July 20, 1976, Columbus Express & Shipping Co., Inc., 1029 East 167th Street, Bronx NY 10459 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1496 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before August 19, 1976.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Columbus Express & Shipping Co., Inc., has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01 (c) dated June 30, 1975;

It is ordered, That Independent Ocean Freight Forwarder License No. 1496 issued to Columbus Express & Shipping Co., Inc., be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 1496 be and is hereby revoked effective August 18, 1976.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Columbus Express & Shipping Co., Inc.

LEROY F. FULLER,
Director, Bureau of Certification & Licensing.

[FR Doc.76-25069 Filed 8-25-76;8:45 am]

PUERTO RICO PORTS AUTHORITY AND PUERTO RICO MARITIME SHIPPING AUTHORITY

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before September 15, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Julio Maymi Pagan, Executive Director, Puerto Rico Ports Authority, G.P.O. Box 2829, San Juan, Puerto Rico 00936.

Agreement No. T-3272, as amended, between the Puerto Rico Ports Authority (Port) and Puerto Rico Maritime Shipping Authority (PRMSA), provides for PRMSA's three-year lease and exclusive use (with month-to-month renewal options) of an area at Mayaguez, Puerto Rico to be used for the operation of a marshalling facility and a trucking terminal. As compensation, PRMSA shall pay Port a minimum monthly rental of $929.67, subject to readjustment by the Port.

By Order of the Federal Maritime Port.

Dated: August 20, 1976.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. CP76-85, et al.]

ALGONQUIN GAS TRANSMISSION CO. AND TEXAS EASTERN TRANSMISSION CORP.

Notice of Certification of Settlement Agreement, Stipulation, and Conditional Motions for Certificates With Pre-Granted Abandonment

AUGUST 18, 1976.

Take notice that on July 13, 1976 the Presiding Administrative Law Judge certified to the Commission a Settlement Agreement, a Stipulation, and relevant portions of the record in these dockets relating thereto. The Settlement Agreement covers the rate charged and to be charged by Algonquin Gas Transmission Company (Algonquin) for the exchange-transportation services rendered in Docket Nos. CP76-85, *et al.*, and proposed to be rendered by Algonquin in Docket No. CP76-85 through October 31, 1976. The Stipulation, which is concurred in by the Staff, reflects the bases upon which Boston Gas Company (Boston Gas), South Jersey Gas Company, and The Connecticut Gas Company will accept limited-term permanent certificates, with pre-granted abandonment, for the services proposed by them in these dockets. All other issues in these proceedings have been reserved for determination by the Presiding Administrative Law Judge and the Commission.

Take further notice that on July 2, and 5, 1976 motions for limited-term permanent certificates extending authorization to render exchange-transportation services for the benefit of the Brooklyn Union Gas Company (Brooklyn Union) in Docket No. CP76-85 have been filed by Algonquin and Texas Eastern Transmission Corporation, and by Brooklyn Union and Boston Gas. Such motions are conditioned on Commission approval of the Settlement Agreement and Stipulation. The motions request pre-granted abandonment for this extended service effective October 31, 1976.

Any person, including the parties to this proceeding, may file comments with respect to the Settlement Agreement or Stipulation on or before September 9, 1976.

Any person desiring to be heard or to protest the motions should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol

Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on these matters if no petition to intervene is filed within the time required herein, and if the Commission on its own review finds that approval of the Settlement and Stipulation and grant of the certificates described above are required by the public convenience and necessity. If the Commission on its own motion in response to a petition to intervene believes that a formal hearing is required, further notice of such hearing will be given. Under the procedure herein provided for, unless otherwise advised it will be unnecessary for the moving parties to appear or be represented at the hearing.

Copies of both the Settlement Agreement and the motions are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24971 Filed 8-25-76;8:45 am]

[Docket Nos. ER76-799, ER76-800]

APPALACHIAN POWER CO.

Electric Rates; Order Accepting for Filing and Suspending Proposed Rate Schedule Provisions, Consolidating Proceedings, and Establishing Procedures

AUGUST 19, 1976.

On July 21, 1976 Appalachian Power Company (APCo) tendered for filing a Supplement to its FPC Rate Schedule No. 23 for service to Kingsport Power Company (Kingsport), an affiliate of APCo. APCo tendered also a Supplement to its FPC Rate Schedule No. 24 for service to Carolina Power & Light Company (CP&L). Both proposed Supplements contain (1) rate increases which reflect increased demand and energy charges and (2) a revised fuel clause which purports to conform to Section 35.14 of the Commission's Regulations. For the reasons hereinafter stated, the Commission will accept and suspend the proposed revisions, consolidate these proceedings and establish procedures.

The proposed Supplement to Kingsport supersedes and replaces a number of provisions of APCo's Rate Schedule No. 23.[1] The proposed Supplement to CP&L supersedes and replaces a number of provisions of APCo's Rate Schedule No. 24.[2]

The proposed Supplement to Kingsport increases the monthly demand charge from $1.20/Kw to $3.93/Kw and contains a single energy charge of 11.66 mills per KWh. APCo proposes also to eliminate a reserve clause requiring a monthly purchase by Kingsport. Finally, the filing contains a fuel adjustment clause conforming to Section 35.14 of the Commission's Regulations. The Commission's review of APCO's proposed supplement to Kingsport indicates that it has not been shown to be just and reasonable and, therefore, it may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, the Commission shall accept the supplement in Docket No. ER76-799 for filing and suspend its operation for one month.

The proposed Supplement to CP&L provides for a demand charge of $3.77/Kw/month and an energy charge of 10.9 mills/KWh. APCo has filed also a proposed fuel clause which conforms to Section 35.14 of the Commission's Regulations. The Commission's review of APCo's filing with regard to CP&L indicates that it has not been shown to be just and reasonable and, therefore, it may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Accordingly, it shall be accepted for filing and its use suspended for one day.

Notices of APCo's filings were issued on July 26, 1976 with comments, protests or petitions to intervene due on or before August 9, 1976.

On August 9, 1970 a Petition to Intervene and Protest, Motion to Reject and Dismiss and in the Alternative Motion to Stay was filed by CP&L. The Commission shall defer action on CP&L's filing until it receives any pleadings responding to it. These responsive pleadings should be filed on or before September 3, 1976. The Commission believes, however, that good cause exists to grant CP&L's petition to intervene.

The Commission finds. Because the cases raise similar issues of law and fact, good cause exists to consolidate Docket Nos. ER76-799 and ER76-800 for purposes of litigation and decision.

The Commission orders. (A) Docket Nos. ER76-799 and ER76-800 are hereby consolidated for purposes of litigation and decision.

(B) The proposed change tendered in Docket No. ER76-799 is hereby accepted for filing and its operation suspended until September 21, 1976, at which time it shall become effective, subject to refund, pending a final decision in this case.

(C) The proposed change tendered in Docket No. ER76-800 is hereby accepted for filing and its operations suspended until August 21, 1976, at which time it shall become effective, subject to refund, pending a final decision in this case.

(D) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before February 23, 1977 (See Administrative Order No. 157).

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See, Delegation of Authority, 18 CFR 3.5(d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(F) APCo shall file monthly with the Commission the report on billing determinants and revenues collected under the presently effective rates and the proposed increased rates filed herein, as required by § 35.19a of the Commission Regulations, 18 CFR Section 35.19a.

(G) CP&L's Petition to Intervene is hereby granted; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the petitions to intervene; *Provided, further,* That admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(H) the Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24962 Filed 8-25-76;8:45 am]

[Docket No. ER76-495 (Phase II)]

CAROLINA POWER & LIGHT CO.

Notice of Settlement Conference

AUGUST 18, 1976.

Take notice that on August 24, 1976, a conference of all parties to intervene in these consolidated proceedings, Carolina Power & Light Company, and Commission Staff will be held in a Commission Hearing Room at 825 North Capitol Street, NE., Washington, D.C., at 11:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the

[1] Article 7, Section 7.014, Article 8, Sections 8.01 and 8.02; Article 9, Sections 9.01, 9.02, 9.03 and 9.04.

[2] Section 5, Articles 5.1 and 5.2; Section 6, Articles 6.1, 6.2, 6.3, 6.4, 6.5, 6.11, 6.12, 6.13, 6.15, 6.16 and 6.17.

V 41 167 AUG 26 76 UMI

Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulation discussed at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24955 Filed 8-25-76;8:45 am]

[Docket No. RP76-135]

CITIES SERVICE GAS CO.

Natural Gas Pipeline; Order Rejecting, Accepting, and Suspending in Part Proposed Rate Increase, and Establishing Procedures

AUGUST 19, 1976.

On July 23, 1976, Cities Service Gas Company (Cities) tendered for filing four revised and three original tariff sheets[1] to its FPC Gas Tariff, Second Revised Volume No. 1, reflecting general increases in its jurisdictional sales rates amounting to $13,489,441 (6.03%), based on the twelve months ended March 31, 1976, as adjusted for known and measurable changes through December 31, 1976. Cities requests an effective date of August 23, 1976.

Cities' base tariff rates shown on Seventeenth Revised Sheet PGA-1 and the underlying cost of service in the instant filing reflect the base cost of purchased gas of 40.20 cents per Mcf, as established in Cities' PGA filing of June 7, 1976, which became effective July 24, 1976, in Docket No. RP72-142 (PGA76-5). Cities proposes to file a Substitute Revised Sheet PGA-1 to replace the sheets filed in this docket, in order to reflect the current average cost of purchased gas established in the most recent Cities PGA filing, which becomes effective prior to the effective date of Seventeenth Revised Sheet No. PGA-1.

Cities gives the following principal reasons for seeking increased rates: (1) a need for a rate of return of 12.6%; (2) a reduction in available gas supply; (3) additional advance payments to producers to obtain additional gas supplies; (4) increases in plant and related cost of service items, including increased depreciation expense; and (5) increases in supplies, materials, wages and various taxes.

Cities proposes to amend a provision[2] of its General Terms and Conditions which deals with the accrual of interest to be paid by Cities' customers on overdue invoices. Under the proposed amendment, such interest would accrue monthly at the currently effective rate stated in section 154.67(c) of the Commission's Regulations under the Natural Gas Act.

In addition, Cities proposes to introduce into the General Terms and Conditions an advance payment rate adjustment provision[3] which would allow the tracking of rate changes for advance payments. Cities requests waiver of § 154.38(d)(3) of the Commission's Regulations in order to include this provision in its tariff.

Public notice of the filing was issued on August 6, 1976, with comments, protests, or petitions to intervene due on or before August 16, 1976.

The Commission's review of Cities' proposed tariff sheet. Seventeenth Revised Sheet PGA-1, indicates that it has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, the Commission shall suspend the effective date of the rates for five months until January 23, 1977, subject to refund.

Cities' proposed Third Revised Sheet No. 28 and First Revised Sheet No. 29, which contain amended Article 6 of Cities' General Terms and Conditions, should be accepted for filing and be made effective on the requested effective date of August 23, 1976.

Cities' proposed Original Sheet Nos. 37K, 37L and 37M, which contain Cities' proposed advance payment rate adjustment, should be rejected, and the Company's request for waiver of the requirements of § 154.38(d)(3) of the Commission's Regulations should be denied. Rejection of this proposed tariff tracking provision will be without prejudice to Cities' right to include the proposal in its case for final Commission decision thereon.

The Commission finds. (1) Good cause exists to accept for filing the proposed Seventeenth Revised Sheet PGA-1 and Fourth Revised Sheet No. 37D to Cities Service Gas Company's FPC Gas Tariff, Second Revised Volume No. 1, tendered by the Company on July 23, 1976, and to suspend their use for five months, until January 23, 1977, and until such further time as they are made effective, subject to refund, by motion filed in the manner prescribed by Section 4(e) of the Natural Gas Act.

(2) It is proper and necessary in the public interest and to aid in the enforcement of the Natural Gas Act that a hearing concerning the lawfulness of Cities Service Gas Company's rates be commenced.

(3) Good cause exists to accept for filing and make effective as of August 23, 1976, Cities Service Gas Company's proposed Third Revised Sheet No. 28 and First Revised Sheet No. 29, tendered by the Company on July 23, 1976.

(4) Good cause exists to deny waiver of § 154.38(d)(3) of the Commission's Regulations under the Natural Gas Act and to reject the Company's proposed Original Sheet Nos. 37K, 37L and 37M, tendered by the Company on July 23, 1976. Rejection of this proposed tariff provision should be without prejudice to the Company's right to include the proposal in its case for final Commission decision thereon.

The Commission orders. (A) Cities Service Gas Company's Seventeenth Revised Sheet PGA-1 and Fourth Revised Sheet No. 37D to its FPC Gas Tariff, Second Revised Volume No. 1, tendered July 23, 1976, are hereby accepted for filing and suspended for five months, until January 23, 1977, and until such further time as they are made effective, subject to refund, by motion filed in the manner prescribed by Section 4(e) of the Natural Gas Act.

(B) Cities Service Gas Company's proposed Third Revised Sheet No. 28 and First Revised Sheet No. 29, tendered on July 23, 1976, are hereby accepted and made effective as of August 23, 1976.

(C) Cities Service Gas Company's request for waiver of Section 154.38(d)(3) of the Commission's Regulations under the Natral Gas Act is hereby denied, and proposed Original Sheet Nos. 37K, 37L and 37M, tendered on July 23, 1976, are hereby rejected, without prejudice to the Company's right to include the proposal in its case for final Commission decision thereon.

(D) Pursuant to the authority of the Natral Gas Act, particularly section 4 thereof, and the Commission's Rules and Regulations, a hearing shall be held concerning the lawfulness and reasonableness of the subject increased rates.

(E) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before December 1, 1976. (See Administrative Order No. 157).

(F) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(G) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

COLUMBIA GAS TRANSMISSION CORP.

Pipeline Rates: Amendment To Order

AUGUST 19, 1976.

Through various correspondence to the Commission Secretary, as well as members of the Commission Staff, it has become evident that certain deletions, additions and modifications are necessary to the list of independent Ohio natural gas producers who were made respondents to this proceeding by order issued October 22, 1975, in this docket. Accordingly, the Commission shall amend the list of producer-respondents to this proceeding as follows:

(1) Delete the following names and addresses:

Colton Petroleum Corporation, 2121 S. Columbia Avenue, Tulsa, Oklahoma 74114.
Kenneth E. Dixon, 725 Stoney Hill Road, Hinchley, Ohio 44233.
Charles W. Badger, c/o Energy Development Corporation, 7667 West 95th Street, Hickory Hills, Illinois 60457.
Julia Badger, c/o Energy Development Corporation, 7667 West 95th Street, Hickory Hills, Ohio 60457.
Chief Petroleum, Inc., 4770 Indianola Avenue, Suite 141, Columbus, Ohio 43214.
H. D. Collins, 304 Philtower Building, Tulsa, Oklahoma 74103.
Paul Grim, Route 3, Logan, Ohio 43138.
Refiners Petroleum Corporation, First National Bank Building, One East First Street, Reno, Nevada 89501.
Star Gas Company, 809 Hanawko Valley Building, Charleston, West Virginia 25301.

(2) Add the following names and addresses:

Charles W. Badger, c/o Energy Development Corporation, P.O. Box 446, Oak Lawn, Illinois 60453.
Julia Badger, c/o Energy Development Corporation, P.O. Box 446, Oak Lawn, Illinois 60453.
Chief Petroleum, Inc., 4968 Tamarack Blvd., Columbus, Ohio 43229.
H. D. Collins, 3304 First National Tower, Tulsa, Oklahoma 74103.
Paul A. Grim, Route 5, Logan, Ohio 43138.
Refiners Petroleum Corporation, 2550 Fifth Avenue, Suite 1009, San Diego, California 92103.
Star Gas Company, Suite 208, Litton Building, 1207 Quarrier Street, Charleston, West Virginia 25301.
Mr. Gay Wilson, Route No. 1, Walhouding, Ohio 43843.
Mr. R. D. Smith, Box 85, Holmesville, Ohio 44633.

The Commission orders: (A) The Commission's list of producer-respondents in Docket No. RP73-64 (PGA75-5) shall be amended as set forth in the body of this order.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ES76-50]

COMMUNITY PUBLIC SERVICE CO.

Notice of Application

AUGUST 19, 1976.

Take notice that on July 26, 1976, the Community Public Service Company (Applicant), filed an application with the Commission, pursuant to Section 204 of the Federal Power Act and Part 34 of the Rules and Regulations thereunder, seeking authorization to issue $10,000,000 principal amount of First Mortgage Bonds, Series M and up to 150,000 shares of Common Stock, par value $10 per share. The proposed Series M Bonds have a maturity of more than ten years and are to be sold by public offering, either negotiated or competitive. In addition, the proposed Common Stock is to be sold by public offering, either negotiated or competitive.

Applicant is incorporated under the laws of the State of Texas, with its principal business office at Fort Worth, Texas and is domesticated in the State of New Mexico. Applicant is engaged primarily in the generation, purchase, distribution and sale of electric energy and the purchase, distribution and sale of natural gas. Applicant provides electricity and Natural gas service to a total of 77 municipalities in Texas and nine municipalities in New Mexico.

The purpose of the proposed First Mortgage Bonds and Common Stock will be the reimbursement of the treasury of applicant for expenditures for the construction, completion, extension or improvement of facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 10, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.0). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1607]

EARL K. DILLE

Notice of Application

AUGUST 19, 1976.

Take notice that on May 1, 1975, Earl K. Dille (Applicant), Executive Vice President, Union Electric Company, St. Louis, Missouri, filed an application pursuant to section 305(b) of the Federal Power Act to hold the following positions:

Executive vice president and director.[1]	Union Electric Co. (Union Electric).	Public utility.
Director[1]	Missouri Edison Co.[2] (Missouri Edison).	Do.
Do[1]	Missouri Powor and Light Co.[2] (Missouri Power).	Do.
Do	Missouri Uulities Co[2][3] (Missouri Uulities).	Do.
Do[1]	Electric Energy Inc.[4] (Electric Energy).	Do.

[1] Positions previously authorized.
[2] Subsidiary of Union Electric.
[3] Elected director April 23, 1975.
[4] Forty percent owned by Union Electric.

By Order issued August 3, 1972, the Applicant was authorized to hold all the above positions except the position of Director of Missouri Utilities, which is the subject of this application.

Any person desiring to be heard or to make any protest with reference to such application should, on or before September 20, 1976, file with the Federal Power Commission, in accordance with the requirements of the Commssion's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropirate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-114]

EAST TENNESSEE NATURAL GAS CO.

Notice of Certification of Proposed Settlement Agreement

AUGUST 19, 1976.

Take notice that on July 7, 1976, the Presiding Administrative Law Judge certified to the Commission for its consideration and disposition a proposed settlement agreement in the above-entitled proceeding together with the record related thereto.

Any person wishing to do so may submit comments in writing covering the proposed settlement. All such comments should be submitted to the Federal Power Commission, 825 N. Capitol Street, N.E., Washington, D.C. 20426, on or before August 31, 1976. Copies of the settlement

V 41 167

[Docket Nos. RI61-280 and RI71-1014]

ESTATE OF WILLIAM E. ALLAUN AND CORNELIA H. ALLAUN

Notice of Petition for Special Relief

AUGUST 18, 1976.

Take notice that on May 4, 1976, The Estate of William Edwin Allaun and Mrs. Cornelia Harris Allaun (Petitioners), Melson Building, 123 30th Street, Newport News, Virginia 23607, filed a petition for special relief in Docket Nos. RI61-280 and RI71-1014, pursuant to Section 8.2.6 of Commission Order No. 459. Petitioner requests to be excused from undischarged refund obligations in the amount of $95,605.13 after it has already made a sincere and diligent effort to find gas to meet its refund obligations but has failed to do so. The refund obligations arose from sales of natural gas from the Gwinville Field, Jefferson Davis and Simpson Counties, Mississippi, to Bass Enterprises Production Company, et al.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 3, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9564]

IOWA POWER AND LIGHT CO.

Notice of Application

AUGUST 19, 1976.

Take notice that on August 9, 1976, Iowa Power and Light Company (Company) filed, pursuant to section 203 of the Federal Power Act and Part 33 of the Commission's Regulations thereunder, an application for authority to sell approximately 20 miles of 161 kV electric transmission line in the Iowa counties of Jasper and Poweshiek. The purchaser of the line will be Iowa Southern Utilities Company, Centerville, Iowa.

The Company is incorporated under the laws of the State of Iowa with its principal business office at Des Moines, Iowa, and is engaged primarily in the generation, transmission, distribution and sale at retail of electric energy and in the purchase, distribution and sale at retail of natural gas in central and southwestern Iowa.

The Company states that the proposed sale of facilities is consistent with the public interest, inasmuch as it will tend to equalize the benefits and costs of transmission facilities located in areas of mutual load responsibilities.

The Company has moved that the intermediate decision procedure be omitted and that the Commission forthwith render the final decision on this application.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 11, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any persons wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-834]

KANSAS POWER AND LIGHT CO.

Proposed Changes In Rates and Charges

AUGUST 18, 1976.

Take notice that on August 2, 1976, The Kansas Power and Light Company (Kansas) tendered for filing a newly executed renewal contract dated April 26, 1976, with the City of Hillsboro, Kansas for wholesale service to that community. Kansas states that this is a renewal of a similar contract dated October 7, 1969, and designated KPL Rate Schedule FPC No. 119. The proposed effective date is October 1, 1976. According to Kansas, the net billing for the twelve months succeeding the proposed change in agreements was $251,849.85. In addition, Kansas states that copies of the contract have been mailed to the City of Hillsboro and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 30, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24957 Filed 8-25-76;8:45 am]

[Docket No. AR67-1]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Filing of Report

AUGUST 19, 1976.

Take notice that on August 2, 1976, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) filed a report in response to Paragraph (C) of the Commission's Order dated February 23, 1976 in Docket No. AR67-1, et al.

Michigan Wisconsin states that pursuant to the provisions of the General Terms and Conditions of its tariff, Michigan Wisconsin will credit its Unrecovered Purchased Gas Cost Account with the following refunds received:

Producer	Rate schedule	Refund amount
Exxon Co., U.S.A.	316	$4,414.03
Getty Oil Co.	118	1,435.31
Mobil Oil Corp.	316	6,606.58
Total		12,455.92

Michigan Wisconsin further states that the refunds were determined pursuant to FPC Opinion 607, as amended, and refunded pursuant to Paragraph (A) of the Order referred to above. Michigan Wisconsin states that refunds not yet received will be credited to the Unrecovered Purchased Gas Cost Account when received; the Company's records indicate that Pennzoil Producing Company has a refund obligation of $9,856.64 under its rate schedule 249 which has not yet been received or otherwise discharged.

Michigan Wisconsin states that a copy of its report was mailed to each of Michigan Wisconsin's gas sales customers, as well as to each of the following:

Illinois Commerce Commission
Public Service Commission of Indiana
Iowa Commerce Commission
Kansas State Corporation Commission
Michigan Public Service Commission
Missouri Public Service Commission
Public Utilities Commission of Ohio
Tennessee Public Service Commission
Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 27, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. G-18314, CP66-121 and CP70-25]

MIDWESTERN GAS TRANSMISSION CO.

Notice of Petition To Amend Orders

AUGUST 19, 1976.

Take notice that on June 21, 1976, Midwestern Gas Transmission Company (Midwestern) petitioned the Federal Power Commission to amend its three import authorizations under Section 3 of the Natural Gas Act issued in the above-entitled proceedings to authorize the continued importation of natural gas at a border price of $1.80 (Canadian) per MMBTU effective September 10, 1976, and $1.94 (Canadian) per MMBTU effective January 1, 1977, as such rate may be set forth in an amendment to TransCanada PipeLines Limited's (TransCanada) export licenses for its sales to Midwestern to be issued by the Canadian National Energy Board pursuant to an order of the Canadian Government. Midwestern's petition recites that on June 10, 1976, the Canadian Minister of Energy, Mines and Resources issued a statement that the Canadian Government had instructed the Canadian National Energy Board to amend existing export licenses to establish such border prices for the export licenses pertaining to TransCanada's sales to Midwestern. Midwestern presently purchases gas from TransCanada at a border price of $1.60 (Canadian) per MMBTU. The proposed border prices would be of a significant increase of the border prices now in effect. The petition also states that if Midwestern's import authorizations are not timely amended, Midwestern will be faced with termination of imports of gas from TransCanada.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-114]

MIDWESTERN GAS TRANSMISSION CO.

Pipeline Rates—Intervention

AUGUST 19, 1976.

On June 30, 1976, Midwestern Gas Transmission Company (Midwestern) tendered for filing revised tariff sheets to its FPC Gas Tariff[1] seeking an increase in annual jurisdictional revenues of $4,758,726 for its Southern System and $3,796,501 for its Northern System. Notice of Midwestern's tender was issued on July 8, 1976, with comments, protests, and petitions to intervene due on or before July 23, 1976. Various timely petitions to intervene were filed (See Appendix A). Having reviewed these petitions to intervene, we believe that the petitioners have sufficient interest in this proceeding to warrant intervention.

The Commission finds: The participation in the proceeding by the petitioners listed in Appendix A may be in the public interest.

The Commission orders: (A) The petitioners listed in Appendix A are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in their petitions to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. G-7645]

MOBIL OIL CORP.

Order Granting Intervention and Answering Petition for Declaratory Order

AUGUST 18, 1976.

On May 24, 1976, Mobil Oil Corporation (Mobil) filed a petition for delaratory order pursuant to Sections 4, 7, 14, and 16 of the Natural Gas Act[1] and Section 1.7(c) of the Commission's rules of practice and procedure.[2] The petition requests an order declaring whether Mobil can and should continue a sale to the City of Guymon, Oklahoma, from leases subsequently dedicated to interstate service under contract with Cities Service Gas Company (Cities Service). On June 21, 1976, Cities Service filed a petition to intervene; on June 28, 1976, the City of Guymon (Guymon) filed an untimely petition to intervene.

Mobil's petition relates to two contracts. Under the earlier contract dated January 4, 1946, Mobil has been supplying Guymon with "all its requirements" for use "in its municipal distribution system and any extensions or additions thereto." The contract term for this non-jurisdictional sale has been extended from time to time but will expire on August 31 of this year. The second contract dated February 28, 1946, dedicated Mobil's interests in certain reserves to Cities Service for the life of these reserves.[3] This contract contained a prior commitment clause[4] which recognized Mobil's obligation to sell to Guymon "under the terms of a contract dated January 4, 1946, and any extensions thereof."

Mobil states that the contract with Guymon will expire as of August 31, 1976, and Guymon would best be served by supplier(s) other than Mobil. Therefore, Mobil wants to extend its contract for only one year in order to give Guymon time to secure other supplies.

The Commission, in 1954, issued a "grandfather" certificate to Republic (Mobil's predecessor) covering its sale to Cities Service. In so doing, it accepted the reservation contained in the Republic (Mobil)-Cities Service contract which provides as follows:

Section 2(b), Limitations on Republic's Obligation

Republic reserves the right to use gas produced from said acreage for * * *

(iv) Natural gas which Republic shall hereafter sell to the City of Guymon, Oklahoma, a municipal corporation, under the terms of a contract dated January 4, 1946, *and any extension*[5] *thereof* (emphasis supplied).

Since any extension of the Mobil-Guymon contract is expressly contemplated by the Republic (Mobil)-Cities Service contract, as certificated by the Commission, Mobil, if so desires, may continue to serve Guymon.

The Commission finds: Participation by Cities Service and the City of Guymon in these proceedings may be in the

[1] Third Revised Volume No. 1, Fifteenth Revised Sheet No. 5, Original Sheet No. 5A, Second Revised Sheet Nos. 80 and 85; Original Volume No. 2, First Revised Sheet No. 37.

[5] See p. 3 of "Petition of Mobil Oil Corporation For Declaratory Order", Docket No. G-7645, filed May 24, 1976.

V41167 AUG 26 76 UMI

public interest and good cause exists for permitting such intervention.

The Commission orders: (A) The issue raised in Mobil's petition is answered in the body of this order.

(B) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission, Provided, however, that its participation shall be limited to matters affecting asserted rights and interests specifically set forth in its petition for leave to intervene; and *Provided, further,* That the admission of intervenors in the manner provided shall not be construed as recognition by the Commission that such intervenors might be aggrieved because of any order or orders entered in this proceeding, and that intervenors agree to accept the record as it now stands.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76–848]

MONTANA POWER COMPANY

Notice of Rate Filing

AUGUST 19, 1976.

Take notice that The Montana Power Company on August 9, 1976, tendered for filing in accordance with Section 35 of the Commission's Regulations, a rate Tariff designated FPC Electric Tariff M–1, which provides for sale of nonfirm energy to other utilities for resale.

The Montana Power Company respectfully requests that this rate schedule be made effective August 1, 1976.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 27, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER76–828]

NANTAHALA POWER AND LIGHT CO.

Tariff Change

AUGUST 17, 1976.

Take notice that Nantahala Power and Light Company (Nantahala) on July 30, 1976, tendered for filing proposed changes in its FPC Electric Rate Schedule PL. The proposed changes would increase revenues from jurisdictional sales or service by $121,908, based on the 12 month period ending on December 31, 1975.

The proposed rate changes and rate charges are designed to increase the revenue from Haywood Electric Membership Corporation, the Town of Highlands and Western Carolina University, Nantahala Power and Light Company's only jurisdictional customers, sufficiently to raise the rate of return on the investment necessary to serve jurisdictional customers to an acceptable level.

Copies of the filing were served upon Nantahala's jurisdictional customers and on the regulatory commission of the State of North Carolina.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.18, 1.10). All such petitions or protests should be filed on or before September 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER76–841]

NEW ENGLAND POWER CO.

Agreements

AUGUST 19, 1976.

Take notice that on August 4, 1976, New England Power Company (NEP) tendered for filing notice of an Agreement dated May 3, 1976, between it and the Water and Light Department of the Town of Littleton, New Hampshire (Littleton) which pertains to the transfer by NEP to Littleton of a portion of a 34.5 KV transmission line from approximately NEP's Pattenville switching tower to Littleton's substation.

NEP tendered also a service agreement, dated June 30, 1976, between it and Littleton which provides for a new single transmission point at the Pattenville switching tower.

NEP requests that the notice requirements be waived in order to permit the agreements to be effective as of May 3, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 3, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76–842]

NEW ENGLAND POWER CO.

Transmission Contract

AUGUST 19, 1976.

Take notice that on August 4, 1976, New England Power Company (NEP tendered for filing a Transmission Contract between it and the Town of Braintree, Massachusetts, Electric Light Department (BELD) which is submitted as an initial rate schedule.

This contract provides for NEP to transmit across its system BELD's purchase from Vermont Electric Power Company, Inc. of 1,248 KW from Vermont's life-of-the-unit purchase of capacity in Public Service Company of New Hampshire's unit designated as Merrimack Unit No. 2.

NEP requests waiver of the notice requirements in order to permit the Contract to be effective as of April 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Section 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 3, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

In the matter of Northern Michigan Exploration Company, Docket No. RI76–132; Clark Oil Producing Company, Docket No. RI76–133; Diamond Shamrock Corporation, Docket No. RI76–135.

On August 12, 1976, Clark Oil Producing Company filed a motion to extend the time for filing direct testimony and

the date for the pre-hearing conference, fixed by Order issued August 4, 1976, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above-designated proceeding are extended as follows:

Date for filing direct testimony: August 31, 1976.

Pre-hearing conference, to convene at 9:30 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, September 23, 1976.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76–844]

NORTHERN STATES POWER CO.

Filing of Rate Schedule Supplement

AUGUST 19, 1976.

Take notice that Northern States Power Company on August 5, 1976, tendered for filing Supplement No. 3, dated June 21, 1976, to the Interconnection and Interchange Service Agreement with Minnesota Power & Light Company.

Supplement No. 3 adds the Sturgeon Lake and Forbes Interconnections and provides for the operation of the 500 KV transmission line from Forbes, Minnesota, to Minneapolis-St. Paul, Minnesota, as part of the parties' network.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 3, 1976.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CS73–388, *et al.*]

OIL RESOURCES INCORPORATED, OPERATOR, ET AL. AND OTHER APPLICANTS LISTED HEREIN

Applications for "Small Producer" Certificates [1]

AUGUST 19, 1976.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 10, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP68–15]

PANHANDLE EASTERN PIPE LINE CO.

Filing of Report

AUGUST 18, 1976.

Take notice that on August 2, 1976, in accordance with Paragraph (E) of the January 29, 1969, Escrow Instructions of Panhandle Eastern Pipe Line Company to the Commerce Bank of Kansas City (Commerce Bank) involving an initial deposit of $103,900.73, Commerce Bank filed a quarterly report certifying the amount on deposit in the Escrow Ac-

V 41 167 AUG 26 76 UMI

count at the end of the quarter ending on July 29, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 27, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2769]

PENNSYLVANIA ELECTRIC COMPANY AND ALLEGHENY ELECTRIC COOPERATIVE, INC.

Application for Preliminary Permit

AUGUST 18, 1976.

Public notice is hereby given that an application for a preliminary permit was filed on April 21, 1976, and supplemented June 21, 1976, under the Federal Power Act (16 U.S.C. §§ 791a–825r) by the Pennsylvania Electric Company and Allegheny Electric Cooperative, Inc. (Correspondence to: W. R. Thomas, Secretary and Treasurer, Pennsylvania Electric Company, 1001 Broad Street, Johnstown, Pennsylvania 15907; Mr. William F. Matson, Executive Vice President, Allgeheny Electric Cooperative Inc., 2929 North Front Street, Harrisburg, Pennsylvania 17110; with copies to: Harry N. Platt, Jr., Esq., Ballard, Saphr, Andrews and Ingersoll, United Engineers Building, 20th Floor, 30 South 17th Street. Philadelphia, Pennsylvania 19103; William C. Wise, Esq., 1019 19th Street, N.W., Suite 200, Washington, D.C. 20036; James B. Liberman, Esq., Berlack, Israels & Liberman, 26 Broadway, New York, New York 1004; Marian Schwalm Furmari, Esq., General Counsel, Allegheny Electric Cooperative, Inc., 2929 North Front Street, Harrisburg, Pennsylvania 17110) for the proposed Raystown Hydroelectric development, FPC Project No. 2769, to be located on the Raystown Branch of the Juniata River, near the community of Huntingdon in Huntingdon County, Pennsylvania. The project would affect lands of the United States in Juniata Township in Huntingdon County and the Corps of Engineers' Raystown Reservoir.

The Raystown Hydroelectric Project would utilize the 136-foot head created by the Corps of Engineers' Raystown Reservoir Project and would utilize the existing Corps of Engineers' diversion and emergency regulating tunnel to divert water from the Corps' reservoir to a powerhouse with maximum installed capacity of 50,000 kW.

Transmission facilities would be built to connect the generating facilities with a substation planned for construction for other purposes on the 230 kV transmission system of Pennsylvania Electric Company.

The power generated would be used in the Applicant's Service Area for public utility purposes.

A preliminary permit does not authorize construction. A permit, if issued, gives the permittees, during the term of the permit, the right of priority of application for a license while the permittees undertake the necessary studies and examinations to determine the engineering and economic feasibility of the proposed project, the market for the power, and all other necessary information for inclusion in an application for a license.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 30, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become a party to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-850]

PUBLIC SERVICE COMPANY OF COLORADO

Filing of Initial Rate Schedule

AUGUST 19, 1976.

Take notice that Public Service Company of Colorado (PSCo) on August 9, 1976 tendered for filing as an initial rate schedule a power and energy sales agreement among PSCo, Colorado-Ute Electric Association, Inc., and Salt River Project Agricultural Improvement and Power District.

The Agreement, known as the Hayden Power Pool Agreement, provides for Scheduling and Delivery of Economy Energy, Payments for Economy Energy, Transmission Service, Sale of Available Operating Capacity and other similar operating matters.

PSCo states that copies of the filing were served upon all parties and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 29426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such protests or petitions should be filed on or before August 27, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-24966 Filed 8-25-76;8:45 am]

[Docket No. RM74-18]

RATE OF INTEREST ON AMOUNTS SUBJECT TO REFUND

Order Granting Rehearing of Order No. 513–A for Purposes of Further Consideration

AUGUST 19, 1976.

On July 14, 1976, the Commission issued Order No. 513–A in the above-captioned docket. Applications for rehearing of the order were filed by Shell Oil Company (Shell) on July 21, 1976; by The California Company, a division of Chevron Oil Company (Calco) on August 2, 1976; by General American Oil Company of Texas (GA) on August 9, 1976; and by various municipal distributor groups purchasing natural gas from a number of the major interstate pipeline companies[1] (Municipals) on August 4, 1976. For the reasons stated below, we shall grant rehearing for the limited purpose of further consideration.

The applications for rehearing filed by Shell, Calco and GA were alternatively styled as motions for clarification of Order 513–A. In that order the Commission directed that the 9% interest rate prescribed in Order 513 be applied to refunds made on all excess charges collected on and after October 10, 1974, unles there was a final, non-appealable Commission order in the proceding directing the disbursement of refunds of amounts collected or held during the time periods which are the subject of the order. The Commission further stated that where such orders have been issued but are not final and non-appealable on the date of Order No. 513–A, the 9% interest rate will be applied.

Shell, Calco and GA contend that the latter exception to the final, non-appealable order exception to 513–A should not be read to include a situation where the Commission has previously entered a final order granting refunds, no longer subject to review, and has not yet ordered actual disbursement of the refunds, but has fixed the interest rate on the face of the Commission's order. This situation, Shell, Calco and GA contend, describes the status of the Commission's order in the second Southern Louisiana Area Rate Opinion, Opinion No. 598, where ordering paragraph (G) reads in part:
